# TABLE OF CONTENTS SUMMARY

How to use this Handbook ................................................................. i.
Detailed Table of Contents ............................................................. v.

## Chapter 1. General Hospital Provisions
- Part I. General Hospital Operations ................................................. 1
- Part II. Pharmacies and Controlled Substances ................................. 103
- Part III. Drug Take-Back Events .................................................... 159
- Part III. Tax ................................................................................. 164
- Part IV. Hospital Data Disclosure ................................................... 181

## Chapter 2. Regulated Healthcare Facilities
- Part I. Maternity Licensure ............................................................. 185
- Part II. Freestanding Healthcare Facilities .......................................... 220
- Part III. Health Care Services ......................................................... 281
- Part IV. Hospice Care .................................................................... 337
- Part V. Nursing Homes .................................................................. 356

## Chapter 3. Trauma
- Part I. Hospital Trauma Services ..................................................... 365
- Part II. EMS, EMT, Medical Transport .............................................. 370

## Chapter 4. Minors, Birth and Abortion
- Part I. Minors .............................................................................. 417
- Part II. Abortions ......................................................................... 420
- Part III. Birth ............................................................................... 444
- Part IV. Abandoned or Shaken Baby ............................................... 487

## Chapter 5. Death and Dying
- Part I. General Death and Dying Provisions ..................................... 503
- Part II. Advance Directives ............................................................. 528
- Part III. Law Caregivers ................................................................. 578

## Chapter 6. Vital Statistics ................................................................. 583

## Chapter 7. Liability, Police and Peer Review
- Part I. Medical and Other Liability .................................................. 593
- Part II. Police Requests, Consent, and Immunity .............................. 631
- Part III. Peer Review and Immunity ............................................... 665
- Part IV. Medical Records and Health Information Exchange ............ 670

## Chapter 8. Mental Health
- Part I. Mental Health Advance Directive ......................................... 683
- Part II. Voluntary and Involuntary Hospitalization ............................. 689
- Part III. Mental Health Hospital Licensing ....................................... 719

## Chapter 9. Crime, Records Check, False Claims and Fraud
- Part I. Crime .............................................................................. 751
- Part II. Criminal Records Check ..................................................... 791
- Part III. False Claims, Fraud, and Whistleblowers ........................... 860
- Part IV. Miscellaneous ................................................................. 871

## Chapter 10. Infectious Diseases and Public Health Issues
- Part I. General Provisions .............................................................. 893
- Part II. Animal Bite ...................................................................... 898
- Part III. Poison Control ................................................................. 900
- Part IV. AIDS and HIV ................................................................. 903
- Part V. Cancer ............................................................................ 913
- Part VI. Communicable Disease ..................................................... 917
- Part VII. Epinephrine to Treat Anaphylaxis ..................................... 939

## Chapter 11. Environmental, Radiation and Workplace
- Part I. Clean Air and Waste ........................................................... 943
- Part II. Fire Marshal and Petroleum Underground Storage .............. 1037
- Part III. Radiation: Licensees, Materials and Devices ...................... 1047
- Part IV. Workplace ..................................................................... 1084

## Chapter 12. Licensed Health Care Professionals
- Part I. Nurses ............................................................................. 1095
- Part II. Physician Assistants ......................................................... 1175
- Part III. Physicians ..................................................................... 1194
- Part IV. Physical Therapists .......................................................... 1265

## Additional Places to Find the Law
Statutes and Regulations Included .................................................. 1273
Index ......................................................................................... 1297
Ohio Hospital Association
HOSPITAL LAW HANDBOOK
8th Edition (Fall 2017)

A compendium of select Ohio statutes and regulations

This handbook is not legal advice or comprehensive and is not intended as a primary or sole source of law. Users should consult an attorney and check the web or other statute and regulation sources including checking for any additions, modifications, or corrections. The handbook also does not address the interpretation of law, such as through case law or administrative rulings.

Editors: Richard L. Sites and Brian D. Sites

How to use this Handbook:

Welcome to the Ohio Hospital Association Hospital Law Handbook’s 8th Edition. This book provides a concise collection of hospital-related provisions for quick reference. Additionally, its chapters and sections allow for easy navigation to specific topic areas and laws. This Handbook is designed to contain the statutes and regulations that are most pertinent to health care entity operations. However, it does not contain every statute or regulation that a health care professional might address, and it is not intended to be used for legal decision making. The Handbook is intended for quick reference and for locating relevant provisions to begin research efforts, not as a primary source of law. Appendixes to regulations are not displayed due to space limitations, and most provisions related to reimbursement are not included. For important matters, consult a primary source of law and an attorney.

This Handbook is divided into twelve chapters, each centered around a broad topic. Each topic is then divided into parts that cover major issues under that topic. Listed under these are subheadings, in italics, on specific issues. Finally, under these are the statute and regulation section numbers and titles—statutory titles and many rule titles were created by the editors for your convenience. Any section number with hyphens is a regulation from the Ohio Administrative Code; for example “3701-1-01” or “3701:1-1-01.” Those without hyphens are statutes from the Ohio Revised Code; for example, “3701.01.” You will also find editorial comments, marked as “[Editor’s Note].” Because each provision is listed only once in the Handbook—but might pertain to multiple topics and thus could have been listed in more than one of the twelve chapters—a sequential list of provisions as well as an index have been provided.

When navigating the Handbook, you will find the chapter number and, if the chapter has multiple parts, the part number in the upper left hand corner of each page. At the bottom-inside corner of the page, you will also find the subheading title or, if the section has no subheading, a descriptive term or phrase to assist your navigation.

The regulations and statutes in this Handbook reflect the versions effective as of fall 2017 unless otherwise noted. After consulting the Handbook, you should check to see if the law has changed. One way to check for changes is by searching for specific rule numbers at the Register of Ohio (www.registerofohio.state.oh.us/) or by consulting the State of Ohio’s Codes Website (http://codes.ohio.gov) for both statutes and regulations. Be aware that statutes listed on the Codes website are not immediately updated following a legislative enactment, but you can search for recent statutory changes on the Ohio legislative website (https://www.legislature.ohio.gov). Legal professionals often use online subscription-based services to identify recent changes (such as WestlawNext).

If you have any questions, please do not hesitate to contact Sean McGlone or Bryn Hunt at 614-221-7614.

Table of Contents: Detailed

CHAPTER 1. GENERAL HOSPITAL PROVISIONS ................................................................. 1

PART I: GENERAL HOSPITAL OPERATIONS .................................................................. 1
  Hospital Agencies ........................................................................................................ 1
  140.01 Definitions; hospital agencies ........................................................................... 1
  140.02 Cooperation of Hospital Agencies .................................................................... 3
  140.03 Facility agreements between hospitals; powers of hospital agencies; funds .......... 3
  140.04 Nursing care agreements with hospital agencies ............................................... 6
  140.05 Leasing hospital agency facilities to others ...................................................... 6
  140.051 Lease of nonprofit hospital agency; facilities not exempt from regulations . 7
  140.06 Revenue obligations ....................................................................................... 7
  140.07 Lawful investments .......................................................................................... 10
  140.08 Tax exempt ..................................................................................................... 10
  140.09 Computation of debt; exclusions .................................................................... 11

  Professional Associations ............................................................................................ 71
  1785.01 Professional Associations; definitions ............................................................ 11
  1785.02 Professional individuals and groups; who may incorporate ............................ 12
  1785.03 Prohibiting control of individual practitioner’s clinical judgment .................. 13

  Department of Health Requirements and Powers .................................................... 13
  3701.01 Department of Health; definitions .................................................................. 13
  3701.04 Ohio department of health authority to investigate; organize volunteers for emergencies .............................................................. 14
  3701.043 Evaluation for licensure, certification, or registration; fees .......................... 15
  3701.06 Director’s or director’s agent’s right of entry to investigate violations ............. 15
  3701.07 Rules for reports to health department; hospitals and dispensaries registration; residents’ rights advocates ........................................... 15
  3701.071 Records and registration for nonprofit shelter or health care facility ............ 16
  3701.072 Free clinics awareness ................................................................................. 16
  3701.33 The Ohio Public Health Advisory Board ...................................................... 17
  3701.34 The Ohio Public Health Advisory Board; duties ........................................... 18
  3701.71 Department of Health to set hospital minimum standards .............................. 19
  3701.72 Rules and regulations to establish minimum standards .................................. 19
  3701.73 Exceptions for institutions ............................................................................. 19
  3727.01 HMO, hospital, joint commission; definitions ................................................ 19
  3727.02 Required certification or accreditation to operate hospital ......................... 20
  3727.03 Proof of certification or accreditation to Department of Health .................... 20
  3727.04 Inspections; Director’s right ......................................................................... 20
  3727.06 Patient admission and supervision requirements ........................................... 21
  3727.99 Penalty for noncompliance with hospital certification or accreditation requirement ............................................................................................................. 21
  3701-59-01 Department of Health; general definitions ................................................ 22
  3701-59-03 Operation of hospitals, reporting accreditation, certification or withdrawal .............................................................. 24
  3701-59-04 Director’s investigation of violations; legal action ................................... 25
  3701-59-05 Hospital registration and reporting requirements ..................................... 25
  3701-75-04 Confidentiality statutes .......................................................................... 28

  Hospitals Working Together- Cooperative Agreements .............................................. 30
  3727.21 Hospital negotiations to allocate equipment or services ................................ 30
  3727.22 Cooperative agreements; requirements, updates and immunity ................. 30
  3727.24 State’s role in cooperative agreements .......................................................... 31

  County Hospitals ....................................................................................................... 32
  339.01 County authority to own hospitals ................................................................. 32
  339.02 Board of trustees ........................................................................................... 32
  339.03 Authority of board .......................................................................................... 35
  339.04 Hospital building fund .................................................................................. 35
  339.05 Purchasing procedures .................................................................................. 35
  339.06 Board’s operation of hospital ......................................................................... 36
  339.07 Hospital administration responsibilities ......................................................... 39
  339.08 Hospital trust requirements ............................................................................ 43
  339.09 Lease of hospital ............................................................................................ 44
CHAPTER 2. REGULATED HEALTHCARE FACILITIES

PART I. MATERNITY LICENSURE

Maternity Licensure- General Provisions

3711.01 Maternity homes; definitions. ........................................... 187
3711.02 Maternity license requirement. ............................................ 187
3711.04 License application. .......................................................... 187
3711.05 Application process. ......................................................... 187
3711.06 License inspections. ......................................................... 188
Health Care Services

Freestanding Diagnostic Imaging Centers

Radiation Therapy Center

Renal Dialysis Facilities

Rehabilitation Facilities

Birth Center

Radiation Therapy Center

Freestanding Diagnostic Imaging Centers

PART III. HEALTH CARE SERVICES
Pediatric Intensive Care

Adult Cardiac Catheterization

Bone Marrow Transplant

Solid Organ Transplant

3701-84-06 Inspections and audits by director; fees. .................................................. 290
3701-84-07 Patient care policies; minimum standards. .................................................. 291
3701-84-08 Personnel and staffing requirements; records; ongoing training. ............... 292
3701-84-09 Service standards; minimum standards ....................................................... 293
3701-84-10 Building and site requirements; minimum standards .................................. 293
3701-84-11 Medical records; minimum standards ....................................................... 294
3701-84-12 Quality assessment and improvement program ......................................... 294
3701-84-13 Complaints; content, documentation ....................................................... 295
3701-84-14 Variances and waivers from this chapter .................................................. 295
3701-84-16 Solid organ transplant service requirements .............................................. 296
3701-84-17 Required personnel and staffing ............................................................... 297
3701-84-18 Facilities; minimum standards ................................................................. 298
3701-84-19 Safety requirements .................................................................................... 299
3701-84-20 Patient selection criteria .............................................................................. 300
3701-84-21 Volume goals; failing to meet goals ............................................................. 301
3701-84-24 Bone marrow transplant service standard criteria ...................................... 301
3701-84-25 Personnel and staffing criteria .................................................................. 302
3701-84-26 Facilities and safety; minimum standards .................................................... 303
3701-84-27 Patient selection for transplantation; volume goals .................................... 303
3701-84-30 General adult cardiac catheterization service standards ......................... 304
3701-84-30.1 Level I cardiac catheterization service standards .................................. 304
3701-84-30.2 Level II cardiac catheterization service standards .................................. 307
3701-84-30.3 Level III cardiac catheterization service standards ................................ 308
3701-84-31 General personnel/staffing - adult cardiac catheterization service .......... 311
3701-84-32 General facilities, equipment, and supplies - adult cardiac catheterization service .......................... 313
3701-84-33 Safety guidelines and standards ............................................................... 315
3701-84-34 Adult cardiac catheterization service performance measures ................... 315
3701-84-34.1 Inspection and review of adult cardiac catheterization services ............... 316
3701-84-34.2 Order to cease operations of an adult cardiac catheterization service ....... 316
3701-84-36 Open heart surgery standards .................................................................. 317
3701-84-37 Personnel and staffing; minimum requirements ....................................... 318
3701-84-38 Facilities and equipment; minimum standards ........................................... 319
3701-84-39 Quality assessment and performance improvement - open heart surgery service .................................................. 320
3701-84-40 Adult open heart surgery service performance measures ......................... 321
3701-84-61 Pediatric intensive care service requirements ............................................ 321
3701-84-62 Personnel and staffing; minimum standards ............................................. 324
3701-84-63 Facilities; design and minimum standards .................................................. 325
3701-84-64 Equipment and supplies; minimum requirements ..................................... 326
3701-84-65 Quality assessment and improvement program ........................................ 327
3701-84-67 Radiation therapy and radiosurgery service standards ............................ 328
3701-84-68 Personnel and staffing; minimum requirements ....................................... 328
3701-84-69 Facilities and equipment; minimum standards ........................................... 329
3701-84-70 Radiation therapy service standards ....................................................... 330
3701-84-71 Radiation safety standards ......................................................................... 331
3701-84-72 Quality assessment program ..................................................................... 332
3701-84-73 Medical record; content requirements ...................................................... 332
3701-84-75 Pediatric cardiac catheterization service standards .................................. 332
3701-84-76 Personnel/staffing ..................................................................................... 333
3701-84-77 Facilities and equipment; design and minimum requirements ................. 334
3701-84-78 Safety guidelines ....................................................................................... 335
3701-84-79 Patient selection criteria; volume goals; failure to meet goals .................... 336
3701-84-81 Pediatric cardiovascular surgery standards ............................................... 336
3701-84-82 Personnel and staffing requirements ....................................................... 337
CHAPTER 3. TRAUMA ............................................................................................................. 340

PART IV. HOSPICE CARE ..................................................................................................... 340

Hospice Care General Provisions ......................................................................................... 340

3712.01 Hospice; definitions .............................................................................................. 340
3712.04 Hospice licensure ................................................................................................. 341
3712.05 License required; legal action against unlicensed program ................................. 342
3712.06 Licensure requirements; contracting-out for service requirements ...................... 342
3712.07 Terminal care facility for the homeless ................................................................. 343
3712.08 Hospice licensing for nursing home ................................................................. 344
3701-19-01 Definitions ....................................................................................................... 344
3701-19-06 Governing body; quality assessment and performance improvement .......... 346
3701-19-07 General requirements for hospice care programs after licensure ............... 347
3701-19-08 Standards for inpatient hospice facilities ..................................................... 348
3701-19-09 General requirements for hospice care program personnel ......................... 350
3701-19-10 Medical director ............................................................................................ 351
3701-19-11 Interdisciplinary team and interdisciplinary plan of care ............................... 351
3701-19-12 Contracted services ....................................................................................... 352
3701-19-13 Volunteer services ......................................................................................... 354
3701-19-14 Nursing services ......................................................................................... 354
3701-19-15 Medical social services ................................................................................. 354
3701-19-16 Home care services ....................................................................................... 355
3701-19-17 Medical services ........................................................................................... 355
3701-19-18 Counseling and bereavement services ......................................................... 356
3701-19-19 Physical therapy, occupational therapy, and speech therapy services .......... 356
3701-19-20 Admission of patients to the hospice care program ..................................... 357
3701-19-21 Medical supplies, drugs, and biologicals ....................................................... 358
5160-56-03.3 Hospice services; reporting requirements ..................................................... 358

PART V. NURSING HOMES ................................................................................................. 359

Nursing Homes- General Provisions .................................................................................... 359

3721.01 Defining and classifying facility restrictions ....................................................... 360
3721.041 Nursing home must post flu vaccine information .............................................. 362
3721.05 Annual license requirements; violations .............................................................. 362
3721.28 Nurse and nurse aides competency evaluation program ................................. 363
3721.32 Nurse aide registry elements; disclosure on request by director ....................... 366

CHAPTER 3. TRAUMA ............................................................................................................. 368

PART I. HOSPITAL TRAUMA SERVICES ........................................................................... 368

Hospital Trauma Services ................................................................................................. 368

3727.081 Level II pediatric trauma centers; rules ......................................................... 368
3727.09 Trauma care procedures; trauma patient transfer requirements ....................... 368
3727.10 Hospital trauma care prohibitions ..................................................................... 370
3727.101 Initial verification, verification at different level and revalidation application; operation with provisional status ................................................................. 370
3727.102 Changes in trauma care status; notice required ............................................. 372

PART II. EMS, EMT, MEDICAL TRANSPORT .................................................................. 373

EMS, EMT, Medical Transport General Provisions ........................................................ 373

4765.01 Emergency medical services; definitions ......................................................... 379
4765.04 Emergency medical services; firefighter and fire safety inspector training committee; trauma committee; other committees ................................................................. 375
4765.06 Emergency incidence reporting system; delivery and frequency of services; trauma registries; confidentiality of information ................................................................. 378
4765.12 Trauma victims; guidelines for care; peer review and quality assurance programs required ................................................................. 380
4765.35 First responders; services permissible; rules ...................................................... 380
4765.36 Emergency medical technician services while in hospital .................................. 381
4765.37 EMT-basic; performance of services ................................................................. 381
4765.38 EMT-intermediate; performance of services ...................................................... 382
4765.39 EMT-paramedic; performance of services; emergency situations ...................... 383
4765.391 EMS flu vaccine ................................................................................................. 383
4765.40 Trauma victims; state and regional triage protocols ......................................... 384
CHAPTER 4. MINORS, BIRTH AND ABORTION........................................................................ 420

PART I. MINORS ............................................................................................................... 420
  Minor’s Consent............................................................................................................. 420
  2108.31 Blood donation; minors. .................................................................................. 420
  2151.33 Consent and reimbursement for emergency treatment of minor. ....................... 420
  3109.01 Minors; age of majority................................................................................... 422
  3709.241 Minor’s consent to diagnosis and treatment of venereal disease. ..................... 422
  3719.012 Minor’s consent to drug-related treatment. ..................................................... 423

PART II. ABORTIONS........................................................................................................... 423
  Abortions: General Provisions...................................................................................... 423
  2317.56 Abortion protocols and definitions.................................................................... 423
  2317.561 Ultrasound before abortion............................................................................ 426
  2919.11 Abortion; definitions. ....................................................................................... 426
  2919.12 Informed consent required; unmarried minors. .............................................. 426
  2919.121 Emancipated minor; performing an unlawful abortion. ................................. 429
  2919.151 Partial birth fetocide definitions and protocols. ........................................... 430
  2919.16 Post-viability abortions; definitions. ................................................................. 431
  2919.17 Performing or attempting to perform an abortion after viability. ...................... 432
  2919.171 Physician to submit report.............................................................................. 434
  2919.18 Viability tests required; violations. ..................................................................... 434
  2919.20 Abortion definitions. ....................................................................................... 435
PART III. BIRTH

Umbilical Cord Blood, Paternity and Tests for Pregnant Women ........................................ 447

2108.52 Umbilical cords blood donations. .................................................................................. 447
2111.63 Qualified immunity related to umbilical cord blood donations. ................................. 447
3111.30 Acknowledgment of paternity update. ......................................................................... 448
3111.31 Paternity affidavit acknowledgement. ........................................................................... 448
3111.32 Pamphlets and toll-free number. .................................................................................... 448
3111.33 Pamphlets and acknowledgment of paternity affidavits. ............................................. 449
3111.34 Rules for new birth record to be adopted. ..................................................................... 449
3111.35 Provision implementation; rules shall be adopted. ......................................................... 449
3701.46 Tests for pregnant women. ............................................................................................. 449
3701.48 Syphilis and gonorrhea tests in cases of birth or fetal deaths. ..................................... 449
3701.49 When health commissioner shall test for syphilis and gonorrhea. ................................ 449
3701.50 Tests for pregnant women; duty of physician; waiver. .................................................. 450
3727.17 Birth; unmarried mothers; requirement to meet with parents. .................................... 450
5101:12-40-05 Determination of existence/non-existence of father-child relationship. ............... 451
5101:12-40-15 Acknowledgment of paternity. ............................................................................. 454

Medically Handicapped Children .............................................................................................. 455

3701.021 Service protocols. ......................................................................................................... 455
3701.022 General definitions. ..................................................................................................... 456
3701.023 Department of health powers and duties. .................................................................... 457

Newborn Screening, Hearing and Hearing Impairment ............................................................... 459

3701.501 Screening newborn infants; advisory council. ............................................................. 459
3701.504 Statewide hearing screening program. ........................................................................... 461
3701.505 Screening required. ....................................................................................................... 462
3701.506 Department of health; hearing screen information. ...................................................... 462
3701.508 Director of Health to adopt hearing screening rules. .................................................... 463
3701.509 Analyzing results; required report. .............................................................................. 463
3701.5010 Critical congenital heart defects newborn screening. .................................................. 464
3701.40-01 Hearing screening for infants and newborns; definitions. ........................................ 465
3701.40-02 Hearing screening requirements. ................................................................................ 467
3701.40-03 Duty of board of health upon notification. ................................................................. 469
3701.40-04 Objections to screening. ............................................................................................. 469
3701.40-05 Hearing screening personnel; minimum requirements. ............................................ 470
3701.40-06 Screening requirements. ............................................................................................ 470
3701.40-07 Reimbursement. ......................................................................................................... 470

3701-5-01 Vital statistics; definitions. ............................................................... 590
3701-5-04 Delayed birth registration. ............................................................... 592
3701-5-06 Medical certificate of death. ............................................................. 593
3701-5-07 Death certificate when the cause of death unknown. .................. 593
3701-5-16 Birth certificate for birth outside an institution. ............................. 593

CHAPTER 7. LIABILITY, POLICE, PEER REVIEW, AND HEALTH INFORMATION EXCHANGE ...... 595

PART I. MEDICAL AND OTHER LIABILITY ..................................................... 595
Medical and Other Liability—General Provisions .......................................... 595
9.86 Employee and officer civil liability. ......................................................... 595
2108.30 Human fluids or body parts transactions not sales. ......................... 595
2125.01 Wrongful death ................................................................................. 595
2305.11 Non-medical torts statute of limitations. ........................................... 596
2305.113 Time limit for claims. ...................................................................... 596
2305.113 Time limit for claims. ...................................................................... 596
2305.23 Emergency care liability. ................................................................. 601
2305.231 Immunity for healthcare volunteers in school athletics. ................. 602
CHAPTER 8. MENTAL HEALTH

PART I. MENTAL HEALTH ADVANCE DIRECTIVE

Mental Health Advance Directive

2135.01 Mental health advance directive; definitions. ............................................. 684
2135.02 Mental health treatment declaration .......................................................... 685
2135.03 Declaration validity and revocation. ............................................................ 685
2135.04 Effect and operation of declaration................................................................. 686
2135.05 Proxies ........................................................................................................... 686
2135.06 Declaration requirements ............................................................................. 687
2135.07 Refusal to comply with declaration ............................................................. 688
2135.08 Proxy’s liability. ............................................................................................ 688
2135.09 Declaration revocation. ................................................................................ 688
2135.10 Care provider liability and immunity ......................................................... 689
2135.11 Prohibition on mandatory execution and restraint. .................................... 689
2135.12 Priority and scope of declaration ................................................................. 689
2135.13 Opposing decisions; physician may petition. .............................................. 689
2135.14 Printed form use ......................................................................................... 690

PART II. VOLUNTARY AND INVOLUNTARY HOSPITALIZATION ......................... 690
Voluntary and Involuntary Hospitalization ............................................................... 690
5122.01 Definitions governing mental health statutes .............................................. 690
5122.011 Applicability of and conflicts between provisions; insanity .................. 693
5122.02 Admission of patients ............................................................................... 693
5122.03 Voluntary patient’s right to request release .............................................. 694
5122.04 Outpatient mental health services .............................................................. 695
5122.05 Involuntary admission .............................................................................. 695
5122.09 Release prior to initial hearing; court record expunged ............................. 696
5122.10 Emergency mental health admission ....................................................... 696
5122.11 Hospitalization by affidavit ........................................................................ 697
5122.111 Court-ordered treatment affidavit of mental illness ............................... 698
5122.12 Hearing notice .......................................................................................... 700
5122.13 Court investigation; temporary detention order ....................................... 700
5122.14 Admission by affidavit; required medical examination ......................... 701
5122.141 Determination of mental illness; hearing .............................................. 701
5122.15 Full hearing; respondent’s rights ............................................................... 702
5122.16 Federal facility hospitalization ................................................................. 706
5122.17 Temporary detention in medical facility ............................................... 706
5122.18 Hospitalization; notice ............................................................................. 706
5122.19 Medical examination required ................................................................. 706
5122.20 Transferring patients involuntarily committed ......................................... 706
5122.21 Discharge of involuntary mental health inpatients .................................. 707
5122.22 Trial visit releases .................................................................................... 708
5122.23 Report of vital statistics to department ..................................................... 708
5122.231 Hospitalization; alcohol, drug addiction, and mental health services ...... 708
5122.25 Hospitalization; rehearings ..................................................................... 709
5122.26 Unauthorized absence; escape ................................................................. 709
5122.27 Chief clinical officer to assure standards of care; required treatment unavailable 709
5122.271 Consent required for certain treatments; medical emergency protocols 710
5122.29 Patients’ rights ......................................................................................... 711
5122.30 Patients’ rights; habeas corpus ................................................................. 712
5122.301 Rights of patients preserved ............................................................... 713
5122.31 Information disclosure ............................................................................ 713
5122.311 Mentally ill or involuntary person’s admission; notice ......................... 714
5122.32 Quality assurance program records; confidentiality ............................... 715
5122.33 Department of mental health powers ....................................................... 717
5122.34 Liability of participants .......................................................................... 717
5122.35 Probate court’s jurisdiction .................................................................... 717
5122.38 Competency adjudication ...................................................................... 717
5122.39 Mentally ill minors; guardianship ........................................................... 718
5122.41 Patient’s possessions at time of hospitalization; special guardian ......... 718
5122.42 Rules of construction; preservation of rights .......................................... 718
5122.43 Costs and expenses of proceedings ....................................................... 718
5122.49 Violations of confidentiality of quality assurance records ..................... 720
5122.27-06 Release of information ...................................................................... 720

PART III. MENTAL HEALTH HOSPITAL LICENSING ........................................ 720
Mental Health Hospital Licensing ............................................................................. 720
5119.23 Department of mental health and addiction services; reimbursement .... 720
5119.311 Department of Mental Health and Addiction Services powers .......... 721
5119.331 Injunctions against unlicensed hospitals providing treatment or care. 721

xviii
CHAPTER 9. CRIME, RECORDS CHECK, FALSE CLAIMS AND FRAUD

PART I. CRIME

Crime - General Provisions

109:7-1-01 Sexual assault examination protocol.......................................................... 751
109:7-1-02 Sexual assault examination payment amount.................................................. 751
2151.421 Abuse or neglect of child............................................................................. 751
2903.13 Assault including against hospital staff member............................................ 760
2903.33 Patient abuse; definitions............................................................................. 764
2903.34 Abuse or neglect of a patient......................................................................... 764
2903.341 Patient endangerment; defenses................................................................. 765
2907.28 Victim or accused’s medical exam............................................................... 766
2907.29 Victim’s emergency medical services............................................................ 767
2907.30 Interview by peace officer with crisis training.............................................. 768
2921.22 Reporting requirement for felony, gunshot, stabbing, burn injuries and suspected domestic violence. 768
2927.01 Human corpse abuse.................................................................................... 770
3721.22 Abuse of patient; duty to report; immunity.................................................... 771
3727.08 Domestic violence; hospital protocols.......................................................... 771
3727.18 Hospital may post warning notice regarding assaults against staff............. 771
4113.52 Ohio whistleblower protections; retaliation.................................................. 772
4973.17 Commission of hospital police.................................................................... 774
501.60 Definition of older adult; abuse..................................................................... 778
501.60 Definition of older adult; neglect.................................................................... 779
501.61 Reporting suspected abuse or neglect of adult............................................. 781
5123.61 Abuse or neglect of developmentally disabled........................................... 784
5123.61 Abuse or neglect of developmentally disabled........................................... 787
3701-64-02 Abuse and neglect of nursing home resident........................................... 790

PART II. CRIMINAL RECORDS CHECK

Criminal Records Check - General Provisions

109.572 Checking criminal records........................................................................ 792
109.572 Checking criminal records........................................................................ 799
109.572 Checking criminal records........................................................................ 806
109.575 Providing volunteers notice of fingerprinting or criminal background checks.................................................. 813
109.576 Notifying parent or guardian of volunteer’s conviction.................................. 814
109.577 Volunteer criminal records check and organization immunity........................ 814
2151.86 Criminal records check regarding out-of-home child care........................ 815
2953.25 Certificate of qualification for employment; immunity.................................... 819
2961.22 Certificate of achievement and employability............................................. 824
2961.23 Certificate of achievement and employability; immunity............................ 825
3701.881 Criminal records check for home health agency employment applicants........ 826
3712.09 Criminal records check regarding hospice care.......................................... 831
3721.121 Criminal records check regarding nursing home or adult day care............. 835
4729-9-26 Criminal records check for pain management clinics.............................. 838

Nursing Homes, Hospice and Adult Care

3701-13-01 Offenses, older adults; definitions............................................................. 839
3701-13-02 Persons subject to checks......................................................................... 841
3701-13-03 Criminal records check............................................................................ 842
### PART I. GENERAL PROVISIONS

**General Provisions** .................................................. 893

339.78 Physicians report of tuberculosis to county or district TB control unit. .............................. 893
3701.13 Authority of Department of Health ........................................ 893
3701.14 Director of health special duties ........................................ 894
3701.17 Maintaining confidential health information; releasing information .............................. 895
3701.22 Maintaining a public health laboratory ........................................ 896
3701.232 Pharmacy or pharmacist’s duty to report ........................................ 896
3701.352 Violation of health department pandemic, epidemic, bioterrorism rule .............................. 897
3701.85 Automated external defibrillator ........................................ 897

### PART II. ANIMAL BITE

**Animal Bite** .................................................. 898

3701-3-28 Reporting dog/mammal bite ........................................ 898
3701-3-29 Reporting and confining biting animal ........................................ 898
3701-3-30 Reporting suspected rabid mammal ........................................ 899

### PART III. POISON CONTROL

**Poison Control** .................................................. 900

3701-19 Poison prevention and treatment center; definitions ........................................ 900
3701-20 Establishing, promoting, and maintaining poison control network .............................. 900
3701-201 Reporting by poison control centers; bioterrorism ........................................ 901
3701-3-14 Reporting by poison control centers ........................................ 902

Chapter 1. General Hospital Provisions

Part I: General Hospital Operations

Hospital Agencies

140.01 Definitions; hospital agencies.

As used in this chapter:

(A) “Hospital agency” means any public hospital agency or any nonprofit hospital agency.

(B) “Public hospital agency” means any county, board of county hospital trustees established pursuant to section 339.02 of the Revised Code, county hospital commission established pursuant to section 339.14 of the Revised Code, municipal corporation, new community authority organized under Chapter 349 of the Revised Code, joint township hospital district, state or municipal university or college operating or authorized to operate a hospital facility, or the state.

(C) “Nonprofit hospital agency” means a corporation or association not for profit, no part of the net earnings of which inures or may lawfully inure to the benefit of any private shareholder or individual, that has authority to own or operate a hospital facility or provides or is to provide services to one or more other hospital agencies.

(D) “Governing body” means, in the case of a county, the board of county commissioners or other legislative body; in the case of a board of county hospital trustees, the board; in the case of a county hospital commission, the commission; in the case of a municipal corporation, the council or other legislative authority; in the case of a new community authority, its board of trustees; in the case of a joint township hospital district, the joint township district hospital board; in the case of a state or municipal university or college, its board of trustees or board of directors; in the case of a nonprofit hospital agency, the board of trustees or other body having general management of the agency; and, in the case of the state, the director of development services or the Ohio higher educational facility commission.

(E) “Hospital facilities” means buildings, structures and other improvements, additions thereto and extensions thereof, furnishings, equipment, and real estate and interests in real estate, used or to be used for or in connection with one or more hospitals, emergency, intensive, intermediate, extended, long-term, or self-care facilities, diagnostic and treatment and out-patient facilities, facilities related to programs for home health services, clinics, laboratories, public health centers, research facilities, and rehabilitation facilities, for or pertaining to diagnosis, treatment, care, or rehabilitation of sick, ill, injured, infirm, impaired, disabled, or handicapped persons, or the prevention, detection, and control of disease, and also includes education, training, and food service facilities for health professions personnel, housing facilities for such personnel and their families, and parking and service facilities in connection with any of the foregoing; and includes any one, part of, or any combination of the foregoing; and further includes site improvements, utilities, machinery, facilities, furnishings, and any separate or connected buildings, structures, improvements, sites, utilities, facilities, or equipment to be used in, or in connection with the operation or maintenance of, or supplementing or otherwise related to the services or facilities to be provided by, any one or more of such hospital facilities.

(F) “Costs of hospital facilities” means the costs of acquiring hospital facilities or interests in hospital facilities, including membership interests in nonprofit hospital agencies, costs of constructing hospital facilities, costs of improving one or more hospital facilities, including reconstructing, rehabilitating, remodeling, renovating, and enlarging, costs of equipping and
furnishing such facilities, and all financing costs pertaining thereto, including, without limitation thereto, costs of engineering, architectural, and other professional services, designs, plans, specifications and surveys, and estimates of cost, costs of tests and inspections, the costs of any indemnity or surety bonds and premiums on insurance, all related direct or allocable administrative expenses pertaining thereto, fees and expenses of trustees, depositories, and paying agents for the obligations, cost of issuance of the obligations and financing charges and fees and expenses of financial advisors, attorneys, accountants, consultants and rating services in connection therewith, capitalized interest on the obligations, amounts necessary to establish reserves as required by the bond proceedings, the reimbursement of all moneys advanced or applied by the hospital agency or others or borrowed from others for the payment of any item or items of costs of such facilities, and all other expenses necessary or incident to planning or determining feasibility or practicability with respect to such facilities, and such other expenses as may be necessary or incident to the acquisition, construction, reconstruction, rehabilitation, remodeling, renovation, enlargement, improvement, equipment, and furnishing of such facilities, the financing thereof, and the placing of the same in use and operation, including any one, part of, or combination of such classes of costs and expenses, and means the costs of refinancing obligations issued by, or reimbursement of money advanced by, nonprofit hospital agencies or others the proceeds of which were used for the payment of costs of hospital facilities, if the governing body of the public hospital agency determines that the refinancing or reimbursement advances the purposes of this chapter, whether or not the refinancing or reimbursement is in conjunction with the acquisition or construction of additional hospital facilities.

(G) “Hospital receipts” means all moneys received by or on behalf of a hospital agency from or in connection with the ownership, operation, acquisition, construction, improvement, equipping, or financing of any hospital facilities, including, without limitation thereto, any rentals and other moneys received from the lease, sale, or other disposition of hospital facilities, and any gifts, grants, interest subsidies, or other moneys received under any federal program for assistance in financing the costs of hospital facilities, and any other gifts, grants, and donations, and receipts therefrom, available for financing the costs of hospital facilities.

(H) “Obligations” means bonds, notes, or other evidences of indebtedness or obligation, including interest coupons pertaining thereto, issued or issuable by a public hospital agency to pay costs of hospital facilities.

(I) “Bond service charges” means principal, interest, and call premium, if any, required to be paid on obligations.

(J) “Bond proceedings” means one or more ordinances, resolutions, trust agreements, indentures, and other agreements or documents, and amendments and supplements to the foregoing, or any combination thereof, authorizing or providing for the terms, including any variable interest rates, and conditions applicable to, or providing for the security of, obligations and the provisions contained in such obligations.

(K) “Nursing home” has the same meaning as in division (A)(1) of section 5701.13 of the Revised Code.

(L) “Residential care facility” has the same meaning as in division (A)(2) of section 5701.13 of the Revised Code.

(M) “Independent living facility” means any self-care facility or other housing facility designed or used as a residence for elderly persons. An “independent living facility” does not include a residential facility, or that part of a residential facility, that is any of the following:

(1) A hospital required to be certified by section 3727.02 of the Revised Code;

(2) A nursing home or residential care facility;

(3) A facility operated by a hospice care program licensed under section 3712.04 of the Revised Code and used for the program’s hospice patients;

(4) A residential facility licensed by the department of mental health and addiction services under section 5119.34 of the Revised Code that provides accommodations,
supervision, and personal care services for three to sixteen unrelated adults;

(5) A residential facility licensed by the department of mental health and addiction services under section 5119.34 of the Revised Code that is not a residential facility described in division (M)(4) of this section;

(6) A facility licensed to provide methadone treatment under section 5119.391 of the Revised Code;

(7) A community addiction services provider, as defined in section 5119.01 of the Revised Code;

(8) A residential facility licensed under section 5123.19 of the Revised Code or a facility providing services under a contract with the department of developmental disabilities under section 5123.18 of the Revised Code;

(9) A residential facility used as part of a hospital to provide housing for staff of the hospital or students pursuing a course of study at the hospital.

140.02 Cooperation of Hospital Agencies.

The authorizations granted in this chapter, as well as those granted under sections 3702.51 to 3702.62 of the Revised Code, are granted for the public purpose of better providing for the health and welfare of the people of the state by enhancing the availability, efficiency, and economy of hospital facilities and the services rendered thereby, by providing for cooperation of hospital agencies in the utilization of shared facilities and services to obtain economies in operation and more effective health service, facilitating participation of hospital agencies in federal financial assistance provided by Title IV of the "Public Health Service Act," 60 Stat. 1041 (1946), 42 U.S.C. 291, as amended, and by other federal programs for assistance in meeting the costs of hospital facilities or the financing thereof, providing efficient operation of hospital facilities through leasing to hospital agencies and facilitating the financing of hospital facilities to be available to or for the service of the general public without discrimination by reason of race, creed, color, or national origin, provided that nothing in this chapter shall be construed to authorize anything prohibited by section 4723.44, 4731.41, 4731.43, 4731.60, or 4755.48 of the Revised Code.

140.03 Facility agreements between hospitals; powers of hospital agencies; funds.

(A) Two or more hospital agencies may enter into agreements for the acquisition, construction, reconstruction, rehabilitation, remodeling, renovating, enlarging, equipping, and furnishing of hospital facilities, or the management, operation, occupancy, use, maintenance, and repair of hospital facilities, or for participation in programs, projects, activities, and services useful to, connected with, supplementing, or otherwise related to the services provided by, or the operation of, hospital facilities operated by one or more participating hospital agencies, including any combination of such purposes, all in such manner as to promote the public purpose stated in section 140.02 of the Revised Code. A city health district; general health district; board of alcohol, drug addiction, and mental health services; county board of developmental disabilities; the department of mental health and addiction services; the department of developmental disabilities; or any public body engaged in the education or training of health professions personnel may join in any such agreement for purposes related to its authority under laws applicable to it, and as such a participant shall be considered a public hospital agency or hospital agency for the purposes of this section.

(B) An agreement entered into under authority of this section shall, where appropriate, provide for:

(1) The manner in which the title to the hospital facilities, including the sites and interest in real estate pertaining thereto, is to be held, transferred, or disposed of;
(2) Unless provided for by lease pursuant to section 140.05 of the Revised Code, the method by which such hospital facilities are to be acquired, constructed, or otherwise improved and by which they shall be managed, occupied, maintained, and repaired, including the designation of one of the hospital agencies to have charge of the details of acquisition, construction, or improvement pursuant to the contracting procedures prescribed under the law applicable to one of the participating public hospital agencies;

(3) The management or administration of any such programs, projects, activities, or services, which may include management or administration by one of said hospital agencies or a board or agency thereof;

(4) Annual, or more frequent, reports to the participating hospital agencies as to the revenues and receipts pertaining to the subject of the agreement, the expenditures thereof, the status and application of other funds contributed under such agreement, and such other matters as may be specified by or pursuant to such agreement;

(5) The manner of apportionment or sharing of costs of hospital facilities, any other applicable costs of management, operation, maintenance, and repair of hospital facilities, and costs for the programs, projects, activities, and services forming the subject of the agreement, which apportionment or sharing may be prescribed in fixed amounts, or determined by ratios, formulas, or otherwise, and paid as service charges, rentals, or in such other manner as provided in the agreement, and may include amounts sufficient to meet the bond service charges and other payments and deposits required under the bond proceedings for obligations issued to pay costs of hospital facilities. A hospital agency may commit itself to make such payments at least for so long as any such obligations are outstanding. In the apportionment, different classes of costs or expenses may be apportioned to one or more, all or less than all, of the participating hospital agencies as determined under such agreement.

(C) An agreement entered into under authority of this section may provide for:

(1) An orderly process for making determinations or advising as to planning, execution, implementation, and operation, which may include designating one of the hospital agencies, or a board thereof, for any of such purposes, provisions for a committee, board, or commission, and for representation thereon, or as may otherwise be provided;

(2) Securing necessary personnel, including participation of personnel from the respective hospital agencies;

(3) Standards or conditions for the admission or participation of patients and physicians;

(4) Conditions for admittance of other hospital agencies to participation under the agreement;

(5) Fixing or establishing the method of determining charges to be made for particular services;

(6) The manner of amending, supplementing, terminating, or withdrawal or removal of any party from, the agreement, and the term of the agreement, or an indefinite term;

(7) Designation of the applicants for or recipients of any federal, state, or other aid, assistance, or loans available by reason of any activities conducted under the agreement;

(8) Designation of one or more of the participating hospital agencies to maintain, prepare, and submit, on behalf of all parties to the agreement, any or all records and reports with regard to the activities conducted under the agreement;

(9) Any incidental use of the hospital facilities, or services thereof, by participating public hospital agencies for any of their lawful purposes, which incidental use does not impair the character of the facilities as hospital facilities for any purpose of this chapter;

(10) Such other matters as the parties thereto may agree upon for the purposes of division (A) of this section.

(D) For the purpose of paying or contributing its share under an agreement made under this section, a public hospital agency may:
(1) Expend any moneys from its general fund, and from any other funds not otherwise restricted by law, but including funds for permanent improvements of hospital facilities of such public hospital agency where the contribution is to be made toward the costs of hospital facilities under the agreement, and including funds derived from levies for, or receipts available for, operating expenses of hospital facilities or services of such public hospital agency where the contribution or payment is to be made toward operating expenses of the hospital facilities or services under the agreement or for the services provided thereby;

(2) Issue obligations under Chapter 133 or section 140.06, 339.14, 339.15, 513.12, or 3345.12 of the Revised Code, or Section 3 of Article XVIII, Ohio Constitution, if applicable to such public hospital agency, to pay costs of hospital facilities, or issue obligations under any other provision of law authorizing such public hospital agency to issue obligations for any costs of hospital facilities;

(3) Levy taxes under Chapter 5705 or section 513.13 or 3709.29 of the Revised Code, if applicable to such public hospital agency, provided that the purpose of such levy may include the provision of funds for either or both permanent improvements and current expenses if required for the contribution or payment of such hospital agency under such agreement, and each such public hospital agency may issue notes in anticipation of any such levy, pursuant to the procedures provided in section 5705.191 of the Revised Code if the levy is solely for current expenses, and in section 5705.193 of the Revised Code if the levy is all or in part for permanent improvements;

(4) Contribute real and personal property or interest therein without necessity for competitive bidding or public auction on disposition of such property.

(E) Any funds provided by public hospital agencies that are parties to an agreement entered into under this section shall be transferred to and placed in a separate fund or funds of such participating public hospital agency as is designated under the agreement. The funds shall be applied for the purposes provided in such agreement and are subject to audit. Pursuant to any determinations to be made under such agreement, the funds shall be deposited, invested, and disbursed under the provisions of law applicable to the public hospital agency in whose custody the funds are held. This division is subject to the provisions of any applicable bond proceedings under section 133.08, 140.06, 339.15, or 3345.12 of the Revised Code or Section 3 of Article XVIII, Ohio Constitution. The records and reports of such public hospital agency under Chapter 117 of the Revised Code and sections 3702.51 to 3702.62 of the Revised Code, with respect to the funds shall be sufficient without necessity for reports thereon by the other public hospital agencies participating under such agreement.

(F)(1) Prior to its entry into any such agreement, the public hospital agency must determine, and set forth in a resolution or ordinance, that the contribution to be made by it under such agreement will be fair consideration for value and benefit to be derived by it under such agreement and that the agreement will promote the public purpose stated in section 140.02 of the Revised Code.

(2) If the agreement is with a board of county commissioners, board of county hospital trustees, or county hospital commission and is an initial agreement for the acquisition or operation of a county hospital operated by a board of county hospital trustees under section 339.06 of the Revised Code, the governing body of the public hospital agency shall submit the agreement, accompanied by the resolution or ordinance, to the board of county commissioners for review pursuant to section 339.091 of the Revised Code. The agreement may be entered into only if the board of county commissioners adopts a resolution under that section. The requirements of division (F)(2) of this section do not apply to the agreement if one or more hospitals classified as general hospitals by the director of health under section 3701.07 of the Revised Code are operating in the same county as the county hospital.
140.04 Nursing care agreements with hospital agencies.

A public hospital agency may enter into agreements with other hospital agencies, or with homes providing skilled nursing care which are licensed as nursing homes under Chapter 3721 of the Revised Code, to provide or arrange for extended care services to patients of a hospital of such public hospital agency when such services are medically appropriate for them. Such agreements may require such extended care services to be provided under the supervision of the professional staff of the hospital of such public hospital agency or, where such facility in which the extended care is to be provided has an organized medical staff, for transfer arrangements with the hospital of such public hospital agency, or may make other arrangements to assure adequate extended care services for such patients.

140.05 Leasing hospital agency facilities to others.

(A)(1) A public hospital agency may lease any hospital facility to one or more hospital agencies for use as a hospital facility, or to one or more city or general health districts; boards of alcohol, drug addiction, and mental health services; county boards of developmental disabilities; the department of mental health and addiction services; or the department of developmental disabilities, for uses which they are authorized to make thereof under the laws applicable to them, or any combination of them, and they may lease such facilities to or from a hospital agency for such uses, upon such terms and conditions as are agreed upon by the parties. Such lease may be for a term of fifty years or less and may provide for an option of the lessee to renew for a term of fifty years or less, as therein set forth. Prior to entering into such lease, the governing body of any public hospital agency granting such lease must determine, and set forth in a resolution or ordinance, that such lease will promote the public purpose stated in section 140.02 of the Revised Code and that the lessor public hospital agency will be duly benefited thereby.

(2) If the lease is with a board of county commissioners, board of county hospital trustees, or county hospital commission and is an agreement for the initial lease of a county hospital operated by a board of county hospital trustees under section 339.06 of the Revised Code, the governing body of the public hospital agency shall submit the agreement, accompanied by the resolution or ordinance, to the board of county commissioners for review pursuant to section 339.091 of the Revised Code. The agreement may be entered into only if the board of county commissioners adopts a resolution under that section. The requirements of division (A)(2) of this section do not apply to the lease if one or more hospitals classified as general hospitals by the director of health under section 3701.07 of the Revised Code are operating in the same county as the county hospital.

(B) Any lease entered into pursuant to this section shall provide that in the event that the lessee fails faithfully and efficiently to administer, maintain, and operate such leased facilities as hospital facilities, or fails to provide the services thereof without regard to race, creed, color, or national origin, or fails to require that any hospital agency using such facilities or the services thereof shall not discriminate by reason of race, creed, color, or national origin, after an opportunity to be heard upon written charges, said lease may be terminated at the time, in the manner and with consequences therein provided. If any such lease does not contain terms to the effect provided in this division, it shall nevertheless be deemed to contain such terms which shall be implemented as determined by the governing body of the lessor.

(C) Such lease may provide for rentals commencing at any time agreed upon, or advance rental, and continuing for such period therein provided, notwithstanding and without diminution, rebate, or setoff by reason of time of availability of the hospital facility for use, delays in construction, failure of completion, damage or destruction of the hospital facilities, or for any other reason.
(D) Such lease may provide for the sale or transfer of title of the leased facilities pursuant to an option to purchase, lease-purchase, or installment purchase upon terms therein provided or to be determined as therein provided, which may include provision for the continued use thereof as a hospital facility for some reasonable period, taking into account efficient useful life and other factors, as is provided therein.

(E) Such lease may be entered as part of or in connection with an agreement pursuant to section 140.03 of the Revised Code. Any hospital facilities which are the subject of an agreement entered into under section 140.03 of the Revised Code may be leased pursuant to this section.

(F) If land acquired by a public hospital agency for a hospital facility is adjacent to an existing hospital facility owned by another hospital agency, the public hospital agency may, in connection with such acquisition or the leasing of such land and hospital facilities thereon to one or more hospital agencies, enter into an agreement with the hospital agency which owns such adjacent hospital facility for the use of common walls in the construction, operation, or maintenance of hospital facilities of the public hospital agency. For the purpose of construction, operation, or maintenance of hospital facilities, a public hospital agency may acquire by purchase, gift, lease, lease with option to purchase, lease-purchase, or installment purchase, easement deed, or other agreement, real estate and interests in real estate, including rights to use space over, under or upon real property owned by others, and support, access, common wall, and other rights in connection therewith. Any public hospital agency or other political subdivision or any public agency, board, commission, institution, body, or instrumentality may grant such real estate, interests, or rights to any hospital agency upon such terms as are agreed upon without necessity for competitive bidding or public auction.

140.051 Lease to nonprofit hospital agency; facilities not exempt from regulations.

If the costs of the hospital facilities are to be paid with funds derived from revenue obligations issued pursuant to section 140.06 of the Revised Code and with other funds derived from the nonprofit hospital agency, a public hospital agency, pursuant to negotiation and in the manner determined in its sole discretion by the governing body of the public hospital agency, may enter into a contract for the acquisition, construction, improvement, equipment, or furnishing of a hospital facility that is to be leased pursuant to section 140.05 of the Revised Code by a public hospital agency to a nonprofit hospital agency. Any requirement of competitive bidding, other restriction, or other procedures that are imposed on a public hospital agency with respect to contracts is not applicable to any contract entered into pursuant to this section.

A hospital facility is not exempt from applicable zoning, planning, and building regulations by reason of being financed from the proceeds of obligations issued pursuant to this chapter.

140.06 Revenue obligations.

(A) A public hospital agency may issue revenue obligations as provided in this section to pay the costs of hospital facilities. Such revenue obligations shall be authorized by resolution or ordinance of the governing body of the public hospital agency.

(B) Revenue obligations may be secured by a pledge of and lien on all or such part of the hospital receipts of the public hospital agency as provided in the bond proceedings, subject to any pledge of such hospital receipts previously made to the contrary and any existing restrictions on the use thereof. Such obligations may be additionally secured by covenants of the public hospital agency to make, fix, adjust, collect, and apply such charges, rates, fees, rentals, and other items of hospital receipts as will produce pledged hospital receipts sufficient to meet bond service charges, reserve, and other requirements provided for in the bond.
(C) Such revenue obligations shall not be general obligations, debt, or bonded indebtedness of any public hospital agency. The holders or owners of the obligations shall not be given the right, and have no right, to have excises or taxes levied by a public hospital agency for the payment of bond service charges thereon, and each such obligation shall bear on its face a statement to that effect and to the effect that the right to such payment is limited to the hospital receipts and special funds pledged to such purpose under the bond proceedings.

(D) The bond proceedings for such obligations shall provide for the purpose thereof, the principal amount, the principal maturity or maturities, the interest rate or rates, the date of the obligations and the dates of payment of interest thereon, their denominations, the manner of sale thereof, and the establishment within or without the state of a place or places of payment of bond service charges on such obligations. The bond proceedings shall also provide for a pledge of and lien on hospital receipts of the public hospital agency as provided in division (B) of this section, and a pledge of and lien on such fund or funds provided in the bond proceedings arising from hospital receipts, which pledges and liens may provide for parity with obligations theretofore or thereafter issued by the hospital agency. The hospital receipts so pledged and thereafter received by the public hospital agency and the funds so pledged are immediately subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge is valid and binding against all parties having claims of any kind against the hospital agency, irrespective of whether such parties have notice thereof, and create a perfected security interest for all purposes of Chapter 1309 of the Revised Code, without the necessity for separation or delivery of funds or for the filing or recording of the bond proceedings by which such pledge is created or any certificate, statement or other document with respect thereto. The pledge of such available receipts and funds shall be effective and the money therefrom and thereof may be applied to the purposes for which pledged without necessity for any further act of appropriation.

(E) The bond proceedings may contain additional provisions as to:

(1) The acquisition, construction, reconstruction, equipment, furnishing, improvement, operation, leasing, alteration, enlargement, maintenance, insurance, and repair of hospital facilities, and the duties of the hospital agency with reference thereto;

(2) The terms of the obligations, including provisions for their redemption prior to maturity at the option of the hospital agency at such price or prices and under such terms and conditions as are provided in the bond proceedings;

(3) Limitations on the purposes to which the proceeds of the obligations may be applied;

(4) The rates or rentals or other charges for the use of or right to use the facilities financed by the obligations, or other properties the revenues or receipts from which are pledged to the obligations, and regulations for assuring use and occupancy thereof, including limitations upon the right to modify such rates, rentals, other charges, or regulations;

(5) The use and expenditure of the pledged hospital receipts in such manner and to such extent as shall be determined;

(6) Limitations on the issuance of additional obligations;

(7) The terms of any trust agreement or indenture securing the obligations or under which the same may be issued;

(8) The deposit, investment, and application of funds, and the safeguarding of funds on hand or on deposit without regard to Chapter 131 or 135 of the Revised Code, and any bank or trust company which acts as depository of any moneys under the bond proceedings shall furnish such indemnifying bonds or shall pledge or hypothecate such securities as required by the bond proceedings or otherwise by the hospital agency;

(9) The binding effect of any or every provision of the bond proceedings upon such officer, board, commission, authority, agency, department, or other person or body as may from time to time have the authority under law to take such actions as may be necessary to perform
Chapter 1. General Hospital Provisions
Part I: General Hospital Operations

all or any part of the duty required by such provision;
(10) Any provision which may be made in a trust agreement or indenture under division (I) of this section;
(11) Any other or additional agreements with respect to the hospital facilities of the hospital agency, their operation, the hospital receipts and funds pledged, and insurance of hospital facilities and of the hospital agency, its officers and employees.
(F) Such obligations may have the seal of the public hospital agency or a facsimile thereof affixed thereto or printed thereon and shall be executed by such officer or officers as are designated in the bond proceedings, which execution may be by facsimile signatures. Any obligations may be executed by an officer who, on the date of execution, is the proper officer although on the date of such obligations such person was not the proper officer. In case any officer whose signature or a facsimile of whose signature appears on any such obligations ceases to be such officer before delivery thereof, such signature or facsimile is valid and sufficient for all purposes as if he had remained such officer until such delivery; and in case the seal of the hospital agency has been changed after a facsimile of the seal has been imprinted on such obligations, such facsimile seal continues to be sufficient as to such obligations and obligations issued in substitution or exchange therefor.
(G) All such obligations are negotiable instruments and securities under Chapter 1308 of the Revised Code, subject to the provisions of the bond proceedings as to registration. The obligations may be issued in coupon or in registered form, or both. Provision may be made for the registration of any obligations with coupons attached thereto as to principal alone, for the registration of obligations as to both principal and interest and the exchange of coupon obligations for obligations so registered, and for the conversion or reconversion into obligations with coupons attached thereto of any obligations registered as to both principal and interest, and for reasonable charges for such registration, exchange, conversion, and reconversion.
(H) Pending preparation of definitive obligations, the public hospital agency may issue interim receipts or certificates which shall be exchanged for such definitive obligations.
(I) Such obligations may be secured additionally by a trust agreement or indenture between the public hospital agency and a corporate trustee which may be any trust company or bank having the powers of a trust company within or without this state but authorized to exercise trust powers within this state. Any such agreement or indenture may contain, as part thereof, any of the bond proceedings, and may contain any provisions that may be included in the bond proceedings as authorized by this section, and other provisions which are customary or appropriate in an agreement or indenture of such type, including but not limited to:
(1) The maintenance of each pledge, trust agreement, indenture and mortgage, or other instrument comprising part of the bond proceedings until the hospital agency has fully paid the bond service charges on the obligations secured thereby, or provision therefor has been made;
(2) In the event of default in any payments required to be made by the bond proceedings, or any other agreement of the hospital agency made as a part of the contract under which the obligations were issued, enforcement of such payments or agreement by mandamus, the appointment of a receiver, foreclosure, or any other legal remedy;
(3) The rights and remedies of the holders of obligations and of the trustee, and provisions for protecting and enforcing them, including limitations on rights of individual holders of obligations;
(4) The replacement of any obligations which become mutilated or are destroyed, lost, or stolen;
(5) Such other provisions as the trustee and the hospital agency agree upon, including limitations, conditions, or qualifications relating to any of the foregoing.
(J) Each duty of the public hospital agency and its officers or employees, undertaken pursuant to the bond proceedings or any agreement or lease made under authority of this chapter, is hereby established as a duty of such hospital agency, and of each such officer or
employee having authority to perform such duty, specially enjoined by law resulting from an office, trust, or station within the meaning of section 2731.01 of the Revised Code. The persons who are at the time the members of the governing body of the public hospital agency or its officers or employees shall not be liable in their personal capacities on such obligations, bond proceedings, lease, or other agreement of the public hospital agency.

(K) The authority to issue such obligations includes authority to issue obligations in the form of bond anticipation notes and to renew the same from time to time by the issuance of new notes. Such notes are payable solely from the hospital receipts and funds that may be pledged to the payment of such bonds, or from the proceeds of such bonds or renewal notes, or both, as the public hospital agency provides in its resolution or ordinance authorizing such notes. Such notes may be additionally secured by covenants of the hospital agency to the effect that it will do such or all things necessary for the issuance of such bonds or renewal notes in appropriate amount, and either exchange such bonds or renewal notes therefor or apply the proceeds thereof to the extent necessary, to make full payment of the principal of and interest on such notes at the time or times contemplated as provided in such resolution or ordinance. Subject to this division, all references to obligations in this section are applicable to such anticipation notes.

(L) The authority to issue such obligations includes authority to issue revenue obligations to refund, including funding and retirement of, obligations previously issued to pay costs of hospital facilities whether issued under authority of this section or other law authorizing their issuance. Such refunding obligations may be issued in amounts sufficient for payment of the principal amount of the obligations to be so refunded, any redemption premiums thereon, principal maturities of any obligations maturing prior to the redemption of the obligations to be so refunded, interest accrued or to accrue to the maturity date or dates of redemption of such obligations, and any expenses incurred or to be incurred in connection with such refunding or the issuance of the obligations.

(M) Nothing in this section is intended to limit or restrict the authority of municipal corporations to issue, under authority of Section 3 of Article XVIII, Ohio Constitution, and without regard to this section, revenue bonds and notes to pay costs of hospital facilities.

140.07 Lawful investments.

Obligations issued under section 133.08, 140.06, or 339.15 of the Revised Code or Section 3 of Article XVIII, Ohio Constitution, to pay costs of hospital facilities or to refund such obligations are lawful investments for entities enumerated in division (A)(1) of section 133.03 of the Revised Code, and are eligible as security for the repayment of the deposit of public moneys.

140.08 Tax exempt.

(A) Except as otherwise provided in divisions (B)(1) and (2) of this section, all hospital facilities purchased, acquired, constructed, or owned by a public hospital agency, or financed in whole or in part by obligations issued by a public hospital agency, and used, or to be used when completed, as hospital facilities, and the income therefrom, are exempt from all taxation within this state, including ad valorem and excise taxes, notwithstanding any other provisions of law, and hospital agencies are exempt from taxes levied under Chapters 5739 and 5741 of the Revised Code. The obligations issued hereafter under section 133.08, 140.06, or 339.15 of the Revised Code or Section 3 of Article XVIII, Ohio Constitution, to pay costs of hospital facilities or to refund such obligations, and the transfer thereof, and the interest and other income from such obligations, including any profit made on the sale thereof, is free from taxation within the state.

(B)(1) Division (A) of this section does not exempt independent living facilities from taxes
levied on property or taxes levied under Chapters 5739 and 5741 of the Revised Code. If an independent living facility or part of such facility becomes on or after January 10, 1991, a nursing home, residential care facility, or residential facility described in division (M)(4) of section 140.01 of the Revised Code, that part of the independent living facility that is a nursing home, residential care facility, or residential facility described in division (M)(4) of section 140.01 of the Revised Code is exempt from taxation subject to division (B)(2) of this section on and after the date it becomes a nursing home, residential care facility, or residential facility described in division (M)(4) of section 140.01 of the Revised Code.

(2) Division (A) of this section exempts nursing homes, residential care facilities, and residential facilities described in division (M)(4) of section 140.01 of the Revised Code from taxes levied on property and taxes levied under Chapters 5739 and 5741 of the Revised Code only until all obligations issued to finance such homes or facilities, or all refunding or series of refundings of those obligations, are redeemed or otherwise retired.

140.09 Computation of debt; exclusions.

(A) If obligations, otherwise subject to the limits of section 133.05 or 133.07 of the Revised Code, are issued by a public hospital agency to pay costs of a hospital facility with respect to which such public hospital agency is to receive payments under a lease or agreement entered into by such public hospital agency pursuant to section 140.03, 140.05, 339.09, 339.14, or 749.35 of the Revised Code, then at all times after the time of entering such lease or agreement such bonds or notes shall not be considered in ascertaining the limits of net indebtedness of section 133.05 or 133.07 of the Revised Code, to the extent that the prescribed amounts of such payments to be made, together with any other hospital receipts of such public hospital agency, will cover the interest charges and provide for the retirement of such bonds as they become due, after deducting from such payments only such amounts, if any, as such hospital agency is required to pay for the operating expenses of such hospital facilities under such agreement or lease. The exclusion provided by this section is in addition to any other exemption or exclusion otherwise provided by law, and not in derogation thereof.

(B) An agreement by a public hospital agency to make payments beyond the current fiscal year under any such lease or agreement referred to in division (A) of this section, shall be a continuing contract for the purposes of sections 5705.41 and 5705.44 of the Revised Code, if such section 5705.41 is applicable to the public hospital agency, and such agreement, and the obligation to make payments thereunder, will not constitute indebtedness, bonded or otherwise, of such public hospital agency for purposes of Chapter 133 of the Revised Code or the Ohio Constitution.

Professional Associations

1785.01 Professional Associations; definitions.

As used in this chapter:

(A) “Professional service” means any type of professional service that may be performed only pursuant to a license, certificate, or other legal authorization issued pursuant to Chapter 4701., 4703., 4705., 4715., 4723., 4725., 4729., 4730., 4731., 4732., 4733., 4734., 4741., 4755., or 4757 of the Revised Code to certified public accountants, licensed public accountants, architects, attorneys, dentists, nurses, optometrists, pharmacists, physician assistants, doctors of medicine and surgery, doctors of osteopathic medicine and surgery, doctors of podiatric medicine and surgery, practitioners of the limited branches of medicine specified in section 4731.15 of the Revised Code, mechanotherapists, psychologists, professional engineers, chiropractors, chiropractors practicing acupuncture through the state chiropractic board,
veterinarians, physical therapists, occupational therapists, licensed professional clinical counselors, licensed professional counselors, independent social workers, social workers, independent marriage and family therapists, and marriage and family therapists.

(B) “Professional association” means an association organized under this chapter for the sole purpose of rendering one of the professional services authorized under Chapter 4701., 4703., 4705., 4715., 4723., 4725., 4729., 4730., 4731., 4732., 4733., 4734., 4741., 4755., or 4757 of the Revised Code, a combination of the professional services authorized under Chapters 4703 and 4733 of the Revised Code, or a combination of the professional services of optometrists authorized under Chapter 4725 of the Revised Code, chiropractors authorized under Chapter 4734 of the Revised Code to practice chiropractic or acupuncture, psychologists authorized under Chapter 4732 of the Revised Code, registered or licensed practical nurses authorized under Chapter 4723 of the Revised Code, pharmacists authorized under Chapter 4729 of the Revised Code, physical therapists authorized under sections 4755.40 to 4755.56 of the Revised Code, occupational therapists authorized under sections 4755.04 to 4755.13 of the Revised Code, mechanotherapists authorized under section 4731.151 of the Revised Code, doctors of medicine and surgery, osteopathic medicine and surgery, or podiatric medicine and surgery authorized under Chapter 4731 of the Revised Code, and licensed professional clinical counselors, licensed professional counselors, independent social workers, social workers, independent marriage and family therapists, or marriage and family therapists authorized under Chapter 4757 of the Revised Code.

1785.02 Professional individuals and groups; who may incorporate.

An individual or group of individuals each of whom is licensed, certificated, or otherwise legally authorized to render within this state the same kind of professional service, a group of individuals each of whom is licensed, certificated, or otherwise legally authorized to render within this state the professional service authorized under Chapter 4703 or 4733 of the Revised Code, or a group of individuals each of whom is licensed, certificated, or otherwise legally authorized to render within this state the professional service authorized under Chapter 4725 of the Revised Code, chiropractors authorized under Chapter 4734 of the Revised Code to practice chiropractic or acupuncture, psychologists authorized under Chapter 4732 of the Revised Code, physical therapists authorized under sections 4755.40 to 4755.56 of the Revised Code, occupational therapists authorized under sections 4755.04 to 4755.13 of the Revised Code, mechanotherapists authorized under section 4731.151 of the Revised Code, doctors of medicine and surgery, osteopathic medicine and surgery, or podiatric medicine and surgery authorized under Chapter 4731 of the Revised Code, registered or licensed practical nurses authorized under Chapter 4723 of the Revised Code, pharmacists authorized under Chapter 4729 of the Revised Code, physical therapists authorized under sections 4755.40 to 4755.56 of the Revised Code, occupational therapists authorized under sections 4755.04 to 4755.13 of the Revised Code, mechanotherapists authorized under section 4731.151 of the Revised Code, doctors of medicine and surgery, osteopathic medicine and surgery, or podiatric medicine and surgery authorized under Chapter 4731 of the Revised Code, or licensed professional clinical counselors, licensed professional counselors, independent social workers, social workers, independent marriage and family therapists, or marriage and family therapists authorized under Chapter 4757 of the Revised Code may organize and become a shareholder or shareholders of a professional association. Any group of individuals described in this section who may be rendering one of the professional services as an organization created otherwise than pursuant to this chapter may incorporate under and pursuant to this chapter by amending the agreement establishing the organization in a manner that the agreement as amended constitutes articles of incorporation prepared and filed in the manner prescribed in section 1785.08 of the Revised Code and by otherwise complying with the applicable requirements of this chapter.
1785.03 Prohibiting control of individual practitioner’s clinical judgment.

A professional association may render a particular professional service only through officers, employees, and agents who are themselves duly licensed, certificated, or otherwise legally authorized to render the professional service within this state. As used in this section, “employee” does not include clerks, bookkeepers, technicians, or other individuals who are not usually and ordinarily considered by custom and practice to be rendering a particular professional service for which a license, certificate, or other legal authorization is required and does not include any other person who performs all of that person’s employment under the direct supervision and control of an officer, agent, or employee who renders a particular professional service to the public on behalf of the professional association.

No professional association formed for the purpose of providing a combination of the professional services, as defined in section 1785.01 of the Revised Code, of optometrists authorized under Chapter 4725 of the Revised Code, chiropractors authorized under Chapter 4734 of the Revised Code to practice chiropractic or acupuncture, psychologists authorized under Chapter 4732 of the Revised Code, registered or licensed practical nurses authorized under Chapter 4723 of the Revised Code, pharmacists authorized under Chapter 4729 of the Revised Code, physical therapists authorized under sections 4755.40 to 4755.56 of the Revised Code, occupational therapists authorized under sections 4755.04 to 4755.13 of the Revised Code, mechanotherapists authorized under section 4731.151 of the Revised Code, doctors of medicine and surgery, osteopathic medicine and surgery, or podiatric medicine and surgery authorized under Chapter 4731 of the Revised Code, and licensed professional clinical counselors, licensed professional counselors, independent social workers, social workers, independent marriage and family therapists, or marriage and family therapists authorized under Chapter 4757 of the Revised Code shall control the professional clinical judgment exercised within accepted and prevailing standards of practice of a licensed, certificated, or otherwise legally authorized optometrist, chiropractor, chiropractor practicing acupuncture through the state chiropractic board, psychologist, nurse, pharmacist, physical therapist, occupational therapist, mechanotherapist, doctor of medicine and surgery, osteopathic medicine and surgery, or podiatric medicine and surgery, licensed professional clinical counselor, licensed professional counselor, independent social worker, social worker, independent marriage and family therapist, or marriage and family therapist in rendering care, treatment, or professional advice to an individual patient.

This division does not prevent a hospital, as defined in section 3727.01 of the Revised Code, insurer, as defined in section 3999.36 of the Revised Code, or intermediary organization, as defined in section 1751.01 of the Revised Code, from entering into a contract with a professional association described in this division that includes a provision requiring utilization review, quality assurance, peer review, or other performance or quality standards. Those activities shall not be construed as controlling the professional clinical judgment of an individual practitioner listed in this division.

Department of Health Requirements and Powers

3701.01 Department of Health; definitions.

As used in sections 3701.01, 3701.04, 3701.08, 3701.09, and 3701.37 to 3701.45 of the Revised Code:
(B) "The surgeon general" means the surgeon general of the public health service of the United States or such other officer or employee of the United States responsible for
administration of the federal act.

(C) "Hospital" includes public health centers and general, mental, chronic disease, and other types of hospitals, and related facilities, such as laboratories, outpatient departments, nurses' home facilities, extended care facilities, self-care units, and central service facilities operated in connection with hospitals, and also includes education and training facilities for health professions personnel operated as an integral part of a hospital, but does not include any hospital furnishing primarily domiciliary care.

(D) "Public health center" means a publicly owned facility for the housing of the public health services of a community and one which makes available equipment to aid physicians in the prevention, diagnosis, and treatment of disease.

(E) "Nonprofit hospital," or "nonprofit" as applied to a facility, means any hospital or facility owned and operated by one or more nonprofit corporations or associations no part of the net earnings of which inures, or may lawfully inure, to the benefit of any private shareholder or individual.

(F) "Medical facilities" means outpatient facilities, rehabilitation facilities, and facilities for long-term care, including nursing homes, as those terms are defined in the federal act, and such other facilities for which federal aid may be authorized under the federal act.

3701.04 Ohio department of health authority to investigate; organize volunteers for emergencies.

(A) The director of health shall:

(1) Require reports and make inspections and investigations that the director considers necessary;

(2) Provide administration, appoint personnel, make reports, and take other action as necessary to comply with the requirements of the “Construction and Modernization of Hospitals and Other Medical Facilities Act,” Title VI of the “Public Health Service Act,” 60 Stat. 1041 (1946), 42 U.S.C. 291, as amended, and the regulations adopted under that act;

(3) Procure by contract the temporary or intermittent services of experts, consultants, or organizations when those services are to be performed on a part-time or fee-for-service basis and do not involve the performance of administrative duties;

(4) Enter into agreements for the utilization of the facilities and services of other departments, agencies, and institutions, public or private;

(5) On behalf of the state, solicit, accept, hold, administer, and deposit in the state treasury to the credit of the general operations fund created in section 3701.83 of the Revised Code, any grant, gift, devise, bequest, or contribution made to assist in meeting the cost of carrying out the director's responsibilities and expend the grant, gift, devise, bequest, or contribution for the purpose for which made. Fees collected by the director in connection with meetings and conferences shall also be credited to the fund and expended for the purposes for which paid.

(6) Make an annual report to the governor on activities and expenditures, including recommendations for such additional legislation as the director considers appropriate to furnish adequate hospital, clinic, and similar facilities to the people of this state.

(B) The director, in accordance with Chapter 119 of the Revised Code, shall adopt rules jointly with the executive director of the emergency management agency to do both of the following, as required by section 5502.281 of the Revised Code:

(1) Advise, assist, consult with, and cooperate with agencies and political subdivisions of this state to establish and maintain a statewide system for recruiting, registering, training, and deploying volunteers reasonably necessary to respond to an emergency declared by the state or a political subdivision;

(2) Establish fees, procedures, standards, and requirements necessary for recruiting,
registering, training, and deploying the volunteers.

(C) The director of health may enter into agreements to sell services offered by the department of health to boards of health of city and general health districts and to other departments, agencies, and institutions of this state, other states, or the United States. Fees collected by the director for the sale of services shall be deposited into the state treasury to the credit of the general operations fund created in section 3701.83 of the Revised Code.

3701.043 Evaluation for licensure, certification, or registration; fees.

If authorized by federal statute or regulation, the director of health may establish and collect fees for conducting the initial certification of any person or entity as a provider of health services for purposes of the medicare program established under Title XVIII of the Social Security Act, 49 Stat. 620 (1935), 42 U.S.C.A. 301, as amended. The fee established for conducting an initial medicare certification shall not exceed the actual and necessary costs incurred by the department of health in conducting the certification.

All fees collected under this section shall be deposited into the state treasury to the credit of the medicare initial certification fund, which is hereby created. Money credited to the fund shall be used solely to pay the costs of conducting initial medicare certifications.

3701.06 Director’s or director’s agent’s right of entry to investigate violations.

The director of health and any person the director authorizes may, without fee or hindrance, enter, examine, and survey all grounds, vehicles, apartments, buildings, and places in furtherance of any duty laid upon the director or department of health or where the director has reason to believe there exists a violation of any health law or rule.

3701.07 Rules for reports to health department; hospitals and dispensaries registration; residents’ rights advocates.

(A) The director of health shall adopt rules in accordance with Chapter 119 of the Revised Code defining and classifying hospitals and dispensaries and providing for the reporting of information by hospitals and dispensaries. Except as otherwise provided in the Revised Code, the rules providing for the reporting of information shall not require inclusion of any confidential patient data or any information concerning the financial condition, income, expenses, or net worth of the facilities. The rules may require the reporting of information in the following categories:

1. Information needed to identify and classify the institution;
2. Information on facilities and type and volume of services provided by the institution;
3. The number of beds listed by category of care provided;
4. The number of licensed or certified professional employees by classification;
5. The number of births that occurred at the institution the previous calendar year;
6. Any other information that the director considers relevant to the safety of patients served by the institution.

Every hospital and dispensary, public or private, annually shall register with and report to the department of health. Reports shall be submitted in the manner prescribed in rules adopted under this division.

(B) Every governmental entity or private nonprofit corporation or association whose employees or representatives are defined as residents’ rights advocates under divisions (E)(1) and (2) of section 3721.10 of the Revised Code shall register with the department of health on forms furnished by the director of health and shall provide such reasonable identifying information as the director may prescribe.
Chapter 1. General Hospital Provisions
Part I: General Hospital Operations

The department shall compile a list of the governmental entities, corporations, or associations registering under this division and shall update the list annually. Copies of the list shall be made available to nursing home administrators as defined in division (C) of section 3721.10 of the Revised Code.

3701.071 Records and registration for nonprofit shelter or health care facility.

(A) As used in this section:
(1) “Free clinic” means a nonprofit organization exempt from federal income taxation under section 501(c)(3) of the “Internal Revenue Code of 1986,”1 as amended, or a program component of a nonprofit organization, to which both of the following apply:
   (a) Its primary mission is to provide health care services for free or for a minimal administrative fee to individuals with limited resources.
   (b) It facilitates the delivery of health care services through the use of volunteer health care professionals and voluntary care networks.
(2) “Indigent and uninsured person” has the same meaning as in section 2305.234 of the Revised Code.
(3) “Nonprofit shelter or health care facility” means a charitable nonprofit corporation organized and operated pursuant to Chapter 1702 of the Revised Code, or any charitable organization not organized and not operated for profit, that provides shelter, health care services, or shelter and health care services to indigent and uninsured persons. “Nonprofit shelter or health care facility” includes any such shelter or facility that is operated as or includes a free clinic. “Nonprofit shelter or health care facility” does not include a hospital, as defined in section 3727.01 of the Revised Code, a facility licensed under Chapter 3721 of the Revised Code, or a medical facility that is operated for profit.

(B) A nonprofit shelter or health care facility operating in this state shall register on the first day of January each year with the department of health. The immunity provided by division (E) of section 2305.234 of the Revised Code is not available to a nonprofit shelter or health care facility until the shelter or facility registers with the department in accordance with this section.

(C) A nonprofit shelter or health care facility operating in this state shall keep records of all patients who receive medical, dental, or other health-related diagnosis, care, or treatment at the shelter or facility. The department of health shall monitor the quality of care provided to patients at nonprofit shelters or health care facilities. The monitoring program may be conducted by contracting with another entity or through any other method authorized by law. The department may solicit and accept funds from private sources to fund the monitoring program.

(D) A free clinic operating in this state shall compile information on medicaid eligibility and application requirements and procedures and display copies of that information in a prominent location for the benefit of persons who seek or receive services from the clinic.

3701.072 Free clinics awareness.

(A) As used in this section, “free clinic” has the same meaning as in section 3701.071 of the Revised Code.

(B) The department of health, on its internet web site, shall make information available regarding free clinics. The information shall include all of the following:
   (1) A description of what constitutes a free clinic;
   (2) The benefits that free clinics provide to the state’s health care system, including the services they make available to both patients and health care providers;
   (3) A directory of free clinics, including for each clinic its address and contact information and its hours of operation;
   (4) A notice each time that a new free clinic is opened.
(C) Each year, the department shall promote the designation under section 5.252 of the Revised Code of December as “Free Clinic Appreciation Month.” The promotion shall include the selection of a free clinic to be named as “free clinic of the year” and the selection of a physician, nurse, and dentist to be named as “free clinic volunteer of the year” in the respective professions.

In conducting its promotion activities, the department may consult with entities that have interests in the services provided by and the benefits of free clinics, including the Ohio association of free clinics.

3701.33 The Ohio Public Health Advisory Board.

(A) The Ohio public health advisory board shall review and make recommendations to the director of health on all of the following:

(1) Developing and adopting proposed rules under Chapters 3701 and 3717 of the Administrative Code;
(2) Prescribing proposed fees for services provided by the office of vital statistics and the bureau of environmental health;
(3) Any proposed policy changes that pertain to entities serving or seeking to serve as vendors under the WIC program, as defined in section 3701.132 of the Revised Code, that are not addressed pursuant to division (A)(1) of this section.
(4) Issues to improve public health and increase awareness of public health issues at the state level, local level, or both;
(5) Any other public health issues that the director requests the board to consider.

(B) For purposes of division (A)(1) of this section, all of the following apply:

(1) Prior to filing a proposed rule with the joint committee on agency rule review, the department of health shall provide each board member with a copy of the proposed rule, copies of public comments received by the department during the public comment period, and written evidence of stakeholder involvement.
(2) Prior to board meetings, copies of proposed rules shall be provided to members. On request of a member, the department shall ensure that appropriate department employees attend board meetings to answer questions concerning proposed rules.
(3)(a) Not later than sixty days after receiving a copy of a proposed rule, the board shall recommend approval or disapproval of the rule and submit its recommendation by board action to the director. In making its recommendation, the board may consider public comments provided to the department or the board.
(b) If the board fails to make a recommendation within sixty days of receiving a copy of the proposed rule, the director may file the proposed rule.
(4) Except as provided in division (B)(3)(b) of this section, the director shall consider the board's recommendation before filing a proposed rule. On request of the board, the director shall meet with the board to discuss the board's recommendation.
(5) If the director disagrees with the board's recommendation, the director shall inform the board in writing of the director's decision and the reason for the decision prior to the next quarterly meeting. The director or the director's designee may meet with the board at the next quarterly meeting to answer questions regarding why the director disagreed with the board's recommendation.
(6) To the extent the board believes that a proposed rule does not comply with requirements established by the joint committee on agency rule review or the common sense initiative office, nothing in this section prohibits the board, in carrying out its duties under division (A)(1) of this section, from contacting the joint committee on agency rule review or the common sense initiative office.

(C) For purposes of division (A)(2) of this section, the board and the department shall
develop a cost methodology, subject to approval by the director, regarding proposed fees for services provided by the department's bureau of environmental health.

(D) For purposes of division (A)(3) of this section, a proposed WIC program policy change shall be treated as if it were a proposed rule subject to division (A)(1) of this section and the board and other entities involved in reviewing and making recommendations regarding the change may follow all or part of the procedures described in division (B) of this section.

(E) This section does not apply to the following:

(1) A proposed rule that is to be refiled with the joint committee on agency rule review solely because of technical or other nonsubstantive revisions;
(2) The emergency adoption, amendment, or rescission of a rule under division (G) of section 119.03 of the Revised Code.

3701.34 The Ohio Public Health Advisory Board; duties.

(A) The Ohio public health advisory board shall review and make recommendations to the director of health on all of the following:

(1) Developing and adopting proposed rules under Chapters 3701 and 3717 of the Administrative Code;
(2) Prescribing proposed fees for services provided by the office of vital statistics and the bureau of environmental health;
(3) Issues to improve public health and increase awareness of public health issues at the state level, local level, or both;
(4) Any other public health issues that the director requests the board to consider.

(B) In making recommendations to the director under division (A)(1) of this section, all of the following apply:

(1) Prior to filing a proposed rule with the joint committee on agency rule review, the department of health shall provide each board member with a copy of the proposed rule, copies of public comments received by the department during the public comment period, and written evidence of stakeholder involvement.
(2) Prior to board meetings, copies of proposed rules shall be provided to members. On request of a member, the department shall ensure that appropriate department employees attend board meetings to answer questions concerning proposed rules.
(3)(a) Not later than sixty days after receiving a copy of a proposed rule, the board shall recommend approval or disapproval of the rule and submit its recommendation by board action to the director. In making its recommendation, the board may consider public comments provided to the department or the board.
(b) If the board fails to make a recommendation within sixty days of receiving a copy of the proposed rule, the director may file the proposed rule.
(4) Except as provided in division (B)(3)(b) of this section, the director shall consider the board's recommendation before filing a proposed rule. On request of the board, the director shall meet with the board to discuss the board's recommendation.
(5) If the director disagrees with the board's recommendation, the director shall inform the board in writing of the director's decision and the reason for the decision prior to the next quarterly meeting. The director or the director's designee may meet with the board at the next quarterly meeting to answer questions regarding why the director disagreed with the board's recommendation.

(C) To the extent the board believes that a proposed rule does not comply with requirements established by the joint committee on agency rule review or the common sense initiative office, nothing in this section prohibits the board, in carrying out its duties under division (A)(1) of this section, from contacting the joint committee on agency rule review or the common sense initiative office.
(D) In making recommendations under division (A)(2) of this section for prescribing proposed fees for services provided by the bureau of environmental health, the board and the department shall develop a cost methodology subject to approval by the director.

(E) This section does not apply to the following:

1. A proposed rule that is to be refiled with the joint committee on agency rule review solely because of technical or other nonsubstantive revisions;

2. The emergency adoption, amendment, or rescission of a rule under division (F) of section 119.03 of the Revised Code.

3701.71 Department of Health to set hospital minimum standards.

To comply with the Social Security Act Amendments of 1950, known as Public Law 734-81st Congress, the Ohio department of health is hereby designated as the state authority responsible for establishing and maintaining minimum standards for voluntary and governmental hospitals and in units providing medical and nursing care in city and county institutions.

3701.72 Rules and regulations to establish minimum standards.

Subject to the provisions of sections 119.01 to 119.13 inclusive, of the Revised Code, the Ohio department of health shall have the power to adopt reasonable rules and regulations to establish and maintain such minimum standards.

3701.73 Exceptions for institutions.

Sections 3701.71 and 3701.72 of the Revised Code shall not be applicable to institutions licensed or approved under other existing statutes.

3727.01 HMO, hospital, joint commission; definitions.

(A) As used in this section, “health maintenance organization” means a public or private organization organized under the law of any state that is qualified under section 1310(d) of Title XIII of the “Public Health Service Act,” 87 Stat. 931 (1973), 42 U.S.C. 300e-9, or that does all of the following:

1. Provides or otherwise makes available to enrolled participants health care services including at least the following basic health care services: usual physician services, hospitalization, laboratory, x-ray, emergency and preventive service, and out-of-area coverage;

2. Is compensated, except for copayments, for the provision of basic health care services to enrolled participants by a payment that is paid on a periodic basis without regard to the date the health care services are provided and that is fixed without regard to the frequency, extent, or kind of health service actually provided;

3. Provides physician services primarily in either of the following ways:

   a. Directly through physicians who are either employees or partners of the organization;

   b. Through arrangements with individual physicians or one or more groups of physicians organized on a group-practice or individual-practice basis.

(B) As used in this chapter:

1. “Children's hospital” means any of the following:

   a. A hospital registered under section 3701.07 of the Revised Code that provides general pediatric medical and surgical care, and in which at least seventy-five per cent of annual inpatient discharges for the preceding two calendar years were individuals less than eighteen years of age;

   b. A distinct portion of a hospital registered under section 3701.07 of the Revised Code
that provides general pediatric medical and surgical care, has a total of at least one hundred fifty registered pediatric special care and pediatric acute care beds, and in which at least seventy-five per cent of annual inpatient discharges for the preceding two calendar years were individuals less than eighteen years of age;
   (c) A distinct portion of a hospital, if the hospital is registered under section 3701.07 of the Revised Code as a children’s hospital and the children’s hospital meets all the requirements of division (B)(1)(a) of this section.

(2) “Hospital” means an institution classified as a hospital under section 3701.07 of the Revised Code in which are provided to inpatients diagnostic, medical, surgical, obstetrical, psychiatric, or rehabilitation care for a continuous period longer than twenty-four hours or a hospital operated by a health maintenance organization. “Hospital” does not include a facility licensed under Chapter 3721 of the Revised Code, a health care facility operated by the department of mental health and addiction services or the department of developmental disabilities, a health maintenance organization that does not operate a hospital, the office of any private licensed health care professional, whether organized for individual or group practice, or a clinic that provides ambulatory patient services and where patients are not regularly admitted as inpatients. “Hospital” also does not include an institution for the sick that is operated exclusively for patients who use spiritual means for healing and for whom the acceptance of medical care is inconsistent with their religious beliefs, accredited by a national accrediting organization, exempt from federal income taxation under section 501 of the Internal Revenue Code of 1986,1 100 Stat. 2085, 26 U.S.C.A. 1, as amended, and providing twenty-four hour nursing care pursuant to the exemption in division (E) of section 4723.32 of the Revised Code from the licensing requirements of Chapter 4723 of the Revised Code.

(3) “Joint commission” means the commission formerly known as the joint commission on accreditation of healthcare organizations or the joint commission on accreditation of hospitals.

3727.02 Required certification or accreditation to operate hospital.

(A) No person and no political subdivision, agency, or instrumentality of this state shall operate a hospital unless it is certified under Title XVIII of the “Social Security Act,” 49 Stat. 620 (1935), 42 U.S.C. 301, as amended, or is accredited by a national accrediting organization approved by the centers for medicare and medicaid services.

(B) No person and no political subdivision, agency, or instrumentality of this state shall hold out as a hospital any health facility that is not certified or accredited as required in division (A) of this section.

3727.03 Proof of certification or accreditation to Department of Health.

The director of health shall adopt, and may amend or rescind, rules in accordance with Chapter 119 of the Revised Code establishing procedures under which hospitals shall provide the department of health in a timely fashion with proof of the certification or accreditation required by division (A) of section 3727.02 of the Revised Code and under which the department shall institute proceedings to close a hospital upon ascertaining that it is not thus certified or accredited.

3727.04 Inspections; Director’s right.

In addition to any other inspections authorized by law, the director of health may inspect any hospital if there are substantial allegations or evidence of a significant deficiency or deficiencies that would, if found to be present, adversely affect the health or safety of its patients.
and may make such other inspections as are necessary to enforce this chapter.

3727.06 Patient admission and supervision requirements.

(A) As used in this section:
   (1) “Doctor” means an individual authorized to practice medicine and surgery or osteopathic medicine and surgery.
   (2) “Podiatrist” means an individual authorized to practice podiatric medicine and surgery.

(B)(1) Only the following may admit a patient to a hospital:
   (a) A doctor who is a member of the hospital's medical staff;
   (b) A dentist who is a member of the hospital's medical staff;
   (c) A podiatrist who is a member of the hospital's medical staff;
   (d) A clinical nurse specialist, certified nurse-midwife, or certified nurse practitioner if all of the following conditions are met:
      (i) The clinical nurse specialist, certified nurse-midwife, or certified nurse practitioner has a standard care arrangement entered into pursuant to section 4723.431 of the Revised Code with a collaborating doctor or podiatrist who is a member of the medical staff;
      (ii) The patient will be under the medical supervision of the collaborating doctor or podiatrist;
      (iii) The hospital has granted the clinical nurse specialist, certified nurse-midwife, or certified nurse practitioner admitting privileges and appropriate credentials.
   (2) Prior to admitting a patient, a clinical nurse specialist, certified nurse-midwife, certified nurse practitioner, or physician assistant shall notify the collaborating or supervising doctor or podiatrist.

(C) All hospital patients shall be under the medical supervision of a doctor, except that services that may be rendered by a licensed dentist pursuant to Chapter 4715 of the Revised Code provided to patients admitted solely for the purpose of receiving such services shall be under the supervision of the admitting dentist and that services that may be rendered by a podiatrist pursuant to section 4731.51 of the Revised Code provided to patients admitted solely for the purpose of receiving such services shall be under the supervision of the admitting podiatrist. If treatment not within the scope of Chapter 4715 or section 4731.51 of the Revised Code is required at the time of admission by a dentist or podiatrist, or becomes necessary during the course of hospital treatment by a dentist or podiatrist, such treatment shall be under the supervision of a doctor who is a member of the medical staff. It shall be the responsibility of the admitting dentist or podiatrist to make arrangements with a doctor who is a member of the medical staff to be responsible for the patient's treatment outside the scope of Chapter 4715 or section 4731.51 of the Revised Code when necessary during the patient's stay in the hospital.

3727.99 Penalty for noncompliance with hospital certification or accreditation requirement.

Whoever violates division (A) of section 3727.02 of the Revised Code is guilty of a
misdemeanor of the first degree and shall be liable for an additional penalty of one thousand dollars for each day of operation in violation of such division.

3701-59-01 Department of Health; general definitions.

As used in this chapter:

(A) “Active medical staff” means staff with clinical privileges who are designated as active pursuant to the bylaws or other governing prescript of the hospital.

(B) “Alcohol and drug hospital” means a hospital engaged primarily in providing specialized care to inpatients with alcoholism or chemical dependency rehabilitative service needs.

(C) “Alcohol or drug abuse rehabilitation bed” means a hospital bed that is staffed and equipped for care of inpatients whose primary diagnosis is alcoholism or other chemical dependency.

(D) “Associate medical staff” means staff with clinical privileges who are designated as associate pursuant to the bylaws or other governing prescript of the hospital.

(E) “Average daily census” means total patient days for a given calendar year divided by the number of days in the year.

(F) “Beds in use” means the sum of the number of beds staffed and available for patient care on the last day of each month of the calendar year, divided by twelve.

(G) “Board certified physician” means an individual licensed under Chapter 4731 of the Revised Code to practice medicine and surgery or osteopathic medicine and surgery who has passed an examination given by a medical specialty board and has been certified by that board as a specialist. “Board certified” does not include board eligible physicians. For physicians certified by more than one board, “board certified”: includes only the primary certification board.

(H) “Burn care bed” means a hospital bed that is staffed and equipped for care of inpatients whose primary diagnosis is burn-related.

(I) “Burn care hospital” means a hospital engaged primarily in providing inpatient care to patients requiring specialized burn-related diagnostic or therapeutic services.

(J) “Cancer hospital” means a hospital that is classified as a cancer hospital under 42 C.F.R. 412.23(f) (1985) and is organized primarily for treatment and research on cancer.

(K) “Cardiac catheterization” means all anatomic or physiologic studies of interventions, both diagnostic and therapeutic, in which the heart or coronary arteries are entered via a systemic vein or artery using a catheter that is manipulated under fluoroscopic visualization. This definition does not include studies of cardiac function performed using flow directed catheters that are positioned without the use of fluoroscopy.

(L) “Critical access hospital” means a hospital that is certified by the federal government as meeting the conditions of participation in the medicare program under 42 C.F.R. part 485, subpart F (1993).

(M) “Department” means the department of health of the state of Ohio.

(N) “Direct care services” means any in-person patient contact where health care or personal care is provided in the hospital.

(O) “Director” means the director of health or the director's designated representative.

(P) “Discharge” means a patient who is formally released from a hospital including deaths. Discharge does not include temporary transfers to other settings.

(Q) “Full-time equivalent” means at least one thousand eight hundred and twenty hours per calendar year.

(R) “General hospital” means a hospital that primarily functions to furnish the array of diagnostic and therapeutic services needed to provide care for a variety of medical conditions, such as diagnostic X-ray, clinical laboratory, and operating room services.

(S) “Heart hospital” means a hospital primarily engaged in providing inpatient care to
patients requiring specialized cardiac diagnostic or therapeutic services.

(T) “Hospice beds” means the inpatient beds of a hospice care program as defined in division (A) of section 3712.01 of the Revised Code.

(U) “Hospital” means an institution located at a single site engaged primarily in providing to inpatients, by or under the supervision of an organized medical staff of physicians licensed under Chapter 4731 of the Revised Code, diagnostic services and therapeutic services for medical diagnosis and treatment or rehabilitation of injured, disabled, or sick persons. “Hospital” also means an inpatient facility, located at the same site as another institution required to register under section 3701.07 of the Revised Code, that is medicare certified as a separate hospital, or operated by or on behalf of another hospital. “Hospital” does not mean an institution that is operated by the United States government or by the Ohio department of mental health.

(V) “Hospital bed” or “bed” means a bed in a hospital with the attendant physical space, fixtures, and equipment for use in caring primarily for inpatients. “Hospital bed” includes beds used in caring for patients who stay for less than twenty-four hours, but the primary use of such beds is for care of inpatients.

(W) “House staff” means interns, residents, and fellows receiving stipends from the hospital who are in training positions approved by the accreditation council of graduate medical education, the American osteopathic association, or the American dental association.

(X) “Inpatient” means a patient whose length of stay is twenty-four hours or more.

(Y) “Inpatient surgical operating room” means a room in a hospital used to perform any operative or manual procedure undertaken for the diagnosis or treatment of a disease or other disorder.

(Z) “Long term acute care hospital”, or LTACH, means a hospital that is classified as a long-term care hospital under 42 C.F.R. 412.23(e) (1985), that is engaged primarily in providing medically necessary specialized acute hospital care for medically complex patients who are critically ill or have multi-system complications or failures, and that has an average length of stay of forty-five days or less.

(AA) “Long term acute care hospital bed” means a bed in a long term acute care hospital.

(BB) “Maternity unit” means a distinct portion of a hospital in which inpatient care is provided to women during all or part of the maternity cycle.

(CC) “Medical/surgical bed” means a hospital bed in a medical or surgical unit where general medical/surgical services are provided.

(DD) “Multi-hospital system” means two or more hospitals that are subject to the control and direction of one common owner responsible for the operational decisions of the entire system or that have integrated administrative functions and medical staff that report to one governing body as the result of a formal legal or contractual obligation.

(EE) “Number of admissions” means the number of patients accepted for inpatient service of twenty-four hours or more, including transfers by a service within the hospital.

(FF) “Number of inpatient surgical cases” means number of patients treated on an inpatient basis after surgery in an operating room.

(GG) “Open heart surgery” means any surgery performed on the heart muscle, valves, arteries, or other structures in which the chest is opened and a cardiopulmonary bypass is performed using extracorporeal circulation (heart-lung machine).

(HH) “Outpatient” means a patient who is not admitted as an inpatient and whose length of stay is less than twenty-four hours.

(II) “Outpatient surgical operating room” means a room in a hospital designed to perform an operative or manual procedure undertaken for the diagnosis or treatment of a disease or other disorder on non-inpatients.

(JJ) “Patient” means an individual who receives diagnostic or therapeutic services for medical diagnosis treatment, or rehabilitation. “Patient” also includes an individual receiving
Chapter 1. General Hospital Provisions
Part I: General Hospital Operations

palliative care.

(KK) “Patient days of care” means annual total number of inpatients in a hospital on a daily count at a specific uniform time of day.

(LL) “Pediatric cardiovascular surgery” means any open or closed heart surgical procedures performed on a pediatric patient, including surgical procedures on the heart muscle, valves, arteries, or other structures, and surgical correction of both congenital and acquired heart conditions such as ventricular septal defects (VSD), atrial septal defects (ASD), patent ductus arteriosus (excluding neonates) and valve defects. “Pediatric cardiovascular surgery” does not mean heart transplantation.

(MM) “Pediatric patient” means any patient less than twenty-two years of age.

(NN) “Physical rehabilitation bed” means a hospital bed that is staffed and equipped for care of inpatients requiring intensive, multi-disciplinary physical restorative services.

(OO) “Physical rehabilitation hospital” means a hospital engaged primarily in providing specialized care to inpatients with intensive, multi-disciplinary physical restorative service needs.

(PP) “Psychiatric care bed” means a hospital bed that is staffed and equipped for care of inpatients whose primary diagnosis in mental illness.

(QQ) “Psychiatric hospital” means a hospital engaged primarily in providing specialized care to inpatients diagnosed with mental illness.

(RR) “Register” means to report to the department on an annual basis information required under section 3701.07 of the Revised Code and rule 3701-59-05 of the Administrative Code.

(SS) “Satellite unit” means a unit owned and operated by a hospital that is providing diagnostic, therapeutic, or rehabilitative services on an outpatient basis at a geographically separate location from the hospital that owns and operates it. “Satellite unit” does not include facilities that are licensed under section 3702.30 of the Revised Code, inpatient facilities at the same geographic location that are certified as a separate hospital, or facilities providing inpatient services at a different location or different street address from the hospital that owns and operates it.

(TT) “Special care bed” means a hospital bed in which special medical/surgical services, beyond general medical/surgical care and including intensive care or coronary care, are provided.

(UU) “Total number of beds” means the total number of beds in which patient care may be provided, whether or not the bed is staffed and available. Beds in temporarily closed units are included in the total. Beds that are temporarily unavailable as the result of building renovations are included in the total. A temporary increase in the number of beds in use that is caused by unusually high volumes of admissions is not included in the total, where “temporary increase” means the average daily census exceeds registered capacity for less than forty-five days in any six month period.

3701-59-03 Operation of hospitals, reporting accreditation, certification or withdrawal.

(A) No person and no political subdivision, agency, or instrumentality of this state shall operate a hospital as defined in section 3727.01 of the Revised Code unless it is certified under Title XVIII of the Social Security Act, 49 Stat. 620 (1935), 42 U.S.C. 301, as amended (1981) or is accredited by a national accrediting organization approved by the centers for medicare and medicaid services.

(B) Each hospital defined in section 3727.01 of the Revised Code shall annually report to the department its accreditation and certification status on a form or in a format prescribed by the director.

(C) Any hospital defined in section 3727.01 of the Revised Code that voluntarily
Chapter 1. General Hospital Provisions
Part I: General Hospital Operations

Department of Health Requirements and Powers

withdraws or is involuntarily terminated from certification or accreditation as required in paragraph (A) of this rule shall notify the director of health in writing within ten days after the effective date of such withdrawal or termination.

3701-59-04 Director’s investigation of violations; legal action.

(A) The director shall make an investigation of any hospital or health facility to determine if there is a violation of section 3727.02 of the Revised Code and rule 3701-59-03 of the Administrative Code whenever the director has reason to believe that there may be a violation of section 3727.02 of the Revised Code or rule 3701-59-03 of the Administrative Code.

(B) If the director ascertains that there is a violation of section 3727.02 of the Revised Code or rule 3701-59-03 of the Administrative Code, the director shall petition the court of common pleas of the county in which the hospital or health facility is located for an order enjoining such violation or shall institute legal proceedings under section 3727.99 of the Revised Code, or both, as appropriate.

3701-59-05 Hospital registration and reporting requirements.

Every hospital, public or private, shall, by the first of March of each year, register with and report to the department of health the following information for the previous calendar year in a manner prescribed by the director. A facility providing inpatient services at a geographically separate location that is not part of the main hospital or is located at a different street address from the hospital that owns and operates it, and a facility that is certified by the centers for medicare and medicaid services independently from the hospital in which it is located, shall register with and report to the department of health separately.

(A) Information needed to identify and classify the hospital, include the following:

(1) Hospital identifying information, including:
   (a) The name of the hospital;
   (b) The hospital number assigned by the department;
   (c) The name the hospital uses for medicare, if different than the hospital name in paragraph (A)(1)(a) of this rule, the hospital's national provider identifier, and centers for medicare and medicaid services certification number;
   (d) The hospital's address, mailing address if different than the address, and the county in which the hospital is located; and
   (e) The telephone number, e-mail address, and legal name of the business entity that controls the operation of the hospital, if different than the hospital name in paragraph (A)(1)(a) of this rule;

(2) The name and title of president/chief executive officer;

(3) The name, title, and telephone number of individual responsible for submitting hospital registration information to the department;

(4) Accreditation/certification status (accrediting organization name; medicare deemed status, if applicable; and date of most current accrediting organization survey);

(5) Name, address, county, and zip code of satellite units;

(6) Type of entity that controls operation of the hospital, such as not-for-profit, for profit, government, or other;

(7) Name of multi-hospital system of which the hospital is a part, if applicable and names and addresses of other Ohio hospitals within the multi-hospital system;

(8) If applicable, the hospital's medicare provider type classification, as specified in the hospital's provider agreement with the centers for medicare and medicaid services, from one of the following categories:
   (a) Short term acute care hospital;
Chapter 1. General Hospital Provisions
Part I: General Hospital Operations

(b) Psychiatric hospital;
(c) Rehabilitation hospital;
(d) Critical access hospital;
(e) Long-term acute care hospital; or
(f) Children’s hospital.

(9) The hospital's specialty or primary classification from one of the following categories if different from the medicare provider type classification, or if the hospital is not medicare certified:
   (a) General hospital;
   (b) Alcohol and drug hospital;
   (c) Burn care hospital;
   (d) Cancer hospital;
   (e) Heart hospital;
   (f) Children's hospital as defined in division (B)(1) of section 3727.01 of the Revised Code;
   (g) Rehabilitation hospital;
   (h) Psychiatric hospital; or
   (i) Other.

(10) The business name, and medicare certification number or state licensure number, or both, of the following entities contained within the hospital, as applicable:
   (a) Distinct part psychiatric unit;
   (b) Distinct part rehabilitation unit;
   (c) Transplant center; or
   (d) Maternity unit and newborn care nursery.

(B) Information on the type and volume of services provided by the hospital, including but not limited to the following:
   (1) Number of inpatient surgical cases;
   (2) Number of outpatient surgical cases;
   (3) Number of pediatric and adult cardiac catheterizations performed;
   (4) Number of adult open heart surgical procedures and the number of pediatric cardiovascular surgery procedures performed;
   (5) Number of surgical operating rooms in the following categories;
      (a) Inpatient;
      (b) Outpatient; and
      (c) Dual purpose (inpatient and outpatient);
   (6) Number of patients treated in the emergency room and released;
   (7) Number of patients treated in the emergency room who were admitted to the hospital;
   (8) Level designation, if institution is a trauma center verified by the American college of surgeons;
   (9) Level designation, if institution is a pediatric trauma center verified by the American college of surgeons;
   (10) Level designation of obstetric service, if applicable; and
   (11) Level designation of newborn service, if applicable.

Information on the location, type and volume of services provided by satellite units, including the following:
   (a) Types of services provided; and
   (b) Total number of patients treated (on an outpatient basis) for each type of service provided.

(C) The total number of beds listed by category of inpatient care provided. Report number of admissions (including individuals transferred from another unit within the hospital),
number of patient days of care, and number of beds in use for each category of care listed in
this paragraph. Beds shall be reported in the following categories:
   (1) Alcohol or drug abuse rehabilitation;
   (2) Burn care;
   (3) Hospice;
   (4) Level I neonatal care service;
   (5) Level II neonatal care service;
   (6) Level III neonatal care service;
   (7) Level I obstetric care service;
   (8) Level II obstetric care service;
   (9) Level III obstetric care service;
   (10) Long term acute care;
   (11) Long term, reported in the following categories:
      (a) Skilled nursing facility beds certified under Title XVIII of the Social Security Act, 49
          Stat. 620 (1935), 42 U.S.C. 301, as amended (1981) and which are not licensed under Chapter
          3721 of the Revised Code;
      (b) Nursing facility beds certified under Title XIX of the Social Security Act, 49 Stat. 620
          (1935), 42 U.S.C. 301, as amended (1981) and which are not licensed under Chapter 3721
          of the Revised Code;
      (c) Nursing facility beds certified under Title XVIII of the Social Security Act, 49 Stat. 620
          (1935), 42 U.S.C. 301, as amended (1981) and which are not licensed under Chapter 3721
          of the Revised Code; or
      (d) Special skilled nursing beds certified as skilled nursing facility beds under Title XVIII
          of the Social Security Act, 49 Stat. 620 (1935), 42 U.S.C. 301, as amended (1981) that were
          originally authorized by and are operated in accordance with section 3702.521 of the Revised
          Code or its predecessor;
   (12) Medical/surgical - general;
   (13) Pediatric intensive care, (beds in a separate and distinct pediatric intensive care unit
        where pediatric patients suffering from critical illness receive care;
   (14) Pediatric - general (services for patients less than twenty-two years of age are
        provided);
   (15) Physical rehabilitation;
   (16) Psychiatric care;
   (17) Special care;
   (18) Swing beds (hospital beds in a hospital or critical access hospital that has a swing
        bed agreement with the centers for medicare and medicaid services to provide either acute care
        or post hospital skilled nursing care).
   (D) The number of inpatient discharges for each of the following categories:
      (1) Discharges to home, without referral to home care or hospice services;
      (2) Discharges to home, with a referral to home care services;
      (3) Discharges to home, with a referral to hospice care program;
      (4) Transfers to inpatient service of a hospice care program;
      (5) Transfers to other hospitals;
      (6) Transfers to a home licensed as a nursing home under Chapter 3721 of the Revised
          Code or a facility certified under Title XVIII of the Social Security Act, 49 Stat. 620 (1935), 42
          U.S.C. 301, as amended (1981);
      (7) Total patients expired in the hospital; and
      (8) Total patients discharged.
   (E) The number of employees, including contract employees, by employee type within
      each of the hospital service categories listed below. Report the number of employees in each
type providing patient care services. Report the number of employees as total number of employees and total full-time equivalents.

(1) Physician services including interns, residents, salaried physicians, and contracted physicians;

(2) Dental services including dentists and dental residents;

(3) Nursing services including registered nurses, certified nurse practitioners, clinical nurse specialists, certified nurse-midwives, certified registered nurse anesthetists (CRNA), licensed practical nurses, and nursing assistants;

(4) Pharmacy services including pharmacists and pharmacy technicians;

(5) Clinical laboratory including medical technologists, medical technicians and other licensed or certified laboratory personnel;

(6) Dietary services including registered or licensed dietitians and dietetic technicians;

(7) Radiological services including technologists, technicians, and other licensed or certified radiological personnel;

(8) Therapeutic services including occupational therapists, physical therapists, physician assistants, respiratory therapists, speech/audiology therapists, and medical social workers;

(9) Mental health services including psychologists and psychiatric social workers; and

(10) All other services to include certified or licensed health professional and technical personnel.

(F) Numbers of medical staff delineated by primary area of specialization and category as follows:

(1) Area of specialization:
   (a) Medical: allergy/immunology, anesthesiology, cardiology, dentistry, dermatology, emergency medicine, family practice, gastroenterology, internal medicine, general practice, hematology, neonatology neurology, nuclear medicine, obstetrics and gynecology, oncology, ophthalmology, otorhinolaryngology, pathology, pediatrics, physical medicine, podiatry, psychiatry, radiology, rheumatology, urology, general medicine rotation program, and any other medical specialty; or
   (b) Surgical: cardiovascular, colon and rectal, general neurological, orthopedic, plastic, thoracic, surgery rotation program, and any other surgical specialty.

(2) Categories:
   (a) Active and associate medical staff;
   (b) Active and associate medical staff who are board certified;
   (c) House staff;
   (d) House staff who are in training positions approved by the accreditation council of graduate medical education or the American osteopathic association; and
   (e) House staff who are in training positions approved by the American dental association.

(G) County (or state if other than Ohio) of resident of patients at the time of admission, reported in the aggregate.

3701-75-04 Confidentiality statutes.

The following federal statutes or regulations or state statutes and administrative rules make personal information maintained by the agency confidential and identify the confidential personal information within the scope of rules promulgated by this agency in accordance with section 1347.15 of the Revised Code:

(C) Protected health information: section 3701.17 of the Revised Code.
(D) Information related to testing for the human immunodeficiency virus ("HIV"), acquired immunodeficiency syndrome ("AIDS"), and AIDS-related condition: section 3701.243 for the Revised Code.
(E) Identifying quality-of-care data: section 3702.18 of the Revised Code.
(F) Information related to an adoption: section 3705.12 of the Revised Code and rule 3701-5-12 of the Administrative Code.
(G) Birth defects information: section 3705.32 of the Revised Code and rule 3701-57-04 of the Administrative Code.
(H) Information for medical or health use only of a birth record: section 3705.23 of the Revised Code.
(I) Criminal record check related to hospice care workers: section 3712.09 of the Revised Code.
(J) The identity of or information that would tend to identify any patient or resident of a home, complainant, or any person who provided information regarding an investigation of a home: section 3721.031 of the Revised Code.
(K) Criminal record check related to long-term care workers: section 3721.121 of the Revised Code.
(L) The identity of or information that would tend to identify any complainant, or any person who provided information regarding an investigation of abuse, neglect, or misappropriation in a long-term care or residential care facility: section 3721.25 of the Revised Code.
(N) Criminal record check related to an adult care facility worker: section 3722.151 of the Revised Code.
(O) Criminal background check of a home health agency worker: section 3701.881 of the Revised Code.
(P) The name of a complainant concerning any radon tester, mitigation specialist, mitigation contractor, or operator of a radon laboratory or an approved training course: section 3723.10 of the Revised Code.
(Q) The name of a complainant concerning a lead inspector, a lead abatement contractor, a lead risk assessor, a lead abatement project designer, a lead abatement worker, a clearance technician, a clinical laboratory, an environmental lead analytical laboratory, or a training course: section 3742.15 of the Revised Code.
(R) Information concerning lead that is reported and are medical records: section 3742.03 of the Revised Code.
(V) Records and documents relating to certifications, recertifications or medical histories of employees or employees' family members created for “Family Medical Leave Act” (“FMLA”) purposes: 29 CFR 825.500.
(W) Information obtained for purposes of the “American with Disabilities Act (“ADA”), as amended by ADA Amendments Act of 2008” or of the “Rehabilitation Act of 1973” regarding the medical condition or history of an applicant or employee: 29 CFR 1630.14.
(X) Certain data contained in the “Automated Survey Processing Environment” (“ASPEN”) and “Automated Complaint/Incidents Tracking” (“ACTS”) system of records for health care facilities
3727.21 Hospital negotiations to allocate equipment or services.

(A) Acting through their boards of directors or boards of trustees, a group of hospitals may conduct discussions or negotiations concerning the allocation of health care equipment or health care services, provided that the discussions or negotiations do not involve price-fixing or predatory pricing and are designed to achieve one or more of the following goals:

1. Reducing health care costs for consumers;
2. Improving access to health care services;
3. Improving the quality of patient care.

Directors or trustees who participate in the discussions or negotiations authorized by this division and the hospitals they represent are immune from civil enforcement action and criminal prosecution for violations of Chapter 1331 of the Revised Code that might otherwise result from the discussions or negotiations.

(B) Directors or trustees who participate in discussions or negotiations that exceed the scope of discussions or negotiations authorized by division (A) of this section and the hospitals they represent are not immune from civil enforcement or criminal prosecution for violations of Chapter 1331 of the Revised Code that may result from such discussions or negotiations.

3727.22 Cooperative agreements; requirements, updates and immunity.

(A) If directors or trustees who participated in discussions or negotiations authorized by section 3727.21 of the Revised Code wish to have the hospitals they represent undertake a cooperative action proposed as a result of the discussions or negotiations, they may submit a request to the director of health on behalf of the hospitals for approval of an agreement to undertake the cooperative action. The request shall include all of the following:

1. A copy of the proposed agreement;
2. An implementation plan that states how and when the cooperative action identified in the agreement will meet one or more of the goals specified in division (A) of section 3727.21 of the Revised Code;
3. Any additional information the boards of directors or boards of trustees wish to present to the director;
4. Any additional information the director of health considers necessary to make the determination required by division (B) of this section.

(B) If the director of health determines, on the basis of the information submitted by the directors or trustees, that one or more of the goals set forth in division (A) of section 3727.21 of the Revised Code is likely to be met through the implementation of a cooperative agreement and that the benefits resulting from the cooperative agreement are likely to outweigh the disadvantages attributable to any reduction in competition, the director shall submit the request for approval of an agreement to undertake cooperative action to the attorney general for review. The attorney general shall review the request not later than thirty days after he receives it. The attorney general may advise the director, in writing, to approve or deny the request. Failure by the attorney general to advise the director regarding his review within thirty days of his receipt of the request shall constitute his approval of the request.

If the attorney general advises the director to deny a request, he shall state the reasons for such denial. Reasons for advising the director to deny a request include a determination that
the implementation of the agreement will result in price-fixing or predatory pricing.

On receipt of the advice of the attorney general, or at the end of the thirty-day period, the director of health shall issue an order in accordance with Chapter 119 of the Revised Code approving or denying the cooperative agreement. The director's order to approve or deny a cooperative agreement is not subject to appeal.

(C) A group of hospitals that is the subject of an order approving a cooperative agreement issued under division (B) of this section is immune from civil enforcement action and criminal prosecution for actions that might otherwise violate Chapter 1331 of the Revised Code taken in furtherance of the cooperative agreement. Directors and trustees who participate in the implementation of an approved cooperative agreement also are immune from civil enforcement action and criminal prosecution for actions that might otherwise violate Chapter 1331 of the Revised Code taken in furtherance of the cooperative agreement.

(D) The director of health may request periodic written updates of the progress of the approved cooperative agreement. If updates are requested, the director shall specify the intervals at which they must be submitted, which shall be not less than every ninety days. The attorney general may request the director to provide copies of any updates the director receives.

(E) The director of health may rescind an order approving a cooperative agreement by issuing a rescission order in accordance with Chapter 119 of the Revised Code if updates of the progress of the approved cooperative agreement are not provided to him as requested, if he determines that the approved cooperative agreement is not meeting one or more of the goals specified in division (A) of section 3727.21 of the Revised Code, or if he determines that the benefits resulting from the cooperative agreement do not outweigh the disadvantages attributable to any reduction in competition. A rescission order may be appealed in accordance with Chapter 119 of the Revised Code by any of the hospitals that are parties to the cooperative agreement. Any affected person may intervene in the appeal.

(F) Nothing in this section shall limit the authority of the attorney general to initiate civil enforcement action or criminal prosecution if he determines that the hospitals or their directors or trustees have exceeded the scope of the cooperative agreement approved under division (B) of this section.

(G) Nothing in sections 3727.21 to 3727.23 of the Revised Code shall oblige the boards of directors or boards of trustees of a group of hospitals to submit a request for approval under this section. Any person who implements any cooperative action or agreement without securing the approval of the director of health under this section is subject to any civil or criminal enforcement action for violations of Chapter 1331 of the Revised Code that may result from such action.

3727.24 State’s role in cooperative agreements.

It is the intent of sections 3727.21 to 3727.23 of the Revised Code to require the state, through the director of health and attorney general, to provide direction, supervision, and control over approved cooperative agreements entered into under section 3727.22 of the Revised Code. To achieve the goals specified in section 3727.21 of the Revised Code, this state direction, supervision, and control of cooperative agreements will provide state action immunity under federal antitrust laws to the members of boards of directors or boards of trustees of a group of hospitals who participate in discussions or negotiations authorized by section 3727.21 of the Revised Code, and to persons authorized by such directors or trustees to implement cooperative agreements approved under section 3727.22 of the Revised Code.
339.01 County authority to own hospitals

(A) As used in sections 339.01 to 339.17 of the Revised Code:
(1) "Hospital facilities" has the meaning given in section 140.01 of the Revised Code.
(2) "County hospital" includes all of the county hospital's branches and hospital facilities, wherever located.
(3) "Outpatient health facility" means a facility where medical care and preventive, diagnostic, therapeutic, rehabilitative, or palliative items or services are provided to outpatients by or under the direction of a physician or dentist.

(B) A board of county commissioners may purchase, acquire, lease, appropriate, and construct a county hospital or hospital facilities thereof. After a county hospital or hospital facilities have been fully completed and sufficiently equipped for occupancy, any subsequent improvements, enlargements, or rebuilding of any such facility shall be made by the board of county hospital trustees or a hospital commission appointed pursuant to section 339.14 of the Revised Code.

(C)(1) A board of county commissioners, board of county hospital trustees, or hospital commission may purchase, acquire, lease, appropriate, or construct an outpatient health facility in another county to serve as a branch of the county hospital. The outpatient health facility may include office space for physicians. The facility shall be operated pursuant to the law that regulates the operation of the county hospital.

(2) When a proposal to establish an outpatient health facility in another county is made by a board of hospital trustees or a hospital commission, all of the following apply:
   (a) The board of county hospital trustees or hospital commission shall give written notice to its board of county commissioners and to the board of county commissioners of the county where the facility is to be located. The board of county commissioners where the facility is to be located, by resolution adopted within forty days after receipt of the notice, may object to the proposed facility. The resolution shall include an explanation of the objection and may make any recommendations the board considers necessary. The board shall send a copy of the resolution to the board of county hospital trustees or the hospital commission and to the board of county commissioners of the county that proposes to locate the facility in the other county.
   (b) Except as provided in division (C)(2)(c) of this section, the board of county hospital trustees or the hospital commission may establish and operate the facility, unless the board of county commissioners of the county proposing to locate the facility in the other county, not later than twenty days after receiving a resolution of objection from the other county's board of county commissioners pursuant to division (C)(2)(a) of this section, adopts a resolution denying the trustees or commission the right to establish the facility.
   (c) If a board of county commissioners provides a subsidy for uncompensated care to a board of county hospital trustees or hospital commission, the board of county hospital trustees or hospital commission may establish and operate the outpatient health facility only if that board of county commissioners approves the establishment of the facility.

(D) A county hospital may be designated as a monument to commemorate the services of the soldiers, sailors, marines, and pioneers of the county.
board of county commissioners first determines by resolution to establish a county hospital. Copies of such resolution shall be certified to the probate judge of the county senior in point of service and to the judge, other than a probate judge, of the court of common pleas of the county senior in point of service. The board of county commissioners together with the probate judge of the county senior in point of service and the judge of the court of common pleas of the county senior in point of service shall, within ten days after such certification, appoint a board of county hospital trustees.

(C) In making appointments to a board of county hospital trustees, both of the following apply with respect to the individuals who may be appointed:

1. Members shall be electors and representative of the area served by the hospital, except that not more than two members may be electors of the area served by the hospital that is outside the county in which the hospital is located.

2. A physician may serve as a member, including a physician who is authorized to admit and treat patients at the hospital, except as follows:
   a. Not more than two physicians may serve as members at the same time;
   b. No physician who is employed by the hospital may serve as a member.

(D) A board of county hospital trustees shall be composed of six members, unless the board of county commissioners determines that the board of trustees can more effectively function with eight or ten members in which case there may be eight or ten members, as designated by the board of county commissioners.

(E) With respect to the initial appointment of members to a board of county hospital trustees, all of the following apply:

1. When the board is composed of six members, their terms of office shall be one for one year, one for two years, one for three years, one for four years, one for five years, and one for six years from the first Monday of March thereafter.

2. When the board is composed of eight members, their terms of office shall be one for one year, one for two years, two for three years, one for four years, one for five years, and two for six years from the first Monday of March thereafter.

3. When the board is composed of ten members, their terms of office shall be two for one year, two for two years, two for three years, two for four years, one for five years, and two for six years from the first Monday of March thereafter.

(F) Except as provided in division (G)(2) of this section, all of the following apply with respect to vacancies on a board of county hospital trustees:

1. Annually, on the first Monday of March, the board of county commissioners together with the probate judge of the county senior in point of service and the judge of the court of common pleas of the county senior in point of service shall appoint or reappoint for a term of six years a sufficient number of members to replace those members whose terms have expired.

2. The appointing authority shall fill a vacancy not later than six months after the vacancy occurs. If the vacancy remains unfilled on that date, the remaining members of the board, by majority vote, shall appoint an individual to fill the vacancy.

3. The appointing authority may fill a vacancy by seeking nominations from a selection committee consisting of one county commissioner designated by the board of county commissioners, the chair of the board of county hospital trustees, and the county hospital administrator. If nominations for filling a vacancy are sought from a selection committee, the committee shall nominate at least three individuals for the vacancy. The appointing authority may fill the vacancy by appointing one of the nominated individuals or by appointing another individual selected by the appointing authority.

4. Any member appointed to fill a vacancy occurring prior to the expiration date of the term for which the member's predecessor was appointed shall hold office as a member for the remainder of that term.
Chapter 1. General Hospital Provisions
Part I: General Hospital Operations

(G)(1) The board of county commissioners together with the probate judge senior in point of service and the judge of the court of common pleas senior in point of service in any county in which a board of county hospital trustees has been appointed may expand the number of members to eight or to ten. When the number of members is increased to eight, one shall be appointed for a three-year and one for a six-year term from the first Monday of March thereafter. When the number of members is increased from six to ten, the term for additional members shall be: one for one year, one for three years, one for four years, and one for six years from the first Monday of March thereafter. When the number of members is increased from eight to ten, the term for additional members shall be: one for one year and one for four years from the first Monday of March thereafter. Thereafter, except as provided in division (G)(2) of this section, upon the expiration of the term of office of each member, the vacancy shall be filled in the manner specified in division (F) of this section.

(2) The board of county commissioners together with the probate judge senior in point of service and the judge of the court of common pleas senior in point of service may reduce the number of members of a board of county hospital trustees to eight or to six. The reduction shall occur on expiration of a member’s term of office, at which time no appointment shall be made. While the board of county commissioners and the judges are in the process of reducing the number of members, the board of county hospital trustees may consist of nine or seven members for one year.

(H) Any member of a board of county hospital trustees may be removed from office by the appointing authority for neglect of duty, misconduct, or malfeasance in office. The member shall be informed in writing of the charges and afforded an opportunity for a hearing before the appointing authority. The appointing authority shall not remove a member from office for political reasons.

(I) The board of county commissioners may provide members of a board of county hospital trustees a stipend for their service or require the members to serve without compensation. The members shall be allowed their necessary and reasonable expenses incurred in the performance of their duties, including the cost of their participation in any continuing education programs or developmental programs that the members consider necessary. Allowable stipends and expenses shall be paid out of the funds provided for the county hospital.

(J) The persons selected to be members of a board of county hospital trustees shall forthwith be notified, by mail, of their appointment. When a board is initially appointed, the notice shall state a time, not more than ten days later, when such board shall meet at the county seat of such county to organize. On the date stated, the board shall meet and organize.

(K) A board of county hospital trustees shall organize by electing one of its number as chairperson and such other officers as specified in the board’s rules. Four members of a six-member board constitute a quorum, five members constitute a quorum of an eight-member board, and six members constitute a quorum of a ten-member board.

A board of county hospital trustees shall hold meetings at least quarterly, shall adopt necessary rules of procedure, and shall keep a record of its proceedings and a strict account of all its receipts, disbursements, and expenditures. On completion of the construction and equipping of a county hospital, the board shall file such account with the board of county commissioners and make final settlement with the board of county commissioners for the construction and equipping of the hospital.

Members of the board of county hospital trustees may attend board meetings by means of communications equipment authorized under this division by rule of the board, including by video conference or teleconference. Notwithstanding division (C) of section 121.22 of the Revised Code, board members who attend a board meeting by means of authorized communications equipment shall be considered present in person at the meeting, shall be
Chapter 1. General Hospital Provisions
Part I: General Hospital Operations

permitted to vote, and shall be counted for purposes of determining whether a quorum is present at the meeting.

The board of county hospital trustees shall maintain a record of any vote or other action taken at a board meeting conducted by means of authorized communications equipment. The record also shall identify the members attending the board meeting by means of authorized communications equipment.

The board of county hospital trustees shall adopt rules designating the communications equipment that is authorized for use during board meetings. The board also shall adopt rules that establish procedures and guidelines for using authorized communications equipment during board meetings and that ensure verification of the identity of any board members attending board meetings by such means.

339.03 Authority of board.

The board of county hospital trustees shall have complete charge of the selection and purchase or lease of a site or sites for a county hospital, taking title or leasehold interest to such site or sites in the name of the county, the selection of plans and specifications, the determination and erection of all necessary buildings on such site or sites, and of the selection and installation of all necessary and proper furniture, fixtures, and equipment.

The board of county hospital trustees may make capital improvements, including the purchase of equipment and vehicles, and may finance such improvements through hospital revenues or other hospital funds.

The board of county hospital trustees may issue revenue obligations, pursuant to section 140.06 or 339.15 of the Revised Code, or revenue bonds pursuant to section 133.08 of the Revised Code.

The board of county hospital trustees may construct an addition to the county hospital, acquire an existing structure for the purpose of leasing office space to local physicians, or lease real property to any person to construct facilities for providing medical services other than inpatient hospital services if the board of county hospital trustees determines that such purpose is reasonably related to the proper operation of the county hospital.

339.04 Hospital building fund.

Notwithstanding section 135.351 of the Revised Code, all funds, including any and all interest income, arising from a special tax levy or general obligation bond issue for the purchase, appropriation, or construction of a county hospital, and contributions thereto, shall be placed in the county treasury to the credit of a fund to be known as the "county hospital building fund." Such fund shall be paid out on the order of the board of county hospital trustees, certified by the chairman of the board.

339.05 Purchasing procedures.

(A) A board of county hospital trustees may adopt, annually, bidding procedures and purchasing or leasing policies provided through a joint purchasing arrangement sponsored by a nonprofit organization, for services, supplies, and equipment, that are routinely used in the operation of the hospital and that cost in excess of the amount specified in section 307.86 of the Revised Code as the amount above which purchases must be competitively bid. If a board of county hospital trustees adopts those policies and procedures, and if the board of county commissioners approves them, the board of county hospital trustees may follow those policies and procedures in lieu of following the competitive bidding procedures of sections 307.86 to 307.92 of the Revised Code.
(B) Notwithstanding section 307.86 of the Revised Code, the board of county hospital trustees is exempt from competitive bidding as required under that section if the board, by a unanimous vote of its members, makes a determination that a real and present emergency exists, and either of the following applies:

1. The estimated cost is less than one hundred thousand dollars.
2. There is actual physical damage to structures or equipment.

The board shall enter the determination of emergency and the reasons for it in the minutes of its proceedings.

(C) For purposes of this section, a vote is unanimous if all members of a board of county hospital trustees are present, or a lesser number of members of the board if not all members are present, provided that the number of members present constitutes a quorum. Board members participating in a vote by means of authorized communications equipment in accordance with section 339.02 of the Revised Code are considered to be present in person and may vote on matters under this section.

(D) Whenever a contract of purchase, lease, or construction is exempted from competitive bidding because the estimated cost is less than one hundred thousand dollars, but the estimated cost is fifty thousand dollars or more, the board shall solicit informal estimates from not fewer than three persons who could perform the contract, before awarding the contract. With regard to each such contract, the board shall maintain a record of the informal estimates, including the name of each person from whom an informal estimate was solicited. The board shall maintain the record for the longer of at least one year after the contract is awarded or an amount of time required by the federal government.

339.06 Board's operation of hospital.

[Editor's Note: This version of the statute is effective until 1/1/2018. The version effective subsequently is included next.]

  (A) The board of county hospital trustees, upon completion of construction or leasing and equipping of a county hospital, shall assume and continue the operation of the hospital.
  (B) The board of county hospital trustees shall have the entire management and control of the county hospital. The board may in writing delegate its management and control of the county hospital to the administrator of the county hospital employed under section 339.07 of the Revised Code. The board shall establish such rules for the hospital's government, management, control, and the admission of persons as are expedient.
  (C) The board of county hospital trustees has control of the property of the county hospital, including management and disposal of surplus property other than real estate or an interest in real estate.
  (D) With respect to the use of funds by the board of county hospital trustees and its accounting for the use of funds, all of the following apply:
    1. The board of county hospital trustees has control of all funds used in the county hospital's operation, including moneys received from the operation of the hospital, moneys appropriated for its operation by the board of county commissioners, and moneys resulting from special levies submitted by the board of county commissioners as provided for in section 5705.22 of the Revised Code.
    2. Of the funds used in the county hospital's operation, all or part of any amount determined not to be necessary to meet current demands on the hospital may be invested by the board of county hospital trustees or its designee in any classifications of securities and obligations eligible for deposit or investment of county moneys pursuant to section 135.35 of the Revised Code, subject to the approval of the board's written investment policy by the county investment advisory committee established pursuant to section 135.341 of the Revised Code. If
a county hospital is based in a county that has adopted a charter under Section 3 of Article X, Ohio Constitution, such funds may be invested by the board of county hospital trustees as provided in this division or in an ordinance adopted by the legislative authority of the county, in either case subject to approval by the county investment advisory committee, or as provided in section 339.061 of the Revised Code.

(3) Annually, not later than sixty days before the end of the fiscal year used by the county hospital, the board of county hospital trustees shall submit its proposed budget for the ensuing fiscal year to the board of county commissioners for that board’s review. The board of county commissioners shall review and approve the proposed budget by the first day of the fiscal year to which the budget applies. If the board of county commissioners has not approved the budget by the first day of the fiscal year to which the budget applies, the budget is deemed to have been approved by the board on the first day of that fiscal year.

(4) The board of county hospital trustees shall not expend funds received from taxes collected pursuant to any tax levied under section 5705.22 of the Revised Code or the amount appropriated to the county hospital by the board of county commissioners in the annual appropriation measure for the county until its budget for the applicable fiscal year is approved in accordance with division (C)(3) of this section. At any time the amount received from those sources differs from the amount shown in the approved budget, the board of county commissioners may require the board of county hospital trustees to revise the county hospital budget accordingly.

(5) Funds under the control of the board of county hospital trustees may be disbursed by the board, consistent with the approved budget, for the uses and purposes of the county hospital; for the replacement of necessary equipment; for the acquisition, leasing, or construction of permanent improvements to county hospital property; or for making a donation authorized by division (E) of this section. Each disbursement of funds shall be made on a voucher signed by signatories designated and approved by the board of county hospital trustees.

(6) The head of a board of county hospital trustees is not required to file an estimate of contemplated revenue and expenditures for the ensuing fiscal year under section 5705.28 of the Revised Code unless the board of county commissioners levies a tax for the county hospital, or such a tax is proposed, or the board of county hospital trustees desires that the board of county commissioners make an appropriation to the county hospital for the ensuing fiscal year.

(7) All moneys appropriated by the board of county commissioners or from special levies by the board of county commissioners for the operation of the hospital, when collected shall be paid to the board of county hospital trustees on a warrant of the county auditor and approved by the board of county hospital trustees.

(8) The board of county hospital trustees shall provide for the conduct of an annual financial audit of the county hospital. Not later than thirty days after it receives the final report of an annual financial audit, the board shall file a copy of the report with the board of county commissioners.

(E) For the public purpose of improving the health, safety, and general welfare of the community, the board of county hospital trustees may donate to a nonprofit entity any of the following:

(1) Moneys and other financial assets determined not to be necessary to meet current demands on the hospital;
(2) Surplus hospital property, including supplies, equipment, office facilities, and other property that is not real estate or an interest in real estate;
(3) Services rendered by the hospital.

(F)(1) For purposes of division (F)(2) of this section:
(a) “Bank” has the same meaning as in section 1101.01 of the Revised Code.
(b) “Savings and loan association” has the same meaning as in section 1151.01 of the
Chapter 1. General Hospital Provisions
Part I: General Hospital Operations

Revised Code.

(c) “Savings bank” has the same meaning as in section 1161.01 of the Revised Code.

(2) The board of county hospital trustees may enter into a contract for a secured line of credit with a bank, savings and loan association, or savings bank if the contract meets all of the following requirements:

(a) The term of the contract does not exceed one year, except that the contract may provide for the automatic renewal of the contract for up to four additional one-year periods if, on the date of automatic renewal, the aggregate outstanding draws remaining unpaid under the secured line of credit do not exceed fifty per cent of the maximum amount that can be drawn under the secured line of credit.

(b) The contract provides that the bank, savings and loan association, or savings bank shall not commence a civil action against the board of county commissioners, any member of the board, or the county to recover the principal, interest, or any charges or other amounts that remain outstanding on the secured line of credit at the time of any default by the board of county hospital trustees.

(c) The contract provides that no assets other than those of the county hospital can be used to secure the line of credit.

(d) The terms and conditions of the contract comply with all state and federal statutes and rules governing the extension of a secured line of credit.

(3) Any obligation incurred by a board of county hospital trustees under division (F)(2) of this section is an obligation of that board only and not a general obligation of the board of county commissioners or the county within the meaning of division (Q) of section 133.01 of the Revised Code.

(4) Notwithstanding anything to the contrary in the Revised Code, the board of county hospital trustees may secure the line of credit authorized under division (F)(2) of this section by the grant of a security interest in any part or all of its tangible personal property and intangible personal property, including its deposit accounts, accounts receivable, or both.

(5) No board of county hospital trustees shall at any time have more than one secured line of credit under division (F)(2) of this section.

(G) The board of county hospital trustees shall establish a schedule of charges for all services and treatment rendered by the county hospital. It may provide for the free treatment in the hospital of soldiers, sailors, and marines of the county, under such conditions and rules as it prescribes.

(H) The board of county hospital trustees may designate the amounts and forms of insurance protection to be provided, and the board of county commissioners shall assist in obtaining such protection. The expense of providing the protection shall be paid from hospital operating funds.

(I) The board of county hospital trustees may authorize a county hospital and each of its units, hospital board members, designated hospital employees, and medical staff members to be a member of and maintain membership in any local, state, or national group or association organized and operated for the promotion of the public health and welfare or advancement of the efficiency of hospital administration and in connection therewith to use tax funds for the payment of dues and fees and related expenses but nothing in this section prohibits the board from using receipts from hospital operation, other than tax funds, for the payment of such dues and fees.

(J) The following apply to the board of county hospital trustees in relation to its employees and the employees of the county hospital:

(1) The board shall adopt the wage and salary schedule for employees.

(2) The board may employ the hospital’s administrator pursuant to section 339.07 of the Revised Code, and the administrator may employ individuals for the hospital in accordance with that section.
(3) The board may employ assistants as necessary to perform its clerical work, superintend properly the construction of the county hospital, and pay the hospital's expenses. Such employees may be paid from funds provided for the county hospital.

(4) The board may hire, by contract or as salaried employees, such management consultants, accountants, attorneys, engineers, architects, construction managers, and other professional advisors as it determines are necessary and desirable to assist in the management of the programs and operation of the county hospital. Such professional advisors may be paid from county hospital operating funds.

(5) Notwithstanding section 325.19 of the Revised Code, the board may grant to employees any fringe benefits the board determines to be customary and usual in the nonprofit hospital field in its community, including, but not limited to:

(a) Additional vacation leave with full pay for full-time employees, including full-time hourly rate employees, after service of one year;

(b) Vacation leave and holiday pay for part-time employees on a pro rata basis;

(c) Leave with full pay due to death in the employee's immediate family, which shall not be deducted from the employee's accumulated sick leave;

(d) Premium pay for working on holidays listed in section 325.19 of the Revised Code;

(e) Moving expenses for new employees;

(f) Discounts on hospital supplies and services.

(6) The board may provide holiday leave by observing Martin Luther King day, Washington-Lincoln day, Columbus day, and Veterans' day on days other than those specified in section 1.14 of the Revised Code.

(7) The board may grant to employees the insurance benefits authorized by section 339.16 of the Revised Code.

(8) Notwithstanding section 325.19 of the Revised Code, the board may grant to employees, including hourly rate employees, such personal holidays as the board determines to be customary and usual in the hospital field in its community.

(9) The board may grant to employees the recruitment and retention benefits specified under division (K) of this section.

(K) Notwithstanding sections 325.191 and 325.20 of the Revised Code, the board of county hospital trustees may provide, without the prior authorization of the board of county commissioners, scholarships for education in the health care professions, tuition reimbursement, and other staff development programs to enhance the skills of health care professionals for the purpose of recruiting or retaining qualified employees. The board of county hospital trustees may pay reasonable expenses for recruiting or retaining physicians and other appropriate health care practitioners.

(L) The board of county hospital trustees may retain counsel and institute legal action in its own name for the collection of delinquent accounts. The board may also employ any other lawful means for the collection of delinquent accounts.

339.06 Board's operation of hospital.

[Editor's Note: This version of the statute is effective 1/1/2018. The version effective prior to that date is included previously.]

(A) The board of county hospital trustees, upon completion of construction or leasing and equipping of a county hospital, shall assume and continue the operation of the hospital.

(B) The board of county hospital trustees shall have the entire management and control of the county hospital. The board may in writing delegate its management and control of the
county hospital to the administrator of the county hospital employed under section 339.07 of the Revised Code. The board shall establish such rules for the hospital's government, management, control, and the admission of persons as are expedient.

(C) The board of county hospital trustees has control of the property of the county hospital, including management and disposal of surplus property other than real estate or an interest in real estate.

(D) With respect to the use of funds by the board of county hospital trustees and its accounting for the use of funds, all of the following apply:

(1) The board of county hospital trustees has control of all funds used in the county hospital's operation, including moneys received from the operation of the hospital, moneys appropriated for its operation by the board of county commissioners, and moneys resulting from special levies submitted by the board of county commissioners as provided for in section 5705.22 of the Revised Code.

(2) Of the funds used in the county hospital's operation, all or part of any amount determined not to be necessary to meet current demands on the hospital may be invested by the board of county hospital trustees or its designee in any classifications of securities and obligations eligible for deposit or investment of county moneys pursuant to section 135.35 of the Revised Code, subject to the approval of the board's written investment policy by the county investment advisory committee established pursuant to section 135.341 of the Revised Code. If a county hospital is based in a county that has adopted a charter under Section 3 of Article X, Ohio Constitution, such funds may be invested by the board of county hospital trustees as provided in this division or in an ordinance adopted by the legislative authority of the county, in either case subject to approval by the county investment advisory committee, or as provided in section 339.061 of the Revised Code.

(3) Annually, not later than sixty days before the end of the fiscal year used by the county hospital, the board of county hospital trustees shall submit its proposed budget for the ensuing fiscal year to the board of county commissioners for that board's review. The board of county commissioners shall review and approve the proposed budget by the first day of the fiscal year to which the budget applies. If the board of county commissioners has not approved the budget by the first day of the fiscal year to which the budget applies, the budget is deemed to have been approved by the board on the first day of that fiscal year.

(4) The board of county hospital trustees shall not expend funds received from taxes collected pursuant to any tax levied under section 5705.22 of the Revised Code or the amount appropriated to the county hospital by the board of county commissioners in the annual appropriation measure for the county until its budget for the applicable fiscal year is approved in accordance with division (C)(3) of this section. At any time the amount received from those sources differs from the amount shown in the approved budget, the board of county commissioners may require the board of county hospital trustees to revise the county hospital budget accordingly.

(5) Funds under the control of the board of county hospital trustees may be disbursed by the board, consistent with the approved budget, for the uses and purposes of the county hospital; for the replacement of necessary equipment; for the acquisition, leasing, or construction of permanent improvements to county hospital property; or for making a donation authorized by division (E) of this section. Each disbursement of funds shall be made on a voucher signed by signatories designated and approved by the board of county hospital trustees.

(6) The head of a board of county hospital trustees is not required to file an estimate of contemplated revenue and expenditures for the ensuing fiscal year under section 5705.28 of the Revised Code unless the board of county commissioners levies a tax for the county hospital, or such a tax is proposed, or the board of county hospital trustees desires that the board of county commissioners make an appropriation to the county hospital for the ensuing fiscal year.
(7) All moneys appropriated by the board of county commissioners or from special levies by the board of county commissioners for the operation of the hospital, when collected shall be paid to the board of county hospital trustees on a warrant of the county auditor and approved by the board of county commissioners.

(8) The board of county hospital trustees shall provide for the conduct of an annual financial audit of the county hospital. Not later than thirty days after it receives the final report of an annual financial audit, the board shall file a copy of the report with the board of county commissioners.

(E) For the public purpose of improving the health, safety, and general welfare of the community, the board of county hospital trustees may donate to a nonprofit entity any of the following:

(1) Moneys and other financial assets determined not to be necessary to meet current demands on the hospital;
(2) Surplus hospital property, including supplies, equipment, office facilities, and other property that is not real estate or an interest in real estate;
(3) Services rendered by the hospital.

(F)(1) For purposes of division (F)(2) of this section, “bank” has the same meaning as in section 1101.01 of the Revised Code.

(2) The board of county hospital trustees may enter into a contract for a secured line of credit with a bank if the contract meets all of the following requirements:

(a) The term of the contract does not exceed one year, except that the contract may provide for the automatic renewal of the contract for up to four additional one-year periods if, on the date of automatic renewal, the aggregate outstanding draws remaining unpaid under the secured line of credit do not exceed fifty per cent of the maximum amount that can be drawn under the secured line of credit.

(b) The contract provides that the bank shall not commence a civil action against the board of county commissioners, any member of the board, or the county to recover the principal, interest, or any charges or other amounts that remain outstanding on the secured line of credit at the time of any default by the board of county hospital trustees.

(c) The contract provides that no assets other than those of the county hospital can be used to secure the line of credit.

(d) The terms and conditions of the contract comply with all state and federal statutes and rules governing the extension of a secured line of credit.

(3) Any obligation incurred by a board of county hospital trustees under division (F)(2) of this section is an obligation of that board only and not a general obligation of the board of county commissioners or the county within the meaning of division (Q) of section 133.01 of the Revised Code.

(4) Notwithstanding anything to the contrary in the Revised Code, the board of county hospital trustees may secure the line of credit authorized under division (F)(2) of this section by the grant of a security interest in any part or all of its tangible personal property and intangible personal property, including its deposit accounts, accounts receivable, or both.

(5) No board of county hospital trustees shall at any time have more than one secured line of credit under division (F)(2) of this section.

(G) The board of county hospital trustees shall establish a schedule of charges for all services and treatment rendered by the county hospital. It may provide for the free treatment in the hospital of soldiers, sailors, and marines of the county, under such conditions and rules as it prescribes.

(H) The board of county hospital trustees may designate the amounts and forms of insurance protection to be provided, and the board of county commissioners shall assist in obtaining such protection. The expense of providing the protection shall be paid from hospital operating funds.
(I) The board of county hospital trustees may authorize a county hospital and each of its units, hospital board members, designated hospital employees, and medical staff members to be a member of and maintain membership in any local, state, or national group or association organized and operated for the promotion of the public health and welfare or advancement of the efficiency of hospital administration and in connection therewith to use tax funds for the payment of dues and fees and related expenses but nothing in this section prohibits the board from using receipts from hospital operation, other than tax funds, for the payment of such dues and fees.

(J) The following apply to the board of county hospital trustees in relation to its employees and the employees of the county hospital:

1. The board shall adopt the wage and salary schedule for employees.
2. The board may employ the hospital's administrator pursuant to section 339.07 of the Revised Code, and the administrator may employ individuals for the hospital in accordance with that section.
3. The board may employ assistants as necessary to perform its clerical work, superintend properly the construction of the county hospital, and pay the hospital's expenses. Such employees may be paid from funds provided for the county hospital.
4. The board may hire, by contract or as salaried employees, such management consultants, accountants, attorneys, engineers, architects, construction managers, and other professional advisors as it determines are necessary and desirable to assist in the management of the programs and operation of the county hospital. Such professional advisors may be paid from county hospital operating funds.
5. Notwithstanding section 325.19 of the Revised Code, the board may grant to employees any fringe benefits the board determines to be customary and usual in the nonprofit hospital field in its community, including, but not limited to:
   a. Additional vacation leave with full pay for full-time employees, including full-time hourly rate employees, after service of one year;
   b. Vacation leave and holiday pay for part-time employees on a pro rata basis;
   c. Leave with full pay due to death in the employee's immediate family, which shall not be deducted from the employee's accumulated sick leave;
   d. Premium pay for working on holidays listed in section 325.19 of the Revised Code;
   e. Moving expenses for new employees;
   f. Discounts on hospital supplies and services.
6. The board may provide holiday leave by observing Martin Luther King day, Washington-Lincoln day, Columbus day, and Veterans' day on days other than those specified in section 1.14 of the Revised Code.
7. The board may grant to employees the insurance benefits authorized by section 339.16 of the Revised Code.
8. Notwithstanding section 325.19 of the Revised Code, the board may grant to employees, including hourly rate employees, such personal holidays as the board determines to be customary and usual in the hospital field in its community.
9. The board may provide employee recognition awards and hold employee recognition dinners.
10. The board may grant to employees the recruitment and retention benefits specified under division (K) of this section.

(K) Notwithstanding sections 325.191 and 325.20 of the Revised Code, the board of county hospital trustees may provide, without the prior authorization of the board of county commissioners, scholarships for education in the health care professions, tuition reimbursement, and other staff development programs to enhance the skills of health care professionals for the purpose of recruiting or retaining qualified employees.
Chapter 1. General Hospital Provisions  
Part I: General Hospital Operations

County Hospitals

The board of county hospital trustees may pay reasonable expenses for recruiting or retaining physicians and other appropriate health care practitioners.

(L) The board of county hospital trustees may retain counsel and institute legal action in its own name for the collection of delinquent accounts. The board may also employ any other lawful means for the collection of delinquent accounts.

339.07 Hospital administration responsibilities.

(A) The board of county hospital trustees shall provide for the administration of the county hospital by directly employing a hospital administrator or by entering into a contract for the management of the hospital under which an administrator is provided. When an administrator is employed directly, the board shall adopt a job description delineating the administrator's powers and duties and the board may pay the administrator's salary and other benefits from funds provided for the hospital.

(B) During the construction and equipping of the hospital, the administrator shall act in an advisory capacity to the board of county hospital trustees. After the hospital is completed, the administrator shall serve as the chief executive officer and shall carry out the administration of the county hospital according to the policies set forth by the board and any written delegation.

The administrator shall administer the county hospital, make reports, and take any other action that the administrator determines is necessary for the operation of the hospital.

At the end of each fiscal year, the administrator shall submit to the board a complete financial statement showing the receipts, revenues, and expenditures in detail for the entire fiscal year.

The administrator shall ensure that the hospital has such physicians, nurses, and other employees as are necessary for the proper care, control, and management of the county hospital and its patients. The physicians, nurses, and other employees may be suspended or removed by the administrator at any time the welfare of the hospital warrants suspension or removal. The administrator may obtain physicians, nurses, and other employees by direct employment, entering into contracts, or granting authority to practice in the hospital. Persons employed directly shall be in the unclassified civil service, pursuant to section 124.11 of the Revised Code.

339.08 Hospital trust requirements.

The board of county hospital trustees may receive any gift, bequest, or devise of real or personal property in trust for the erection, improvement, or support of the county hospital, and administer the said property and the proceeds thereof in the manner required by law or the instrument creating such trust. Before receiving such trust property, the board shall give additional bond in such amount as the board of county commissioners or a court requires.

Any corporation or association holding property in trust for the erection, improvement, or support of a county hospital may make application to the court of common pleas of such county for permission to resign from and relinquish the obligations of such trust. Before receiving such trust property, the board shall give additional bond in such amount as the board of county commissioners or a court requires.

The court shall set a time for a hearing, and give notice of the hearing to the donors, if living, and to the next of kin of deceased donors, residing within the state, and notice shall also be given by publication in a newspaper published in and of general circulation within the county for three consecutive weeks. Upon hearing, with consent of the board of county hospital trustees and upon its giving such additional bond as is ordered, the court may authorize said trust property to be delivered over to said board of county hospital trustees as successor trustees. Upon delivering said trust property and making a full accounting of the administration of it to the satisfaction of the court, the former board may be discharged and any bonds or obligations for performance of its duties as such board shall be canceled.
All money held in trust by the board shall be kept in a separate fund to be known as "the hospital trust fund." The board of county hospital trustees shall make a complete report of its administration of all property and funds held in trust to the board of county commissioners with its annual report of operation of the hospital.

339.09 Lease of hospital.

When the county hospital has been fully completed and sufficiently equipped for occupancy, in lieu of sections 339.06 to 339.08 of the Revised Code, the board of county commissioners of any county, on adoption of a resolution under section 339.091 of the Revised Code, may, upon such terms as are agreed upon between the board and a constituted and empowered nonsectarian Ohio corporation, organized for charitable purposes and not for profit, a majority of whose members reside in the county, enter into an agreement to lease for use as a hospital or hospital facilities, the lands, the buildings, and equipment of any hospital owned by said county. Such lease may be from year to year or may provide for a term of not more than thirty years and may provide that such board has the option to renew such lease at the expiration thereof for a further term of not more than thirty years upon such terms as are provided for in such lease. In the event that said nonprofit corporation fails to faithfully and efficiently administer, maintain, and operate such hospital as a public hospital, admitting patients without regard to race, creed, or color, then, after an opportunity is given to be heard upon written charges, said agreement shall terminate and the control and management of said hospital, together with all additions, improvements, and equipment, shall revert to and become the property of the county to be operated as provided by law.

339.091 Lease of hospital resolution.

Before the board of county commissioners, board of county hospital trustees, or county hospital commission may enter into an initial agreement for the acquisition, operation, or lease under section 140.03, 140.05, 339.09, or 339.14 of the Revised Code of a county hospital operated by a board of county hospital trustees under section 339.06 of the Revised Code, the board of county commissioners shall review the agreement. If it finds that the agreement will meet the needs of the residents of the county for hospital service, the board of county commissioners may adopt a resolution authorizing the board of county commissioners, board of county hospital trustees, or county hospital commission to enter into the agreement. On adoption of the resolution, the board of county commissioners, board of county hospital trustees, or county hospital commission may enter into the agreement. The requirements of this section do not apply to an agreement if one or more hospitals classified as general hospitals by the director of health under section 3701.07 of the Revised Code are operating in the same county as the county hospital.

339.11 Contract for care of sick.

The board of county commissioners may enter into an agreement with one or more corporations or associations organized for charitable purposes or for the purpose of maintaining and operating a hospital in any county in which such hospital has been established, for the care of the indigent sick and disabled, including indigent persons receiving the tuberculosis treatment specified in section 339.73 of the Revised Code. The document used to verify the agreement shall specify the terms that have been agreed upon by the board and such corporations or associations. Such board shall provide for the payment of the amount agreed upon in one payment, or installments, or so much from year to year as the parties stipulate. This section does not authorize the payment of public funds to a sectarian institution, except when the
Chapter 1. General Hospital Provisions
Part I: General Hospital Operations

339.15 Bond issue.

The hospital commission of any county or the board of county hospital trustees established pursuant to section 339.02 of the Revised Code may issue revenue obligations of the county pursuant to section 140.06 of the Revised Code.

339.16 Employee insurance and benefits.

(A) A board of trustees of any county hospital may contract for, purchase, or otherwise procure on behalf of any or all of its employees, the employees of the hospital, or such employees and their immediate dependents the following types of fringe benefits:

(1) Group or individual insurance contracts which may include life, sickness, accident, disability, annuities, endowment, health, medical expense, hospital, dental, surgical and related coverage or any combination thereof;

(2) Group or individual contracts with health insuring corporations or other providers of professional services, care, or benefits duly authorized to do business in this state.

(B) A board of trustees of any county hospital may contract for, purchase, or otherwise procure insurance contracts which provide protection for the trustees, the board's employees, and the employees of the hospital against liability, including professional liability, provided that this section or any insurance contract issued pursuant to this section shall not be construed as a waiver of or in any manner affect the immunity of the hospital or county.

(C) All or any portion of the cost, premium, fees, or charges for the insurance benefits specified in divisions (A) and (B) of this section may be paid in such manner or combination of manners as the board of trustees may determine, including direct payment by an employee, and, if authorized in writing by an employee, by the board of trustees with moneys made available by deduction from or reduction in salary or wages or by the foregoing of a salary or wage increase.

Notwithstanding sections 3917.01 and 3917.06 of the Revised Code, the board of trustees may purchase group life insurance authorized by this section by reason of payment of premiums therefor by the board of trustees from its funds, and such group life insurance may be issued and purchased if otherwise consistent with sections 3917.01 to 3917.06 of the Revised Code.

339.17 Relationship to other code sections.

(A) Sections 140.03 and 140.05 of the Revised Code are alternatives to sections 339.02 to 339.13 of the Revised Code. Sections 339.02 to 339.14 of the Revised Code are not applicable with respect to hospital facilities and services provided for under leases or agreements entered into pursuant to section 140.03 or 140.05 of the Revised Code, except to the extent made applicable by section 140.03 or 140.05 of the Revised Code and the leases and agreements made thereunder.

(B) Notwithstanding division (A) of this section, the requirements of section 339.091 of the Revised Code apply to an initial agreement with a board of county commissioners, board of county hospital trustees, or county hospital commission for the acquisition, operation, or lease of a county hospital operated by a board of county hospital trustees under section 339.06 of the Revised Code, entered into pursuant to section 140.03 or 140.05 of the Revised Code, but not
Chapter 1. General Hospital Provisions
Part I: General Hospital Operations

to any amendment or renewal of such agreement.

Contracts and Payment

2305.06 Statute of limitations for action based on written contract.

Except as provided in sections 126.301 and 1302.98 of the Revised Code, an action upon a specialty or an agreement, contract, or promise in writing shall be brought within eight years after the cause of action accrued.

2329.66 Collection of health care services debt based on property lien or garnishment.

[Editor’s Note: This version of the statute is effective until 12/31/2017. The version effective on that date is included subsequently.]

(A) Every person who is domiciled in this state may hold property exempt from execution, garnishment, attachment, or sale to satisfy a judgment or order, as follows:

(1)(a) In the case of a judgment or order regarding money owed for health care services rendered or health care supplies provided to the person or a dependent of the person, one parcel or item of real or personal property that the person or a dependent of the person uses as a residence. Division (A)(1)(a) of this section does not preclude, affect, or invalidate the creation under this chapter of a judgment lien upon the exempted property but only delays the enforcement of the lien until the property is sold or otherwise transferred by the owner or in accordance with other applicable laws to a person or entity other than the surviving spouse or surviving minor children of the judgment debtor. Every person who is domiciled in this state may hold exempt from a judgment lien created pursuant to division (A)(1)(a) of this section the person's interest, not to exceed one hundred twenty-five thousand dollars, in the exempted property.

(b) In the case of all other judgments and orders, the person's interest, not to exceed one hundred twenty-five thousand dollars, in one parcel or item of real or personal property that the person or a dependent of the person uses as a residence.

(c) For purposes of divisions (A)(1)(a) and (b) of this section, “parcel” means a tract of real property as identified on the records of the auditor of the county in which the real property is located.

(2) The person's interest, not to exceed three thousand two hundred twenty-five dollars, in one motor vehicle;

(3) The person's interest, not to exceed four hundred dollars, in cash on hand, money due and payable, money to become due within ninety days, tax refunds, and money on deposit with a bank, savings and loan association, credit union, public utility, landlord, or other person, other than personal earnings.

(4)(a) The person’s interest, not to exceed five hundred twenty-five dollars in any particular item or ten thousand seven hundred seventy-five dollars in aggregate value, in household furnishings, household goods, wearing apparel, appliances, books, animals, crops, musical instruments, firearms, and hunting and fishing equipment that are held primarily for the personal, family, or household use of the person;

(b) The person’s aggregate interest in one or more items of jewelry, not to exceed one thousand three hundred fifty dollars, held primarily for the personal, family, or household use of the person or any of the person’s dependents.

(5) The person’s interest, not to exceed an aggregate of two thousand twenty-five dollars, in all implements, professional books, or tools of the person’s profession, trade, or business, including agriculture;
(6) (a) The person's interest in a beneficiary fund set apart, appropriated, or paid by a benevolent association or society, as exempted by section 2329.63 of the Revised Code;
(b) The person's interest in contracts of life or endowment insurance or annuities, as exempted by section 3911.10 of the Revised Code;
(c) The person's interest in a policy of group insurance or the proceeds of a policy of group insurance, as exempted by section 3917.05 of the Revised Code;
(d) The person's interest in money, benefits, charity, relief, or aid to be paid, provided, or rendered by a fraternal benefit society, as exempted by section 3921.18 of the Revised Code;
(e) The person's interest in the portion of benefits under policies of sickness and accident insurance and in lump sum payments for dismemberment and other losses insured under those policies, as exempted by section 3923.19 of the Revised Code.
(7) The person's professionally prescribed or medically necessary health aids;
(8) The person's interest in a burial lot, including, but not limited to, exemptions under section 517.09 or 1721.07 of the Revised Code;
(9) The person's interest in the following:
(a) Moneys paid or payable for maintenance or rights, as exempted by section 3304.19 of the Revised Code;
(b) Workers’ compensation, as exempted by section 4123.67 of the Revised Code;
(c) Unemployment compensation benefits, as exempted by section 4141.32 of the Revised Code;
(d) Cash assistance payments under the Ohio works first program, as exempted by section 5107.75 of the Revised Code;
(e) Benefits and services under the prevention, retention, and contingency program, as exempted by section 5108.08 of the Revised Code;
(f) Disability financial assistance payments, as exempted by section 5115.06 of the Revised Code;
(g) Payments under section 24 or 32 of the “Internal Revenue Code of 1986,” 100 Stat. 2085, 26 U.S.C. 1, as amended.
(10) (a) Except in cases in which the person was convicted of or pleaded guilty to a violation of section 2921.41 of the Revised Code and in which an order for the withholding of restitution from payments was issued under division (C)(2)(b) of that section, in cases in which an order for withholding was issued under section 2907.15 of the Revised Code, in cases in which an order for forfeiture was issued under division (A) or (B) of section 2929.192 of the Revised Code, and in cases in which an order was issued under section 2929.193 or 2929.194 of the Revised Code, and only to the extent provided in the order, and except as provided in sections 3105.171, 3105.63, 3119.80, 3119.81, 3121.02, 3121.03, and 3123.06 of the Revised Code, the person's rights to or interests in a pension, benefit, annuity, retirement allowance, or accumulated contributions, the person's rights to or interests in a participant account in any deferred compensation program offered by the Ohio public employees deferred compensation board, a government unit, or a municipal corporation, or the person's other accrued or accruing rights or interests, as exempted by section 143.11, 145.56, 146.13, 148.09, 742.47, 3307.41, 3309.66, or 5505.22 of the Revised Code, and the person's rights to or interests in benefits from the Ohio public safety officers death benefit fund;
(b) Except as provided in sections 3119.80, 3119.81, 3121.02, 3121.03, and 3123.06 of the Revised Code, the person's rights to receive or interests in receiving a payment or other benefits under any pension, annuity, or similar plan or contract, not including a payment or benefit from a stock bonus or profit-sharing plan or a payment included in division (A)(6)(b) or (10)(a) of this section, on account of illness, disability, death, age, or length of service, to the extent reasonably necessary for the support of the person and any of the person's dependents, except if all the following apply:
(i) The plan or contract was established by or under the auspices of an insider that
employed the person at the time the person's rights or interests under the plan or contract arose.

(ii) The payment is on account of age or length of service.

(iii) The plan or contract is not qualified under the “Internal Revenue Code of 1986,” 100 Stat. 2085, 26 U.S.C. 1, as amended.

(c) Except for any portion of the assets that were deposited for the purpose of evading the payment of any debt and except as provided in sections 3119.80, 3119.81, 3121.02, 3121.03, and 3123.06 of the Revised Code, the person's rights or interests in the assets held in, or to directly or indirectly receive any payment or benefit under, any individual retirement account, individual retirement annuity, “Roth IRA,” account opened pursuant to a program administered by a state under section 529 or 529A of the “Internal Revenue Code of 1986,” 100 Stat. 2085, 26 U.S.C. 1, as amended, or education individual retirement account that provides payments or benefits by reason of illness, disability, death, retirement, or age or provides payments or benefits for purposes of education or qualified disability expenses, to the extent that the assets, payments, or benefits described in division (A)(10)(c) of this section are attributable to or derived from any of the following or from any earnings, dividends, interest, appreciation, or gains on any of the following:

(i) Contributions of the person that were less than or equal to the applicable limits on deductible contributions to an individual retirement account or individual retirement annuity in the year that the contributions were made, whether or not the person was eligible to deduct the contributions on the person's federal tax return for the year in which the contributions were made;

(ii) Contributions of the person that were less than or equal to the applicable limits on contributions to a Roth IRA or education individual retirement account in the year that the contributions were made;

(iii) Contributions of the person that are within the applicable limits on rollover contributions under subsections 219, 402(c), 403(a)(4), 403(b)(8), 408(b), 408(d)(3), 408A(c)(3)(B), 408A(d)(3), and 530(d)(5) of the “Internal Revenue Code of 1986,” 100 Stat. 2085, 26 U.S.C.A. 1, as amended;

(iv) Contributions by any person into any plan, fund, or account that is formed, created, or administered pursuant to, or is otherwise subject to, section 529 or 529A of the “Internal Revenue Code of 1986,” 100 Stat. 2085, 26 U.S.C. 1, as amended.

(d) Except for any portion of the assets that were deposited for the purpose of evading the payment of any debt and except as provided in sections 3119.80, 3119.81, 3121.02, 3121.03, and 3123.06 of the Revised Code, the person's rights or interests in the assets held in, or to receive any payment under, any Keogh or “H.R. 10” plan that provides benefits by reason of illness, disability, death, retirement, or age, to the extent reasonably necessary for the support of the person and any of the person's dependents.

(e) The person's rights to or interests in any assets held in, or to directly or indirectly receive any payment or benefit under, any individual retirement account, individual retirement annuity, “Roth IRA,” account opened pursuant to a program administered by a state under section 529 or 529A of the “Internal Revenue Code of 1986,” 100 Stat. 2085, 26 U.S.C. 1, as amended, or education individual retirement account that a decedent, upon or by reason of the decedent's death, directly or indirectly left to or for the benefit of the person, either outright or in trust or otherwise, including, but not limited to, any of those rights or interests in assets or to receive payments or benefits that were transferred, conveyed, or otherwise transmitted by the decedent by means of a will, trust, exercise of a power of appointment, beneficiary designation, transfer or payment on death designation, or any other method or procedure.

(f) The exemptions under divisions (A)(10)(a) to (e) of this section also shall apply or otherwise be available to an alternate payee under a qualified domestic relations order (QDRO) or other similar court order.
(g) A person's interest in any plan, program, instrument, or device described in divisions (A)(10)(a) to (e) of this section shall be considered an exempt interest even if the plan, program, instrument, or device in question, due to an error made in good faith, failed to satisfy any criteria applicable to that plan, program, instrument, or device under the "Internal Revenue Code of 1986," 100 Stat. 2085, 26 U.S.C. 1, as amended.

(11) The person's right to receive spousal support, child support, an allowance, or other maintenance to the extent reasonably necessary for the support of the person and any of the person's dependents;

(12) The person's right to receive, or moneys received during the preceding twelve calendar months from, any of the following:

(a) An award of reparations under sections 2743.51 to 2743.72 of the Revised Code, to the extent exempted by division (D) of section 2743.66 of the Revised Code;

(b) A payment on account of the wrongful death of an individual of whom the person was a dependent on the date of the individual's death, to the extent reasonably necessary for the support of the person and any of the person's dependents;

(c) Except in cases in which the person who receives the payment is an inmate, as defined in section 2969.21 of the Revised Code, and in which the payment resulted from a civil action or appeal against a government entity or employee, as defined in section 2969.21 of the Revised Code, a payment, not to exceed twenty thousand two hundred dollars, on account of personal bodily injury, not including pain and suffering or compensation for actual pecuniary loss, of the person or an individual for whom the person is a dependent;

(d) A payment in compensation for loss of future earnings of the person or an individual of whom the person is or was a dependent, to the extent reasonably necessary for the support of the debtor and any of the debtor's dependents.

(13) Except as provided in sections 3119.80, 3119.81, 3121.02, 3121.03, and 3123.06 of the Revised Code, personal earnings of the person owed to the person for services in an amount equal to the greater of the following amounts:

(a) If paid weekly, thirty times the current federal minimum hourly wage; if paid biweekly, sixty times the current federal minimum hourly wage; if paid semimonthly, sixty-five times the current federal minimum hourly wage; or if paid monthly, one hundred thirty times the current federal minimum hourly wage that is in effect at the time the earnings are payable, as prescribed by the "Fair Labor Standards Act of 1938," 52 Stat. 1060, 29 U.S.C. 206(a)(1), as amended;

(b) Seventy-five per cent of the disposable earnings owed to the person.

(14) The person's right in specific partnership property, as exempted by the person's rights in a partnership pursuant to section 1776.50 of the Revised Code, except as otherwise set forth in section 1776.50 of the Revised Code;

(15) A seal and official register of a notary public, as exempted by section 147.04 of the Revised Code;

(16) The person's interest in a tuition unit or a payment under section 3334.09 of the Revised Code pursuant to a tuition payment contract, as exempted by section 3334.15 of the Revised Code;

(17) Any other property that is specifically exempted from execution, attachment, garnishment, or sale by federal statutes other than the "Bankruptcy Reform Act of 1978," 92 Stat. 2549, 11 U.S.C.A. 101, as amended;

(18) The person's aggregate interest in any property, not to exceed one thousand seventy-five dollars, except that division (A)(18) of this section applies only in bankruptcy proceedings.

(B) On April 1, 2010, and on the first day of April in each third calendar year after 2010, the Ohio judicial conference shall adjust each dollar amount set forth in this section to reflect any increase in the consumer price index for all urban consumers, as published by the United
States department of labor, or, if that index is no longer published, a generally available comparable index, for the three-year period ending on the thirty-first day of December of the preceding year. Any adjustments required by this division shall be rounded to the nearest twenty-five dollars.

The Ohio judicial conference shall prepare a memorandum specifying the adjusted dollar amounts. The judicial conference shall transmit the memorandum to the director of the legislative service commission, and the director shall publish the memorandum in the register of Ohio. (Publication of the memorandum in the register of Ohio shall continue until the next memorandum specifying an adjustment is so published.) The judicial conference also may publish the memorandum in any other manner it concludes will be reasonably likely to inform persons who are affected by its adjustment of the dollar amounts.

(C) As used in this section:
(1) “Disposable earnings” means net earnings after the garnishee has made deductions required by law, excluding the deductions ordered pursuant to section 3119.80, 3119.81, 3121.02, 3121.03, or 3123.06 of the Revised Code.
(2) “Insider” means:
(a) If the person who claims an exemption is an individual, a relative of the individual, a relative of a general partner of the individual, a partnership in which the individual is a general partner, a general partner of the individual, or a corporation of which the individual is a director, officer, or in control;
(b) If the person who claims an exemption is a corporation, a director or officer of the corporation; a person in control of the corporation; a partnership in which the corporation is a general partner; a general partner of the corporation; or a relative of a general partner, director, officer, or person in control of the corporation;
(c) If the person who claims an exemption is a partnership, a general partner in the partnership; a general partner of the partnership; a person in control of the partnership; a partnership in which the partnership is a general partner; or a relative in, a general partner of, or a person in control of the partnership;
(d) An entity or person to which or whom any of the following applies:
(i) The entity directly or indirectly owns, controls, or holds with power to vote, twenty per cent or more of the outstanding voting securities of the person who claims an exemption, unless the entity holds the securities in a fiduciary or agency capacity without sole discretionary power to vote the securities or holds the securities solely to secure to debt and the entity has not in fact exercised the power to vote.
(ii) The entity is a corporation, twenty per cent or more of whose outstanding voting securities are directly or indirectly owned, controlled, or held with power to vote, by the person who claims an exemption or by an entity to which division (C)(2)(d)(i) of this section applies.
(iii) A person whose business is operated under a lease or operating agreement by the person who claims an exemption, or a person substantially all of whose business is operated under an operating agreement with the person who claims an exemption.
(iv) The entity operates the business or all or substantially all of the property of the person who claims an exemption under a lease or operating agreement.
(e) An insider, as otherwise defined in this section, of a person or entity to which division (C)(2)(d)(i), (ii), (iii), or (iv) of this section applies, as if the person or entity were a person who claims an exemption;
(f) A managing agent of the person who claims an exemption.
(3) “Participant account” has the same meaning as in section 148.01 of the Revised Code.
(4) “Government unit” has the same meaning as in section 148.06 of the Revised Code.

(D) For purposes of this section, “interest” shall be determined as follows:
(1) In bankruptcy proceedings, as of the date a petition is filed with the bankruptcy court
commencing a case under Title 11 of the United States Code;

(2) In all cases other than bankruptcy proceedings, as of the date of an appraisal, if necessary under section 2329.68 of the Revised Code, or the issuance of a writ of execution.

An interest, as determined under division (D)(1) or (2) of this section, shall not include the amount of any lien otherwise valid pursuant to section 2329.661 of the Revised Code.

2329.66 Collection of health care services debt based on property lien or garnishment.

[Editor’s Note: This version of the statute is effective 12/31/2017. The version effective prior to that date is included previously.]

(A) Every person who is domiciled in this state may hold property exempt from execution, garnishment, attachment, or sale to satisfy a judgment or order, as follows:

(1)(a) In the case of a judgment or order regarding money owed for health care services rendered or health care supplies provided to the person or a dependent of the person, one parcel or item of real or personal property that the person or a dependent of the person uses as a residence. Division (A)(1)(a) of this section does not preclude, affect, or invalidate the creation under this chapter of a judgment lien upon the exempted property but only delays the enforcement of the lien until the property is sold or otherwise transferred by the owner or in accordance with other applicable laws to a person or entity other than the surviving spouse or surviving minor children of the judgment debtor. Every person who is domiciled in this state may hold exempt from a judgment lien created pursuant to division (A)(1)(a) of this section the person's interest, not to exceed one hundred twenty-five thousand dollars, in the exempted property.

(b) In the case of all other judgments and orders, the person's interest, not to exceed one hundred twenty-five thousand dollars, in one parcel or item of real or personal property that the person or a dependent of the person uses as a residence.

(c) For purposes of divisions (A)(1)(a) and (b) of this section, “parcel” means a tract of real property as identified on the records of the auditor of the county in which the real property is located.

(2) The person's interest, not to exceed three thousand two hundred twenty-five dollars, in one motor vehicle;

(3) The person's interest, not to exceed four hundred dollars, in cash on hand, money due and payable, money to become due within ninety days, tax refunds, and money on deposit with a bank, savings and loan association, credit union, public utility, landlord, or other person, other than personal earnings.

(4)(a) The person's interest, not to exceed five hundred twenty-five dollars in any particular item or ten thousand seven hundred seventy-five dollars in aggregate value, in household furnishings, household goods, wearing apparel, appliances, books, animals, crops, musical instruments, firearms, and hunting and fishing equipment that are held primarily for the personal, family, or household use of the person;

(b) The person’s aggregate interest in one or more items of jewelry, not to exceed one thousand three hundred fifty dollars, held primarily for the personal, family, or household use of the person or any of the person's dependents.

(5) The person's interest, not to exceed an aggregate of two thousand twenty-five dollars, in all implements, professional books, or tools of the person's profession, trade, or business, including agriculture;

(6)(a) The person's interest in a beneficiary fund set apart, appropriated, or paid by a benevolent association or society, as exempted by section 2329.63 of the Revised Code;

(b) The person's interest in contracts of life or endowment insurance or annuities, as exempted by section 3911.10 of the Revised Code;
(c) The person's interest in a policy of group insurance or the proceeds of a policy of group insurance, as exempted by section 3917.05 of the Revised Code;
(d) The person's interest in money, benefits, charity, relief, or aid to be paid, provided, or rendered by a fraternal benefit society, as exempted by section 3921.18 of the Revised Code;
(e) The person's interest in the portion of benefits under policies of sickness and accident insurance and in lump sum payments for dismemberment and other losses insured under those policies, as exempted by section 3923.19 of the Revised Code.
(7) The person's professionally prescribed or medically necessary health aids;
(8) The person's interest in a burial lot, including, but not limited to, exemptions under section 517.09 or 1721.07 of the Revised Code;
(9) The person's interest in the following:
(a) Moneys paid or payable for maintenance or rights, as exempted by section 3304.19 of the Revised Code;
(b) Workers' compensation, as exempted by section 4123.67 of the Revised Code;
(c) Unemployment compensation benefits, as exempted by section 4141.32 of the Revised Code;
(d) Cash assistance payments under the Ohio works first program, as exempted by section 5107.75 of the Revised Code;
(e) Benefits and services under the prevention, retention, and contingency program, as exempted by section 5108.08 of the Revised Code;
(10)(a) Except in cases in which the person was convicted of or pleaded guilty to a violation of section 2921.41 of the Revised Code and in which an order for the withholding of restitution from payments was issued under division (C)(2)(b) of that section, in cases in which an order for withholding was issued under section 2907.15 of the Revised Code, in cases in which an order for forfeiture was issued under division (A) or (B) of section 2929.192 of the Revised Code, and in cases in which an order was issued under section 2929.193 or 2929.194 of the Revised Code, and only to the extent provided in the order, and except as provided in sections 3105.171, 3105.63, 3119.80, 3119.81, 3121.02, 3121.03, and 3123.06 of the Revised Code, the person's rights to or interests in a pension, benefit, annuity, retirement allowance, or accumulated contributions, the person's rights to or interests in a participant account in any deferred compensation program offered by the Ohio public employees deferred compensation board, a government unit, or a municipal corporation, or the person's other accrued or accruing rights or interests, as exempted by section 143.11, 145.56, 146.13, 148.09, 742.47, 3307.41, 3309.66, or 5505.22 of the Revised Code, and the person's rights to or interests in benefits from the Ohio public safety officers death benefit fund;
(b) Except as provided in sections 3119.80, 3119.81, 3121.02, 3121.03, and 3123.06 of the Revised Code, the person's rights to receive or interests in receiving a payment or other benefits under any pension, annuity, or similar plan or contract, not including a payment or benefit from a stock bonus or profit-sharing plan or a payment included in division (A)(6)(b) or (10)(a) of this section, on account of illness, disability, death, age, or length of service, to the extent reasonably necessary for the support of the person and any of the person's dependents, except if all the following apply:
(i) The plan or contract was established by or under the auspices of an insider that employed the person at the time the person's rights or interests under the plan or contract arose.
(ii) The payment is on account of age or length of service.
(iii) The plan or contract is not qualified under the "Internal Revenue Code of 1986," 100 Stat. 2085, 26 U.S.C. 1, as amended.
(c) Except for any portion of the assets that were deposited for the purpose of evading
the payment of any debt and except as provided in sections 3119.80, 3119.81, 3121.02, 3121.03, and 3123.06 of the Revised Code, the person's rights or interests in the assets held in, or to directly or indirectly receive any payment or benefit under, any individual retirement account, individual retirement annuity, "Roth IRA," account opened pursuant to a program administered by a state under section 529 or 529A of the "Internal Revenue Code of 1986," 100 Stat. 2085, 26 U.S.C. 1, as amended, or education individual retirement account that provides payments or benefits by reason of illness, disability, death, retirement, or age or provides payments or benefits for purposes of education or qualified disability expenses, to the extent that the assets, payments, or benefits described in division (A)(10)(c) of this section are attributable to or derived from any of the following or from any earnings, dividends, interest, appreciation, or gains on any of the following:

(i) Contributions of the person that were less than or equal to the applicable limits on deductible contributions to an individual retirement account or individual retirement annuity in the year that the contributions were made, whether or not the person was eligible to deduct the contributions on the person's federal tax return for the year in which the contributions were made;

(ii) Contributions of the person that were less than or equal to the applicable limits on contributions to a Roth IRA or education individual retirement account in the year that the contributions were made;

(iii) Contributions of the person that are within the applicable limits on rollover contributions under subsections 219, 402(c), 403(a)(4), 403(b)(8), 408(b), 408(d)(3), 408A(c)(3)(B), 408A(d)(3), and 530(d)(5) of the "Internal Revenue Code of 1986," 100 Stat. 2085, 26 U.S.C.A. 1, as amended;

(iv) Contributions by any person into any plan, fund, or account that is formed, created, or administered pursuant to, or is otherwise subject to, section 529 or 529A of the "Internal Revenue Code of 1986," 100 Stat. 2085, 26 U.S.C. 1, as amended.

(d) Except for any portion of the assets that were deposited for the purpose of evading the payment of any debt and except as provided in sections 3119.80, 3119.81, 3121.02, 3121.03, and 3123.06 of the Revised Code, the person's rights or interests in the assets held in, or to receive any payment under, any Keogh or "H.R. 10" plan that provides benefits by reason of illness, disability, death, retirement, or age, to the extent reasonably necessary for the support of the person and any of the person's dependents.

(e) The person's rights to or interests in any assets held in, or to directly or indirectly receive any payment or benefit under, any individual retirement account, individual retirement annuity, "Roth IRA," account opened pursuant to a program administered by a state under section 529 or 529A of the "Internal Revenue Code of 1986," 100 Stat. 2085, 26 U.S.C. 1, as amended, or education individual retirement account that a decedent, upon or by reason of the decedent's death, directly or indirectly left to or for the benefit of the person, either outright or in trust or otherwise, including, but not limited to, any of those rights or interests in assets or to receive payments or benefits that were transferred, conveyed, or otherwise transmitted by the decedent by means of a will, trust, exercise of a power of appointment, beneficiary designation, transfer or payment on death designation, or any other method or procedure.

(f) The exemptions under divisions (A)(10)(a) to (e) of this section also shall apply or otherwise be available to an alternate payee under a qualified domestic relations order (QDRO) or other similar court order.

(g) A person's interest in any plan, program, instrument, or device described in divisions (A)(10)(a) to (e) of this section shall be considered an exempt interest even if the plan, program, instrument, or device in question, due to an error made in good faith, failed to satisfy any criteria applicable to that plan, program, instrument, or device under the "Internal Revenue Code of 1986," 100 Stat. 2085, 26 U.S.C. 1, as amended.

(11) The person's right to receive spousal support, child support, an allowance, or other
maintenance to the extent reasonably necessary for the support of the person and any of the person's dependents;

(12) The person's right to receive, or moneys received during the preceding twelve calendar months from, any of the following:
(a) An award of reparations under sections 2743.51 to 2743.72 of the Revised Code, to the extent exempted by division (D) of section 2743.66 of the Revised Code;
(b) A payment on account of the wrongful death of an individual of whom the person was a dependent on the date of the individual's death, to the extent reasonably necessary for the support of the person and any of the person's dependents;
(c) Except in cases in which the person who receives the payment is an inmate, as defined in section 2969.21 of the Revised Code, and in which the payment resulted from a civil action or appeal against a government entity or employee, as defined in section 2969.21 of the Revised Code, a payment, not to exceed twenty thousand two hundred dollars, on account of personal bodily injury, not including pain and suffering or compensation for actual pecuniary loss, of the person or an individual for whom the person is a dependent;
(d) A payment in compensation for loss of future earnings of the person or an individual of whom the person is or was a dependent, to the extent reasonably necessary for the support of the debtor and any of the debtor's dependents.

(13) Except as provided in sections 3119.80, 3119.81, 3121.02, 3121.03, and 3123.06 of the Revised Code, personal earnings of the person owed to the person for services in an amount equal to the greater of the following amounts:
(a) If paid weekly, thirty times the current federal minimum hourly wage; if paid biweekly, sixty times the current federal minimum hourly wage; if paid semimonthly, sixty-five times the current federal minimum hourly wage; or if paid monthly, one hundred thirty times the current federal minimum hourly wage that is in effect at the time the earnings are payable, as prescribed by the “Fair Labor Standards Act of 1938,” 52 Stat. 1060, 29 U.S.C. 206(a)(1), as amended;
(b) Seventy-five per cent of the disposable earnings owed to the person.

(14) The person's right in specific partnership property, as exempted by the person's rights in a partnership pursuant to section 1776.50 of the Revised Code, except as otherwise set forth in section 1776.50 of the Revised Code;

(15) A seal and official register of a notary public, as exempted by section 147.04 of the Revised Code;

(16) The person's interest in a tuition unit or a payment under section 3334.09 of the Revised Code pursuant to a tuition payment contract, as exempted by section 3334.15 of the Revised Code;

(17) Any other property that is specifically exempted from execution, attachment, garnishment, or sale by federal statutes other than the “Bankruptcy Reform Act of 1978,” 92 Stat. 2549, 11 U.S.C.A. 101, as amended;

(18) The person's aggregate interest in any property, not to exceed one thousand seventy-five dollars, except that division (A)(18) of this section applies only in bankruptcy proceedings.

(B) On April 1, 2010, and on the first day of April in each third calendar year after 2010, the Ohio judicial conference shall adjust each dollar amount set forth in this section to reflect any increase in the consumer price index for all urban consumers, as published by the United States department of labor, or, if that index is no longer published, a generally available comparable index, for the three-year period ending on the thirty-first day of December of the preceding year. Any adjustments required by this division shall be rounded to the nearest twenty-five dollars.

The Ohio judicial conference shall prepare a memorandum specifying the adjusted dollar amounts. The judicial conference shall transmit the memorandum to the director of the
legislative service commission, and the director shall publish the memorandum in the register of Ohio. (Publication of the memorandum in the register of Ohio shall continue until the next memorandum specifying an adjustment is so published.) The judicial conference also may publish the memorandum in any other manner it concludes will be reasonably likely to inform persons who are affected by its adjustment of the dollar amounts.

(C) As used in this section:

(1) “Disposable earnings” means net earnings after the garnishee has made deductions required by law, excluding the deductions ordered pursuant to section 3119.80, 3119.81, 3121.02, 3121.03, or 3123.06 of the Revised Code.

(2) “Insider” means:

(a) If the person who claims an exemption is an individual, a relative of the individual, a relative of a general partner of the individual, a partnership in which the individual is a general partner, a general partner of the individual, or a corporation of which the individual is a director, officer, or in control;

(b) If the person who claims an exemption is a corporation, a director or officer of the corporation; a person in control of the corporation; a partnership in which the corporation is a general partner; a general partner of the corporation; or a relative of a general partner, director, officer, or person in control of the corporation;

(c) If the person who claims an exemption is a partnership, a general partner in the partnership; a general partner of the partnership; a person in control of the partnership; a partnership in which the partnership is a general partner; or a relative in, a general partner of, or a person in control of the partnership;

(d) An entity or person to which or whom any of the following applies:

(i) The entity directly or indirectly owns, controls, or holds with power to vote, twenty per cent or more of the outstanding voting securities of the person who claims an exemption, unless the entity holds the securities in a fiduciary or agency capacity without sole discretionary power to vote the securities or holds the securities solely to secure to debt and the entity has not in fact exercised the power to vote.

(ii) The entity is a corporation, twenty per cent or more of whose outstanding voting securities are directly or indirectly owned, controlled, or held with power to vote, by the person who claims an exemption or by an entity to which division (C)(2)(d)(i) of this section applies.

(iii) A person whose business is operated under a lease or operating agreement by the person who claims an exemption, or a person substantially all of whose business is operated under an operating agreement with the person who claims an exemption.

(iv) The entity operates the business or all or substantially all of the property of the person who claims an exemption under a lease or operating agreement.

(e) An insider, as otherwise defined in this section, of a person or entity to which division (C)(2)(d)(i), (ii), (iii), or (iv) of this section applies, as if the person or entity were a person who claims an exemption;

(f) A managing agent of the person who claims an exemption.

(3) “Participant account” has the same meaning as in section 148.01 of the Revised Code.

(4) “Government unit” has the same meaning as in section 148.06 of the Revised Code.

(D) For purposes of this section, “interest” shall be determined as follows:

(1) In bankruptcy proceedings, as of the date a petition is filed with the bankruptcy court commencing a case under Title 11 of the United States Code;

(2) In all cases other than bankruptcy proceedings, as of the date of an appraisal, if necessary under section 2329.68 of the Revised Code, or the issuance of a writ of execution. An interest, as determined under division (D)(1) or (2) of this section, shall not include the amount of any lien otherwise valid pursuant to section 2329.661 of the Revised Code.
Chapter 1. General Hospital Provisions
Part I: General Hospital Operations

3901.38 Punctual payment to providers; definitions.

As used in this section and sections 3901.381 to 3901.3814 of the Revised Code:

(A) "Beneficiary" means any policyholder, subscriber, member, employee, or other person who is eligible for benefits under a benefits contract.

(B) "Benefits contract" means a sickness and accident insurance policy providing hospital, surgical, or medical expense coverage, or a health insuring corporation contract or other policy or agreement under which a third-party payer agrees to reimburse for covered health care or dental services rendered to beneficiaries, up to the limits and exclusions contained in the benefits contract.

(C) "Hospital" has the same meaning as in section 3727.01 of the Revised Code.

(D) "Provider" means a hospital, nursing home, physician, podiatrist, dentist, pharmacist, chiropractor, or other health care provider entitled to reimbursement by a third-party payer for services rendered to a beneficiary under a benefits contract.

(E) "Reimburse" means indemnify, make payment, or otherwise accept responsibility for payment for health care services rendered to a beneficiary, or arrange for the provision of health care services to a beneficiary.

(F) "Third-party payer" means any of the following:

(1) An insurance company;
(2) A health insuring corporation;
(3) A labor organization;
(4) An employer;
(5) An intermediary organization, as defined in section 1751.01 of the Revised Code, that is not a health delivery network contracting solely with self-insured employers;
(6) An administrator subject to sections 3959.01 to 3959.16 of the Revised Code;
(7) A health delivery network, as defined in section 1751.01 of the Revised Code;
(8) Any other person that is obligated pursuant to a benefits contract to reimburse for covered health care services rendered to beneficiaries under such contract.

3901.381 Punctual payments to providers; third party payers.

(A) Except as provided in sections 3901.382, 3901.383, 3901.384, and 3901.386 of the Revised Code, a third-party payer shall process a claim for payment for health care services rendered by a provider to a beneficiary in accordance with this section.

(B)(1) Unless division (B)(2) or (3) of this section applies, when a third-party payer receives a claim on the standard claim form prescribed in rules adopted by the superintendent of insurance under section 3902.22 of the Revised Code, the third-party payer shall pay or deny the claim not later than thirty days after receipt of the claim. When a third-party payer denies a claim, the third-party payer shall notify the provider and the beneficiary. The notice shall state, with specificity, why the third-party payer denied the claim.

(2)(a) Unless division (B)(3) of this section applies, when a provider or beneficiary has used the standard claim form, but the third-party payer determines that reasonable supporting documentation is needed to establish the third-party payer's responsibility to make payment, the third-party payer shall pay or deny the claim not later than forty-five days after receipt of the claim. Supporting documentation includes the verification of employer and beneficiary coverage under a benefits contract, confirmation of premium payment, medical information regarding the beneficiary and the services provided, information on the responsibility of another third-party payer to make payment or confirmation of the amount of payment by another third-party payer, and information that is needed to correct material deficiencies in the claim related to a diagnosis or treatment or the provider's identification.
Chapter 1. General Hospital Provisions
Part I: General Hospital Operations

Contracts and Payment
57

Not later than thirty days after receipt of the claim, the third-party payer shall notify all
relevant external sources that the supporting documentation is needed. All such notices shall
state, with specificity, the supporting documentation needed. If the notice was not provided in
writing, the provider, beneficiary, or third-party payer may request the third-party payer to
provide the notice in writing, and the third-party payer shall then provide the notice in writing. If
any of the supporting documentation is under the control of the beneficiary, the beneficiary shall
provide the supporting documentation to the third-party payer.

The number of days that elapse between the third-party payer's last request for
supporting documentation within the thirty-day period and the third-party payer's receipt of all of
the supporting documentation that was requested shall not be counted for purposes of
determining the third-party payer's compliance with the time period of not more than forty-five
days for payment or denial of a claim. Except as provided in division (B)(2)(b) of this section, if
the third-party payer requests additional supporting documentation after receiving the initially
requested documentation, the number of days that elapse between making the request and
receiving the additional supporting documentation shall be counted for purposes of determining
the third-party payer's compliance with the time period of not more than forty-five days.

(b) If a third-party payer determines, after receiving initially requested documentation,
that it needs additional supporting documentation pertaining to a beneficiary's preexisting
condition, which condition was unknown to the third-party payer and about which it was
reasonable for the third-party payer to have no knowledge at the time of its initial request for
documentation, and the third-party payer subsequently requests this additional supporting
documentation, the number of days that elapse between making the request and receiving the
additional supporting documentation shall not be counted for purposes of determining the third-
party payer's compliance with the time period of not more than forty-five days.

(c) When a third-party payer denies a claim, the third-party payer shall notify the provider
and the beneficiary. The notice shall state, with specificity, why the third-party payer denied the
claim.

(d) If a third-party payer determines that supporting documentation related to medical
information is routinely necessary to process a claim for payment of a particular health care
service, the third-party payer shall establish a description of the supporting documentation that
is routinely necessary and make the description available to providers in a readily accessible
format.

Third-party payers and providers shall, in connection with a claim, use the most current
CPT code in effect, as published by the American medical association, the most current ICD-10
code in effect, as published by the United States department of health and human services, the
most current CDT code in effect, as published by the American dental association, or the most
current HCPCS code in effect, as published by the United States health care financing
administration.

(3) When a provider or beneficiary submits a claim by using the standard claim form
prescribed in the superintendent's rules, but the information provided in the claim is materially
deficient, the third-party payer shall notify the provider or beneficiary not later than fifteen days
after receipt of the claim. The notice shall state, with specificity, the information needed to
correct all material deficiencies. Once the material deficiencies are corrected, the third-party
payer shall proceed in accordance with division (B)(1) or (2) of this section.

It is not a violation of the notification time period of not more than fifteen days if a third-
party payer fails to notify a provider or beneficiary of material deficiencies in the claim related to
a diagnosis or treatment or the provider's identification. A third-party payer may request the
information necessary to correct these deficiencies after the end of the notification time period.
Requests for such information shall be made as requests for supporting documentation under
division (B)(2) of this section, and payment or denial of the claim is subject to the time periods specified in that division.

(C) For purposes of this section, if a dispute exists between a provider and a third-party payer as to the day a claim form was received by the third-party payer, both of the following apply:

1. If the provider or a person acting on behalf of the provider submits a claim directly to a third-party payer by mail and retains a record of the day the claim was mailed, there exists a rebuttable presumption that the claim was received by the third-party payer on the fifth business day after the day the claim was mailed, unless it can be proven otherwise.

2. If the provider or a person acting on behalf of the provider submits a claim directly to a third-party payer electronically, there exists a rebuttable presumption that the claim was received by the third-party payer twenty-four hours after the claim was submitted, unless it can be proven otherwise.

(D) Nothing in this section requires a third-party payer to provide more than one notice to an employer whose premium for coverage of employees under a benefits contract has not been received by the third-party payer.

(E) Compliance with the provisions of division (B)(3) of this section shall be determined separately from compliance with the provisions of divisions (B)(1) and (2) of this section.

(F) A third party payer shall transmit electronically any payment with respect to claims that the third party payer receives electronically and pays to a contracted provider under this section and under sections 3901.383, 3901.384, and 3901.386 of the Revised Code. A provider shall not refuse to accept a payment made under this section or sections 3901.383, 3901.384, and 3901.386 of the Revised Code on the basis that the payment was transmitted electronically.

3901.3810 Punctual payments to providers; written complaints and retaliation.

(A) A provider or beneficiary aggrieved with respect to any act of a third-party payer that the provider or beneficiary believes to be a violation of sections 3901.381 to 3901.388 of the Revised Code may file a written complaint with the superintendent of insurance regarding the violation.

(B) A third-party payer shall not retaliate against a provider or beneficiary who files a complaint under division (A) of this section. If a provider or beneficiary is aggrieved with respect to any act of the third-party payer that the provider or beneficiary believes to be retaliation for filing a complaint under division (A) of this section, the provider or beneficiary may file a written complaint with the superintendent regarding the alleged retaliation.

3963.01 Health care contracts; definitions.

As used in this chapter:

(A) “Affiliate” means any person or entity that has ownership or control of a contracting entity, is owned or controlled by a contracting entity, or is under common ownership or control with a contracting entity.

(B) “Basic health care services” has the same meaning as in division (A) of section 1751.01 of the Revised Code, except that it does not include any services listed in that division that are provided by a pharmacist or nursing home.

(C) “Contracting entity” means any person that has a primary business purpose of contracting with participating providers for the delivery of health care services.

(D) “Credentialing” means the process of assessing and validating the qualifications of a provider applying to be approved by a contracting entity to provide basic health care services, specialty health care services, or supplemental health care services to enrollees.
(E) “Edit” means adjusting one or more procedure codes billed by a participating provider on a claim for payment or a practice that results in any of the following:
   (1) Payment for some, but not all of the procedure codes originally billed by a participating provider;
   (2) Payment for a different procedure code than the procedure code originally billed by a participating provider;
   (3) A reduced payment as a result of services provided to an enrollee that are claimed under more than one procedure code on the same service date.
(F) “Electronic claims transport” means to accept and digitize claims or to accept claims already digitized, to place those claims into a format that complies with the electronic transaction standards issued by the United States department of health and human services pursuant to the “Health Insurance Portability and Accountability Act of 1996,” 110 Stat. 1955, 42 U.S.C. 1320d, et seq., as those electronic standards are applicable to the parties and as those electronic standards are updated from time to time, and to electronically transmit those claims to the appropriate contracting entity, payer, or third-party administrator.
(G) “Enrollee” means any person eligible for health care benefits under a health benefit plan, including an eligible recipient of medicaid, and includes all of the following terms:
   (1) “Enrollee” and “subscriber” as defined by section 1751.01 of the Revised Code;
   (2) “Member” as defined by section 1739.01 of the Revised Code;
   (3) “Insured” and “plan member” pursuant to Chapter 3923 of the Revised Code;
   (4) “Beneficiary” as defined by section 3901.38 of the Revised Code.
(H) “Health care contract” means a contract entered into, materially amended, or renewed between a contracting entity and a participating provider for the delivery of basic health care services, specialty health care services, or supplemental health care services to enrollees.
(I) “Health care services” means basic health care services, specialty health care services, and supplemental health care services.
(J) “Material amendment” means an amendment to a health care contract that decreases the participating provider's payment or compensation, changes the administrative procedures in a way that may reasonably be expected to significantly increase the provider's administrative expenses, or adds a new product. A material amendment does not include any of the following:
   (1) A decrease in payment or compensation resulting solely from a change in a published fee schedule upon which the payment or compensation is based and the date of applicability is clearly identified in the contract;
   (2) A decrease in payment or compensation that was anticipated under the terms of the contract, if the amount and date of applicability of the decrease is clearly identified in the contract;
   (3) An administrative change that may significantly increase the provider's administrative expense, the specific applicability of which is clearly identified in the contract;
   (4) Changes to an existing prior authorization, precertification, notification, or referral program that do not substantially increase the provider’s administrative expense;
   (5) Changes to an edit program or to specific edits if the participating provider is provided notice of the changes pursuant to division (A)(1) of section 3963.04 of the Revised Code and the notice includes information sufficient for the provider to determine the effect of the change;
   (6) Changes to a health care contract described in division (B) of section 3963.04 of the Revised Code.
(K) “Participating provider” means a provider that has a health care contract with a contracting entity and is entitled to reimbursement for health care services rendered to an enrollee under the health care contract.
Chapter 1. General Hospital Provisions
Part I: General Hospital Operations

(L) “Payer” means any person that assumes the financial risk for the payment of claims under a health care contract or the reimbursement for health care services provided to enrollees by participating providers pursuant to a health care contract.

(M) “Primary enrollee” means a person who is responsible for making payments for participation in a health care plan or an enrollee whose employment or other status is the basis of eligibility for enrollment in a health care plan.

(N) “Procedure codes” includes the American medical association’s current procedural terminology code, the American dental association’s current dental terminology, and the centers for medicare and medicaid services health care common procedure coding system.

(O) “Product” means one of the following types of categories of coverage for which a participating provider may be obligated to provide health care services pursuant to a health care contract:

(1) A health maintenance organization or other product provided by a health insuring corporation;
(2) A preferred provider organization;
(3) Medicare;
(4) Medicaid;
(5) Workers’ compensation.

(P) “Provider” means a physician, podiatrist, dentist, chiropractor, optometrist, psychologist, physician assistant, advanced practice registered nurse, occupational therapist, massage therapist, physical therapist, licensed professional counselor, licensed professional clinical counselor, hearing aid dealer, orthotist, prosthetist, home health agency, hospice care program, pediatric respite care program, or hospital, or a provider organization or physician-hospital organization that is acting exclusively as an administrator on behalf of a provider to facilitate the provider’s participation in health care contracts. “Provider” does not mean a pharmacist, pharmacy, nursing home, or a provider organization or physician-hospital organization that leases the provider organization’s or physician-hospital organization’s network to a third party or contracts directly with employers or health and welfare funds.

(Q) “Specialty health care services” has the same meaning as in section 1751.01 of the Revised Code, except that it does not include any services listed in division (B) of section 1751.01 of the Revised Code that are provided by a pharmacist or a nursing home.

(R) “Supplemental health care services” has the same meaning as in division (B) of section 1751.01 of the Revised Code, except that it does not include any services listed in that division that are provided by a pharmacist or nursing home.

3963.02 Health care contracts; arbitration, prohibitions, and termination.

(A)(1) No contracting entity shall sell, rent, or give a third party the contracting entity’s rights to a participating provider’s services pursuant to the contracting entity’s health care contract with the participating provider unless one of the following applies:

(a) The third party accessing the participating provider’s services under the health care contract is an employer or other entity providing coverage for health care services to its employees or members, and that employer or entity has a contract with the contracting entity or its affiliate for the administration or processing of claims for payment for services provided pursuant to the health care contract with the participating provider.

(b) The third party accessing the participating provider’s services under the health care contract either is an affiliate or subsidiary of the contracting entity or is providing administrative services to, or receiving administrative services from, the contracting entity or an affiliate or subsidiary of the contracting entity.

(c) The health care contract specifically provides that it applies to network rental arrangements and states that one purpose of the contract is selling, renting, or giving the
contracting entity's rights to the services of the participating provider, including other preferred provider organizations, and the third party accessing the participating provider's services is any of the following:
(i) A payer or a third-party administrator or other entity responsible for administering claims on behalf of the payer;
(ii) A preferred provider organization or preferred provider network that receives access to the participating provider's services pursuant to an arrangement with the preferred provider organization or preferred provider network in a contract with the participating provider that is in compliance with division (A)(1)(c) of this section, and is required to comply with all of the terms, conditions, and affirmative obligations to which the originally contracted primary participating provider network is bound under its contract with the participating provider, including, but not limited to, obligations concerning patient steerage and the timeliness and manner of reimbursement.
(iii) An entity that is engaged in the business of providing electronic claims transport between the contracting entity and the payer or third-party administrator and complies with all of the applicable terms, conditions, and affirmative obligations of the contracting entity's contract with the participating provider including, but not limited to, obligations concerning patient steerage and the timeliness and manner of reimbursement.

(2) The contracting entity that sells, rents, or gives the contracting entity's rights to the participating provider's services pursuant to the contracting entity's health care contract with the participating provider as provided in division (A)(1) of this section shall do both of the following:
(a) Maintain a web page that contains a listing of third parties described in divisions (A)(1)(b) and (c) of this section with whom a contracting entity contracts for the purpose of selling, renting, or giving the contracting entity's rights to the services of participating providers that is updated at least every six months and is accessible to all participating providers, or maintain a toll-free telephone number accessible to all participating providers by means of which participating providers may access the same listing of third parties;
(b) Require that the third party accessing the participating provider's services through the participating provider's health care contract is obligated to comply with all of the applicable terms and conditions of the contract, including, but not limited to, the products for which the participating provider has agreed to provide services, except that a payer receiving administrative services from the contracting entity or its affiliate shall be solely responsible for payment to the participating provider.

(3) Any information disclosed to a participating provider under this section shall be considered proprietary and shall not be distributed by the participating provider.

(4) Except as provided in division (A)(1) of this section, no entity shall sell, rent, or give a contracting entity's rights to the participating provider's services pursuant to a health care contract.

(B)(1) No contracting entity shall require, as a condition of contracting with the contracting entity, that a participating provider provide services for all of the products offered by the contracting entity.

(2) Division (B)(1) of this section shall not be construed to do any of the following:
(a) Prohibit any participating provider from voluntarily accepting an offer by a contracting entity to provide health care services under all of the contracting entity's products;
(b) Prohibit any contracting entity from offering any financial incentive or other form of consideration specified in the health care contract for a participating provider to provide health care services under all of the contracting entity's products;
(c) Require any contracting entity to contract with a participating provider to provide health care services for less than all of the contracting entity's products if the contracting entity does not wish to do so.
Chapter 1. General Hospital Provisions
Part I: General Hospital Operations

(3)(a) Notwithstanding division (B)(2) of this section, no contracting entity shall require, as a condition of contracting with the contracting entity, that the participating provider accept any future product offering that the contracting entity makes.

(b) If a participating provider refuses to accept any future product offering that the contracting entity makes, the contracting entity may terminate the health care contract based on the participating provider’s refusal upon written notice to the participating provider no sooner than one hundred eighty days after the refusal.

(4) Once the contracting entity and the participating provider have signed the health care contract, it is presumed that the financial incentive or other form of consideration that is specified in the health care contract pursuant to division (B)(2)(b) of this section is the financial incentive or other form of consideration that was offered by the contracting entity to induce the participating provider to enter into the contract.

(C) No contracting entity shall require, as a condition of contracting with the contracting entity, that a participating provider waive or forego any right or benefit expressly conferred upon a participating provider by state or federal law. However, this division does not prohibit a contracting entity from restricting a participating provider’s scope of practice for the services to be provided under the contract.

(D) No health care contract shall do any of the following:

(1) Prohibit any participating provider from entering into a health care contract with any other contracting entity;

(2) Prohibit any contracting entity from entering into a health care contract with any other provider;

(3) Preclude its use or disclosure for the purpose of enforcing this chapter or other state or federal law, except that a health care contract may require that appropriate measures be taken to preserve the confidentiality of any proprietary or trade-secret information.

(E)(1) In addition to any other lawful reasons for terminating a health care contract, a health care contract may only be terminated under the circumstances described in division (A)(3) of section 3963.04 of the Revised Code.

(2) If the health care contract provides for termination for cause by either party, the health care contract shall state the reasons that may be used for termination for cause, which terms shall be reasonable. Once the contracting entity and the participating provider have signed the health care contract, it is presumed that the reasons stated in the health care contract for termination for cause by either party are reasonable. Subject to division (E)(3) of this section, the health care contract shall state the time by which the parties must provide notice of termination for cause and to whom the parties shall give the notice.

(3) Nothing in divisions (E)(1) and (2) of this section shall be construed as prohibiting any health insuring corporation from terminating a participating provider’s contract for any of the causes described in divisions (A), (D), and (F)(1) and (2) of section 1753.09 of the Revised Code. Notwithstanding any provision in a health care contract pursuant to division (E)(2) of this section, section 1753.09 of the Revised Code applies to the termination of a participating provider’s contract for any of the causes described in divisions (A), (D), and (F)(1) and (2) of section 1753.09 of the Revised Code.

(4) Subject to sections 3963.01 to 3963.11 of the Revised Code, nothing in this section prohibits the termination of a health care contract without cause if the health care contract otherwise provides for termination without cause.

(F)(1) Disputes among parties to a health care contract that only concern the enforcement of the contract rights conferred by section 3963.02, divisions (A) and (D) of section 3963.03, and section 3963.04 of the Revised Code are subject to a mutually agreed upon arbitration mechanism that is binding on all parties. The arbitrator may award reasonable attorney’s fees and costs for arbitration relating to the enforcement of this section to the prevailing party.
Chapter 1. General Hospital Provisions
Part I: General Hospital Operations

3963.03 Health care contracts; requirements; confidentiality.

A) Each health care contract shall include all of the following information:

   (1)(a) Information sufficient for the participating provider to determine the compensation or payment terms for health care services, including all of the following, subject to division (A)(1)(b) of this section:

      (i) The manner of payment, such as fee-for-service, capitation, or risk;

      (ii) The fee schedule of procedure codes reasonably expected to be billed by a participating provider's specialty for services provided pursuant to the health care contract and the associated payment or compensation for each procedure code. A fee schedule may be provided electronically. Upon request, a contracting entity shall provide a participating provider with the fee schedule for any other procedure codes requested and a written fee schedule, that shall not be required more frequently than twice per year excluding when it is provided in connection with any change to the schedule. This requirement may be satisfied by providing a clearly understandable, readily available mechanism, such as a specific web site address, that allows a participating provider to determine the effect of procedure codes on payment or compensation before a service is provided or a claim is submitted.

      (iii) The effect, if any, on payment or compensation if more than one procedure code applies to the service also shall be stated. This requirement may be satisfied by providing a clearly understandable, readily available mechanism, such as a specific web site address, that allows a participating provider to determine the effect of procedure codes on payment or compensation before a service is provided or a claim is submitted.

   (b) If the contracting entity is unable to include the information described in division (A)(1)(a)(ii) and (iii) of this section, the contracting entity shall include both of the following types of information instead:

      (i) The methodology used to calculate any fee schedule, such as relative value unit system and conversion factor or percentage of billed charges. If applicable, the methodology disclosure shall include the name of any relative value unit system, its version, edition, or publication date, any applicable conversion or geographic factor, and any date by which compensation or fee schedules may be changed by the methodology as anticipated at the time of contract.

      (ii) The identity of any internal processing edits, including the publisher, product name, version, and version update of any editing software.

   (c) If the contracting entity is not the payer and is unable to include the information described in division (A)(1)(a) or (b) of this section, then the contracting entity shall provide by
telephone a readily available mechanism, such as a specific web site address, that allows the participating provider to obtain that information from the payer.

(2) Any product or network for which the participating provider is to provide services;

(3) The term of the health care contract;

(4) A specific web site address that contains the identity of the contracting entity or payer responsible for the processing of the participating provider's compensation or payment;

(5) Any internal mechanism provided by the contracting entity to resolve disputes concerning the interpretation or application of the terms and conditions of the contract. A contracting entity may satisfy this requirement by providing a clearly understandable, readily available mechanism, such as a specific web site address or an appendix, that allows a participating provider to determine the procedures for the internal mechanism to resolve those disputes.

(6) A list of addenda, if any, to the contract.

(B)(1) Each contracting entity shall include a summary disclosure form with a health care contract that includes all of the information specified in division (A) of this section. The information in the summary disclosure form shall refer to the location in the health care contract, whether a page number, section of the contract, appendix, or other identifiable location, that specifies the provisions in the contract to which the information in the form refers.

(2) The summary disclosure form shall include all of the following statements:

(a) That the form is a guide to the health care contract and that the terms and conditions of the health care contract constitute the contract rights of the parties;

(b) That reading the form is not a substitute for reading the entire health care contract;

(c) That by signing the health care contract, the participating provider will be bound by the contract's terms and conditions;

(d) That the terms and conditions of the health care contract may be amended pursuant to section 3963.04 of the Revised Code and the participating provider is encouraged to carefully read any proposed amendments sent after execution of the contract;

(e) That nothing in the summary disclosure form creates any additional rights or causes of action in favor of either party.

(3) No contracting entity that includes any information in the summary disclosure form with the reasonable belief that the information is truthful or accurate shall be subject to a civil action for damages or to binding arbitration based on the summary disclosure form. Division (B)(3) of this section does not impair or affect any power of the department of insurance to enforce any applicable law.

(4) The summary disclosure form described in divisions (B)(1) and (2) of this section shall be in substantially the following form:

“SUMMARY DISCLOSURE FORM

(1) Compensation terms

(a) Manner of payment

[ ] Fee for service

[ ] Capitation

[ ] Risk

[ ] Other ____________________________

See ____________________________

(b) Fee schedule available at ____________________________

(c) Fee calculation schedule available at ____________________________
(d) Identity of internal processing edits available at

(7) Telephone number to access a readily available mechanism, such as a specific web site address, to allow a participating provider to receive the information in (1) through (6) from the payer.

IMPORTANT INFORMATION--PLEASE READ CAREFULLY

The information provided in this Summary Disclosure Form is a guide to the attached Health Care Contract as defined in section 3963.01(G) of the Ohio Revised Code. The terms and conditions of the attached Health Care Contract constitute the contract rights of the parties. Reading this Summary Disclosure Form is not a substitute for reading the entire Health Care Contract. When you sign the Health Care Contract, you will be bound by its terms and conditions. These terms and conditions may be amended over time pursuant to section 3963.04 of the Ohio Revised Code. You are encouraged to read any proposed amendments that are sent to you after execution of the Health Care Contract.

Nothing in this Summary Disclosure Form creates any additional rights or causes of action in favor of either party.”

(C) When a contracting entity presents a proposed health care contract for consideration by a provider, the contracting entity shall provide in writing or make reasonably available the information required in division (A)(1) of this section.

Contracts and Payment 65
Chapter 1. General Hospital Provisions
Part I: General Hospital Operations

(D) The contracting entity shall identify any utilization management, quality improvement, or a similar program that the contracting entity uses to review, monitor, evaluate, or assess the services provided pursuant to a health care contract. The contracting entity shall disclose the policies, procedures, or guidelines of such a program applicable to a participating provider upon request by the participating provider within fourteen days after the date of the request.

(E) Nothing in this section shall be construed as preventing or affecting the application of section 1753.07 of the Revised Code that would otherwise apply to a contract with a participating provider.

(F) The requirements of division (C) of this section do not prohibit a contracting entity from requiring a reasonable confidentiality agreement between the provider and the contracting entity regarding the terms of the proposed health care contract. If either party violates the confidentiality agreement, a party to the confidentiality agreement may bring a civil action to enjoin the other party from continuing any act that is in violation of the confidentiality agreement, to recover damages, to terminate the contract, or to obtain any combination of relief.

3963.04 Health care contract amendments; notice, exceptions.

(A)(1) If an amendment to a health care contract is not a material amendment, the contracting entity shall provide the participating provider notice of the amendment at least fifteen days prior to the effective date of the amendment. The contracting entity shall provide all other notices to the participating provider pursuant to the health care contract.

(2) A material amendment to a health care contract shall occur only if the contracting entity provides to the participating provider the material amendment in writing and notice of the material amendment not later than ninety days prior to the effective date of the material amendment. The notice shall be conspicuously entitled “Notice of Material Amendment to Contract.”

(3) If within fifteen days after receiving the material amendment and notice described in division (A)(2) of this section, the participating provider objects in writing to the material amendment, and there is no resolution of the objection, either party may terminate the health care contract upon written notice of termination provided to the other party not later than sixty days prior to the effective date of the material amendment.

(4) If the participating provider does not object to the material amendment in the manner described in division (A)(3) of this section, the material amendment shall be effective as specified in the notice described in division (A)(2) of this section.

(B)(1) Division (A) of this section does not apply if the delay caused by compliance with that division could result in imminent harm to an enrollee, if the material amendment of a health care contract is required by state or federal law, rule, or regulation, or if the provider affirmatively accepts the material amendment in writing and agrees to an earlier effective date than otherwise required by division (A)(2) of this section.

(2) This section does not apply under any of the following circumstances:
   (a) The participating provider’s payment or compensation is based on the current medicaid or medicare physician fee schedule, and the change in payment or compensation results solely from a change in that physician fee schedule.
   (b) A routine change or update of the health care contract is made in response to any addition, deletion, or revision of any service code, procedure code, or reporting code, or a pricing change is made by any third party source.

For purposes of division (B)(2)(b) of this section:
   (i) “Service code, procedure code, or reporting code” means the current procedural terminology (CPT), current dental terminology (CDT), the healthcare common procedure coding system (HCPCS), the international classification of diseases (ICD), or the drug topics redbook average wholesale price (AWP).
(ii) “Third party source” means the American medical association, American dental association, the centers for medicare and medicaid services, the national center for health statistics, the department of health and human services office of the inspector general, the Ohio department of insurance, or the Ohio department of medicaid.

(C) Notwithstanding divisions (A) and (B) of this section, a health care contract may be amended by operation of law as required by any applicable state or federal law, rule, or regulation. Nothing in this section shall be construed to require the renegotiation of a health care contract that is in existence before June 25, 2008, until the time that the contract is renewed or materially amended.

3963.05 Standard credentialing form.

(A) The department of insurance shall prescribe the credentialing application form used by the council for affordable quality healthcare (CAQH) in electronic or paper format for physicians. The department of insurance also shall prepare the standard credentialing form for all other providers and shall make the standard credentialing form as simple, straightforward, and easy to use as possible, having due regard for those credentialing forms that are widely in use in the state by contracting entities and that best serve these goals.

(B) No contracting entity shall fail to use the applicable standard credentialing form described in division (A) of this section when initially credentialing or recredentialing providers in connection with policies, health care contracts, and agreements providing basic health care services, specialty health care services, or supplemental health care services.

(C) No contracting entity shall require a provider to provide any information in addition to the information required by the applicable standard credentialing form described in division (A) of this section in connection with policies, health care contracts, and agreements providing basic health care services, specialty health care services, or supplemental health care services.

(D) The credentialing process described in this section does not prohibit a contracting entity from limiting the scope of any participating provider’s basic health care services, specialty health care services, or supplemental health care services.

(E) The requirement that the department of insurance prepare the standard credentialing form for all other providers does not include preparing the standard credentialing form for a hospital.

3963.06 Incomplete credentialing form.

(A) If a provider, upon the oral or written request of a contracting entity to submit a credentialing form, submits a credentialing form that is not complete, the contracting entity that receives the form shall notify the provider of the deficiency electronically, by facsimile, or by certified mail, return receipt requested, not later than twenty-one days after the contracting entity receives the form.

(B) If a contracting entity receives any information that is inconsistent with the information given by the provider in the credentialing form, the contracting entity may request the provider to submit a written clarification of the inconsistency. The contracting entity shall send the request described in this division electronically, by facsimile, or by certified mail, return receipt requested.

(C)(1) Except as otherwise provided in division (C)(2) of this section, the credentialing process under this section starts when a provider initially submits a credentialing form upon the oral or written request of a contracting entity, and the provider shall submit the credentialing form to the contracting entity electronically, by facsimile, or by certified mail, return receipt requested. Subject to division (C)(3) of this section, a contracting entity shall complete the credentialing process not later than ninety days after the contracting entity receives that
credentialing form from the provider. The contracting entity shall allow the provider to submit a credentialing application prior to the provider’s employment. A contracting entity that does not complete the credentialing process within the ninety-day period specified in this division is liable for either a civil penalty payable to the provider in the amount of five hundred dollars per day, including weekend days, starting at the expiration of that ninety-day period until the provider’s credentialing application is granted or denied or retroactive reimbursement to the provider according to the terms of the contract for any basic health care services, specialty health care services, or supplemental health care services the provider provided to enrollees starting at the expiration of that ninety-day period until the provider’s credentialing application is granted or denied. When the credentialing process of the contracting entity exceeds the ninety-day period, the contracting entity shall select the liability to which the contracting entity is subject and shall inform the provider of the contracting entity’s selection.

(2) The credentialing process for a medicaid managed care plan starts when the provider submits a credentialing form and the provider’s national provider number issued by the centers for medicare and medicaid services.

(3) The requirement that the credentialing process be completed within the ninety-day period specified in division (C)(1) of this section does not apply to a contracting entity if a provider that submits a credentialing form to the contracting entity under that division is a hospital.

(D) Any communication between the provider and the contracting entity shall be electronically, by facsimile, or by certified mail, return receipt requested.

(E) If the state medical board or its agent has primary source verified the medical education, graduate medical education, and examination history of the physician, or the status of the physician with the educational commission for foreign medical graduates, if applicable, the contracting entity may accept the documentation of primary source verification from the state medical board’s web site or from its agent and is not required to perform primary source verification of the medical education, graduate medical education, and examination history of the physician or the status of the physician with the educational commission for foreign medical graduates, if applicable, as a condition for initially credentialing or recredentialing the physician.

3963.11 Prohibition against use of most favored nation clauses.

(A) No contracting entity shall do any of the following:

(1) Offer to a provider a health care contract that includes a most favored nation clause;

(2) Enter into a health care contract with a provider that includes a most favored nation clause;

(3) Amend or renew an existing health care contract previously entered into with a provider so that the contract as amended or renewed adds or continues to include a most favored nation clause.

(B) As used in this section:

(1) “Contracting entity,” “health care contract,” “health care services,” “participating provider,” and “provider” have the same meanings as in section 3963.01 of the Revised Code.

(2) “Most favored nation clause” means a provision in a health care contract that does any of the following:

(a) Prohibits, or grants a contracting entity an option to prohibit, the participating provider from contracting with another contracting entity to provide health care services at a lower price than the payment specified in the contract;

(b) Requires, or grants a contracting entity an option to require, the participating provider to accept a lower payment in the event the participating provider agrees to provide health care services to any other contracting entity at a lower price;
(c) Requires, or grants a contracting entity an option to require, termination or renegotiation of the existing health care contract in the event the participating provider agrees to provide health care services to any other contracting entity at a lower price;
(d) Requires the participating provider to disclose the participating provider’s contractual reimbursement rates with other contracting entities.

5162.80 Health services cost estimates.
(A) A provider of medical services licensed, accredited, or certified under Chapter 3721., 3727., 4715., 4731., 4732., 4734., 4747., 4753., 4755., 4757., or 4779 of the Revised Code shall provide in writing, before products, services, or procedures are provided, a reasonable, good-faith estimate of all of the following for the provider's non-emergency products, services, or procedures:
(1) The amount the provider will charge the patient or the consumer's health plan issuer for the product, service, or procedure;
(2) The amount the health plan issuer intends to pay for the product, service, or procedure;
(3) The difference, if any, that the consumer or other party responsible for the consumer's care would be required to pay to the provider for the product, service, or procedure.
(B) Any health plan issuer contacted by a provider described in division (A) of this section in order for the provider to obtain information so that the provider can comply with division (A) of this section shall provide such information to the provider within a reasonable time of the provider’s request.
(C) As used in this section, “health plan issuer” means an entity subject to the insurance laws and rules of this state, or subject to the jurisdiction of the superintendent of insurance, that contracts, or offers to contract, to provide, deliver, arrange for, pay for, or reimburse any of the costs of health care services under a health benefit plan, including a sickness and accident insurance company and a health insuring corporation. “Health plan issuer” also includes a managed care organization under contract with the department of medicaid and, if the services are to be provided on a fee-for-service basis, the Medicaid program.
(D) The medicaid director shall adopt rules, in accordance with Chapter 119 of the Revised Code, to carry out this section.

5168.05 Hospital cost report.
[Editor’s Note: This statute is repealed effective 10/16/2019.]
(A) Except as provided in division (C) of this section, each hospital, on or before the first day of July of each year or at a later date approved by the medicaid director, shall submit to the department of medicaid a financial statement for the preceding calendar year that accurately reflects the income, expenses, assets, liabilities, and net worth of the hospital, and accompanying notes. A hospital that has a fiscal year different from the calendar year shall file its financial statement within one hundred eighty days of the end of its fiscal year or at a later date approved by the director. The financial statement shall be prepared by an independent certified public accountant and reflect an official audit report prepared in a manner consistent with generally accepted accounting principles. The financial statement shall, to the extent that the hospital has sufficient financial records, show bad debt and charity care separately from courtesy care and contractual allowances.
(B) Except as provided in division (C) of this section, each hospital, within one hundred eighty days after the end of the hospital's cost reporting period, shall submit to the department a cost report in a format prescribed in rules adopted under section 5168.02 of the Revised Code.
Chapter 1. General Hospital Provisions
Part I: General Hospital Operations

The department shall grant a hospital an extension of the one hundred eighty day period if the health care financing administration of the United States department of health and human services extends the date by which the hospital must submit its cost report for the hospital's cost reporting period.

(C) The director may adopt rules under section 5168.02 of the Revised Code specifying financial information that must be submitted by hospitals for which no financial statement or cost report is available. The rules shall specify deadlines for submitting the information. Each such hospital shall submit the information specified in the rules not later than the deadline specified in the rules.

5168.14 Individual, basic services and poverty line.

[Editor's Note: This version of the statute is effective until 12/31/2017. The version effective subsequently is included next.]

(A) Each hospital that receives funds distributed under sections 5168.01 to 5168.14 of the Revised Code shall provide, without charge to the individual, basic, medically necessary hospital-level services to individuals who are residents of this state, are not medicaid recipients, and whose income is at or below the federal poverty line. Recipients of disability financial assistance provided under Chapter 5115 of the Revised Code qualify for services under this section. The medicaid director shall adopt rules under section 5168.02 of the Revised Code specifying the hospital services to be provided under this section.

(B) Nothing in this section shall be construed to prevent a hospital from requiring an individual to apply for the medicaid program before the hospital processes an application under this section. Hospitals may bill any third-party payer for services rendered under this section. Hospitals may bill the medicaid program, in accordance with state statutes governing the medicaid program and rules adopted under those statutes, for medicaid services rendered under this section if the individual becomes a medicaid recipient. Hospitals may bill individuals for services under this section if all of the following apply:

1. The hospital has an established post-billing procedure for determining the individual's income and canceling the charges if the individual is found to qualify for services under this section.

2. The initial bill, and at least the first follow-up bill, is accompanied by a written statement that does all of the following:

   a. Explains that individuals with income at or below the federal poverty line are eligible for services without charge;
   
   b. Specifies the federal poverty line for individuals and families of various sizes at the time the bill is sent;
   
   c. Describes the procedure required by division (C)(1) of this section.

3. The hospital complies with any additional rules adopted under section 5168.02 of the Revised Code.

Notwithstanding division (B) of this section, a hospital providing care to an individual under this section is subrogated to the rights of any individual to receive compensation or benefits from any person or governmental entity for the hospital goods and services rendered.

(C) Each hospital shall collect and report to the department of medicaid, in the form and manner prescribed by the department, information on the number and identity of patients served pursuant to this section.

(D) This section applies beginning May 22, 1992, regardless of whether rules specifying the services to be provided have been adopted. Nothing in this section alters the scope or limits the obligation of any governmental entity or program, including the program awarding reparations to victims of crime under sections 2743.51 to 2743.72 of the Revised Code and the...
program for medically handicapped children established under section 3701.023 of the Revised Code, to pay for hospital services in accordance with state or local law.

**5168.14 Individual, basic services and poverty line.**

[Editor's Note: This version of the statute is effective 12/31/2017. The version effective previously is included in the prior pages.]

(A) Each hospital that receives funds distributed under sections 5168.01 to 5168.14 of the Revised Code shall provide, without charge to the individual, basic, medically necessary hospital-level services to individuals who are residents of this state, are not medicaid recipients, and whose income is at or below the federal poverty line. The medicaid director shall adopt rules under section 5168.02 of the Revised Code specifying the hospital services to be provided under this section.

(B) Nothing in this section shall be construed to prevent a hospital from requiring an individual to apply for the medicaid program before the hospital processes an application under this section. Hospitals may bill any third-party payer for services rendered under this section. Hospitals may bill the medicaid program, in accordance with state statutes governing the medicaid program and rules adopted under those statutes, for medicaid services rendered under this section if the individual becomes a medicaid recipient. Hospitals may bill individuals for services under this section if all of the following apply:

1. The hospital has an established post-billing procedure for determining the individual's income and canceling the charges if the individual is found to qualify for services under this section.
2. The initial bill, and at least the first follow-up bill, is accompanied by a written statement that does all of the following:
   a. Explains that individuals with income at or below the federal poverty line are eligible for services without charge;
   b. Specifies the federal poverty line for individuals and families of various sizes at the time the bill is sent;
   c. Describes the procedure required by division (C)(1) of this section.
3. The hospital complies with any additional rules adopted under section 5168.02 of the Revised Code.

Notwithstanding division (B) of this section, a hospital providing care to an individual under this section is subrogated to the rights of any individual to receive compensation or benefits from any person or governmental entity for the hospital goods and services rendered.

(C) Each hospital shall collect and report to the department of medicaid, in the form and manner prescribed by the department, information on the number and identity of patients served pursuant to this section.

(D) This section applies beginning May 22, 1992, regardless of whether rules specifying the services to be provided have been adopted. Nothing in this section alters the scope or limits the obligation of any governmental entity or program, including the program awarding reparations to victims of crime under sections 2743.51 to 2743.72 of the Revised Code and the program for medically handicapped children established under section 3701.023 of the Revised Code, to pay for hospital services in accordance with state or local law.

**5160-2-23 Cost reports.**

(A) For cost-reporting purposes, the medicaid program requires each eligible provider, as defined in rule 5160-2-01 of the Administrative Code, to submit periodic reports that generally cover a consecutive twelve-month period of the provider's operations. Failure to submit all
Chapter 1. General Hospital Provisions  
Part I: General Hospital Operations

necessary items and schedules will delay processing and may result in a reduction of payment or termination as a provider as described in paragraph (A)(7) of this rule.

Effective for medicaid cost reports filed for cost-reporting periods ending in state fiscal year (SFY) 2003, and each cost-reporting period thereafter, any hospital that fails to submit cost reports on or before the dates specified by ODM shall be fined one thousand dollars for each day after the due date that the information is not reported.

The hospital shall complete and submit the ODM 02930 “Ohio Medicaid Hospital Cost Report” that is applicable to the state fiscal year in which the hospital’s cost reporting period ends. The hospital’s cost report must:

1. Be prepared in accordance with medicare principles governing reasonable cost reimbursement set forth in the providers' reimbursement manual “CMS Publications, 15-1 and 15-2”, as applicable to the hospital's reporting period.
2. Include all information necessary for the proper determination of costs payable under medicaid, including financial records and statistical data.
3. Be submitted in accordance with the cost report instructions and include an electronic copy of the medicare cost report, which must be identical in all respects to the cost report submitted to the medicare fiscal intermediary.
4. Include the cost report certification executed by an officer of the hospital attesting to the accuracy of the cost report and to the accuracy of the OBRA survey. In addition, all subsequent revisions to the cost report must include an executed certification.
5. Effective for medicaid cost reports filed for cost-reporting periods ending in SFY 2003, and each cost-reporting period thereafter, the executed certification shall require the officer of the hospital to acknowledge that an independent, certified public accountant, has successfully verified the data reported on “Schedule F” of the cost report in accordance with the procedures included in the cost report instructions. In addition, all subsequent revisions to “Schedule F” shall also be successfully verified by an independent, certified public accountant in accordance with the recertification procedures included in the cost report instructions.
6. For hospital reporting periods ending between January first and June thirtieth the cost report must be postmarked on or before December thirty-first of the same calendar year. For hospital reporting periods ending between July first and December thirty-first, the cost report must be postmarked on or before June thirtieth of the following calendar year.
   (a) Extensions may be granted as specified in the cost report instructions.
   (b) The department may grant a blanket extension that affects one or both of the due dates described in paragraph (A)(6) of this rule. When the department grants a blanket extension, hospitals may still request an extension as specified in paragraph (A)(6)(a) of this rule.
7. Hospitals that fail to submit cost reports timely as described in paragraph (A) of this rule will receive a delinquency letter from ODM and are subject to notification that thirty days following the date on which the cost report was due, payments for hospital services will be suspended. Suspension of payments will be terminated on the fifth working day following receipt of the delinquent cost report. At the beginning of the third month following the month in which the hospital cost report became overdue, if the cost report has not yet been submitted, termination of the provider from the program will be proposed in accordance with Chapter 5160-1 of the Administrative Code.
8. Hospitals shall separately report all supplemental payments received for services provided during the cost report period, including “Upper Limit Payments and Medicaid Managed Care Incentive Payments,” as established by Section 309.30.33 of Am Sub. H.B. 153 of the 129th General Assembly, and continued as a baseline program.

(B) Hospitals having a distinct part psychiatric or rehabilitation unit recognized by medicare in accordance with the provisions of 42 C.F.R. 412.25 effective as of October 1, 2014, 42 C.F.R. 412.27 effective as of October 1, 2014, and 42 C.F.R. 412.29 effective as of October
Chapter 1. General Hospital Provisions
Part I: General Hospital Operations

1, 2014, must identify distinct part unit costs separately within the cost report as described in paragraph (A) of this rule.

(C) Ohio hospitals performing ambulatory surgery within the hospital outpatient setting must identify ambulatory surgery costs and charges separately within the cost report as described in paragraph (A) of this rule.

(D) Ohio hospitals providing services to medicaid managed care plan (MCP) enrollees must identify MCP costs, charges and payments separately within the cost report as described in paragraph (A) of this rule.

(E) It is not necessary for the hospital to wait for the medicare (Title XVIII) audit in order to file the initial cost report for the stated time period. The interim cost report filing can be audited by ODM prior to any applicable final adjustment and settlement. If an amount is due ODM as a result of the filing, payment must be forwarded, in accordance with the cost report instructions, at the time the cost report is submitted for it to be considered a complete filing. Any revised interim cost report must be received within thirty days of the mailing of the interim cost settlement. A desk audit will be performed by the hospital audit section on all as filed and interim cost reports. An interim cost settlement by ODM does not preclude the finding of additional cost exceptions in a final settlement for the same cost-reporting period.

(1) If an amended medicare cost report is filed with the medicare fiscal intermediary, a copy of the amended medicare cost report must be filed with the hospital audit section. Information contained in the amended medicare cost report will be incorporated into the interim cost report, as originally filed, if received prior to interim settlement; otherwise, it is subject to the provisions of paragraph (E) of this rule.

(2) Adjustments may be made to the interim cost report as described in rule 5160-2-24 of the Administrative Code.

(F) Out-of-state providers that are paid on a non-diagnostic related groups (DRG) prospective payment basis as described in rule 5160-2-22 of the Administrative Code and provide inpatient and/or outpatient services to eligible Ohio Title XIX recipients will be required to file the cost report identified in this rule.

5160-2-07.17 Provision of basic, medically necessary hospital-level services.

Under the provisions of section 5168.14 of the Revised Code, each hospital that receives payment under the provisions of Chapter 5168 of the Revised Code, shall provide, without charge to the individual, basic, medically necessary hospital-level services to the individual who is a resident of this state, is not a recipient of the medicaid program and whose income is at or below the federal poverty line. Residence is established by a person who is living in Ohio voluntarily and who is not receiving public assistance in another state. Current recipients of the disability assistance (DA) program as defined in Chapter 5115 of the Revised Code or its successor program, qualify for services under the provisions of this rule.

(A) Definitions.

(1) “Basic, medically necessary hospital level services” are defined as all inpatient and outpatient services covered under the medicaid program in Chapter 5160-2 of the Administrative Code with the exception of transplantation services and services associated with transplantation. These covered services must be ordered by an Ohio licensed physician and delivered at a hospital where the physician has clinical privileges, and where such services are permissible to be provided by the hospital under its certificate of authority granted under Chapters 3711., 3727., and/or 5119 of the Revised Code. Hospitals will be responsible for providing basic, medically necessary hospital-level services to those persons described in paragraph (B) of this rule.
(2) “Third-party payer” means any private or public entity or program that may be liable by law or contract to make payment to or on behalf of an individual for health care services. Third-party payer does not include a hospital.

(B) Determination of eligibility.

A person is eligible for basic, medically necessary hospital-level services under the provisions of this rule if the person is a current recipient of the DA program or its successor program, or the person's individual or family income is at or below the current poverty guideline issued by the department of health and human services (available at: http://www.medicaid.ohio.gov/FOROHIOANS/FinancialRequirements. The current poverty guideline that applies to the individual or family is calculated using either of the methods described in paragraphs (B)(2)(a) and (B)(2)(b) of this rule on the date these services were provided.

(1) For purposes of this rule, a “family” shall include the patient, the patient's spouse (regardless of whether they live in the home), and all of the patient's children, natural or adoptive, under the age of eighteen who live in the home. If the patient is under the age of eighteen, the “family” shall include the patient, the patient's natural or adoptive parent(s) (regardless of whether they live in the home), and the parent(s)' children, natural or adoptive, under the age of eighteen who live in the home. If the income of a spouse or parent who does not live in the home cannot be obtained, or the absent spouse or parent does not contribute income to the family, determination of eligibility shall proceed with the available income information. If the patient is the child of a minor parent who still resides in the home of the patient's grandparents, the “family” shall include only the parent(s) and any of the parent(s)' children, natural or adoptive, who reside in the home.

(2) “Income” shall be defined as total salaries, wages, and cash receipts before taxes; cash receipts that reflect reasonable deductions for business expenses shall be counted for both farm and non-farm self-employment. Income will be calculated by:

(a) Multiplying the person's or family's income by four, as applicable, for the three months preceding the date hospital services were provided;

(b) Using the person's or family's income, as applicable, for the twelve months preceding the date hospital services were provided.

(3) For outpatient hospital services, a hospital may consider an eligibility determination to be effective for ninety days from the initial service date, during which a new eligibility determination need not be completed. Eligibility for inpatient hospital services must be determined separately for each admission, unless the patient is readmitted within forty-five days of discharge for the same underlying condition. Eligibility for recipients of the DA program or its successor program must be verified on a monthly basis.

(4) A complete application for the hospital care assurance program is required prior to determination of eligibility. Each hospital shall develop an application that, at a minimum, must document income, family size and eligibility for the medicaid program. The patient or a legal representative is required to sign the application. An unsigned application can be deemed acceptable if the patient is physically unable to sign the application or does not live in the vicinity of the hospital and is unable to return a signed application by mail. In these situations, the hospital representative shall complete all questions on the application, sign the application, and must document why the patient is unable to sign the application.

(5) The hospital shall accept application for services without charge until three years from the date of the follow-up notice, as described in paragraphs (C)(2) and (C)(3) of this rule, has elapsed.

(6) Applicants shall cooperate in supplying information about health insurance or medical benefits available so a hospital may determine any potential third-party resources that may be available.
(7) Nothing in this rule shall be construed to prevent a hospital from assisting and/or requiring an individual to apply for medicaid before the hospital processes an application under this rule.

(C) Billing requirements.
Hospitals may bill any third-party payer that has a legal liability to pay for services rendered under the provisions of this rule. Hospitals may bill the medicaid program in accordance with Chapter 5164 of the Revised Code and the rules adopted under that chapter for services rendered under the provisions of this rule if the individual becomes a recipient of the medicaid program. Hospitals may bill individuals for services if all of the following apply:

(1) The hospital has an established post-billing procedure for determining the individual’s income and canceling the charges if the individual is found to qualify for services under the provisions of this rule;
(2) The initial bill, and at least the first follow-up bill, is accompanied by a written statement that does all of the following:
   (a) Explains that individuals with income at or below the federal poverty guidelines are eligible for services without charge;
   (b) Specifies the federal poverty guideline for individuals and families of various sizes at the time the bill is sent; and
   (c) Describes the procedure required by paragraph (C)(1) of this rule.
(3) If the written statement as described in paragraph (C)(2) of this rule is printed on the back of the hospital’s bill or data-mailer, the hospital must reference the statement on the front of the bill or data-mailer; and
(4) Notwithstanding paragraph (B) of this rule, a hospital providing care to an individual under the provisions of this rule is subrogated to the rights of any individual to receive compensation or benefits from any person or governmental entity for the hospital goods and services rendered.

(D) Notice requirements.
Each hospital that receives payment under Chapter 5168 of the Revised Code shall post notices in appropriate areas of their facility, which include the admissions areas, the business office, and the emergency room; the posted notices are not limited to these areas. The posted notices must specify the rights of persons with incomes at or below the federal poverty line to receive, without charge to the individual, basic, medically necessary hospital-level services at the hospital.

Posted notices must contain all of the following in order to comply with the requirement as described in this paragraph:
(1) At a minimum, the posted notices must specify the rights of these individuals to receive without charge, basic, medically necessary hospital-level services;
(2) The wording of the posted notice must be clear and in simple terms understandable by the population serviced;
(3) Posted notice must be printed in English and other languages that are common to the population of the area serviced;
(4) The posted notice must be clearly readable at a distance of twenty feet or the expected vantage point of the patrons; and
(5) The facility shall make reasonable efforts to communicate the contents of the posted notice to persons it has reason to believe cannot read the notice.

(E) Documentation requirements.
Each hospital shall establish and maintain a written policy outlining its internal policy for administration of the hospital care assurance program in compliance with this rule and with rule 5160-2-23 of the Administrative Code. Each hospital may change its written policy as needed, but policy changes may not be implemented retroactively. The written policy shall include, but is not limited to, the following:
Chapter 1. General Hospital Provisions
Part I: General Hospital Operations

(1) Procedure for taking applications and a copy of the current application in use as described in paragraph (B) of this rule; and

(2) Procedure for eligibility determination including the determination of family size and determination of income. If the hospital requires verification of income other than the application, the written policy should describe what constitutes acceptable income documentation.

(F) Reporting requirements.
Each hospital shall collect and report to the department information on the number and categorical identity of persons served under the provisions of this rule.

(1) This information will be reported on the ODM 02930, schedule F, which must be submitted annually along with a certification of the accuracy of this reported data as required by rule 5160-2-23 of the Administrative Code. The ODM 02930 and instructions for completion are available on the department's website.

(2) The use of estimation methods to determine amounts for charges related to non-hospital level services or to determine the health insurance status of patients charges on patient accounts is not permitted.

(3) Each hospital shall maintain, make available for department review and provide to the department on request, any records necessary to document its compliance with the provisions of this rule, including:

(a) Any documents, including medical records of the population served, from which the information required to be reported on the ODM 02930 was obtained;

(b) Accounts that clearly segregate the services rendered under the provisions of this rule from other accounts;

(c) Copies of the determinations of eligibility under paragraph (B) of this rule; and

(d) A copy of the disability assistance card or other evidence of eligibility for any person who is a recipient of the DA program or its successor program at the time the services defined in paragraph (A) of this rule were delivered.

(4) Hospitals must retain these records for a period of six years from the date of receipt of payment based upon those records or until any audit initiated within the six year period is completed.

(G) This rule in no way alters the scope or limits the obligation of any governmental entity or program, including the program awarding reparations to victims of crime under sections 2743.51 to 2743.72 of the Revised Code and the program for medically handicapped children established under section 3701.023 of the Revised Code, to pay for hospital services in accordance with state or local law.

5160-2-08.1 Assessment rates.

The provisions of this rule are applicable for the program year(s) specified in this rule for all hospitals as defined under section 5168.01 of the Revised Code.

(A) Applicability.
The requirements of this rule apply as long as the United States centers for medicare and medicaid services (CMS) determines that the assessment imposed under section 5168.06 of the Revised Code is a permissible health care related tax. Whenever the department of medicaid is informed that the assessment is an impermissible health care-related tax, the department shall promptly refund to each hospital the amount of money currently in the hospital care assurance match fund that has been paid by the hospital, plus any investment earnings on that amount.

(B) The program years to which this rule applies are identified in paragraphs (B)(1) to (B)(3) of this rule. When the department is notified by the centers for medicare and medicaid services that an additional disproportionate share allotment is available for a prior program year, the department may amend the assessment rates for the prior program year.
(1) The assessment rates applicable to the program year that ends in calendar year 2016 are specified in paragraph (C) of this rule.
(2) The assessment rates applicable to the program year that ends in calendar year 2017 are specified in paragraph (D) of this rule.
(3) The revised assessment rates applicable to the program year that ends in calendar year 2014 are specified in paragraph (E) of this rule.

(C) Calculation of assessment amounts.
The calculations described in this rule will be based on cost-reporting data described in rule 5160-2-23 of the Administrative Code that reflect the most recently completed interim settled medicaid cost report for all hospitals. For non-medicaid participating hospitals, the calculations shall be based on the most recent as-filed medicare cost report.
The assessment is calculated as follows:
(1) Determine each hospital's adjusted total facility costs as the amount calculated in paragraph (A)(17) of rule 5160-2-08 of the Administrative Code.
(2) For hospitals with adjusted total facility costs, as described in paragraph (C)(1) of this rule, that are less than or equal to $216,372,500, multiply the hospital's adjusted total facility costs as described in paragraph (C)(1) of this rule by 0.008354365. The product will be each hospital's assessment amount. For hospitals with adjusted total facility costs, as described in paragraph (C)(1) of this rule, that are greater than $216,372,500, multiply a factor of 0.008354365 times the hospital's adjusted total facility costs as described in paragraph (C)(1) of this rule, up to $216,372,500. Multiply a factor of 0.00668 times the hospital's adjusted total facility costs as described in paragraph (C)(1) of this rule, that are in excess of $216,372,500. The sum of the two products will be each hospital's assessment amount.
(3) The assessment amounts calculated in paragraph (C)(2) of this rule are subject to adjustment under the provisions of paragraph (G) of this rule.

(D) Calculation of assessment amounts.
The calculations described in this rule will be based on cost-reporting data described in rule 5160-2-23 of the Administrative Code that reflect the most recently completed interim settled medicaid cost report for all hospitals. For non-medicaid participating hospitals, the calculations shall be based on the most recent as-filed medicare cost report.
(1) Determine each hospital's adjusted total facility costs as the amount calculated in paragraph (A)(17) of rule 5160-2-08 of the Administrative Code.
(2) For hospitals with adjusted total facility costs, as described in paragraph (D)(1) of this rule, that are less than or equal to $216,372,500, multiply the hospital's adjusted total facility costs as described in paragraph (D)(1) of this rule by one and one half per cent. The product will be each hospital's assessment amount. For hospitals with adjusted total facility costs, as described in paragraph (D)(1) of this rule, that are greater than $216,372,500, multiply a factor of one and one half per cent times the hospital's adjusted total facility costs as described in paragraph (D)(1) of this rule, up to $216,372,500. Multiply a factor of one per cent times the hospital's adjusted total facility costs as described in paragraph (D)(1) of this rule, that are in excess of $216,372,500. The sum of the two products will be each hospital's assessment amount.
(3) The assessment amounts calculated in paragraph (D)(2) of this rule are subject to adjustment under the provisions of paragraph (G) of this rule.
(4) The department may establish a rate lower than the rates described in paragraph (D)(2) of this rule through the notification and reconsideration procedures described in paragraph (G) of this rule.

(E) For the program year specified in paragraph (B)(3) of this rule, the assessment rates specified in rule 5160-2-08.1 of the Administrative Code, effective June 25, 2015 are revised in paragraphs (E)(1) to (E)(3) of this rule.
(1) The original adjusted total facility cost threshold of $216,372,500 is unchanged.
Chapter 1. General Hospital Provisions
Part I: General Hospital Operations

(2) The original tier one assessment rate of 0.008401502 is increased to 0.0084150187.
(3) The original tier two assessment rate of 0.00663 is unchanged.

(F) Determination of intergovernmental transfer amounts.
The department may require governmental hospitals, as described in paragraph (A)(2) of rule 5160-2-08 of the Administrative Code, to make intergovernmental transfers each program year.

The department shall notify each governmental hospital of the amount of the intergovernmental transfer it is required to make during the program year.

Each governmental hospital shall make intergovernmental transfers in periodic installments, executed by electronic funds transfer.

(G) Notification and reconsideration procedures.

(1) The department shall mail by certified mail, return receipt requested, the results of the determinations made under paragraphs (C) and (D) of this rule to each hospital. If no hospital submits a request for reconsideration as described in paragraph (G)(2) of this rule, the preliminary determinations constitute the final reconciliation of the amounts that each hospital must pay under this rule.

(2) Not later than fourteen days after the department mails the preliminary determinations as described in paragraphs (C) and (D) of this rule, any hospital may submit to the department a written request for reconsideration of the preliminary determination made under paragraphs (C) and (D) of this rule. The request must be accompanied by written materials setting forth the basis for the reconsideration.

If one or more hospitals submit such a request, the department shall hold a public hearing in Columbus, Ohio not later than thirty days after the preliminary determinations have been mailed by the department for the purpose of reconsidering its preliminary determinations. The department shall mail written notice of the date, time, and place of the hearing to every hospital at least ten days before the date of the hearing.

On the basis of the evidence submitted to the department or presented at the public hearing, the department shall reconsider and may adjust the preliminary determinations. The result of the reconsideration is the final reconciliation of the amounts that each hospital must pay under the provisions of this rule.

(3) The department shall mail each hospital written notice of the amount it must pay under the final reconciliation as soon as practical. Any hospital may appeal the amount it must pay to the court of common pleas of Franklin county.

(4) In the course of any program year, the department may adjust the assessment rate defined in paragraphs (C) and (D) of this rule or adjust the amount of the intergovernmental transfers required under paragraph (F) of this rule, and, as a result of the adjustment, adjust each hospital's assessment and intergovernmental transfer, to reflect refinements made by the CMS during that program year.

5160-2-30 Hospital franchise fee program.

This rule sets forth the hospital franchise fee assessment applicable for the assessment program year that ends in calendar year 2016, and for each program year thereafter, for the hospital franchise fee program implemented under sections 5168.20 to 5168.28 of the Revised Code.

(A) Definitions

For purposes of the hospital franchise fee program only, "total facility costs" are as defined in section 5168.20 of the Revised Code, and also exclude a hospital's costs associated with providing care to recipients of the medicare program as shown on the cost-reporting data used for purposes of determining the hospital's assessment under section 5168.21 of the Revised Code.
(B) Assessment
The amount of each hospital's franchise fee assessment for the assessment program year that ends in calendar year 2016, and for each program year thereafter, shall be two and sixty-six hundredths per cent of the hospital's total facility costs as defined in paragraph (A) of this rule.

(C) Hospitals not enrolled as medicaid providers
(1) Hospitals, as defined in section 5168.20 of the Revised Code, that are not enrolled in the medicaid program shall, upon request, submit to the department an electronic copy of the hospital's medicare cost report (CMS 2552-10) or audited financial statements for the period described in section 5168.21 of the Revised Code.
(2) Hospitals not enrolled as medicaid providers shall be assessed a hospital franchise fee as described in paragraph (B) of this rule.
(3) Each hospital that is not enrolled as a medicaid provider shall pay the assessment according to a schedule established by the department at the time the department mails its written notice of the final determination of the hospital's assessment.

Miscellaneous

109.34 Notice of proposed conversion of nonprofit hospital or entity to for-profit hospital or entity.

(A) As used in this section and in section 109.35 of the Revised Code:
(1) “Fair market value” means the price that the assets being transferred would bring in a competitive and open market under a fair sale with the buyer and seller acting prudently, knowledgeably, and in their own best interest and a reasonable time being allowed for exposure in the market.
(2) “Nonprofit health care entity” means any of the following that was created for any charitable or social welfare purpose related to health care:
   (a) A hospital, as defined in section 3727.01 of the Revised Code, that is owned or operated by a corporation organized under Chapter 1702 of the Revised Code or the nonprofit corporation law of another state;
   (b) Either of the following that is or has been exempt from taxation under section 501(a) of the Internal Revenue Code:
      (i) An entity that is or has been granted a certificate of authority under Chapter 1742 of the Revised Code;
      (ii) An entity that is authorized or has been authorized to transact business in this state under Title XXXIX of the Revised Code, that is in the business of providing sickness and accident insurance, and that was previously a hospital service association under former Chapter 1739 of the Revised Code or Chapter 669 of the General Code, has merged or otherwise consolidated with a former hospital service association, or any of whose predecessors in interest has merged or otherwise consolidated with a former hospital service association.
(3) “Party” includes a nonprofit health care entity that is the subject of a transaction or proposed transaction, an acquiring person, and the resulting entity, if any.
(4) “Transaction” means a transfer of ownership or control of assets of a nonprofit health care entity, whether by purchase, merger, consolidation, lease, gift, joint venture, or other transfer, including any binding obligation in furtherance of the transaction, that is equal to at least twenty per cent of the assets of the entity and occurs in the twenty-four-month period prior to the date notice is submitted to the attorney general in accordance with division (B) of this section. “Transaction” also means a transfer of ownership or control of any assets of a nonprofit health care entity, whether by purchase, merger, consolidation, lease, gift, joint venture, or other transfer, including any binding obligation in furtherance of the transaction, if the entity is unable
to fulfill its stated or actual purpose without the assets. “Transaction” does not include either of the following:

(a) A transfer of ownership or control of assets of a nonprofit health care entity between nonprofit health care entities and persons exempt from taxation under section 501(a) of the “Internal Revenue Code of 1986,” 100 Stat. 2085, 26 U.S.C. 501, as amended;

(b) A transfer of ownership or control of assets of a nonprofit health care entity in relation to which the nonprofit health care entity, prior to the effective date of this section, has entered into a consent decree with the attorney general that requires distribution of the charitable assets of the entity to an appropriate health-related charity. The exemption in division (A)(4)(b) of this section does not limit the authority of the attorney general to seek remedies for breaches of fiduciary duty or other violations of law.

(B) A nonprofit health care entity proposing to enter into a transaction shall provide notice of the proposed transaction to the attorney general and obtain written approval of the transaction in accordance with this section. The nonprofit health care entity shall submit the notice on forms provided by the attorney general, and the notice shall include all of the following:

(1) The names and addresses of the parties, including a list of all individuals who are or have been chosen as directors, officers, or board members of the parties;

(2) The terms of the proposed transaction, including a summary of all contracts or other agreements of the parties;

(3) The amount, source, and nature of consideration to be paid to the nonprofit health care entity, its directors, officers, board members, executives, or experts retained by the nonprofit health care entity.

(4) A statement acknowledging that the nonprofit health care entity is under a continuing duty to notify the attorney general of any changes in the information contained in the notice or other documents required by this section and that a violation of this duty may delay approval of the proposed transaction. The statement shall be signed by a representative of the nonprofit health care entity at the time the notice is submitted to the attorney general.

(C) In addition to the notice described in division (B) of this section, the nonprofit health care entity shall submit all of the following:

(1) Audited financial statements for the nonprofit health care entity for the three fiscal years prior to the date the nonprofit health care entity submitted the notice to the attorney general;

(2) A valuation statement prepared by an independent, qualified expert, including an investment banker, actuary, appraiser, certified public accountant, or other expert, that assesses the full and fair market value of the nonprofit health care entity;

(3) Copies of all contracts and other agreements between the parties or their officers, directors, board members, or other fiduciaries, including any contracts or other final agreements relating to the close of the proposed transaction;

(4) Any additional information the attorney general considers necessary to value the nonprofit health care entity’s assets as required in rules adopted by the attorney general in accordance with Chapter 119 of the Revised Code.

(D) The notice and all other documents or materials submitted pursuant to this section are public records provided they meet the definition set forth in section 149.43 of the Revised Code.

(E) Not later than two business days after the discovery of any changes in information contained in the notice or other documents required by this section, the nonprofit health care entity shall provide copies to the attorney general of any documents and other material relevant to the changes. In addition to the ninety-day extension authorized by division (A) of section 109.35 of the Revised Code, the attorney general for good cause may delay approval of the proposed transaction up to thirty days following receipt of the documents and other material.
relevant to the changes.

(F) Not later than seven days after submitting the notice and other documents required by this section, the nonprofit health care entity shall publish notice of the proposed transaction in at least one daily newspaper of general circulation in the county where the nonprofit health care entity has its principal place of business. The notice shall state the names of the parties and a description of the proposed transaction.

(G) Notwithstanding division (A)(4)(a) of this section, as used in this division, “nonprofit combination” means a transaction between a nonprofit health care entity and another unrelated nonprofit health care entity.

Not less than sixty days before the closing of a nonprofit combination, a nonprofit health care entity that is a party to the combination and is the party to be acquired shall provide notice of the nonprofit combination to the attorney general by submitting the information described in divisions (B)(1) and (3) of this section.

Not later than seven days after the information required by this section is submitted to the attorney general, each of the nonprofit health care entities that is a party to a nonprofit combination shall publish the notice described in division (F) of this section.

109.35 Attorney general approval or disapproval of nonprofit hospital or entity conversion to for-profit one.

(A) Not later than sixty days after receipt of a notice and other documents required by section 109.34 of the Revised Code, the attorney general shall approve or disapprove the proposed transaction, except that the attorney general for good cause may extend this period an additional ninety days.

(B) In determining whether to approve or disapprove a proposed transaction, the attorney general shall consider:

1. Whether the proposed transaction will result in a breach of fiduciary duty, as determined by the attorney general, including conflicts of interest related to payments or benefits to officers, directors, board members, executives, and experts employed or retained by the parties;

2. Whether the nonprofit health care entity will receive full and fair market value for its charitable or social welfare assets;

3. Whether the proceeds of the proposed transaction will be used consistent with the nonprofit health care entity's original charitable purpose;

4. Any other criteria the attorney general considers necessary to determine whether the nonprofit health care entity will receive full and fair market value for its charitable or social welfare assets as required in rules adopted by the attorney general in accordance with Chapter 119 of the Revised Code.

(C) The attorney general may retain, at the nonprofit health care entity's expense, one or more independently qualified experts, including an investment banker, actuary, appraiser, certified public accountant, or other expert, as the attorney general considers reasonably necessary to provide assistance in making a decision under this section. The nonprofit health care entity shall promptly reimburse the attorney general for the cost of retaining experts. The cost of retaining an expert shall not exceed an amount that is reasonable and necessary to make a determination under this section. The contract to retain an expert is exempt from Chapter 125 of the Revised Code.

At any time while considering a proposed transaction under this section, the attorney general may request any additional information from the nonprofit health care entity that the attorney general considers appropriate to the valuation of the entity's charitable or social welfare assets. The nonprofit health care entity shall provide the information not later than ten days after the date of the request. The attorney general for good cause may delay approval of the
proposed transaction up to thirty days, in addition to the ninety-day extension authorized by division (A) of this section, following receipt of documents and other material containing the information requested.

(D) The attorney general shall approve or disapprove a proposed transaction on the basis of the criteria set forth in division (B) of this section. Once a proposed transaction is approved, any substantial alteration is a new transaction subject to approval by the attorney general.

The nonprofit health care entity may resubmit a notice and other documents seeking approval of a proposed transaction disapproved by the attorney general but may not submit a notice and other documents that are identical or substantially similar to the original submission.

If the attorney general disapproves the proposed transaction, the nonprofit health care entity may appeal the disapproval pursuant to division (H) of this section.

(E) If the attorney general approves the proposed transaction, the nonprofit health care entity shall hold a public hearing to receive comment on the proposed use of the proceeds of the transaction. The hearing shall be held in the county where the nonprofit health care entity has its principal place of business not later than forty-five days after receipt of written notice of the attorney general's approval.

At least thirty days prior to the date set for the hearing, the nonprofit health care entity shall publish notice of the hearing in at least one daily newspaper of general circulation in the county where the nonprofit health care entity has its principal place of business. The notice shall include a statement that a transaction has been approved by the attorney general, the names of the parties, a description of the proposed transaction, and the date, time, and place of the hearing.

(F)(1) The proceeds of an approved transaction shall be dedicated and transferred to one or more existing or new charitable organizations exempt from taxation under section 501(a) and described in section 501(c)(3) of the “Internal Revenue Code of 1986,” 100 Stat. 2085, 26 U.S.C.A. 501, as amended.

(2) The attorney general may authorize a dedication and transfer to a person exempt from taxation under section 501(a) and described in section 501(c)(4) of the “Internal Revenue Code of 1986,” 100 Stat. 2085, 26 U.S.C.A. 501, as amended, if all of the following conditions are met:

(a) The attorney general determines that the dedication and transfer is necessary to ensure effective management and monetization of the equity ownership, if any, in the nonprofit health care entity;

(b) The person described in division (F)(2) of this section agrees to all of the following conditions:

(i) The person described in division (F)(2) of this section will receive from the nonprofit health care entity only the amount of proceeds of the transaction as are necessary to fund the level of activity necessary to preserve the person's tax-exempt status;

(ii) No proceeds of the transaction, or any other funds or resources controlled by the person described in division (F)(2) of this section, will be disbursed for campaign contributions, lobbying expenditures, or other political activity;

(iii) The person described in division (F)(2) of this section agrees to abide by any requirements imposed on persons exempt from taxation under section 501(a) and described in section 501(c)(3) of the “Internal Revenue Code of 1986,” 100 Stat. 2085, 26 U.S.C.A. 501, as amended, that the attorney general determines appropriate.

(G)(1) No nonprofit health care entity shall enter into a transaction subject to this section without the approval of the attorney general granted in accordance with this section.

(2) No person who is an officer, director, board member, or other fiduciary of a nonprofit health care entity shall receive anything of substantial value that relates to a transaction described in this section and section 109.34 of the Revised Code and is of such a character as
to manifest a substantial and improper influence on the person with respect to the person's duties.

(3) The attorney general may institute and prosecute a civil or criminal action to enforce this section and section 109.34 of the Revised Code in the court of common pleas of the county in which the nonprofit health care entity has its principal place of business or the Franklin county court of common pleas. In addition to any civil remedies that exist under common law or the Revised Code, a court may rescind the transaction, grant injunctive relief, assess a civil penalty in an amount not exceeding ten million dollars, or impose any combination of these remedies.

(H) A nonprofit health care entity that is a party to a proposed transaction that has been disapproved by the attorney general may appeal the disapproval only by following the procedure set forth in this division. The disapproval may be appealed to the court of common pleas of the county in which the nonprofit health entity has its principal place of business. The court of common pleas may reverse, vacate, or modify the attorney general's decision to disapprove a transaction if the court finds that the decision was unlawful or unreasonable. This appeal shall proceed as an appeal de novo. To bring an appeal under this division, a nonprofit health care entity shall file a notice of appeal with the court and the attorney general not later than fifteen days after the entity's receipt of notice of the attorney general's disapproval of the transaction. Not later than thirty days after receipt of the notice of appeal, the attorney general shall prepare and certify to the court of common pleas a complete record of all of the documents submitted by the nonprofit health care entity to the attorney general and any documents generated by consultants at the request of the attorney general or other materials produced by the attorney general as part of the attorney general's determination of whether to approve or disapprove the transaction.

The judgment of the court of common pleas is final unless reversed, vacated, or modified on appeal. An appeal may be taken by either the nonprofit health care entity or the attorney general, shall proceed as in the case of appeals in civil actions, and shall be pursuant to the rules of appellate procedure and, to the extent not in conflict with those rules, Chapter 2505 of the Revised Code.

(I)(1) The powers of the attorney general under this section and section 109.34 of the Revised Code are in addition to the attorney general's powers held at common law and under sections 109.23 to 109.33 of the Revised Code.

This section and section 109.34 of the Revised Code do not limit or otherwise affect any of the following:

(a) Any other civil or criminal right, claim, or defense that the attorney general or parties may assert under common law or the Revised Code;
(b) The authority of the attorney general to institute and prosecute an action to enforce sections 109.23 to 109.33 of the Revised Code;
(c) The authority of the attorney general to investigate and prosecute violations of any state or federal antitrust law.

(2) Nothing in this section shall be construed to grant to the attorney general any authority of the superintendent of insurance under Title XVII or Title XXXIX of the Revised Code relating to the superintendent's review of an entity described in division (A)(2)(b) of section 109.34 of the Revised Code.

(3) Nothing in this section or section 109.34 of the Revised Code shall be construed to limit the independent authority of the attorney general to protect charitable trusts and charitable assets in this state.

119.14 Waiver of penalties for first-time small business regulatory paperwork.

(A) For any small business that engages in a paperwork violation, the state agency or regulatory authority that regulates the field of operation in which the business operates shall
Chapter 1. General Hospital Provisions  
Part I: General Hospital Operations

waive any and all administrative fines or civil penalties on that small business for the violation, if the paperwork violation is a first-time offense.

(B) When an agency or regulatory authority waives an administrative fine or civil penalty under this section, the state agency or regulatory authority shall require the small business to correct the violation within a reasonable period of time.

(C) Notwithstanding this section, a state agency or regulatory authority may impose administrative fines or civil penalties on a small business for a paperwork violation that is a first-time offense for any of the following reasons:

(1) The violation has the potential to cause serious harm to the public interest as determined by a state agency or regulatory authority director;

(2) The violation involves a small business knowingly or willfully engaging in conduct that may result in a felony conviction;

(3) Failure to impose an administrative fine or civil penalty for the violation would impede or interfere with the detection of criminal activity;

(4) The violation is of a law concerning the assessment or collection of any tax, debt, revenue, or receipt;

(5) The violation presents a direct danger to the public health or safety, results in a financial loss to an employee as defined in section 4111.03 of the Revised Code, or presents the risk of severe environmental harm, as determined by the head of the agency or regulatory authority;

(6) The violation is a failure to comply with a federal requirement for a program that has been delegated from the federal government to a state agency or regulatory authority and where the federal requirement includes a requirement to impose a fine.

(D)(1) Nothing in this section shall prohibit a state agency or regulatory authority from waiving administrative fines or civil penalties incurred by a small business for a paperwork violation that is not a first-time offense.

(2) Any administrative fine or civil penalty that is waived under this section, may be reinstated and imposed in addition to any additional fines or penalties associated with a subsequent violation for noncompliance with the same paperwork requirement.

(E) This section shall not apply to any violation by a small business of a statutory or regulatory requirement mandating the collection of information by a state agency or regulatory body if that small business previously violated any such requirement mandating the collection of information.

(F) Nothing in this section shall be construed to diminish the responsibility for any citizen or business to apply for and obtain a permit, license, or authorizing document that is required to engage in a regulated activity, or otherwise comply with state or federal law.

(G) As used in this section:

(1) “Small business” has the same meaning as defined by the Code of Federal Regulations, Title 13, Chapter 1, Part 121.

(2) “Paperwork violation” means the violation of any statutory or regulatory requirement in the Revised Code mandating the collection of information by a state agency or regulatory body.

(3) “First-time offense” means the first instance of a violation of the particular statutory or regulatory requirement mandating the collection of information by a state agency or regulatory body.

121.22 Open meetings in government.

(A) This section shall be liberally construed to require public officials to take official action and to conduct all deliberations upon official business only in open meetings unless the subject matter is specifically excepted by law.
(B) As used in this section:
(1) “Public body” means any of the following:
   (a) Any board, commission, committee, council, or similar decision-making body of a state agency, institution, or authority, and any legislative authority or board, commission, committee, council, agency, authority, or similar decision-making body of any county, township, municipal corporation, school district, or other political subdivision or local public institution;
   (b) Any committee or subcommittee of a body described in division (B)(1)(a) of this section;
   (c) A court of jurisdiction of a sanitary district organized wholly for the purpose of providing a water supply for domestic, municipal, and public use when meeting for the purpose of the appointment, removal, or reappointment of a member of the board of directors of such a district pursuant to section 6115.10 of the Revised Code, if applicable, or for any other matter related to such a district other than litigation involving the district. As used in division (B)(1)(c) of this section, “court of jurisdiction” has the same meaning as “court” in section 6115.01 of the Revised Code.
(2) “Meeting” means any prearranged discussion of the public business of the public body by a majority of its members.
(3) “Regulated individual” means either of the following:
   (a) A student in a state or local public educational institution;
   (b) A person who is, voluntarily or involuntarily, an inmate, patient, or resident of a state or local institution because of criminal behavior, mental illness, an intellectual disability, disease, disability, age, or other condition requiring custodial care.
(4) “Public office” has the same meaning as in section 149.011 of the Revised Code.
(C) All meetings of any public body are declared to be public meetings open to the public at all times. A member of a public body shall be present in person at a meeting open to the public to be considered present or to vote at the meeting and for purposes of determining whether a quorum is present at the meeting.
   The minutes of a regular or special meeting of any public body shall be promptly prepared, filed, and maintained and shall be open to public inspection. The minutes need only reflect the general subject matter of discussions in executive sessions authorized under division (G) or (J) of this section.
(D) This section does not apply to any of the following:
   (1) A grand jury;
   (2) An audit conference conducted by the auditor of state or independent certified public accountants with officials of the public office that is the subject of the audit;
   (3) The adult parole authority when its hearings are conducted at a correctional institution for the sole purpose of interviewing inmates to determine parole or pardon;
   (4) The organized crime investigations commission established under section 177.01 of the Revised Code;
   (5) Meetings of a child fatality review board established under section 307.621 of the Revised Code, meetings related to a review conducted pursuant to guidelines established by the director of health under section 3701.70 of the Revised Code, and meetings conducted pursuant to sections 5153.171 to 5153.173 of the Revised Code;
   (6) The state medical board when determining whether to suspend a certificate without a prior hearing pursuant to division (G) of either section 4730.25 or 4731.22 of the Revised Code;
   (7) The board of nursing when determining whether to suspend a license or certificate without a prior hearing pursuant to division (B) of section 4723.281 of the Revised Code;
   (8) The state board of pharmacy when determining whether to suspend a license without a prior hearing pursuant to division (D) of section 4729.16 of the Revised Code;
   (9) The state chiropractic board when determining whether to suspend a license without a hearing pursuant to section 4734.37 of the Revised Code;
Chapter 1. General Hospital Provisions
Part I: General Hospital Operations

(10) The executive committee of the emergency response commission when
determining whether to issue an enforcement order or request that a civil action, civil penalty
action, or criminal action be brought to enforce Chapter 3750 of the Revised Code;
(11) The board of directors of the nonprofit corporation formed under section 187.01 of
the Revised Code or any committee thereof, and the board of directors of any subsidiary of that
corporation or a committee thereof;
(12) An audit conference conducted by the audit staff of the department of job and family
services with officials of the public office that is the subject of that audit under section 5101.37 of
the Revised Code;
(13) The occupational therapy section of the occupational therapy, physical therapy, and
athletic trainers board when determining whether to suspend a license or limited permit without
a hearing pursuant to division (D) of section 4755.11 of the Revised Code;
(14) The physical therapy section of the occupational therapy, physical therapy, and
athletic trainers board when determining whether to suspend a license without a hearing
pursuant to division (E) of section 4755.47 of the Revised Code;
(15) The athletic trainers section of the occupational therapy, physical therapy, and
athletic trainers board when determining whether to suspend a license without a hearing
pursuant to division (D) of section 4755.64 of the Revised Code.
(E) The controlling board, the tax credit authority, or the minority development financing
advisory board, when meeting to consider granting assistance pursuant to Chapter 122 or 166
of the Revised Code, in order to protect the interest of the applicant or the possible investment
of public funds, by unanimous vote of all board or authority members present, may close the
meeting during consideration of the following information confidentially received by the authority
or board from the applicant:
(1) Marketing plans;
(2) Specific business strategy;
(3) Production techniques and trade secrets;
(4) Financial projections;
(5) Personal financial statements of the applicant or members of the applicant's
immediate family, including, but not limited to, tax records or other similar information not open
to public inspection.
The vote by the authority or board to accept or reject the application, as well as all
proceedings of the authority or board not subject to this division, shall be open to the public and
governed by this section.
(F) Every public body, by rule, shall establish a reasonable method whereby any person
may determine the time and place of all regularly scheduled meetings and the time, place, and
purpose of all special meetings. A public body shall not hold a special meeting unless it gives at
least twenty-four hours' advance notice to the news media that have requested notification,
except in the event of an emergency requiring immediate official action. In the event of an
emergency, the member or members calling the meeting shall notify the news media that have
requested notification immediately of the time, place, and purpose of the meeting.
The rule shall provide that any person, upon request and payment of a reasonable fee,
may obtain reasonable advance notification of all meetings at which any specific type of public
business is to be discussed. Provisions for advance notification may include, but are not limited
to, mailing the agenda of meetings to all subscribers on a mailing list or mailing notices in self-
addressed, stamped envelopes provided by the person.
(G) Except as provided in divisions (G)(8) and (J) of this section, the members of a
public body may hold an executive session only after a majority of a quorum of the public body
determines, by a roll call vote, to hold an executive session and only at a regular or special
meeting for the sole purpose of the consideration of any of the following matters:
Chapter 1. General Hospital Provisions
Part I: General Hospital Operations

(1) To consider the appointment, employment, dismissal, discipline, promotion, demotion, or compensation of a public employee or official, or the investigation of charges or complaints against a public employee, official, licensee, or regulated individual, unless the public employee, official, licensee, or regulated individual requests a public hearing. Except as otherwise provided by law, no public body shall hold an executive session for the discipline of an elected official for conduct related to the performance of the elected official's official duties or for the elected official's removal from office. If a public body holds an executive session pursuant to division (G)(1) of this section, the motion and vote to hold that executive session shall state which one or more of the approved purposes listed in division (G)(1) of this section are the purposes for which the executive session is to be held, but need not include the name of any person to be considered at the meeting.

(2) To consider the purchase of property for public purposes, the sale of property at competitive bidding, or the sale or other disposition of unneeded, obsolete, or unfit-for-use property in accordance with section 505.10 of the Revised Code, if premature disclosure of information would give an unfair competitive or bargaining advantage to a person whose personal, private interest is adverse to the general public interest. No member of a public body shall use division (G)(2) of this section as a subterfuge for providing covert information to prospective buyers or sellers. A purchase or sale of public property is void if the seller or buyer of the public property has received covert information from a member of a public body that has not been disclosed to the general public in sufficient time for other prospective buyers and sellers to prepare and submit offers.

If the minutes of the public body show that all meetings and deliberations of the public body have been conducted in compliance with this section, any instrument executed by the public body purporting to convey, lease, or otherwise dispose of any right, title, or interest in any public property shall be conclusively presumed to have been executed in compliance with this section insofar as title or other interest of any bona fide purchasers, lessees, or transferees of the property is concerned.

(3) Conferences with an attorney for the public body concerning disputes involving the public body that are the subject of pending or imminent court action;

(4) Preparing for, conducting, or reviewing negotiations or bargaining sessions with public employees concerning their compensation or other terms and conditions of their employment;

(5) Matters required to be kept confidential by federal law or regulations or state statutes;

(6) Details relative to the security arrangements and emergency response protocols for a public body or a public office, if disclosure of the matters discussed could reasonably be expected to jeopardize the security of the public body or public office;

(7) In the case of a county hospital operated pursuant to Chapter 339 of the Revised Code, a joint township hospital operated pursuant to Chapter 513 of the Revised Code, or a municipal hospital operated pursuant to Chapter 749 of the Revised Code, to consider trade secrets, as defined in section 1333.61 of the Revised Code;

(8) To consider confidential information related to the marketing plans, specific business strategy, production techniques, trade secrets, or personal financial statements of an applicant for economic development assistance, or to negotiations with other political subdivisions respecting requests for economic development assistance, provided that both of the following conditions apply:

(a) The information is directly related to a request for economic development assistance that is to be provided or administered under any provision of Chapter 715., 725., 1724., or 1728 or sections 701.07, 3735.67 to 3735.70, 5709.40 to 5709.43, 5709.61 to 5709.69, 5709.73 to 5709.75, or 5709.77 to 5709.81 of the Revised Code, or that involves public infrastructure improvements or the extension of utility services that are directly related to an economic development project.
(b) A unanimous quorum of the public body determines, by a roll call vote, that the executive session is necessary to protect the interests of the applicant or the possible investment or expenditure of public funds to be made in connection with the economic development project.

If a public body holds an executive session to consider any of the matters listed in divisions (G)(2) to (8) of this section, the motion and vote to hold that executive session shall state which one or more of the approved matters listed in those divisions are to be considered at the executive session.

A public body specified in division (B)(1)(c) of this section shall not hold an executive session when meeting for the purposes specified in that division.

(H) A resolution, rule, or formal action of any kind is invalid unless adopted in an open meeting of the public body. A resolution, rule, or formal action adopted in an open meeting that results from deliberations in a meeting not open to the public is invalid unless the deliberations were for a purpose specifically authorized in division (G) or (J) of this section and conducted at an executive session held in compliance with this section. A resolution, rule, or formal action adopted in an open meeting is invalid if the public body that adopted the resolution, rule, or formal action violated division (F) of this section.

(I)(1) Any person may bring an action to enforce this section. An action under division (I)(1) of this section shall be brought within two years after the date of the alleged violation or threatened violation. Upon proof of a violation or threatened violation of this section in an action brought by any person, the court of common pleas shall issue an injunction to compel the members of the public body to comply with its provisions.

(2)(a) If the court of common pleas issues an injunction pursuant to division (I)(1) of this section, the court shall order the public body that it enjoins to pay a civil forfeiture of five hundred dollars to the party that sought the injunction and shall award to that party all court costs and, subject to reduction as described in division (I)(2) of this section, reasonable attorney's fees. The court, in its discretion, may reduce an award of attorney's fees to the party that sought the injunction or not award attorney's fees to that party if the court determines both of the following:

(i) That, based on the ordinary application of statutory law and case law as it existed at the time of violation or threatened violation that was the basis of the injunction, a well-informed public body reasonably would believe that the public body was not violating or threatening to violate this section;

(ii) That a well-informed public body reasonably would believe that the conduct or threatened conduct that was the basis of the injunction would serve the public policy that underlies the authority that is asserted as permitting that conduct or threatened conduct.

(b) If the court of common pleas does not issue an injunction pursuant to division (I)(1) of this section and the court determines at that time that the bringing of the action was frivolous conduct, as defined in division (A) of section 2323.51 of the Revised Code, the court shall award to the public body all court costs and reasonable attorney's fees, as determined by the court.

(3) Irreparable harm and prejudice to the party that sought the injunction shall be conclusively and irrebuttably presumed upon proof of a violation or threatened violation of this section.

(4) A member of a public body who knowingly violates an injunction issued pursuant to division (I)(1) of this section may be removed from office by an action brought in the court of common pleas for that purpose by the prosecuting attorney or the attorney general.

(J)(1) Pursuant to division (C) of section 5901.09 of the Revised Code, a veterans service commission shall hold an executive session for one or more of the following purposes unless an applicant requests a public hearing:

(a) Interviewing an applicant for financial assistance under sections 5901.01 to 5901.15 of the Revised Code;
(b) Discussing applications, statements, and other documents described in division (B) of section 5901.09 of the Revised Code;
(c) Reviewing matters relating to an applicant's request for financial assistance under sections 5901.01 to 5901.15 of the Revised Code.

(2) A veterans service commission shall not exclude an applicant for, recipient of, or former recipient of financial assistance under sections 5901.01 to 5901.15 of the Revised Code, and shall not exclude representatives selected by the applicant, recipient, or former recipient, from a meeting that the commission conducts as an executive session that pertains to the applicant's, recipient's, or former recipient's application for financial assistance.

(3) A veterans service commission shall vote on the grant or denial of financial assistance under sections 5901.01 to 5901.15 of the Revised Code only in an open meeting of the commission. The minutes of the meeting shall indicate the name, address, and occupation of the applicant, whether the assistance was granted or denied, the amount of the assistance if assistance is granted, and the votes for and against the granting of assistance.

149.43 Public records availability.

(A) As used in this section:
(1) “Public record” means records kept by any public office, including, but not limited to, state, county, city, village, township, and school district units, and records pertaining to the delivery of educational services by an alternative school in this state kept by the nonprofit or for-profit entity operating the alternative school pursuant to section 3313.533 of the Revised Code. “Public record” does not mean any of the following:
(a) Medical records;
(b) Records pertaining to probation and parole proceedings or to proceedings related to the imposition of community control sanctions and post-release control sanctions;
(c) Records pertaining to actions under section 2151.85 and division (C) of section 2919.121 of the Revised Code and to appeals of actions arising under those sections;
(d) Records pertaining to adoption proceedings, including the contents of an adoption file maintained by the department of health under sections 3705.12 to 3705.124 of the Revised Code;
(e) Information in a record contained in the putative father registry established by section 3107.062 of the Revised Code, regardless of whether the information is held by the department of job and family services or, pursuant to section 3111.69 of the Revised Code, the office of child support in the department or a child support enforcement agency;
(f) Records specified in division (A) of section 3107.52 of the Revised Code;
(g) Trial preparation records;
(h) Confidential law enforcement investigatory records;
(i) Records containing information that is confidential under section 2710.03 or 4112.05 of the Revised Code;
(j) DNA records stored in the DNA database pursuant to section 109.573 of the Revised Code;
(k) Inmate records released by the department of rehabilitation and correction to the department of youth services or a court of record pursuant to division (E) of section 5120.21 of the Revised Code;
(l) Records maintained by the department of youth services pertaining to children in its custody released by the department of youth services to the department of rehabilitation and correction pursuant to section 5139.05 of the Revised Code;
(m) Intellectual property records;
(n) Donor profile records;
(o) Records maintained by the department of job and family services pursuant to section
Chapter 1. General Hospital Provisions
Part I: General Hospital Operations

3121.894 of the Revised Code;
(p) Peace officer, parole officer, probation officer, bailiff, prosecuting attorney, assistant prosecuting attorney, correctional employee, community-based correctional facility employee, youth services employee, firefighter, EMT, investigator of the bureau of criminal identification and investigation, or federal law enforcement officer residential and familial information;
(q) In the case of a county hospital operated pursuant to Chapter 339 of the Revised Code or a municipal hospital operated pursuant to Chapter 749 of the Revised Code, information that constitutes a trade secret, as defined in section 1333.61 of the Revised Code;
(r) Information pertaining to the recreational activities of a person under the age of eighteen;
(s) In the case of a child fatality review board acting under sections 307.621 to 307.629 of the Revised Code or a review conducted pursuant to guidelines established by the director of health under section 3701.70 of the Revised Code, records provided to the board or director, statements made by board members during meetings of the board or by persons participating in the director's review, and all work products of the board or director, and in the case of a child fatality review board, child fatality review data submitted by the board to the department of health or a national child death review database, other than the report prepared pursuant to division (A) of section 307.626 of the Revised Code;
(t) Records provided to and statements made by the executive director of a public children services agency or a prosecuting attorney acting pursuant to section 5153.171 of the Revised Code other than the information released under that section;
(u) Test materials, examinations, or evaluation tools used in an examination for licensure as a nursing home administrator that the board of executives of long-term services and supports administers under section 4751.04 of the Revised Code or contracts under that section with a private or government entity to administer;
(v) Records the release of which is prohibited by state or federal law;
(w) Proprietary information of or relating to any person that is submitted to or compiled by the Ohio venture capital authority created under section 150.01 of the Revised Code;
(x) Financial statements and data any person submits for any purpose to the Ohio housing finance agency or the controlling board in connection with applying for, receiving, or accounting for financial assistance from the agency, and information that identifies any individual who benefits directly or indirectly from financial assistance from the agency;
(y) Records listed in section 5101.29 of the Revised Code;
(z) Discharges recorded with a county recorder under section 317.24 of the Revised Code, as specified in division (B)(2) of that section;
(aa) Usage information including names and addresses of specific residential and commercial customers of a municipally owned or operated public utility;
(bb) Records described in division (C) of section 187.04 of the Revised Code that are not designated to be made available to the public as provided in that division;
(cc) Information and records that are made confidential, privileged, and not subject to disclosure under divisions (B) and (C) of section 2949.221 of the Revised Code;
(dd) Personal information, as defined in section 149.45 of the Revised Code;
(ee) The confidential name, address, and other personally identifiable information of a program participant in the address confidentiality program established under sections 111.41 to 111.47 of the Revised Code, including the contents of any application for absent voter's ballots, absent voter's ballot identification envelope statement of voter, or provisional ballot affirmation completed by a program participant who has a confidential voter registration record, and records or portions of records pertaining to that program that identify the number of program participants that reside within a precinct, ward, township, municipal corporation, county, or any other geographic area smaller than the state. As used in this division, "confidential address" and "program participant" have the meaning defined in section 111.41 of the Revised Code.
(ff) Orders for active military service of an individual serving or with previous service in the armed forces of the United States, including a reserve component, or the Ohio organized militia, except that, such order becomes a public record on the day that is fifteen years after the published date or effective date of the call to order.

(2) “Confidential law enforcement investigatory record” means any record that pertains to a law enforcement matter of a criminal, quasi-criminal, civil, or administrative nature, but only to the extent that the release of the record would create a high probability of disclosure of any of the following:
   (a) The identity of a suspect who has not been charged with the offense to which the record pertains, or of an information source or witness to whom confidentiality has been reasonably promised;
   (b) Information provided by an information source or witness to whom confidentiality has been reasonably promised, which information would reasonably tend to disclose the source's or witness's identity;
   (c) Specific confidential investigatory techniques or procedures or specific investigatory work product;
   (d) Information that would endanger the life or physical safety of law enforcement personnel, a crime victim, a witness, or a confidential information source.

(3) “Medical record” means any document or combination of documents, except births, deaths, and the fact of admission to or discharge from a hospital, that pertains to the medical history, diagnosis, prognosis, or medical condition of a patient and that is generated and maintained in the process of medical treatment.

(4) “Trial preparation record” means any record that contains information that is specifically compiled in reasonable anticipation of, or in defense of, a civil or criminal action or proceeding, including the independent thought processes and personal trial preparation of an attorney.

(5) “Intellectual property record” means a record, other than a financial or administrative record, that is produced or collected by or for faculty or staff of a state institution of higher learning in the conduct of or as a result of study or research on an educational, commercial, scientific, artistic, technical, or scholarly issue, regardless of whether the study or research was sponsored by the institution alone or in conjunction with a governmental body or private concern, and that has not been publicly released, published, or patented.

(6) “Donor profile record” means all records about donors or potential donors to a public institution of higher education except the names and reported addresses of the actual donors and the date, amount, and conditions of the actual donation.

(7) “Peace officer, parole officer, probation officer, bailiff, prosecuting attorney, assistant prosecuting attorney, correctional employee, community-based correctional facility employee, youth services employee, firefighter, EMT, investigator of the bureau of criminal identification and investigation, or federal law enforcement officer residential and familial information” means any information that discloses any of the following about a peace officer, parole officer, probation officer, bailiff, prosecuting attorney, assistant prosecuting attorney, correctional employee, community-based correctional facility employee, youth services employee, firefighter, EMT, investigator of the bureau of criminal identification and investigation, or federal law enforcement officer:

   (a) The address of the actual personal residence of a peace officer, parole officer, probation officer, bailiff, assistant prosecuting attorney, correctional employee, community-based correctional facility employee, youth services employee, firefighter, EMT, investigator of the bureau of criminal identification and investigation, or federal law enforcement officer;
Chapter 1. General Hospital Provisions
Part I: General Hospital Operations

bureau of criminal identification and investigation, or federal law enforcement officer resides;
(b) Information compiled from referral to or participation in an employee assistance program;
(c) The social security number, the residential telephone number, any bank account, debit card, charge card, or credit card number, or the emergency telephone number of, or any medical information pertaining to, a peace officer, parole officer, probation officer, bailiff, prosecuting attorney, assistant prosecuting attorney, correctional employee, community-based correctional facility employee, youth services employee, firefighter, EMT, investigator of the bureau of criminal identification and investigation, or federal law enforcement officer;
(d) The name of any beneficiary of employment benefits, including, but not limited to, life insurance benefits, provided to a peace officer, parole officer, probation officer, bailiff, prosecuting attorney, assistant prosecuting attorney, correctional employee, community-based correctional facility employee, youth services employee, firefighter, EMT, investigator of the bureau of criminal identification and investigation, or federal law enforcement officer's employer;
(e) The identity and amount of any charitable or employment benefit deduction made by the peace officer's, parole officer's, probation officer's, bailiff's, prosecuting attorney's, assistant prosecuting attorney's, correctional employee's, community-based correctional facility employee's, youth services employee's, firefighter's, EMT's, investigator of the bureau of criminal identification and investigation, or federal law enforcement officer's employer from the peace officer's, parole officer's, probation officer's, bailiff's, prosecuting attorney's, assistant prosecuting attorney's, correctional employee's, community-based correctional facility employee's, youth services employee's, firefighter's, EMT's, investigator of the bureau of criminal identification and investigation, or federal law enforcement officer's compensation unless the amount of the deduction is required by state or federal law;
(f) The name, the residential address, the name of the employer, the address of the employer, the social security number, the residential telephone number, any bank account, debit card, charge card, or credit card number, or the emergency telephone number of the spouse, a former spouse, or any child of a peace officer, parole officer, probation officer, bailiff, prosecuting attorney, assistant prosecuting attorney, correctional employee, community-based correctional facility employee, youth services employee, firefighter, EMT, investigator of the bureau of criminal identification and investigation, or federal law enforcement officer;
(g) A photograph of a peace officer who holds a position or has an assignment that may include undercover or plain clothes positions or assignments as determined by the peace officer's appointing authority.

As used in divisions (A)(7) and (B)(9) of this section, “peace officer” has the same meaning as in section 109.71 of the Revised Code and also includes the superintendent and troopers of the state highway patrol; it does not include the sheriff of a county or a supervisory employee who, in the absence of the sheriff, is authorized to stand in for, exercise the authority of, and perform the duties of the sheriff.

As used in divisions (A)(7) and (B)(9) of this section, "correctional employee" means any employee of the department of rehabilitation and correction who in the course of performing the employee's job duties has or has had contact with inmates and persons under supervision.

As used in divisions (A)(7) and (B)(9) of this section, “youth services employee” means any employee of the department of youth services who in the course of performing the employee's job duties has or has had contact with children committed to the custody of the department of youth services.

As used in divisions (A)(7) and (B)(9) of this section, “firefighter” means any regular, paid
or volunteer, member of a lawfully constituted fire department of a municipal corporation, township, fire district, or village.

As used in divisions (A)(7) and (B)(9) of this section, “EMT” means EMTs-basic, EMTs-I, and paramedics that provide emergency medical services for a public emergency medical service organization. “Emergency medical service organization,” “EMT-basic,” “EMT-I,” and “paramedic” have the same meanings as in section 4765.01 of the Revised Code.

As used in divisions (A)(7) and (B)(9) of this section, “investigator of the bureau of criminal identification and investigation” has the meaning defined in section 2903.11 of the Revised Code.

As used in divisions (A)(7) and (B)(9) of this section, “federal law enforcement officer” has the meaning defined in section 9.88 of the Revised Code.

(8) “Information pertaining to the recreational activities of a person under the age of eighteen” means information that is kept in the ordinary course of business by a public office, that pertains to the recreational activities of a person under the age of eighteen years, and that discloses any of the following:

(a) The address or telephone number of a person under the age of eighteen or the address or telephone number of that person’s parent, guardian, custodian, or emergency contact person;
(b) The social security number, birth date, or photographic image of a person under the age of eighteen;
(c) Any medical record, history, or information pertaining to a person under the age of eighteen;
(d) Any additional information sought or required about a person under the age of eighteen for the purpose of allowing that person to participate in any recreational activity conducted or sponsored by a public office or to use or obtain admission privileges to any recreational facility owned or operated by a public office.

(9) “Community control sanction” has the same meaning as in section 2929.01 of the Revised Code.

(10) “Post-release control sanction” has the same meaning as in section 2967.01 of the Revised Code.

(11) “Redaction” means obscuring or deleting any information that is exempt from the duty to permit public inspection or copying from an item that otherwise meets the definition of a “record” in section 149.011 of the Revised Code.

(12) “Designee” and “elected official” have the same meanings as in section 109.43 of the Revised Code.

(B)(1) Upon request and subject to division (B)(8) of this section, all public records responsive to the request shall be promptly prepared and made available for inspection to any person at all reasonable times during regular business hours. Subject to division (B)(8) of this section, upon request, a public office or person responsible for public records shall make copies of the requested public record available at cost and within a reasonable period of time. If a public record contains information that is exempt from the duty to permit public inspection or to copy the public record, the public office or the person responsible for the public record shall make available all of the information within the public record that is not exempt. When making that public record available for public inspection or copying that public record, the public office or the person responsible for the public record shall notify the requester of any redaction or make the redaction plainly visible. A redaction shall be deemed a denial of a request to inspect or copy the redacted information, except if federal or state law authorizes or requires a public office to make the redaction.

(2) To facilitate broader access to public records, a public office or the person responsible for public records shall organize and maintain public records in a manner that they can be made available for inspection or copying in accordance with division (B) of this section. A
public office also shall have available a copy of its current records retention schedule at a location readily available to the public. If a requester makes an ambiguous or overly broad request or has difficulty in making a request for copies or inspection of public records under this section such that the public office or the person responsible for the requested public record cannot reasonably identify what public records are being requested, the public office or the person responsible for the requested public record may deny the request but shall provide the requester with an opportunity to revise the request by informing the requester of the manner in which records are maintained by the public office and accessed in the ordinary course of the public office’s or person’s duties.

(3) If a request is ultimately denied, in part or in whole, the public office or the person responsible for the requested public record shall provide the requester with an explanation, including legal authority, setting forth why the request was denied. If the initial request was provided in writing, the explanation also shall be provided to the requester in writing. The explanation shall not preclude the public office or the person responsible for the requested public record from relying upon additional reasons or legal authority in defending an action commenced under division (C) of this section.

(4) Unless specifically required or authorized by state or federal law or in accordance with division (B) of this section, no public office or person responsible for public records may limit or condition the availability of public records by requiring disclosure of the requester’s identity or the intended use of the requested public record. Any requirement that the requester disclose the requester’s identity or the intended use of the requested public record constitutes a denial of the request.

(5) A public office or person responsible for public records may ask a requester to make the request in writing, may ask for the requester’s identity, and may inquire about the intended use of the information requested, but may do so only after disclosing to the requester that a written request is not mandatory and that the requester may decline to reveal the requester’s identity or the intended use and when a written request or disclosure of the identity or intended use would benefit the requester by enhancing the ability of the public office or person responsible for public records to identify, locate, or deliver the public records sought by the requester.

(6) If any person chooses to obtain a copy of a public record in accordance with division (B) of this section, the public office or person responsible for the public record may require that person to pay in advance the cost involved in providing the copy of the public record in accordance with the choice made by the person seeking the copy under this division. The public office or the person responsible for the public record shall permit that person to choose to have the public record duplicated upon paper, upon the same medium upon which the public office or person responsible for the public record keeps it, or upon any other medium upon which the public office or person responsible for the public record determines that it reasonably can be duplicated as an integral part of the normal operations of the public office or person responsible for the public record. When the person seeking the copy makes a choice under this division, the public office or person responsible for the public record shall provide a copy of it in accordance with the choice made by the person seeking the copy. Nothing in this section requires a public office or person responsible for the public record to allow the person seeking a copy of the public record to make the copies of the public record.

(7)(a) Upon a request made in accordance with division (B) of this section and subject to division (B)(6) of this section, a public office or person responsible for public records shall transmit a copy of a public record to any person by United States mail or by any other means of delivery or transmission within a reasonable period of time after receiving the request for the copy. The public office or person responsible for the public record may require the person making the request to pay in advance the cost of postage if the copy is transmitted by United States mail or the cost of delivery if the copy is transmitted other than by United States mail, and
to pay in advance the costs incurred for other supplies used in the mailing, delivery, or transmission.

(b) Any public office may adopt a policy and procedures that it will follow in transmitting, within a reasonable period of time after receiving a request, copies of public records by United States mail or by any other means of delivery or transmission pursuant to division (B)(7) of this section. A public office that adopts a policy and procedures under division (B)(7) of this section shall comply with them in performing its duties under that division.

(c) In any policy and procedures adopted under division (B)(7) of this section:

(i) A public office may limit the number of records requested by a person that the office will physically deliver by United States mail or by another delivery service to ten per month, unless the person certifies to the office in writing that the person does not intend to use or forward the requested records, or the information contained in them, for commercial purposes;

(ii) A public office that chooses to provide some or all of its public records on a web site that is fully accessible to and searchable by members of the public at all times, other than during acts of God outside the public office’s control or maintenance, and that charges no fee to search, access, download, or otherwise receive records provided on the web site, may limit to ten per month the number of records requested by a person that the office will deliver in a digital format, unless the requested records are not provided on the web site and unless the person certifies to the office in writing that the person does not intend to use or forward the requested records, or the information contained in them, for commercial purposes.

(iii) For purposes of division (B)(7) of this section, “commercial” shall be narrowly construed and does not include reporting or gathering news, reporting or gathering information to assist citizen oversight or understanding of the operation or activities of government, or nonprofit educational research.

(8) A public office or person responsible for public records is not required to permit a person who is incarcerated pursuant to a criminal conviction or a juvenile adjudication to inspect or to obtain a copy of any public record concerning a criminal investigation or prosecution or concerning what would be a criminal investigation or prosecution if the subject of the investigation or prosecution were an adult, unless the request to inspect or to obtain a copy of the record is for the purpose of acquiring information that is subject to release as a public record under this section and the judge who imposed the sentence or made the adjudication with respect to the person, or the judge’s successor in office, finds that the information sought in the public record is necessary to support what appears to be a justiciable claim of the person.

(9)(a) Upon written request made and signed by a journalist on or after December 16, 1999, a public office, or person responsible for public records, having custody of the records of the agency employing a specified peace officer, parole officer, probation officer, bailiff, prosecuting attorney, assistant prosecuting attorney, correctional employee, community-based correctional facility employee, youth services employee, firefighter, EMT, investigator of the bureau of criminal identification and investigation, or federal law enforcement officer shall disclose to the journalist the address of the actual personal residence of the peace officer, parole officer, probation officer, bailiff, prosecuting attorney, assistant prosecuting attorney, correctional employee, community-based correctional facility employee, youth services employee, firefighter, EMT, investigator of the bureau of criminal identification and investigation, or federal law enforcement officer and, if the peace officer’s, parole officer’s, probation officer’s, bailiff’s, prosecuting attorney’s, assistant prosecuting attorney’s, correctional employee’s, community-based correctional facility employee’s, youth services employee’s, firefighter’s, EMT’s, investigator of the bureau of criminal identification and investigation’s, or federal law enforcement officer’s spouse, former spouse, or child is employed by a public office, the name and address of the employer of the peace officer’s, parole officer’s, probation officer’s, bailiff’s, prosecuting attorney’s, assistant prosecuting attorney’s, correctional employee’s, community-based correctional facility employee’s, youth services employee’s, firefighter’s, EMT’s,
investigator of the bureau of criminal identification and investigation's, or federal law enforcement officer's spouse, former spouse, or child. The request shall include the journalist's name and title and the name and address of the journalist's employer and shall state that disclosure of the information sought would be in the public interest.

(b) Division (B)(9)(a) of this section also applies to journalist requests for customer information maintained by a municipally owned or operated public utility, other than social security numbers and any private financial information such as credit reports, payment methods, credit card numbers, and bank account information.

(c) As used in division (B)(9) of this section, “journalist” means a person engaged in, connected with, or employed by any news medium, including a newspaper, magazine, press association, news agency, or wire service, a radio or television station, or a similar medium, for the purpose of gathering, processing, transmitting, compiling, editing, or disseminating information for the general public.

(C)(1) If a person allegedly is aggrieved by the failure of a public office or the person responsible for public records to promptly prepare a public record and to make it available to the person for inspection in accordance with division (B) of this section or by any other failure of a public office or the person responsible for public records to comply with an obligation in accordance with division (B) of this section, the person allegedly aggrieved may do only one of the following, and not both:

(a) File a complaint with the clerk of the court of claims or the clerk of the court of common pleas under section 2743.75 of the Revised Code;

(b) Commence a mandamus action to obtain a judgment that orders the public office or the person responsible for the public record to comply with division (B) of this section, that awards court costs and reasonable attorney's fees to the person that instituted the mandamus action, and, if applicable, that includes an order fixing statutory damages under division (C)(2) of this section. The mandamus action may be commenced in the court of common pleas of the county in which division (B) of this section allegedly was not complied with, in the supreme court pursuant to its original jurisdiction under Section 2 of Article IV, Ohio Constitution, or in the court of appeals for the appellate district in which division (B) of this section allegedly was not complied with pursuant to its original jurisdiction under Section 3 of Article IV, Ohio Constitution.

(2) If a requester transmits a written request by hand delivery or certified mail to inspect or receive copies of any public record in a manner that fairly describes the public record or class of public records to the public office or person responsible for the requested public records, except as otherwise provided in this section, the requester shall be entitled to recover the amount of statutory damages set forth in this division if a court determines that the public office or the person responsible for public records failed to comply with an obligation in accordance with division (B) of this section.

The amount of statutory damages shall be fixed at one hundred dollars for each business day during which the public office or person responsible for the requested public records failed to comply with an obligation in accordance with division (B) of this section, beginning with the day on which the requester files a mandamus action to recover statutory damages, up to a maximum of one thousand dollars. The award of statutory damages shall not be construed as a penalty, but as compensation for injury arising from lost use of the requested information. The existence of this injury shall be conclusively presumed. The award of statutory damages shall be in addition to all other remedies authorized by this section.

The court may reduce an award of statutory damages or not award statutory damages if the court determines both of the following:

(a) That, based on the ordinary application of statutory law and case law as it existed at the time of the conduct or threatened conduct of the public office or person responsible for the requested public records that allegedly constitutes a failure to comply with an obligation in accordance with division (B) of this section and that was the basis of the mandamus action, a
well-informed public office or person responsible for the requested public records reasonably would believe that the conduct or threatened conduct of the public office or person responsible for the requested public records did not constitute a failure to comply with an obligation in accordance with division (B) of this section;

(b) That a well-informed public office or person responsible for the requested public records reasonably would believe that the conduct or threatened conduct of the public office or person responsible for the requested public records would serve the public policy that underlies the authority that is asserted as permitting that conduct or threatened conduct.

(3) In a mandamus action filed under division (C)(1) of this section, the following apply:

(a)(i) If the court orders the public office or the person responsible for the public record to comply with division (B) of this section, the court shall determine and award to the relator all court costs, which shall be construed as remedial and not punitive.

(ii) If the court makes a determination described in division (C)(3)(b)(iii) of this section, the court shall determine and award to the relator all court costs, which shall be construed as remedial and not punitive.

(b) If the court renders a judgment that orders the public office or the person responsible for the public record to comply with division (B) of this section or if the court determines any of the following, the court may award reasonable attorney's fees to the relator, subject to the provisions of division (C)(4) of this section:

(i) The public office or the person responsible for the public records failed to respond affirmatively or negatively to the public records request in accordance with the time allowed under division (B) of this section.

(ii) The public office or the person responsible for the public records promised to permit the relator to inspect or receive copies of the public records requested within a specified period of time but failed to fulfill that promise within that specified period of time.

(iii) The public office or the person responsible for the public records acted in bad faith when the office or person voluntarily made the public records available to the relator for the first time after the relator commenced the mandamus action, but before the court issued any order concluding whether or not the public office or person was required to comply with division (B) of this section. No discovery may be conducted on the issue of the alleged bad faith of the public office or person responsible for the public records. This division shall not be construed as creating a presumption that the public office or the person responsible for the public records acted in bad faith when the office or person voluntarily made the public records available to the relator for the first time after the relator commenced the mandamus action, but before the court issued any order described in this division.

(c) The court shall not award attorney's fees to the relator if the court determines both of the following:

(i) That, based on the ordinary application of statutory law and case law as it existed at the time of the conduct or threatened conduct of the public office or person responsible for the requested public records that allegedly constitutes a failure to comply with an obligation in accordance with division (B) of this section and that was the basis of the mandamus action, a well-informed public office or person responsible for the requested public records reasonably would believe that the conduct or threatened conduct of the public office or person responsible for the requested public records did not constitute a failure to comply with an obligation in accordance with division (B) of this section;

(ii) That a well-informed public office or person responsible for the requested public records reasonably would believe that the conduct or threatened conduct of the public office or person responsible for the requested public records would serve the public policy that underlies the authority that is asserted as permitting that conduct or threatened conduct.

(4) All of the following apply to any award of reasonable attorney's fees awarded under division (C)(3)(b) of this section:
Chapter 1. General Hospital Provisions
Part I: General Hospital Operations

(a) The fees shall be construed as remedial and not punitive.
(b) The fees awarded shall not exceed the total of the reasonable attorney's fees incurred before the public record was made available to the relator and the fees described in division (C)(4)(c) of this section.
(c) Reasonable attorney's fees shall include reasonable fees incurred to produce proof of the reasonableness and amount of the fees and to otherwise litigate entitlement to the fees.
(d) The court may reduce the amount of fees awarded if the court determines that, given the factual circumstances involved with the specific public records request, an alternative means should have been pursued to more effectively and efficiently resolve the dispute that was subject to the mandamus action filed under division (C)(1) of this section.
(5) If the court does not issue a writ of mandamus under division (C) of this section and the court determines at that time that the bringing of the mandamus action was frivolous conduct as defined in division (A) of section 2323.51 of the Revised Code, the court may award to the public office all court costs, expenses, and reasonable attorney's fees, as determined by the court.

(D) Chapter 1347 of the Revised Code does not limit the provisions of this section.

(E)(1) To ensure that all employees of public offices are appropriately educated about a public office’s obligations under division (B) of this section, all elected officials or their appropriate designees shall attend training approved by the attorney general as provided in section 109.43 of the Revised Code. In addition, all public offices shall adopt a public records policy in compliance with this section for responding to public records requests. In adopting a public records policy under this division, a public office may obtain guidance from the model public records policy developed and provided to the public office by the attorney general under section 109.43 of the Revised Code. Except as otherwise provided in this section, the policy may not limit the number of public records that the public office will make available to a single person, may not limit the number of public records that it will make available during a fixed period of time, and may not establish a fixed period of time before it will respond to a request for inspection or copying of public records, unless that period is less than eight hours.

(2) The public office shall distribute the public records policy adopted by the public office under division (E)(1) of this section to the employee of the public office who is the records custodian or records manager or otherwise has custody of the records of that office. The public office shall require that employee to acknowledge receipt of the copy of the public records policy. The public office shall create a poster that describes its public records policy and shall post the poster in a conspicuous place in the public office and in all locations where the public office has branch offices. The public office may post its public records policy on the internet web site of the public office if the public office maintains an internet web site. A public office that has established a manual or handbook of its general policies and procedures for all employees of the public office shall include the public records policy of the public office in the manual or handbook.

(F)(1) The bureau of motor vehicles may adopt rules pursuant to Chapter 119 of the Revised Code to reasonably limit the number of bulk commercial special extraction requests made by a person for the same records or for updated records during a calendar year. The rules may include provisions for charges to be made for bulk commercial special extraction requests for the actual cost of the bureau, plus special extraction costs, plus ten per cent. The bureau may charge for expenses for redacting information, the release of which is prohibited by law.

(2) As used in division (F)(1) of this section:
   (a) “Actual cost” means the cost of depleted supplies, records storage media costs, actual mailing and alternative delivery costs, or other transmitting costs, and any direct equipment operating and maintenance costs, including actual costs paid to private contractors for copying services.
   (b) “Bulk commercial special extraction request” means a request for copies of a record
for information in a format other than the format already available, or information that cannot be extracted without examination of all items in a records series, class of records, or database by a person who intends to use or forward the copies for surveys, marketing, solicitation, or resale for commercial purposes. “Bulk commercial special extraction request” does not include a request by a person who gives assurance to the bureau that the person making the request does not intend to use or forward the requested copies for surveys, marketing, solicitation, or resale for commercial purposes.

(c) “Commercial” means profit-seeking production, buying, or selling of any good, service, or other product.

d) “Special extraction costs” means the cost of the time spent by the lowest paid employee competent to perform the task, the actual amount paid to outside private contractors employed by the bureau, or the actual cost incurred to create computer programs to make the special extraction. “Special extraction costs” include any charges paid to a public agency for computer or records services.

(3) For purposes of divisions (F)(1) and (2) of this section, “surveys, marketing, solicitation, or resale for commercial purposes” shall be narrowly construed and does not include reporting or gathering news, reporting or gathering information to assist citizen oversight or understanding of the operation or activities of government, or nonprofit educational research.

(G) A request by a defendant, counsel of a defendant, or any agent of a defendant in a criminal action that public records related to that action be made available under this section shall be considered a demand for discovery pursuant to the Criminal Rules, except to the extent that the Criminal Rules plainly indicate a contrary intent. The defendant, counsel of the defendant, or agent of the defendant making a request under this division shall serve a copy of the request on the prosecuting attorney, director of law, or other chief legal officer responsible for prosecuting the action.

149.431 Governmental funds; financial records requirement; patient and client record confidentiality.

(A) Except as provided in sections 9.833, 2744.081, and 3345.203 of the Revised Code, any governmental entity or agency and any nonprofit corporation or association, except a corporation organized pursuant to Chapter 1719 of the Revised Code prior to January 1, 1980 or organized pursuant to Chapter 3941 of the Revised Code, that enters into a contract or other agreement with the federal government, a unit of state government, or a political subdivision or taxing unit of this state for the provision of services shall keep accurate and complete financial records of any moneys expended in relation to the performance of the services pursuant to such contract or agreement according to generally accepted accounting principles. Such contract or agreement and such financial records shall be deemed to be public records as defined in division (A)(1) of section 149.43 of the Revised Code and are subject to the requirements of division (B) of that section, except that:

(1) Any information directly or indirectly identifying a present or former individual patient or client or such an individual patient's or client's diagnosis, prognosis, or medical treatment, treatment for a mental or emotional disorder, treatment for a developmental disability, treatment for drug abuse or alcoholism, or counseling for personal or social problems is not a public record;

(2) If disclosure of the contract or agreement or financial records is requested at a time when confidential professional services are being provided to a patient or client whose confidentiality might be violated if disclosure were made at that time, disclosure may be deferred if reasonable times are established when the contract or agreement or financial records will be disclosed.

(3) Any nonprofit corporation or association that receives both public and private funds in
fulfillment of any such contract or other agreement is not required to keep as public records the financial records of any private funds expended in relation to the performance of services pursuant to the contract or agreement.

(B) Any nonprofit corporation or association that receives more than fifty per cent of its gross receipts excluding moneys received pursuant to Title XVIII of the “Social Security Act,” 49 Stat. 620 (1935), 42 U.S.C. 301, as amended, in a calendar year in fulfillment of a contract or other agreement for services with a governmental entity shall maintain information setting forth the compensation of any individual serving the nonprofit corporation or association in an executive or administrative capacity. Such information shall be deemed to be public records as defined in division (A)(1) of section 149.43 of the Revised Code and is subject to the requirements of division (B) of that section.

Nothing in this section shall be construed to otherwise limit the provisions of section 149.43 of the Revised Code.

341.192 County and state to pay prisoner expenses.

(A) As used in this section:

(1) “Jail” means a county jail, or a multicounty, municipal-county, or multicounty-municipal correctional center.

(2) “Medical provider” means a physician, hospital, laboratory, pharmacy, or other health care provider that is not employed by or under contract to a county, municipal corporation, township, the department of youth services, or the department of rehabilitation and correction to provide medical services to persons confined in a jail or state correctional institution, or is in the custody of a law enforcement officer.

(3) “Necessary care” means medical care of a nonelective nature that cannot be postponed until after the period of confinement of a person who is confined in a jail or state correctional institution, or is in the custody of a law enforcement officer without endangering the life or health of the person.

(B) If a physician employed by or under contract to a county, municipal corporation, township, the department of youth services, or the department of rehabilitation and correction to provide medical services to persons confined in a jail or state correctional institution determines that a person who is confined in the jail or state correctional institution or who is in the custody of a law enforcement officer prior to the person's confinement in a jail or state correctional institution requires necessary care that the physician cannot provide, the necessary care shall be provided by a medical provider. The county, municipal corporation, township, the department of youth services, or the department of rehabilitation and correction shall pay a medical provider for necessary care an amount not exceeding the authorized reimbursement rate for the same service established by the department of medicaid under the medicaid program.

749.34 Municipal hospital report to legislative authority.

On the first Monday in January of each year, the board of hospital trustees shall make a report to the legislative authority of the municipal corporation of its proceedings, with a detailed statement of its receipts and expenditures during the year. The board shall also, at the proper time, submit to the legislative authority a detailed estimate of the amount necessary to maintain and improve such hospital for the ensuing year.

753.02 Municipal authorities to pay prisoner expenses

(A) The legislative authority of a municipal corporation shall provide by ordinance for sustaining all persons sentenced to or confined in a prison or station house at the expense of
the municipal corporation, and in counties where prisons or station houses are in quarters leased from the board of county commissioners, may contract with the board for the care and maintenance of those persons by the sheriff or other person charged with the care and maintenance of county prisoners. On the presentation of bills for food, sustenance, and necessary supplies, to the proper officer, certified by the person whom the legislative authority designates, the officer shall audit the bills under the rules prescribed by the legislative authority, and draw the officer's order on the treasurer of the municipal corporation in favor of the person presenting the bill.

(B) Pursuant to section 2929.37 of the Revised Code, the legislative authority of the municipal corporation may require a person who was convicted of an offense and who is confined in a prison or station house as provided in division (A) of this section, or a person who was convicted of an offense and who is confined in the county jail as provided in section 1905.35 of the Revised Code, to reimburse the municipal corporation for its expenses incurred by reason of the person’s confinement.

(C) Notwithstanding any contrary provision in this section or section 2929.18, 2929.28, or 2929.37 of the Revised Code, the legislative authority of the municipal corporation may establish a policy that complies with section 2929.38 of the Revised Code and that requires any person who is not indigent and who is confined in a prison or station house to pay a reception fee, a fee for any medical treatment or service requested by and provided to that person, or the fee for a random drug test assessed under division (E) of section 753.33 of the Revised Code.

(D) If a person who has been convicted of or pleaded guilty to an offense is sentenced to a term of imprisonment in a prison or station house as described in division (A) of this section, or if a person who has been arrested for an offense, and who has been denied bail or has had bail set and has not been released on bail is confined in a prison or station house as described in division (A) of this section pending trial, at the time of reception and at other times the person in charge of the operation of the prison or station house determines to be appropriate, the person in charge of the operation of the prison or station house may cause the convicted or accused offender to be examined and tested for tuberculosis, HIV infection, hepatitis, including, but not limited to, hepatitis A, B, and C, and other contagious diseases. The person in charge of the operation of the prison or station house may cause a convicted or accused offender in the prison or station house who refuses to be tested or treated for tuberculosis, HIV infection, hepatitis, including, but not limited to, hepatitis A, B, and C, or another contagious disease to be tested and treated involuntarily.

**1751.60 Subscribee and enrollee liability to providers or facilities.**

(A) Except as provided for in divisions (E) and (F) of this section, every provider or health care facility that contracts with a health insuring corporation to provide health care services to the health insuring corporation's enrollees or subscribers shall seek compensation for covered services solely from the health insuring corporation and not, under any circumstances, from the enrollees or subscribers, except for approved copayments and deductibles.

(B) No subscriber or enrollee of a health insuring corporation is liable to any contracting provider or health care facility for the cost of any covered health care services, if the subscriber or enrollee has acted in accordance with the evidence of coverage.

(C) Except as provided for in divisions (E) and (F) of this section, every contract between a health insuring corporation and provider or health care facility shall contain a provision approved by the superintendent of insurance requiring the provider or health care facility to seek compensation solely from the health insuring corporation and not, under any circumstances, from the subscriber or enrollee, except for approved copayments and deductibles.
Chapter 1. General Hospital Provisions
Part I: General Hospital Operations

(D) Nothing in this section shall be construed as preventing a provider or health care facility from billing the enrollee or subscriber of a health insuring corporation for noncovered services.

(E) Upon application by a health insuring corporation and a provider or health care facility, the superintendent may waive the requirements of divisions (A) and (C) of this section when, in addition to the reserve requirements contained in section 1751.28 of the Revised Code, the health insuring corporation provides sufficient assurances to the superintendent that the provider or health care facility has been provided with financial guarantees. No waiver of the requirements of divisions (A) and (C) of this section is effective as to enrollees or subscribers for whom the health insuring corporation is compensated under a provider agreement or risk contract entered into under the medicaid program.

(F) The requirements of divisions (A) to (C) of this section apply only to health care services provided to an enrollee or subscriber prior to the effective date of a termination of a contract between the health insuring corporation and the provider or health care facility.

3701.351 Standards, procedures, and privileges for hospital staff; discrimination prohibited.

(A) The governing body of every hospital shall set standards and procedures to be applied by the hospital and its medical staff in considering and acting upon applications for staff membership or professional privileges. These standards and procedures shall be available for public inspection.

(B) The governing body of any hospital, in considering and acting upon applications for staff membership or professional privileges within the scope of the applicants' respective licensures, shall not discriminate against a qualified person solely on the basis of whether that person is certified to practice medicine, osteopathic medicine, or podiatry, is licensed to practice dentistry or psychology, or is licensed to practice nursing as an advanced practice registered nurse. Staff membership or professional privileges shall be considered and acted on in accordance with standards and procedures established under division (A) of this section. This section does not permit a psychologist to admit a patient to a hospital in violation of section 3727.06 of the Revised Code.

(C) The governing body of any hospital that is licensed to provide maternity services, in considering and acting upon applications for clinical privileges, shall not discriminate against a qualified person solely on the basis that the person is authorized to practice nurse-midwifery. An application from a certified nurse-midwife who is not employed by the hospital shall contain the name of a physician member of the hospital's medical staff who holds clinical privileges in obstetrics at that hospital and who has agreed to be the collaborating physician for the applicant in accordance with section 4723.43 of the Revised Code.

(D) Any person may apply to the court of common pleas for temporary or permanent injunctions restraining a violation of division (A), (B), or (C) of this section. This action is an additional remedy not dependent on the adequacy of the remedy at law.

(E)(1) If a hospital does not provide or permit the provision of any diagnostic or treatment service for mental or emotional disorders or any other service that may be legally performed by a psychologist licensed under Chapter 4732 of the Revised Code, this section does not require the hospital to provide or permit the provision of any such service and the hospital shall be exempt from requirements of this section pertaining to psychologists.

(2) This section does not impair the right of a hospital to enter into an employment, personal service, or any other kind of contract with a licensed psychologist, upon any such terms as the parties may mutually agree, for the provision of any service that may be legally performed by a licensed psychologist.
3701.073 Critical access hospital.

(A) The department of health is hereby designated as the state agency responsible for administering the medicare rural hospital flexibility program, as established in 42 U.S.C. 1395i-4, as amended.

(B) The director of health shall designate as a critical access hospital a hospital registered as an acute care hospital with the department under section 3701.07 of the Revised Code if the hospital meets the following requirements:

1. Has not more than twenty-five acute care and swing beds in use at any time for the furnishing of extended care or acute care inpatient services;
2. Has a length of stay not more than ninety-six hours per patient, on an annual average basis;
3. Provides inpatient, outpatient, emergency, laboratory, radiology, and twenty-four hour emergency care services;
4. Has network agreements in place for patient referral and transfer, a communication system for telemetry systems, electronic sharing of patient data, provision for emergency and non-emergency transportation, and assures credentialing and quality assurance;
5. Was certified as a critical access hospital by the centers for medicare and medicaid services between January 1, 2001, and December 31, 2005, or is located in a rural area as identified below:
   a. An area within an Ohio metropolitan area designated as a rural area by the United States department of health and human services, office of rural health policy, in accordance with 42 C.F.R. 412.103 regarding rural urban commuting area codes four through ten in effect on the effective date of this section;
   b. A non-metropolitan county as designated in United States office of management and budget bulletin no. 93-17, June 30, 1993, and its attachments;
   c. A rural zip code within a metropolitan county as designated in United States office of management and budget bulletin no. 93-17, June 30, 1993, and its attachments.

3717.41 Retail food service operation; license requirement.

Except as provided in section 3717.42 of the Revised Code, no person or government entity shall operate a food service operation without a license. A separate license is required for each food service operation a person or government entity operates.

No person or government entity shall fail to comply with any other requirement of this chapter applicable to food service operations.

4928.112 Hospital priority in power restoration.

(A) In the event of an interruption of electric service during a period of emergency or disaster, an electric distribution utility’s service restoration plan shall give priority to hospitals that are customers of the electric distribution utility.

(B) If requested by a hospital that is its customer, an electric distribution utility shall confer at least biennially with that hospital regarding power quality issues and concerns related to the utility’s facilities, including voltage sags, spikes, and harmonic disturbances, in an effort to minimize those events or their impact on the hospital.

(C) The public utilities commission shall adopt rules to carry out this section.

Part II. Pharmacies and Controlled Substances

[Editor’s Note: Additional statutes and regulations governing pharmacists and pharmacies are
Chapter 1. General Hospital Provisions
Part II. Pharmacies and Controlled Substances

available at [http://pharmacy.ohio.gov/](http://pharmacy.ohio.gov/)

3719.05 Pharmacist dispensing rules; sale of discontinued stock.

(A) A pharmacist may dispense controlled substances to any person upon a prescription issued in accordance with section 3719.06 of the Revised Code. When dispensing controlled substances, a pharmacist shall act in accordance with rules adopted by the state board of pharmacy and in accordance with the following:

1. The prescription shall be retained on file by the owner of the pharmacy in which it is filled for a period of three years, so as to be readily accessible for inspection by any public officer or employee engaged in the enforcement of Chapter 2925, 3719, or 4729 of the Revised Code.

2. Each oral prescription shall be recorded by the pharmacist and the record shall show the name and address of the patient for whom, or of the owner of the animal for which the controlled substance is dispensed, the full name, address, and registry number under the federal drug abuse control laws of the prescriber, the name of the controlled substance dispensed, the amount dispensed, and the date when dispensed. The record shall be retained on file by the owner of the pharmacy in which it is filled for a period of three years.

3. A schedule II controlled substance shall be dispensed only upon a written prescription, except that it may be dispensed upon an oral prescription in emergency situations as provided in the federal drug abuse control laws.

4. A prescription for a schedule II controlled substance shall not be refilled.

5. Prescriptions for schedule III and IV controlled substances may be refilled not more than five times in a six-month period from the date the prescription is given by a prescriber.

(B) The legal owner of any stock of schedule II controlled substances in a pharmacy, upon discontinuance of dealing in those drugs, may sell the stock to a manufacturer, wholesaler, or owner of a pharmacy registered under the federal drug abuse control laws pursuant to an official written order.

3719.061 Prescribing opioids to minors.

(A)(1) As used in this section:

(a) “Another adult authorized to consent to the minor’s medical treatment” means an adult to whom a minor’s parent or guardian has given written authorization to consent to the minor’s medical treatment.

(b) “Medical emergency” means a situation that in a prescriber’s good faith medical judgment creates an immediate threat of serious risk to the life or physical health of a minor.

(c) “Minor” means an individual under eighteen years of age who is not emancipated.

(2) For purposes of this section, an individual under eighteen years of age is emancipated only if the individual has married, has entered the armed services of the United States, has become employed and self-sustaining, or otherwise has become independent from the care and control of the individual’s parent, guardian, or custodian.

(B) Except as provided in division (C) of this section, before issuing for a minor the first prescription in a single course of treatment for an opioid analgesic, regardless of whether the dosage is modified during that course of treatment, a prescriber shall do all of the following:

1. As part of the prescriber’s examination of the minor, assess whether the minor has ever suffered, or is currently suffering, from mental health or substance abuse disorders and whether the minor has taken or is currently taking prescription drugs for treatment of those disorders;

2. Discuss with the minor and the minor’s parent, guardian, or another adult authorized to consent to the minor’s medical treatment all of the following:
(a) The risks of addiction and overdose associated with opioid analgesics;
(b) The increased risk of addiction to controlled substances of individuals suffering from both mental and substance abuse disorders;
(c) The dangers of taking opioid analgesics with benzodiazepines, alcohol, or other central nervous system depressants;
(d) Any other information in the patient counseling information section of the labeling for the opioid analgesic required under 21 C.F.R. 201.57(c)(18).

(3) Obtain written consent for the prescription from the minor’s parent, guardian, or, subject to division (E) of this section, another adult authorized to consent to the minor’s medical treatment.

The prescriber shall record the consent on a form, which shall be known as the “Start Talking!” consent form. The form shall be separate from any other document the prescriber uses to obtain informed consent for other treatment provided to the minor. The form shall contain all of the following:

(a) The name and quantity of the opioid analgesic being prescribed and the amount of the initial dose;
(b) A statement indicating that a controlled substance is a drug or other substance that the United States drug enforcement administration has identified as having a potential for abuse;
(c) A statement certifying that the prescriber discussed with the minor and the minor’s parent, guardian, or another adult authorized to consent to the minor’s medical treatment the matters described in division (B)(2) of this section;
(d) The number of refills, if any, authorized by the prescription;
(e) The signature of the minor’s parent, guardian, or another adult authorized to consent to the minor’s medical treatment and the date of signing.

(C)(1) The requirements in division (B) of this section do not apply if the minor’s treatment with an opioid analgesic meets any of the following criteria:
(a) The treatment is associated with or incident to a medical emergency.
(b) The treatment is associated with or incident to surgery, regardless of whether the surgery is performed on an inpatient or outpatient basis.
(c) In the prescriber’s professional judgment, fulfilling the requirements of division (B) of this section with respect to the minor’s treatment would be a detriment to the minor’s health or safety.
(d) Except as provided in division (D) of this section, the treatment is rendered in a hospital, emergency facility, ambulatory surgical facility, nursing home, pediatric respite care program, residential care facility, freestanding rehabilitation facility, or similar institutional facility.

(2) The requirements in division (B) of this section do not apply to a prescription for an opioid analgesic that a prescriber issues to a minor at the time of discharge from a facility or other location described in division (C)(1)(d) of this section.

(D) The exemption in division (C)(1)(d) of this section does not apply to treatment rendered in a prescriber’s office that is located on the premises of or adjacent to a facility or other location described in that division.

(E) If the individual who signs the consent form required by division (B)(3) of this section is another adult authorized to consent to the minor’s medical treatment, the prescriber shall prescribe not more than a single, seventy-two-hour supply and indicate on the prescription the quantity that is to be dispensed pursuant to the prescription.

(F) A signed “Start Talking!” consent form obtained under this section shall be maintained in the minor’s medical record.
3719.07 Controlled substances handled; records.

(A) As used in this section, “description” means the dosage form, strength, and quantity, and the brand name, if any, or the generic name, of a drug or controlled substance.

(B)(1) Every licensed health professional authorized to prescribe drugs shall keep a record of all controlled substances received and a record of all controlled substances administered, dispensed, or used other than by prescription. Every other person, except a pharmacist or a manufacturer, wholesaler, or other person licensed under section 4729.52 of the Revised Code, who is authorized to purchase and use controlled substances shall keep a record of all controlled substances purchased and used other than by prescription. The records shall be kept in accordance with division (C)(1) of this section.

(2) Manufacturers, wholesalers, and other persons licensed under section 4729.52 of the Revised Code shall keep records of all controlled substances compounded, mixed, cultivated, grown, or by any other process produced or prepared by them, and of all controlled substances received or sold by them. The records shall be kept in accordance with division (C)(2) of this section.

(3) Every category III terminal distributor of dangerous drugs shall keep records of all controlled substances received or sold. The records shall be kept in accordance with division (C)(3) of this section.

(4) Every person who sells or purchases for resale schedule V controlled substances exempted by section 3719.15 of the Revised Code shall keep a record showing the quantities and kinds thereof received or sold. The records shall be kept in accordance with divisions (C)(1), (2), and (3) of this section.

(C)(1) The records required by divisions (B)(1) and (4) of this section shall contain the following:

(a) The description of all controlled substances received, the name and address of the person from whom received, and the date of receipt;

(b) The description of controlled substances administered, dispensed, purchased, sold, or used; the date of administering, dispensing, purchasing, selling, or using; the name and address of the person to whom, or for whose use, or the owner and species of the animal for which the controlled substance was administered, dispensed, purchased, sold, or used.

(2) The records required by divisions (B)(2) and (4) of this section shall contain the following:

(a) The description of all controlled substances produced or prepared, the name and address of the person from whom received, and the date of receipt;

(b) The description of controlled substances sold, the name and address of each person to whom a controlled substance is sold, the amount of the controlled substance sold to each person, and the date it was sold.

(3) The records required by divisions (B)(3) and (4) of this section shall contain the following:

(a) The description of controlled substances received, the name and address of the person from whom controlled substances are received, and the date of receipt;

(b) The name and place of residence of each person to whom controlled substances, including those otherwise exempted by section 3719.15 of the Revised Code, are sold, the description of the controlled substances sold to each person, and the date the controlled substances are sold to each person.

(D) Every record required by this section shall be kept for a period of three years. The keeping of a record required by or under the federal drug abuse control laws, containing substantially the same information as specified in this section, constitutes compliance with this section.

Every person who purchases for resale or who sells controlled substance preparations...
exempted by section 3719.15 of the Revised Code shall keep the record required by or under the federal drug abuse control laws.

3719.12 Conviction; reporting suspension or revocation of license.

Unless a report has been made pursuant to section 2929.42 of the Revised Code, on the conviction of a manufacturer, wholesaler, terminal distributor of dangerous drugs, pharmacist, pharmacy intern, dentist, chiropractor, physician, podiatrist, registered nurse, licensed practical nurse, physician assistant, optometrist, or veterinarian of the violation of this chapter or Chapter 2925 of the Revised Code, the prosecutor in the case promptly shall report the conviction to the board that licensed, certified, or registered the person to practice or to carry on business. The responsible board shall provide forms to the prosecutor. Within thirty days of the receipt of this information, the board shall initiate action in accordance with Chapter 119 of the Revised Code to determine whether to suspend or revoke the person's license, certificate, or registration.

3719.121 Controlled substance; suspension of licenses; registrations of addicts.

(A) Except as otherwise provided in section 4723.28, 4723.35, 4730.25, 4731.22, 4734.39, or 4734.41 of the Revised Code, the license, certificate, or registration of any dentist, chiropractor, physician, podiatrist, registered nurse, advanced practice registered nurse, licensed practical nurse, physician assistant, pharmacist, pharmacy intern, pharmacy technician trainee, registered pharmacy technician, certified pharmacy technician, optometrist, or veterinarian who is or becomes addicted to the use of controlled substances shall be suspended by the board that authorized the person's license, certificate, or registration until the person offers satisfactory proof to the board that the person no longer is addicted to the use of controlled substances.

(B) If the board under which a person has been issued a license, certificate, or evidence of registration determines that there is clear and convincing evidence that continuation of the person's professional practice or method of administering, prescribing, preparing, distributing, dispensing, or personally furnishing controlled substances or other dangerous drugs presents a danger of immediate and serious harm to others, the board may suspend the person's license, certificate, or registration without a hearing. Except as otherwise provided in sections 4715.30, 4723.281, 4729.16, 4730.25, 4731.22, and 4734.36 of the Revised Code, the board shall follow the procedure for suspension without a prior hearing in section 119.07 of the Revised Code. The suspension shall remain in effect, unless removed by the board, until the board's final adjudication order becomes effective, except that if the board does not issue its final adjudication order within ninety days after the hearing, the suspension shall be void on the ninetieth day after the hearing.

(C) On receiving notification pursuant to section 2929.42 or 3719.12 of the Revised Code, the board under which a person has been issued a license, certificate, or evidence of registration immediately shall suspend the license, certificate, or registration of that person on a plea of guilty to, a finding by a jury or court of the person's guilt of, or conviction of a felony drug abuse offense; a finding by a court of the person's eligibility for intervention in lieu of conviction; a plea of guilty to, or a finding by a jury or court of the person's guilt of, or the person's conviction of an offense in another jurisdiction that is essentially the same as a felony drug abuse offense; or a finding by a court of the person's eligibility for treatment or intervention in lieu of conviction in another jurisdiction. The board shall notify the holder of the license, certificate, or registration of the suspension, which shall remain in effect until the board holds an adjudicatory hearing under Chapter 119 of the Revised Code.
Chapter 1. General Hospital Provisions
Part II. Pharmacies and Controlled Substances

3719.172 Handling hypodermics; rules.

(A) Possession of a hypodermic is authorized for the following:
   (1) A manufacturer or distributor of, or dealer in, hypodermics or medication packaged in hypodermics, and any authorized agent or employee of that manufacturer, distributor, or dealer, in the regular course of business;
   (2) A terminal distributor of dangerous drugs, in the regular course of business;
   (3) A person authorized to administer injections, in the regular course of the person's profession or employment;
   (4) A person, when the hypodermic was lawfully obtained and is kept and used for the purpose of self-administration of insulin or other drug prescribed for the treatment of disease by a licensed health professional authorized to prescribe drugs;
   (5) A person whose use of a hypodermic is for legal research, clinical, educational, or medicinal purposes;
   (6) A farmer, for the lawful administration of a drug to an animal;
   (7) A person whose use of a hypodermic is for lawful professional, mechanical, trade, or craft purposes.

(B) No manufacturer or distributor of, or dealer in, hypodermics or medication packaged in hypodermics, or their authorized agents or employees, and no terminal distributor of dangerous drugs, shall display any hypodermic for sale. No person authorized to possess a hypodermic pursuant to division (A) of this section shall negligently fail to take reasonable precautions to prevent any hypodermic in the person's possession from theft or acquisition by any unauthorized person.

(C) No person other than one of the following shall sell or furnish a hypodermic to another person:
   (1) A manufacturer or distributor of, or dealer in, hypodermics or medication packaged in hypodermics, or their authorized agents or employees;
   (2) A terminal distributor of dangerous drugs;
   (3) A person under the direct supervision of a pharmacist;
   (4) A licensed health professional authorized to prescribe drugs, acting in the regular course of business and as permitted by law;
   (5) An individual who holds a current license, certificate, or registration issued under Title 47 of the Revised Code and has been certified to conduct diabetes education by a national certifying body specified in rules adopted by the state board of pharmacy under section 4729.68 of the Revised Code, but only if diabetes education is within the individual's scope of practice under statutes and rules regulating the individual's profession.

(D) No person shall sell or furnish a hypodermic to another whom the person knows or has reasonable cause to believe is not authorized by division (A) of this section to possess a hypodermic.

3719.27 Inspecting files and records upon written request.

(A) Persons required by Chapter 3719 of the Revised Code to keep files or records shall, upon the written request of an officer or employee designated by the state board of pharmacy, make such files or records available to such officer or employee, at all reasonable hours, for inspection and copying, and accord to such officer or employee full opportunity to check the correctness of such files or records, including opportunity to make inventory of all stocks of controlled substances on hand. No person shall fail to make such files or records available or to accord such opportunity to check their correctness.

(B) Persons required by Chapter 3719 of the Revised Code to keep files or records shall, upon the written request of an employee designated by the director of mental health and
addiction services, make such files or records available to the employee for the purpose of section 5119.367 of the Revised Code, at all reasonable hours, for inspection and copying, and accord to such employee full opportunity to check the correctness of such files or records. No person shall fail to make such files or records available or to accord such opportunity to check their correctness.

3719.33 Labeling poisons for delivery or sale.

No person shall sell or deliver to another a substance named in section 3719.32 of the Revised Code without having first learned by due inquiry that such person is aware of the poisonous character of such substance and that it is desired for a lawful purpose; or without plainly labeling "poison," and the names of two or more antidotes therefor, upon the box, bottle, or package containing it; or deliver such substance without recording in a book kept for the purpose, the name thereof, the quantity delivered, the purpose for which it is alleged to be used, the date of its delivery, the name and address of the purchaser, and the name of the dispenser; or fail to preserve said book for five years and submit it at all times for inspection to proper officers of the law.

3719.81 Drug samples.

(A) As used in this section, "sample drug" has the same meaning as in section 2925.01 of the Revised Code.

(B) A person may furnish another a sample drug, if all of the following apply:

(1) The sample drug is furnished free of charge by a manufacturer, manufacturer's representative, or wholesale dealer in pharmaceuticals to a licensed health professional authorized to prescribe drugs, or is furnished free of charge by such a professional to a patient for use as medication;

(2) The sample drug is in the original container in which it was placed by the manufacturer, and the container is plainly marked as a sample;

(3) Prior to its being furnished, the sample drug has been stored under the proper conditions to prevent its deterioration or contamination;

(4) If the sample drug is of a type which deteriorates with time, the sample container is plainly marked with the date beyond which the sample drug is unsafe to use, and the date has not expired on the sample furnished. Compliance with the labeling requirements of the "Federal Food, Drug, and Cosmetic Act," 52 Stat. 1040 (1938), 21 U.S.C.A. 301, as amended, shall be deemed compliance with this section.

(5) The sample drug is distributed, stored, or discarded in such a way that the sample drug may not be acquired or used by any unauthorized person, or by any person, including a child, for whom it may present a health or safety hazard.

(C) Division (B) of this section does not do any of the following:

(1) Apply to or restrict the furnishing of any sample of a nonnarcotic substance if the substance may, under the "Federal Food, Drug, and Cosmetic Act" and under the laws of this state, otherwise be lawfully sold over the counter without a prescription;

(2) Authorize a licensed health professional authorized to prescribe drugs who is a clinical nurse specialist, certified nurse-midwife, certified nurse practitioner, optometrist, or physician assistant to furnish a sample drug that is not a drug the professional is authorized to prescribe.

(3) Prohibit a licensed health professional authorized to prescribe drugs, manufacturer of dangerous drugs, wholesale distributor of dangerous drugs, or representative of a manufacturer of dangerous drugs from furnishing a sample drug to a charitable pharmacy in accordance with section 3719.811 of the Revised Code.
(4) Prohibit a pharmacist working, whether or not for compensation, in a charitable pharmacy from dispensing a sample drug to a person in accordance with section 3719.811 of the Revised Code.

(D) The state board of pharmacy shall, in accordance with Chapter 119 of the Revised Code, adopt rules as necessary to give effect to this section.

4729.01 Pharmacist scope of practice; immunizations.

As used in this chapter:
(A) “Pharmacy,” except when used in a context that refers to the practice of pharmacy, means any area, room, rooms, place of business, department, or portion of any of the foregoing where the practice of pharmacy is conducted.

(B) “Practice of pharmacy” means providing pharmacist care requiring specialized knowledge, judgment, and skill derived from the principles of biological, chemical, behavioral, social, pharmaceutical, and clinical sciences. As used in this division, “pharmacist care” includes the following:

(1) Interpreting prescriptions;
(2) Dispensing drugs and drug therapy related devices;
(3) Compounding drugs;
(4) Counseling individuals with regard to their drug therapy, recommending drug therapy related devices, and assisting in the selection of drugs and appliances for treatment of common diseases and injuries and providing instruction in the proper use of the drugs and appliances;
(5) Performing drug regimen reviews with individuals by discussing all of the drugs that the individual is taking and explaining the interactions of the drugs;
(6) Performing drug utilization reviews with licensed health professionals authorized to prescribe drugs when the pharmacist determines that an individual with a prescription has a drug regimen that warrants additional discussion with the prescriber;
(7) Advising an individual and the health care professionals treating an individual with regard to the individual's drug therapy;
(8) Acting pursuant to a consult agreement with one or more physicians authorized under Chapter 4731 of the Revised Code to practice medicine and surgery or osteopathic medicine and surgery, if an agreement has been established;
(9) Engaging in the administration of immunizations to the extent authorized by section 4729.41 of the Revised Code;
(10) Engaging in the administration of drugs to the extent authorized by section 4729.45 of the Revised Code.

(C) “Compounding” means the preparation, mixing, assembling, packaging, and labeling of one or more drugs in any of the following circumstances:

(1) Pursuant to a prescription issued by a licensed health professional authorized to prescribe drugs;
(2) Pursuant to the modification of a prescription made in accordance with a consult agreement;
(3) As an incident to research, teaching activities, or chemical analysis;
(4) In anticipation of orders for drugs pursuant to prescriptions, based on routine, regularly observed dispensing patterns;
(5) Pursuant to a request made by a licensed health professional authorized to prescribe drugs for a drug that is to be used by the professional for the purpose of direct administration to patients in the course of the professional's practice, if all of the following apply:

(a) At the time the request is made, the drug is not commercially available regardless of the reason that the drug is not available, including the absence of a manufacturer for the drug or the lack of a readily available supply of the drug from a manufacturer.
(b) A limited quantity of the drug is compounded and provided to the professional.
(c) The drug is compounded and provided to the professional as an occasional exception to the normal practice of dispensing drugs pursuant to patient-specific prescriptions.
(D) “Consult agreement” means an agreement that has been entered into under section 4729.39 of the Revised Code.
(E) “Drug” means:
(1) Any article recognized in the United States pharmacopoeia and national formulary, or any supplement to them, intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease in humans or animals;
(2) Any other article intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease in humans or animals;
(3) Any article, other than food, intended to affect the structure or any function of the body of humans or animals;
(4) Any article intended for use as a component of any article specified in division (E)(1), (2), or (3) of this section; but does not include devices or their components, parts, or accessories.
(F) “Dangerous drug” means any of the following:
(a) Under the “Federal Food, Drug, and Cosmetic Act,” 52 Stat. 1040 (1938), 21 U.S.C.A. 301, as amended, the drug is required to bear a label containing the legend “Caution: Federal law prohibits dispensing without prescription” or “Caution: Federal law restricts this drug to use by or on the order of a licensed veterinarian” or any similar restrictive statement, or the drug may be dispensed only upon a prescription;
(b) Under Chapter 3715 or 3719 of the Revised Code, the drug may be dispensed only upon a prescription.
(2) Any drug that contains a schedule V controlled substance and that is exempt from Chapter 3719 of the Revised Code or to which that chapter does not apply;
(3) Any drug intended for administration by injection into the human body other than through a natural orifice of the human body;
(4) Any drug that is a biological product, as defined in section 3715.01 of the Revised Code.
(G) “Federal drug abuse control laws” has the same meaning as in section 3719.01 of the Revised Code.
(H) “Prescription” means all of the following:
(1) A written, electronic, or oral order for drugs or combinations or mixtures of drugs to be used by a particular individual or for treating a particular animal, issued by a licensed health professional authorized to prescribe drugs;
(2) For purposes of sections 2925.61, 4723.488, 4729.44, 4730.431, and 4731.94 of the Revised Code, a written, electronic, or oral order for naloxone issued to and in the name of a family member, friend, or other individual in a position to assist an individual who is at risk of experiencing an opioid-related overdose.
(3) For purposes of sections 4723.4810, 4729.282, 4730.432, and 4731.93 of the Revised Code, a written, electronic, or oral order for a drug to treat chlamydia, gonorrhea, or trichomoniasis issued to and in the name of a patient who is not the intended user of the drug but is the sexual partner of the intended user;
(4) For purposes of sections 3313.7110, 3313.7111, 3314.143, 3326.28, 3328.29, 4723.483, 4729.88, 4730.433, 4731.96, and 5101.76 of the Revised Code, a written, electronic, or oral order for an epinephrine autoinjector issued to and in the name of a school, school district, or camp;
(5) For purposes of Chapter 3728 and sections 4723.483, 4729.88, 4730.433, and 4731.96 of the Revised Code, a written, electronic, or oral order for an epinephrine autoinjector...
issued to and in the name of a qualified entity, as defined in section 3728.01 of the Revised Code.

(I) “Licensed health professional authorized to prescribe drugs” or “prescriber” means an individual who is authorized by law to prescribe drugs or dangerous drugs or drug therapy related devices in the course of the individual’s professional practice, including only the following:

(1) A dentist licensed under Chapter 4715 of the Revised Code;
(2) A clinical nurse specialist, certified nurse-midwife, or certified nurse practitioner who holds a current, valid license to practice nursing as an advanced practice registered nurse issued under Chapter 4723 of the Revised Code;
(3) An optometrist licensed under Chapter 4725 of the Revised Code to practice optometry under a therapeutic pharmaceutical agents certificate;
(4) A physician authorized under Chapter 4731 of the Revised Code to practice medicine and surgery, osteopathic medicine and surgery, or podiatric medicine and surgery;
(5) A physician assistant who holds a license to practice as a physician assistant issued under Chapter 4730 of the Revised Code, holds a valid prescriber number issued by the state medical board, and has been granted physician-delegated prescriptive authority;
(6) A veterinarian licensed under Chapter 4741 of the Revised Code.

(J) “Sale” or “sell” includes any transaction made by any person, whether as principal proprietor, agent, or employee, to do or offer to do any of the following: deliver, distribute, broker, exchange, gift or otherwise give away, or transfer, whether the transfer is by passage of title, physical movement, or both.

(K) “Wholesale sale” and “sale at wholesale” mean any sale in which the purpose of the purchaser is to resell the article purchased or received by the purchaser.

(L) “Retail sale” and “sale at retail” mean any sale other than a wholesale sale or sale at wholesale.

(M) “Retail seller” means any person that sells any dangerous drug to consumers without assuming control over and responsibility for its administration. Mere advice or instructions regarding administration do not constitute control or establish responsibility.

(N) “Price information” means the price charged for a prescription for a particular drug product and, in an easily understandable manner, all of the following:

(1) The proprietary name of the drug product;
(2) The established (generic) name of the drug product;
(3) The strength of the drug product if the product contains a single active ingredient or if the drug product contains more than one active ingredient and a relevant strength can be associated with the product without indicating each active ingredient. The established name and quantity of each active ingredient are required if such a relevant strength cannot be so associated with a drug product containing more than one ingredient.
(4) The dosage form;
(5) The price charged for a specific quantity of the drug product. The stated price shall include all charges to the consumer, including, but not limited to, the cost of the drug product, professional fees, handling fees, if any, and a statement identifying professional services routinely furnished by the pharmacy. Any mailing fees and delivery fees may be stated separately without repetition. The information shall not be false or misleading.

(O) “Wholesale distributor of dangerous drugs” or “wholesale distributor” means a person engaged in the sale of dangerous drugs at wholesale and includes any agent or employee of such a person authorized by the person to engage in the sale of dangerous drugs at wholesale.

(P) “Manufacturer of dangerous drugs” or “manufacturer” means a person, other than a pharmacist or prescriber, who manufactures dangerous drugs and who is engaged in the sale of those dangerous drugs.
(Q) “Terminal distributor of dangerous drugs” or “terminal distributor” means a person who is engaged in the sale of dangerous drugs at retail, or any person, other than a manufacturer, repackager, outsourcing facility, third-party logistics provider, wholesale distributor, or pharmacist, who has possession, custody, or control of dangerous drugs for any purpose other than for that person's own use and consumption. “Terminal distributor” includes pharmacies, hospitals, nursing homes, and laboratories and all other persons who procure dangerous drugs for sale or other distribution by or under the supervision of a pharmacist or licensed health professional authorized to prescribe drugs.

(R) “Promote to the public” means disseminating a representation to the public in any manner or by any means, other than by labeling, for the purpose of inducing, or that is likely to induce, directly or indirectly, the purchase of a dangerous drug at retail.

(S) “Person” includes any individual, partnership, association, limited liability company, or corporation, the state, any political subdivision of the state, and any district, department, or agency of the state or its political subdivisions.

(T) “Animal shelter” means a facility operated by a humane society or any society organized under Chapter 1717 of the Revised Code or a dog pound operated pursuant to Chapter 955 of the Revised Code.

(U) “Food” has the same meaning as in section 3715.01 of the Revised Code.

(V) “Pain management clinic” has the same meaning as in section 4731.054 of the Revised Code.

(W) “Investigational drug or product” means a drug or product that has successfully completed phase one of the United States food and drug administration clinical trials and remains under clinical trial, but has not been approved for general use by the United States food and drug administration. “Investigational drug or product” does not include controlled substances in schedule I, as established pursuant to section 3719.41 of the Revised Code, and as amended.

(X) “Product,” when used in reference to an investigational drug or product, means a biological product, other than a drug, that is made from a natural human, animal, or microorganism source and is intended to treat a disease or medical condition.

(Y) “Third-party logistics provider” means a person that provides or coordinates warehousing or other logistics services pertaining to dangerous drugs including distribution, on behalf of a manufacturer, wholesale distributor, or terminal distributor of dangerous drugs, but does not take ownership of the drugs or have responsibility to direct the sale or disposition of the drugs.

(Z) “Repackager of dangerous drugs” or “repackager” means a person that repacks and relabels dangerous drugs for sale or distribution.

(AA) “Outsourcing facility” means a facility that is engaged in the compounding and sale of sterile drugs and is registered as an outsourcing facility with the United States food and drug administration.

4729.29 Requirements related to prescriptions of controlled drugs; exceptions.

Divisions (A) and (B) of section 4729.01 and section 4729.28 of the Revised Code do not do any of the following:

(A) Apply to a licensed health professional authorized to prescribe drugs who is acting within the prescriber's scope of professional practice;

(B) Prevent a prescriber from personally furnishing the prescriber's patients with drugs, within the prescriber's scope of professional practice, that seem proper to the prescriber, as long as the drugs are furnished in accordance with section 4729.291 of the Revised Code;

(C) Apply to an individual who personally furnishes a supply of naloxone under authority conferred by a physician under section 4731.941 of the Revised Code or prevent that individual...
Chapter 1. General Hospital Provisions
Part II. Pharmacies and Controlled Substances

from personally furnishing the supply of naloxone in accordance with a protocol established by the physician under section 4731.941 of the Revised Code;

(D) Apply to the sale of oxygen, the sale of peritoneal dialysis solutions, or the sale of drugs that are not dangerous drugs by a retail dealer, in original packages when labeled as required by the “Federal Food, Drug, and Cosmetic Act,” 52 Stat. 1040 (1938), 21 U.S.C.A. 301, as amended.

4729.291 Requirements related to prescriptions of controlled drugs.

(A) Except when provided under section 4731.97 of the Revised Code, when a licensed health professional authorized to prescribe drugs personally furnishes drugs to a patient pursuant to division (B) of section 4729.29 of the Revised Code, the prescriber shall ensure that the drugs are labeled and packaged in accordance with state and federal drug laws and any rules and regulations adopted pursuant to those laws. Records of purchase and disposition of all drugs personally furnished to patients shall be maintained by the prescriber in accordance with state and federal drug statutes and any rules adopted pursuant to those statutes.

(B) When personally furnishing to a patient RU-486 (mifepristone), a prescriber is subject to section 2919.123 of the Revised Code. A prescription for RU-486 (mifepristone) shall be in writing and in accordance with section 2919.123 of the Revised Code.

(C)(1) Except as provided in divisions (D) and (E) of this section, no prescriber shall do either of the following:

(a) In any thirty-day period, personally furnish to or for patients, taken as a whole, controlled substances in an amount that exceeds a total of two thousand five hundred dosage units;

(b) In any seventy-two-hour period, personally furnish to or for a patient an amount of a controlled substance that exceeds the amount necessary for the patient's use in a seventy-two-hour period.

(2) The state board of pharmacy may impose a fine of not more than five thousand dollars on a prescriber who fails to comply with the limits established under division (C)(1) of this section. A separate fine may be imposed for each instance of failing to comply with the limits. In imposing the fine, the board's actions shall be taken in accordance with Chapter 119 of the Revised Code.

(D) None of the following shall be counted in determining whether the amounts specified in division (C)(1) of this section have been exceeded:

(1) Methadone personally furnished to patients for the purpose of treating drug dependence or addiction, if the prescriber meets the conditions specified in 21 C.F.R. 1306.07;

(2) Buprenorphine personally furnished to patients for the purpose of treating drug dependence or addiction as part of an opioid treatment program that possesses a terminal distributor of dangerous drugs license issued under section 4729.54 of the Revised Code, is the subject of a current, valid certification from the substance abuse and mental health services administration of the United States department of health and human services pursuant to 42 C.F.R. 8.11, and meets either of the following criteria:

(a) Buprenorphine and methadone are personally furnished by physicians treating patients participating in the program.

(b) Buprenorphine, but not methadone, is personally furnished by physicians treating patients participating in the program, the program is accredited by a national accrediting organization approved by the substance abuse and mental health services administration, the service of personally furnishing buprenorphine has, notwithstanding section 5119.361 of the Revised Code, been certified by the department of mental health and addiction services under section 5119.36 of the Revised Code, and the program maintains in the record of a patient to
whom buprenorphine has been administered or personally furnished a copy of the physician's signed and dated written order for that act.

(c) Controlled substances personally furnished to research subjects by a facility conducting clinical research in studies approved by a hospital-based institutional review board or an institutional review board accredited by the association for the accreditation of human research protection programs.

(E) Division (C)(1) of this section does not apply to a prescriber who is a veterinarian.

**4729.39 Pharmacists consulting agreement with physician.**

(A) One or more pharmacists may enter into a consult agreement with one or more physicians authorized under Chapter 4731 of the Revised Code to practice medicine and surgery or osteopathic medicine and surgery if all of the following conditions are met:

1. Each physician has an ongoing physician-patient relationship with each patient whose drug therapy is being managed.
2. The diagnosis for which each patient has been prescribed drug therapy is within the scope of each physician's practice.
3. Each pharmacist has training and experience related to the particular diagnosis for which drug therapy is prescribed.

(B) With respect to consult agreements, all of the following apply:

1. Under a consult agreement, a pharmacist is authorized to do both of the following, but only to the extent specified in the agreement, this section, and the rules adopted under this section:
   a. Manage drug therapy for treatment of specified diagnoses or diseases for each patient who is subject to the agreement, including all of the following:
      i. Changing the duration of treatment for the current drug therapy;
      ii. Adjusting a drug's strength, dose, dosage form, frequency of administration, or route of administration;
      iii. Discontinuing the use of a drug;
      iv. Administering a drug;
   b. (i) Order blood and urine tests and evaluate results related to the drug therapy being managed.
   (ii) A pharmacist's authority to evaluate blood and urine tests under division (B)(1)(b)(i) of this section does not authorize the pharmacist to make a diagnosis.
2. (a) A consult agreement, or the portion of the agreement that applies to a particular patient, may be terminated by any of the following:
   i. A pharmacist who entered into the agreement;
   ii. A physician who entered into the agreement;
   iii. A patient whose drug therapy is being managed;
   iv. An individual who consented to the treatment on behalf of a patient or an individual authorized to act on behalf of a patient.
   (b) The pharmacist or physician who receives the notice of a patient's termination of the agreement shall provide written notice to every other pharmacist or physician who is a party to the agreement. A pharmacist or physician who terminates a consult agreement with regard to one or more patients shall provide written notice to all other pharmacists and physicians who entered into the agreement and to each individual who consented to treatment under the agreement. The termination of a consult agreement with regard to one or more patients shall be recorded by the pharmacist and physician in the medical records of each patient to whom the termination applies.
Chapter 1. General Hospital Provisions
Part II. Pharmacies and Controlled Substances

116

Controlled Substances - General Provisions

(3) A consult agreement shall be made in writing and shall include all of the following:
   (a) The diagnoses and diseases being managed under the agreement, including whether each disease is primary or comorbid;
   (b) A description of the drugs or drug categories the agreement involves;
   (c) A description of the procedures, decision criteria, and plan the pharmacist is to follow in acting under a consult agreement;
   (d) A description of how the pharmacist is to comply with divisions (B)(5) and (6) of this section.

(4) The content of a consult agreement shall be communicated to each patient whose drug therapy is managed under the agreement.

(5) A pharmacist acting under a consult agreement shall maintain a record of each action taken for each patient whose drug therapy is managed under the agreement.

(6) Communication between a pharmacist and physician acting under a consult agreement shall take place at regular intervals specified by the primary physician acting under the agreement. The agreement may include a requirement that a pharmacist send a consult report to each consulting physician.

(7) A consult agreement is effective for two years and may be renewed if the conditions specified in division (A) of this section are met.

(8) A consult agreement does not permit a pharmacist to manage drug therapy prescribed by a physician who has not entered into the agreement.

(C) The state board of pharmacy, in consultation with the state medical board, shall adopt rules to be followed by pharmacists, and the state medical board, in consultation with the state board of pharmacy, shall adopt rules to be followed by physicians, that establish standards and procedures for entering into a consult agreement and managing a patient's drug therapy under a consult agreement. The boards shall specify in the rules any categories of drugs or types of diseases for which a consult agreement may not be established. Either board may adopt any other rules it considers necessary for the implementation and administration of this section. All rules adopted under this division shall be adopted in accordance with Chapter 119 of the Revised Code.

(D)(1) Subject to division (D)(2) of this section, both of the following apply:
   (a) A pharmacist acting in accordance with a consult agreement regarding a physician's change in a drug for a patient whose drug therapy the pharmacist is managing under the agreement is not liable in damages in a tort or other civil action for injury or loss to person or property allegedly arising from the change.
   (b) A physician acting in accordance with a consult agreement regarding a pharmacist's change in a drug for a patient whose drug therapy the pharmacist is managing under a consult agreement is not liable in damages in a tort or other civil action for injury or loss to person or property allegedly arising from the change unless the physician authorized the specific change.

(2) Division (D)(1) of this section does not limit a physician's or pharmacist's liability in damages in a tort or other civil action for injury or loss to person or property allegedly arising from actions that are not related to the physician's or pharmacist's change in a drug for a patient whose drug therapy is being managed under a consult agreement.

4729.41 Administration of immunizations

(A)(1) A pharmacist licensed under this chapter who meets the requirements of division (B) of this section, and a pharmacy intern licensed under this chapter who meets the requirements of division (B) of this section and is working under the direct supervision of a pharmacist who meets the requirements of that division, may do any of the following:
   (a) Administer immunizations for influenza to individuals who are seven years of age or older;
(b) Only pursuant to a prescription, administer to individuals who are seven years of age or older but not more than thirteen years of age any of the immunizations included in division (A)(2) of this section;
(c) Administer to individuals who are thirteen years of age or older any of the immunizations included in division (A)(2) of this section.

(2) A pharmacist or pharmacy intern may administer in accordance with divisions (A)(1)(b) and (c) of this section either of the following:
(a) Any immunization that on the effective date of this amendment is included in either of the following immunization schedules recommended by the advisory committee on immunization practices of the centers for disease control and prevention in the United States department of health and human services:
(i) The recommended immunization schedule for persons aged zero through eighteen years;
(ii) The recommended adult immunization schedule.
(b) Any other immunization specified in rules adopted under division (E)(1)(d) of this section.

(3) As part of engaging in the administration of immunizations or supervising a pharmacy intern's administration of immunizations, a pharmacist may administer epinephrine or diphenhydramine, or both, to individuals in emergency situations resulting from adverse reactions to the immunizations administered by the pharmacist or pharmacy intern.

(B) For a pharmacist or pharmacy intern to be authorized to engage in the administration of immunizations pursuant to division (A) of this section, the pharmacist or pharmacy intern shall do all of the following:
(1) Successfully complete a course in the administration of immunizations that has been approved by the state board of pharmacy as meeting the standards established for such courses by the centers for disease control and prevention;
(2) Receive and maintain certification to perform basic life-support procedures by successfully completing a basic life-support training course certified by the American red cross or American heart association;
(3) Practice in accordance with a definitive set of treatment guidelines specified in a protocol established by a physician and approved by the state board of pharmacy.

(C) The protocol required by division (B)(3) of this section shall include provisions for implementation of the following requirements:
(1) The pharmacist or pharmacy intern who administers an immunization shall observe the individual who receives the immunization to determine whether the individual has an adverse reaction to the immunization. The length of time and location of the observation shall comply with the standards specified in rules adopted by the state board of pharmacy under division (E) of this section for the approval of protocols. The protocol shall specify procedures to be followed by a pharmacist when administering epinephrine, diphenhydramine, or both, to an individual who has an adverse reaction to an immunization administered by the pharmacist or a pharmacy intern.
(2) For each immunization administered to an individual by a pharmacist or pharmacy intern, other than an immunization for influenza administered to an individual eighteen years of age or older, the pharmacist or pharmacy intern shall notify the individual's family physician or, if the individual has no family physician, the board of health of the health district in which the individual resides or the authority having the duties of a board of health for that district under section 3709.05 of the Revised Code. The notice shall be given not later than thirty days after the immunization is administered.
(3) For each immunization administered by a pharmacist or pharmacy intern to an individual younger than eighteen years of age pursuant to division (A)(1) of this section, the pharmacist or a pharmacy intern shall obtain permission from the individual's parent or legal
Chapter 1. General Hospital Provisions
Part II. Pharmacies and Controlled Substances

guardian in accordance with the procedures specified in rules adopted under division (E) of this section.

(D)(1) No pharmacist shall do either of the following:
   (a) Engage in the administration of immunizations unless the requirements of division (B) of this section have been met;
   (b) Delegate to any person the pharmacist's authority to engage in or supervise the administration of immunizations.

(2) No pharmacy intern shall engage in the administration of immunizations unless the requirements of division (B) of this section have been met.

(E)(1) The state board of pharmacy shall adopt rules to implement this section. The rules shall be adopted in accordance with Chapter 119 of the Revised Code and shall include the following:
   (a) Provisions for approval of courses in administration of immunizations;
   (b) Provisions for approval of protocols to be followed by pharmacists and pharmacy interns in engaging in the administration of immunizations, including protocols that contain provisions specifying the locations at which a pharmacist or pharmacy intern may engage in the administration of immunizations;
   (c) Procedures to be followed by pharmacists and pharmacy interns in obtaining from the individual's parent or legal guardian permission to administer immunizations to an individual younger than eighteen years of age pursuant to division (A)(1) of this section;
   (d) Provisions specifying any immunizations that may be administered under division (A)(2)(b) of this section.

(2) Prior to adopting rules regarding approval of protocols to be followed by pharmacists and pharmacy interns in engaging in the administration of immunizations, the state board of pharmacy shall consult with the state medical board and the board of nursing.

(3) Prior to adopting rules specifying any immunizations that may be administered under division (A)(2)(b) of this section, the state board of pharmacy shall consult with the state medical board.

(F) In addition to the rules it adopts under division (E) of this section, the board may adopt rules that change the immunizations authorized by division (A)(2)(a) of this section to reflect changes in the recommendations of the advisory committee on immunization practices. The rules shall be adopted in accordance with Chapter 119 of the Revised Code.

4729.42 Pharmacy technician requirements, limitations, criminal records check.

[Editor’s Note: This statute is repealed effective 4/6/2018.]

(A) As used in this section, “qualified pharmacy technician” means a person who is under the personal supervision of a pharmacist and to whom all of the following apply:
   (1) The person is eighteen years of age or older.
   (2) The person possesses a high school diploma, possesses a certificate of high school equivalence, or was employed prior to April 8, 2009, as a pharmacy technician without a high school diploma or a certificate of high school equivalence.
   (3) The person has passed an examination approved by the state board of pharmacy to determine a person's competency to perform services as a pharmacy technician.
   (4) Except as otherwise provided in this section, the person has submitted to a criminal records check in accordance with section 4776.02 of the Revised Code as if the person was an applicant for an initial license who is subject to that section, and the results of the criminal records check provided as described in that section and section 4776.04 of the Revised Code do not show that the person previously has been convicted of or pleaded guilty to any felony in this state, any other state, or the United States.
(B) Except as provided in division (F) of this section, no person who is not a pharmacist, pharmacy intern, or qualified pharmacy technician shall do any of the following in a pharmacy or while performing a function of a pharmacy:

(1) Engage in the compounding of any drug;
(2) Package or label any drug;
(3) Prepare or mix any intravenous drug to be injected into a human being.

(C) No pharmacist shall allow any person employed or otherwise under the control of the pharmacist to violate division (B) of this section.

(D) No person who owns, manages, or conducts a pharmacy shall allow any person employed or otherwise under the control of the person who owns, manages, or conducts the pharmacy to violate division (B) of this section.

(E) No person who submits to a criminal records check in accordance with section 4776.02 of the Revised Code for the purpose of satisfying the criterion set forth in division (A)(4) of this section and who obtains a report pursuant to section 4776.02 or 4776.04 of the Revised Code containing the results of the criminal records check and any information provided by the federal bureau of investigation shall modify or alter, or allow any other person to modify or alter, any item, record, or information contained in the report and thereafter use the modified or altered report for the purpose of satisfying the criterion set forth in division (A)(4) of this section or otherwise submit or use it for any purpose or in any manner identified in division (A) of section 2921.13 of the Revised Code.

(F)(1) Division (B) of this section does not prohibit a health care professional authorized to engage in the activities specified in division (B)(1), (2), or (3) of this section while acting in the course of the professional's practice.

(2) Division (B) of this section does not prohibit the activities performed by a student as an integral part of a pharmacy technician training program that is operated by a vocational school district or joint vocational school district, certified by the department of education, or approved by the Ohio board of regents.

(3) In the case of a person employed after April 8, 2009, division (B) of this section does not prohibit the person's activities for the first twelve months following the initial date of employment, if both of the following apply:

(a) The person is participating in or has completed a pharmacy technician training program that meets the board's standards for those programs and is making substantial progress in preparation to take a pharmacy technician examination approved by the board.
(b) The results of the person's criminal records check provided as described in sections 4776.02 and 4776.04 of the Revised Code show that the person previously has not been convicted of or has not pleaded guilty to any felony in this state, any other state, or the United States.

(4) In the case of a person who completes a pharmacy technician training program that is operated by a vocational school district or joint vocational school district, division (B) of this section does not prohibit the person's activities for the first twelve months following the date of completing the program, if both of the following apply:

(a) The person is making substantial progress in preparation to take a pharmacy technician examination approved by the board.
(b) The results of the person's criminal records check show that the person previously has not been convicted of or has not pleaded guilty to any felony in this state, any other state, or the United States.

(5) In the case of a person employed on April 8, 2009, in the capacity of a pharmacy technician, division (B) of this section does not do either of the following:

(a) Require the person to undergo a criminal records check if the person has been employed for five years or longer;
(b) Prohibit the person's activities until the earlier of either of the following:
Chapter 1. General Hospital Provisions
Part II. Pharmacies and Controlled Substances

(i) If the person has not passed an examination described in division (A)(3) of this section, eighteen months after April 8, 2009;
(ii) If a criminal records check is required because the person has not been employed for five years or longer, the date on which the person and the employer receive the results of a criminal records check provided as described in sections 4776.02 and 4776.04 of the Revised Code that show the person previously has been convicted of or pleaded guilty to any felony in this state, any other state, or the United States.

(G) If, pursuant to rules adopted under section 4729.26 of the Revised Code, the board requires a person that develops or administers a pharmacy technician examination to submit examination materials to the board for approval, any examination materials that are submitted shall not be public records for purposes of section 149.43 of the Revised Code.

4729.44 Naloxone may be dispensed without prescription; immunity.

(A) As used in this section:
   (1) “Board of health” means a board of health of a city or general health district or an authority having the duties of a board of health under section 3709.05 of the Revised Code.
   (2) “Physician” means an individual authorized under Chapter 4731 of the Revised Code to practice medicine and surgery, osteopathic medicine and surgery, or podiatric medicine and surgery.

(B) If use of the protocol developed pursuant to rules adopted under division (G) of this section has been authorized under section 3707.56 or 4731.942 of the Revised Code, a pharmacist or pharmacy intern may dispense naloxone without a prescription to either of the following in accordance with that protocol:
   (1) An individual who there is reason to believe is experiencing or at risk of experiencing an opioid-related overdose;
   (2) A family member, friend, or other person in a position to assist an individual who there is reason to believe is at risk of experiencing an opioid-related overdose.

(C) A pharmacist or pharmacy intern who dispenses naloxone under this section shall instruct the individual to whom naloxone is dispensed to summon emergency services as soon as practicable either before or after administering naloxone.

(D) A pharmacist may document the dispensing of naloxone by the pharmacist or a pharmacy intern supervised by the pharmacist on a prescription form. The form may be assigned a number for record-keeping purposes.

(E) This section does not affect the authority of a pharmacist or pharmacy intern to fill or refill a prescription for naloxone.

(F) A board of health that in good faith authorizes a pharmacist or pharmacy intern to dispense naloxone without a prescription in accordance with a protocol developed pursuant to rules adopted under division (G) of this section is not liable for or subject to any of the following for any action or omission of the individual to whom the naloxone is dispensed: damages in any civil action, prosecution in any criminal proceeding, or professional disciplinary action.

A physician who in good faith authorizes a pharmacist or pharmacy intern to dispense naloxone without a prescription in accordance with a protocol developed pursuant to rules adopted under division (G) of this section is not liable for or subject to any of the following for any action or omission of the individual to whom the naloxone is dispensed: damages in any civil action, prosecution in any criminal proceeding, or professional disciplinary action.

A pharmacist or pharmacy intern authorized under this section to dispense naloxone without a prescription who does so in good faith is not liable for or subject to any of the following for any action or omission of the individual to whom the naloxone is dispensed: damages in any civil action, prosecution in any criminal proceeding, or professional disciplinary action.
(G) The state board of pharmacy shall, after consulting with the department of health and state medical board, adopt rules to implement this section. The rules shall specify a protocol under which pharmacists or pharmacy interns may dispense naloxone without a prescription.

All rules adopted under this section shall be adopted in accordance with Chapter 119 of the Revised Code.

4729.45 Pharmacists administering drugs.

(A) As used in this section, “physician” means an individual authorized under Chapter 4731 of the Revised Code to practice medicine and surgery or osteopathic medicine and surgery.

(B)(1) Subject to division (C) of this section, a pharmacist licensed under this chapter may administer by injection any of the following drugs as long as the drug that is to be administered has been prescribed by a physician and the individual to whom the drug was prescribed has an ongoing physician-patient relationship with the physician:

(a) An opioid antagonist used for treatment of drug addiction and administered in a long-acting or extended-release form;
(b) An antipsychotic drug administered in a long-acting or extended-release form;
(c) Hydroxyprogesterone caproate;
(d) Medroxyprogesterone acetate;
(e) Cobalamin.

(2) As part of engaging in the administration of drugs by injection pursuant to this section, a pharmacist may administer epinephrine or diphenhydramine, or both, to an individual in an emergency situation resulting from an adverse reaction to a drug administered by the pharmacist.

(C) To be authorized to administer drugs pursuant to this section, a pharmacist must do all of the following:

(1) Successfully complete a course in the administration of drugs that satisfies the requirements established by the state board of pharmacy in rules adopted under division (H)(1)(a) of this section;

(2) Receive and maintain certification to perform basic life-support procedures by successfully completing a basic life-support training course certified by the American Red Cross or American Heart Association;

(3) Practice in accordance with a protocol that meets the requirements of division (F) of this section.

(D) Each time a pharmacist administers a drug pursuant to this section, the pharmacist shall do all of the following:

(1) Obtain permission in accordance with the procedures specified in rules adopted under division (H) of this section and comply with the following requirements:

(a) Except as provided in division (D)(1)(c) of this section, for each drug administered by a pharmacist to an individual who is eighteen years of age or older, the pharmacist shall obtain permission from the individual.

(b) For each drug administered by a pharmacist to an individual who is under eighteen years of age, the pharmacist shall obtain permission from the individual's parent or other person having care or charge of the individual.

(c) For each drug administered by a pharmacist to an individual who lacks the capacity to make informed health care decisions, the pharmacist shall obtain permission from the person authorized to make such decisions on the individual's behalf.
(2) In the case of an opioid antagonist described in division (B) of this section, obtain in accordance with division (E) of this section test results indicating that it is appropriate to administer the drug to the individual if either of the following is to be administered:
   (a) The initial dose of the drug;
   (b) Any subsequent dose, if the administration occurs more than thirty days after the previous dose of the drug was administered.
   (3) Observe the individual to whom the drug is administered to determine whether the individual has an adverse reaction to the drug;
   (4) Notify the physician who prescribed the drug that the drug has been administered to the individual.

(E) A pharmacist may obtain the test results described in division (D)(2) of this section in either of the following ways:
   (1) From the physician;
   (2) By ordering blood and urine tests for the individual to whom the opioid antagonist is to be administered.

If a pharmacist orders blood and urine tests, the pharmacist shall evaluate the results of the tests to determine whether they indicate that it is appropriate to administer the opioid antagonist. A pharmacist's authority to evaluate test results under this division does not authorize the pharmacist to make a diagnosis.

(F) All of the following apply with respect to the protocol required by division (C)(3) of this section:
   (1) The protocol must be established by a physician who has a scope of practice that includes treatment of the condition for which the individual has been prescribed the drug to be administered.
   (2) The protocol must satisfy the requirements established in rules adopted under division (H)(1)(b) of this section.
   (3) The protocol must do all of the following:
      (a) Specify a definitive set of treatment guidelines;
      (b) Specify the locations at which a pharmacist may engage in the administration of drugs pursuant to this section;
      (c) Include provisions for implementing the requirements of division (D) of this section, including for purposes of division (D)(3) of this section provisions specifying the length of time and location at which a pharmacist must observe an individual who receives a drug to determine whether the individual has an adverse reaction to the drug;
      (d) Specify procedures to be followed by a pharmacist when administering epinephrine, diphenhydramine, or both, to an individual who has an adverse reaction to a drug administered by the pharmacist.

(G) A pharmacist shall not do either of the following:
   (1) Engage in the administration of drugs pursuant to this section unless the requirements of division (C) of this section have been met;
   (2) Delegate to any person the pharmacist's authority to engage in the administration of drugs pursuant to this section.

(H) The state board of pharmacy shall adopt rules to implement this section. The rules shall be adopted in accordance with Chapter 119 of the Revised Code and include all of the following:
   (a) Requirements for courses in administration of drugs;
   (b) Requirements for protocols to be followed by pharmacists in administering drugs pursuant to this section;
   (c) Procedures to be followed by a pharmacist in obtaining permission to administer a drug to an individual.
(2) The board shall consult with the state medical board before adopting rules regarding requirements for protocols under this section.

4729.51 Requirements related to prescriptions of controlled drugs; dangerous drug distribution.

(A) No person other than a licensed manufacturer of dangerous drugs, outsourcing facility, third-party logistics provider, repackager of dangerous drugs, or wholesale distributor of dangerous drugs shall possess for sale, sell, distribute, or deliver, at wholesale, dangerous drugs or investigational drugs or products, except as follows:

(1) A licensed terminal distributor of dangerous drugs that is a pharmacy may make occasional sales of dangerous drugs or investigational drugs or products at wholesale.

(2) A licensed terminal distributor of dangerous drugs having more than one licensed location may transfer or deliver dangerous drugs from one licensed location to another licensed location owned by the terminal distributor if the license issued for each location is in effect at the time of the transfer or delivery.

(3) A licensed terminal distributor of dangerous drugs that is not a pharmacy may make occasional sales of naloxone at wholesale.

(B) No licensed manufacturer, outsourcing facility, third-party logistics provider, repackager, or wholesale distributor shall possess for sale, sell, or distribute, at wholesale, dangerous drugs or investigational drugs or products to any person other than the following:

(1) Subject to division (D) of this section, a licensed terminal distributor of dangerous drugs;

(2) Subject to division (C) of this section, any person exempt from licensure as a terminal distributor of dangerous drugs under section 4729.541 of the Revised Code;

(3) A licensed manufacturer, outsourcing facility, third-party logistics provider, repackager, or wholesale distributor;

(4) A terminal distributor, manufacturer, outsourcing facility, third-party logistics provider, repackager, or wholesale distributor that is located in another state, is not engaged in the sale of dangerous drugs within this state, and is actively licensed to engage in the sale of dangerous drugs by the state in which the distributor conducts business.

(C) No licensed manufacturer, outsourcing facility, third-party logistics provider, repackager, or wholesale distributor shall possess for sale, sell, or distribute, at wholesale, dangerous drugs or investigational drugs or products to either of the following:

(1) A prescriber who is employed by either of the following:

(a) A pain management clinic that is not licensed as a terminal distributor of dangerous drugs with a pain management clinic classification issued under section 4729.552 of the Revised Code;

(b) A facility, clinic, or other location that provides office-based opioid treatment but is not licensed as a terminal distributor of dangerous drugs with an office-based opioid treatment classification issued under section 4729.553 of the Revised Code if such a license is required by that section.

(2) A business entity described in division (A)(2) or (3) of section 4729.541 of the Revised Code that is, or is operating, either of the following:

(a) A pain management clinic without a license as a terminal distributor of dangerous drugs with a pain management clinic classification issued under section 4729.552 of the Revised Code;

(b) A facility, clinic, or other location that provides office-based opioid treatment without a license as a terminal distributor of dangerous drugs with an office-based opioid treatment classification issued under section 4729.553 of the Revised Code if such a license is required by that section.
Chapter 1. General Hospital Provisions
Part II. Pharmacies and Controlled Substances

(D) No licensed manufacturer, outsourcing facility, third-party logistics provider, repackager, or wholesale distributor shall possess dangerous drugs or investigational drugs or products for sale at wholesale, or sell or distribute such drugs at wholesale, to a licensed terminal distributor of dangerous drugs, except as follows:

1. In the case of a terminal distributor with a category II license, only dangerous drugs in category II, as defined in division (A)(1) of section 4729.54 of the Revised Code;
2. In the case of a terminal distributor with a category III license, dangerous drugs in category II and category III, as defined in divisions (A)(1) and (2) of section 4729.54 of the Revised Code;
3. In the case of a terminal distributor with a limited category II or III license, only the dangerous drugs specified in the license.

(E) Except as provided in division (E)(2) of this section, no person shall do any of the following:

(a) Sell or distribute, at retail, dangerous drugs;
(b) Possess for sale, at retail, dangerous drugs;
(c) Possess dangerous drugs.

(2)(a) Divisions (E)(1)(a), (b), and (c) of this section do not apply to any of the following:
(i) A licensed terminal distributor of dangerous drugs;
(ii) A person who possesses, or possesses for sale or sells, at retail, a dangerous drug in accordance with Chapters 3719., 4715., 4723., 4725., 4729., 4730., 4731., and 4741 of the Revised Code;
(iii) Any of the persons identified in divisions (A)(1) to (5) and (13) of section 4729.541 of the Revised Code, but only to the extent specified in that section.

(b) Division (E)(1)(c) of this section does not apply to any of the following:
(i) A licensed manufacturer, outsourcing facility, third-party logistics provider, repackager, or wholesale distributor;
(ii) Any of the persons identified in divisions (A)(6) to (12) of section 4729.541 of the Revised Code, but only to the extent specified in that section.

(F) No licensed terminal distributor of dangerous drugs or person that is exempt from licensure under section 4729.541 of the Revised Code shall purchase dangerous drugs or investigational drugs or products from any person other than a licensed manufacturer, outsourcing facility, third-party logistics provider, repackager, or wholesale distributor, except as follows:

1. A licensed terminal distributor of dangerous drugs or person that is exempt from licensure under section 4729.541 of the Revised Code may make occasional purchases of dangerous drugs or investigational drugs or products that are sold in accordance with division (A)(1) or (3) of this section.
2. A licensed terminal distributor of dangerous drugs having more than one licensed location may transfer or deliver dangerous drugs or investigational drugs or products from one licensed location to another licensed location if the license issued for each location is in effect at the time of the transfer or delivery.

(G) No licensed terminal distributor of dangerous drugs shall engage in the retail sale or other distribution of dangerous drugs or investigational drugs or products or maintain possession, custody, or control of dangerous drugs or investigational drugs or products for any purpose other than the distributor’s personal use or consumption, at any establishment or place other than that or those described in the license issued by the state board of pharmacy to such terminal distributor.

(H) Nothing in this section shall be construed to interfere with the performance of official duties by any law enforcement official authorized by municipal, county, state, or federal law to collect samples of any drug, regardless of its nature or in whose possession it may be.
Chapter 1. General Hospital Provisions
Part II. Pharmacies and Controlled Substances

Controlled Substances

(I) Notwithstanding anything to the contrary in this section, the board of education of a city, local, exempted village, or joint vocational school district may distribute epinephrine autoinjectors for use in accordance with section 3313.7110 of the Revised Code and may distribute inhalers for use in accordance with section 3313.7113 of the Revised Code.

4729.541 Requirements related to prescriptions of controlled drugs; exempt entities.

(A) Except as provided in divisions (B) to (D) of this section, all of the following are exempt from licensure as a terminal distributor of dangerous drugs:

(1) A licensed health professional authorized to prescribe drugs;

(2) A business entity that is a corporation formed under division (B) of section 1701.03 of the Revised Code, a limited liability company formed under Chapter 1705 of the Revised Code, or a professional association formed under Chapter 1785 of the Revised Code if the entity has a sole shareholder who is a prescriber and is authorized to provide the professional services being offered by the entity;

(3) A business entity that is a corporation formed under division (B) of section 1701.03 of the Revised Code, a limited liability company formed under Chapter 1705 of the Revised Code, a partnership or a limited liability partnership formed under Chapter 1775 of the Revised Code, or a professional association formed under Chapter 1785 of the Revised Code, if, to be a shareholder, member, or partner, an individual is required to be licensed, certified, or otherwise legally authorized under Title XLVII of the Revised Code to perform the professional service provided by the entity and each such individual is a prescriber;

(4) An individual who holds a current license, certificate, or registration issued under Title XLVII of the Revised Code and has been certified to conduct diabetes education by a national certifying body specified in rules adopted by the state board of pharmacy under section 4729.68 of the Revised Code, but only with respect to insulin that will be used for the purpose of diabetes education and only if diabetes education is within the individual's scope of practice under statutes and rules regulating the individual's profession;

(5) An individual who holds a valid certificate issued by a nationally recognized S.C.U.B.A. diving certifying organization approved by the state board of pharmacy under rules adopted by the board, but only with respect to medical oxygen that will be used for the purpose of emergency care or treatment at the scene of a diving emergency;

(6) With respect to epinephrine autoinjectors that may be possessed under section 3313.7110, 3313.7111, 3314.143, 3326.28, or 3328.29 of the Revised Code, any of the following: the board of education of a city, local, exempted village, or joint vocational school district; a chartered or nonchartered nonpublic school; a community school established under Chapter 3314 of the Revised Code; a STEM school established under Chapter 3326 of the Revised Code; or a college-preparatory boarding school established under Chapter 3328 of the Revised Code;

(7) With respect to epinephrine autoinjectors that may be possessed under section 5101.76 of the Revised Code, any of the following: a residential camp, as defined in section 2151.011 of the Revised Code; a child day camp, as defined in section 5104.01 of the Revised Code; or a child day camp operated by any county, township, municipal corporation, township park district created under section 511.18 of the Revised Code, park district created under section 1545.04 of the Revised Code, or joint recreation district established under section 755.14 of the Revised Code;

(8) With respect to epinephrine autoinjectors that may be possessed under Chapter 3728 of the Revised Code, a qualified entity, as defined in section 3728.01 of the Revised Code;

(9) With respect to inhalers that may be possessed under section 3313.7113, 3313.7114, 3314.144, 3326.30, or 3328.30 of the Revised Code, any of the following: the board of education of a city, local, exempted village, or joint vocational school district; a chartered or
nonchartered nonpublic school; a community school established under Chapter 3314 of the Revised Code; a STEM school established under Chapter 3326 of the Revised Code; or a college-preparatory boarding school established under Chapter 3328 of the Revised Code;

(10) With respect to inhalers that may be possessed under section 5101.77 of the Revised Code, any of the following: a residential camp, as defined in section 2151.011 of the Revised Code; a child day camp, as defined in section 5104.01 of the Revised Code; or a child day camp operated by any county, township, municipal corporation, township park district created under section 511.18 of the Revised Code, park district created under section 1545.04 of the Revised Code, or joint recreation district established under section 755.14 of the Revised Code;

(11) With respect to naloxone that may be possessed under section 2925.61 of the Revised Code, a law enforcement agency and its peace officers;

(12) With respect to naloxone that may be possessed under section 4729.514 of the Revised Code, a service entity, as defined in that section;

(13) A facility that is owned and operated by the United States department of defense, the United States department of veterans affairs, or any other federal agency.

(B) If a person described in division (A) of this section is a pain management clinic or is operating a pain management clinic, the person shall hold a license as a terminal distributor of dangerous drugs with a pain management clinic classification issued under section 4729.552 of the Revised Code.

(C) If a person described in division (A) of this section is operating a facility, clinic, or other location described in division (B) of section 4729.553 of the Revised Code that must hold a category III terminal distributor of dangerous drugs license with an office-based opioid treatment classification, the person shall hold a license with that classification.

(D) Any of the persons described in divisions (A)(1) to (12) of this section shall hold a license as a terminal distributor of dangerous drugs in order to possess, have custody or control of, and distribute any of the following:

(1) Dangerous drugs that are compounded or used for the purpose of compounding;

(2) A schedule I, II, III, IV, or V controlled substance, as defined in section 3719.01 of the Revised Code.

4729.552 Requirements related to prescriptions of controlled drugs; dangerous drugs.

(A) To be eligible to receive a license as a category III terminal distributor of dangerous drugs with a pain management clinic classification, an applicant shall submit evidence satisfactory to the state board of pharmacy that the applicant's pain management clinic will be operated in accordance with the requirements specified in division (B) of this section and that the applicant meets any other applicable requirements of this chapter.

If the board determines that an applicant meets all of the requirements, the board shall issue to the applicant a license as a category III terminal distributor of dangerous drugs and specify on the license that the terminal distributor is classified as a pain management clinic.

(B) The holder of a terminal distributor license with a pain management clinic classification shall do all of the following:

(1) Be in control of a facility that is owned and operated solely by one or more physicians authorized under Chapter 4731 of the Revised Code to practice medicine and surgery or osteopathic medicine and surgery;

(2) Comply with the requirements for the operation of a pain management clinic, as established by the state medical board in rules adopted under section 4731.054 of the Revised Code;
(3) Ensure that any person employed by the facility complies with the requirements for the operation of a pain management clinic established by the state medical board in rules adopted under section 4731.054 of the Revised Code;

(4) Require any person with ownership of the facility to submit to a criminal records check in accordance with section 4776.02 of the Revised Code and send the results of the criminal records check directly to the state board of pharmacy for review and decision under section 4729.071 of the Revised Code;

(5) Require all employees of the facility to submit to a criminal records check in accordance with section 4776.02 of the Revised Code and ensure that no person is employed who has previously been convicted of, or pleaded guilty to, either of the following:

   (a) A theft offense, described in division (K)(3) of section 2913.01 of the Revised Code, that would constitute a felony under the laws of this state, any other state, or the United States;

   (b) A felony drug abuse offense, as defined in section 2925.01 of the Revised Code.

(6) Maintain a list of each person with ownership of the facility and notify the state board of pharmacy of any change to that list.

(C) No person shall operate a facility that under this chapter is subject to licensure as a category III terminal distributor of dangerous drugs with a pain management clinic classification without obtaining and maintaining the license with the classification. No person who holds a category III license with a pain management clinic classification shall fail to remain in compliance with the requirements of division (B) of this section and any other applicable requirements of this chapter.

(D) The state board of pharmacy may impose a fine of not more than five thousand dollars on a person who violates division (C) of this section. A separate fine may be imposed for each day the violation continues. In imposing the fine, the board's actions shall be taken in accordance with Chapter 119 of the Revised Code.

(E) The state board of pharmacy shall adopt rules as it considers necessary to implement and administer this section. The rules shall be adopted in accordance with Chapter 119 of the Revised Code.

4729.79 Reporting of controlled substance or dangerous drug prescription.

(A) If the state board of pharmacy establishes and maintains a drug database pursuant to section 4729.75 of the Revised Code, each licensed health professional authorized to prescribe drugs, except as provided in division (C) of this section, who personally furnishes to a patient a controlled substance or other dangerous drug the board includes in the database pursuant to rules adopted under section 4729.84 of the Revised Code shall submit to the board the following information:

   (1) Prescriber identification;

   (2) Patient identification;

   (3) Date drug was furnished by the prescriber;

   (4) Indication of whether the drug furnished is new or a refill;

   (5) Name, strength, and national drug code of drug furnished;

   (6) Quantity of drug furnished;

   (7) Number of days' supply of drug furnished;

   (8) Source of payment for the drug furnished;

   (9) Identification of the owner of the drug furnished.

(B)(1) The information shall be transmitted as specified by the board in rules adopted under section 4729.84 of the Revised Code.

(2) The information shall be submitted electronically in the format specified by the board, except that the board may grant a waiver allowing the prescriber to submit the information in another format.
Chapter 1. General Hospital Provisions
Part II. Pharmacies and Controlled Substances

(3) The information shall be submitted in accordance with any time limits specified by the board, except that the board may grant an extension if either of the following occurs:
(a) The prescriber’s transmission system suffers a mechanical or electronic failure, or the prescriber cannot meet the deadline for other reasons beyond the prescriber’s control.
(b) The board is unable to receive electronic submissions.
(C)(1) The information required to be submitted under division (A) of this section may be submitted on behalf of the prescriber by the owner of the drug being personally furnished or by a delegate approved by that owner.
(2) The requirements of this section to submit information to the board do not apply to a prescriber who is a veterinarian.
(D) If the board becomes aware of a prescriber’s failure to comply with this section, the board shall notify the government entity responsible for licensing the prescriber.

4729.88 Pharmacist dispensing epinephrine autoinjectors.

Notwithstanding any provision of this chapter or rule adopted by the state board of pharmacy, a pharmacist may dispense epinephrine autoinjectors pursuant to a prescription issued under section 4723.483, 4730.433, or 4731.96 of the Revised Code.
A pharmacist who in good faith dispenses epinephrine autoinjectors under this section is not liable for or subject to any of the following for any action or omission of an entity to which an epinephrine autoinjector is dispensed: damages in any civil action, prosecution in any criminal proceeding, or professional disciplinary action.

4729.91 Pharmacy tech supervised by pharmacist.

(A) A registered pharmacy technician may, under the direct supervision of a pharmacist, engage in the following activities at a location licensed as a terminal distributor of dangerous drugs to the extent that the activities do not require the exercise of professional judgment:
(1) Accepting new written or electronic prescription orders from a prescriber or a prescriber’s agent;
(2) Entering information into and retrieving information from a database or patient profile;
(3) Preparing and affixing labels;
(4) Stocking dangerous drugs and retrieving those drugs from inventory;
(5) Counting and pouring dangerous drugs into containers;
(6) Placing dangerous drugs into patient storage containers;
(7) Non-sterile drug compounding as authorized by the state board of pharmacy in rules adopted under section 4729.94 of the Revised Code;
(8) Other activities specified by the board in rules adopted under section 4729.94 of the Revised Code.
(B) A certified pharmacy technician may, under the direct supervision of a pharmacist, engage in the following activities at a location licensed as a terminal distributor of dangerous drugs to the extent that the activities do not require the exercise of professional judgment:
(1) Any activity listed in division (A) of this section;
(2) Accepting or requesting refill authorizations for dangerous drugs that are not controlled substances from a prescriber or the prescriber’s agent, so long as there is no change from the original prescription;
(3) Sterile and non-sterile drug compounding as authorized by the board in rules adopted under section 4729.94 of the Revised Code;
(4) Other activities specified by the board in rules adopted under section 4729.94 of the Revised Code.
4731.054 Pain management clinics.

(A) As used in this section:
(1) “Chronic pain” has the same meaning as in section 4731.052 of the Revised Code.
(2) “Controlled substance” has the same meaning as in section 3719.01 of the Revised Code.
(3) “Hospital” means a hospital registered with the department of health under section 3701.07 of the Revised Code.
(4) “Owner” means each person included on the list maintained under division (B)(6) of section 4729.552 of the Revised Code.

(B) Each owner shall supervise, control, and direct the activities of each individual, including an employee, volunteer, or individual under contract, who provides treatment of chronic pain at the clinic or is associated with the provision of that treatment. The supervision, control, and direction shall be provided in accordance with rules adopted under this section.

(C) The state medical board shall adopt rules in accordance with Chapter 119 of the Revised Code that establish all of the following:
(1) Standards and procedures for the operation of a pain management clinic;
(2) Standards and procedures to be followed by a physician who provides care at a pain management clinic;
(3) For purposes of division (A)(5)(a)(i) of this section, the other drugs used to treat chronic pain that identify a facility as a pain management clinic;
(4) For purposes of division (A)(5)(a)(ii) of this section, the other criteria that identify a facility as a pain management clinic;
Chapter 1. General Hospital Provisions
Part II. Pharmacies and Controlled Substances

(5) For purposes of division (B) of this section, standards and procedures to be followed by an owner in providing supervision, direction, and control of individuals at a pain management clinic.

(D) The board may impose a fine of not more than twenty thousand dollars on a physician who fails to comply with rules adopted under this section. The fine may be in addition to or in lieu of any other action that may be taken under section 4731.22 of the Revised Code. The board shall deposit any amounts received under this division in accordance with section 4731.24 of the Revised Code.

(E)(1) The board may inspect either of the following as the board determines necessary to ensure compliance with this chapter and any rules adopted under it regarding pain management clinics:

(a) A pain management clinic;
(b) A facility or physician practice that the board suspects is operating as a pain management clinic in violation of this chapter.

(2) The board's inspection shall be conducted in accordance with division (F) of section 4731.22 of the Revised Code.

(3) Before conducting an on-site inspection, the board shall provide notice to the owner or other person in charge of the facility or physician practice, except that the board is not required to provide the notice if, in the judgment of the board, the notice would jeopardize an investigation being conducted by the board.

4729-5-01 Definitions.

As used in Chapter 4729 of the Revised Code:

(A) “Practice of pharmacy” is as defined in division (B) of section 4729.01 of the Revised Code.

(B) The term “dispense” means the final association of a drug with a particular patient pursuant to the prescription, drug order, or other lawful order of a prescriber and the professional judgment of and the responsibility for: interpreting, preparing, compounding, labeling, and packaging a specific drug. In the case of an automated drug delivery system meeting the requirements of rule 4729-5-35 of the Administrative Code, the final association with the name of a particular patient will be deemed to have occurred when the pharmacist has given final approval to the patient specific prescription in the system.

(C) The term “compounding” has the same meaning as defined in division (C) of section 4729.01 of the Revised Code.

(D) “Interpret prescriptions” means the professional judgment of a pharmacist when reviewing a prescription order of a prescriber for a patient.

(E) “To participate in drug selection” means selecting and dispensing a drug product pursuant to sections 4729.38 and 4729.381 of the Revised Code.

(F) “To participate with prescribers in reviews of drug utilization” means monitoring the appropriate use of drugs through communication with the prescriber(s) involved.

(G) “Pharmacist” means an individual who holds a current pharmacist identification card pursuant to section 4729.08 or 4729.09 of the Revised Code; or, pursuant to section 4729.12 of the Revised Code.

(H) “Original prescription” means the prescription issued by the prescriber in writing, an oral or electronically transmitted prescription recorded in writing by the pharmacist, a prescription transmitted by use of a facsimile machine, or a prescription transmitted by a board approved electronic prescription transmission system, each of which is pursuant to rule 4729-5-30 of the Administrative Code.

(I) “Personal supervision” or “direct supervision” means a pharmacist shall be physically present in the pharmacy, or in the area where the practice of pharmacy is occurring, and
provide personal review and approval of all professional activities.

(J) “Preprinted order” is defined as a patient specific, definitive set of drug treatment directives to be administered to an individual patient who has been examined by a prescriber and for whom the prescriber has determined that the drug therapy is appropriate and safe when used pursuant to the conditions set forth in the preprinted order. Preprinted orders may be used only for inpatients in an institutional facility as defined in Chapter 4729-17 of the Administrative Code.

(K) “Standing order” will mean the same as the term “protocol”.

(L) “Protocol” is defined as:

(1) A definitive set of written treatment guidelines that include definitive orders for drugs and their specified dosages which have been authorized by a prescriber and have been approved by the state board of pharmacy pursuant to section 4729.54 of the Revised Code. A protocol may be used only by licensed health care professionals when providing limited medical services to individuals in an emergency situation when the services of a prescriber are not immediately available; or

(2) A definitive set of written treatment guidelines that include definitive orders for drugs and their specified dosages which have been authorized by a prescriber and have been approved by the state board of pharmacy pursuant to section 4729.54 of the Revised Code. A protocol may be used only by licensed health care professionals when administering biologicals or vaccines to individuals for the purpose of preventing diseases; or

(3) A definitive set of written treatment guidelines that include definitive orders for drugs and their specified dosages which have been authorized by a prescriber and have been approved by the state board of pharmacy pursuant to section 4729.54 of the Revised Code. A protocol may be used only by licensed healthcare professionals when administering vitamin K for prevention of vitamin K deficient bleeding in newborns; or

(4) A definitive set of written treatment guidelines that include definitive orders for drugs and their specified dosages which have been authorized by a prescriber and have been approved by the state board of pharmacy pursuant to section 4729.54 of the Revised Code. A protocol may be used only by licensed healthcare professionals when administering erythromycin for prevention of ophthalmia neonatorum; or

(5) A definitive set of written treatment guidelines that include patient specific and dose specific orders for the administration of a specific drug that have been authorized by a prescriber to be used when the services of that prescriber are not immediately available. The state board of pharmacy must approve the treatment guidelines prior to implementation. To be considered for approval by the board, the treatment guidelines must meet the following requirements:

(a) The drugs shall only be administered by an individual authorized by law to administer the drugs that are listed in the treatment guidelines.

(b) A prescriber must complete an assessment and make a diagnosis prior to ordering a set of treatment guidelines.

(c) The treatment guidelines:

(i) Can only be initiated upon the order of a prescriber, and the prescriber, utilizing positive identification, must create an order in the patient record to acknowledge and document an adjustment made pursuant to the treatment guidelines before another dose or frequency adjustment can be made;

(ii) Shall only apply to adjusting the dose or frequency of the administration of a specific drug that has been previously ordered by a prescriber;

(iii) Apply only to those drugs that may require calculations for specific dose and frequency adjustments which shall be based on objective measures;

(iv) Apply only to those drugs for which the therapeutic dose is significantly lower than the dose expected to cause detrimental adverse effects;
(v) Do not apply to those drugs for which a dosage change selected within the usual normal dose range could cause detrimental adverse effects;
(vi) Can be performed without requiring the exercise of medical judgment;
(vii) Will lead to results that are reasonably predictable and safe;
(viii) Can be performed safely without repeated medical assessments;
(ix) If performed improperly, would not present a danger of immediate and serious harm to the patient.

A protocol may be used only by individuals authorized by law to administer the drugs and to perform the procedures included in the protocol. Protocols submitted for approval by the state board of pharmacy may be reviewed with the appropriate health care related board prior to any approval by the state board of pharmacy.

(M) “Prescriber” means any of the following:
(1) A person authorized by the revised code to prescribe dangerous drugs as part of their professional practice; or
(2) A pharmacist authorized to manage drug therapy pursuant to a consult agreement but only if specifically authorized in the agreement and to the extent specified in the agreement.

(N) “Positive identification” means a method of identifying an individual who prescribes, administers, or dispenses a dangerous drug.
(1) A method may not rely solely on the use of a private personal identifier such as a password, but must also include a secure means of identification such as the following:
(a) A manual signature on a hard copy record;
(b) A magnetic card reader;
(c) A bar code reader;
(d) A biometric method;
(e) A proximity badge reader;
(f) A board approved system of randomly generated personal questions;
(g) A printout of every transaction that is verified and manually signed within a reasonable period of time by the individual who prescribed, administered, or dispensed the dangerous drug. The printout must be maintained for three years and made available on request to those individuals authorized by law to review such records; or
(h) Other effective methods for identifying individuals that have been approved by the board.
(2) A method relying on a magnetic card reader, a bar code reader, a proximity badge reader, or randomly generated questions for identification must also include a private personal identifier, such as a password, for entry into a secure mechanical or electronic system.

(O) “Originating pharmacy”, as it relates to central fill pharmacies, means the pharmacy that received the original prescription.
(P) “Personally furnish” means the distribution of drugs by a prescriber to the prescriber’s patients for use outside the prescriber’s practice setting.
(Q) “OARRS report” means a report of information related to a specific person generated by the drug database established and maintained pursuant to section 4729.75 of the Revised Code.
(R) “Reported drugs” means all the drugs listed in rule 4729-37-02 of the Administrative Code that are required to be reported to the drug database established and maintained pursuant to section 4729.75 of the Revised Code.

4729-5-30 Manner of issuance of a prescription.

[Editor’s Note: This version is effective until 12/29/2017. The version effective subsequently is included next.]
(A) A prescription, to be valid, must be issued for a legitimate medical purpose by an individual prescriber acting in the usual course of his/her professional practice. The responsibility for the proper prescribing is upon the prescriber, but a corresponding responsibility rests with the pharmacist who dispenses the prescription. An order purporting to be a prescription issued not in the usual course of bona fide treatment of a patient is not a prescription and the person knowingly dispensing such a purported prescription, as well as the person issuing it, shall be subject to the penalties of law.

(B) All prescriptions issued by a prescriber shall:

1. Be dated as of and on the day when issued.
2. Contain the manually printed, typewritten, or preprinted full name, professional title, and address of the prescriber.
3. Indicate a telephone number where the prescriber can be personally contacted during normal business hours.
4. Indicate the full name and residential address of the patient.
5. Indicate the drug name and strength.
6. Indicate the quantity to dispense.
7. Indicate the appropriate and explicit directions for use.
8. Specify the number of times or the period of time for which the prescription may be refilled. If no such authorization is given, the prescription may not be refilled except in accordance with section 4729.281 of the Revised Code. A prescription marked “Refill P.R.N.” or some similar designation is not considered a valid refill authorization.
10. Authorize refills for schedules III and IV controlled substances only as permitted by section 3719.05 of the Revised Code.
11. Not authorize a refill beyond one year from the date of issuance for schedule V controlled substances and for dangerous drugs that are not controlled substances.
12. Identify the trade name or generic name of the drug(s) in a compounded prescription.
13. Not be coded in such a manner that it cannot be dispensed by any pharmacy of the patient's choice.
14. For prescriptions issued to a patient by a prescriber, be:
   a. Manually signed on the day issued by the prescriber in the same manner as he/she would sign a check or legal document.
   b. Issued in compliance with rule 4729-5-13 of the Administrative Code.
15. For a controlled substance, indicate the drug enforcement administration registration number of the prescriber pursuant to Title 21 CFR 1306.05 (enacted on June 23, 2005).
16. If issued by a clinical nurse specialist, certified nurse-midwife, or certified nurse practitioner with prescriptive authority, contain the nurse's prescriber number found on the certificate to prescribe issued by the state board of nursing pursuant to rule 4723-9-09 of the Administrative Code.
17. If issued by a physician assistant with prescriptive authority, contain the certificate number of the physician assistant's certificate to prescribe pursuant to rule 4730-2-07 of the Administrative Code.
18. Be issued in compliance with all applicable federal and state laws, rules, and regulations.
19. When forms are used that create multiple copies of a prescription issued to a patient by a prescriber, the original prescription that bears the actual signature of the prescriber must be issued to the patient for dispensing by a pharmacist.
20. Oral transmission by the prescriber or the prescriber's agent of original prescriptions and refills authorized by a prescriber, pursuant to the requirements of this rule, may be...
transmitted by telephone only to:

(1) A pharmacist.
(2) A recording device within the pharmacy if the pharmacist is unavailable. The pharmacist must remove the prescription from the recorder and reduce it to writing. The pharmacist is responsible for assuring the validity of the prescription removed from the recorder.
(3) A licensed pharmacy intern if the pharmacist on duty who is supervising the activity of the intern determines that the intern is competent to receive telephone prescriptions.

The prescriber's agent must provide his/her full name when transmitting an oral prescription.

(E) Original written prescriptions authorized and signed by a prescriber may be transmitted by the prescriber or the prescriber's agent by facsimile machine to a pharmacy pursuant to the following:

(1) The facsimile of the prescription must include the full name of the prescriber and if applicable the full name of the prescriber's agent transmitting the prescription to the pharmacy.
(2) The original prescription signed by the prescriber from which the facsimile is produced shall not be issued to the patient. The original prescription signed by the prescriber must remain with the patient's records at the prescriber's office or the institutional facility where it was issued.
(3) Prescriptions for schedule II controlled substances may not be transmitted by facsimile except for:
   (a) A resident of a long term care facility pursuant to rule 4729-17-09 of the Administrative Code.
   (b) A narcotic substance issued for a patient enrolled in a hospice. The original prescription must indicate that the patient is a hospice patient. The facsimile transmission must also meet the other requirements of this rule.
   (c) A compounded sterile product prescription for a narcotic substance pursuant to rule 4729-16-03 of the Administrative Code.
(4) A facsimile of a prescription received by a pharmacy in any manner other than transmission directly from the prescriber or the prescriber's agent shall not be considered a valid prescription.

(5) The facsimile of the prescription must include header information identifying the origin of the facsimile.

(F) A prescription may be transmitted by means of a board approved electronic prescription transmission system provided that:

(1) The system requires positive identification of the prescriber as defined in rule 4729-5-01 of the Administrative Code and the full name of any authorized agent of the prescriber who transmits the prescription.
(2) The computer data is retained for a period of three years at the prescriber's office.
(3) An electronic prescription transmission system meeting the requirements of 21 C.F.R. 1311 for both controlled substance and non-controlled substance prescriptions shall be considered approved by the state board of pharmacy.

(G) Pursuant to section 4729.38 of the Revised Code if a prescriber does not want a pharmacist to select a generically equivalent drug the prescriber must handwrite “dispense as written” or “DAW” on the prescription, or if ordering electronically or orally the prescriber specifies that the prescribed drug is medically necessary.

4729-5-30 Manner of issuance of a prescription.

[Editor’s Note: This version is effective 12/29/2017. The version effective previously is included in the prior pages.]
(A) A prescription, to be valid, must be issued for a legitimate medical purpose by an individual prescriber acting in the usual course of the prescriber’s professional practice. The responsibility for the proper prescribing is upon the prescriber, but a corresponding responsibility rests with the pharmacist who dispenses the prescription. An order purporting to be a prescription issued not in the usual course of bona fide treatment of a patient is not a prescription and the person knowingly dispensing such a purported prescription, as well as the person issuing it, shall be subject to the penalties of law.

(B) All prescriptions issued by a prescriber shall:
1. Be dated as of and on the day when issued.
2. Contain the manually printed, typewritten, or preprinted full name, professional title, and address of the prescriber. The prescriber’s address shall include the physical address of the prescriber’s practice location.
3. Indicate a telephone number where the prescriber can be personally contacted during normal business hours.
4. Indicate the full name and residential address of the patient. The patient’s residential address shall include the patient’s physical street address.
5. Indicate the drug name and strength.
6. Indicate the quantity to dispense.
7. Indicate the appropriate and explicit directions for use.
8. Specify the number of times or the period of time for which the prescription may be refilled. If no such authorization is given, the prescription may not be refilled except in accordance with section 4729.281 of the Revised Code. A prescription marked “Refill P.R.N.” or some similar designation is not considered a valid refill authorization.
10. Authorize refills for schedules III and IV controlled substances only as permitted by section 3719.05 of the Revised Code.
11. Not authorize a refill beyond one year from the date of issuance for schedule V controlled substances and for dangerous drugs that are not controlled substances.
12. Identify the trade name or generic name of the drug(s) in a compounded prescription.
13. Not be coded in such a manner that it cannot be dispensed by any pharmacy of the patient’s choice.
14. For a controlled substance:
   a. Indicate the drug enforcement administration registration number of the prescriber pursuant to Title 21 CFR 1306.05 (3/31/2010).
   b. Except for veterinarians licensed pursuant to Chapter 4741 of the Revised Code, indicate either:
      i. The ICD-10-CM medical diagnosis code of the primary disease or condition that the controlled substance is being used to treat. The code shall, at a minimum, include the first four characters of the ICD-10-CM medical diagnosis code, sometimes referred to as the category and the etiology (ex. M16.5).
      ii. For dentists licensed pursuant to Chapter 4715 of the Revised Code, the Code on Dental Procedures and Nomenclature (CDT Code), as published by the American Dental Association, of the dental treatment requiring the controlled substance prescription.
15. Except for veterinarians licensed under Chapter 4741 of the Revised Code, for all controlled substances and products containing gabapentin:
   a. Indicate the days’ supply of the prescription.
   b. For a managing pharmacist acting as an agent of a physician pursuant to section 4729.38 of the Revised Code and rules adopted thereunder, the prescription shall include the full name of the managing pharmacist.
16. Be issued in compliance with all applicable federal and Ohio laws, rules, and
regulations.

(C) A pharmacist may make the following modifications to a prescription in accordance with this paragraph.

(1) A pharmacist may add or change the patient's address upon verification with the patient or patient's caregiver.

(2) For a schedule II controlled substance prescription, a pharmacist may add or change the dosage form, drug strength, drug quantity, directions for use, or issue date only after consultation with and agreement of the prescriber.

(3) For a schedule III-V controlled substance prescription, a pharmacist may add or change the dosage form, drug strength, drug quantity, directions for use, or issue date only after consultation with and agreement of the prescriber or agent of the prescriber.

(4) Except as provided for in paragraph (C)(7) of this rule, for a non-controlled substance prescription, a pharmacist may add or change the dosage form, drug strength, drug quantity, directions for use, or issue date only after consultation with and agreement of the prescriber or agent of the prescriber.

(5) For all prescriptions, a pharmacist may add or change the days' supply, ICD-10-CM medical diagnosis code, or code on dental procedures and nomenclature only after consultation with and agreement of the prescriber or agent of the prescriber.

(6) A pharmacist may modify a prescription to specify if “dispense as written” or another phrase or indicator having a similar meaning applies to the following only after consultation with and agreement of the prescriber or agent of the prescriber:

(a) Selection of a generically equivalent drug or interchangeable biological product in accordance with section 4729.38 of the Revised Code.

(b) Dispensing a quantity or amount of a drug that varies from the quantity or amount of the drug that otherwise would be dispensed pursuant to the prescription in accordance with section 4729.40 of the Revised Code.

(7) For a non-controlled substance prescription, a pharmacist may change the dosage form, drug strength, drug quantity and directions for use without consultation with and agreement of the prescriber or agent of the prescriber in accordance with the following:

(a) The drug selected must have the same active chemical ingredients of equivalent strength, frequency and duration of therapy as the prescribed drug;

(b) The prescription is for a human patient;

(c) No modifications shall be made pursuant to this paragraph if “dispense as written” or another phrase or indicator having a similar meaning is indicated on the prescription pursuant to paragraphs (I) and (J) of this rule;

(d) The pharmacist who selects the drug to be dispensed pursuant to this paragraph shall assume the same responsibility for selecting the dispensed drug as would be incurred in filling a prescription for a drug using the prescribed form; and

(e) The pharmacist shall not permit substitution between long-acting and short-acting forms of a drug with the same chemical ingredients or between one drug product and two or more drug products with the same chemical ingredients.

(8) All consultations and corresponding changes performed in accordance with this paragraph shall be noted by the pharmacist on the prescription or in the patient's profile and shall be communicated to the patient or patient's caregiver.

(9) A pharmacist shall not make changes to the patient's name, dangerous drug prescribed, except for generic substitution permitted by Ohio law, or the prescriber's signature.

(D) All prescriptions issued on paper to a patient by a prescriber shall be:

(1) Manually signed on the day issued by the prescriber in the same manner as the prescriber would sign a check or legal document.

(2) Issued in compliance with rule 4729-5-13 of the Administrative Code.

(E) When forms are used that create multiple copies of a prescription issued to a patient...

136 Controlled Substances- General Provisions
by a prescriber, the original prescription that includes the actual signature of the prescriber must be issued to the patient for dispensing by a pharmacist.

(F) Oral transmission by the prescriber or the prescriber’s agent of original prescriptions and refills authorized by a prescriber, pursuant to the requirements of this rule, may be transmitted by telephone only to:

1. A pharmacist.
2. A recording device within the pharmacy if the pharmacist is unavailable. The pharmacist must remove the prescription from the recorder and reduce it to writing. The pharmacist is responsible for ensuring the validity of the prescription removed from the recorder.
3. A licensed pharmacy intern if the pharmacist on duty who is supervising the activity of the intern determines that the intern is competent to receive telephone prescriptions.
4. A certified pharmacy technician registered in accordance with section 4729.90 of the Revised Code but only with respect to accepting refill authorizations for dangerous drugs that are not controlled substances from a prescriber or the prescriber’s agent, so long as there is no change from the original prescription.
5. For any prescription transmitted by an agent of a prescriber, the prescriber’s agent must provide the agent’s full name when transmitting an oral prescription.

(G) Original written prescriptions authorized and signed by a prescriber may be transmitted by the prescriber or the prescriber’s agent by facsimile machine to a pharmacy pursuant to the following:

1. The facsimile of the prescription must include the full name of the prescriber and, if applicable, the full name of the prescriber’s agent transmitting the prescription to the pharmacy.
2. The original prescription signed by the prescriber from which the facsimile is produced shall not be issued to the patient. The original prescription signed by the prescriber must remain with the patient’s records at the prescriber’s office or the institutional facility where it was issued.
3. If a prescription is transmitted from an institutional facility where it was not originally issued, only an individual licensed pursuant to Chapter 4723., 4729., 4730 or 4731 of the Revised Code may transmit the prescription as an agent of the prescriber.
4. Prescriptions for schedule II controlled substances may not be transmitted by facsimile except for:
   a. A resident of a long term care facility pursuant to rule 4729-17-09 of the Administrative Code.
   b. A narcotic substance issued for a patient enrolled in a hospice. The original prescription must indicate that the patient is a hospice patient. The facsimile transmission must also meet the other requirements of this rule.
   c. A compounded sterile product prescription for a narcotic substance pursuant to rule 4729-16-03 of the Administrative Code.
5. A facsimile of a prescription received by a pharmacy in any manner other than transmission directly from the prescriber or the prescriber’s agent shall not be considered a valid prescription.
6. The facsimile of the prescription must include header information identifying the origin of the facsimile.

(H) Electronic prescription transmission systems.

1. Except as provided in paragraph (H)(3) of this rule, outpatient prescriptions may be transmitted by means of an electronic prescription transmission system that complies with the requirements of paragraph (B) of this rule.
   If applicable, an outpatient prescription transmitted by means of an electronic prescription transmission system shall include the full name of the prescriber’s agent transmitting the prescription.
2. A controlled substance outpatient prescription shall only be transmitted by means of
an electronic prescription transmission system if the system meets the requirements of 21 CFR 1311 (3/31/2010).

(3) An institutional facility, as defined in rule 4729-17-01 of the Administrative Code, may only transmit inpatient prescriptions by means of a board approved electronic prescription transmission system provided that:

(a) The system requires positive identification of the prescriber as defined in rule 4729-5-01 of the Administrative Code and the full name of any authorized agent of the prescriber who transmits the prescription.

(b) The computer data is retained for a period of three years.

(c) The approved system complies with the rule 4729-17-09 of the Administrative Code.

(4) Except as provided in paragraphs (H)(5) and (H)(6) of this rule, no prescriptions may be transmitted by means of an electronic prescription transmission system that converts the prescription into a computer-generated fax or scanned image.

(5) A non-controlled prescription may be transmitted by means of an electronic prescription transmission system that converts the prescription into a computer-generated fax or scanned image if all the following apply:

(a) The transmission is conducted by means of a board approved system that meets the prescription requirements in accordance with this rule; and

(b) The prescription transmission system operates within a closed-system. A closed system includes a system whereby prescription information is transmitted directly between:

(i) Any division, subsidiary, parent or affiliated or related company under the common ownership and control.

(ii) One or more contracted entities. Contracted means having a written agreement (to include business associate agreements) between one or more prescribers and a pharmacy and shall not include a third-party intermediary unless otherwise approved by the board.

(iii) Any other entities as approved by the board.

(6) A non-controlled prescription may be converted into a computer-generated fax by a board approved third-party intermediary only if the conversion is necessitated by a temporary telecommunication outage of the third-party intermediary or receiving pharmacy.

(I) Pursuant to section 4729.38 of the Revised Code, a pharmacist shall not select a generically equivalent drug or interchangeable biological product if either of the following applies:

(1) In the case of a written or electronic prescription, including a computer-generated prescription, the prescriber handwrites or actively causes to display on the prescription “dispense as written,” “D.A.W.,” “do not substitute,” “brand medically necessary,” or any other statement or numerical code that indicates the prescriber’s intent to prevent substitution. Such a designation shall not be preprinted or stamped on the prescription, but a reminder to the prescriber of the designation procedure may be preprinted or displayed on the prescription form or electronic system the prescriber uses to issue the prescription.

(2) In the case of an oral prescription, the prescriber or the prescriber’s agent specifies that the drug as prescribed is medically necessary or otherwise indicates the prescriber’s intent to prevent substitution.

(J) Pursuant to section 4729.40 of the Revised Code, a pharmacist shall not dispense a quantity or amount of a drug that varies from the quantity or amount of the drug that otherwise would be dispensed pursuant to the prescription if the following applies:

The prescriber included “dispense as written” or another phrase having a similar meaning on the prescription, or, when issuing a prescription electronically or orally, the prescriber did not specify that the quantity or amount of the drug to be dispensed may not vary from the quantity or amount specified in the prescription.

(K) Failure of a prescription to contain the requirements set forth in paragraphs (B)(14) (b) and (B)(15) of this rule or of the pharmacist to obtain the information set forth in paragraphs
(B)(14)(b) and (B)(15) of this rule shall not render the prescription, if dispensed in good faith, to be invalid.

4729-5-38 Immunization and vaccine administration.

(A) A pharmacist or pharmacy intern acting under the direct supervision of a pharmacist may administer in accordance with section 4729.41 of the Revised Code the following:

(1) Any immunization or vaccine that is included in either of the following schedules and is administered according to those schedules:

(a) The immunization schedule for persons aged zero through eighteen years recommended by the advisory committee on immunization practices of the centers for disease control and prevention in the United States department of health and human services (8/17/2015).

(b) Except as listed in paragraph (A)(2) of this rule, the adult immunization schedule recommended by the advisory committee on immunization practices of the centers for disease control and prevention in the United States department of health and human services (8/17/2015).

(2) The zoster vaccine according to the age criteria specified in the F.D.A. approved labeling.

(3) Except as provided in paragraphs (A)(4) and (A)(5) of this rule, any other immunization or vaccine recommended by the advisory committee on immunization practices of the centers for disease control and prevention in the United States department of health and human services if administered in accordance with the recommendations adopted by the committee.

(4) The rabies vaccine for post exposure if all the following are met:

(a) A pharmacist or pharmacy intern does not provide the initial dose of the rabies post exposure vaccine;

(b) Follow-up doses are administered pursuant to a prescription issued by a prescriber; and

(c) The follow-up doses are administered in accordance with recommendations adopted by the advisory committee on immunization practices of the centers for disease control and prevention in the United States department of health and human services (8/17/2015).

(5) The requirements listed in paragraph (A)(4) of this rule do not apply to the rabies vaccine for preexposure if administered in accordance with recommendations adopted by the advisory committee on immunization practices of the centers for disease control and prevention in the United States department of health and human services (8/17/2015).

(B) A pharmacist or pharmacy intern shall obtain informed consent to administer an immunization or vaccination pursuant to paragraph (O) of rule 4729-5-27 of the Administrative Code.

(C) A pharmacist or pharmacy intern shall comply with the vaccine information statement requirements of the National Vaccine Childhood Injury Act, 42 U.S.C. Section 300aa-26 (8/17/2015).

(D) A pharmacist or pharmacy intern who engages in the administration of an immunization or vaccination shall do so in accordance with rules 4729-5-36 and 4729-5-37 of the Administrative Code.

(E) An immunization or vaccine specified in this rule shall not be administered to any individual who is less than thirteen years of age, except in the following situations:

(1) The immunization for influenza is administered to individuals who are seven years of age or older; or

(2) Pursuant to a prescription from a licensed prescriber, an immunization or vaccine is administered to individuals who are seven years of age or older but not more than thirteen years.
Chapter 1. General Hospital Provisions
Part II. Pharmacies and Controlled Substances

of age.

(F) For each immunization administered to an individual by a pharmacist or pharmacy intern, other than an immunization for influenza administered to an individual eighteen years of age or older, the pharmacist or pharmacy intern shall notify the individual's family physician or, if the individual has no family physician, the board of health of the health district in which the individual resides or the authority having the duties of a board of health for that district under section 3709.05 of the Revised Code. The notice shall be given not later than thirty days after the immunization is administered.

4729-5-39 Dispensing of naloxone.

(A) A pharmacist or pharmacy intern under the direct supervision of a pharmacist may dispense naloxone without a prescription to either of the following in accordance with an approved protocol specified in paragraph (B) of this rule:

(1) An individual who there is reason to believe is experiencing or at risk of experiencing an opioid-related overdose;

(2) A family member, friend, or other person in a position to assist an individual who there is reason to believe is at risk of experiencing an opioid-related overdose.

(B) To be considered an approved protocol pursuant to section 4729.44 of the Revised Code, the physician-established protocol for the dispensing of naloxone by a pharmacist or pharmacy intern under the direct supervision of a pharmacist shall include, but is not limited to, the following:

(1) A description of the clinical pharmacology of naloxone.

(2) Indications for use of naloxone as rescue therapy, including criteria for identifying persons eligible to receive naloxone under the protocol.

(3) Precautions and contraindications concerning dispensing naloxone.

(4) Assessment and follow-up actions by the pharmacist or pharmacy intern.

(5) Naloxone products authorized to be dispensed, including all of the following information:

(a) Name of product;
(b) Dose;
(c) Route of administration and required delivery device; and
(d) Directions for use.

(6) Any patient instructions in addition to the counseling specified in paragraphs (C) and (D) of this rule.

(C) A pharmacist or pharmacy intern under the direct supervision of a pharmacist who dispenses naloxone pursuant to this rule shall instruct the individual to whom naloxone is dispensed verbally or in writing to summon emergency services as soon as practicable either before or after administering naloxone.

(D) A pharmacist, pharmacy intern under the direct supervision of a pharmacist, or a pharmacist's designee that is appropriately trained shall personally provide in-person training and written educational materials to the individual to whom naloxone is dispensed, appropriate to the dosage form of naloxone dispensed, including, but not limited to, all of the following:

(1) Risk factors of opioid overdose;
(2) Strategies to prevent opioid overdose;
(3) Signs of opioid overdose;
(4) Steps in responding to an overdose;
(5) Information on naloxone;
(6) Procedures for administering naloxone;
(7) Proper storage and expiration of naloxone product dispensed; and
(8) Information on where to obtain a referral for substance abuse treatment.
(E) If training conducted pursuant to paragraph (D) of this rule is offered by a pharmacist's designee, the pharmacist shall not be required to counsel a patient or caregiver pursuant to rule 4729-5-22 of the Administrative Code if the patient or caregiver refuses the offer of counseling or does not respond to the written offer to counsel. In this situation, when counseling is refused, the pharmacist or their designee shall ensure that such refusal is documented in the presence of the patient or the patient's caregiver.

(F) The pharmacy's responsible person shall ensure that all pharmacists and pharmacy interns that dispense naloxone pursuant to this rule are appropriately trained on the use of naloxone and can meet the training requirements listed in paragraphs (C) and (D) of this rule.

(G) The terminal distributor and the pharmacy's responsible person shall ensure that all pharmacist designees are appropriately trained on the use of naloxone and can meet the training requirements listed in paragraph (D) of this rule.

(H) A pharmacist may document the dispensing of naloxone by the pharmacist or a pharmacy intern supervised by the pharmacist on a prescription form. The form may be assigned a number for record-keeping purposes.

(I) Paragraph (L) of this rule does not apply to institutional pharmacies that provide naloxone to inpatients or patients upon discharge.

(J) A licensed terminal distributor of dangerous drugs may make occasional sales of naloxone at wholesale pursuant to rule 4729-9-10 of the Administrative Code to a state or local law enforcement agency if the terminal distributor is any of the following:

1. A pharmacy;
2. A board of health of a city or general health district;
3. An authority having the duties of a board of health under section 3709.05 of the Revised Code; or
4. A health department operated by such a board or authority.

(K) All physician-established protocols shall be signed and dated by the physician prior to implementation and maintained by the pharmacy's responsible person. The protocol shall be made readily available to the dispensing pharmacist or pharmacy intern under the direct supervision of a pharmacist.

(L) Any pharmacy that dispenses naloxone pursuant to this rule, shall notify the board, in a manner prescribed by the board, within thirty days of establishing an approved protocol. A pharmacy that no longer dispenses naloxone pursuant to this rule shall notify the board, in a manner prescribed by the board, within thirty days of discontinuation.

4729-17-01 Definitions; institutional facility.

As used in Chapter 4729-17 of the Administrative Code:

(A) “Institutional facility” means a hospital as defined in section 3727.01 of the Revised Code, or a facility licensed by the state board of pharmacy and the Ohio department of health, the Ohio department of rehabilitation and correction, the Ohio department of developmental disabilities, or the Ohio department of mental health and addiction services at which medical care is provided on site and a medical record documenting episodes of care, including medications ordered and administered, is maintained, including, the following:

1. Convalescent homes;
2. Developmental facilities;
3. Long term care facilities;
4. Nursing homes;
5. Psychiatric facilities;
6. Rehabilitation facilities;
7. Developmental disability facilities;
Chapter 1. General Hospital Provisions
Part II. Pharmacies and Controlled Substances

(8) Level III sub-acute detoxification facilities certified by the Ohio department of mental health and addiction services;
(9) State or local correctional facilities, as defined in section 5163.45 of the Revised Code;
(10) Any other facility as determined by the board.

(B) “Inpatient” means any person who receives drugs for use while within the institutional facility.

(C) “Inpatient prescription” means a written, electronic, or oral order for a drug to be dispensed for use in treating an inpatient.

(D) “Dispensing of a drug pursuant to an inpatient prescription” means the professional review by a pharmacist required to place a specific drug in final association with the name of a particular inpatient pursuant to the lawful order of a prescriber. In the case of an automated drug delivery system meeting the requirements of rule 4729-5-35 of the Administrative Code, the final association with the name of a particular inpatient will be deemed to have occurred when the pharmacist has given final approval to the patient specific order in the system.

(E) “Contingency drugs” are those drugs which may be required to meet the therapeutic needs of inpatients when a licensed pharmacist is not available and personally in full and actual charge of the institutional pharmacy.

(F) “Emergency drugs” are those drugs which are required to meet the immediate therapeutic needs of inpatients in order to sustain life in an emergency situation.

(G) “Outpatient” means any person who receives drugs for use outside of the institutional facility.

(H) “Electronic drug record keeping system” means a system of storing drug records electronically and capturing the positive identification of the person responsible for a specific drug transaction including, but not limited to, the prescribing, administering, or dispensing of a drug.

(I) “Positive identification” has the same meaning as paragraph (N) of rule 4729-5-01 of the Administrative Code except that a specific hospital having a closed electronic drug record keeping system may be permitted to use identifiers utilizing both a password combined with a personal identifier to document the positive identification of each user for, but not limited to, the prescribing and administration of a drug if approved by the board of pharmacy.

(1) At a minimum, the following items will be considered during the approval process:
(a) Audit controls are in place to detect and deter drug diversion;
(b) Access controls are in place to ensure the identity of a user and to assign accountability of the user for any drug transaction;
(c) Safeguards are in place to prevent and detect the unauthorized use of an individual's password and personal identifier;
(d) An ongoing quality assurance program is in place to ensure that paragraphs (I)(1)(a) to (I)(1)(c) of this rule are being fulfilled and reviewed; and
(e) Policies and procedures are in place to address all of the items in paragraphs (I)(1)(a) to (I)(1)(d) of this rule.

(2) Positive identification pursuant to paragraph (N) of rule 4729-5-01 of the Administrative Code shall always be used to document the:
(a) Dispensing, compounding, or repackaging of a drug;
(b) Removal and possession of a controlled substance to administer to a patient;
(c) Waste of a controlled substance.

(J) “Password” means a private identification that is created by a user to obtain access to an electronic drug record keeping system.

(K) “Personal identifier” means a unique user name or number for identifying and tracking a specific user's access to an electronic drug record keeping system such as social security number, user identification number, or employee number.
(L) “Point of care location” means a location within an institutional facility that stores dangerous drugs and all of the following apply:
(1) The point of care location is licensed as a terminal distributor of dangerous drugs;
(2) The dangerous drugs are not owned by the institutional facility where the point of care location is located;
(3) The dangerous drugs stored are owned by another institutional facility licensed as a terminal distributor of dangerous drugs; and
(4) The location may be used for the administration, personally furnishing or dispensing of dangerous drugs, including controlled substances.

(M) “Outpatient institutional pharmacy” means a pharmacy located within or on the campus of an institutional facility that provides outpatient pharmacy services which is physically separate from, and not contiguous to, the area in which inpatient pharmacy services are provided. An outpatient institutional pharmacy shall have a separate terminal distributor of dangerous drugs license in addition to the license for the institutional facility.

4729-17-02 Responsible person for an institutional pharmacy.

Each institutional pharmacy shall be directed by a pharmacist who holds a current identification card to practice pharmacy in Ohio pursuant to the provisions of section 4729.12 of the Revised Code.

(A) The institutional pharmacy director or designated pharmacist shall be the pharmacist-in-charge pursuant to section 4729.27 of the Revised Code, the responsible person pursuant to rule 4729-5-11 of the Administrative Code, and the pharmacist responsible for maintaining supervision and control over the possession and custody of all dangerous drugs acquired by the institutional facility pursuant to division (B) of section 4729.55 of the Revised Code.

(B) A pharmacist shall be the responsible person for no more than one pharmacy except with written permission from the state board of pharmacy unless granted permission in accordance with paragraph (E) of rule 4729-5-11 of the Administrative Code.

(C) The responsible person shall:
(1) Be responsible for the practice of pharmacy performed within the institution;
(2) Develop, implement, supervise, and coordinate all services provided by the pharmacy;
(3) In conjunction with the appropriate interdisciplinary committees, be responsible for the development of written policies and procedures which are consistent with this chapter of the Administrative Code and other applicable federal and state laws and rules governing the legal distribution of drugs, ensure adherence to these policies and procedures in order to provide for the safe and efficient distribution of drugs in all areas of the institution, and make available a current copy of these written policies and procedures for inspection and/or copying by an employee of the state board of pharmacy;
(4) Be responsible for the security and control of all drugs within the institution;
(5) Be responsible for the maintenance of all records, required by state or federal law to be kept at the licensed location, of the acquisition, use, distribution, and disposition of all drugs.

(D) Any change of the responsible person shall be done in accordance with rule 4729-5-11 of the Administrative Code.

4729-17-03 Security and control of drugs in an institutional facility

(A) In the absence of a licensed pharmacist, drugs ordered by a prescriber for patient treatment may be obtained in the following manner:
(1) Where a licensed pharmacist is not present twenty-four hours-a-day, drugs for
patient treatment may be made available to licensed health care professionals authorized pursuant to the Revised Code to administer drugs in the course of their professional practice by the use of contingency drug supplies pursuant to the provisions of paragraph (A)(2) of this rule. A licensed pharmacist shall be available for emergencies when the institutional pharmacy is closed.

(2) Contingency drugs shall be used only in the absence of a licensed pharmacist, and shall be stored in a locked cabinet(s) or other enclosure(s) constructed and located outside of the institutional pharmacy. The storage area must be sufficiently secure to deny access, without obvious damage, to unauthorized persons. The responsible person shall:

(a) Designate those who may obtain access to the drug supply;
(b) Determine, in conjunction with the appropriate interdisciplinary committees, the drugs that are to be included in the contingency drug supply;
(c) Ensure that such drugs are properly labeled and packaged in sufficient quantities to provide drug therapy during the period when the institutional pharmacy is not open;
(d) Provide controls adequate to prevent diversion of the drugs, and institute record keeping procedures to account adequately for the drugs when used and the positive identification of the person who obtained the drugs from the drug supply;
(e) Provide procedures for the inspection of the contingency drug inventory to ensure proper utilization and replacement of the drug supply.

(3) For a pharmacy located on the premises of the institutional facility, when a drug is not available from the contingency drug supply and such drug is required to treat the immediate needs of an inpatient or outpatient whose health would otherwise be jeopardized, such drug may be obtained from the institutional pharmacy pursuant to written policies and procedures implemented by the responsible person.

(a) The policies and procedures shall:
(i) Identify the personnel authorized to access the pharmacy and the conditions under which access may be gained to the pharmacy;
(ii) Ensure a minimum of two employees of the institution, one of whom shall be a health care professional licensed pursuant to Chapter 4723. (Nursing Practice Act) or 4731. (Medical Practice Act) of the Revised Code and authorized by such chapter to administer drugs in the course of their professional practice, to accompany each other when accessing the pharmacy;
(iii) Provide a written record documenting emergency access to the pharmacy. Such record shall include the names, titles, and positive identification of all institutional personnel accessing the pharmacy, date and time of access, the name and quantity of drugs obtained, the name of the patient, and the name of the ordering prescriber.
(b) The written record of each access to the institutional pharmacy when it is closed and a pharmacist is not present shall be filed, within twenty-four hours, with the responsible person and maintained in the pharmacy for three years.

(B) Supplies of dangerous drugs may be maintained in patient care areas according to written policies and procedures developed and implemented by the responsible person. The policies and procedures shall:

(1) Provide for a limited quantity of dangerous drugs to be maintained at any one location;
(2) Provide for the proper storage and labeling of all such drugs;
(3) Provide for storage in a secure area. If dangerous drugs cannot be stored in a secure area, they shall be stored in a container which is sealed with a tamper-evident seal that must be broken to gain access to the drugs;
(4) Provide for notification of the responsible person, or designated pharmacist, when the dangerous drug supply has been accessed and/or drugs used;
(5) Provide for replacement of the drugs used, and the dangerous drug supply to be re-sealed;
(6) Provide for inspection of the dangerous drug supply, on a regular basis, to detect unauthorized use of such drugs and which drugs have exceeded their expiration or beyond use date;

(7) Provide adequate record keeping procedures to document the disposition of drugs from the supply.

(C) Security

(1) All areas occupied by an institutional pharmacy shall be capable of being secured by key, or other effective mechanism, so as to prevent access by unauthorized personnel.

(2) In the absence of a licensed pharmacist, all areas occupied by an institutional pharmacy shall be secured so as to prevent access by unauthorized personnel.

(3) The responsible person shall develop and implement policies and procedures which will detect and deter the diversion and/or adulteration of drugs.

4729-17-04 Records; institutional pharmacy.

All drug records shall be maintained for a period of three years pursuant to section 4729.37 of the Revised Code. All drug records must be readily retrievable within three working days, excluding holidays and weekends, of all drug transactions within the previous three years. Electronic drug record keeping systems, computerized record keeping systems, or subsequent storage of such records, must be readily retrievable via digital display, hard copy printout, or other mutually agreeable transfer medium. If an electronic drug record keeping system is being utilized as defined in paragraph (H) of rule 4729-17-01 of the Administrative Code the method(s) of achieving positive identification must be approved by the state board of pharmacy prior to implementation pursuant to paragraph (I) of rule 4729-17-01 of the Administrative Code. The responsible person shall be responsible for maintaining the following records:

(A) A record of all drugs purchased, the quantity received, and the name, address, and wholesale distributor registration number of the person from whom the drugs were purchased.

(B) All drug orders and records relating to the practice of pharmacy.

(1) Records of drugs dispensed shall include, but are not limited to:

(a) The name, strength, and quantity of drugs dispensed;

(b) The date of dispensing;

(c) The name of the inpatient to whom, or for whose use, the drug was dispensed; and

(d) Positive identification of all pharmacists involved in the dispensing.

(2) All other records relating to the practice of pharmacy other than dispensing shall include, but are not limited to:

(a) The name of the inpatient to whom, or for whose benefit, the activity was performed;

(b) The practice of pharmacy activity performed;

(c) The results of the activity, if applicable; and

(d) Positive identification of all pharmacists involved in the activity, identifying the function performed by each pharmacist.

(3) Records of drugs dispensed for outpatients shall be maintained pursuant to rule 4729-5-27 of the Administrative Code.

(C) A record of all drugs compounded or repackaged for use only within the institution, which shall include at least the following:

(1) Name of drug, strength, quantity, and dosage form;

(2) Manufacturer’s or distributor’s control number;

(3) Manufacturer’s or distributor’s name, if a generic drug is used;

(4) Pharmacy control number;

(5) Manufacturer’s or distributor’s expiration date;

(6) The pharmacy’s expiration date or beyond-use date;

(7) Positive identification of the pharmacist responsible for the compounding or
Chapter 1. General Hospital Provisions
Part II. Pharmacies and Controlled Substances

repackaging of the drug.
(D) A record of the distribution of dangerous drugs to other areas of the institution for administration or use as described in paragraph (B) of rule 4729-17-03 of the Administrative Code, which shall include at least the following:
   (1) The name, strength, dosage form, and amount of drug distributed;
   (2) The area receiving the drug;
   (3) The date distributed;
   (4) Positive identification of the individual receiving the drug if it is a controlled substance;
   (5) The area of the institution receiving the dangerous drug shall make a record of all such drugs administered to patients. Such records shall include at least the following:
      (a) Name of the patient;
      (b) Name, dosage form, and strength when applicable of the drug;
      (c) Date and time the drug was administered;
      (d) Quantity administered;
      (e) Positive identification of the personnel administering the drug.
(E) A log that must be maintained of all changes made to a drug record in an electronic drug record keeping system or a computerized record keeping system after a drug transaction has been made. Such log may be accessible for review, but shall be protected from being altered in any way. The log must contain at least, but is not limited, to the following:
   (1) Date and time of change;
   (2) Changes made;
   (3) Person making the change.

4729-17-05 Controlled substance recordkeeping.

(A) All controlled substances dispensed to inpatients in an institutional facility in quantities exceeding a seventy-two-hour supply shall be dispensed and maintained according to the following requirements:
   (1) All controlled substances dispensed in quantities exceeding a seventy-two-hour supply shall be packaged in tamper-evident, unit-of-use containers except multidose liquids and injectables where unit-of-use packaging is not available;
   (2) The drugs shall be stored in a secure location with access limited to authorized individuals;
   (3) A proof-of-use sheet or other board-approved recordkeeping system shall be maintained for each drug and shall include at least, but is not limited to, the following information:
      (a) Patient name,
      (b) Date and time of access,
      (c) Drug name, strength, and quantity obtained,
      (d) The positive identification of the person doing the administration, and, if applicable,
      (e) The positive identification of both the person and the witness who waste a partial dose of a controlled substance;
   (4) At every change of shift, a reconciliation must be conducted by both the leaving and arriving licensed health care professional responsible for the security of these drugs in the area in which they are stored and must include at least the following:
      (a) A physical count and reconciliation of the controlled substances and proof-of-use sheets, if applicable, to ensure the accountability of all doses,
      (b) An inspection of the packaging to ensure its integrity,
      (c) The positive identification of the persons conducting the reconciliation, and
      (d) The immediate reporting of any unresolved discrepancy to the appropriate people
within the institution. A pharmacist at the pharmacy department responsible for the terminal distributor of dangerous drugs license must be one of those notified.

(B) All controlled substances maintained as stock in areas outside of the pharmacy pursuant to paragraph (B) of rule 4729-17-03 of the Administrative Code shall meet the following requirements, unless they are stored in a secure, automated storage system that meets the requirements of paragraph (C) of this rule:

1. The drugs shall be stored in a secure location with access limited to authorized individuals;
2. A proof-of-use sheet or other board approved recordkeeping system shall be maintained for each drug and shall include at least, but is not limited to, the following information:
   a. Patient name,
   b. Date and time of access,
   c. Drug name, strength, and quantity obtained,
   d. The positive identification of the person doing the administration, and, if applicable,
   e. The positive identification of both the person and the witness who waste a partial dose of a controlled substance;
3. At every change of shift, a reconciliation must be conducted by both the leaving and arriving licensed health care professional responsible for the security of these drugs in the area in which they are stored and must include at least the following:
   a. A physical count and reconciliation of the controlled substances and proof-of-use sheets, if applicable, to ensure the accountability of all doses,
   b. An inspection of the packaging to ensure its integrity,
   c. The positive identification of the persons conducting the reconciliation, and
   d. The immediate reporting of any unresolved discrepancy to the appropriate people within the institution. A pharmacist at the pharmacy department responsible for the terminal distributor of dangerous drugs license must be one of those notified;
4. All controlled substances shall be packaged in tamper-evident containers except multidose liquids and injectables where unit-of-use packaging is not available.

(C) All controlled substances maintained as stock in areas outside of the pharmacy pursuant to paragraph (B) of rule 4729-17-03 of the Administrative Code that are stored in a secure, automated storage system shall be handled as in paragraph (B) of this rule unless the automated storage system meets all of the following requirements:

1. The drugs shall be stored in a secure location with access limited to authorized individuals;
2. The system shall document the positive identification of every person accessing the system and shall record the date and time of access;
3. A recordkeeping system shall be maintained that shall include at least, but is not limited to, the following information:
   a. Patient name,
   b. Date and time of access,
   c. Drug name, strength, and quantity removed,
   d. The positive identification of the person removing the drug, and, if applicable,
   e. The positive identification of both the person and the witness who waste a partial dose of a controlled substance;
4. Periodically, the responsible person shall cause a reconciliation of the automated storage system to be conducted which must include at least the following:
   a. A physical count and reconciliation of the controlled substances to ensure the accountability of all doses,
   b. An inspection of the packaging to ensure its integrity,
   c. The positive identification of the persons conducting the reconciliation,
Chapter 1. General Hospital Provisions
Part II. Pharmacies and Controlled Substances

(d) The immediate reporting of any unresolved discrepancy to the appropriate people within the institution. A pharmacist at the pharmacy department responsible for the terminal distributor of dangerous drugs license must be one of those notified;

(5) Access to all controlled substances stored in the automated storage system shall be limited to one drug and strength at a time;

(6) All controlled substances stored in the automated storage system shall be packaged in tamper-evident containers, unless the system only allows access to one dose at a time.

4729-17-08 Minimum standards for an institutional pharmacy.

(A) Resources
(1) All pharmacists working in a pharmacy must be able to access all current federal and state laws, regulations, and rules governing the legal distribution of drugs in Ohio;
(2) The pharmacy shall have access to the references necessary to conduct a pharmacy in a manner that is in the best interest of the patients served and to comply with all state and federal laws, rules and regulations; and
(3) Telephone number of a poison control center.

(B) Drug inventory, fixtures, and space
(1) The inventory of drugs and equipment shall be commensurate with the scope of pharmacy services provided, and housed in suitable, well-lighted and well-ventilated room(s), in a clean and sanitary area.
(2) All areas where drugs are stored shall be maintained at temperatures which will ensure the integrity of the drugs prior to their dispensing or administration as stipulated by the USP/NF and/or the manufacturer's or distributor's labeling.
(3) All areas where drugs are stored shall provide adequate physical security to deter and detect their diversion and/or adulteration.

(C) Personnel
The pharmacy shall be appropriately staffed to operate in a safe and effective manner pursuant to section 4729.55 of the Revised Code. An employee of a pharmacy that may have contact with patients or the general public must be identified by a nametag that includes the employee’s job title.

4729-17-09 Drug orders for patients of an institutional facility.

(A) Drugs shall be dispensed by a pharmacist for inpatients pursuant to an original patient specific order issued by a prescriber.
(1) Drug orders for inpatients of an institutional facility transmitted to a pharmacist by use of an electronic drug record keeping system may be considered an original order for the dispensing of drugs. Access to such system for entering and transmitting original orders shall be restricted to licensed health care professionals using positive identification. If the licensed health care professional entering the order into the system is not the prescriber, there shall be a system in place requiring the positive identification of the prescriber for each order within a reasonable period of time which shall be available in a readily retrievable fashion.
(2) Oral orders issued by a prescriber for inpatients of an institutional facility may be transmitted to a pharmacist by personnel authorized by, and in accordance with, written policies and procedures of the facility. Such orders shall be recorded by the pharmacist, noting the full name(s) of the authorized personnel transmitting the order. Oral orders issued by a prescriber and transmitted by authorized personnel shall be verified by the prescriber using positive identification within a reasonable time and as required by the written policies and procedures of the facility.
(3) Drug orders for inpatients of an institutional facility transmitted to a pharmacist by use
of a facsimile machine to facsimile machine transfer shall be transmitted by personnel authorized by, and in accordance with, written policies and procedures of the facility. The pharmacist receiving the facsimile shall have in place written policies and procedures allowing only authorized personnel access to the drug order facsimile. The pharmacist shall maintain the facsimile showing the origin of the order as a part of the drug order record. This facsimile must be maintained if it is the only record showing the pharmacist responsible for dispensing the drug.

(B) All orders for drugs for inpatients shall include, but are not limited to, at least the following:
   (1) Name of patient;
   (2) Name, strength, and dosage form of drug;
   (3) Directions for use, including route of administration;
   (4) Date prescribed; and
   (5) Prescriber's positive identification.

(C) Drugs shall be dispensed for outpatients pursuant to an original order of a prescriber. All orders for the dispensing of drugs to outpatients shall, at a minimum, conform to rule 4729-5-30 of the Administrative Code, shall be labeled in accordance with rule 4729-5-16 of the Administrative Code, and the records shall be maintained in accordance with rule 4729-5-27 of the Administrative Code.

(D) An original signed prescription for a schedule II controlled substance prepared in accordance with federal and state requirements and issued for a resident in a long term care facility may be transmitted by the prescriber or the prescriber's agent to the dispensing pharmacy by facsimile. The facsimile shall serve as the original written prescription and shall be received and maintained pursuant to rules 4729-5-21 and 4729-5-30 of the Administrative Code. The original signed prescription must remain with the patient's records at either the prescriber's office or the long term care facility.

4729-17-10 Labeling of prescriptions for patients of an institutional facility.

(A) All dangerous drugs dispensed for use by inpatients in an institutional facility, whereby the drug is not in the possession of the ultimate user prior to administration, shall meet the following requirements:
   (1) The label of a single unit package of an individual-dose or unit-dose system of packaging of drugs shall include:
      (a) The non-proprietary or proprietary name of the drug;
      (b) The route of administration, if other than oral;
      (c) The strength and volume, where appropriate, expressed in the metric system whenever possible;
      (d) The control number and expiration date;
      (e) Identification of the manufacturer, packer or distributor, or if the repackager is the dispensing pharmacy identification of the repackager, shall be by name or by the final seven digits of their terminal distributor of dangerous drugs license number, and such identification shall be clearly distinguishable from the rest of the label;
      (f) Special storage conditions, if required.
   (2) When a multiple-dose drug distribution system is utilized, including dispensing of single unit packages, the drugs shall be dispensed in a container to which is affixed a label containing the following information:
      (a) Identification of the dispensing pharmacy;
      (b) The patient's full name;
      (c) The date of dispensing;
      (d) The non-proprietary and/or proprietary name of the drug;
Chapter 1. General Hospital Provisions
Part II. Pharmacies and Controlled Substances

(e) The strength, expressed in the metric system whenever possible.
(3) Multiple drugs may be packaged in the same container such that the different drugs
are in contact with each other only under the following conditions:
(a) The number of drugs placed in one package cannot exceed the capability of the
receptacle to prevent damage to the dosage forms.
(b) The quantity dispensed may not be more than a thirty-one-day supply.
(c) The labels must be of sufficient size to properly and clearly label a thirty-one-day or
less supply with all information required by state and federal law including accessory labels.
(d) Each individual package must include a beyond-use date of not more than sixty days
from the date the drugs were placed in the package.
(e) Medications which have been packaged in multi-dose packaging may not be returned
to stock or redispensed when returned to the pharmacy for any reason.
(f) When the drugs are not in the possession of the ultimate user and any one drug
within each individual package has been discontinued, all drugs in the individual package are
deemed adulterated and they may not be administered unless otherwise approved by the board
of pharmacy.
(g) The packaging is tamper-evident.
(h) Any pharmacist/pharmacy using multi-dose packaging must implement policies and
procedures which will exclude drugs having the following characteristics from such packaging:
(i) The U.S.P. monograph or official labeling requires dispensing in the original container;
(ii) The drugs or dosage forms are incompatible with packaging components or each
other;
(iii) The drugs are therapeutically incompatible when administered simultaneously;
(iv) The drug products require special packaging.
(4) At least the name of the patient must be placed on all medication containers too
small to bear a complete label and dispensed in a container bearing a complete label.
(B) All drugs dispensed to inpatients for self-administration shall be labeled in
accordance with paragraphs (A), (B), and (C) of rule 4729-5-16 of the Administrative Code.
(C) Whenever any drugs are added to parenteral solutions, such admixtures shall bear a
distinctive label indicating:
(1) The patient's full name;
(2) The name and amount of the parenteral solution;
(3) The name and amount of the drug(s) added;
(4) The expiration date or beyond-use date;
(5) The name and address of the institutional facility pharmacy;
(6) Cautionary statements, if required.
(D) All drugs dispensed for use by outpatients of an institutional facility shall be labeled
in accordance with paragraphs (A), (B), and (C) of rule 4729-5-16 of the Administrative Code
except as noted in paragraph (A) of rule 4729-17-10 of the Administrative Code.

4729-17-13 D.E.A. numbers for hospital employed prescribers.

(A) A person authorized to write prescriptions pursuant to rule 4729-5-15 of the
Administrative Code who is employed as a staff prescriber of a hospital, is not individually
registered under the provisions of the controlled substances act and, therefore, does not
possess a “Drug Enforcement Administration” (D.E.A.) number, may administer, dispense, and
prescribe controlled substances under the registration of the hospital.
(B) A person pursuing an approved training program within the jurisdiction of the hospital
and authorized to write prescriptions pursuant to paragraph (B) of rule 4729-5-15 of the
Administrative Code may administer, dispense, or prescribe controlled substances under the
registration of the hospital. Persons pursuing such approved training programs may function in
sites outside the physical confines of the hospital only if such sites are part of the training program and the persons are under the employment and jurisdiction of the hospital administering the approved program. While functioning in the outside sites, such persons may continue to use the internal code assigned by the hospital administering the approved program, upon mutual agreement of the hospital and the outside site.

(C) The administering, dispensing, or prescribing must be done in the usual course of his/her professional practice and only within the scope of his/her employment.

(D) Each person so authorized must be assigned a specific internal code number by the hospital which will be used as a suffix to the hospital D.E.A. registration number. Such internal code number shall consist of numbers, letters, or a combination thereof, shall be preceded by a hyphen, and no more than ten characters in length, excluding the hyphen. A list of the internal codes and the corresponding individual prescribers must be kept by the hospital and made available at all times to other registrants, state board of pharmacy designated agents, investigators of the state medical board, and federal, state, county, or municipal law enforcement agencies for verification. An initial list of internal codes and the corresponding individual prescribers must be electronically submitted to the state board of pharmacy, in a format prescribed by the board, within thirty days of the effective date of this rule. Additions, deletions or changes to the list must be submitted to the state board of pharmacy within five business days of any such addition, deletion or change.

4729-37-04 Information required for submission.

[Editor's Note: This version of the statute is effective until 12/29/2017. The version effective subsequently is included next.]

(A) Pharmacies pursuant to paragraphs (A) and (B) of rule 4729-37-03 of the Administrative Code that dispense drugs identified in rules 4729-37-02 and 4729-37-12 of the Administrative Code to outpatients residing in this state must report the following dispensing information to the board of pharmacy:

1. Pharmacy drug enforcement administration registration number. If not applicable, another mutually acceptable identifier;
2. Pharmacy name;
3. Pharmacy address;
4. Pharmacy telephone number;
5. Patient full name;
6. Patient residential address;
7. Patient telephone number;
8. Patient date of birth;
9. Patient gender;
10. Prescriber's full name (first name and last name);
11. Prescriber's drug enforcement administration registration number. If not applicable, another mutually acceptable identifier;
12. Date prescription was issued by the prescriber;
13. Date the prescription was dispensed by the pharmacy;
14. Indication of whether the prescription dispensed is new or a refill;
15. Number of the refill being dispensed;
16. National drug code of the actual drug dispensed;
17. Quantity of drug dispensed;
18. Number of days’ supply of drug dispensed;
19. Serial or prescription number assigned to the prescription order;
20. Source of payment for the prescription that indicates one of the following: private
Chapter 1. General Hospital Provisions
Part II. Pharmacies and Controlled Substances

pay (cash), medicaid, medicare, commercial insurance, or workers’ compensation;
   (21) Pharmacy national provider identification (NPI) number; and
   (22) Prescriber’s national provider identification (NPI) number, unless the prescriber is a
licensed veterinarian as defined in section 4741.01 of the Revised Code.

(B) Prescribers pursuant to paragraph (E) of rule 4729-37-03 of the Administrative Code
that personally furnish drugs identified in rules 4729-37-02 and 4729-37-12 of the Administrative
Code to outpatients must report the following dispensing information to the board of pharmacy:
(1) Prescriber drug enforcement administration registration number. If not applicable,
another mutually acceptable identifier;
   (2) Prescriber full name (first and last name);
   (3) Prescriber address;
   (4) Prescriber telephone number;
   (5) Patient full name;
   (6) Patient residential address;
   (7) Patient telephone number;
   (8) Patient date of birth;
   (9) Patient gender;
   (10) Date the drug was personally furnished by the prescriber;
   (11) National drug code of the actual drug dispensed;
   (12) Quantity of drug dispensed;
   (13) Number of days’ supply of drug dispensed; and
   (14) Source of payment for the prescription that indicates one of the following: private
pay (cash), medicaid, medicare, commercial insurance, or workers’ compensation.

(C) Wholesalers and pharmacies pursuant to paragraphs (C) and (D) of rule 4729-37-03
of the Administrative Code that sell drugs identified in rules 4729-37-02 and 4729-37-12 of the
Administrative Code at wholesale must at least report the following information to the board of
pharmacy in the format described in rule 4729-37-06 of the Administrative Code:
(1) Wholesaler or pharmacy drug enforcement administration registration number. If not
applicable, then another mutually acceptable identifier;
(2) Purchaser’s drug enforcement administration registration number. If not applicable,
then another mutually acceptable identifier;
   (3) National drug code number of the actual drug sold;
   (4) Quantity of the drug sold;
   (5) Date of sale; and
   (6) Transaction identifier or invoice number.

4729-37-04 Information required for submission.

[Editor's Note: This version of the statute is effective 12/29/2017. The version effective prior to
that date is included in the prior pages.]

(A) Pharmacies pursuant to paragraphs (A) and (B) of rule 4729-37-03 of the
Administrative Code that dispense drugs identified in rules 4729-37-02 and 4729-37-12 of the
Administrative Code to outpatients residing in this state must report the following dispensing
information to the board of pharmacy:
   (1) Pharmacy drug enforcement administration registration number. If not applicable,
another mutually acceptable identifier;
   (2) Pharmacy name;
   (3) Pharmacy address;
   (4) Pharmacy telephone number;
   (5) Patient full name;
Chapter 1. General Hospital Provisions
Part II. Pharmacies and Controlled Substances

Controlled Substances - General Provisions

(6) Patient residential address;
(7) Patient telephone number;
(8) Patient date of birth;
(9) Patient gender;
(10) Prescriber's full name (first name and last name);
(11) Prescriber's drug enforcement administration registration number. If not applicable, another mutually acceptable identifier;
(12) Date prescription was issued by the prescriber;
(13) Date the prescription was dispensed or sold by the pharmacy;
(14) Indication of whether the prescription dispensed is new or a refill;
(15) Number of the refill being dispensed;
(16) National drug code of the actual drug dispensed;
(17) Quantity of drug dispensed;
(18) Number of days' supply of drug dispensed as indicated by the prescriber pursuant to rule 4729-5-30 of the Administrative Code, except as follows:
   (a) If a days' supply is not indicated by the prescriber, the pharmacy shall calculate and report the number of days' supply of drug dispensed;
   (b) If the quantity of drug dispensed is different from the quantity indicated on the prescription, the pharmacy shall calculate and report the number of days' supply of drug dispensed.
(19) Serial or prescription number assigned to the prescription order;
(20) Source of payment for the prescription that indicates one of the following: private pay (cash), medicaid, medicare, commercial insurance, or workers' compensation;
(21) Pharmacy national provider identification (NPI) number;
(22) Prescriber's national provider identification (NPI) number, unless the prescriber is a licensed veterinarian as defined in section 4741.01 of the Revised Code; and
(23) Any of the following as indicated by the prescriber pursuant to rule 4729-5-30 of the Administrative Code:
   (a) The ICD-10-CM medical diagnosis code of the primary disease or condition that the controlled substance drug is being used to treat. The code shall, at a minimum, include the first four characters of the ICD-10-CM medical diagnosis code, sometimes referred to as the category and the etiology (ex. M16.5);
   (b) For dentists licensed pursuant to Chapter 4715 of the Revised Code, the Code on Dental Procedures and Nomenclature (CDT Code), as published by the American dental association, of the dental treatment requiring the controlled substance prescription;
   (c) If no such code is indicated on the prescription, the pharmacy shall indicate “NC” in the diagnosis data field.

B) Prescribers pursuant to paragraph (E) of rule 4729-37-03 of the Administrative Code that personally furnish drugs identified in rules 4729-37-02 and 4729-37-12 of the Administrative Code to outpatients must report the following information to the board of pharmacy:
(1) Prescriber drug enforcement administration registration number. If not applicable, another mutually acceptable identifier;
(2) Prescriber full name (first and last name);
(3) Prescriber address;
(4) Prescriber telephone number;
(5) Patient full name;
(6) Patient residential address;
(7) Patient telephone number;
(8) Patient date of birth;
(9) Patient gender;
(10) Date the drug was personally furnished by the prescriber;
Chapter 1. General Hospital Provisions
Part II. Pharmacies and Controlled Substances

(11) National drug code of the actual drug personally furnished;
(12) Quantity of drug personally furnished;
(13) Number of days' supply of drug personally furnished; and
(14) Source of payment for the prescription that indicates one of the following: private pay (cash), medicaid, medicare, commercial insurance, or workers' compensation.

(15) Either of the following:
(a) The ICD-10-CM medical diagnosis code of the primary disease or condition that the controlled substance drug is being used to treat. The code shall, at a minimum, include the first four characters of the ICD-10-CM medical diagnosis code, sometimes referred to as the category and the etiology (ex. M16.5);
(b) For dentists licensed pursuant to Chapter 4715 of the Revised Code, the Code on Dental Procedures and Nomenclature (CDT Code), as published by the American dental association, of the dental treatment requiring the controlled substance prescription.

(C) Wholesalers and pharmacies pursuant to paragraphs (C) and (D) of rule 4729-37-03 of the Administrative Code that sell drugs identified in rules 4729-37-02 and 4729-37-12 of the Administrative Code at wholesale must at least report the following information to the board of pharmacy in the format described in rule 4729-37-06 of the Administrative Code:
(1) Wholesaler or pharmacy drug enforcement administration registration number. If not applicable, then another mutually acceptable identifier;
(2) Purchaser's drug enforcement administration registration number. If not applicable, then another mutually acceptable identifier;
(3) National drug code number of the actual drug sold;
(4) Quantity of the drug sold;
(5) Date of sale; and
(6) Transaction identifier or invoice number.

4729-37-05 Electronic format required for the transmission of dispensing information.

[Editor's Note: This version of the statute is effective until 12/29/2017. The version effective subsequently is included next.]

(A) All pharmacy dispensing information or prescriber personally furnishing information required to be submitted to the board of pharmacy pursuant to rule 4729-37-04 of the Administrative Code must be transmitted in the format specified by the “American Society for Automation in Pharmacy” (ASAP) for prescription monitoring programs.

(B) In the event that a pharmacy or a prescriber cannot electronically transmit the required information pursuant to rule 4729-37-04 of the Administrative Code they must immediately contact the board of pharmacy to determine a mutually acceptable method of reporting. The pharmacy or prescriber must document in writing to the board of pharmacy the reasons for their inability to submit the required information.

4729-37-05 Electronic format required for the transmission of dispensing information.

[Editor's Note: This version of the statute is effective 12/29/2017. The version effective previously is included in the prior pages.]

(A) All pharmacy dispensing information or prescriber personally furnishing information required to be submitted to the board of pharmacy pursuant to rule 4729-37-04 of the Administrative Code must be transmitted in the following format specified by the “American Society for Automation in Pharmacy” (ASAP) for prescription monitoring programs:
Controlled Substances- General Provisions

Chapter 1. General Hospital Provisions
Part II. Pharmacies and Controlled Substances

(B) In the event that a pharmacy or a prescriber cannot electronically transmit the required information pursuant to rule 4729-37-04 of the Administrative Code, the pharmacy or prescriber shall immediately contact the board of pharmacy to determine a mutually acceptable method of reporting. The pharmacy or prescriber must document in writing to the board of pharmacy the reasons for the inability to submit the required information.

4731-29-01 Standards and procedures for the operation of a pain management clinic.

(A) For the purposes of this rule:

(1) "Board" means state medical board of Ohio.

(2) “Chronic pain” means pain that has persisted after reasonable medical efforts have been made to relieve the pain or cure its cause and that has continued, either continuously, or episodically, for longer than three continuous months. “Chronic pain” does not include pain associated with a terminal condition or with a progressive disease that, in the normal course of progression, may reasonably be expected to result in a terminal condition.

(3) "Hospital" means a hospital registered with the department of health under section 3701.07 of the Revised Code.

(4) “Informed consent” means a process of communication between a patient and physician that results in the patient's signed authorization or agreement to undergo a specific medical intervention after all of the following subjects are discussed:

(a) The patient's diagnosis;
(b) The nature and purpose of the proposed treatment or procedure;
(c) The risks and benefits of a proposed treatment or procedure;
(d) Alternatives regardless of their costs or the extent to which the treatment options are covered by health insurance;
(e) The risks and benefits of the alternative treatment or procedure; and
(f) The risks and benefits of not receiving or undergoing a treatment or procedure.

(5) “Owner” means each person included on the list maintained under division (B)(5) of section 4729.552 of the Revised Code.

(6) “Pain management clinic” means a facility in which the majority of patients of the prescribers at the facility are provided treatment for chronic pain that includes the use of controlled substances. In determining whether the facility meets the requirements of this paragraph:

(a) Calculation of the majority of patients will be based upon the number of patients treated in a calendar month;
(b) Patients receiving controlled substances for treatment of an injury or illness that lasts or is expected to last thirty days or less shall not be considered in the calculation of the majority.

(7) “Pain management clinic” does not include the following:

(a) A hospital;
(b) A facility operated by a hospital for the treatment of pain or chronic pain;
(c) A physician practice owned or controlled, in whole or in part, by a hospital or by an entity that owns or controls, in whole or in part, one or more hospitals;
(d) A school, college, university, or other educational institution or program to the extent that it provides instruction to individuals preparing to practice as physicians, podiatrists, dentists, nurses, physician assistants, optometrists, or veterinarians or any affiliated facility to the extent that it participates in the provision of that instruction;

(e) A hospice program licensed under Chapter 3712 of the Revised Code;
(f) An ambulatory surgical facility licensed under section 3702.30 of the Revised Code;
(g) An interdisciplinary pain rehabilitation program with three-year accreditation from the commission on accreditation of rehabilitation facilities;
(h) A nursing home licensed under section 3721.02 of the Revised Code or by a political
subdivision certified under section 3721.09 of the Revised Code; or

(i) A facility conducting only clinical research that may use controlled substances in studies approved by a hospital-based institutional review board or an institutional review board accredited by the association for the accreditation of human research protection programs.

(8) “Physician” means an individual authorized under Chapter 4731 of the Revised Code to practice medicine and surgery or osteopathic medicine and surgery.

(9) “Prescriber” has the same meaning as in section 4729.01 of the Revised Code.

(B) In the operation of a pain management clinic, the following requirements shall be met:

(1) The pain management clinic shall be owned and operated by one or more physicians. Each physician owner of a pain management clinic shall complete at least twenty hours of category I continuing medical education in pain medicine every two years, to include one or more courses addressing the potential for addiction. The courses completed in compliance with this rule shall be accepted toward meeting the category I requirement for certificate of registration renewal for the physician.

(2) Each physician owner of a pain management clinic must meet one of the following requirements:

(a) Hold current subspecialty certification in pain medicine by the American board of medical specialties, or hold a current certificate of added qualification in pain medicine by the American osteopathic association bureau of osteopathic specialists; or

(b) Hold current subspecialty certification in hospice and palliative medicine by the American board of medical specialties, or hold a current certificate of added qualification in hospice and palliative medicine by the American osteopathic association bureau of osteopathic specialists; or

(c) Hold current board certification by the American board of pain medicine; or

(d) Hold current board certification by the American board of interventional pain physicians; or

(e) Meet both of the following:

(i) Hold current board certification in anesthesiology, psychiatry, neurology, physical medicine and rehabilitation, occupational medicine, or rheumatology by the American board of medical specialties or hold current primary certification in anesthesiology, psychiatry, neurology, physical medicine and rehabilitation, occupational medicine, or rheumatology by the American osteopathic association bureau of osteopathic specialists.

(ii) Demonstrate conformance with the minimal standards of care.

(3) To demonstrate conformance with the minimal standards of care pursuant to paragraph (B)(2)(e)(ii) of this rule, the board shall conduct an inspection of the facility pursuant to division (E) of section 4731.054 of the Revised Code.

(4) The pain management clinic shall be licensed as a category III terminal distributor of dangerous drugs with a pain management clinic classification under section 4729.552 of the Revised Code.

(6) The pain management clinic shall have proper equipment, materials, and personnel on premises to provide appropriate medical treatment, as required by the minimal standards of care.

(C) Each physician who provides care at a pain management clinic shall complete at least twenty hours of category I continuing medical education in pain medicine every two years, to include one or more courses addressing the potential for addiction. The courses completed in compliance with this rule shall be accepted toward meeting the category I requirement for certificate of registration renewal for the physician.
(D) No physician owner of a pain management clinic, employee of the clinic, or person with whom the clinic contracts for services shall:

1. Have ever been denied a license to prescribe, dispense, administer, supply, or sell a controlled substance by the drug enforcement administration or appropriate issuing body of any state or jurisdiction, based, in whole or in part, on the prescriber’s inappropriate prescribing, dispensing, administering, supplying or selling a controlled substance or other dangerous drug.
2. Have held a license issued by the drug enforcement administration or a state licensing agency in any jurisdiction, under which the person may prescribe, dispense, administer, supply or sell a controlled substance, that has ever been restricted, based, in whole or in part, on the prescriber’s inappropriate prescribing, dispensing, administering, supplying, or selling a controlled substance or other dangerous drug.
3. Have been subject to disciplinary action by any licensing entity that was based, in whole or in part, on the prescriber’s inappropriate prescribing, dispensing, diverting, administering, supplying or selling a controlled substance or other dangerous drug.

(E) In providing supervision, direction, and control of individuals at a pain management clinic the physician owner shall establish and ensure compliance with the following:

1. A requirement that a log of patients be maintained for each day the clinic is in operation.
   a. Each log sheet shall contain the month, day, and year;
   b. Each log entry shall include the legible first and last name of each patient;
   c. Each patient shall be required to sign the log at each visit; and
   d. Patient logs shall be maintained for seven years.
2. A requirement that providers obtain informed consent for each patient prior to the commencement of treatment.
3. An on-going quality assurance program that objectively and systematically monitors and evaluates the quality and appropriateness of patient care, evaluates methods to improve patient care, identifies and corrects deficiencies within the clinic, and provides the opportunities to improve the clinic’s performance and quality of care.
4. A requirement that the background, training, certification, and licensure of all clinical staff be documented. Verification of certification and licensure shall be made on an annual basis.
5. A requirement that adequate billing records are maintained for all patients and made available to the board, immediately upon request.
   a. Billing records shall include the amount paid, method of payment, description of services, sufficient information to identify the patient, and the amounts charged to the patient for each date of service;
   b. Billing records shall be maintained for seven years from the last date of treatment of the patient.
6. A requirement that adequate patient records are maintained for all patients and made available to the board, immediately upon request.
   a. Patient records shall contain sufficient information to identify the patient, support the diagnosis, justify the treatment and document the course and results of treatment accurately, by including, at a minimum:
      i. Patient history and physical examination, including history of drug abuse or dependence;
      ii. Diagnostic, therapeutic, and laboratory results, including drug testing results;
      iii. Reports of evaluations, consultations, and hospitalizations;
      iv. Treatment objectives, including discussion of risks and benefits;
      v. Records of drugs prescribed, dispensed or administered, including the date, type, and dosage;
      vi. Treatments;
Chapter 1. General Hospital Provisions
Part II. Pharmacies and Controlled Substances

(vii) Receipt and assessment of drug database or prescription monitoring program reports;
(viii) Copies of records or reports or other documentation obtained from other health care practitioners at the request of the physician and relied upon by the physician in determining the appropriate treatment of the patient. Records provided by the patient shall be designated as such.

(b) Patient records shall be maintained for seven years from the last date of treatment of the patient.
(c) In the treatment of chronic pain the patient records shall contain the information required in rule 4731-21-02 of the Administrative Code in lieu of the requirements of paragraphs (E)(6)(a)(i) to (E)(6)(a)(vi) of this rule.

4731-32-01 Definition of terms.

(A) “Annual report” means the annual compilation of information a physician holding a certificate to recommend medical marijuana must submit to the board that describes the physician's observation regarding the efficacy of treatment with medical marijuana.
(B) “Board” means the state medical board of Ohio.
(C) “Caregiver” means an individual registered under section 3796.08 of the Revised Code to assist a registered patient in the use or administration of medical marijuana.
(D) “Certificate to recommend medical marijuana” means the certificate issued by the board authorizing a physician to recommend treatment with medical marijuana.
(E) “Drug database” means the database established and maintained by the board of pharmacy pursuant to section 4729.75 of the Revised Code.
(F) “Marijuana” means marihuana as defined in section 3719.01 of the Revised Code.
(G) “Medical marijuana” means marihuana that is cultivated, processed, dispensed, tested, possessed, or used for a medical purpose. Medical marijuana is a schedule II controlled substance pursuant to division (B) of section 3796.01 of the Revised Code.
(H) “Medical marijuana entity” means a medical marijuana cultivator, processor, or testing laboratory licensed by the department of commerce under section 3796.09 of the Revised Code, or a retail dispensary licensed by the board of pharmacy under section 3796.10 of the Revised Code.
(I) “Patient” means an individual diagnosed with a qualifying medical condition as defined in division (A) of section 3796.01 of the Revised Code and who is seeking to use medical marijuana.
(J) “Physician” means an individual authorized under Chapter 4731 of the Revised Code to practice medicine and surgery or osteopathic medicine and surgery.

4731-32-03 Standard of care.

In order to practice within the minimal standards of care when recommending treatment with medical marijuana, a physician shall comply with all of the following requirements:
(A) The physician shall establish and maintain a bona fide physician-patient relationship with the patient for the provision of medical services that is established in an in-person visit that complies with this rule and for which there is an expectation that the physician will provide care to the patient on an ongoing basis.
(B) The physician shall create and maintain a medical record that documents the provision of medical services. The documentation shall include all of the following:
(1) Patient’s name and date or dates of office visits or treatments;
(2) A description of the patient’s current medical condition;
(3) Documented assessment of the patient’s medical history, including relevant
prescription history and any history of substance use disorder;
(4) Documented review of any available relevant diagnostic test results;
(5) Documented review of prior treatment and the patient's response to the treatment;
(6) Documented review of the patient's current medication to identify possible drug interactions, including benzodiazepines and opioids.
(7) Documented review that standard medical treatment has been attempted or considered. If standard medical treatment is not attempted, the physician must document the reasons that standard medical treatment is not appropriate for this patient;
(8) Based on evidence or behavioral indications of addiction or drug abuse, the physician may obtain a drug screen on the patient. It is within the physician's discretion to decide the nature of the screen and which type of drug to be screened;
(9) The physician's performance of a physical examination relevant to the patient's current medical condition;
(10) The physician's diagnosis of the patient's medical condition; and
(11) If the patient has been previously diagnosed with a qualifying medical condition as defined in section 3796.01 of the Revised Code, by a physician licensed to practice medicine under section 4731.14 or 4731.29 of the Revised Code, the physician may confirm the diagnosis so long as the physician obtains a copy of the medical records or a detailed written summary indicating the diagnosis and the physician is satisfied that he or she can rely on those records to confirm diagnosis of a qualifying condition. The practitioner shall maintain a copy of any record or report of any physician on which the physician relied for purposes of meeting the requirements under this paragraph.
(C) If the physician diagnoses or confirms the diagnosis of a qualifying medical condition, as that term is defined in section 3796.01 of the Revised Code, the physician shall document in the medical record compliance with all of the following actions when recommending treatment with medical marijuana:
(1) Development of a treatment plan, including consideration of whether treatment with medical marijuana is complementary to standard medical treatment.
(2) The review of the report concerning the patient obtained from the drug database established and maintained by the board of pharmacy pursuant to section 4730.75 of the Revised Code. The report shall cover at least the twelve months immediately preceding the date of the report.
(3) Discussion with the patient regarding any indicators of possible abuse or diversion of controlled substances that are reflected on the drug database report obtained from the board of pharmacy.
(4) The explanation of the risks and benefits of treatment with medical marijuana as it pertains to the patient's qualifying medical condition and medical history.
(5) The patient's consent prior to completing a recommendation for treatment with medical marijuana. If the patient is a minor, the physician shall obtain the consent of the patient's parent or legal representative prior to completing a recommendation for treatment with medical marijuana for the patient.
(6) Whether the patient needs a caregiver to assist in the use or administration of medical marijuana. If the patient needs a caregiver, the physician shall document the name of the caregiver designated by the patient or the patient's legal representative.
(D) In recommending treatment with medical marijuana, the physician or the physician's delegate shall determine from the medical marijuana patient registry established and maintained by the board of pharmacy whether the patient has an active registration for medical marijuana.
(1) If the patient is not registered or if the patient's registration will expire within thirty days, the physician or physician's delegate shall submit the patient's application for registration or renewal in compliance with the requirements of section 3796.04 of the Revised Code and the rules of the board of pharmacy adopted under section 3796.06 of the Revised Code.
(2) The recommendation for treatment with medical marijuana shall include a statement from the physician certifying the following:
(a) A bona fide physician-patient relationship exists between the physician and patient;
(b) The patient has been diagnosed with at least one qualifying medical condition;
(c) Description of the qualifying medical condition(s) and indication whether the qualifying condition is a terminal illness for which the patient has a life expectancy of six months or less;
(d) The physician or physician's delegate has requested from the drug database a report of information related to the patient that covers at least the twelve months immediately preceding the date of the report; and
(e) The physician has informed the patient of the risks and benefits of medical marijuana as it pertains to the patient's qualifying medical condition and medical history.
(E) A physician who recommends treatment with medical marijuana shall be available to provide follow-up care and treatment to the patient, including physical examinations relevant to the patient's condition to determine the efficacy of medical marijuana in treating the patient's qualifying medical condition. If the qualifying condition was indicated as a terminal illness in the prior six months, the physician shall confirm whether the patient's condition continues to be a terminal illness.
(F) The physician shall terminate or decline to issue a new recommendation for medical marijuana under any of the following circumstances:
(1) The patient no longer has the diagnosis of or symptoms of the qualifying medical condition.
(2) The physician no longer has a valid certificate to recommend medical marijuana.
(3) Based on the physician's clinical judgement, the patient or caregiver is abusing or diverting medical marijuana.
(4) The patient is deceased.
(G) The records required for the recommendation of medical marijuana may be kept with the patient's other medical records and shall be retained for at least three years following the last office visit by the patient.
(H) The physician shall submit to the board an annual report describing the physician's observations regarding the effectiveness of medical marijuana in treating patients. The report shall not contain patient-identifying information.

Part III. Drug Take-Back Events

General Provisions

4729.69 Drug take-back events.

(A) The state board of pharmacy, in collaboration with the director of mental health and addiction services and attorney general, shall establish and administer a drug take-back program under which drugs are collected from the community for the purpose of destruction or disposal of the drugs.
(B) The program shall be established and administered in such a manner that it does both of the following:
(1) Complies with any state or federal laws regarding the collection, destruction, or disposal of drugs;
(2) Maintains the confidentiality of individuals who submit or otherwise provide drugs under the program.
(C) In consultation with the director of mental health and addiction services and attorney general, the board shall adopt rules governing the program. The rules shall be adopted in accordance with Chapter 119 of the Revised Code. In adopting the rules, the board shall specify all of the following:

1. The entities that may participate;
2. Guidelines and responsibilities for accepting drugs by participating entities;
3. Drugs that may be collected;
4. Record-keeping requirements;
5. Proper methods to destroy unused drugs;
6. Privacy protocols and security standards;
7. Drug transportation procedures;
8. The schedule, duration, and frequency of the collections of drugs, except that the first collection shall occur not later than one year after May 20, 2011;
9. Any other standards and procedures the board considers necessary for purposes of governing the program.

(D) In accordance with state and federal law, the board may adopt rules to allow an entity participating in the program to return any unused drugs to the pharmacy that originally dispensed the drug. The rules shall include procedures to be followed to maintain the confidentiality of the person for whom the drug was dispensed.

(E) Rules adopted under this section may not do any of the following:
1. Require any entity to establish, fund, or operate a drug take-back program;
2. Establish any new licensing requirement or fee to participate in the program;
3. Require any entity to compile data on drugs collected.

(F) The board may compile data on the amount and type of drugs collected under the program. For purposes of this division, the board may cooperate with a public or private entity in obtaining assistance in the compilation of data. An entity providing the assistance shall not be reimbursed under the program for any costs incurred in providing the assistance.

(G) If the board compiles data under division (F) of this section, the board shall submit a report to the governor and, in accordance with section 101.68 of the Revised Code, the general assembly. The report, to the extent possible, shall include the following information:
1. Total weight of drugs collected, both with and without packaging;
2. The weight of controlled substances;
3. The amount of all of the following as a per cent of total drugs collected:
   a. Controlled substances;
   b. Brand name drugs;
   c. Generic drugs;
   d. Prescription drugs;
   e. Non-prescription drugs.
4. The amount of vitamins, herbal supplements, and personal care products collected;
5. If provided by the person who submitted or otherwise donated drugs to the program, the reasons why the drugs were returned or unused.

(H) No entity is required to participate in a drug take-back program established under this section, and no entity shall be subject to civil liability or professional disciplinary action for declining to participate.

(I) The board may accept grants, gifts, or donations for purposes of the program. Money received under this division shall be deposited into the drug take-back program fund established under section 109.90 of the Revised Code.

4729-8-01 Definitions.

As used in Chapter 4729-8 of the Administrative Code:
(A) “Authorized collector” means a registered manufacturer, distributor, reverse distributor, narcotic treatment program, hospital/clinic with an on-site pharmacy, or retail pharmacy that is authorized by the United States drug enforcement administration to receive controlled substances for the purpose of destruction.

(B) “Controlled substances” has the same meaning as defined in division (C) of section 3719.01 of the Revised Code.

(C) “Dangerous drugs” has the same meaning as defined in division (F) of section 4729.01 of the Revised Code.

(D) “Drug collection receptacle” means a secured, lined receptacle into which prescription medications, including controlled substances, dangerous drugs, and over-the-counter medications can be deposited by ultimate users for the purposes of collecting unused or expired drugs. Except for a law enforcement agency, a drug collection receptacle shall meet the requirements specified in 21 CFR 1317.75 (10/09/2014).

(E) “Drug” has the same meaning as defined in division (E) of section 4729.01 of the Revised Code.

(F) “Law enforcement agency” means a government entity that employs peace officers to perform law enforcement duties or a federal law enforcement agency.

(G) “Law enforcement officer” has the same meaning as 21 CFR 1300.05 (10/09/2014).

(H) “Mail-back program” means a program operated by an authorized collector or law enforcement agency that accepts prescription medications, including controlled substances, dangerous drugs, and over-the-counter medications from ultimate users through the mail for purposes of collecting unused or expired drugs. Except for a law enforcement agency, a mail-back program shall meet the requirements specified in 21 CFR 1317.70 (10/09/2014).

(I) “Non-retrievable” means the condition or state to which a drug shall be rendered following a process that permanently alters that drug’s physical or chemical condition or state through irreversible means and thereby renders the drug unavailable and unusable for all practical purposes.

(J) “Take-back event” means a one-day program operated by a law enforcement agency through which ultimate users may safely dispose of unused or expired prescription medications, including controlled substances, dangerous drugs, and over-the-counter medications. A take-back event shall meet the requirements specified in 21 CFR 1317.65 (10/09/2014).

(K) “Ultimate user” means a person who has lawfully obtained, and who possesses, a pharmaceutical drug for their own use or for the use of a member of their household or for an animal owned by an individual or a member of their household. It also includes any person lawfully entitled to dispose of a decedent’s property.

4729-8-02 Authorized collectors.

(B) If an authorized collector operates a drug collection receptacle for the collection of non-controlled substances only, they shall meet all of the requirements specified in paragraph (A) of this rule.

(C) A long-term care facility may dispose of prescription medications, including controlled substances, dangerous drugs, and over-the-counter medications on behalf of an ultimate user who resides, or has resided, at that long-term care facility pursuant to 21 CFR 1317.80.

(E) If an authorized collector operates a mail-back program for the collection of non-controlled substances only, they shall meet all of the requirements specified in paragraph (D) of this rule.

(F) An authorized collector shall indicate on a mail-back package or drug collection receptacle that the collection of any of the following is prohibited:

1. Medical sharps and needles (e.g., insulin syringes), iodine-containing medications, mercury-containing thermometers, radiopharmaceuticals, antineoplastic agents (cancer chemotherapy drugs, cytotoxic drugs), and compressed cylinders or aerosols (e.g., asthma inhalers); and

2. Schedule I controlled substances.

(G) An authorized collector shall not dispose of their inventory or stock of controlled substances, dangerous drugs or over-the-counter medications in a drug collection receptacle or through a mail-back program.

(H) An authorized collector shall maintain the confidentiality of the ultimate user pursuant to all applicable state and federal laws, rules, and regulations.

(I) An authorized collector shall not operate a take-back event as defined in rule 4729-8-01 of the Administrative Code.

4729-8-03 Prescription drug collection events.

(A) Law enforcement agencies may operate a drug collection receptacle if all of the following apply:

1. The receptacle is located inside the premises of the law enforcement agency.

2. The receptacle is placed in a location that is accessible to the public during posted hours.

3. The receptacle is placed within reasonable view of law enforcement personnel or under continuous video surveillance.

4. The receptacle is securely fastened to a permanent structure so that it cannot be removed and must be locked to prevent the unauthorized retrieval of its contents.

5. The receptacle is clearly marked indicating the following information:

   a. No needles, syringes, or lancets shall be placed in the receptacle.

   b. No iodine-containing medications, mercury-containing thermometers, radiopharmaceuticals, antineoplastic agents (cancer chemotherapy drugs, cytotoxic drugs), and compressed cylinders or aerosols (e.g., asthma inhalers) shall be placed in the receptacle.

6. If a law enforcement agency chooses to limit the types of drugs that are acceptable for return, such limitations shall be clearly stated on or near the drug collection receptacle.

7. The law enforcement agency shall check the drug collection receptacle regularly and remove deposits to prevent the receptacle from reaching capacity.

8. The law enforcement agency shall maintain the confidentiality of the ultimate user disposing of the drugs pursuant to all applicable state and federal laws, rules, and regulations.

9. The drugs collected shall be stored in a manner that prevents the diversion of controlled substances and is consistent with that agency's standard procedures for storing illicit controlled substances.

10. The law enforcement agency shall maintain custody and control of the contents deposited in the drug collection receptacle until the drugs are destroyed pursuant to rule 4729-8-04 of the Administrative Code.

11. The law enforcement agency shall maintain any records of removal, storage, or destruction of the drugs collected in a manner that is consistent with that agency's recordkeeping requirements for illicit controlled substances evidence.

(B) Law enforcement agencies may conduct a mail-back program if all of the following apply:
(1) Packages are made available (for sale or for free) for the collection of pharmaceutical drugs by common or contract carrier.
(2) The packages made available meet the following specifications:
   (a) The package must be nondescript and shall not include any markings or other information that might indicate that the package contains pharmaceutical drugs;
   (b) The package must be water- and spill-proof; tamper-evident; tear-resistant; and sealable;
   (c) The package must be preaddressed with and delivered to the participating law enforcement's physical address;
   (d) The cost of shipping the package shall be postage paid;
   (e) The package must include instructions for the user that indicate the process for mailing back the package, the substances that can be sent, notice that packages may only be mailed from within the customs territory of the United States (the fifty states, the District of Columbia, and Puerto Rico), and notice that only packages provided by the collector will be accepted for destruction.
   (f) The instructions for the package shall indicate the following information:
       No medical sharps and needles (e.g., insulin syringes), iodine-containing medications, mercury-containing thermometers, radiopharmaceuticals, antineoplastic agents (cancer chemotherapy drugs, cytotoxic drugs), and compressed cylinders or aerosols (e.g., asthma inhalers) shall be placed in the package;
   (g) If a law enforcement agency chooses to limit the types of drugs that are acceptable for return, such limitations shall be clearly stated on the package instructions.
(3) The law enforcement agency shall maintain custody and control of the sealed packages until the packages are disposed of pursuant to rule 4729-8-04 of the Administrative Code.
(4) The law enforcement agency shall maintain the confidentiality of the ultimate user disposing of the drugs pursuant to all applicable state and federal laws, rules, and regulations.
   (5) The sealed mail-back packages shall be stored in a manner that prevents the diversion of controlled substances and is consistent with that agency's standard procedures for storing illicit controlled substances.
   (6) The law enforcement agency shall maintain any records of removal, storage, or destruction of the drugs collected in a manner that is consistent with that agency's recordkeeping requirements for illicit controlled substances evidence.
(C) Law enforcement agencies may operate a take-back event if all of the following apply:
   (1) A law enforcement agency shall appoint a law enforcement officer employed by the agency to oversee the collection. Law enforcement officers employed and authorized by the law enforcement agency or law enforcement component of a federal agency conducting a take-back event shall maintain control and custody of the collected drugs from the time the drugs are collected from the ultimate user until secure transfer, storage, or destruction of the drugs has occurred.
   (2) Each take-back event shall have at least one receptacle for the collection of drugs. The collection receptacle should be a securely locked, substantially constructed container with an outer container and a removable inner liner.
   (3) Ultimate users disposing of unused or expired drugs shall place them directly into the drug collection receptacle or hand them directly to a law enforcement officer.
   (4) No needles, syringes or lancets shall be collected. A bulk sharps disposal container may be provided at each take-back event for the disposal of sharps.
   (5) No iodine-containing medications, mercury-containing thermometers, radiopharmaceuticals, antineoplastic agents (e.g., cancer chemotherapy drugs, cytotoxic drugs), compressed cylinders or aerosols (e.g., asthma inhalers) shall be collected.
(6) At the conclusion of the collection event, the drugs shall be removed from the event location and either:
(a) Stored in a manner that prevents the diversion of controlled substances and is consistent with that agency’s standard procedures for storing illicit controlled substances; or
(b) Destroyed pursuant to rule 4729-8-04 of the Administrative Code.
(7) The law enforcement agency shall maintain any records of removal, storage, or destruction of the drugs collected in a manner that is consistent with that agency’s recordkeeping requirements for illicit controlled substances evidence.
(D) The law enforcement agency shall ensure that the confidentiality of the ultimate user is maintained pursuant to applicable state and federal laws, rules, and regulations.
(E) Law enforcement agencies that participate in a take-back event pursuant to this rule are not subject to rule 4729-9-06 of the Administrative Code.

4729-8-04 Procedure for disposal of collected drugs.

(A) All drugs collected pursuant to this chapter shall be destroyed in compliance with applicable federal, state, tribal, and local laws and regulations and shall be rendered non-retrievable.
(B) The method of destruction shall ensure that the confidentiality of the ultimate user is maintained pursuant to applicable state and federal laws, rules, and regulations.

Part IV. Tax

General Provisions

5701.14 Tax exempt and limited liability company.

For purposes of Title LVII of the Revised Code:
(A) In order to determine a limited liability company’s nonprofit status, an entity is operating with a nonprofit purpose under section 1705.02 of the Revised Code if that entity is organized other than for the pecuniary gain or profit of, and its net earnings or any part of its net earnings are not distributable to, its members, its directors, its officers, or other private persons, except that the payment of reasonable compensation for services rendered, payments and distributions in furtherance of its nonprofit purpose, and the distribution of assets on dissolution permitted by section 1702.49 of the Revised Code are not pecuniary gain or profit or distribution of net earnings. In no event shall payments and distributions in furtherance of an entity’s nonprofit purpose deprive the entity of its nonprofit status as long as all of the members of that entity are operating with a nonprofit purpose.
(B) A single member limited liability company that operates with a nonprofit purpose, as described in division (A) of this section, shall be treated as part of the same legal entity as its nonprofit member, and all assets and liabilities of that single member limited liability company shall be considered to be that of the nonprofit member. Filings or applications for exemptions or other tax purposes may be made either by the single member limited liability company or its nonprofit member.

5709.12 Taxes; exemption of property used for charitable or public purposes.

(A) As used in this section, “independent living facilities” means any residential housing facilities and related property that are not a nursing home, residential care facility, or residential facility as defined in division (A) of section 5701.13 of the Revised Code.
(B) Lands, houses, and other buildings belonging to a county, township, or municipal corporation and used exclusively for the accommodation or support of the poor, or leased to the state or any political subdivision for public purposes shall be exempt from taxation. Real and tangible personal property belonging to institutions that is used exclusively for charitable purposes shall be exempt from taxation, including real property belonging to an institution that is a nonprofit corporation that receives a grant under the Thomas Alva Edison grant program authorized by division (C) of section 122.33 of the Revised Code at any time during the tax year and being held for leasing or resale to others. If, at any time during a tax year for which such property is exempted from taxation, the corporation ceases to qualify for such a grant, the director of development shall notify the tax commissioner, and the tax commissioner shall cause the property to be restored to the tax list beginning with the following tax year. All property owned and used by a nonprofit organization exclusively for a home for the aged, as defined in section 5701.13 of the Revised Code, also shall be exempt from taxation.

(C)(1) If a home for the aged described in division (B)(1) of section 5701.13 of the Revised Code is operated in conjunction with or at the same site as independent living facilities, the exemption granted in division (B) of this section shall include kitchen, dining room, clinic, entry ways, maintenance and storage areas, and land necessary for access commonly used by both residents of the home for the aged and residents of the independent living facilities. Other facilities commonly used by both residents of the home for the aged and residents of independent living units shall be exempt from taxation only if the other facilities are used primarily by the residents of the home for the aged. Vacant land currently unused by the home, and independent living facilities and the lands connected with them are not exempt from taxation. Except as provided in division (A)(1) of section 5709.121 of the Revised Code, property of a home leased for nonresidential purposes is not exempt from taxation.

(2) Independent living facilities are exempt from taxation if they are operated in conjunction with or at the same site as a home for the aged described in division (B)(2) of section 5701.13 of the Revised Code; operated by a corporation, association, or trust described in division (B)(1)(b) of that section; operated exclusively for the benefit of members of the corporation, association, or trust who are retired, aged, or infirm; and provided to those members without charge in consideration of their service, without compensation, to a charitable, religious, fraternal, or educational institution. For the purposes of division (C)(2) of this section, “compensation” does not include furnishing room and board, clothing, health care, or other necessities, or stipends or other de minimis payments to defray the cost thereof.

(D)(1) A private corporation established under federal law, as defined in 36 U.S.C. 1101, Pub. L. No. 102-199, 105 Stat. 1629, as amended, the objects of which include encouraging the advancement of science generally, or of a particular branch of science, the promotion of scientific research, the improvement of the qualifications and usefulness of scientists, or the increase and diffusion of scientific knowledge is conclusively presumed to be a charitable or educational institution. A private corporation established as a nonprofit corporation under the laws of a state that is exempt from federal income taxation under section 501(c)(3) of the Internal Revenue Code of 1986, 100 Stat. 2085, 26 U.S.C.A. 1, as amended, and that has as its principal purpose one or more of the foregoing objects also is conclusively presumed to be a charitable or educational institution.

The fact that an organization described in this division operates in a manner that results in an excess of revenues over expenses shall not be used to deny the exemption granted by this section, provided such excess is used, or is held for use, for exempt purposes or to establish a reserve against future contingencies; and, provided further, that such excess may not be distributed to individual persons or to entities that would not be entitled to the tax exemptions provided by this chapter. Nor shall the fact that any scientific information diffused by the organization is of particular interest or benefit to any of its individual members be used to deny the exemption granted by this section, provided that such scientific information is available
to the public for purchase or otherwise.

(2) Division (D)(2) of this section does not apply to real property exempted from taxation under this section and division (A)(3) of section 5709.121 of the Revised Code and belonging to a nonprofit corporation described in division (D)(1) of this section that has received a grant under the Thomas Alva Edison grant program authorized by division (C) of section 122.33 of the Revised Code during any of the tax years the property was exempted from taxation.

When a private corporation described in division (D)(1) of this section sells all or any portion of a tract, lot, or parcel of real estate that has been exempt from taxation under this section and section 5709.121 of the Revised Code, the portion sold shall be restored to the tax list for the year following the year of the sale and, except in connection with a sale and transfer of such a tract, lot, or parcel to a county land reutilization corporation organized under Chapter 1724 of the Revised Code, a charge shall be levied against the sold property in an amount equal to the tax savings on such property during the four tax years preceding the year the property is placed on the tax list. The tax savings equals the amount of the additional taxes that would have been levied if such property had not been exempt from taxation.

The charge constitutes a lien of the state upon such property as of the first day of January of the tax year in which the charge is levied and continues until discharged as provided by law. The charge may also be remitted for all or any portion of such property that the tax commissioner determines is entitled to exemption from real property taxation for the year such property is restored to the tax list under any provision of the Revised Code, other than sections 725.02, 1728.10, 3735.67, 5709.40, 5709.41, 5709.45, 5709.62, 5709.63, 5709.71, 5709.73, 5709.78, and 5709.84, upon an application for exemption covering the year such property is restored to the tax list filed under section 5715.27 of the Revised Code.

(E)(1) Real property held by an organization organized and operated exclusively for charitable purposes as described under section 501(c)(3) of the Internal Revenue Code and exempt from federal taxation under section 501(a) of the Internal Revenue Code, 26 U.S.C.A. 501(a) and (c)(3), as amended, for the purpose of constructing or rehabilitating residences for eventual transfer to qualified low-income families through sale, lease, or land installment contract, shall be exempt from taxation.

The exemption shall commence on the day title to the property is transferred to the organization and shall continue to the end of the tax year in which the organization transfers title to a qualified low-income family. In no case shall the exemption extend beyond the second succeeding tax year following the year in which the title was transferred to the organization. If the title is transferred to the organization and from the organization to a qualified low-income family in the same tax year, the exemption shall continue to the end of that tax year. The proportionate amount of taxes that are a lien but not yet determined, assessed, and levied for the tax year in which title was transferred to the organization shall be remitted by the county auditor for each day of the year that title is held by the organization.

Upon transferring the title to another person, the organization shall file with the county auditor an affidavit affirming that the title was transferred to a qualified low-income family or that the title was not transferred to a qualified low-income family, as the case may be; if the title was transferred to a qualified low-income family, the affidavit shall identify the transferee by name. If the organization transfers title to the property to anyone other than a qualified low-income family, the exemption, if it has not previously expired, shall terminate, and the property shall be restored to the tax list for the year following the year of the transfer and a charge shall be levied against the property in an amount equal to the amount of additional taxes that would have been levied if such property had not been exempt from taxation. The charge constitutes a lien of the state upon such property as of the first day of January of the tax year in which the charge is levied and continues until discharged as provided by law.

The application for exemption shall be filed as otherwise required under section 5715.27 of the Revised Code, except that the organization holding the property shall file with its
application documentation substantiating its status as an organization organized and operated exclusively for charitable purposes under section 501(c)(3) of the Internal Revenue Code and its qualification for exemption from federal taxation under section 501(a) of the Internal Revenue Code, and affirming its intention to construct or rehabilitate the property for the eventual transfer to qualified low-income families.

As used in this division, “qualified low-income family” means a family whose income does not exceed two hundred per cent of the official federal poverty guidelines as revised annually in accordance with section 673(2) of the “Omnibus Budget Reconciliation Act of 1981,” 95 Stat. 511, 42 U.S.C.A. 9902, as amended, for a family size equal to the size of the family whose income is being determined.

(2) Real property constituting a retail store, including the land on which the retail store is located, that is owned and operated by an organization described in division (E)(1) of this section shall be exempt from taxation if the retail store sells primarily donated items suitable for residential housing purposes and if the proceeds of such sales are used solely for the purposes of the organization.

(F)(1) Real property that is acquired and held by a county land reutilization corporation organized under Chapter 1724 of the Revised Code and that is not exempt from taxation under Chapter 5722 of the Revised Code shall be deemed real property used for a public purpose and shall be exempt from taxation until sold or transferred by the corporation. Notwithstanding section 5715.27 of the Revised Code, a county land reutilization corporation is not required to apply to any county or state agency in order to qualify for the exemption.

(2) Real property that is acquired and held by an electing subdivision other than a county land reutilization corporation on or after April 9, 2009, for the public purpose of implementing an effective land reutilization program or for a related public purpose, and that is not exempt from taxation under Chapter 5722 of the Revised Code, shall be exempt from taxation until sold or transferred by the electing subdivision. Notwithstanding section 5715.27 of the Revised Code, an electing subdivision is not required to apply to any county or state agency in order to qualify for an exemption with respect to property acquired or held for such purposes on or after such date, regardless of how the electing subdivision acquires the property.

As used in this section, “electing subdivision” and “land reutilization program” have the same meanings as in section 5722.01 of the Revised Code, and “county land reutilization corporation” means a county land reutilization corporation organized under Chapter 1724 of the Revised Code and any subsidiary wholly owned by such a county land reutilization corporation that is identified as “a wholly owned subsidiary of a county land reutilization corporation” in the deed of conveyance transferring title to the subsidiary.

In lieu of the application for exemption otherwise required to be filed as required under section 5715.27 of the Revised Code, a county land reutilization corporation holding the property shall, upon the request of any county or state agency, submit its articles of incorporation substantiating its status as a county land reutilization corporation.

(G) Real property that is owned by an organization described under section 501(c)(3) of the Internal Revenue Code and exempt from federal income taxation under section 501(a) of the Internal Revenue Code and that is used by that organization exclusively for receiving, processing, or distributing human blood, tissues, eyes, or organs or for research and development thereof shall be exempt from taxation.

(H) Real property that is owned by an organization described under section 501(c)(3) of the Internal Revenue Code and exempt from federal income taxation under section 501(a) of the Internal Revenue Code and that received a loan from the federal small business administration as a participating intermediary in the federal microloan program under 15 U.S.C. 636(m) shall be exempt from taxation if the property is used by that organization primarily for small business lending, economic development, job training, entrepreneur education, or associated administrative purposes as such a participating intermediary.
Chapter 1. General Hospital Provisions
Part IV. Tax

5709.121 Property used exclusively for charitable or public purposes.

(A) Real property and tangible personal property belonging to a charitable or educational institution or to the state or a political subdivision, shall be considered as used exclusively for charitable or public purposes by such institution, the state, or political subdivision, if it meets one of the following requirements:

(1) It is used by such institution, the state, or political subdivision, or by one or more other such institutions, the state, or political subdivisions under a lease, sublease, or other contractual arrangement:

(a) As a community or area center in which presentations in music, dramatics, the arts, and related fields are made in order to foster public interest and education therein;
(b) As a children’s, science, history, or natural history museum that is open to the general public;
(c) For other charitable, educational, or public purposes.

(2) It is made available under the direction or control of such institution, the state, or political subdivision for use in furtherance of or incidental to its charitable, educational, or public purposes and not with the view to profit.

(3) It is used by an organization described in division (D) of section 5709.12 of the Revised Code. If the organization is a corporation that receives a grant under the Thomas Alva Edison grant program authorized by division (C) of section 122.33 of the Revised Code at any time during the tax year, “used,” for the purposes of this division, includes holding property for lease or resale to others.

(B)(1) Property described in division (A)(1)(a) or (b) of this section shall continue to be considered as used exclusively for charitable or public purposes even if the property is conveyed through one conveyance or a series of conveyances to an entity that is not a charitable or educational institution and is not the state or a political subdivision, provided that all of the following conditions apply with respect to that property:

(a) The property was listed as exempt on the county auditor's tax list and duplicate for the county in which it is located for the tax year immediately preceding the year in which the property is conveyed through one conveyance or a series of conveyances;
(b) The property is conveyed through one conveyance or a series of conveyances to an entity that does any of the following:

(i) Leases at least forty-five per cent of the property, through one lease or a series of leases, to the entity that owned or occupied the property for the tax year immediately preceding the year in which the property is conveyed or to an affiliate of that entity;
(ii) Contracts, directly or indirectly to have renovations performed as described in division (B)(1)(d) of this section and is at least partially owned by a nonprofit organization described in section 501(c)(3) of the Internal Revenue Code1 that is exempt from taxation under section 501(a) of that code.2
(c) The property includes improvements that are at least fifty years old;
(d) The property is being renovated in connection with a claim for historic preservation tax credits available under federal law;
(e) All or a portion of the property continues to be used for the purposes described in division (A)(1)(a) or (b) of this section after its conveyance; and
(f) The property is certified by the United States secretary of the interior as a “certified historic structure” or certified as part of a certified historic structure.

(2) Notwithstanding section 5715.27 of the Revised Code, an application for exemption from taxation of property described in division (B)(1) of this section may be filed by either the owner of the property or an occupant.

(C) For purposes of this section, an institution that meets all of the following requirements is conclusively presumed to be a charitable institution:
(1) The institution is a nonprofit corporation or association, no part of the net earnings of which inures to the benefit of any private shareholder or individual;
(2) The institution is exempt from federal income taxation under section 501(a) of the Internal Revenue Code;
(3) The majority of the institution’s board of directors are appointed by the mayor or legislative authority of a municipal corporation or a board of county commissioners, or a combination thereof;
(4) The primary purpose of the institution is to assist in the development and revitalization of downtown urban areas.
(D) For purposes of division (A)(1)(b) of this section, the status of a museum as open to the general public shall be conclusive if the museum is accredited by the American alliance of museums or a successor organization.

5739.02 Tax on retail sales.

For the purpose of providing revenue with which to meet the needs of the state, for the use of the general revenue fund of the state, for the purpose of securing a thorough and efficient system of common schools throughout the state, for the purpose of affording revenues, in addition to those from general property taxes, permitted under constitutional limitations, and from other sources, for the support of local governmental functions, and for the purpose of reimbursing the state for the expense of administering this chapter, an excise tax is hereby levied on each retail sale made in this state.

(A)(1) The tax shall be collected as provided in section 5739.025 of the Revised Code. The rate of the tax shall be five and three-fourths per cent. The tax applies and is collectible when the sale is made, regardless of the time when the price is paid or delivered.
(2) In the case of the lease or rental, with a fixed term of more than thirty days or an indefinite term with a minimum period of more than thirty days, of any motor vehicles designed by the manufacturer to carry a load of not more than one ton, watercraft, outboard motor, or aircraft, or of any tangible personal property, other than motor vehicles designed by the manufacturer to carry a load of more than one ton, to be used by the lessee or renter primarily for business purposes, the tax shall be collected by the vendor at the time the lease or rental is consummated and shall be calculated by the vendor on the basis of the total amount to be paid by the lessee or renter under the lease agreement. If the total amount of the consideration for the lease or rental includes amounts that are not calculated at the time the lease or rental is executed, the tax shall be calculated and collected by the vendor at the time such amounts are billed to the lessee or renter. In the case of an open-end lease or rental, the tax shall be calculated by the vendor on the basis of the total amount to be paid during the initial fixed term of the lease or rental, and for each subsequent renewal period as it comes due. As used in this division, “motor vehicle” has the same meaning as in section 4501.01 of the Revised Code, and “watercraft” includes an outdrive unit attached to the watercraft.

A lease with a renewal clause and a termination penalty or similar provision that applies if the renewal clause is not exercised is presumed to be a sham transaction. In such a case, the tax shall be calculated and paid on the basis of the entire length of the lease period, including any renewal periods, until the termination penalty or similar provision no longer applies. The taxpayer shall bear the burden, by a preponderance of the evidence, that the transaction or series of transactions is not a sham transaction.

(3) Except as provided in division (A)(2) of this section, in the case of a sale, the price of which consists in whole or in part of the lease or rental of tangible personal property, the tax shall be measured by the installments of that lease or rental.

(4) In the case of a sale of a physical fitness facility service or recreation and sports club service, the price of which consists in whole or in part of a membership for the receipt of the
benefit of the service, the tax applicable to the sale shall be measured by the installments thereof.

(B) The tax does not apply to the following:

1. Sales to the state or any of its political subdivisions, or to any other state or its political subdivisions if the laws of that state exempt from taxation sales made to this state and its political subdivisions;

2. Sales of food for human consumption off the premises where sold;

3. Sales of food sold to students only in a cafeteria, dormitory, fraternity, or sorority maintained in a private, public, or parochial school, college, or university;

4. Sales of newspapers and sales or transfers of magazines distributed as controlled circulation publications;

5. The furnishing, preparing, or serving of meals without charge by an employer to an employee provided the employer records the meals as part compensation for services performed or work done;

6. Sales of motor fuel upon receipt, use, distribution, or sale of which in this state a tax is imposed by the law of this state, but this exemption shall not apply to the sale of motor fuel on which a refund of the tax is allowable under division (A) of section 5735.14 of the Revised Code; and the tax commissioner may deduct the amount of tax levied by this section applicable to the price of motor fuel when granting a refund of motor fuel tax pursuant to division (A) of section 5735.14 of the Revised Code and shall cause the amount deducted to be paid into the general revenue fund of this state;

7. Sales of natural gas by a natural gas company or municipal gas utility, of water by a water-works company, or of steam by a heating company, if in each case the thing sold is delivered to consumers through pipes or conduits, and all sales of communications services by a telegraph company, all terms as defined in section 5727.01 of the Revised Code, and sales of electricity delivered through wires;

8. Casual sales by a person, or auctioneer employed directly by the person to conduct such sales, except as to such sales of motor vehicles, watercraft or outboard motors required to be titled under section 1548.06 of the Revised Code, watercraft documented with the United States coast guard, snowmobiles, and all-purpose vehicles as defined in section 4519.01 of the Revised Code;

9. (a) Sales of services or tangible personal property, other than motor vehicles, mobile homes, and manufactured homes, by churches, organizations exempt from taxation under section 501(c)(3) of the Internal Revenue Code of 1986, or nonprofit organizations operated exclusively for charitable purposes as defined in division (B)(12) of this section, provided that the number of days on which such tangible personal property or services, other than items never subject to the tax, are sold does not exceed six in any calendar year, except as otherwise provided in division (B)(9)(b) of this section. If the number of days on which such sales are made exceeds six in any calendar year, the church or organization shall be considered to be engaged in business and all subsequent sales by it shall be subject to the tax. In counting the number of days, all sales by groups within a church or within an organization shall be considered to be sales of that church or organization.

(b) The limitation on the number of days on which tax-exempt sales may be made by a church or organization under division (B)(9)(a) of this section does not apply to sales made by student clubs and other groups of students of a primary or secondary school, or a parent-teacher association, booster group, or similar organization that raises money to support or fund curricular or extracurricular activities of a primary or secondary school.

(c) Divisions (B)(9)(a) and (b) of this section do not apply to sales by a noncommercial educational radio or television broadcasting station.

10. Sales not within the taxing power of this state under the Constitution or laws of the United States or the Constitution of this state;
(11) Except for transactions that are sales under division (B)(3)(r) of section 5739.01 of the Revised Code, the transportation of persons or property, unless the transportation is by a private investigation and security service;

(12) Sales of tangible personal property or services to churches, to organizations exempt from taxation under section 501(c)(3) of the Internal Revenue Code of 1986, and to any other nonprofit organizations operated exclusively for charitable purposes in this state, no part of the net income of which inures to the benefit of any private shareholder or individual, and no substantial part of the activities of which consists of carrying on propaganda or otherwise attempting to influence legislation; sales to offices administering one or more homes for the aged or one or more hospital facilities exempt under section 140.08 of the Revised Code; and sales to organizations described in division (D) of section 5709.12 of the Revised Code.

“Charitable purposes” means the relief of poverty; the improvement of health through the alleviation of illness, disease, or injury; the operation of an organization exclusively for the provision of professional, laundry, printing, and purchasing services to hospitals or charitable institutions; the operation of a home for the aged, as defined in section 5701.13 of the Revised Code; the operation of a radio or television broadcasting station that is licensed by the federal communications commission as a noncommercial educational radio or television station; the operation of a nonprofit animal adoption service or a county humane society; the promotion of education by an institution of learning that maintains a faculty of qualified instructors, teaches regular continuous courses of study, and confers a recognized diploma upon completion of a specific curriculum; the operation of a parent-teacher association, booster group, or similar organization primarily engaged in the promotion and support of the curricular or extracurricular activities of a primary or secondary school; the operation of a community or area center in which presentations in music, dramatics, the arts, and related fields are made in order to foster public interest and education therein; the production of performances in music, dramatics, and the arts; or the promotion of education by an organization engaged in carrying on research in, or the dissemination of, scientific and technological knowledge and information primarily for the public.

Nothing in this division shall be deemed to exempt sales to any organization for use in the operation or carrying on of a trade or business, or sales to a home for the aged for use in the operation of independent living facilities as defined in division (A) of section 5709.12 of the Revised Code.

(13) Building and construction materials and services sold to construction contractors for incorporation into a structure or improvement to real property under a construction contract with this state or a political subdivision of this state, or with the United States government or any of its agencies; building and construction materials and services sold to construction contractors for incorporation into a structure or improvement to real property that are accepted for ownership by this state or any of its political subdivisions, or by the United States government or any of its agencies at the time of completion of the structures or improvements; building and construction materials sold to construction contractors for incorporation into a horticulture structure or livestock structure for a person engaged in the business of horticulture or producing livestock; building materials and services sold to a construction contractor for incorporation into a house of public worship or religious education, or a building used exclusively for charitable purposes under a construction contract with an organization whose purpose is as described in division (B)(12) of this section; building materials and services sold to a construction contractor for incorporation into a building under a construction contract with an organization exempt from taxation under section 501(c)(3) of the Internal Revenue Code of 1986 when the building is to be used exclusively for the organization’s exempt purposes; building and construction materials sold for incorporation into the original construction of a sports facility under section 307.696 of the Revised Code; building and construction materials and services sold to a construction contractor for incorporation into real property outside this state if such materials and services, when sold to a construction contractor in the state in which the real property is located for
incorporation into real property in that state, would be exempt from a tax on sales levied by that state; building and construction materials for incorporation into a transportation facility pursuant to a public-private agreement entered into under sections 5501.70 to 5501.83 of the Revised Code; and, until one calendar year after the construction of a convention center that qualifies for property tax exemption under section 5709.084 of the Revised Code is completed, building and construction materials and services sold to a construction contractor for incorporation into the real property comprising that convention center;

(14) Sales of ships or vessels or rail rolling stock used or to be used principally in interstate or foreign commerce, and repairs, alterations, fuel, and lubricants for such ships or vessels or rail rolling stock;

(15) Sales to persons primarily engaged in any of the activities mentioned in division (B)(42)(a), (g), or (h) of this section, to persons engaged in making retail sales, or to persons who purchase for sale from a manufacturer tangible personal property that was produced by the manufacturer in accordance with specific designs provided by the purchaser, of packages, including material, labels, and parts for packages, and of machinery, equipment, and material for use primarily in packaging tangible personal property produced for sale, including any machinery, equipment, and supplies used to make labels or packages, to prepare packages or products for labeling, or to label packages or products, by or on the order of the person doing the packaging, or sold at retail. “Packages” includes bags, baskets, cartons, crates, boxes, cans, bottles, bindings, wrappings, and other similar devices and containers, but does not include motor vehicles or bulk tanks, trailers, or similar devices attached to motor vehicles. “Packaging” means placing in a package. Division (B)(15) of this section does not apply to persons engaged in highway transportation for hire.

(16) Sales of food to persons using supplemental nutrition assistance program benefits to purchase the food. As used in this division, “food” has the same meaning as in 7 U.S.C. 2012 and federal regulations adopted pursuant to the Food and Nutrition Act of 2008.1

(17) Sales to persons engaged in farming, agriculture, horticulture, or floriculture, of tangible personal property for use or consumption primarily in the production by farming, agriculture, horticulture, or floriculture; or material and parts for incorporation into any such tangible personal property for use or consumption in production; and of tangible personal property for such use or consumption in the conditioning or holding of products produced by and for such use, consumption, or sale by persons engaged in farming, agriculture, horticulture, or floriculture, except where such property is incorporated into real property;

(18) Sales of drugs for a human being that may be dispensed only pursuant to a prescription; insulin as recognized in the official United States pharmacopoeia; urine and blood testing materials when used by diabetics or persons with hypoglycemia to test for glucose or acetone; hypodermic syringes and needles when used by diabetics for insulin injections; epoetin alfa when purchased for use in the treatment of persons with medical disease; hospital beds when purchased by hospitals, nursing homes, or other medical facilities; and medical oxygen and medical oxygen-dispensing equipment when purchased by hospitals, nursing homes, or other medical facilities;

(19) Sales of prosthetic devices, durable medical equipment for home use, or mobility enhancing equipment, when made pursuant to a prescription and when such devices or equipment are for use by a human being.

(20) Sales of emergency and fire protection vehicles and equipment to nonprofit organizations for use solely in providing fire protection and emergency services, including trauma care and emergency medical services, for political subdivisions of the state;

(21) Sales of tangible personal property manufactured in this state, if sold by the manufacturer in this state to a retailer for use in the retail business of the retailer outside of this
state and if possession is taken from the manufacturer by the purchaser within this state for the sole purpose of immediately removing the same from this state in a vehicle owned by the purchaser;

(22) Sales of services provided by the state or any of its political subdivisions, agencies, instrumentalities, institutions, or authorities, or by governmental entities of the state or any of its political subdivisions, agencies, instrumentalities, institutions, or authorities;

(23) Sales of motor vehicles to nonresidents of this state under the circumstances described in division (B) of section 5739.029 of the Revised Code;

(24) Sales to persons engaged in the preparation of eggs for sale of tangible personal property used or consumed directly in such preparation, including such tangible personal property used for cleaning, sanitizing, preserving, grading, sorting, and classifying by size; packages, including material and parts for packages, and machinery, equipment, and material for use in packaging eggs for sale; and handling and transportation equipment and parts therefor, except motor vehicles licensed to operate on public highways, used in intraplant or interplant transfers or shipment of eggs in the process of preparation for sale, when the plant or plants within or between which such transfers or shipments occur are operated by the same person. “Packages” includes containers, cases, baskets, flats, fillers, filler flats, cartons, closure materials, labels, and labeling materials, and “packaging” means placing therein.

(25)(a) Sales of water to a consumer for residential use;

(b) Sales of water by a nonprofit corporation engaged exclusively in the treatment, distribution, and sale of water to consumers, if such water is delivered to consumers through pipes or tubing.

(26) Fees charged for inspection or reinspection of motor vehicles under section 3704.14 of the Revised Code;

(27) Sales to persons licensed to conduct a food service operation pursuant to section 3717.43 of the Revised Code, of tangible personal property primarily used directly for the following:

(a) To prepare food for human consumption for sale;

(b) To preserve food that has been or will be prepared for human consumption for sale by the food service operator, not including tangible personal property used to display food for selection by the consumer;

(c) To clean tangible personal property used to prepare or serve food for human consumption for sale.

(28) Sales of animals by nonprofit animal adoption services or county humane societies;

(29) Sales of services to a corporation described in division (A) of section 5709.72 of the Revised Code, and sales of tangible personal property that qualifies for exemption from taxation under section 5709.72 of the Revised Code;

(30) Sales and installation of agricultural land tile, as defined in division (B)(5)(a) of section 5739.01 of the Revised Code;

(31) Sales and erection or installation of portable grain bins, as defined in division (B)(5)(b) of section 5739.01 of the Revised Code;

(32) The sale, lease, repair, and maintenance of, parts for, or items attached to or incorporated in, motor vehicles that are primarily used for transporting tangible personal property belonging to others by a person engaged in highway transportation for hire, except for packages and packaging used for the transportation of tangible personal property;

(33) Sales to the state headquarters of any veterans’ organization in this state that is either incorporated and issued a charter by the congress of the United States or is recognized by the United States veterans administration, for use by the headquarters;

(34) Sales to a telecommunications service vendor, mobile telecommunications service vendor, or satellite broadcasting service vendor of tangible personal property and services used directly and primarily in transmitting, receiving, switching, or recording any interactive, one- or
two-way electromagnetic communications, including voice, image, data, and information, through the use of any medium, including, but not limited to, poles, wires, cables, switching equipment, computers, and record storage devices and media, and component parts for the tangible personal property. The exemption provided in this division shall be in lieu of all other exemptions under division (B)(42)(a) or (n) of this section to which the vendor may otherwise be entitled, based upon the use of the thing purchased in providing the telecommunications, mobile telecommunications, or satellite broadcasting service.

(35)(a) Sales where the purpose of the consumer is to use or consume the things transferred in making retail sales and consisting of newspaper inserts, catalogues, coupons, flyers, gift certificates, or other advertising material that prices and describes tangible personal property offered for retail sale.

(b) Sales to direct marketing vendors of preliminary materials such as photographs, artwork, and typesetting that will be used in printing advertising material; and of printed matter that offers free merchandise or chances to win sweepstake prizes and that is mailed to potential customers with advertising material described in division (B)(35)(a) of this section;

(c) Sales of equipment such as telephones, computers, facsimile machines, and similar tangible personal property primarily used to accept orders for direct marketing retail sales.

(d) Sales of automatic food vending machines that preserve food with a shelf life of forty-five days or less by refrigeration and dispense it to the consumer.

For purposes of division (B)(35) of this section, “direct marketing” means the method of selling where consumers order tangible personal property by United States mail, delivery service, or telecommunication and the vendor delivers or ships the tangible personal property sold to the consumer from a warehouse, catalogue distribution center, or similar fulfillment facility by means of the United States mail, delivery service, or common carrier.

(36) Sales to a person engaged in the business of horticulture or producing livestock of materials to be incorporated into a horticulture structure or livestock structure;

(37) Sales of personal computers, computer monitors, computer keyboards, modems, and other peripheral computer equipment to an individual who is licensed or certified to teach in an elementary or a secondary school in this state for use by that individual in preparation for teaching elementary or secondary school students;

(38) Sales to a professional racing team of any of the following:

(a) Motor racing vehicles;

(b) Repair services for motor racing vehicles;

(c) Items of property that are attached to or incorporated in motor racing vehicles, including engines, chassis, and all other components of the vehicles, and all spare, replacement, and rebuilt parts or components of the vehicles; except not including tires, consumable fluids, paint, and accessories consisting of instrumentation sensors and related items added to the vehicle to collect and transmit data by means of telemetry and other forms of communication.

(39) Sales of used manufactured homes and used mobile homes, as defined in section 5739.0210 of the Revised Code, made on or after January 1, 2000;

(40) Sales of tangible personal property and services to a provider of electricity used or consumed directly and primarily in generating, transmitting, or distributing electricity for use by others, including property that is or is to be incorporated into and will become a part of the consumer's production, transmission, or distribution system and that retains its classification as tangible personal property after incorporation; fuel or power used in the production, transmission, or distribution of electricity; energy conversion equipment as defined in section 5727.01 of the Revised Code; and tangible personal property and services used in the repair and maintenance of the production, transmission, or distribution system, including only those motor vehicles as are specially designed and equipped for such use. The exemption provided in this division shall be in lieu of all other exemptions in division (B)(42)(a) or (n) of this section to
Chapter 1. General Hospital Provisions
Part IV. Tax

which a provider of electricity may otherwise be entitled based on the use of the tangible personal property or service purchased in generating, transmitting, or distributing electricity.

(41) Sales to a person providing services under division (B)(3)(r) of section 5739.01 of the Revised Code of tangible personal property and services used directly and primarily in providing taxable services under that section.

(42) Sales where the purpose of the purchaser is to do any of the following:
(a) To incorporate the thing transferred as a material or a part into tangible personal property to be produced for sale by manufacturing, assembling, processing, or refining; or to use or consume the thing transferred directly in producing tangible personal property for sale by mining, including, without limitation, the extraction from the earth of all substances that are classed geologically as minerals, production of crude oil and natural gas, or directly in the rendition of a public utility service, except that the sales tax levied by this section shall be collected upon all meals, drinks, and food for human consumption sold when transporting persons. Persons engaged in rendering services in the exploration for, and production of, crude oil and natural gas for others are deemed engaged directly in the exploration for, and production of, crude oil and natural gas. This paragraph does not exempt from “retail sale” or “sales at retail” the sale of tangible personal property that is to be incorporated into a structure or improvement to real property.
(b) To hold the thing transferred as security for the performance of an obligation of the vendor;
(c) To resell, hold, use, or consume the thing transferred as evidence of a contract of insurance;
(d) To use or consume the thing directly in commercial fishing;
(e) To incorporate the thing transferred as a material or a part into, or to use or consume the thing transferred directly in the production of, magazines distributed as controlled circulation publications;
(f) To use or consume the thing transferred in the production and preparation in suitable condition for market and sale of printed, imprinted, overprinted, lithographic, multilithic, blueprinted, photostatic, or other productions or reproductions of written or graphic matter;
(g) To use the thing transferred, as described in section 5739.011 of the Revised Code, primarily in a manufacturing operation to produce tangible personal property for sale;
(h) To use the benefit of a warranty, maintenance or service contract, or similar agreement, as described in division (B)(7) of section 5739.01 of the Revised Code, to repair or maintain tangible personal property, if all of the property that is the subject of the warranty, contract, or agreement would not be subject to the tax imposed by this section;
(i) To use the thing transferred as qualified research and development equipment;
(j) To use or consume the thing transferred primarily in storing, transporting, mailing, or otherwise handling purchased sales inventory in a warehouse, distribution center, or similar facility when the inventory is primarily distributed outside this state to retail stores of the person who owns or controls the warehouse, distribution center, or similar facility, to retail stores of an affiliated group of which that person is a member, or by means of direct marketing. This division does not apply to motor vehicles registered for operation on the public highways. As used in this division, “affiliated group” has the same meaning as in division (B)(3)(e) of section 5739.01 of the Revised Code and “direct marketing” has the same meaning as in division (B)(35) of this section.
(k) To use or consume the thing transferred to fulfill a contractual obligation incurred by a warrantor pursuant to a warranty provided as a part of the price of the tangible personal property sold or by a vendor of a warranty, maintenance or service contract, or similar agreement the provision of which is defined as a sale under division (B)(7) of section 5739.01 of the Revised Code;
(l) To use or consume the thing transferred in the production of a newspaper for distribution to the public;

(m) To use tangible personal property to perform a service listed in division (B)(3) of section 5739.01 of the Revised Code, if the property is or is to be permanently transferred to the consumer of the service as an integral part of the performance of the service;

(n) To use or consume the thing transferred primarily in producing tangible personal property for sale by farming, agriculture, horticulture, or floriculture. Persons engaged in rendering farming, agriculture, horticulture, or floriculture services for others are deemed engaged primarily in farming, agriculture, horticulture, or floriculture. This paragraph does not exempt from “retail sale” or “sales at retail” the sale of tangible personal property that is to be incorporated into a structure or improvement to real property.

(o) To use or consume the thing transferred in acquiring, formatting, editing, storing, and disseminating data or information by electronic publishing;

(p) To provide the thing transferred to the owner or lessee of a motor vehicle that is being repaired or serviced, if the thing transferred is a rented motor vehicle and the purchaser is reimbursed for the cost of the rented motor vehicle by a manufacturer, warrantor, or provider of a maintenance, service, or other similar contract or agreement, with respect to the motor vehicle that is being repaired or serviced.

As used in division (B)(42) of this section, “thing” includes all transactions included in divisions (B)(3)(a), (b), and (e) of section 5739.01 of the Revised Code.

(43) Sales conducted through a coin operated device that activates vacuum equipment or equipment that dispenses water, whether or not in combination with soap or other cleaning agents or wax, to the consumer for the consumer’s use on the premises in washing, cleaning, or waxing a motor vehicle, provided no other personal property or personal service is provided as part of the transaction.

(44) Sales of replacement and modification parts for engines, airframes, instruments, and interiors in, and paint for, aircraft used primarily in a fractional aircraft ownership program, and sales of services for the repair, modification, and maintenance of such aircraft, and machinery, equipment, and supplies primarily used to provide those services.

(45) Sales of telecommunications service that is used directly and primarily to perform the functions of a call center. As used in this division, “call center” means any physical location where telephone calls are placed or received in high volume for the purpose of making sales, marketing, customer service, technical support, or other specialized business activity, and that employs at least fifty individuals that engage in call center activities on a full-time basis, or sufficient individuals to fill fifty full-time equivalent positions.

(46) Sales by a telecommunications service vendor of 900 service to a subscriber. This division does not apply to information services, as defined in division (FF) of section 5739.01 of the Revised Code.

(47) Sales of value-added non-voice data service. This division does not apply to any similar service that is not otherwise a telecommunications service.

(48)(a) Sales of machinery, equipment, and software to a qualified direct selling entity for use in a warehouse or distribution center primarily for storing, transporting, or otherwise handling inventory that is held for sale to independent salespersons who operate as direct sellers and that is held primarily for distribution outside this state;

(b) As used in division (B)(48)(a) of this section:

(i) “Direct seller” means a person selling consumer products to individuals for personal or household use and not from a fixed retail location, including selling such product at in-home product demonstrations, parties, and other one-on-one selling.

(ii) “Qualified direct selling entity” means an entity selling to direct sellers at the time the entity enters into a tax credit agreement with the tax credit authority pursuant to section 122.17 of the Revised Code, provided that the agreement was entered into on or after January 1, 2007.
Neither contingencies relevant to the granting of, nor later developments with respect to, the tax credit shall impair the status of the qualified direct selling entity under division (B)(48) of this section after execution of the tax credit agreement by the tax credit authority.

(c) Division (B)(48) of this section is limited to machinery, equipment, and software first stored, used, or consumed in this state within the period commencing June 24, 2008, and ending on the date that is five years after that date.

(49) Sales of materials, parts, equipment, or engines used in the repair or maintenance of aircraft or avionics systems of such aircraft, and sales of repair, remodeling, replacement, or maintenance services in this state performed on aircraft or on an aircraft's avionics, engine, or component materials or parts. As used in division (B)(49) of this section, “aircraft” means aircraft of more than six thousand pounds maximum certified takeoff weight or used exclusively in general aviation.

(50) Sales of full flight simulators that are used for pilot or flight-crew training, sales of repair or replacement parts or components, and sales of repair or maintenance services for such full flight simulators. “Full flight simulator” means a replica of a specific type, or make, model, and series of aircraft cockpit. It includes the assemblage of equipment and computer programs necessary to represent aircraft operations in ground and flight conditions, a visual system providing an out-of-the-cockpit view, and a system that provides cues at least equivalent to those of a three-degree-of-freedom motion system, and has the full range of capabilities of the systems installed in the device as described in appendices A and B of part 60 of chapter 1 of title 14 of the Code of Federal Regulations.

(51) Any transfer or lease of tangible personal property between the state and JobsOhio in accordance with section 4313.02 of the Revised Code.

(52)(a) Sales to a qualifying corporation.

(b) As used in division (B)(52) of this section:

(i) “Qualifying corporation” means a nonprofit corporation organized in this state that leases from an eligible county land, buildings, structures, fixtures, and improvements to the land that are part of or used in a public recreational facility used by a major league professional athletic team or a class A to class AAA minor league affiliate of a major league professional athletic team for a significant portion of the team’s home schedule, provided the following apply:

(I) The facility is leased from the eligible county pursuant to a lease that requires substantially all of the revenue from the operation of the business or activity conducted by the nonprofit corporation at the facility in excess of operating costs, capital expenditures, and reserves to be paid to the eligible county at least once per calendar year.

(II) Upon dissolution and liquidation of the nonprofit corporation, all of its net assets are distributable to the board of commissioners of the eligible county from which the corporation leases the facility.

(ii) “Eligible county” has the same meaning as in section 307.695 of the Revised Code.

(53) Sales to or by a cable service provider, video service provider, or radio or television broadcast station regulated by the federal government of cable service or programming, video service or programming, audio service or programming, or electronically transferred digital audiovisual or audio work. As used in division (B)(53) of this section, “cable service” and “cable service provider” have the same meanings as in section 1332.01 of the Revised Code, and “video service,” “video service provider,” and “video programming” have the same meanings as in section 1332.21 of the Revised Code.

(54) Sales of investment metal bullion and investment coins. “Investment metal bullion” means any bullion described in section 408(m)(3)(B) of the Internal Revenue Code, regardless of whether that bullion is in the physical possession of a trustee. “Investment coin” means any coin composed primarily of gold, silver, platinum, or palladium.

(55) Sales of a digital audio work electronically transferred for delivery through use of a machine, such as a juke box, that does all of the following:
(a) Accepts direct payments to operate;
(b) Automatically plays a selected digital audio work for a single play upon receipt of a payment described in division (B)(55)(a) of this section;
(c) Operates exclusively for the purpose of playing digital audio works in a commercial establishment.

(C) For the purpose of the proper administration of this chapter, and to prevent the evasion of the tax, it is presumed that all sales made in this state are subject to the tax until the contrary is established.

(D) The levy of this tax on retail sales of recreation and sports club service shall not prevent a municipal corporation from levying any tax on recreation and sports club dues or on any income generated by recreation and sports club dues.

(E) The tax collected by the vendor from the consumer under this chapter is not part of the price, but is a tax collection for the benefit of the state, and of counties levying an additional sales tax pursuant to section 5739.021 or 5739.026 of the Revised Code and of transit authorities levying an additional sales tax pursuant to section 5739.023 of the Revised Code. Except for the discount authorized under section 5739.12 of the Revised Code and the effects of any rounding pursuant to section 5703.055 of the Revised Code, no person other than the state or such a county or transit authority shall derive any benefit from the collection or payment of the tax levied by this section or section 5739.021, 5739.023, or 5739.026 of the Revised Code.

5713.08 Tax-exempt property and county auditor.

(A) The county auditor shall make a list of all real and personal property in the auditor's county that is exempted from taxation. Such list shall show the name of the owner, the value of the property exempted, and a statement in brief form of the ground on which such exemption has been granted. It shall be corrected annually by adding thereto the items of property which have been exempted during the year, and by striking therefrom the items which in the opinion of the auditor have lost their right of exemption and which have been reentered on the taxable list, but no property shall be struck from the exempt property list solely because the property has been conveyed to a single member limited liability company with a nonprofit purpose from its nonprofit member or because the property has been conveyed by a single member limited liability company with a nonprofit purpose to its nonprofit member. No additions shall be made to such exempt lists and no additional items of property shall be exempted from taxation without the consent of the tax commissioner as is provided for in section 5715.27 of the Revised Code or without the consent of the housing officer under section 3735.67 of the Revised Code, except for property exempted by the auditor under that section or qualifying agricultural real property, as defined in section 5709.28 of the Revised Code, that is enrolled in an agriculture security area that is exempt under that section. The commissioner may revise at any time the list in every county so that no property is improperly or illegally exempted from taxation. The auditor shall follow the orders of the commissioner given under this section. An abstract of such list shall be filed annually with the commissioner, on a form approved by the commissioner, and a copy thereof shall be kept on file in the office of each auditor for public inspection.

An application for exemption of property shall include a certificate executed by the county treasurer certifying one of the following:

(1) That all taxes, interest, and penalties levied and assessed against the property sought to be exempted have been paid in full for all of the tax years preceding the tax year for which the application for exemption is filed, except for such taxes, interest, and penalties that may be remitted under division (C) of this section;
(2) That the applicant has entered into a valid delinquent tax contract with the county treasurer pursuant to division (A) of section 323.31 of the Revised Code to pay all of the delinquent taxes, interest, and penalties charged against the property, except for such taxes, interest, and penalties that may be remitted under division (C) of this section. If the auditor receives notice under section 323.31 of the Revised Code that such a written delinquent tax contract has become void, the auditor shall strike such property from the list of exempted property and reenter such property on the taxable list. If property is removed from the exempt list because a written delinquent tax contract has become void, current taxes shall first be extended against that property on the general tax list and duplicate of real and public utility property for the tax year in which the auditor receives the notice required by division (A) of section 323.31 of the Revised Code that the delinquent tax contract has become void or, if that notice is not timely made, for the tax year in which falls the latest date by which the treasurer is required by such section to give such notice. A county auditor shall not remove from any tax list and duplicate the amount of any unpaid delinquent taxes, assessments, interest, or penalties owed on property that is placed on the exempt list pursuant to this division.

(3) That a tax certificate has been issued under section 5721.32 or 5721.33 of the Revised Code with respect to the property that is the subject of the application, and the tax certificate is outstanding.

(B) If the treasurer’s certificate is not included with the application or the certificate reflects unpaid taxes, penalties, and interest that may not be remitted, the tax commissioner or county auditor with whom the application was filed shall notify the property owner of that fact, and the applicant shall be given sixty days from the date that notification was mailed in which to provide the tax commissioner or county auditor with a corrected treasurer’s certificate. If a corrected treasurer’s certificate is not received within the time permitted, the tax commissioner or county auditor does not have authority to consider the tax exemption application.

(C) Any taxes, interest, and penalties which have become a lien after the property was first used for the exempt purpose, but in no case prior to the date of acquisition of the title to the property by the applicant, may be remitted by the commissioner or county auditor, except as is provided in division (A) of section 5713.081 of the Revised Code.

(D) Real property acquired by the state in fee simple is exempt from taxation from the date of acquisition of title or date of possession, whichever is the earlier date, provided that all taxes, interest, and penalties as provided in the apportionment provisions of section 319.20 of the Revised Code have been paid to the date of acquisition of title or date of possession by the state, whichever is earlier. The proportionate amount of taxes that are a lien but not yet determined, assessed, and levied for the year in which the property is acquired, shall be remitted by the county auditor for the balance of the year from date of acquisition of title or date of possession, whichever is earlier. This section shall not be construed to authorize the exemption of such property from taxation or the remission of taxes, interest, and penalties thereon until all private use has terminated.

**Tax-Exempt Registration and Reporting**

109:1-1-01 Tax-exempt registration definitions.

(B) This chapter is necessary to administer sections 109.23 to 109.33 of the Revised Code to:

(1) Ensure that fiduciaries managing charitable trusts are maintaining the charitable purposes of said trusts;
2. Ensure that fiduciaries of charitable trusts as defined in section 109.23 of the Revised Code comply with their fiduciary obligations;
3. Facilitate investigations by the office of the attorney general as authorized by section 109.24 of the Revised Code; and
4. Implement the registration and reporting requirements and purposes of sections 109.26 and 109.31 of the Revised Code.

(C) Each rule and every part of each rule is an independent rule and part of a rule, and the holding of any rule or part of a rule to be unconstitutional, void, or ineffective for any cause does not affect the validity or constitutionality of any other rule or part of a rule.

(D) Definitions. As used in this chapter:
1. The term “annual federal return” means a return as defined in subsection 6103(b)(1), Internal Revenue Code, required to be filed with the internal revenue service on an annual basis.
2. The term “charitable organization” means a charitable trust that is also a nonprofit corporation or association formed under the laws of this state or another state.
4. The term “property” means anything of value, whether real or personal, tangible or intangible, and includes but is not limited to securities, notes, receipts, drafts, checks, bonds, money, and rights in action.

109:1-1-02 Tax-exempt registration.

(A) Registration. Unless exempted under section 109.26 of the Revised Code or under paragraph (B) of this rule, all charitable trusts are required to register with the attorney general within six months after the creation of the charitable trust or within six months after occurrence of an event by reason of which such charitable trust is required to register, whichever is first.

(B) Exemptions. The following charitable trusts are exempt from registration with the attorney general:
1. Any governmental unit. For purposes of this paragraph, “governmental unit” means a political subdivision, agency, department, county, parish, municipal corporation, instrumentality or other unit of the government of the United States, a state, or a foreign country.
2. Organizations which are organized and operated exclusively for religious purposes. These include churches, conventions and associations of churches, or integrated auxiliaries of a church.
3. Educational institutions which normally maintain a regular faculty and curriculum and normally have a regular body of pupils or students in attendance at the place where its educational activities are carried on.
4. Charitable trusts in which all charitable interests are contingent, revocable, or subject to an unlimited power of invasion for purposes other than charitable purposes.
5. Charitable trusts which are not located in Ohio. For purposes of this paragraph, a charitable trust is located in Ohio and must register if not otherwise exempt if it is incorporated or otherwise organized in Ohio, conducts program services in Ohio or has assets in Ohio. For the purpose of this paragraph, “assets” includes cash, inventory, equipment, real estate, securities, investments, financial accounts and any other property.

(C) Registration. All charitable trusts required to register shall register through the attorney general’s website at: www.ohioattorneygeneral.gov/charitableregistration.

(D) All charitable trusts required to register shall provide the following documents to the attorney general:
Chapter 1. General Hospital Provisions
Part IV. Tax

109:1-1-03 Tax-exempt registration.

(A) A charitable trust, which is required to register with the attorney general under section 109.26 of the Revised Code and is the central organization which has been issued a group exemption letter by the internal revenue service and which files a group return for federal tax purposes, may file a group registration form through the attorney general's on-line registration and filing system, and thereafter a group annual report, for any charitable trust that is included as a subordinate organization within the group exemption letter and also required to register under that section.

(B) Yearly, a charitable trust which files a group registration form shall provide a list of all chapters or charitable trusts that are included as subordinate organizations within the group exemption letter issued by the internal revenue service and that are incorporated or otherwise organized in Ohio, filed a return or other document with the internal revenue service indicating that the chapter or charitable trust is located in Ohio, conduct program services in Ohio or have assets in Ohio, and include the employer identification number of each individual chapter or charitable trust in the group. For the purpose of this paragraph, “assets” includes cash, inventory, equipment, real estate, securities, investments, financial accounts and any other property.

(C) A community trust or community foundation, which is required to register with the attorney general under section 109.26 of the Revised Code, and which files a consolidated return for federal tax purposes, may file a consolidated registration form through the attorney general's on-line registration and filing system and thereafter a consolidated annual report, for any charitable trust that is included as a component fund within the consolidated return and also required under that section.

(A) Any charitable trust which is required to register with the attorney general pursuant to rule 109:1-1-02 of the Administrative Code, must file an annual report for any taxable year in which such trust has gross receipts of more than twenty-five thousand dollars or gross assets of more than twenty-five thousand dollars.

All charitable trusts required to file an annual report with the attorney general, including trusts that are exempt from filing financial information with the internal revenue service, shall file a form prescribed by the attorney general.

(B) The annual report shall be filed with the attorney general on or before the fifteenth day of the fifth month following the close of the trust's taxable year or at the same time as the federal return is required by the internal revenue service, taking into account any applicable extension of the federal filing date.

(C) The following fees shall accompany the annual report:

<table>
<thead>
<tr>
<th>Assets</th>
<th>Fee</th>
</tr>
</thead>
<tbody>
<tr>
<td>Less than $25,000</td>
<td>-0-</td>
</tr>
</tbody>
</table>
Filing fees must be paid by check or by electronic forms of payment acceptable to the attorney general, payable to the treasurer, state of Ohio.

Part V. Hospital Data Disclosure

3727.42 Hospital price information list.

(A) Every hospital shall compile and make available for inspection by the public a price information list containing the information specified in division (B) of this section and shall periodically update the list to maintain current information. The price information list shall be compiled and made available in a format that complies with the electronic transaction standards and code sets adopted by the United States secretary of health and human services under 42 U.S.C. 1320d-2.

(B) Each price information list required by division (A) of this section shall contain all of the following information:

(1) The usual and customary room and board charges for each level of care within the hospital, including but not limited to private rooms, semiprivate rooms, other multiple patient rooms, and intensive care and other specialty units;

(2) Rates charged for nursing care, if the hospital charges separately for nursing care;

(3) The usual and customary charges, stated separately for inpatients and outpatients if different charges are imposed, for any of the following services provided by the hospital:
   (a) The thirty most common x-ray and radiological procedures;
   (b) The thirty most common laboratory procedures;
   (c) Emergency room services;
   (d) Operating room services;
   (e) Delivery room services;
   (f) Physical, occupational, and pulmonary therapy services;
   (g) Any other services designated as high volume services by a rule which shall be adopted by the director of health.

(4) The hospital's billing policies, including whether the hospital charges interest on an amount not paid in full by any person or government entity and the interest rate charged;

(5) Whether or not the charges listed include fees for the services of hospital-based anesthesiologists, radiologists, pathologists, and emergency room physicians and, if a charge does not include such fees, how such fee information can be obtained.

(C) Every hospital shall do all of the following with the price information list required by this section:

(1) At the time of admission, or as soon as practical thereafter, inform each patient of the availability of the list and on request provide the patient with a free copy of the list;

(2) On request, provide a paper copy of the list to any person or governmental agency, subject to payment of a reasonable fee for copying and processing;

(3) Make the list available free of charge on the hospital's internet web site.

3727.43 Disclosure of overcharge and refund statutory remedy.

Each hospital shall provide a full disclosure of the provisions of section 3924.21 of the Revised Code to every beneficiary who receives services at the hospital.
Chapter 1. General Hospital Provisions
Part V. Hospital Data Disclosure

3924.21 Overcharge and refund procedure.

(A) As used in this section:
(1) "Beneficiary," "hospital," and "third-party payer" have the same meanings as in section 3901.38 of the Revised Code.
(2) "Overcharged" means charged more than the usual and customary charge, rate, or fee that is charged by the provider or hospital for a particular item or service.
(3) "Provider" has the same meaning as in section 3902.11 of the Revised Code.
(B) If a beneficiary identifies on the billing statement of a provider or hospital any item or service for which the beneficiary was overcharged by more than five hundred dollars and the beneficiary notifies the third-party payer of the error at any time after the thirty-day period immediately following the date on which the third-party payer makes payment to the provider or hospital for the item or service, the provider or hospital shall refund to the beneficiary an amount equal to fifteen per cent of the amount overcharged.
(C) A provider or hospital shall not be required to comply with division (B) of this section if, at the time the third-party payer receives notice of the overcharge from the beneficiary, the provider, hospital, or third-party payer is in the process of correcting the error and such process can be documented.

3901-1-64 Medical liability data collection.

(A) Purpose
The purpose of this rule is to establish procedures and requirements for the reporting of specific medical, dental, optometric and chiropractic claims data to the Ohio department of insurance.
(B) Authority
This rule is promulgated pursuant to the authority vested in the superintendent under sections 3901.041 and 3929.302 of the Revised Code.
(C) Definitions
(1) “Medical, dental, optometric and chiropractic claims” include those claims asserted against a risk located in this state that either:
   (a) Meet the definition of “medical claim,” “dental claim,” “optometric claim,” or “chiropractic claim” in section 2305.113 of the Revised Code, or
   (b) Have not been asserted in any civil action, but that otherwise meet the definition of “medical claim,” “dental claim,” “optometric claim,” or “chiropractic claim” in section 2305.113 of the Revised Code.
   (2) “Risk retention group” has the same meaning as in section 3960.01 of the Revised Code.
   (3) “Surplus lines insurer” means an insurer that is not licensed to do business in this state, but is nonetheless approved by the department to offer insurance because coverage is not available through licensed insurers.
   (4) “Self-insurer” means any person or persons who set aside funds to cover liability for future medical, dental, optometric or chiropractic claims or that otherwise assume their own risk or potential loss for such claims. “Self-insurer” includes captives.
   (D) Each authorized insurer, surplus lines insurer, risk retention group, self-insurer, the medical liability underwriting association if created under section 3929.63 of the Revised Code, or any other entity that offers medical malpractice insurance to, or that otherwise assumes liability to pay medical, dental, optometric or chiropractic claims for, risks located in this state, shall report at least annually to the superintendent of insurance, or to the superintendent's designee, information regarding any medical, dental, optometric, or chiropractic claim asserted against a risk located in this state, if the claim resulted in:
Chapter 1. General Hospital Provisions
Part V. Hospital Data Disclosure

(1) A final judgment in any amount,
(2) A settlement in any amount, or
(3) A final disposition of the claim resulting in no indemnity payment on behalf of the covered person or persons.

(E) The report required by paragraph (D) of this rule shall include for each claim:
(1) The name, address and specialty coverage of each covered person;
(2) The insured's policy number, if applicable;
(3) The date of the occurrence that created the claim;
(4) The name and address of the injured person;
(5) The date the claim was reported and the claim number;
(6) The injured person's age and sex;
(7) If the medical, dental, optometric, or chiropractic claim was filed with the court, the case number and the name and location of the court;
(8) In the case of a judgment, the date and amount of the judgment and, if the judgment is subject to the itemization requirements in division (B) of section 2323.43 of the Revised Code, a description of the portion of the judgment that represents economic loss, non-economic loss and punitive damages, if any;
(9) In the case of a settlement, the date and amount of the settlement and, if known, the injured person's incurred medical expense, wage loss, and other expenses;
(10) Any loss adjustment expenses allocated to the claim or, if known, the amount allocated to each covered person;
(11) The loss adjustment expense, broken down between fees and expenses, paid to defense counsel;
(12) The date and reason for final disposition, if no judgment or settlement, and the type of disposition;
(13) Unless disclosure is otherwise prohibited by state or federal law, a summary of the occurrence which created the claim which shall include:
(a) The name of the institution, if any, and the location at which the injury occurred;
(b) The operation, diagnosis, treatment, procedure or other medical event or incident giving rise to the alleged injury;
(c) A description of the principal injury giving rise to the claim.

(F) Frequency
The report(s) required by this rule shall be filed with the superintendent, or the superintendent's designee, on or before May first of each year, and shall contain information for the previous calendar year.

(G) Noncompliance
Any person listed in paragraph (D) of this rule that fails to timely submit the report required under this section shall be subject to a fine not to exceed five hundred dollars.

(H) Confidentiality
Information reported to the superintendent or the superintendent's designee pursuant to this rule shall be confidential and privileged and is not a public record as defined in section 149.43 of the Revised Code. The information provided under this section is not subject to discovery or subpoena and shall not be made public by the superintendent or any other person, including any rating organizations or other agencies designated by the superintendent to gather and/or compile the information.

(I) The requirements of this rule do not apply to reinsurers, reinsurance contracts, reinsurance agreements, or reinsurance claims transactions.

(J) Severability
If any paragraph, term or provision of this rule is adjudged invalid for any reason, the judgment shall not affect, impair or invalidate any other paragraph, term or provision of this rule, but the remaining paragraphs, terms and provisions shall be and continue in full force and
effect.
Chapter 2. Regulated Healthcare Facilities

Part I. Maternity Licensure

3711.01 Maternity homes; definitions.

As used in this chapter:
(A) “Board of health” means a board of health of a city or general health district or the authority having the duties of a board of health under section 3709.05 of the Revised Code.
(B) “Maternity home” means a facility for pregnant girls and women where accommodations, medical care, and social services are provided during the prenatal and postpartal periods. “Maternity home” does not include a private residence where obstetric or newborn services are received by a resident of the home.
(C) “Maternity unit” means a distinct portion of a hospital in which inpatient care is provided to women during all or part of the maternity cycle.
(D) “Newborn care nursery” means a distinct portion of a hospital in which inpatient care is provided to infants. “Newborn care nursery” includes a distinct portion of a hospital in which intensive care is provided to infants.

3711.02 Maternity license requirement.

(A) Except as provided in division (B) of this section, no person shall operate any of the following, unless the person holds the appropriate license issued under this chapter and the license is valid:
(1) A maternity unit;
(2) A newborn care nursery;
(3) A maternity home.
(B) Division (A) of this section does not apply to a health care facility as defined in division (A)(4) of section 3702.30 of the Revised Code.

3711.04 License application.

Each person seeking to operate a maternity unit, newborn care nursery, or maternity home shall apply to the director of health for a license under this chapter. The application shall be submitted in the form and manner prescribed by the director in rules adopted under section 3711.12 of the Revised Code.

A single application and license is required if an applicant will operate both a maternity unit and newborn care nursery.

3711.05 Application process.

(A) The director of health shall review all applications received under section 3711.04 of the Revised Code. On receipt of a complete application, the director shall send a copy of the application to the board of health of the city or general health district in which the maternity unit, newborn care nursery, or maternity home is to be operated.

Unless the board finds that an applicant is not in compliance with an applicable health regulation adopted by the board, the board shall approve the application. The board shall notify the director of its determination to approve or disapprove the application. If the board does not notify the director of its determination by the end of the thirtieth day after the board receives the
copy of the application, the application is deemed to have been approved by the board.

(B) The director shall issue a license to an applicant if all of the following requirements are met:

(1) The board of health approves the application or the application is deemed to have been approved;
(2) The applicant meets the standards specified in rules adopted under section 3711.12 of the Revised Code;
(3) The applicant passes the inspection required by section 3711.06 of the Revised Code.

(C) On issuance of a license, the director shall notify the board of health to which the application was sent under division (A) of this section. In the notice, the director shall specify the terms that apply to the license.

3711.06 License inspections.

The director of health shall inspect each maternity unit, newborn care nursery, or maternity home for which a person has applied for an initial license under section 3711.04 of the Revised Code prior to issuing the license. Inspections shall be conducted in accordance with inspection criteria, procedures, and guidelines adopted by the director under section 3711.12 of the Revised Code.

3711.08 License duration and fee.

A license issued under this chapter is valid for three years, unless earlier revoked or suspended under section 3711.14 of the Revised Code. The license may be renewed in the manner prescribed by the director of health in rules adopted under section 3711.12 of the Revised Code. The license renewal fee specified in the rules shall be paid not later than sixty days after the director of health mails an invoice for the fee to the license holder. A penalty of ten per cent of the amount of the renewal fee shall be assessed for each month the fee is overdue.

3711.10 Inspection scheduled or random.

The director of health shall monitor compliance with this chapter and the rules adopted under it. The director may conduct inspections of a maternity unit, newborn care nursery, or maternity home as necessary to adequately monitor compliance with this chapter and the rules adopted under it. The inspections may be scheduled or random.

The board of health of the city or general health district in which a maternity unit, newborn care nursery, or maternity home is located may conduct inspections of the unit, nursery, or home as necessary to adequately monitor compliance with any applicable health regulation adopted by the board. The inspections may be scheduled or random.

3711.12 Director shall adopt rules.

(A) The director of health shall adopt rules in accordance with Chapter 119 of the Revised Code as the director considers necessary to implement the requirements of this chapter for licensure and operation of maternity units, newborn care nurseries, and maternity homes. The rules shall include provisions for the following:

(1) Licensure application forms and procedures;
(2) Renewal procedures, including procedures that address the right of the director of health, at the director's sole discretion, to conduct an inspection prior to renewal of a license;
Chapter 2. Regulated Healthcare Facilities
Part I. Maternity Licensure

(3) Initial license fees and license renewal fees;
(4) Fees for inspections conducted by the director under section 3711.10 of the Revised Code;
(5) Safety standards, quality-of-care standards, and quality-of-care data reporting requirements;
(6) Reporting and auditing requirements;
(7) Inspection criteria, procedures, and guidelines;
(8) Application forms to be used and procedures to be followed in applying under section 3711.13 of the Revised Code for a variance or waiver of any of the requirements of the rules adopted under this section regarding the operation of a maternity home;
(9) Any other rules necessary to implement this chapter.

(B) When adopting rules under this section, the director shall give consideration to recommendations regarding obstetric and newborn care issued by the American college of obstetricians and gynecologists; American academy of pediatrics; American academy of family physicians; American society of anesthesiologists; American college of nurse-midwives; United States centers for disease control and prevention; association of women's health, obstetric and neonatal nurses; and association of perioperative registered nurses, or their successor organizations. The director shall also consider the recommendations of the maternity and newborn advisory council established in section 3711.20 of the Revised Code.

3711.14 Penalties.

(A) In accordance with Chapter 119 of the Revised Code, the director of health may do any of the following:

(1) Impose a civil penalty of not less than one thousand dollars and not more than two hundred fifty thousand dollars on a person who violates a provision of this chapter or the rules adopted under it;
(2) Summarily suspend, in accordance with division (B) of this section, a license issued under this chapter if the director believes there is clear and convincing evidence that the continued operation of a maternity unit, newborn care nursery, or maternity home presents a danger of immediate and serious harm to the public;
(3) Revoke a license issued under this chapter if the director determines that a violation of a provision of this chapter or the rules adopted under it has occurred in such a manner as to pose an imminent threat of serious physical or life-threatening danger.

(B) If the director suspends a license under division (A)(2) of this section, the director shall issue a written order of suspension and cause it to be delivered by certified mail or in person in accordance with section 119.07 of the Revised Code. The order shall not be subject to suspension by the court while an appeal filed under section 119.12 of the Revised Code is pending. If the individual subject to the suspension requests an adjudication, the date set for the adjudication shall be within fifteen days but not earlier than seven days after the individual makes the request, unless another date is agreed to by both the individual and the director. The summary suspension shall remain in effect, unless reversed by the director, until a final adjudication order issued by the director pursuant to this section and Chapter 119 of the Revised Code becomes effective.

The director shall issue a final adjudication order not later than ninety days after completion of the adjudication. If the director does not issue a final order within the ninety-day period, the summary suspension shall be void, but any final adjudication order issued subsequent to the ninety-day period shall not be affected.

(C) If the director issues an order revoking or suspending a license issued under this chapter and the license holder continues to operate a maternity unit, newborn care nursery, or maternity home, the director may ask the attorney general to apply to the court of common
pleas of the county in which the person is located for an order enjoining the person from operating the unit, nursery, or home. The court shall grant the order on a showing that the person is operating the unit, nursery, or home.

3711.16 Fees to state general revenue fund.

All initial license fees, renewal fees, late renewal penalties, fees for inspections conducted by the director of health, and civil penalties collected under this chapter shall be deposited in the state treasury to the credit of the general operations fund created under section 3701.83 of the Revised Code. The moneys shall be used solely for purposes of administering and enforcing this chapter and the rules adopted under it.

3711.20 Maternity advisory council.

(A) As used in this section:
(1) “Board-certified” means that a physician has been certified in an area of practice by a medical specialty board of the American medical association or the American osteopathic association.
(2) “Registered nurse” has the meaning defined in section 4723.01 of the Revised Code.
(B) There is hereby created the maternity and newborn advisory council within the department of health. The governor, with the advice and consent of the senate, shall appoint the following members:
(1) Two board-certified obstetricians;
(2) A board-certified pediatrician;
(3) Three registered nurses who provide newborn care;
(4) Three registered nurses who provide obstetric care;
(5) A licensed dietitian with knowledge of newborn nutrition;
(6) A licensed social worker with knowledge of newborn psychosocial and family support services;
(7) A lactation consultant certified by the international board of lactation consultant examiners;
(8) An individual to represent the public;
(9) A board-certified perinatologist;
(10) A board-certified neonatologist;
(11) A certified nurse-midwife, certified nurse practitioner, clinical nurse specialist, or certified registered nurse anesthetist;
(12) A board-certified anesthesiologist;
(13) A board-certified family practice physician who delivers children or provides newborn care.
(C) The governor shall make the initial appointments to the council not later than sixty days after September 1, 2008. Of the initial appointments, six shall be for a term of three years, six for a term of four years, and six for a term of five years. Thereafter, terms of office shall be five years with each term ending on the same day of the same month as the term it succeeds. Each member shall hold office from the date of the member's appointment until the end of the term for which the member was appointed. Members may be reappointed. Vacancies shall be filled in the manner provided for original appointment. Any member appointed to fill a vacancy prior to the expiration of the term for which the member's predecessor was appointed shall hold office for the remainder of that term. A member shall continue in office subsequent to the expiration of the member's term or until a period of sixty days has elapsed, whichever occurs first.
(D) The council shall hold four meetings in the first year after the initial appointments to
the council are made under division (B) of this section. Thereafter, the council shall hold two meetings each year. Additional meetings may be held at the call of the chairperson or the director of health.

The chairperson shall be selected annually by members of the council. Following each meeting, the chairperson may submit a report to the director summarizing the activities, discussion, and recommendations of the council. Eight voting members of the council constitute a quorum.

(E) Members of the council shall be reimbursed for actual and necessary expenses incurred in the performance of their official duties.

(F) The department of health shall provide the council the administrative support necessary to execute its duties.

3711.21 Council duties.

The maternity and newborn advisory council shall do all of the following:
(A) Advise and consult with the director of health in the development of rules to be adopted under this chapter;
(B) Advise and consult with the director concerning the implementation and enforcement of this chapter;
(C) Advise and consult with the director in the development of inspection criteria, procedures, and guidelines to be used in enforcement of this chapter;
(D) Advise and consult with the director regarding recommendations regarding improving maternity and newborn care in this state;
(E) Prepare and submit to the director an annual report evaluating the department's enforcement of this chapter.

3711.22 Council committees.

The maternity and newborn advisory council may establish committees to focus on specific components of the enforcement of this chapter. Chairpersons of the committees shall be appointed by the chairperson of the council and shall be members of the council. Other members of the committees shall be appointed by the chairperson of the council and may include individuals who are not members of the council.

The membership and responsibilities of each committee established under this section shall be subject to the approval of the director of health. Members of the committees shall be reimbursed for actual and necessary expenses incurred in the performance of their official duties.

Committee reports shall be presented to the council at each regular meeting of the council.

3711.30 Opioid-dependent newborn reporting.

(A) As used in this section, “opioid” means opium, opium derivatives, and synthetic opium substitutes.
(B) Each maternity unit, newborn care nursery, and maternity home shall report to the department of health the number of newborns born to residents of this state in the unit, nursery, or home during the preceding calendar quarter that were diagnosed as opioid dependent at birth. The reports shall be submitted not later than thirty days after the end of each quarter and shall not include any patient-identifying information.
(C) The department shall establish standards and procedures for reporting the information required by this section. The information reported under this section shall not be
used for law enforcement purposes or disclosed to law enforcement authorities.

(D) The department shall compile the information submitted under this section and make a summary of that information available to the public not later than ninety days after the end of each calendar year.

3701-7-01 Maternity units: definitions.

(A) “Administrator” means the person responsible for the overall daily management of the maternity unit, or newborn care nursery, or both.

(B) “Advanced practice nurse” means an individual who holds a valid certificate of authority under Chapter 4723 of the Revised Code to practice nursing as a certified registered nurse anesthetist, clinical nurse specialist, certified nurse-midwife, or certified nurse practitioner.

(C) “Anesthesiologist” means a physician who has completed a residency training program in anesthesiology accredited by the accreditation council for graduate medical education or the American osteopathic association.

(D) “Anesthesiologist assistant” means an individual who holds a valid certificate of registration under Chapter 4760 of the Revised Code to practice as an anesthesiologist assistant.

(E) “Available for consultation” means an individual is capable of rendering advice, opinions, recommendations, suggestions, and counsel in evaluating a patient upon notice by the requesting physician and in accordance with the medical needs of the patient. This may be done by telemedicine or e-medicine in accordance with acceptable standards of practice.

(F) “Certified nurse-midwife” means a registered nurse who holds a valid certificate of authority issued under Chapter 4723 of the Revised Code that authorizes the practice of nursing as a certified nurse-midwife in accordance with section 4723.43 of the Revised Code and rules adopted by the board of nursing.

(G) “Certified nurse practitioner” means a registered nurse who holds a valid certificate of authority issued under Chapter 4723 of the Revised Code that authorizes the practice of nursing as a certified nurse practitioner in accordance with section 4723.43 of the Revised Code and rules adopted by the board of nursing.

(H) “Department” means the Ohio department of health.

(I) “Director” means the director of the department of health or his duly authorized representative.

(J) “Donor human milk” means milk from a lactating mother or lactating mothers, other than the milk of the mother of the newborn, that has been screened pursuant to the guidelines issued by the “Human milk bank association of North America.”

(K) “Feeding preparation area” means a designated clean area within the newborn care nursery that is specifically for the storage and preparation of human milk, donor human milk, or commercial infant formula.

(L) “Fetal death” means death prior to the complete expulsion or extraction from its mother of a product of conception, which after such expulsion or extraction, does not breathe or show any other evidence of life such as beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles. “Fetal death” does not include termination of the pregnancy.

(M) “Guidelines for perinatal care” means the sixth edition of the “Guidelines for perinatal care” issued by the American academy of pediatrics and the American congress of obstetricians and gynecologists.

(N) “Gynecologic patient” means a woman with or suspected of having a disorder related to her reproductive organs.

(O) “Hospital” means an institution required to be registered under section 3701.07 of the Revised Code.

(P) “Human milk” means the milk produced by a mother to feed her newborn.
Q) “Lactation consultant” means an individual who holds credentials as an “International board certified lactation consultant.”

R) “Level classification” means the level designation of the maternity unit and newborn care nursery that determines the services that may be provided.

S) “Licensee” or “license holder” means the individual, corporation, partnership, board, association or entity licensed by the director under Chapter 3711 of the Revised Code and rule 3701-7-03 of the Administrative Code to maintain a maternity unit, newborn care nursery, or maternity home.

T) “Licensed capacity” means the maximum number of patients that the maternity unit, newborn care nursery, or maternity home is authorized to accommodate under its license.

U) “Licensed dietitian” means an individual licensed under Chapter 4759 of the Revised Code to practice as a licensed dietitian.

V) “Licensed practical nurse” means an individual licensed under Chapter 4723 of the Revised Code to practice nursing as a licensed practical nurse.

W) “Maternity home” means a facility for pregnant girls and women where accommodations, medical care, and social services are provided during the prenatal and postpartal periods. Maternity home does not include a private residence where obstetric or newborn services are received by a resident of the home.

X) “Maternity unit” means a distinct portion of a hospital in which inpatient care is provided to women during all or part of the maternity cycle.

Y) “Medical director” means the physician who is responsible for managing and directing the provision of medical services at the maternity unit or newborn care nursery.

Z) “Neonatal resuscitation program” means the neonatal resuscitation program developed by the American heart association and American academy of pediatrics, or an equivalent program approved by the director.

AA) “Newborn care nursery” means a distinct portion of a hospital in which inpatient care is provided to infants. Newborn care nursery includes a distinct portion of a hospital in which intensive care is provided to infants.

BB) “Nurse” means either a licensed practical nurse or a registered nurse.

CC) “Nursing staff” means registered nurses, licensed practical nurses, and other staff that render care under the supervision of a registered nurse.

DD) “Obstetric and newborn care service” means the staff, equipment, physical space, and support services required to care for pregnant women, fetuses, women who have recently delivered a child, and newborns.

EE) “On-call” means an individual is capable of being reached by telephone or other electronic device and able to return to the maternity unit or newborn care nursery in accordance with facility policies.

FF) “On-duty” means in the maternity unit, newborn care nursery, or maternity home, alert and responsive to patient needs.

GG) “On-site” means in the building in which the maternity unit or newborn care nursery is located, or in the case of campus settings, in a nearby building and able to immediately respond to the maternity unit or newborn care nursery.

HH) “On-staff” means a member of the formal organization of physicians and other health professionals approved by the governing body with the delegated responsibility to provide for the quality of all medical care, and other health care as appropriate, provided to patients.

II) “Patient” means any individual who receives health care services.

JJ) “Pharmacist” means an individual registered under Chapter 4729 of the Revised Code to practice pharmacy.

KK) “Physician” means an individual who is licensed under Chapter 4731 of the Revised Code to practice medicine and surgery, or osteopathic medicine and surgery.
(LL) “Physician assistant” means an individual who holds a valid certificate to practice issued under Chapter 4730 of the Revised Code to provide services to patients as a physician assistant under the supervision, control, and direction of one or more physicians who are responsible for the physician assistant's performance.

(MM) “Registered nurse” means an individual who is licensed under section 4723.09 of the Revised Code to practice as a licensed registered nurse.

(NN) “Resident” means a woman or a newborn to whom the maternity home provides accommodations, medical care, or social services.

(OO) “Resident representative” means either a person acting on behalf of a resident with the consent of the resident or the resident’s legal guardian.

(PP) “Social worker” means an individual licensed to practice social work under Chapter 4757 of the Revised Code.

(QQ) “Special delivery services” means services provided by a freestanding children’s hospital that does not offer typical obstetric services as a level I obstetric service, level II obstetric service, or level III obstetric service, but is licensed as a level III neonatal care service, and is designed and equipped to provide delivery services to pregnant women as part of a comprehensive multidisciplinary program of fetal and neonatal care when it is determined that the fetus, once delivered, will require immediate highly subspecialty neonatal intensive care or neonatal surgery typically provided by a level IIIB or level IIIC neonatal care service.

(RR) “Staff member” or “staff” means the administrator and individuals providing direct care to patients on a full-time, part-time, temporary, contract, or voluntary basis. Staff member or staff does not include volunteers who are family members of a patient.

**3701-7-02 Maternity units: general license provisions and prohibitions.**

(A) Except as provided in paragraph (B) of this rule, no person shall operate any of the following unless the person holds the appropriate valid license issued under this chapter:

1. A maternity unit as defined in division (C) of section 3711.01 of the Revised Code;
2. A newborn care nursery as defined in division (D) of section 3711.01 of the Revised Code; and
3. A maternity home as defined in division (B) of section 3711.01 of the Revised Code.

(B) Paragraph (A) of this rule does not apply to a freestanding birthing center licensed or a freestanding birthing center exempted from licensure under Chapter 3702 of the Revised Code and Chapter 3701-83 of the Administrative Code.

**3701-7-03 Maternity units: admission, infection control, and patient care plans.**

(A) Application for a license to operate a maternity unit and newborn care nursery, a newborn care nursery, a maternity home, or renewal of an existing license, shall be made in writing on a form provided by the director and signed by the applicant or the applicant's agent, and shall include the following:

1. A nonrefundable application or renewal fee based upon the level classification as follows:
   a. Level I obstetrical service and level I neonatal care service, one thousand two hundred fifty dollars;
   b. Level II obstetrical service and level II neonatal care service, one thousand seven hundred fifty dollars;
   c. Level III obstetrical service and level III neonatal care service, two thousand two hundred fifty dollars;
   d. Freestanding children's hospital with a level III neonatal care service, two thousand two hundred fifty dollars; or
(e) Maternity home, seven hundred fifty dollars;
(2) The name to appear on the license;
(3) The particular premises in which the business will be carried out;
(4) The proposed licensed capacity; and
(5) For a level II neonatal care service or a level III neonatal care service, the proposed
sublevel classification.

(B) The license renewal fee specified in paragraph (A) of this rule shall be paid not later
than sixty days after the director of health mails an invoice for the fee to the license holder. A
penalty of ten per cent of the amount of the renewal fee shall be assessed for each month the
fee is overdue.

(C) Upon receipt of a completed application, the director shall send a copy of the
application to the board of health of the health district in which the maternity unit and newborn
care nursery, newborn care nursery, or maternity home is located. The board of health of the
health district shall:

(1) Approve the application, unless the maternity unit, newborn care nursery, or
maternity home is in noncompliance with any applicable local health regulation; and
(2) Notify the director of its determination within thirty days of receipt of the application.

(D) If the board of health of the health district does not provide the notice required by
paragraph (C)(2) of this rule, the application will be deemed to be approved by the board of
health of the health district.

(E) The director shall issue a license to the applicant if it is determined that the applicant
is in compliance with Chapter 3711 of the Revised Code and applicable rules within Chapter
3701-7 of the Administrative Code. The license shall state the following:

(1) The name of the licensee;
(2) The licensed capacity;
(3) The particular premises in which the business will be carried out; and
(4) For a level II neonatal care service or a level III neonatal care service, the sublevel
classification.

(F) The license shall be valid for a period of three years, with review as often as deemed
necessary, but at least once every three years, in a fashion deemed appropriate by the director
to determine whether the maternity unit, newborn care nursery, or maternity home is in
compliance with rules 3701-7-01 to 3701-7-17 of the Administrative Code.

(G) A license issued for a maternity unit and newborn care nursery, newborn care
nursery, or maternity home is valid only for the premises provided on the license in accordance
with paragraph (E) of this rule.

(H) The licensee shall promptly notify the director in writing of any change in
administrator, primary agent, location, or name of the maternity unit and newborn care nursery,
newborn care nursery, or maternity home.

(I) The licensee shall notify the director within seven days in writing of the voluntary
suspension of operation, closing, or sale of the maternity unit and newborn care nursery,
newborn care nursery, or maternity home, and return the license to the director.

(J) The license shall be posted conspicuously at the entrance to the maternity unit and
newborn care nursery, newborn care nursery, or maternity home.

(K) The licensee shall ensure that patient or resident occupancy does not exceed the
licensed capacity. The licensee shall develop and follow policies and procedures for handling
patients or residents that temporarily exceed the licensed capacity due to factors outside the
control of the licensee.

(L) The licensee shall notify the director in writing prior to any construction,
modernization, major acquisition, or significant alteration that would change the licensed
capacity, or that affects the level, volume, or scope of services.

(M) The department of health may revoke a license pursuant to section 3711.14 of the
Chapter 2. Regulated Healthcare Facilities
Part I. Maternity Licensure

Revised Code in accordance with Chapter 119 of the Revised Code.

3701-7-04 Maternity unit: facilities and equipment minimum standards.

(A) Upon the effective date of rules in this chapter, no person or agency of state or local government shall operate a maternity unit, newborn care nursery, or maternity home that does not comply with the provisions of this chapter of the Administrative Code.
(B) No person or agency of state or local government shall:
   (1) Interfere with an inspection or investigation of a hospital maternity unit, newborn care nursery, or maternity home by the director. As used in this paragraph, “interfere” means to obstruct directly or indirectly any individual conducting an authorized inspection or investigation from carrying out his or her duties, including:
      (a) Harassment;
      (b) Intimidation;
      (c) Refusal to permit the director upon presentation of official department identification, to inspect or investigate the operation of a maternity unit, newborn care nursery, or maternity home; or
      (d) Refusal to permit the director upon presentation of official department identification to enter and inspect records that are kept concerning the operations of the hospital maternity unit, newborn care nursery, or maternity home for information necessary to determine compliance with the applicable rules of this chapter.
   (2) Materially misrepresent any information provided to the director pursuant to section 3711.10 of the Revised Code and Chapter 3701-7 of the Administrative Code.
(C) Each provider of a hospital maternity unit, newborn care nursery, or maternity home shall ensure that the building or structure where it is located is in compliance with all applicable federal, state and local laws and regulations.
(D) Nothing in this chapter shall be construed as authorizing individuals to provide services outside their licensed scope of practice.
(E) A new maternity unit, newborn care nursery, or maternity home shall provide the service in compliance with all applicable provisions of Chapter 3701-7 of the Administrative Code, unless a waiver or variance is granted under the provisions of rule 3701-7-17 of the Administrative Code for all provisions not met.

3701-7-05 Maternity unit: nursery minimum standards.

(A) The director of health shall monitor compliance with Chapter 3711 of the Revised Code and Chapter 3701-7 of the Administrative Code. The director may conduct inspections of a maternity unit, newborn care nursery, or maternity home as often as deemed necessary based upon the compliance history of the maternity unit, newborn care nursery, or maternity home, but at least once every three years, to adequately monitor compliance. The inspections may be scheduled and announced or random and unannounced as follows:
   (1) The triennial inspection shall be scheduled and announced; and
   (2) All other inspections may be random and unannounced.
(B) The director may conduct an inspection to investigate alleged violations of Chapter 3711 of the Revised Code and Chapter 3701-7 of the Administrative Code. The director shall inform the complainant and the facility of the results of the inspection.
(C) The fee for inspections conducted by the director pursuant to Chapter 3711 of the Revised Code shall be as follows:
   (1) Inspection fee:
      (a) Level I service, one thousand seven hundred fifty dollars;
      (b) Level II service, two thousand seven hundred fifty dollars;
(c) Level III service, three thousand seven hundred fifty dollars;
(d) Freestanding children's hospital with a level III neonatal care service, three thousand seven hundred fifty dollars; or
(e) Maternity home, seven hundred fifty dollars;
(2) Complaint inspection fee of seven hundred fifty dollars.
(D) If the director determines the existence of a violation of any provision of Chapter 3711 of the Revised Code or Chapter 3701-7 of the Administrative Code, the director may request the licensee to submit an acceptable plan of correction to the director stating the actions being taken or to be taken to correct a violation, the time frame for completion and the means by which continuing compliance will be monitored; and may:
(1) In accordance with Chapter 119 of the Revised Code, impose a civil penalty based on the severity of the violation as follows:
   (a) For violations that present an imminent threat of serious physical or life threatening danger, or an immediate serious threat to the emotional health, safety or security of one or more patients or residents, a civil penalty of not less than one hundred thousand dollars and not more than two hundred and fifty thousand dollars;
   (b) For violations that directly threaten physical or emotional health, safety, or security of one or more patients or residents, a civil penalty of not less than ten thousand dollars and not more than one hundred thousand dollars;
   (c) For violations that indirectly threaten or potentially threaten the physical or emotional health, safety, or security of one or more patients or residents, a civil penalty of not less than one thousand dollars and not more than ten thousand dollars.
(2) Summarily suspend, in accordance with paragraph (D)(3) of this rule, a license issued under this chapter if the director believes that there is clear and convincing evidence that the continued operation of the maternity unit, newborn care nursery, or maternity home present a danger of immediate and serious harm to patients or residents.
(3) If the director suspends a license under paragraph (D)(2) of this rule, the director shall issue a written order of suspension and cause it to be delivered by certified mail or in person in accordance with section 119.07 of the Revised Code. The order shall not be subject to suspension by the court while an appeal filed under section 119.12 of the Revised Code is pending. If the license holder subject to the suspension requests an adjudication, the date set for the adjudication shall be within fifteen days but not earlier than seven days after the license holder makes the request, unless another date is agreed to by both the license holder and the director. The summary suspension shall remain in effect, unless reversed by the director, until a final adjudication order issued by the director pursuant to this chapter and Chapter 119 of the Revised Code becomes effective. The director shall issue a final adjudication order not later than ninety days after completion of the adjudication. If the director does not issue a final order within the ninety-day period, the summary suspension shall be void, but any final adjudication order issued subsequent to the ninety-day period shall not be affected.
(4) Revoke a license issued under this chapter if the director determines that a violation of a rule under this chapter has occurred in such a manner as to pose an imminent threat of serious physical or life-threatening danger to one or more patients or residents.
(5) In accordance with Chapter 119 of the Revised Code, for a second or subsequent violation of Chapter 3711 of the Revised Code or this chapter, or for an initial violation the director determines has caused or poses an imminent threat of serious physical or life-threatening danger, issue an order that the unit or home cease operation.
(E) If the director issues an order revoking or suspending a license issued under this rule and the license holder continues to operate a maternity unit, newborn care nursery, or maternity home, the director may ask the attorney general to apply to the court of common pleas of the county in which the person is located for an order enjoining the person from operating the unit, nursery, or home. The court shall grant the order on a showing that the person is operating the
maternity unit, newborn care nursery, or maternity home.

(F) In determining which of the actions to take under paragraph (D) of this rule, the director may consider, but is not limited to, the following factors:

(1) The danger of serious physical or life-threatening harm to one or more patients or residents utilizing the healthcare service;
(2) The nature, duration, gravity, and extent of the violation;
(3) The number, if any, of patients or residents directly affected by the violation;
(4) Whether the violation directly relates to patient or resident care and the extent of the actual or potential harm to patients or residents;
(5) The number of staff involved in the violation;
(6) The actions taken by the maternity unit, newborn care nursery, or home to correct the violation; and
(7) The compliance history of the maternity unit, newborn care nursery, or maternity home.

3701-7-06 Maternity units: variances and waivers from minimum standards.

(A) This rule shall not be construed to require any maternity unit licensed on or before March 20, 1997, to alter, upgrade, or otherwise improve the structure or fixtures of the maternity unit in order to comply with the requirements of this rule, unless one of the following applies:

(1) The maternity unit initiates or has, after March 20, 1997, initiated a construction, renovation, or a reconstruction project that involves a capital expenditure of at least fifty thousand dollars, not including expenditures for equipment or staffing or operational costs, and that directly involves the area in which the existing maternity unit is located;
(2) The maternity unit initiates or has, after March 20, 1997, initiated a service level designation change under rule 3701-7-07 of the Administrative Code or prior Chapter 3701-84 of the Administrative Code; or
(3) The director determines or has determined, by clear and convincing evidence, that failure to comply would create an imminent risk to the health and welfare of any patient.

(B) Each maternity unit, newborn care nursery, or maternity home shall ensure that the building or structure where the maternity unit, newborn care nursery, or maternity home is located:

(1) Has a certificate of use from a local, certified building department or from the Ohio department of commerce as meeting applicable requirements of Chapters 3781 and 3791 of the Revised Code and any rules adopted thereunder;
(2) Complies with the state fire code; and
(3) Complies with the applicable provisions of Chapter 3737 of the Revised Code and the rules adopted under it.

(C) The maternity unit, newborn care nursery, or maternity home shall develop and follow a disaster preparedness plan including evacuation in the event of a fire. Evacuation procedures shall be reviewed at least annually, and practice drills shall be conducted quarterly on each shift.

(D) The maternity unit, newborn care nursery, or maternity home shall develop and follow policies for ensuring the safety and security of all patients, including infant security drills for locating missing newborns. The policies shall be reviewed at least annually, and practice infant security drills shall be conducted on each shift at least once every six months.

(E) Each maternity unit, newborn care nursery, or maternity home shall label, store and dispose all poisons, hazardous wastes and flammable materials in a safe manner that does not jeopardize patient or resident health or safety, and in accordance with state and federal laws and regulations.

(F) Minimum space or square footage requirements specified in this chapter are of clear
floor space and exclusive of fixed or wall mounted cabinets, desks, wardrobes, and closets that are floor based.

(G) Each maternity unit constructed on or after the effective date of this rule that utilizes separate antepartum areas shall provide space for the provision of services and shall provide:

1. Single occupancy rooms with a minimum of one hundred twenty square feet of open floor space. Each room shall provide space for the mother and a support person;
2. A private toilet and shower or tub for each room; and
3. Two medical gas, medical air, and vacuum outlets available in each room.

(H) Each maternity unit’s labor-delivery-recovery or labor-delivery-recovery-postpartum area shall provide space for the provision of services and the following:

1. Single occupancy rooms with a minimum of two hundred fifty square feet of open floor space and a minimum room width or length of thirteen feet. Each room shall provide space for the mother, newborn and a support person;
2. A private toilet and shower or tub for each room;
3. A distinct area within the room for newborn resuscitation and stabilization. The distinct area shall be equipped with one medical gas, medical air, and vacuum outlet available to each mother and one medical gas, medical air, and vacuum outlet available to each newborn;
4. A minimum of six total air changes per hour with the ability to provide fifteen air changes per hour during the performance of a cesarean delivery where that room is designated as such. Maternity units constructed on or after the effective date of this rule shall provide a minimum of six total air changes per hour with the ability to provide twenty air changes per hour during the performance of a cesarean delivery where that room is designated as such; and
5. Immediately accessible examination lights.

(I) Each maternity unit that utilizes separate labor rooms shall provide space for the provision of services and shall provide:

1. A minimum area of one hundred square feet per bed. Each maternity unit constructed on or after the effective date of this rule shall have private occupancy labor rooms. Maternity units constructed on or after the effective date of this rule shall provide a minimum area of two hundred square feet per bed;
2. One medical gas, one medical air and one vacuum outlet accessible to each mother’s bed; and
3. A minimum of two total air changes per hour with the ability to provide twenty air changes per hour during the performance of a cesarean delivery where that room is designated as such. Maternity units constructed on or after the effective date of this rule shall provide a minimum of six total air changes per hour with the ability to provide twenty air changes per hour during the performance of a cesarean delivery where that room is designated as such.

(J) Each maternity unit that utilizes separate recovery rooms shall provide space for the provision of services and shall provide:

1. A minimum of two recovery room beds;
2. Space for the newborn, mother and support person; and
3. A minimum of six total air changes per hour per recovery room.

(K) Each maternity unit that utilizes separate postpartum areas shall provide space for the provision of services and shall provide:

1. A minimum of one hundred square feet of clear floor space per bed in semiprivate rooms and one hundred and twenty square feet of clear floor space in private rooms. Postpartum rooms existing on or before March 20,1997 shall provide at least eighty square feet of clear space per bed in semiprivate rooms and one hundred square feet in private rooms; and
2. Patient access to a bathroom with toilet and shower or tub, without entering the main corridor. Bathrooms in postpartum rooms existing before the effective date of this rule may serve no more than two postpartum beds. Postpartum rooms constructed on or after the effective date of this rule shall have one bathroom with toilet and shower or tub for each patient.
(L) Each maternity unit shall provide at least one cesarean delivery room in every obstetrical area. Each cesarean delivery area shall provide space for services and shall provide:

1. Cesarean delivery rooms with a minimum of three hundred and sixty square feet of open floor space and a minimum room width or length of sixteen feet. Any additional delivery rooms without cesarean delivery capability shall have a minimum open floor area of three hundred square feet;

2. Space for newborn resuscitation that meets one of the following:
   a. A minimum of an additional forty square feet of open floor space within the cesarean delivery room. Cesarean delivery areas rooms constructed on or after the effective date of this rule shall provide a minimum an additional eighty square feet of open floor space within the cesarean delivery room; or
   b. An area of one hundred and fifty square feet in a separate room immediately accessible to the cesarean delivery room;

3. A minimum of twenty air changes per hour per cesarean delivery area.

(M) Each maternity unit shall provide the necessary equipment and supplies for the complete care of the newborn in the location where the physiologic transition period occurs. Equipment shall include:

1. Heat source equipment;
2. Oxygen, suction, and air outlets;
3. Oxygen blender available for delivery;
4. Resuscitation equipment;
5. Equipment necessary for physiologic monitoring; and
6. Transport conveyance.

(N) Each maternity unit shall provide at least one airborne infection isolation room in or near each nursery. The room shall be enclosed and separated from the nursery with the ability to observe the infant from adjacent nurseries or control area and shall be consistent with current infection control guidelines, issued by the United States centers for disease control and prevention.

(O) The maternity unit shall provide separate areas as necessary to support the services provided including:

1. The consultation, or demonstration of breast feeding or breast pumping; and
2. Family waiting.

(P) Each newborn nursery room shall provide a floor area of twenty-four square feet for each newborn station with a minimum of two feet between newborn stations. Maternity units providing care to newborns requiring close observation shall conform to the requirements for the level designation and classification of that newborn service, and shall, at a minimum provide a floor area of fifty square feet with a distance of four feet between and at all sides of newborn stations. Maternity units constructed on or after the effective date of this rule that provide care to newborns requiring close observation shall conform to the requirements for the level designation and classification of that newborn service and shall provide a minimum of one hundred twenty square feet of open floor space for each newborn station with additional space based on the acuity level of the newborn.

(Q) Each newborn nursery room or newborn care nursery shall conform to the requirements for the level designation and classification of that newborn service and provide space for procedures, equipment, and staff functions and shall provide:

1. Medical gas, medical air, and vacuum outlets accessible to each newborn;
2. At least one door capable of being locked in each newborn nursery room that exits to the main corridor;
3. At least one sink, capable of hands free operation, for each eight newborn stations;
4. Observation windows to permit the viewing of newborns from public areas,
workrooms and adjacent nursery rooms;
(5) A system for storage and distribution of emergency drugs and routine medications;
(6) A minimum of six total air changes per hour in all newborn nursery rooms or newborn care units; and
(7) Lighting capable of varying from indirect to high intensity.
(R) Maternity units may replace newborn nursery rooms with baby holding nurseries in postpartum and labor-delivery-recovery-postpartum areas. The holding nursery shall meet the requirements of paragraphs (P) and (Q) of this rule.
(S) In addition to the requirements of paragraphs (N) and (P) of this rule, each maternity unit or newborn care nursery licensed as a level IIA, level IIB, level IIIA, level IIIB, or level IIIC neonatal care service shall provide:
(1) A group patient or open bay area with a clearly identified entrance large enough to accommodate portable x-ray equipment, and a reception area for families. The reception area shall permit visual observation and contact by the staff of all individuals entering the unit. A hand washing area shall be provided at each family entrance to the newborn care area;
(2) At least one door to each nursery room shall be large enough to accommodate portable x-ray equipment;
(3) A system to provide efficient and controlled access to the nursery from the labor and delivery area, the emergency room, and other referral entry points as may be applicable;
(4) Work areas, in addition to newborn care space;
(5) A minimum of one hundred square feet of open floor space for each newborn station. Additional space shall be provided based on acuity level of the newborn. There shall be an aisle adjacent to each newborn station with a minimum width of three feet to accommodate movement through the nursery without disturbing newborn care. Newborn care nurseries constructed on or after the effective date of this rule shall provide a minimum of two hundred twenty square feet of open floor space for each newborn station with additional space based on the acuity level of the newborn. An aisle adjacent to each newborn station with a minimum width of four feet to accommodate movement through the nursery without disturbing newborn care shall also be provided;
(6) A minimum of three medical gas, three medical air, three vacuum outlets, and seven duplex-grounded electrical receptacles organized in an accessible and safe manner for each newborn station. Fifty per cent of electrical outlets must be connected to the emergency system power and be so labeled. Newborn care nurseries constructed on or after the effective date of this rule shall provide sixteen single or duplex-grounded electrical receptacles organized in an accessible and safe manner for each newborn station. Fifty per cent of electrical outlets must be connected to the emergency system power and be so labeled;
(7) A respiratory therapy work area and storage area within the newborn care area or in close proximity;
(8) A transition room that allows parents and infant extended private time together in close proximity to the nursery. The room shall have a sink and toilet fixtures, a bed for parents, sufficient space for an infant bed and equipment, communication linkage with newborn intensive care nursery staff, and electric, air, vacuum, and medical gas outlets. The transition room may be used for other purposes when not required for use by parents and infant or infants; and
(9) Newborn care nurseries that utilize single patient private or semi-private rooms within the nursery shall meet the requirements of paragraphs (R)(5) and (R)(6) of this rule.
(T) Equipment and technology required under this rule may be replaced by newer technology and equipment with equivalent or superior capability. In assessing new equipment and technology, consideration shall be given to the recommendations of recognized professional societies and accrediting bodies.
(U) Each maternity unit or newborn care nursery shall provide hands-free hand washing fixtures in all areas for staff use where patient care is provided.
Chapter 2. Regulated Healthcare Facilities
Part I. Maternity Licensure

(V) Each maternity unit or newborn care nursery shall provide a system of communication that interconnects all areas in which patient care is provided and that effectively alerts staff members of emergencies or patient needs. Each toilet, or shower, or both, used by patients shall have an emergency communications system capable of alerting staff of emergencies or patient needs.

(W) Each maternity unit or newborn care nursery shall provide appropriate safety features including handrails, emergency power, and electrical outlets for the services provided.

(X) Maternity home facilities and equipment shall include at least the following:

1. Equipment, lighting, and means of regulating indoor temperature and indoor air quality to provide a safe and comfortable living environment and working conditions in the maternity home;
2. Adequate facilities for the delivery of housekeeping and other supportive services;
3. Handrails in all stairwells, and grab bars in bathrooms and showers;
4. Secure office space for maintenance, preparation, and storage of resident medical records and medications;
5. Separate toilet facilities for personnel;
6. A dining area;
7. Adequate storage areas;
8. A means for the sanitary disposal of waste and soiled linen;
9. A relaxation area not readily accessible to the casual visitor;
10. Private office space for resident consultation;
11. Laundry facilities for residents;
12. At least one separate, private room for the examination and treatment of residents;
13. Equipment and supplies necessary for routine and emergency care of residents;
14. Each resident bedroom shall house no more than four beds and have at least one attached toilet room.

(Y) Each maternity home that offers newborn services shall maintain a newborn nursery appropriate to the number of newborns to be cared for at any one time. Each newborn nursery room shall be equipped with the following:

1. A floor area of twenty-four square feet for each newborn station with a minimum of two feet between newborn stations;
2. Maternity homes providing care to newborns requiring close observation shall provide a minimum floor area of fifty square feet with a minimum of four feet between and at all sides of newborn stations;
3. At least one door capable of being locked that exits to a main corridor; and
4. At least one sink capable of hands-free operation.

(Z) Each maternity home that offers newborn services shall develop and follow policies and procedures to ensure the safety and security of all patients, including infant security drills for locating missing newborns. The policies shall be reviewed at least annually, and practice infant security drills shall be conducted on each shift at least once every six months.

3701-7-07 Maternity homes: definitions and requirements.

(A) As used in this rule “service” means obstetrical and neonatal care services as may be found in a hospital maternity unit, including antepartum, intrapartum and postpartum care, or neonatal care services as may be found in a children's hospital. Obstetrical and newborn care services do not include services performed in a maternity home, a freestanding birthing center licensed or a freestanding birthing center exempted from licensure under Chapter 3702 of the Revised Code and Chapter 3701-83 of the Administrative Code, or services performed in an individual's home.

(B) Each service provider shall:
(1) Designate in writing to the director the level classification it provides or intends to provide;
(2) Designate in writing to the director the scope of services provided within the level classification;
(3) Meet the requirements of this chapter for the service level designated;
(4) Not hold itself out to any person or government entity by means of signage, advertising, or other promotional efforts as having a specific level classification unless the provider meets the requirements for that level classification;
(5) Provide direct care staff to accommodate the acuity level of the patient population and the volume of patients served; and have a system in place to adjust staffing levels based on changes in patient acuity levels and volumes;
(6) Establish minimum competency requirements for staff in accordance with recognized national standards and ensure that all staff are competent to perform services based on education, experience and demonstrated ability. Services that allow for the use of advanced practice nurses, anesthesiologist assistants, or physician assistants, shall develop and follow written policies and procedures;
(7) Develop and follow policies and procedures that address the following:
   (a) Admission;
   (b) Laundering or disposal of newborn linens, including diapers;
   (c) Integration of non-infectious gynecologic patients to the service; and
   (8) Notify the director when planning to change the level classification sixty days prior to implementing the level classification.
(C) Each provider of an obstetrics care service shall provide neonatal care services commensurate with the level of obstetrical care services provided and in accordance with the "Guidelines for perinatal care." Except as provided for in rule 3701-7-12 of the Administrative Code, no neonatal care service shall operate without a commensurate level of obstetrical care service.
(D) Each maternity unit shall provide newborn nursery facilities appropriate to the number of newborns that do not remain with their mothers during the postpartum stay, the average daily delivery volume, and the level designation of the newborn service.
(E) Staffing requirements for each service may be met by individuals with equal or greater qualifications, if the replacement's scope of practice encompasses the duties of the required staff.
(F) In accordance with the obstetric service admission and infection control policies and procedures and consistent with current infection control guidelines issued by the United States centers for disease control and prevention, provided the patient to be admitted does not pose a risk to the health or safety of other patients in the unit, a maternity unit obstetric service may only admit the following:
   (1) Women at any stage of the maternity cycle for the treatment of any health condition whether related to the maternity condition or not;
   (2) Non-infectious gynecologic patients; and
   (3) Non-infectious female surgical patients in accordance with policies and procedures approved by the service's director.
(G) Maternity units and newborn care nurseries shall develop and follow policies and procedures that address:
   (1) Admission;
   (2) Infection control, consistent with current infection control guidelines issued by the United States centers for disease control and prevention; and
   (3) Individual patient care plans.
(H) Each maternity home shall:
   (1) Have the ancillary and support staff necessary for the provision of the maternity
home’s services; and

(2) Ensure all staff members provide services in accordance with applicable, current and accepted standards of practice and the clinical capabilities of the maternity home.

(I) Each maternity home shall develop and follow infection control policies and procedures consistent with current infection control guidelines issued by the United States centers for disease control and prevention.

(J) Prior to admission, the maternity home shall provide the following in writing to the prospective resident or the prospective resident’s representative:

(1) An itemized list of fees for all services provided by the home;
(2) A list of the services provided at the maternity home, to include at least the following:
   (a) Medical services;
   (b) Nursing services; and
   (c) Social services.
(3) A list of services available to the resident within the home or outside of the home within a reasonable proximity, along with instructions on how to obtain such services.

(K) The maternity home shall designate a person as administrator to be responsible for day to day operations of the home, ensuring that resident needs are met at all times and for assuring compliance with Chapter 3711 of the Revised Code and Chapter 3701-7 of the Administrative Code.

(L) The maternity home shall retain the services of a medical director. The medical director shall be a physician licensed to practice in Ohio and qualified in obstetrical care. The medical director shall be responsible for the initiation and maintenance of policies and procedures for the prenatal and, where applicable, postpartum care of maternity home residents in the home.

(M) If the maternity home operates a nursery, a physician qualified in pediatrics shall be retained to direct the care of the infants including the initiation and maintenance of policies and procedures necessary for this care.

(N) The maternity home shall retain the services of a registered nurse to direct the nursing activities, including the initiation and maintenance of policies and procedures dealing with nursing care.

(O) A nurse shall be on duty at all times when the nursery is occupied in a maternity home that operates a nursery.

3701-7-08 Patient care standards and maternity units.

(A) Each maternity unit shall develop and follow a written service plan for the care of pregnant women and newborns. The plan shall include protocols based on the current guidelines for perinatal care appropriate for the level of care designation of the unit and for the services provided.

(B) Each maternity unit shall develop and follow a written service plan for the following:
   (1) Discharge of patients and follow-up patient care;
   (2) Inter-service transfers;
   (3) Administration of blood and blood products, including protocols for the administration of blood and blood products to newborns requiring intervention. The service shall provide the appropriate equipment and supplies necessary to administer blood and blood products. At a minimum:
      (a) Units providing blood transfusions shall have a blood pressure monitor, infusion pump, and appropriate intravenous equipment;
      (b) Units providing partial exchange transfusions shall meet the requirements of paragraph (B)(3) of this rule and have umbilical catheter trays, umbilical catheters, a blood drainage system, and intravenous fluids or volume expanders; and
Chapter 2. Regulated Healthcare Facilities
Part I. Maternity Licensure

(c) Units providing exchange transfusions shall meet the requirements of paragraphs (B)(3) and (B)(7) of this rule and have a blood warmer and pulse oximeter;
(4) Provision of phototherapy including maintaining the necessary equipment and supplies;
(5) Preparation, administration, maintenance and management of complications of respiratory therapy. The maternity unit shall maintain the necessary equipment, supplies and support services for the administration of oxygen. At a minimum:
   (a) Equipment required for the administration of oxygen shall include a flow meter, bag and mask set-up, humidification, pulse oximeter, and suction equipment. A cardiorespiratory monitor shall be maintained if a newborn requires oxygen therapy for more than stabilization;
   (b) Units shall have the capability of providing blood gas analysis and portable x-ray;
   (c) Units providing oxygen administration by nasal cannula shall have a low flow meter;
   (d) Units providing oxygen administration using an oxygen hood shall have an oxygen analyzer, a heat source, and a thermometer;
   (e) Units providing incubator oxygen shall have appropriate tubing and an oxygen analyzer;
   (f) Units providing oxygen by a continuous positive airway pressure/ventilator shall have intubation equipment, endotracheal tubes, nasal prongs, and an oxygen analyzer; and
   (g) Units shall have the capability of treating pneumothorax;
   (6) Unit-based surgeries and surgical suite-based surgeries. The plan shall include the type of surgical procedures authorized to be performed on the unit and in surgical suites. The maternity unit shall maintain equipment appropriate to patient size; and

   (7) Insertion, maintenance, monitoring and complication management of peripheral, central, and arterial lines. Each maternity unit shall provide the appropriate staff, equipment, supplies, and support services for the insertion, maintenance, and monitoring of lines in accordance with the written service plan. The written plan shall require that infusion pumps regulating flow to newborns be capable of regulating flow to one-tenth cubic centimeter.

3701-7-09 Maternity homes: services, staff and records.

(A) A level I obstetrical service shall, consistent with paragraph (B) of this rule, provide:
   (1) Antepartum care to include obstetrical care for uncomplicated pregnancies and the management of emergencies;
   (2) Intrapartum care to include obstetrical care for the management of uncomplicated labor and delivery patients, selected complicated labor and delivery patients, unanticipated complications of labor and delivery, and emergencies; and
   (3) Postpartum care to include obstetrical care consistent with the antepartum and intrapartum care provided and the management of unanticipated postpartum complications and emergencies.
   (B) A level I obstetrical service shall not admit as an obstetrical patient any pregnant woman at less than thirty five weeks of her pregnancy for intrapartum care except where an emergency medical condition exists as evidenced by the following:
      (1) The mother is having contractions;
      (2) When, in the clinical judgment of a qualified obstetrical practitioner working under that practitioner's scope of practice, there is inadequate time to effect a safe transfer of the mother to an appropriate higher level hospital before delivery; and
      (3) The transfer will pose a threat to the health or safety of either the mother or the fetus.
   (C) Paragraph (B) of this rule does not preclude the admission of a less than thirty five weeks gestation pregnant woman to the maternity unit for care or services for a non-obstetrical issue, but that may require monitoring of health of the mother, the fetus, or both.
(D) A level I neonatal care service shall be organized with the personnel and equipment to perform neonatal resuscitation, evaluate and provide postnatal care of healthy newborn infants, stabilize and provide care for other newborns until transfer to a facility that can provide the appropriate level of neonatal care. Level I neonatal care services may provide for the management of newborns with selected complicated conditions including:

1. Moderately ill newborns with problems that are expected to resolve rapidly; and
2. Convalescing newborns that can be appropriately transferred from another service provider.

(E) Consistent with paragraph (D) of this rule, a level I neonatal care service shall effect a transfer a newborn that is less than thirty-five weeks gestation to an appropriate level II, level III neonatal care service, or freestanding children’s hospital with a level IIII neonatal care service, unless all of the following conditions are met:

1. The level I neonatal care service has in place a valid memorandum of agreement with one or more level II neonatal care service, level III neonatal care service, or freestanding children’s hospital with a level III neonatal care service, providing for consultation on the retention of the infant between the level I neonatal care service attending physician and a neonatologist on the staff of the level II, level IIII neonatal care service, or freestanding children’s hospital with a level III neonatal care service;
2. The consultation with, and the concurrence of, the neonatologist on the staff of the level II neonatal care service, level IIII neonatal care service, or freestanding children’s hospital with a level IIII neonatal care service, is documented by the level I neonatal care service in the patient medical record and as otherwise may be determined by the service. Such documentation shall be made available to the director upon request; and
3. The risks and benefits to the newborn for both retention at the level I neonatal care service and transfer of the newborn to a level II neonatal care service, level IIII neonatal care service, or freestanding children’s hospital with a level IIII neonatal care service, are discussed with the parent, parents, or legal guardian of the newborn and appropriately documented. Such documentation shall be made available to the director upon request.

(F) When discussing transfer of a pregnant woman or a newborn to another facility in accordance with this rule, the transferring service shall provide the patient or legal guardian with:

1. The recommendations from any consultations with a higher-level service;
2. The risks and benefits associated with the transfer of the patient; and
3. Any other information required by the hospitals’ polices and procedures.

(G) In the event the patient or patient’s legal guardian refuses transfer to a recommended hospital, the service shall document the refusal of transfer and provide treatment to the patient or patients in accordance with hospital policies and procedures. The service shall update the patient or patient’s legal guardian as the patient’s condition warrants.

(H) Each provider shall, using licensed health care professionals acting within their scopes of practice:

1. Develop and follow a written service plan for the care of patients;
2. Provide for the appropriate range of services for the patient population it serves;
3. Provide or have a written referral policy for obtaining public health, dietetic, genetic, and toxicology services;
4. Establish written criteria for determining those conditions that can be routinely managed by the service. The criteria shall be based on staff education, staff competence, the amount of staff experience with the listed conditions, and support services available to the service;
5. Provide a formal education program for staff, including the neonatal resuscitation program and a post resuscitation program;
(6) Conduct a risk assessment of obstetric and newborn patients to ensure identification of appropriate consultation requirements or referral for high-risk patients;
(7) Provide follow-up services to patients or refer patients for appropriate follow-up;
(8) Provide education for mothers regarding personal care and nutrition, newborn care and nutrition, and newborn feeding;
(9) Provide for consultation or referral of obstetric transports as needed. A system shall be in place to prepare and efficiently transport the patient consistent with the “Guidelines for perinatal care”;
(10) Provide for consultation or referral of neonatal transports as needed. A system shall be in place to prepare and efficiently transport the patient consistent with the “Guidelines for perinatal care”;
(11) Establish criteria for the acceptance of neonatal transports from other services based on demonstrated capability to provide the appropriate services consistent with the “Guidelines for perinatal care,” including the acceptance of newborns from level II or level III neonatal care services who otherwise do not meet the gestational age and weight restrictions; and
(12) Have the capability to resuscitate and stabilize newborns in the nursery consistent with the neonatal resuscitation program.
(I) Each provider shall have the ability to perform all of the following:
(1) An emergency cesarean delivery within thirty minutes of the time that the decision is made to perform the procedure on a twenty-four hour per day basis;
(2) Fetal monitoring; and
(3) Resuscitation and stabilization of newborns and emergency care for the mother and newborn in each delivery room.
(J) Each provider shall have the staff and support services to meet the needs of patients. Staff necessary to provide services shall be available on-call on a twenty-four hour basis.
(K) In addition to the requirements of paragraph (H) of this rule, each provider shall have, on a twenty-four hour basis, the following services available on-site:
(1) Clinical laboratory services capable of providing necessary testing;
(2) Diagnostic x-ray services capable of providing portable x-ray services;
(3) Portable ultrasound visualization equipment and services for diagnosis and evaluation;
(4) Pharmacy services;
(5) Anesthesia services; and
(6) Blood, blood products and substitutes.
(L) Each provider shall have on-staff or available for consultation, qualified staff appropriate for the services provided including:
(1) Co-directors of the obstetric and neonatal care service responsible for the overall operation of the respective care service;
(a) One co-director shall be a board certified obstetrician or board certified family physician with experience in obstetrics; and
(b) One co-director shall be a board certified pediatrician or a board certified family physician with experience in pediatrics;
(2) Physician coverage for the management and delivery of patients not under the private care of another physician;
(3) A physician or a certified nurse-midwife in attendance at all deliveries and responsible for ascertaining that the newborn adaptations to extrauterine life are proceeding normally and for ensuring immediate post delivery care of the newborn;
(4) A single, dedicated registered nurse responsible for leading the organization and supervision of nursing services in the obstetric and newborn care services; and
(5) A certified lactation consultant.
Chapter 2. Regulated Healthcare Facilities
Part I. Maternity Licensure

Maternity Licensure - General Provisions

(M) Each provider shall have qualified staff on-duty appropriate for the services provided including:
   (1) A registered nurse competent in obstetric and neonatal care;
   (2) A registered nurse with obstetric and neonatal experience for each patient in the second stage of labor;
   (3) A registered nurse to circulate for the cesarean birth deliveries; and
   (4) Additional registered nurses with the appropriate education and demonstrated competence, commensurate with the acuity and volume of patients served, to provide direct supervision of patients.

(N) At least one member of the nursing staff shall be in attendance for newborns when they are not with the mother or her designee.

(O) Each provider shall have an individual who has successfully completed the neonatal resuscitation program and who is capable of initiating and completing full resuscitation present at each delivery.

(P) Each provider shall maintain the ability to obtain the services of a physician to assist the primary physician or certified nurse-midwife in case of unavoidable delivery of a high-risk patient, emergency cesarean delivery, or unexpected fetal or neonatal stress.

(Q) Each provider shall provide for a licensed social worker with knowledge of obstetric and neonatal psychosocial and family support services.

(R) Each provider shall maintain a licensed dietitian either on-staff or as a consultant.

3701-7-10 Maternity homes: level II service standards.

(A) A level II obstetrical service shall provide:
   (1) Antepartum care to include obstetrical care for all uncomplicated patients, selected complicated patients, selected high-risk patients, and the management of emergencies;
   (2) Intrapartum care to include obstetrical care for the management of labor and delivery of all uncomplicated patients, selected complicated patients, selected high-risk patients, unanticipated complications of labor and delivery, and emergencies; and
   (3) Postpartum care to include postpartum care consistent with the antepartum and intrapartum care provided and management of unanticipated postpartum complications and emergencies.

(B) A level II obstetrical service shall not admit as an obstetrical patient any pregnant woman at less than thirty two weeks of her pregnancy for intrapartum care except where an emergency medical condition exists as evidenced by the following:
   (1) The mother is having contractions;
   (2) When, in the clinical judgment of a qualified obstetrical practitioner working under that practitioner's scope of practice, there is inadequate time to effect a safe transfer of the mother to an appropriate higher level hospital before delivery; and
   (3) The transfer will pose a threat to the health or safety of either the mother or the fetus.

(C) Paragraph (B) of this rule does not preclude the admission of a less than thirty two weeks gestation pregnant woman to the maternity unit for care or services for a non-obstetrical issue, but that may require monitoring of health of the mother, the fetus, or both.

(D) A level IIA neonatal care service or a level IIB neonatal care service shall be equipped to provide care and services to normal newborns, moderately ill newborns, selected extremely ill newborns, newborns with uncomplicated conditions, and to newborns that require emergency resuscitation or stabilization for transport. A level IIB neonatal care service may provide mechanical ventilation for brief durations of less than twenty-four hours or continuous positive airway pressure. A level IIA neonatal care service or a level IIB neonatal care service may provide for the management of newborns with selected complicated conditions including newborns:
Chapter 2. Regulated Healthcare Facilities
Part I. Maternity Licensure

(1) With physiologic immaturity such as apnea of prematurity;
(2) An inability to maintain body temperature,
(3) An inability to take oral feedings;
(4) Who are moderately ill with problems that are expected to resolve rapidly and are not anticipated to need subspecialty services on an urgent basis; and
(5) Who are convalescing from intensive care.

(E) Consistent with paragraph (D) of this rule, a level II neonatal care service shall effect a transfer of a newborn that is less than thirty two weeks gestation and weighing less than one thousand five hundred grams to level III neonatal care service or freestanding children's hospital with a level III neonatal care service unless all of the following conditions are met:

(1) The level II neonatal care service has in place a valid memorandum of agreement with one or more level III neonatal care service or freestanding children's hospital with a level III neonatal care service providing for consultation on the retention of the infant between the level II neonatal care service attending physician and a neonatologist on the staff of the level III neonatal care service or freestanding children's hospital with a level III neonatal care service;

(2) The consultation with, and the concurrence of, the neonatologist on the staff of the level III neonatal care service or freestanding children's hospital with a level III neonatal care service is documented by the level II neonatal care service in the patient medical record and as otherwise may be determined by the service. Such documentation shall be made available to the director upon request; and

(3) The risks and benefits to the newborn for both retention at the level II neonatal care service and transfer of the newborn to a level IIIB neonatal care service, level IIIC neonatal care service, level IIIB neonatal care service, level III neonatal care service, or to a freestanding children's hospital with a level III neonatal care service are discussed with the parent, parents, or legal guardian of the newborn and appropriately documented. Such documentation shall be made available to the director upon request.

(F) When discussing transfer of a pregnant woman or a newborn to another facility in accordance with this rule, the transferring service shall provide the patient or legal guardian with:

(1) The recommendations from any consultations with a higher-level service;
(2) The risks and benefits associated with the transfer of the patient; and
(3) Any other information required by the hospitals' polices and procedures.

(G) In the event the patient or patient's legal guardian refuses transfer to a recommended hospital, the service shall document the refusal of transfer and provide treatment to the patient or patients in accordance with hospital policies and procedures. The service shall update the patient or patient's legal guardian as the patient's condition warrants.

(H) Each provider shall, using licensed health care professionals acting within their scopes of practice:

(1) Develop and follow a written service plan for the care of patients;
(2) Provide for the range of services for the patient population it serves consistent with the “Guidelines for perinatal care”;
(3) Provide or have a written referral policy for obtaining public health, dietetic, genetic, and toxicology services not available in-house;
(4) Establish criteria for determining those conditions that can be routinely managed by the service. The criteria shall be based on staff education, competence, and experience with the conditions, and the support services available to the service;
(5) Provide a formal education program for staff, including the neonatal resuscitation program and a post resuscitation program;
(6) Conduct a risk assessment of obstetric and neonatal patients to ensure identification of appropriate consultation requirements for high-risk patients;
(7) Provide follow-up services to patients or refer patients for appropriate follow-up;
(8) Provide education for mothers regarding personal care and nutrition, newborn care and nutrition, and newborn feeding;

(9) Have the capability to resuscitate and stabilize newborns in the nursery consistent with the neonatal resuscitation program;

(10) Provide for consultation or referral or obstetric transports as needed. A system shall be in place to prepare and efficiently transport the patient consistent with the “Guidelines for perinatal care”;

(11) Establish criteria for the acceptance of obstetric transports from other services based on demonstrated capability to provide the appropriate services consistent with the “Guidelines for perinatal care”;

(12) Provide for consultation or referral of neonatal transports as needed. A system shall be in place to prepare and efficiently transport the patient consistent with the “Guidelines for perinatal care.” This may include newborns that are below the gestational age and weight limitations for the receiving service;

(13) Establish criteria for the acceptance of neonatal transports from other services based on demonstrated capability to provide the appropriate services consistent with the “Guidelines for perinatal care,” including the acceptance of newborns from level III neonatal care services who otherwise do not meet the gestational age and weight restrictions;

(14) Provide for telephone consultation for maternal-fetal medicine on a twenty-four hour basis; and

(15) Provide developmental follow-up of at-risk newborns in the service or refer such newborns at-risk to appropriate programs.

(I) Each provider shall have the ability to perform all of the following:

(1) An emergency cesarean delivery within thirty minutes of the time that the decision is made to perform the procedure on a twenty-four hour basis;

(2) Fetal monitoring; and

(3) Resuscitation and stabilization of newborns and emergency care for the mother and newborn in each delivery room.

(J) Each provider shall be capable of providing on a twenty-four hour basis:

(1) Clinical laboratory services capable of providing any necessary testing;

(2) Diagnostic radiologic services, including x-ray, computed tomography, magnetic resonance imaging and fluoroscopy;

(3) Portable ultrasound visualization equipment for diagnosis and evaluation;

(4) Pharmacy services;

(5) Respiratory therapy services and pulmonary support services;

(6) Anesthesia services;

(7) Blood, blood products, and substitutes; and

(8) Biomedical engineering services.

(K) Each provider shall have either on-staff or available for consultation, qualified staff appropriate for the services provided including:

(1) A board certified obstetrician and a board certified pediatrician as co-directors of the obstetric and neonatal care service. The co-directors shall establish procedures for patients and shall integrate and coordinate a system for consultation, in-service education and communication with referring obstetric and neonatal care services;

(2) A second physician or certified nurse practitioner (neonatal) to attend to newborns at high-risk deliveries;

(3) A neonatologist or a pediatrician in consultation with an on-staff neonatologist, to manage the care of the newborn and to provide for:

(a) A system for consultation and referral;

(b) Continuing education programs;

(c) Communication and coordination with the obstetric care service; and
Chapter 2. Regulated Healthcare Facilities
Part I. Maternity Licensure

(d) The defining and establishing of appropriate policies, protocols, and procedures for the unit nursery or nurseries and neonatal follow-up as may be indicated;

(4) A director of anesthesia services who is a board eligible or board certified anesthesiologist;

(5) A single, designated, full-time registered nurse with a bachelor’s degree in nursing responsible for leading the organization and supervision of nursing services in the obstetric care service. Individuals employed in this position on the effective date of these rules who do not meet the qualifications of this rule shall have five years from the effective date of this rule to come into compliance with the degree requirement;

(6) A single, designated, full-time registered nurse with a bachelor’s degree in nursing responsible for leading the organization and supervision of nursing services in the neonatal care service. Individuals employed in this position on the effective date of these rules who do not meet the qualifications of this rule shall have five years from the effective date of this rule to come into compliance with the degree requirement;

(7) A registered nurse to provide clinical obstetrical nursing expertise commensurate with the patient acuity and services provided. Expertise may be demonstrated through education, certification or a minimum of five years obstetric experience;

(8) A registered nurse to provide clinical neonatal nursing expertise commensurate with the patient acuity and services provided. Expertise may be demonstrated through education, certification or a minimum of five years neonatal experience;

(9) A licensed social worker to provide psychosocial assessments and family support services. Additional social workers shall be provided based upon the size and needs of the patient population;

(10) A licensed dietitian with knowledge of maternal and newborn nutrition and knowledge of parenteral/enteral nutrition management of at-risk newborns; and

(11) A certified lactation consultant.

(L) Each provider shall have medical, surgical, radiology and pathology specialists on-call based upon the medical needs of the patients.

(M) Each provider shall have a physician or certified nurse practitioner (neonatal) with experience in newborn airway management and diagnosis and management of air leaks on-site if a newborn is on mechanical ventilation.

(N) Each provider shall have on-duty, qualified staff appropriate for the services provided including:

(1) A multidisciplinary team of staff of which two members shall have successfully completed the neonatal resuscitation program and be capable of complete neonatal resuscitation;

(2) Registered nurses with the appropriate education and demonstrated competence, commensurate with the acuity and volume of newborns served, to provide direct supervision of newborns;

(3) A registered nurse with obstetric and neonatal experience for each patient in the second stage of labor;

(4) A registered nurse to circulate for the cesarean section deliveries;

(5) At least two registered nurses for labor and delivery;

(O) At least one member of the nursing staff shall attend to newborns when they are not with the mother or her designee.

3701-7-11 Maternity homes: level III service standards.

(A) A level III obstetrical service shall provide:

(1) Antepartum care to include obstetrical care for all uncomplicated patients, complicated patients, high-risk patients, and the management of emergencies;
Intrapartum care to include care and management of all uncomplicated, complicated, and high-risk labor and delivery patients, the unanticipated complications of labor and delivery, and the management of emergencies;

Postpartum care to include postpartum care consistent with the antepartum and intrapartum care provided and management of unanticipated postpartum complications and emergencies; and

Referral to other level III services as appropriate and consistent with the “Guidelines for perinatal care.”

B A level III obstetrical service that is associated with a level IIIA neonatal care service shall not admit as an obstetrical patient any pregnant woman at less than twenty eight weeks of her pregnancy for intrapartum care except where an emergency medical condition exists as evidenced by the following:

1. The mother is having contractions;
2. When, in the clinical judgment of a qualified obstetrical practitioner working under that practitioner’s scope of practice, there is inadequate time to effect a safe transfer of the mother to an appropriate higher level hospital before delivery; and
3. The transfer will pose a threat to the health or safety of either the mother or the fetus.

C Paragraph (B) of this rule does not preclude the admission of a less than twenty eight weeks pregnant woman to the maternity unit for care or services for a non-obstetrical issue, but that may require monitoring of health of the mother, the fetus, or both.

D A level IIIA neonatal care service, a level IIIB neonatal care service, or a level IIIC neonatal care service shall be organized with personnel and equipment to provide continuous life support and comprehensive care for extremely high risk newborn infants and those with complex and critical illness. Consistent with the “Guidelines for Perinatal Care,” the three sublevel classifications are differentiated by the capability to provide advanced medical and surgical care as may be required:

1. A level IIIA neonatal care service can:
   a. Provide care for infants with birth weight of more than one thousand grams and gestational age of more than twenty eight weeks;
   b. Provide continuous life support, but is limited to conventional mechanical ventilation;
   c. Perform minor surgery.
2. A level IIIB neonatal care service has all of the capabilities of a level IIIA neonatal care service and can provide:
   a. Comprehensive care for extremely low birth weight infants;
   b. Advanced respiratory care such as high-frequency ventilation and inhaled nitric oxide;
   c. Prompt access to a full range of pediatric medical subspecialists;
   d. Advanced imaging with interpretation on an urgent basis, including computed tomography, magnetic resonance imaging, and echocardiography; and
   e. Pediatric surgical subspecialists and pediatric anesthesiologists on-site or at a nearby closely related hospital or institution to perform major surgery.
3. A level IIIC neonatal care service has all of the capabilities of a level IIIB neonatal care service and is located within a hospital or other institution that can provide extracorporeal oxygenation and surgical repair of serious congenital cardiac malformations that require cardiopulmonary bypass.

E Consistent with paragraph (D)(1) of this rule, a level IIIA neonatal care service shall effect a transfer of a newborn that is less than one thousand grams or with a gestational age of less than twenty eight weeks to an appropriate level IIIB neonatal care service, level IIIC neonatal care service, or freestanding children’s hospital with a level III neonatal care service, unless all of the following conditions are met:
Chapter 2. Regulated Healthcare Facilities
Part I. Maternity Licensure

(1) The level IIIA neonatal care service has in place a valid memorandum of agreement with one or more level IIIB neonatal care service, level IIIC neonatal care service, or freestanding children's hospital with a level III neonatal care service, providing for consultation on the retention of the infant between the level IIIA neonatal care service attending physician and the neonatologist on the staff of the level IIIB neonatal care service, level IIIC neonatal care service, or freestanding children's hospital with a level III neonatal care service;

(2) The consultation with, and the concurrence of, the neonatologist on the staff of the level IIIB neonatal care service, level IIIC neonatal care service, or freestanding children's hospital with a level III neonatal care service, is documented by the level IIIA neonatal care service in the patient medical record and as otherwise may be determined by the service. Such documentation shall be made available to the director upon request; an

(3) The risks and benefits to the newborn for both retention at the level IIIA neonatal care service and transfer of the newborn to a level IIIB neonatal care service, level IIIC neonatal care service, or to a freestanding children's hospital with a level III neonatal care service are discussed with the parent, parents, or legal guardian of the newborn and appropriately documented. Such documentation shall be made available to the director upon request.

(F) When discussing transfer of a pregnant woman or a newborn to another facility in accordance with this rule, the transferring service shall provide the patient or legal guardian with:

(1) The recommendations from any consultations with another service;
(2) The risks and benefits associated with the transfer of the patient; and
(3) Any other information required by the hospitals' policies and procedures.

(G) In the event the patient or patient's legal guardian refuses transfer to a recommended facility, the service shall document the refusal of transfer and provide treatment to the patient or patients in accordance with hospital policies and procedures. The service shall update the patient or patient's legal guardian as the patient's condition warrants.

(H) Each provider shall, using licensed health care professionals acting within the scopes of their practice:

(1) Develop and follow a written service plan for the care of patients;
(2) Provide for the range of services for the patient population it serves consistent with the “Guidelines for perinatal care”;
(3) Provide or have a written referral policy for obtaining public health, dietetic, genetic, and toxicology services not available in-house;
(4) Establish criteria for determining those conditions that can be routinely managed by the service. The criteria shall be based on staff education, competence, and experience with the conditions, and the support services available to the service;
(5) Provide a formal education program for staff that includes the neonatal resuscitation program and a post resuscitation program;
(6) Conduct a risk assessment of obstetric and neonatal patients to ensure identification of appropriate consultation requirements for high-risk patients;
(7) Provide follow-up services to patients or refer patients for appropriate follow-up;
(8) Provide education for mothers regarding personal care and nutrition, newborn care and nutrition, and newborn feeding;
(9) Have the capability to resuscitate and stabilize newborns in the nursery consistent with the neonatal resuscitation program;
(10) Provide for consultation or referral of obstetric transports as needed. A system shall be in place to prepare and efficiently transport the patient consistent with the “Guidelines for perinatal care”;
(11) Provide for consultation or referral of neonatal transports as needed. A system shall be in place to prepare and efficiently transport the patient consistent with the “Guidelines for perinatal care”;

213 Maternity Licensure- General Provisions
(12) On a twenty-four hour basis, coordinate and facilitate obstetric and neonatal transports from referring services consistent with the "Guidelines for perinatal care";

(13) Develop and follow policies and procedures for the transport of newborns to another neonatal care service when medically appropriate. This may include newborns that are below the gestational age and weight limitations for the receiving service;

(14) Provide consultation for maternal-fetal medicine on a twenty-four hour basis and shall be capable of having maternal-fetal medicine on-site within thirty minutes;

(15) Provide developmental follow-up of at-risk newborns in the service or refer such newborns to appropriate programs;

(16) Provide or coordinate continuing education for referring services;

(17) Provide opportunities for graduate medical education such as pediatric or obstetrics-gynecology residencies and neonatal or maternal-fetal medicine fellowships;

(18) Provide opportunities for clinical experience for purposes of graduate nursing education, or continuing education, or both;

(19) Participate, on an ongoing basis, in basic or clinical obstetrics or neonatology research;

(20) Conduct ongoing continuing education; and

(21) Provide multi-disciplinary planning relating to management and therapy through the postpartum period.

(I) Each provider shall have the ability to perform all of the following:

(1) An emergency cesarean delivery within thirty minutes of the time that the decision is made to perform the procedure on a twenty-four hours basis;

(2) Fetal monitoring; and

(3) Resuscitation and stabilization of newborns and emergency care for the mother and newborn in each delivery room.

(J) Each provider shall be capable of providing on a twenty-four hour basis:

(1) Clinical laboratory services capable of providing any necessary testing;

(2) Diagnostic radiologic services, including x-ray, computed tomography, magnetic resonance imaging and fluoroscopy;

(3) Portable ultrasound visualization equipment for diagnosis and evaluation;

(4) Pharmacy services;

(5) Respiratory therapy services and pulmonary support services;

(6) Anesthesia services;

(7) Blood, blood products, and substitutes; and

(8) Biomedical engineering services.

(K) Each provider shall have either on-staff or available for consultation, qualified staff appropriate for the services provided including:

(1) A board certified maternal-fetal medicine subspecialist and a board certified neonatologist as co-directors for the obstetric and newborn care service. The co-directors shall coordinate and integrate the following:

(a) A system for consultation;

(b) In-service education programs;

(c) Coordination and communication with support services and other obstetric care services;

(d) Defining and establishing, in collaboration with other members of the obstetric team, appropriate protocols and procedures for obstetric patients; and

(e) Treatment of patients in the neonatal intensive care unit who are not under the care of other physicians;

(2) A single, designated registered nurse with a bachelor's degree in nursing and a master's degree responsible for leading the organization and supervision of nursing services in the obstetric care service. Individuals employed in this position on the effective date of these
rules who do not meet the qualifications of this rule shall have five years from the effective date of this rule to come into compliance with the degree requirement;

(3) A single, designated registered nurse with a bachelor's degree in nursing and a master's degree responsible for leading the organization and supervision of nursing services in the neonatal care service. Individuals employed in this position on the effective date of these rules who do not meet the qualifications of this rule shall have five years from the effective date of this rule to come into compliance with the degree requirement;

(4) A registered nurse with a master's degree in nursing and an area of specialization in newborn health to provide clinical nursing expertise commensurate with the patient acuity and services provided;

(5) A registered nurse with a master's degree in nursing and an area of specialization in obstetrics or women's health to provide clinical nursing expertise commensurate with the patient acuity and services provided;

(6) A biomedical engineer;

(7) An American college of medical genetics certified or eligible geneticist or genetics counselor to:

(a) Identify families at risk for genetic abnormalities;
(b) Obtain family genetic history;
(c) Provide genetic counseling in complicated cases; and
(d) If necessary, refer complicated cases to an on-staff medical geneticist;

(8) A director of obstetric anesthesia services who is a board eligible or board certified anesthesiologist;

(9) A licensed dietitian with knowledge of maternal and newborn nutrition and knowledge of parenteral/enteral nutrition management of at-risk newborns;

(10) A licensed social worker to provide psychosocial assessments, family support services, and medical social work. Additional social workers shall be provided based upon the needs of the patients; and

(11) A certified lactation consultant. Additional certified lactation consultants shall be provided based upon the needs of the patients.

(L) Each provider shall have qualified staff available for consultation appropriate for the services provided including:

(1) Medical-surgical subspecialists based upon the medical needs of the patient;
(2) Pediatric subspecialists, that may include nephrology, hematology, metabolic, endocrinology, gastroenterology, nutrition, immunology, and pharmacology; and
(3) Pediatric subspecialists that may include cardiovascular surgeons, neurosurgeons, and orthopedic, urologic, and otolaryngologic surgeons shall be available for patient care, if necessary.

(M) Each provider shall have medical, surgical, radiological and pathology specialists on-call based on the medical needs of the patients.

(N) Each provider shall have an attending physician qualified in obstetrics on-site.

(O) Each provider shall have qualified staff on-duty including:

(1) A multi disciplinary team of staff. Two members of the team shall have successfully completed the neonatal resuscitation program and be capable of complete neonatal resuscitation;

(2) A second physician or certified nurse practitioner (neonatal) to attend to newborns at high-risk deliveries; and

(3) Registered nurse staffing including:
(a) A registered nurse competent in obstetric and neonatal care;
(b) A registered nurse with obstetric and neonatal experience for each patient in the second stage of labor;
(c) A registered nurse to circulate for cesarean deliveries; and
(d) At least two registered nurses for labor and delivery.
(P) Each level IIIA neonatal care service, level IIIB neonatal care service, and level IIIC neonatal care service shall have a neonatal intensive care unit staffed and equipped to provide care for critically ill newborns and an intermediate care unit for convalescing and moderately ill newborns. The availability of highly technical expertise and specialized physicians at another newborn nursery care service shall be considered by a level III neonatal care service for purposes of decisions concerning the need for consultation and possible transfer.

3701-7-12 Maternity home: nursery minimum standards.

(A) Freestanding children's hospitals with a level IIIA, level IIIB, or level IIIC neonatal care service shall have continuously available personnel and equipment to provide required life support and comprehensive care as long as may be needed for newborn infants who are at extreme high risk and those with complex and critical illness or those receiving specialized services such as cardiac surgery, organ transplants and treatments of rare inborn metabolic errors, fetuses needing intrauterine transfusion surgery and extracorporeal membrane oxygenation.

(B) Freestanding children's hospitals that operate a primary newborn care nursery designated as a neonatal intensive care unit may additionally operate an appropriately staffed and equipped intermediate care nursery or continuing care nursery for moderately ill and convalescing newborns. Newborns who are no longer indicated to need intensive care or care at the intermediate care level or continuing care level may be transported to another appropriate health care facility or discharged to an appropriate setting.

(C) Freestanding children's hospitals with a level IIIA, level IIIB, or level IIIC neonatal care service shall meet the level classification of neonatal care designated by the freestanding children's hospital consistent with the “Guidelines for perinatal care” for the services provided.

(D) Using licensed health professionals acting within their scope of practice, each freestanding children's hospital with a level IIIA, level IIIB, or level IIIC neonatal care service shall:

1. Develop and follow a written service plan for the care of patients;
2. Provide for the range of services for the patient population it serves consistent with the “Guidelines for perinatal care”;
3. Provide or have a written referral policy for obtaining public health, dietetic, genetic, and toxicology services not available in-house;
4. Establish criteria for determining those conditions that can be routinely managed by the service. The criteria shall be based on staff education, competence, and experience with the conditions, and the support services available to the service;
5. Provide a formal education program for staff that includes the neonatal resuscitation program and a post resuscitation program;
6. Conduct risk assessments for identification of and appropriate consultation for high risk patients;
7. Provide follow-up services to patients or refer patients for appropriate follow-up;
8. Provide consultation and accept newborn referrals on a twenty-four hour basis;
9. Have the capability to resuscitate and stabilize newborns in the nursery consistent with the neonatal resuscitation program;
10. Coordinate and facilitate high risk neonatal transports from referring services consistent with the “Guidelines for perinatal care”;
11. Develop and follow policies and procedures for the transport of newborns to another neonatal care service when medically appropriate. This may include newborns that are below the gestational age and weight limitations for the receiving service;
12. Provide developmental follow-up of at-risk newborns in the service or refer such
newborns to appropriate programs;

(13) Provide or coordinate ongoing continuing education for referring services;

(14) Provide opportunities for clinical experience for purposes of graduate nursing education, or continuing education, or both;

(15) Participate on an ongoing basis in basic or clinical neonatology research; and

(16) Provide multidisciplinary planning related to management and therapy for newborn care.

(E) Each freestanding children's hospital with a level IIIA, level IIIB, or level IIIC neonatal care service shall be capable of providing the following:

(1) Clinical laboratory services capable of providing necessary testing;

(2) Diagnostic radiologic services, including x-ray, computer tomography, magnetic resonance imaging, fluoroscopy or other specialized diagnostic services;

(3) Portable ultrasound visualization equipment and services for diagnosis and evaluation;

(4) Pharmacy services;

(5) Respiratory therapy services and pulmonary support services;

(6) Anesthesia services;

(7) Blood, blood products and substitutes; and

(8) Biomedical engineering services.

(F) Each freestanding children's hospital with a level IIIA, level IIIB, or level IIIC neonatal care service shall have either on-staff or available for consultation, qualified staff appropriate for the services provided including:

(1) A board certified neonatologist as director. The director shall coordinate and integrate the following including:

(a) A system for consultation;

(b) In-service education programs;

(c) Coordination and communication with support services;

(d) In collaboration with other members of the neonatal team, define and establish appropriate protocols and procedures for newborn patients; and

(e) Treatment of patients in the neonatal intensive care unit who are not under the care of other physicians.

(2) A single, designated registered nurse with a bachelor's degree in nursing and a master's degree responsible for leading the organization and supervision of nursing services in the neonatal care service. Individuals employed in this position on the effective date of rules in this chapter who do not meet the qualifications of this rule shall have five years from the effective date of this rule to come into compliance with the degree requirement.

(3) A registered nurse with a master's degree in nursing and an area of specialization in neonatal health to provide clinical nursing expertise commensurate with the patient acuity and services provided;

(4) Pediatric surgeons, cardiologists, neurologists, ophthalmologists, and geneticists;

(5) A licensed dietitian with knowledge of maternal nutrition, newborn nutrition, and knowledge of parenteral/enteral nutrition management of at-risk newborns;

(6) At least one licensed social worker to provide psychosocial assessments, family support services, and medical social work. Additional social workers shall be provided based upon the size and needs of the patient population; and;

(7) A certified lactation consultant. Additional certified lactation consultants shall be provided based upon the size and needs of the patient population

(G) Medical, surgical, radiological and pathology specialists shall be on-call based on the medical needs of the patients.

(H) Each freestanding children's hospital with a level IIIA, level IIIB, or level IIIC neonatal care service shall have qualified staff available for consultation appropriate for the services.
provided including:

(1) Pediatric sub-specialists that may include nephrologists, hematologists, metabolologists, endocrinologists, gastroenterologists, nutritionists, infectious disease specialists, pulmonologists, immunologists, and pharmacologists; and

(2) Pediatric surgical sub-specialists that may include cardiovascular surgeons, neurosurgeons and orthopedic, urologic and otolaryngologic surgeons available for care, if necessary;

(I) Each freestanding children's hospital with a level IIIA, level IIIB, or level IIIC neonatal care service shall have a registered nurse competent in neonatal care on-duty.

(J) In addition to the requirements of paragraphs (F) to (I) of this rule, each freestanding children's hospital when actively providing special delivery services shall provide level III obstetrical services consistent with the “Guidelines for perinatal care” and shall have:

(1) Either on-staff or through arrangement, qualified staff appropriate for the services provided:

(a) Medical and pediatric surgical subspecialists that may include surgery, pulmonology, infectious disease, internal medicine, and endocrinology; and

(b) Pediatric sub-specialists that may include cardiology, neurology, surgery, ophthalmology, and genetics;

(2) Qualified staff on-site including:

(a) Maternal-fetal medicine or fetal surgeon during operative procedures; and

(b) A multidisciplinary team of staff for deliveries. Two members of the team shall have successfully completed the neonatal resuscitation program, and be capable of complete neonatal resuscitation;

(3) Qualified staff on-duty including:

(a) A second physician or certified nurse practitioner (neonatal) to attend to newborns at time of delivery;

(b) A registered nurse competent in obstetrical care;

(c) A registered nurse competent in neonatal care;

(d) A registered nurse with obstetric and neonatal experience for each patient in the second stage of labor;

(e) A registered nurse to circulate for cesarean deliveries; and

(f) At least two registered nurses available for labor and delivery.

(K) Each freestanding children's hospital that provides special delivery services shall meet the following:

(1) Rooms in which special delivery services are provided shall meet all requirements for labor, delivery, and recovery rooms as set forth in rule 3701-7-06 of the Administrative Code; and

(2) Provide for cesarean deliveries through the provision of an operating room in or in close proximity to the area in which special delivery services are provided.

(L) When being used for delivery, each freestanding children's hospital that provides special delivery services shall have the ability to perform all the following:

(1) An emergency cesarean delivery within thirty minutes of the time that the decision is made to perform the procedure;

(2) Fetal monitoring; and

(3) Resuscitation and stabilization of newborns and emergency care for the mother and newborn.

3701-7-13 Maternity homes: safety standards.

(A) All persons whose work or service responsibilities involve continuing activities in the maternity home shall have a health evaluation by a licensed physician or other licensed health
professional operating within their scope of practice, which shall include establishing the absence of conditions transmissible to others, prior to their having access to the home.

(B) The maternity home shall establish and follow written infection control policies and procedures for the surveillance, control and prevention, and reporting of communicable disease organisms by both the contact and airborne routes which shall be consistent with current infection control guidelines issued by the United States centers for disease control and prevention. The policies and procedures shall address:

1. The utilization of protective clothing and equipment;
2. The storage, maintenance and distribution of sterile supplies and equipment;
3. The disposal of biological waste, including blood, body tissue, and fluid in accordance with Ohio law;
4. Universal precautions body substance isolation or equivalent; and
5. Tuberculosis and other airborne diseases.

(C) The maternity home shall not knowingly permit a staff member or volunteer to provide services if the individual has a communicable disease capable of being transmitted during the performance of his or her duties.

(D) The maternity home shall require each staff member to be tested for tuberculosis in accordance with current tuberculosis testing guidelines issued by the United States centers for disease control and prevention.

(E) A maternity home shall document any complications and adverse events impacting the health, safety, or well-being of any resident.

(F) The maternity home shall comply with Chapter 3701-3 of the Administrative Code pertaining to reportable disease notification.

3701-7-14 Maternal and newborn nutrition.

(A) Each maternity unit or newborn care nursery shall develop and follow written service plans for the following:

1. Administration of donor human milk and donor human milk products, if used, including protocols, equipment, and supplies for the administration of donor milk and donor milk products to newborns requiring intervention; and
2. Maintenance of newborn nutrition services to ensure that newborn nutritional needs are met.

(B) Each maternity unit or newborn care nursery that provides parenteral nutrition shall develop and follow a written service plan for the preparation and administration of parenteral nutrition, including:

1. Appropriate staff;
2. Equipment;
3. Supplies; and
4. A laminar flow hood, which need not be located in the newborn care nursery.

(C) If the maternity unit or newborn care nursery does not provide for onsite preparation of parenteral nutrition, the maternity unit or newborn care nursery shall develop and follow a written service plan for the outsourcing of the preparation of parenteral nutrition.

(D) Each maternity unit or newborn care nursery shall provide the necessary support to assess and monitor patients receiving parenteral nutrition.

(E) Maternity units, newborn care nurseries, and maternity homes using commercial formula, human milk, donor human milk, or donor human milk products, shall provide for the storage and handling of the formula, or human milk, or donor human milk, or donor human milk products, or any combination thereof.

(F) Maternity units and newborn care nurseries that prepare newborn formula on-site shall provide an appropriately equipped, designated feeding preparation area. If any formula or
human milk requires the addition of more than two measured ingredients, or requires the addition of an ingredient not routinely available in a nursery, a separate formula room shall be provided and maintained in accordance with guidelines issued by the American dietetic association.

(1) The formula room may be an area outside the maternity unit or newborn care nursery that is on-site and has qualified staff and policies and procedures for the safe handling of commercial formulas, human milk, donor human milk, and donor human milk products for formula preparation.

(2) The formula room may include outsourcing from the facility that has an enteral formulary room and has qualified staff and policies and procedures for the safe handling of commercial formulas, human milk, donor human milk, and donor human milk products for formula preparation.

3701-7-15 Complaints; quality assurance.

(A) Each maternity unit, newborn care nursery, or maternity home shall develop and follow policies and procedures to effectively receive, investigate, and report findings of complaints regarding the quality or appropriateness of care and services. The documentation of complaints shall, at a minimum, include the following:

(1) The date complaint was received;
(2) The identity, if provided, of the complainant;
(3) A description of the complaint allegations;
(4) The identity of persons, or provider of the services, or both, involved;
(5) The findings of the investigation; and
(6) The resolution of the complaint.

(B) Each maternity unit, newborn care nursery, and maternity home shall post the department's toll free complaint hotline in a conspicuous place.

(C) Each maternity unit or newborn care nursery shall establish a quality assessment and improvement program designed to systematically monitor and evaluate the quality of patient care provided in each maternity unit or newborn care nursery, pursue opportunities to improve patient care, ensure compliance with the applicable quality standards set forth in Chapter 3701-7 of the Administrative Code, and resolve identified problems.

(D) The quality assessment and improvement program shall do all of the following:

(1) Monitor and evaluate all aspects of care including effectiveness, appropriateness, accessibility, continuity, efficiency, patient outcome, and patient satisfaction;
(2) Establish expectations, develop plans, and implement procedures to assess and improve the quality of care and resolve identified problems;
(3) Establish expectations, develop plans, and implement procedures to assess and improve the maternity unit and newborn care nursery's governance, management, clinical and support processes;
(4) Establish information systems and appropriate data management processes to facilitate the collection, management, and analysis of data needed for quality improvement;
(5) Internally document and report findings, conclusions, actions taken, and the results of any actions taken to the health care service's management and medical director;
(6) Document and review all unexpected complications and adverse events, being serious injury or death resulting from medical management, which arise during the provision of the service or during the hospital stay; and
(7) Hold regular meetings, chaired by the medical director of the maternity unit or newborn care nursery, or designee, as necessary, but at least within sixty days after a death or complication, to review all deaths and complications and to report findings. Any pattern that might indicate a problem shall be investigated and remedied, if necessary.
(E) Each maternity unit, newborn care nursery, and maternity home shall, on a form
prescribed by the director, report to the department:
(1) Fetal death, to include all fetuses of twenty weeks gestation or greater that showed
evidence of life at any point from the mother’s admission through delivery;
(2) Neonatal death, to include all liveborn neonates before twenty-eight days of age,
from delivery or admission through transfer or discharge;
(3) Infant death, to include all liveborn infants twenty-eight days of age through one year
of age, from delivery or admission through transfer or discharge;
(4) Maternal death, to include the death of a woman from any cause related to or
aggravated by pregnancy or its management, from the woman’s admission and care at the
delivering hospital through transfer or discharge;
(5) Neonatal or infant abduction; and
(6) Discharge of a neonate or infant to the wrong family or organization.

3701-7-16 Licensure recordkeeping requirements.

(A) Each maternity unit or newborn care nursery shall maintain a medical record for each
patient that documents, in a timely manner and in accordance with acceptable standards of
practice, the patient's needs and assessments, and services rendered. Each medical record
shall be legible and readily accessible to staff for use in the ordinary course of treatment.
(B) Each maternity unit or newborn care nursery shall not disclose individual medical
records except as authorized by the patient, the parent or guardian of an infant or minor, or as
allowed by state and federal laws and regulations, including but not limited to the provisions of
this chapter of the Administrative Code.
(C) Each maternity unit or newborn care nursery shall:
(1) Systematically review records for conformance with acceptable standards of practice
and the requirements of this chapter of the Administrative Code;
(2) Maintain an adequate medical record keeping system and take appropriate
measures to ensure the confidentiality of patient medical records;
(3) Maintain fetal monitoring strips in a format that maintains the record for the period of
time required for medical record retention; and
(4) Maintain medical records as necessary to verify the information and reports required
by statute or regulation for five years from the date of discharge.
(D) The medical records of the maternal residents of a maternity home shall include, but
not be limited to, prenatal history, physical examination, and treatment and medication orders.
(E) The medical records of the infant residents of a maternity home, where applicable,
shall include, but not be limited to, a history of gestation, delivery and immediate postnatal
periods, physical examinations, and treatment and medication orders.
(F) A maternity home shall keep all records and reports for not less than five years and
such records and reports shall be available for inspection by the director.

3701-7-17 Waivers and variances.

(A) Upon written request of a hospital maternity unit, newborn care nursery, or maternity
home the director may grant:
(1) A variance from any requirement in rules 3701-7-01 to 3701-7-16 of the
Administrative Code if the director determines that the intent of the requirement has been met in
an alternative manner; or
(2) A waiver from any requirement in rules 3701-7-01 to 3701-7-16 of the Administrative
Code if the director determines that the strict application of the requirement would cause an
undue hardship to the maternity unit and that granting the waiver would not jeopardize the
health and safety of any patient or resident.

(B) In granting a variance or waiver, the director shall stipulate a time period for which the variance and waiver is to be effective and shall establish conditions the maternity unit must meet for the variance or waiver to be operative.

(C) The decision regarding a variance or waiver is a discretionary act by the director and an informal procedure not subject to Chapter 119 of the Revised Code. The director's decision shall be based on documentation of the following:

(1) In the case of a variance request, the alternative means by which the hospital maternity unit, newborn care nursery, or maternity home is meeting the intent of the requirement; and

(2) In the case of a waiver request, the undue hardship caused by the requirement and the reasons why a waiver of the requirement will not jeopardize the health and safety of any patient or resident.

(D) The granting of a variance or waiver by the director shall not be construed as constituting precedent for the granting of any other variance or waiver. All variance or waiver requests shall be considered on a case-by-case basis.

(E) The provider whose request for a waiver or variance under this rule is denied may request reconsideration of the decision by the director. A request for reconsideration must:

(1) Be received in writing by the director within thirty days of receipt of the director's denial of a waiver or variance request;

(2) Present significant, relevant information not previously submitted to the director by the provider because it was not available to the provider at the time the waiver or variance request was filed; or

(3) Demonstrate that there have been significant changes in factors or circumstances relied upon by the director in reaching the initial decision.

(F) A decision on an appropriately filed request for reconsideration shall be issued within forty-five days of the director's receipt of the request for reconsideration and all information determined necessary by the director to make a decision.

(G) The reconsideration process is an informal procedure not subject to Chapter 119 of the Revised Code. The director's decision on reconsideration is final.

Part II. Freestanding Healthcare Facilities

3702.30 Quality standards for ambulatory facilities.

(A) As used in this section:

(1) "Ambulatory surgical facility" means a facility, whether or not part of the same organization as a hospital, that is located in a building distinct from another in which inpatient care is provided, and to which any of the following apply:

(a) Outpatient surgery is routinely performed in the facility, and the facility functions separately from a hospital's inpatient surgical service and from the offices of private physicians, podiatrists, and dentists.

(b) Anesthesia is administered in the facility by an anesthesiologist or certified registered nurse anesthetist, and the facility functions separately from a hospital's inpatient surgical service and from the offices of private physicians, podiatrists, and dentists.

(c) The facility applies to be certified by the United States centers for medicare and medicaid services as an ambulatory surgical center for purposes of reimbursement under Part B of the medicare program, Part B of Title XVIII of the "Social Security Act," 79 Stat. 286 (1965), 42 U.S.C.A. 1395, as amended.

(d) The facility applies to be certified by a national accrediting body approved by the
centers for medicare and medicaid services for purposes of deemed compliance with the conditions for participating in the medicare program as an ambulatory surgical center.

(e) The facility bills or receives from any third-party payer, governmental health care program, or other person or government entity any ambulatory surgical facility fee that is billed or paid in addition to any fee for professional services.

(f) The facility is held out to any person or government entity as an ambulatory surgical facility or similar facility by means of signage, advertising, or other promotional efforts.

“Ambulatory surgical facility” does not include a hospital emergency department.

(2) “Ambulatory surgical facility fee” means a fee for certain overhead costs associated with providing surgical services in an outpatient setting. A fee is an ambulatory surgical facility fee only if it directly or indirectly pays for costs associated with any of the following:

(a) Use of operating and recovery rooms, preparation areas, and waiting rooms and lounges for patients and relatives;
(b) Administrative functions, record keeping, housekeeping, utilities, and rent;
(c) Services provided by nurses, orderlies, technical personnel, and others involved in patient care related to providing surgery.

“Ambulatory surgical facility fee” does not include any additional payment in excess of a professional fee that is provided to encourage physicians, podiatrists, and dentists to perform certain surgical procedures in their office or their group practice's office rather than a health care facility, if the purpose of the additional fee is to compensate for additional cost incurred in performing office-based surgery.

(3) “Governmental health care program” has the same meaning as in section 4731.65 of the Revised Code.

(4) “Health care facility” means any of the following:

(a) An ambulatory surgical facility;
(b) A freestanding dialysis center;
(c) A freestanding inpatient rehabilitation facility;
(d) A freestanding birthing center;
(e) A freestanding radiation therapy center;
(f) A freestanding or mobile diagnostic imaging center.

(5) “Third-party payer” has the same meaning as in section 3901.38 of the Revised Code.

(B) By rule adopted in accordance with sections 3702.12 and 3702.13 of the Revised Code, the director of health shall establish quality standards for health care facilities. The standards may incorporate accreditation standards or other quality standards established by any entity recognized by the director.

In the case of an ambulatory surgical facility, the standards shall require the ambulatory surgical facility to maintain an infection control program. The purposes of the program are to minimize infections and communicable diseases and facilitate a functional and sanitary environment consistent with standards of professional practice. To achieve these purposes, ambulatory surgical facility staff managing the program shall create and administer a plan designed to prevent, identify, and manage infections and communicable diseases; ensure that the program is directed by a qualified professional trained in infection control; ensure that the program is an integral part of the ambulatory surgical facility's quality assessment and performance improvement program; and implement in an expeditious manner corrective and preventive measures that result in improvement.

(C) Every ambulatory surgical facility shall require that each physician who practices at the facility comply with all relevant provisions in the Revised Code that relate to the obtaining of informed consent from a patient.

(D) The director shall issue a license to each health care facility that makes application for a license and demonstrates to the director that it meets the quality standards established by
the rules adopted under division (B) of this section and satisfies the informed consent compliance requirements specified in division (C) of this section.

(E)(1) Except as provided in division (H) of this section and in section 3702.301 of the Revised Code, no health care facility shall operate without a license issued under this section.

(2) If the department of health finds that a physician who practices at a health care facility is not complying with any provision of the Revised Code related to the obtaining of informed consent from a patient, the department shall report its finding to the state medical board, the physician, and the health care facility.

(3) This division does not create, and shall not be construed as creating, a new cause of action or substantive legal right against a health care facility and in favor of a patient who allegedly sustains harm as a result of the failure of the patient’s physician to obtain informed consent from the patient prior to performing a procedure on or otherwise caring for the patient in the health care facility.

(F) The rules adopted under division (B) of this section shall include all of the following:

(1) Provisions governing application for, renewal, suspension, and revocation of a license under this section;

(2) Provisions governing orders issued pursuant to section 3702.32 of the Revised Code for a health care facility to cease its operations or to prohibit certain types of services provided by a health care facility;

(3) Provisions governing the imposition under section 3702.32 of the Revised Code of civil penalties for violations of this section or the rules adopted under this section, including a scale for determining the amount of the penalties;

(4) Provisions specifying the form inspectors must use when conducting inspections of ambulatory surgical facilities.

(G) An ambulatory surgical facility that performs or induces abortions shall comply with section 3701.791 of the Revised Code.

(H) The following entities are not required to obtain a license as a freestanding diagnostic imaging center issued under this section:

(1) A hospital registered under section 3701.07 of the Revised Code that provides diagnostic imaging;

(2) An entity that is reviewed as part of a hospital accreditation or certification program and that provides diagnostic imaging;

(3) An ambulatory surgical facility that provides diagnostic imaging in conjunction with or during any portion of a surgical procedure.

3702.301 Freestanding birthing centers; religious exception.

(A) Except as provided in division (C) of this section, a freestanding birthing center is not required to obtain a license under section 3702.30 of the Revised Code if all of the following are the case:

(1) A religious denomination, sect, or group owns and operates the center.

(2) Requiring that the center be licensed significantly abridges or infringes on the religious practices or beliefs of that religious denomination, sect, or group.

(3) The center provides care only during low-risk pregnancy, delivery, and the immediate postpartum period exclusively to women who are members of that religious denomination, sect, or group.

(4) The center monitors and evaluates the care provided to its patients in accordance with at least the minimum patient safety monitoring and evaluation requirements established in rules adopted under division (D) of this section.

(5) The center meets the quality assessment and improvement standards established in rules adopted under division (D) of this section.
(B) If the director determines that a freestanding birthing center is no longer exempt from the requirement to obtain a license under section 3702.30 of the Revised Code because the center ceases to comply with division (A)(4) or (5) of this section, the director may order the center to come into compliance. In the order, the director may do all of the following:
   (1) Identify what the center is not in compliance with and what the center needs to do to come into compliance;
   (2) Require that the center come into compliance within a period of time specified in the order;
   (3) Require that the center provide the director a written notice within a period of time specified in the order that contains all of the following:
      (a) Certification that the center has come into compliance;
      (b) The signature of the center's administrator or medical director and certification that the administrator or medical director, whichever signs the notice, is the center's authorized representative;
      (c) Certification that the information contained in the notice and in any accompanying documentation is true and accurate;
      (d) Any other information or documentation that the director may require to verify that the center has come into compliance.
(C) If the director issues an order to a freestanding birthing center under division (B) of this section and the center fails to comply with the order within the time specified in the order, the director may issue a second order that requires the center to cease operations until the center obtains a license under section 3702.30 of the Revised Code.
(D) The director of health shall adopt rules in accordance with Chapter 119 of the Revised Code as necessary to implement this section. The rules shall establish all of the following:
   (1) Minimum patient safety monitoring and evaluation requirements;
   (2) Quality assessment and improvement standards;
   (3) Procedures for determining whether freestanding birthing centers are in compliance with the rules.

3702.302 License renewal.

In the case of an ambulatory surgical facility not certified by the centers for medicare and medicaid services as an ambulatory surgical center, the director of health shall conduct an inspection of the facility each time the facility submits an application for license renewal. The director shall not renew the license unless all of the following conditions are met:
   (A) The inspector conducting the inspection completes each item on the following, as applicable:
      (1) Until the director adopts rules under division (F) of section 3702.30 of the Revised Code, the form approved by the director on the effective date of this section;
      (2) The form specified by the director pursuant to rules adopted under division (F) of section 3702.30 of the Revised Code.
   (B) The inspection demonstrates that the ambulatory surgical facility complies with all quality standards established by the director in rules adopted under division (B) of section 3702.30 of the Revised Code.
   (C) The director determines that the most recent version of the updated written transfer agreement filed in accordance with division (B) of section 3702.303 of the Revised Code is satisfactory, unless the director has granted a variance from the written transfer agreement requirement as permitted by section 3702.304 of the Revised Code.
3702.303 Transfer arrangements.

(A) Except as provided in division (C) of this section, an ambulatory surgical facility shall have a written transfer agreement with a local hospital that specifies an effective procedure for the safe and immediate transfer of patients from the facility to the hospital when medical care beyond the care that can be provided at the ambulatory surgical facility is necessary, including when emergency situations occur or medical complications arise. A copy of the agreement shall be filed with the director of health.

(B) An ambulatory surgical facility shall update a written transfer agreement every two years and file a copy of the updated agreement with the director.

(C) The requirement for a written transfer agreement between an ambulatory surgical facility and a hospital does not apply if either of the following is the case:

1. The facility is a provider-based entity, as defined in 42 C.F.R. 413.65(a)(2), of a hospital and the facility’s policies and procedures to address situations when care beyond the care that can be provided at the ambulatory surgical facility are approved by the governing body of the facility’s parent hospital and implemented;

2. The director of health has, pursuant to the procedure specified in section 3702.304 of the Revised Code, granted the facility a variance from the requirement.

3702.304 Transfer arrangement variance.

(A)(1) The director of health may grant a variance from the written transfer agreement requirement of section 3702.303 of the Revised Code if the ambulatory surgical facility submits to the director a complete variance application, prescribed by the director, and the director determines after reviewing the application that the facility is capable of achieving the purpose of a written transfer agreement in the absence of one. The director’s determination is final.

(2) Not later than sixty days after receiving a variance application from an ambulatory surgical facility, the director shall grant or deny the variance. A variance application that has not been approved within sixty days is considered denied.

(B) A variance application is complete for purposes of division (A)(1) of this section if it contains or includes as attachments all of the following:

1. A statement explaining why application of the requirement would cause the facility undue hardship and why the variance will not jeopardize the health and safety of any patient;

2. A letter, contract, or memorandum of understanding signed by the facility and one or more consulting physicians who have admitting privileges at a minimum of one local hospital, memorializing the physician or physicians’ agreement to provide back-up coverage when medical care beyond the level the facility can provide is necessary;

3. For each consulting physician described in division (B)(2) of this section:

   (a) A signed statement in which the physician attests that the physician is familiar with the facility and its operations, and agrees to provide notice to the facility of any changes in the physician’s ability to provide back-up coverage;

   (b) The estimated travel time from the physician’s main residence or office to each local hospital where the physician has admitting privileges;

   (c) Written verification that the facility has a record of the name, telephone numbers, and practice specialties of the physician;

   (d) Written verification from the state medical board that the physician possesses a valid license to practice medicine and surgery or osteopathic medicine and surgery issued under Chapter 4731 of the Revised Code;

   (e) Documented verification that each hospital at which the physician has admitting privileges has been informed in writing by the physician that the physician is a consulting physician for the ambulatory surgical facility and has agreed to provide back-up coverage for the
facility when medical care beyond the care the facility can provide is necessary.

(4) A copy of the facility's operating procedures or protocols that, at a minimum, do all of the following:
   (a) Address how back-up coverage by consulting physicians is to occur, including how back-up coverage is to occur when consulting physicians are temporarily unavailable;
   (b) Specify that each consulting physician is required to notify the facility, without delay, when the physician is unable to expeditiously admit patients to a local hospital and provide for continuity of patient care;
   (c) Specify that a patient's medical record maintained by the facility must be transferred contemporaneously with the patient when the patient is transferred from the facility to a hospital.
   (5) Any other information the director considers necessary.

(C) The director's decision to grant, refuse, or rescind a variance is final.

(D) The director shall consider each application for a variance independently without regard to any decision the director may have made on a prior occasion to grant or deny a variance to that ambulatory surgical facility or any other facility.

3702.305 Variance conditions.

The director of health may impose conditions on any variance the director has granted under section 3702.304 of the Revised Code. The director may, at any time, rescind the variance for any reason, including a determination by the director that the facility is failing to meet one or more of the conditions or no longer adequately protects public health and safety. The director's decision to rescind a variance is final.

3702.306 Variance term.

A variance the director of health grants under section 3702.304 of the Revised Code is effective for the period of time specified by the director, except that it shall not be effective beyond the date the ambulatory surgical facility's license expires. If a variance is to expire on the date the facility's license expires, the facility may submit to the director an application for a new variance with its next license renewal application.

3702.307 Notice to ODH.

An ambulatory surgical facility shall notify the director of health when any of the following occurs:

(A) The facility modifies any provision of its most recent written transfer agreement filed with the director under section 3702.303 of the Revised Code. Notification under these circumstances shall occur not later than the business day after the modification is finalized. As used in this division, “business day” means a day of the week excluding Saturday, Sunday, and a legal holiday as defined in section 1.14 of the Revised Code.

(B) The facility modifies its operating procedures or protocols described in division (B)(4) of section 3702.304 of the Revised Code. Notification under these circumstances shall occur not later than forty-eight hours after the modification is made.

(C) The ambulatory surgical facility becomes aware of an event, including disciplinary action by the state medical board pursuant to section 4731.22 of the Revised Code, that may affect a consulting physician's license to practice medicine and surgery or osteopathic medicine and surgery or the physician's ability to admit patients to a hospital identified in a variance application, as described in division (B)(3)(e) of section 3702.304 of the Revised Code. Notification under these circumstances shall occur not later than one week after the facility becomes aware of the event's occurrence.
**3702.309 ODH director variance action.**

(A) If a variance application is denied under section 3702.304 of the Revised Code, the license of such an ambulatory surgical facility is automatically suspended. The director of health shall reinstate the license if one of the following occurs:

1. The facility files with the director a copy of a written transfer agreement that meets the requirements of section 3702.303 of the Revised Code.
2. The director grants the facility a variance pursuant to the requirements and procedures under section 3702.304 of the Revised Code;
3. The license is required to be reinstated pursuant to an order issued in accordance with sections 119.01 to 119.13 of the Revised Code.

(B) If a facility's license remains under suspension pursuant to this section after the expiration date of the license, in order to operate as an ambulatory surgical facility it must apply for a new license under section 3702.30 of the Revised Code.

**3702.3010 Local hospital location.**

A local hospital shall not be further than thirty miles from an ambulatory surgical facility:

(A) With which the local hospital has a written transfer agreement under section 3702.303 of the Revised Code; or
(B) Whose consulting physicians under a variance granted under section 3702.304 of the Revised Code have admitting privileges at the local hospital.

**3727.60 Public hospital abortion limitations.**

(A) As used in this section:

1. “Ambulatory surgical facility” has the same meaning as in section 3702.30 of the Revised Code.
2. “Nontherapeutic abortion” has the same meaning as in section 9.04 of the Revised Code.
3. “Political subdivision” means any body corporate and politic that is responsible for governmental activities in a geographic area smaller than the state.
4. “Public hospital” means a hospital registered with the department of health under section 3701.07 of the Revised Code that is owned, leased, or controlled by this state or any agency, institution, instrumentality, or political subdivision of this state. “Public hospital” includes any state university hospital, state medical college hospital, joint hospital, or public hospital agency.
5. “Written transfer agreement” means an agreement described in section 3702.303 of the Revised Code.

(B) No public hospital shall do either of the following:

1. Enter into a written transfer agreement with an ambulatory surgical facility in which nontherapeutic abortions are performed or induced;
2. Authorize a physician who has been granted staff membership or professional privileges at the public hospital to use that membership or those privileges as a substitution for, or alternative to, a written transfer agreement for purposes of a variance application described in section 3702.304 of the Revised Code that is submitted to the director of health by an ambulatory surgical facility in which nontherapeutic abortions are performed or induced.

**3701-83-01 General definitions.**

As used in this chapter:
Chapter 2. Regulated Healthcare Facilities
Part II. Freestanding Healthcare Facilities

(A) “Accreditation award letter” means an official letter stating the accreditation status and effective dates issued to a health care facility by an entity that the director has determined as having standards and a process for assessing compliance which equal or exceed the requirements of section 3702.30 of the Revised Code and the applicable requirements of Chapter 3701-83 of the Revised Code.

(B) “Administrator” means the person responsible for the overall daily management of the health care facility.

(C) “Advanced directives” means a written document executed in accordance with section 2133.02 or section 1337.12 of the Revised Code.

(D) “Current procedural terminology” or “CPT” means the comprehensive listing of medical terms and codes published by the American medical association for the uniform designation of diagnostic and therapeutic procedures in surgery, medicine and the specialties.

(E) “Dentist” means a person licensed under Chapter 4715 of the Revised Code to practice dentistry.

(F) “Department” means the Ohio department of health.

(G) “Dialysis station” or “station” means the equipment used to provide chronic maintenance dialysis for a single patient at a given time, including equipment used for self-dialysis and isolation stations.

(H) “Director” means the director of health or any official or employee of the department designated by the director of health.

(I) “Health care facility” or “HCF” means any of the following:
   1. An ambulatory surgical facility as defined in rule 3701-83-15 of the Administrative Code;
   2. A freestanding dialysis center as defined in rule 3701-83-23 of the Administrative Code;
   3. A freestanding inpatient rehabilitation facility as defined in rule 3701-83-25 of the Administrative Code;
   4. A freestanding birthing center as defined in rule 3701-83-33 of the Administrative Code;
   5. A freestanding radiation therapy center as defined in rule 3701-83-43 of the Administrative Code; and
   6. A freestanding or mobile diagnostic imaging center as defined in rule 3701-83-51 of the Administrative Code.

(J) “Hospital” means an institution required to be registered under section 3701.07 of the Revised Code.

(K) “Licensed practical nurse” or “LPN” means a person licensed under Chapter 4723 of the Revised Code to practice nursing as a licensed practical nurse.

(L) “Medical director” means the physician who is responsible for managing and directing the provision of medical services at the health care facility unless otherwise indicated in Chapter 3701-83 of the Administrative Code.

(M) “Nurse” means either a licensed practical nurse or a registered nurse.

(N) “Owner” means any person who holds a legal, equitable, or possessory interest of any kind in a health care facility, including, without limitation, a trust, vendor, vendee, lessor, or lessee. Owner does not include a person who holds indicia of ownership primarily to protect the person's security interest in the health care facility.

(O) “Patient” means any individual who receives services in a health care facility.

(P) “Patient representative” means either a person acting on behalf of a patient with the consent of the patient or the patient’s legal guardian.

(Q) “Personnel” means all individuals working in the health care facility.

(R) “Physician” means a person who is licensed under Chapter 4731 of the Revised Code to practice medicine and surgery, or osteopathic medicine and surgery.
Chapter 2. Regulated Healthcare Facilities
Part II. Freestanding Healthcare Facilities

Freestanding Healthcare Facilities

- General Provisions

(S) “Podiatrist” means a person licensed to practice podiatry under Chapter 4731 of the Revised Code.

(T) “Registered nurse” or “RN” means a person who is licensed under section 4723 of the Revised Code to practice nursing as a registered nurse.

(U) “Staff member” or “staff” means the administrator and individuals providing direct care to patients on a full-time, part-time, temporary, contract or voluntary basis. “Staff member” does not include a volunteer who provides direct care only to a member of his or her family.

(V) “Surgery” means any medical procedure performed upon the body of a living human being, regardless of the length of time the procedure takes, involving the invasion, alteration, cutting, disruption, destruction, resection, or removal of human tissue or bone by use of sharp-edged instruments, lasers, electrical cautery, cryoprobe, or any other medically accepted means for the purposes of preserving health, diagnosing or curing disease, repairing injury, correcting deformity or defects, prolonging life, relieving suffering, or for aesthetic, reconstructive, or cosmetic purposes. “Surgery” does not include the suturing of minor lacerations.

3701-83-02 Applicability of rules to types of freestanding facilities.

(A) Except as provided in section 3702.301 of the Revised Code and paragraph (B) of rule 3701-83-03 of the Administrative Code, all health care facilities shall comply with rules 3701-83-02 to 3701-83-14 of the Administrative Code. In addition, all:
   (1) Ambulatory surgical facilities shall comply with rules 3701-83-15 to 3701-83-22 of the Administrative Code;
   (2) Freestanding dialysis centers shall comply with rules 3701-83-23 to 3701-83-24 of the Administrative Code;
   (3) Freestanding inpatient rehabilitation facilities shall comply with rules 3701-83-25 to 3701-83-32 of the Administrative Code;
   (4) Freestanding birthing centers shall comply with rules 3701-83-33 to 3701-83-42 of the Administrative Code;
   (5) Freestanding radiation therapy centers shall comply with rules 3701-83-43 to 3701-83-50 of the Administrative Code; and
   (6) Freestanding or mobile diagnostic imaging centers shall comply with rules 3701-83-51 to 3701-83-55 of the Administrative Code.

(B) Freestanding birthing centers exempted from licensure under section 3702.301 of the Revised Code and paragraph (B) of rule 3701-83-03 of the Administrative Code shall comply with rules 3701-83-56 to 3701-83-59 of the Administrative Code.

3701-83-03 Requirements and prohibitions.

(A) Except as provided in section 3702.301 of the Revised Code and paragraph (B) of this rule, no person or agency of state or local government shall operate an HCF without a current valid license issued by the director under section 3702.30 of the Revised Code or operate an HCF when the license has been suspended or revoked.

(B) Except as provided in division (C) of section 3702.301 of the Revised Code and paragraph (C) of rule 3701-83-59 of the Administrative Code, a freestanding birthing center is not required to obtain a license under section 3702.30 of the Revised Code if all of the following are the case:
   (1) A religious denomination, sect, or group owns and operates the center and has provided written notice to the director of the following:
      (a) An attestation by the administrator or director that the center will be owned and operated by members of a religious denomination, sect, or group and that requiring that the
center be licensed significantly abridges or infringes on the religious practices and beliefs of that religious denomination, sect, or group;

(b) An attestation by the administrator or director that the center will be admitting, retaining, and providing care exclusively to women members of a religious denomination, sect, or group that owns and operates the center;

(c) The name of owner(s) and identification of what religious denomination, sect, or group they are members of;

(d) The name of proposed administrator or director of patient services and identification of what religious denomination, sect, or group they are members of;

(e) The name of board members and identification of what religious denomination, sect, or group they are members of;

(f) The name of the Ohio-licensed physician(s) who will provide obstetrical and/or pediatric consultation and oversight of the center;

(g) The number and type of staff (e.g., traditional midwives, certified professional midwives, apprentice midwives, state-licensed health care professionals) who will provide services in the center;

(h) The number of admissions and deliveries at the center to date if services have commenced at the center prior to providing this notice;

(i) What arrangements are in place with a hospital for transfer of a mother or newborn in the event of medical complications; and

(j) How and by whom each expectant mother will be assessed prior to admission.

(2) The center provides care only during low-risk pregnancy, delivery, and the immediate postpartum period exclusively to women who are members of that religious denomination, sect, or group;

(3) The center monitors and evaluates the care provided to its patients in accordance with at least the minimum patient safety monitoring and evaluation requirements of rule 3701-83-57 of the Administrative Code; and

(4) The center meets the quality assessment and improvement standards established in rule 3701-83-58 of the Administrative Code.

(C) No person or agency of state or local government shall:

(1) Interfere with an inspection or investigation of an HCF by the director; or

(2) Materially misrepresent any information provided to the director pursuant to section 3702.30 of the Revised Code and Chapter 3701-83 of the Administrative Code.

(D) Each HCF shall comply with all applicable state and federal laws and regulations.

(E) Nothing in this chapter shall be construed to alter or affect the law with respect to the corporate practice of medicine and surgery, osteopathic medicine and surgery, or dentistry.

(F) The HCF shall have an identifiable governing body responsible for the following:

(1) The development and implementation of policies and procedures and a mission statement for the orderly management of the HCF;

(2) The evaluation of the HCF's quality assessment and performance improvement program on an annual basis; and

(3) The development and maintenance of a disaster preparedness plan, including evacuation procedures.

(G) Each HCF shall either maintain documentation of appropriate liability insurance coverage of the staff and consulting specialists or inform patients that the staff member or consulting specialist does not carry malpractice insurance.

(H) No HCF shall permit any person to smoke inside the HCF. The HCF shall post a notice in a conspicuous place within the HCF stating that smoking is prohibited inside the HCF.

(I) Nothing in this chapter shall be construed as authorizing individuals to provide services outside their licensed scope of practice.

(J) The owner, administrator, and medical director shall be competent to perform the
respective responsibilities.

(K) An HCF may arrange for services to be provided through a contract with an outside resource. The HCF shall retain professional management responsibility for contracted services and shall ensure that those services are furnished in a safe and effective manner.

3701-83-04 Application for license and renewal requirements, contents.

(A) A person or agency of state or local government seeking a license to operate an HCF shall submit to the director an application, on a form and in a manner prescribed by the director and shall include the following:

(1) A statement of ownership containing the following information:
   (a) The name, address, and telephone number of the HCF.
   (i) If the owner is an individual, the owner's name, address, telephone number, business address, and business telephone number.
   (ii) If the owner is an association, corporation, limited liability company, or partnership, the legal business entity name, address, and telephone number of the entity and the name of every person who has an ownership interest of five per cent or more in the entity. The corporate name; if any, and the names, titles, addresses and telephone numbers of its officers and statutory agent.
   (iii) If the applicant is an agency of state or local government, the name, address and telephone number of the individual authorized to enter into agreements on behalf of the agency of state or local government.
   (b) The name of the administrator;
   (c) The name and physician license number or dentist license number of the medical director of the HCF;
   (d) The name and address of any of the following facilities which either the owner, administrator or medical director has been affiliated through ownership or employment in the five years prior to the date of the application:
      (i) A nursing home, residential care facility, or home for the aging as defined in section 3721.01 of the Revised Code;
      (ii) A residential facility for the mentally ill licensed by the department of mental health under section 5119.22 of the Revised Code;
      (iii) A facility licensed to provide methadone treatment under section 3793.11 of the Revised Code;
      (iv) A residential facility licensed under section 5123.19 of the Revised Code or otherwise regulated by the department of developmental disabilities;
      (v) A terminal care facility for the homeless that has entered into an agreement with a hospice care program under section 3712.07 of the Revised Code;
      (vi) A health insuring corporation as defined by section 1751.01 of the Revised Code;
      (vii) A hospital; or
   (e) Information about any criminal conviction, civil judgment or administrative adjudication of the owner, administrator or medical director for an offense related to the provision of care or bearing a direct or substantial relationship to the job responsibilities he or she is to carry out.

(2) If applicable, a copy of the fire inspection report required under paragraph (C) of rule 3701-83-06 of the Administrative Code and if applicable, the certificate of use and occupancy
required under rule 3701-83-10 of the Administrative Code;

(3) The type of HCF license for which the applicant is applying; in addition:
   (a) An ASF shall specify the number of operating rooms, or procedure rooms, or both;
   (b) A freestanding dialysis center shall specify the number of dialysis stations, including the number of hemodialysis stations and peritoneal stations;
   (c) A freestanding inpatient rehabilitation facility shall specify the number of patient care beds;
   (d) A freestanding birthing center shall specify the number of birth rooms;
   (e) A freestanding or mobile diagnostic imaging center shall specify whether the radiopharmaceuticals being proposed for use are for use as delineated in rule 3701:1-58-32, 3701:1-58-34, 3701:1-58-37 or 3701:1-58-53 of the Administrative Code and the number and type of radiation-generating or detecting equipment;
   (f) A freestanding radiation therapy center shall specify the number and type of radiation-generating or detecting equipment being proposed for use and whether radiopharmaceuticals or sealed sources being proposed for use are for use as delineated in rule 3701:1-58-43 or 3701:1-58-55 of the Administrative Code

(4) A complete copy of the HCF’s current accreditation award letter, if applicable.

(B) A person or agency of state or local government seeking renewal of an HCF license shall submit to the director an application for renewal each year during the month specified on the HCF’s license. A person or agency of state or local government seeking renewal of an HCF license, or an amended license under paragraph (F) of this rule, shall submit to the director an application on a form and in a manner prescribed by the director, and shall include the following:

(1) The name, address, and telephone number of the facility;
(2) The type of facility for which the applicant is seeking license renewal;
(3) Any changes or updates to the information required by paragraph (A) of this rule, including a copy of the most recent accreditation award letter, if applicable, unless the department has been previously notified;
(4) Copies of all inspections, agreements, or approvals required by Chapter 3701-83 of the Administrative Code, that have been conducted since submittal of the HCF’s previous application;
(5) Any other information the director may require regarding the owner’s ability to operate the facility.

(C) An application for an HCF license, license renewal or amended license shall include the following:

(1) Attestation that to the best of the applicant’s knowledge, the information in the application and any accompanying material is true and accurate;
(2) Attestation by the medical director and the administrator that to the best of their knowledge, the information in the application submitted pursuant to paragraph (A)(1)(c) of this rule is true and accurate;
(3) Attestation that the applicant, if not the owner, is the authorized representative of the owner, and
(4) A nonrefundable application fee of three hundred dollars for an HCF license or license renewal or a nonrefundable fee of one hundred and fifty dollars for an amended HCF license payable to the “Treasurer, State of Ohio.”

(D) The director at any time may request additional information the director determines to be necessary to assess compliance with the applicable criteria, standards, and requirements established by section 3702.30 of the Revised Code and Chapter 3701-83 of the Administrative Code. The applicant shall submit any additional information requested by the director within thirty days of the date of the director’s request.

(E) The HCF shall notify the director in writing no later than thirty days of:

(1) Any changes in the information contained in the statement of ownership made
pursuant to paragraph (A) of this rule; and
    (2) Any change in the HCF's accreditation status.
    (F) The HCF shall apply for an amended license if:
      (1) In the case of an ASF, there is any increase or a permanent decrease in the number
          of operating or procedure rooms;
      (2) In the case of a freestanding dialysis center, there is any increase or a permanent
          decrease in the number of dialysis stations;
      (3) In the case of a freestanding inpatient rehabilitation facility, there is any increase or a
          permanent decrease in the number of patient care beds;
      (4) In the case of a freestanding birthing center, there is any increase or a permanent
          decrease in the number of birthing rooms;
      (5) In the case of a freestanding or mobile diagnostic imaging center, there is any
          increase in the number or change in the type of radiation-generating or detecting equipment
          or any change in the radiopharmaceuticals being used pursuant to rule 3701:1-58-32, 3701:1-58-34,
          3701:1-58-37, or 3701:1-58-53 of the Administrative Code; and
      (6) In the case of a freestanding radiation therapy center, there is any increase in the
          number or change in the type of radiation-generating or detecting equipment being used or any
          change in the radiopharmaceuticals or sealed sources being used pursuant to rule 3701:1-58-43 or
    (G) The HCF shall not use any additional room, station, bed or equipment until an
        amended HCF license has been issued, or the HCF has received other verifiable approval by
        the department.

3701-83-05 Issuance of license.

    (A) The director shall issue or renew a license to an HCF that submits an application for
        license in accordance with rule 3701-83-04 of the Administrative Code and that demonstrates to
        the director it meets the requirements of section 3702.30 of the Revised Code and the
        requirements of Chapter 3701-83 of the Administrative Code. Nothing herein shall exempt any
        HCF from the data reporting requirements of Chapter 3701-83 of the Administrative Code, the
        fee requirements of paragraph (C) of rule 3701-83-04 of the Administrative Code, and any other
        applicable state or federal law or regulation.
        (1) The director may renew an HCF license without conducting an onsite inspection if:
            (a) The HCF is accredited by a national accrediting body approved by the centers for
                medicare and medicaid services, as documented by a current award letter from the accrediting
                body;
            (b) The HCF is deemed to meet or exceed the applicable medicare program
                requirements for health care facilities as set forth in this chapter, as documented by a current
                award letter from the accrediting body or an approval letter from the centers for medicare and
                medicaid services; or
            (c) The HCF, on the facility's most recent centers for medicare and medicaid services
                survey, has been determined to be in compliance with the medicare program participation
                requirements by virtue of a department conducted medicare certification or recertification
                survey.
        (2) Notwithstanding paragraph (A) of this rule, the director may conduct an on-site
            inspection prior to issuing a renewal license.
        (3) The director shall only issue one license of the same type at a given location for the
            following types of health care facilities:
            (a) Ambulatory surgical facility;
            (b) Freestanding inpatient rehabilitation facility;
            (c) Freestanding birthing center; or
(d) Freestanding dialysis center.
(B) Any license issued to an HCF:
(1) Shall contain the name and address of the facility for which it was issued, the
effective date of the license, and the month the HCF must apply for renewal of the license. In
addition:
(a) The license for an ambulatory surgical facility shall specify the maximum number of
operating rooms, or procedure rooms, or both;
(b) The license for a freestanding dialysis center shall specify the maximum number of
dialysis stations;
(c) The license for a freestanding inpatient rehabilitation facility shall specify the
maximum number of patient care beds;
(d) The license for a freestanding birthing center shall specify the number of birth rooms;
(e) The license for a freestanding or mobile diagnostic imaging center shall specify the
number and type of equipment.
(f) The license for a freestanding or mobile radiation therapy center shall specify the
number and type of equipment.
(2) Is valid unless revoked or suspended pursuant to Chapter 119 of the Revised Code,
or voided at the request of the owner, or the HCF fails to timely apply for a renewal in
accordance with paragraph (B) of rule 3701-83-04 of the Administrative Code; and
(3) Is valid only for the facility specified on the license at the listed address.
(C) The director shall, in accordance with Chapter 119 of the Revised Code, deny an
application for a license or an application for amendment or renewal of a license if:
(1) The HCF fails to make application for a license in accordance with rule 3701-83-04 of
the Administrative Code;
(2) Fails to demonstrate to the director that the HCF meets or continues to meet the
requirements of section 3702.30 of the Revised Code and Chapter 3701-83 of the
Administrative Code; or
(3) The director determines that the owner, administrator, or medical director is not
competent to operate an HCF based on review of information pertaining to paragraphs (A)(1)(c)
and (A)(1)(d) of rule 3701-83-04 of the Administrative Code.
(D) The HCF shall notify the director in writing within thirty days of termination of an
accreditation.
(E) In addition to any other provision of Chapter 3701-83 of the Administrative Code, if
the director granted a license based on the HCF demonstrating compliance through submittal of
an accreditation award letter and one of the events listed in this paragraph occurs, the director
may inspect or request additional information from the HCF to determine whether the HCF
meets the requirements of section 3702.30 of the Revised Code and the applicable
requirements of Chapter 3701-83 of the Administrative Code.
(1) The HCF’s accreditation is terminated; or
(2) The HCF’s accreditation expires and is not renewed.

3701-83-05.1 Compliance actions, revocation, and operating without a license.

(A) If the director determines that an HCF is operating without a license in violation of
division (E)(1) of section 3702.30 of the Revised Code, the director shall do one or more of the
following:
(1) Notify the HCF that it is operating without a license and issue a written order that the
HCF apply for a license. The order shall specify the time frame for filing a complete application
in accordance with rule 3701-83-04 of the Administrative Code that shall not exceed thirty days
after the date of the order;
(2) Issue a written order that the HCF cease its operations. The department shall deliver
the written order issued under section 3702.32 of the Revised Code to the HCF. The order shall be effective no later than fifteen days after the facility receives the order, and shall stay in effect until such time as specified by the director or until a license is issued;

(3) Issue a written order that prohibits the HCF from performing certain types of services. The department shall deliver the written order issued under section 3702.32 of the Revised Code to the HCF. The order shall be effective on the date specified in the order and shall stay in effect until such time as specified by the director or until a license is issued;

(4) Impose a civil penalty as provided under paragraph (A) of rule 3701-83-05.2 of the Administrative Code. The civil penalty shall not be less than one thousand dollars and not more than two hundred fifty thousand dollars;

(5) Impose an additional civil penalty as provided under paragraph (D) of rule 3701-83-05.2 of the Administrative Code. The civil penalty shall not be less than one thousand dollars and not more than ten thousand dollars for each day that the HCF continues to operate without a license in violation of an order issued under paragraph (A) of this rule.

(B) The director may file a petition in the court of common pleas of the county in which a HCF is located for an injunction enjoining the facility from operating if the HCF is subject to an order issued:

(1) Under paragraph (A)(1) of this rule but the HCF continues to operate in violation of such order after the time frame specified for filing an application; or

(2) Under paragraph (A)(2) of this rule but the HCF continues to operate or provide services in violation of such order.

(C) If the director determines that the HCF is not complying with any provision of section 3702.30 of the Revised Code, other than a violation under division (E)(1) or (E)(2) of that section, any provision of Chapter 3701-83 of the Administrative Code, or any other rule adopted by the director under section 3702.30 of the Revised Code, the director may do any or all of the following:

(1) Provide an opportunity to correct the violation within a specified period of time;

(2) Revoke, suspend, or refuse to renew the license;

(3) Prior to or during the pendency of an administrative hearing under Chapter 119 of the Revised Code, issue an order that prohibits the HCF from performing certain types of services. The order shall be effective on the date specified in the order;

(4) Impose a civil penalty as provided under paragraph (A) of rule 3701-83-05.2 of the Administrative Code. The civil penalty shall not be less than one thousand dollars and not more than two hundred fifty thousand dollars;

(5) Impose an additional civil penalty as provided under paragraph (E) of rule 3701-83-05.2 of the Administrative Code. The civil penalty shall not be less than five hundred dollars and not more than ten thousand dollars for each day that the HCF fails to correct the violation.

(D) In determining which of the actions to take under paragraph (C) of this rule, the director may consider, but is not limited to, any or all of the following factors:

(1) The danger of serious physical or life threatening harm to one or more patients of the HCF;

(2) The nature, duration, gravity, and extent of the violation;

(3) Whether the violation directly relates to patient care;

(4) The number, if any, of patients directly affected by the violation;

(5) The extent of any actual or potential harm to patients;

(6) The actions taken by the HCF to correct the violation; and

(7) The compliance history of the HCF.

(E) The director may file a petition in the court of common pleas of the county in which the facility is located for an injunction enjoining:

(1) A HCF that is operating without a license from performing certain types of services if the HCF is subject to an order issued under paragraph (A)(3) of this rule but continues to
perform the types of services prohibited by the order; or

(2) A licensed HCF from performing certain types of services if the HCF is subject to an order issued under paragraph (C)(3) of this rule but continues to perform the types of services prohibited by the order.

(F) If, after reporting under division (E)(2) of section 3702.30 of the Revised Code that a physician failed to obtain informed consent under any provision of the Revised Code, the department finds that the physician has continued to engage in a pattern of violating the same informed consent provision at the HCF and that the HCF has failed to take reasonable steps to ensure that the physician does not continue the same violation at the HCF, the department may, after providing the HCF an opportunity for a hearing pursuant to Chapter 119 of the Revised Code, impose a civil penalty on the HCF. The penalty shall be not less than one thousand dollars and not more than fifty thousand dollars. For the purpose of this paragraph, “pattern” means a violation of the same provision of the Revised Code that reasonably could have been prevented by a facility’s corrective action and was determined by the department to have occurred at least twice after the department made its report as provided in division (E)(2) of section 3702.30 of the Revised Code.

3701-83-05.2 Civil penalties.

(A) Except as provided under paragraph (B) of this rule, civil penalties imposed under paragraph (A)(4) or paragraph (C)(4) of rule 3701-83-05.1 of the Administrative Code for a violation of section 3702.30 of the Revised Code, Chapter 3701-83 of the Administrative Code, or any other rule adopted by the director under section 3702.30 of the Revised Code shall be imposed as follows:

(1) If no harm has occurred to any patient, one thousand to fifty thousand dollars;
(2) If harm has occurred to one or more patients, fifty-one thousand to one hundred thousand dollars;
(3) If there has been permanent injury to one or more patients, one hundred thousand to one hundred fifty thousand dollars; and
(4) If death has occurred to one or more patients, one hundred fifty thousand to two hundred fifty thousand dollars.

(B) Except as otherwise required by law, if there has been a history of uncorrected violations of section 3702.30 of the Revised Code, Chapter 3701-83 of the Administrative Code, or any other rule adopted under section 3702.30 of the Revised Code that caused no actual harm to a patient, but had the potential to cause more than minimal harm, a fine of up to two hundred fifty thousand dollars may be imposed.

(C) In determining the level of civil monetary penalties imposed under this paragraph, the total amount of fines for violations discovered during one inspection shall not exceed two hundred fifty thousand dollars.

(D) Additional civil penalties imposed under paragraph (A)(5) of rule 3701-83-05.1 of the Administrative Code shall be imposed on a per day basis of one thousand to ten thousand dollars for each day that the HCF continues to operate without a license in violation of a written order issued under paragraph (A) of rule 3701-83-05.1 of the Administrative Code.

(E) Additional civil penalties imposed under paragraph (C)(5) of rule 3701-83-05.1 of the Administrative Code shall be imposed on a per day basis of five hundred to ten thousand dollars for each day the HCF fails to correct the violation.

(F) Civil penalties imposed under paragraph (F) of rule 3701-83-05.1 of the Administrative Code shall be imposed as follows:

(1) If a physician failed to obtain informed consent from less than ten patients, but no patients were harmed, one thousand to twenty-five thousand dollars;
(2) If a physician failed to obtain informed consent from ten or more patients, but no
patients were harmed, twenty-six thousand to fifty thousand dollars; and
(3) If harm occurs to one or more patients as a result of a physician’s failure to obtain
informed consent, thirty thousand to fifty thousand dollars per patient.
(G) In determining the amount of civil penalties imposed under paragraphs (A) and (F) of
this rule, the director may consider, but is not limited to, any or all of the following factors:
(1) The compliance history of the HCF;
(2) The number of patients directly affected;
(3) The impact of the noncompliance on the patient or patients;
(4) Whether the violation is repetitive in nature or is similar to previous violations;
(5) The length or duration of the violation; and
(6) The time period between the current violation and any similar previous violation.
(H) Except for civil penalties imposed upon an HCF under paragraph (A)(4) of rule 3701-
83-05.1 of the Administrative Code, the HCF may appeal the imposition of civil penalties
imposed under this rule in accordance with Chapter 119 of the Revised Code. If the HCF
obtains a license or comes into compliance and waives the right to a hearing provided under
Chapter 119 of the Revised Code, the civil penalty may be reduced up to fifty percent but shall
not be less than one thousand dollars.
(I) If the department issues more than one order, any administrative hearing resulting
from such orders may be consolidated into one hearing. Consolidation of the hearings does not
affect any effective dates prescribed in the orders.

3701-83-06 Inspections.

(A) The director may make announced or unannounced inspections as the director
considers necessary to determine compliance with section 3702.30 of the Revised Code and
the applicable requirements of Chapter 3701-83 of the Administrative Code. The director may
notify ASFs, freestanding dialysis centers, freestanding inpatient rehabilitation facilities, and
freestanding birth centers prior to conducting announced inspections for initial and renewal
licensing. Such prior notification shall be no earlier than thirty days and no later than two weeks
prior to start date of the survey.
(B) Immediately upon request, each HCF shall provide the director access to its
premises, facility and patient records, including medical records, and staff to enable the director
to determine compliance with section 3702.30 of the Revised Code and the applicable
requirements of Chapter 3701-83 of the Administrative Code.
(C) Prior to the issuance of an initial license the HCF shall obtain documentation from
the state fire marshal or fire prevention officer of a municipal, township, or other legally
constituted fire department approved by the fire marshal that the HCF is in compliance with the
state fire code. In the case of an HCF regulated by the state fire code, following the initial
license the HCF shall obtain documentation, every twelve months and at any other time
requested by the director, that the HCF continues to be in compliance with the state fire code.
(D) Information obtained by the director pertaining to specific patients is confidential.
Information may be released in summary, statistical, or other form which does not disclose the
identity of an individual patient.
(E) The director may conduct an inspection to investigate alleged violations of section
3702.30 of the Revised Code and Chapter 3701-83 of the Administrative Code. The director
shall inform the complainant and the HCF of the results of the inspection.
(F) For purposes of this paragraph “follow-up inspection” means an inspection
conducted by the department to determine whether an HCF has corrected a violation or
violations cited on a previous inspection and to verify whether an HCF is in compliance with the
applicable criteria, standards, and requirements established by section 3702.30 of the Revised
Code and Chapter 3701-83 of the Administrative Code. “Validation inspection” means an
inspection of an HCF that submitted an acceptable accreditation award letter or an approval letter. The HCF fee for inspections conducted by the director pursuant to section 3702.30 of the Revised Code and paragraphs (A) and (E) of this rule shall be as follows:

1. Inspection fee of one thousand seven hundred fifty dollars;
2. Complaint inspection fee of eight hundred seventy-five dollars;
3. Follow-up inspection fee of eight hundred seventy-five dollars;
4. Validation inspection fee of one thousand seven hundred fifty dollars; and
5. Desk audit or compliance review inspection fee of two hundred fifty dollars.

(G) Notwithstanding the requirements of paragraph (F) of this rule, the fee for an inspection of a free-standing radiation therapy center or a free-standing diagnostic or mobile imaging center shall be determined as follows. To the extent practicable, inspections done to determine compliance with Chapter 3748 of the Revised Code shall be done concurrently with inspections to determine compliance with Chapter 3701-83 of the Administrative Code.

1. Inspection fee of nine hundred fifty dollars;
2. Follow-up inspection fee of four hundred seventy-five dollars;
3. Complaint fee of four hundred seventy-five dollars; and
4. Desk audit or compliance review inspection fee of two hundred fifty dollars.

(H) The director shall provide to each HCF inspected pursuant to section 3702.30 of the Revised Code and paragraph (A) or (E) of this rule a written statement of the fee established in paragraph (F) or (G) of this rule. The statement shall itemize the total costs incurred.

(I) Each HCF shall forward the total amount of the fee to the director payable to the “Treasurer, State of Ohio” within fifteen days after receiving a statement of the fee issued under paragraph (F) or (G) of this rule.

(J) The director shall deposit HCF fees into the quality monitoring and inspection fund created in the state treasury pursuant to division (A) of section 3702.31 of the Revised Code.

3701-83-07 Patient care policies.

(A) The HCF shall develop and follow comprehensive and effective patient care policies that include the following requirements:

1. Each patient shall be treated with consideration, respect, and full recognition of dignity and individuality, including privacy in treatment and personal care needs;
2. Each patient shall be allowed to refuse or withdraw consent for treatment;
3. Each patient shall have access to his or her medical record, unless access is specifically restricted by the attending physician for medical reasons;
4. Each patient's medical and financial records shall be kept in confidence; and
5. Each patient shall receive, if requested, a detailed explanation of facility charges including an itemized bill for services received.

(B) The HCF shall inform each patient of the following:

1. The HCF's policy on advance directives and do-not-resuscitate (DNR) orders; and
2. The name of the attending physician or individual supervising the patient's care and the manner in which that individual may be contacted.

(C) The HCF shall implement a patient satisfaction survey program.

3701-83-08 Personnel and staffing requirements.

[Editor’s Note: Appendix A to this rule can be found at www.registerofohio.state.oh.us/.]

(A) Each HCF shall utilize personnel that have appropriate training and qualifications for the services that they provide. Any staff member who functions in a professional capacity shall meet the standards applicable to that profession, including but not limited to possessing a
current Ohio license, registration, or certification, if required by law, and working within his or her scope of practice. Copies of current Ohio licenses, registrations and certifications shall be kept in the employee's personnel files or the provider of the HCF shall have an established system of records necessary for the director to ascertain that all individuals employed at the HCF who function in a professional capacity meet the standards applicable to that profession, including, but not limited to, possessing a current Ohio license, registration, or other certification if required by law.

(B) Each HCF shall develop and follow a tuberculosis control plan that is based on the provider's assessment of the facility. The control and assessment shall be consistent with the centers for disease control and prevention (CDC) “Guidelines for Preventing the Transmission of Mycobacterium tuberculosis in Health Care Settings, 2005,” MMWR 2005, Volume 54, No. RR-17. The HCF shall retain documentation evidencing compliance with this paragraph and shall furnish such documentation to the director upon request.

(C) Each HCF shall not knowingly permit a staff member to provide services if the staff member:

(1) Has a communicable disease capable of being transmitted during the performance of his or her duties; or
(2) Is under the influence of drugs or alcohol.

(D) Each HCF shall provide each staff member with a written job description delineating his or her responsibilities.

(E) Each HCF shall provide an ongoing training program for its staff. The program shall provide both orientation and continuing training to all staff members. The orientation shall be appropriate to the tasks that each staff member will be expected to perform. Continuing training shall be designed to assure appropriate skill levels are maintained and that staff are informed of changes in techniques, philosophies, goals, and similar matters. The continuing training may include attending and participating in professional meetings and seminars.

(F) All staff shall have appropriate orientation and training regarding the facility's equipment, safety guidelines, practices, and policies.

(G) Each HCF shall evaluate the performance of each staff member at least every twelve months.

(H) Each HCF shall retain staffing schedules, time-worked schedules, on-call schedules, and payroll records for at least two years.

3701-83-09 Service standards for HCFs; policies and procedures.

(A) Each HCF shall assure all staff members provide services in accordance with:

(1) Applicable current and accepted standards of practice and the clinical capabilities of the HCF; and
(2) Applicable state and federal laws and regulations.

(B) Each HCF shall have the ancillary and support services necessary for the provision of the HCF's services.

(C) Each HCF, as part of the quality assessment and performance improvement program required by rule 3701-83-12 of the Administrative Code, shall document and review any complications and adverse events which arise during the provision of the facility's service.

(D) Each HCF shall establish and follow written infection control policies and procedures for the surveillance, control and prevention and reporting of communicable disease organisms by both the contact and airborne routes which shall be consistent with current infection control guidelines issued by the United States centers for disease control. The policies and procedures shall address:

(1) The utilization of protective clothing and equipment;
(2) The storage, maintenance and distribution of sterile supplies and equipment;
Chapter 2. Regulated Healthcare Facilities
Part II. Freestanding Healthcare Facilities

(3) The disposal of biological waste; including blood, body tissue; and fluid in accordance with Ohio law;
(4) Standard precautions/body substance isolation or equivalent; and
(5) Tuberculosis and other airborne diseases.

(E) Each HCF shall maintain and operate equipment in a safe manner and in accordance with the manufacturer's instructions.
(F) Each HCF shall provide the patient or the patient's representative with:
(1) Instruction and education regarding the services to be performed;
(2) Written information about how to obtain appointments and needed services both during and after the HCF's normal hours of operation; and
(3) Verbal and written instructions for post-treatment care and procedures for obtaining emergency care.

(G) Each HCF shall comply with rule 3701-3-03 of the Administrative Code pertaining to reportable disease notification.
(H) Each HCF shall require that each physician practicing in the HCF complies with any provision of the Revised Code related to obtaining informed consent from a patient and the policies and procedures of the HCF.
(I) If an HCF finds that a physician practicing at the HCF does not comply with any provision of the Revised Code related to the obtaining of informed consent from a patient, the HCF shall take reasonable steps to ensure that the physician does not continue the practice at the facility.

3701-83-10 Building and site requirements; disaster and emergency plans.

(A) Each HCF shall:
(1) Have a certificate of use and occupancy, from a local, certified building department or by the department of commerce as meeting applicable requirements of Chapters 3781., 3783., and 3791 of the Revised Code and any rules adopted under them or obtain documentation from the appropriate building authority that the HCF is not regulated by the state building code; and
(2) Comply with the applicable provisions of Chapter 3737 of the Revised Code and the rules adopted under it.
(B) Each HCF shall be maintained in a safe and sanitary manner.
(C) Each HCF shall develop a disaster preparedness plan including evacuation in the event of a fire or other emergency. Each HCF shall review evacuation procedures at least annually and conduct practice drills with staff at least once every six months.
(D) Each HCF shall label, store and dispose of all poisons, hazardous wastes, and flammable materials in a safe manner and in accordance with state and federal laws and regulations.

3701-83-11 Medical records; procedures and requirements; six year minimum.

(A) Each HCF shall maintain a medical record for each patient that documents, in a timely manner and in accordance with acceptable standards of practice, the patient's needs, assessments, and services rendered. Each medical record shall be legible and readily accessible to staff for use in the ordinary course of treatment.
(B) Each HCF shall not disclose individual medical records except as provided by state and federal laws and regulations.
(C) Each HCF shall systematically review the records for conformance with acceptable standards of practice and the requirements of Chapter 3701-83 of the Administrative Code.
(D) Each HCF shall maintain an adequate medical record keeping system and take appropriate measures to protect medical records against theft, loss, destruction, and
(E) Each HCF shall have policies and procedures to ensure the confidentiality of patient medical records.

(F) Each HCF shall maintain medical records as necessary to verify the information and reports required by statute or regulation for at least six years from the date of discharge.

3701-83-12 Quality assessment and improvement program.

(A) Each HCF shall establish a quality assessment and performance improvement program designed to systematically monitor and evaluate the quality of patient care, pursue opportunities to improve patient care, and resolve identified problems.

(B) Each HCF shall develop a written plan that describes the quality assessment and performance improvement program's objectives, organization, scope, and mechanism for overseeing the effectiveness of monitoring, evaluation, improvement and problem-solving activities.

(C) The quality assessment and performance improvement program shall do all of the following:

1. Monitor and evaluate all aspects of care including effectiveness, appropriateness, accessibility, continuity, efficiency, patient outcome, and patient satisfaction;
2. Establish expectations, develop plans, and implement procedures to assess and improve quality of care and resolve identified problems;
3. Establish expectations, develop plans, and implement procedures to assess and improve the health care facility's governance, management, clinical, and support processes;
4. Establish information systems and appropriate data management processes to facilitate the collection, management, and analysis of data needed for quality assessment and performance improvement and to comply with the applicable data collection requirements of Chapter 3701-83 of the Administrative Code;
5. Document and report the status of the quality assessment and performance improvement program to the governing body every twelve months;
6. Document and review all unexpected complications and adverse events, whether serious injury or death, that arise during an operation or procedure; and
7. Hold regular meetings, chaired by the medical director of the HCF or designee, as necessary, but at least within sixty days after a serious injury or death, to review all deaths and serious injuries, and report findings. Any pattern that might indicate a problem shall be investigated and remedied, if necessary.

(D) Each HCF shall implement a program for proactive assessment of high-risk activities related to patient safety and to undertake appropriate improvements.

(E) Each HCF shall report to the director, in a manner and interval prescribed by the director, the data specified in the applicable rules of Chapter 3701-83 of the Administrative Code.

3701-83-13 Complaint documentation minimum standards.

(A) Each HCF shall develop and follow policies and procedures to receive, investigate, and report findings on complaints regarding the quality or appropriateness of services provided by the HCF. The documentation of complaints shall, at a minimum, include the following:

1. The date complaint was received;
2. The identity, if provided, of the complainant;
3. A description of complaint;
4. The identity of persons or facility involved;
5. The findings of the investigation; and
(6) The resolution of the complaint.
    (B) Each HCF shall post the toll free complaint hotline of the department’s complaint unit in a conspicuous place in the HCF.

3701-83-14 Building or safety requirement variances; waivers.

(A) The director may grant a variance or waiver from any building or safety requirement established by Chapter 3701-83 of the Administrative Code, unless the requirement is mandated by statute.
    (B) An HCF seeking a variance or waiver must submit a written request to the director. Such written request must include the following information:
        (1) The specific nature of the request and the rationale for the request;
        (2) The specific building or safety requirement in question, with a reference to the relevant administrative code provision;
        (3) The time period for which the variance or waiver is requested;
        (4) If the request is for a variance, a statement of how the HCF will meet the intent of the requirement in an alternative manner; and
        (5) If the request is for a waiver, a statement regarding why application of the requirement will cause undue hardship to the HCF and why granting the waiver will not jeopardize the health and safety of any patient.
    (C) Upon written request of the HCF the director may grant:
        (1) A variance if the director determines that the requirement has been met in an alternative manner; or
        (2) A waiver if the director determines that the strict application of the license requirement would cause an undue hardship to the HCF and that granting the waiver would not jeopardize the health and safety of any patient.
    (D) The director may stipulate a time period for which a variance or a waiver is to be effective and may establish conditions that the HCF must meet for the variance or waiver to be operative. Such time period may be different than the time period sought by the HCF in the written variance or waiver request.
    (E) The director may establish conditions that the HCF must meet for the variance or waiver to be operative. The director may, in the director's discretion, rescind the waiver or variance at any time upon determining that the HCF is not meeting such conditions.
    (F) The refusal of the director to grant a variance or waiver, in whole or in part, shall be final and shall not be construed as creating any rights to a hearing under Chapter 119 of the Revised Code.
    (G) The granting of a variance or waiver by the director shall not be construed as constituting precedence for the granting of any other variance or waiver. All variance and waiver requests shall be considered on a case-by-case basis.

Ambulatory Surgical Facilities

3701-83-15 Ambulatory Care facilities, anesthesia, assistants; definitions.

For the purposes of rules 3701-83-15 to 3701-83-22 of the Administrative Code, the following definitions shall apply:
    (A) “Ambulatory surgical facility” or “ASF” means a facility whether or not a part of the same organization as a hospital, which is located in a building distinct from another in which inpatient care is provided, and to which any of the following apply:
        (1) Outpatient surgery is routinely performed in the facility and the facility functions separately from a hospital's inpatient surgical service or emergency department, and from the
offices of private physicians, podiatrists, and dentists;

(2) Anesthesia is administered in the facility by an anesthesiologist or certified registered nurse anesthetist and the facility functions separately from a hospital's inpatient surgical service or emergency department, and from the offices of private physicians, podiatrists, and dentists;

(3) The facility applies to be certified by the centers for medicare and medicaid services as an ambulatory surgical center for purposes of reimbursement under Part B of the medicare program, Part B of Title XVIII of the “Social Security Act” 49 Stat. 620 (1935), 42 U.S.C.A. 301, as amended;

(4) The facility applies to be certified by a national accrediting body approved by the centers for medicare and medicaid services for purposes of deemed compliance with the conditions for participating in the medicare program as an ambulatory surgical center;

(5) The facility bills or receives from any third-party payer, governmental health care program, or other person or government entity any ambulatory surgery facility fee that is billed or paid in addition to any fee for professional services; or

(6) The facility is held out to any person or government entity as an ambulatory surgical facility or similar facility by means of signage, advertising, or other promotional efforts.

(B) “Ambulatory surgical facility fee” means a fee for certain overhead costs associated with providing surgical services in an outpatient setting, but does not include any additional payment in excess of a professional fee that is provided to encourage physicians, podiatrists, and dentists to perform certain surgical procedures in their office or their group practice's office rather than a health care facility, if the purpose of the additional fee is to compensate for additional cost incurred in performing office-based surgery. A fee is an ambulatory surgical facility fee only if it directly or indirectly pays for costs associated with any of the following:

(1) Use of operating rooms, procedure rooms, recovery rooms, preparation areas, and waiting rooms and lounges for patients and relatives;

(2) Administrative functions, record keeping, housekeeping, utilities, and rent;

(3) Services provided by nurses, orderlies, technical personnel, and others involved in patient care related to providing surgery.

(C) “Anesthesia” means total or partial loss of sensation, tactile sensibility, or protective reflexes, with or without the loss of consciousness, produced by a pharmacological or non-pharmacological agent or method, or combination thereof.

(D) “Anesthesia qualified dentist” means a dentist who holds a permit of authorization to utilize general anesthesia issued pursuant to rule 4715-5-05 of the Administrative Code.

(E) “Anesthesiologist” means a physician who has completed a residency training program in anesthesiology accredited by the accreditation council of graduate medical education or the American osteopathic association.

(F) “Certified registered nurse anesthetist” or “CRNA” means a registered nurse who is authorized to practice as a certified registered nurse anesthetist under section 4723.43 of the Revised Code and is credentialed and privileged by the HCF to administer anesthetics to patients within his or her scope of practice.

3701-83-16 Governing body of ASF.

(A) As required under paragraph (E) of rule 3701-83-03 of the Administrative Code, each ASF shall have a governing body.

(B) The governing body shall:

(1) At least every twenty-four months review, update, and approve the surgical procedures that may be performed at the facility and maintain an up-to-date listing of these procedures;

(2) Grant or deny clinical (medical-surgical and anesthesia) privileges, in writing and reviewed or re-approved at least every twenty-four months, to physicians and other
appropriately licensed or certified health care professionals based on documented professional peer advice and on recommendations from appropriate professional staff. These actions shall be and based on documented evidence of the following:

(a) Current licensure and certification, if applicable;
(b) Relevant education, training, and experience; and
(c) Competence in performance of the procedures for which privileges are requested, as indicated in part by relevant findings of quality assessment and improvement activities and other reasonable indicators of current competency.

(3) In the case of an ASF owned and operated by a single individual, provide for an external peer review by an unrelated person not otherwise affiliated or associated with the individual. The external peer review shall consist of a quarterly audit of a random sample of surgical cases.

(4) Designate a qualified professional trained in infection control to direct the infection control program required by paragraph (D) of rule 3701-83-09 of the Administrative Code. For the purpose of this rule, a qualified professional trained in infection control means a nurse or physician as defined in rule 3701-83-01 of Administrative Code, who has documentation of completion of training in infection control, including, but not limited to, continuing education units, in-service training, or academic or vocational course completion.

3701-83-17 Admission through discharge.

(A) Each ASF shall only admit patients who do not require planned inpatient care and who shall be kept in the ASF for less than twenty-four hours. The twenty-four hour period begins at the start of the operation or procedure, or the induction of anesthesia, whichever is first. The twenty-four hour period may include an overnight stay if such stay meets all of the conditions set forth in this rule and does not extend the length of time a patient remains in the ASF.

(B) Prior to operation or procedure, each patient shall have a comprehensive medical history and physical exam performed or updated, along with associated pre-procedure studies. The different components of the history and physical may be performed by different health care professionals, consistent with the type of information required and the professionals’ scope of practice, as defined by applicable law. This history and physical exam shall document the pre-operative diagnosis and the procedure to be performed and shall become part of the patient’s medical record prior to surgery.

(C) Documentation, as contained in paragraphs (A)(3), (C)(1), and (C)(7) to (C)(9) of rule 3701-83-21 of the Administrative Code shall be in a patient’s medical record prior to surgery.

(D) Immediately before surgery, the attending physician, podiatrist, or dentist shall examine the patient to evaluate the risks of the procedure to be performed. Each patient shall also be examined by an anesthesiologist, physician, podiatrist, anesthesia qualified dentist, or CRNA, as appropriate, to evaluate the risks of anesthetics and for proper anesthesia recovery before discharge from post anesthesia care.

(E) The attending or other designated physician, podiatrist, or anesthesia qualified dentist shall discharge a patient meeting discharge criteria from the ASF within twenty-four hours of the start of the operation or procedure, or induction of anesthesia, whichever is first, or transfer the patient to a setting appropriate for the patient's needs.

(F) Patients transported to a hospital shall be accompanied by their medical records that are of sufficient content to ensure continuity of care.

(G) Prior to discharge, the ASF shall provide each patient with both verbal and written instructions for post-treatment care and procedures for obtaining emergency care.

(H) The physician, podiatrist, dentist, or a nurse shall ensure that the patient or patient's representative acknowledge, in writing, receipt of the physician's, podiatrist's, or dentist's written discharge instructions.
Ambulatory Surgical Facilities

Chapter 2. Regulated Healthcare Facilities
Part II. Freestanding Healthcare Facilities

(I) Each ASF shall discharge a patient only if accompanied by a responsible person, unless the attending or discharging physician, podiatrist, or anesthesia qualified dentist determines that the patient does not need to be accompanied and documents the circumstances of discharge in the patient's medical record.

3701-83-18 Personnel and staffing requirements; staff records; training program.

(A) Each ASF shall maintain qualified nursing and physician staff, and qualified dental staff, as appropriate for the services provided. Each ASF shall, based on the services provided and the number of patients served, maintain a sufficient number of staff and other personnel and an appropriate schedule of staff time to meet the needs of its patients in a timely manner.

(B) Each ASF shall have a medical director and an administrator as defined in rule 3701-83-01 of the Administrative Code. If the ASF limits its services:

(1) To dental/oral and maxillofacial surgery, a dentist may serve as the medical director; or
(2) To podiatric surgery, a podiatrist may serve as the medical director.

(C) Each ASF shall have a director of nursing who is an RN with experience in surgical and recovery room nursing care. The director of nursing shall be responsible for the management of nursing services.

(D) Each ASF shall only grant privileges to physicians, podiatrists, dentists, and CRNAs:

(1) Whose professional license or certification is maintained in good standing; and
(2) Who meet other guidelines as determined by the governing body.

(E) At all times when patients are receiving treatment or recovering from treatment until they are discharged from post anesthesia care, the ASF shall have present and on duty in the ASF at least one member of the physician staff, podiatry staff, or dental staff, as applicable.

(F) At all times when patients are receiving treatment or recovering from treatment until they are discharged, the ASF shall:

(1) Have at least two nurses present and on duty in the ASF, at least one of whom shall be an RN and at least one of whom is currently certified in advanced cardiac life support who shall be present and on duty in the recovery room when patients are present;
(2) In addition to the requirement of paragraph (F)(1) of this rule, have at least one RN readily available on an on-call basis; and
(3) Have sufficient and qualified additional staff present to attend to the needs of the patients shall be present.

(G) Each ASF shall maintain the following:

(1) An established system of records sufficient for the director to ascertain that all individuals employed at the ASF in a professional capacity meet the standards applicable to that profession, including, but not limited to, possessing a current Ohio license, registration, or other certification required by law; and
(2) Staffing schedules, time-worked schedules, on-call schedules, and payroll records for at least two years.

(H) Each ASF shall provide an ongoing training program for its personnel. The program shall provide both orientation and continuing training to all staff members.

(1) The orientation shall be appropriate to the tasks that each staff member will be expected to perform; and
(2) The continuing training shall be designed to assure appropriate skill levels are maintained and that staff are informed of changes in techniques, philosophies, goals, and similar matters. The continuing training may include attending and participating in professional meetings and seminars.

(I) Each ASF shall require that each physician who practices at the facility complies with any provision of the Revised Code related to the obtaining of informed consent from a patient.
3701-83-19 Service standards and required protocols.

(A) Each ASF shall provide medical services, dental services, nursing services, pharmaceutical services, and anesthesia services. Each service shall be provided in a safe, effective manner that is consistent with the needs of the patient.

(B) Each ASF shall:

(1) Provide adequate space, equipment, and staff for storage and the administration of drugs in compliance with state and federal laws and regulations.

(2) Establish and implement a program for the control and accountability of drug products throughout the facility and maintain a list of medications that are always available.

(C) Each ASF shall:

(1) Ensure that all anesthetics are administered by individuals acting within their licensed scopes of practice.

(2) Maintain an anesthesia record for each patient who receives anesthetics in the facility. This record shall become a part of the patient’s medical record and shall include patient identification data, dosage and duration of anesthesia, and a record of administration of other drugs or therapeutics.

(3) Ensure that, following the administration of general anesthetics, patients are constantly attended by the responsible anesthesiologist, CRNA, anesthesia qualified dentist, physician or podiatrist acting within their scope of practice, or an RN until conscious and in the ambulatory condition normal for him or her.

(D) Each ASF shall respond to medical emergencies including emergency cardiac care that may arise in the provision of services to patients.

(E) Each ASF shall have a written transfer agreement with a hospital for transfer of patients in the event of medical complications, emergency situations, and for other needs as they arise.

(1) A copy of the written transfer agreement shall be filed with the ASF’s application for license renewal in accordance with paragraph (B) of rule 3701-83-04 of the Administrative Code.

(2) A formal agreement is not required in those instances where the licensed ASF is a provider-based entity of a hospital and the ASF policies and procedures to accommodate medical complications, emergency situations, and for other needs as they arise are in place and approved by the governing body of the parent hospital.

(F) Prior to the surgery, the physician, podiatrist, or dentist, shall obtain a statement documenting informed consent, signed by the patient or patient representative, for the performance of the specific surgical procedure or procedures. This statement shall be made part of the patient’s medical record. The ASF shall ensure that informed consents for surgical procedures have been signed.

(G) Each ASF may provide or contract for other services including, but not limited to, laboratory and radiology services.

(H) When a blood supply may be needed for a surgical procedure, the ASF shall:

(1) Have a policy and procedure to obtain blood, blood components, or blood products on a timely basis.

(2) Ensure that blood, blood components or blood products are administered by physicians, anesthesia qualified dentists, or RNs.

3701-83-20 Building and site requirements; equipment; minimum standards.

(A) Each ASF shall have one or more operating rooms or procedure rooms, each of which is designed and equipped so that the types of surgery conducted can be performed in a manner that protects the health and well-being of all individuals in the area. The recovery area
shall be adequately equipped for the proper care of post anesthesia recovery of surgical patients.

(B) Each ASF shall have the following equipment accessible to the operating suite and recovery area:

1. Adequate resuscitation equipment:
   a. ASFs providing surgical procedures under topical and local infiltration blocks with or without oral or intramuscular preoperative sedation shall have: airways, bag mask respirator, oxygen source, suction equipment, and age-appropriate resuscitative drugs;
   b. ASFs providing surgical procedures performed in conjunction with oral, parenteral, or intravenous sedation or under analgesic or dissociative drugs or providing surgical procedures that require general or regional block anesthesia and support of vital bodily functions shall have: airways, endotracheal tubes, laryngoscope, oxygen delivery capability under positive pressure, suction equipment and suitable resuscitative drugs.

2. Appropriate monitoring equipment:
   a. Each ASF shall have size-specific blood pressure apparatus and stethoscopes, electrocardiogram, oscilloscopes and when pediatric patients are treated, size-specific emergency equipment and medications;
   b. ASFs performing surgical procedures in conjunction with oral, parenteral, or intravenous sedation or under analgesic or dissociative drugs, or performing surgical procedures that require general or regional block anesthesia and support of vital bodily functions shall have a defibrillator, pulse oximeter with alarm, and temperature monitor.
   c. ASFs using inhalation anesthesia shall have an anesthesia machine.

3. Each ASF shall have suitable surgical instruments customarily available for the planned surgical procedure in the operating suite.

4. Each ASF shall have in the recovery room, an emergency call system that is connected electronically, electrically, by radio transmission or in a like manner and that effectively alerts staff.

(C) Each ASF shall establish and follow a preventive maintenance program which includes periodic calibration, cleaning and adjustment of all equipment in accordance with manufacturer's instructions. Each ASF using inhalation anesthesia shall develop and follow policies and procedures for monitoring the anesthesia machine which are consistent with the standards recommended by the American society of anesthesiologists.

(D) Each ASF shall have appropriate ventilation and humidity levels in order to minimize the risk of infection and to provide for the safety of the patient.

(E) Each ASF shall have emergency power available in operative, procedure, and recovery areas.

(F) Each ASF shall have separate closed off and distinct areas used as waiting rooms, recovery rooms, treatment rooms, toilet facilities, and storage rooms. The ASF and another entity may not mix functions and operations in a common space during concurrent or overlapping hours of operation. Operating, procedure, and recovery rooms must be used exclusively for surgical procedures.

(G) New construction, alterations or renovations that provide space for operating rooms or procedure rooms may not be used or occupied until authorization for such occupancy has been received by the ASF from the department.

(H) Each ASF shall develop and follow policies and procedures for the storage and use of all medical gases in accordance with the requirements of the national fire protection association (NFPA) 99.

(I) If the ASF uses medications or drugs that may induce malignant hyperthermia, it shall have policies and procedures in place, as well as equipment and medication available, to treat it.

(J) Each ASF shall have appropriate intravenous fluids and administration equipment.
(K) Each ASF shall have sufficient and appropriate stretchers and wheelchairs for the services performed.

3701-83-21 Medical records; minimum standards on content.

Each medical record required by paragraph (A) of rule 3701-83-11 of the Administrative Code shall contain at least the following information as applicable for the surgery to be performed:

(A) Admission data:
   (1) Name, address, date of birth, gender, and race or ethnicity;
   (2) Date and time of admission; and
   (3) Pre-operative diagnosis, which shall be recorded prior to or at the time of admission.

(B) History and physical examination data:
   (1) Personal medical history, including but not limited to allergies, current medications and past adverse drug reactions;
   (2) Family medical history; and
   (3) Physical examination.

(C) Treatment data:
   (1) Physician's, podiatrist's or dentist's orders;
   (2) Physician's, podiatrist's or dentist's notes;
   (3) Physician assistant's notes, if applicable;
   (4) Nurse's notes;
   (5) Medications;
   (6) Temperature, pulse, and respiration;
   (7) Any special examination or report, including but not limited to, x-ray, laboratory, or pathology reports;
   (8) Signed informed consent form;
   (9) Evidence of advanced directives and do-not-resuscitate orders, if applicable;
   (10) Operative record;
   (11) Anesthesia record, if applicable; and
   (12) Consultation record, if applicable.

(D) Discharge data:
   (1) Final diagnosis;
   (2) Procedures and surgeries performed;
   (3) Condition upon discharge;
   (4) Post-treatment care and instructions; and
   (5) Attending physician's, podiatrist's or dentist's signature.

(E) Other information required by law.

3701-83-22 Quality assessment and improvement program data reporting.

As part of the quality assessment and performance improvement program required under paragraph (A) of rule 3701-83-12 of the Administrative Code, each ASF shall collect and maintain the following data on an annual basis and shall report such data to the director upon request:

(A) The total number of patient visits;
(B) The total number of patient transfers to a hospital and the reason why;
(C) The total number of deaths in the ASF; and
(D) The total number of deaths resulting either from the surgery or from surgical complications that occur in the ASF.
Renal Dialysis Facilities

3701-83-23 Dialysis; definitions.

For purposes of rules 3701-83-23 to 3701-83-24 of the Administrative Code the following definitions shall apply:

(A) “Chronic maintenance dialysis” means the regular provision of dialysis for an end stage renal disease patient with any level of patient involvement.

(B) “Dialysis” means a process by which dissolved substances are removed from patient's body by diffusion from one fluid compartment to another across a semipermeable membrane.

(C) “End stage renal disease patient” or “patient” means an individual who is at a stage of renal impairment that appears irreversible and permanent and who requires a regular course of dialysis or renal transplantation to ameliorate uremic symptoms and maintain life.

(D) “Freestanding dialysis center” or “dialysis center” means a facility that provides chronic maintenance dialysis to end stage renal disease patients on an outpatient basis, including the provision of dialysis services in the patient’s place of residence. A freestanding dialysis center does not include the following:

(1) A hospital or other entity that provides dialysis services, other than non-emergent chronic maintenance dialysis, within the same hospital or facility or in another building located on the same property as the hospital or facility, that are reviewed and accredited or certified as part of the hospital's accreditation or certification as required by section 3727.02 of the Revised Code; and

(2) Home dialysis as defined in paragraph (E) of this rule.

(E) “Home dialysis” means either peritoneal dialysis or hemodialysis performed by an appropriately trained patient, with or without minimal assistance, at the patient’s place of residence.

3701-83-23.1 Services standards and required protocols.

(A) Each dialysis center shall:

(1) Develop and follow policies and procedures for the provision of care consistent with national standards of care or guidelines;

(2) Develop and follow protocols for the prevention of disease and infection transmission utilizing standards of care or guidelines for dialysis patients that comply with the regulations for end stage renal disease services contained in 42 C.F.R. 494.30 (October 1, 2009);

(3) Provide services in accordance with the clinical capabilities of the facility;

(4) Develop and follow policies and procedures for the administration of medication;

(5) Develop and follow policies and procedures for the provision of water and dialysate that comply with the regulations for end stage renal disease services contained in 42 C.F.R. 494.40 (October 1, 2009) and are consistent with the association for advancement of medical instrumentation (AAMI) standards, including criteria for the biological and chemical composition of the water;

(6) Develop and follow policies and procedures for the re-use of hemodialyzers that comply with the regulations for end stage renal disease services contained in 42 C.F.R. 494.50 (October 1, 2009) and are consistent with the association for advancement of medical instrumentation (AAMI) standards;

(7) Develop and follow policies and procedures for direct care staff to notify appropriate health care professionals of problems related to the provision of dialysis care;

(8) Develop and follow emergency plans to include patient self disconnect;

(9) Provide each patient with both verbal and written instructions for post treatment care.
and procedures for obtaining emergency care; and

(10) Develop and follow policies and procedures for documenting and responding to adverse events. The policies and procedures shall include the course of action to be taken by staff to respond to adverse events, including patient care and evaluation of equipment, water, or dialysate solution. Each dialysis center shall report to the director all adverse events involving the following:

(a) An event requiring emergency treatment, or hospitalization;
(b) An involuntary discharge of a patient;
(c) Contamination of the water or dialysate;
(d) Development of infection or communicable disease; and
(e) An event having a direct or immediate impact on the health, safety, or security of a patient or staff member.

(B) Each dialysis center shall utilize a coordinated and integrated interdisciplinary team working in conjunction with the patient, to develop and implement a written, individualized, comprehensive patient care plan. The care plan shall:

(1) Be based upon an evaluation of the nature of the patient's illness, the treatment modality prescribed, and an assessment of the patient's needs;
(2) Address the patient's physical, medical, dietary, psychosocial, functional, and rehabilitation needs;
(3) Be reviewed at least semi-annually if the patient is stable and monthly if the patient is not stable.

(C) Each dialysis center shall provide the necessary ancillary and support services to meet the dialysis needs of patients and in accordance with the patients' care plans.

(D) No dialysis center may set up dialysis stations for patient use which exceed the authorized maximum number of licensed dialysis stations.

(E) No dialysis center shall provide dialysis services for hepatitis B positive patients unless the facility has an in-house isolation room, a designated station or area.

(F) Each dialysis center shall provide the patient or the patient's representative in writing the following:

(1) Information regarding the policies, procedures, and mission statement of the dialysis center and the services provided at the facility;
(2) Information concerning the services to be performed;
(3) Information about the complaint policies and procedures required by rule 3701-83-13 of the Administrative Code; and

(4) Information regarding the center's policy on advanced directives and do-not-resuscitate orders, if applicable.

(G) Each dialysis center shall maintain operational records for:

(1) The dialysate solution delivery system;
(2) The reuse of hemodialyzers and bloodlines;
(3) The reprocessing system;
(4) The water treatment system; and

(H) Each dialysis center shall maintain records of water test results and necessary treatment for two years.

(I) Each dialysis center shall maintain an appropriately stocked emergency tray or cart consistent with the types of services being provided.

(J) Each dialysis center shall ensure that all drugs and supplies have not exceeded the expiration date.

(K) Each dialysis center shall develop and follow procedures to respond to medical emergencies that may arise in the provision of services to patients, including emergency cardiac care.
3701-83-23.2 Personnel and staffing requirements.; staff records; ongoing training.

(A) Each dialysis center shall maintain the following:
   (1) An established system of records sufficient for the director to ascertain that all
       individuals employed by the dialysis center who function in a professional capacity meet the
       standards applicable to that profession, including but not limited to, possessing a current Ohio
       license, registration, or certification, if required by law;
   (2) Staffing schedules, time-worked schedules, on-call schedules, and payroll records for
       at least two years; and
   (3) Documentation that the facility has offered the hepatitis B vaccination to staff
       members.

(B) Each dialysis center shall provide an ongoing training program for its personnel. The
    program shall provide orientation, initial training, and continuing training to all staff members.
    (1) The orientation and initial training shall be conducted within thirty days of hire and
        shall be appropriate to the tasks that each staff member will be expected to perform;
    (2) The initial training shall include instruction in the infection control, equipment, and
        dialysate policies and procedures required by rules 3701-83-23.1 and 3701-83-23.4 of the
        Administrative Code; and
    (3) Continuing training shall be designed to assure appropriate skill levels are
        maintained and that staff are informed of changes in techniques, mission, goals, policies and
        procedures including those related to infection control and blood-borne pathogens, and similar
        matters. The continuing training may include attending and participating in professional
        meetings and seminars.

3701-83-23.3 Medical records; minimum standards on content.

Each patient medical record required by paragraph (A) of rule 3701-83-11 of the
Administrative Code shall contain at least the following information:

(A) Patient information including:
   (1) Name, address, date of birth, gender, and race or ethnicity;
   (2) History and physical examination data including allergies, current medications, past
       adverse drug reactions, and family medical history;
   (3) Diagnosis; and
   (4) Dialysis prescriptions.

(B) Treatment data including:
   (1) A written individualized comprehensive patient care plan;
   (2) Progress notes; and
   (3) Treatment notes including dates and times the patient was on or off dialysis, pre-
       dialysis safety checks, vital signs monitoring during dialysis, and notations of adverse reactions.

(C) Medication administration.

(D) Any special examination or report, including x-ray, laboratory, or pathology report.

(E) Signed consent for treatment form.

(F) Documentation indicating that the patient or patient's representative received in
    writing the following:
    (1) Information on complaint policies and grievance procedures;
    (2) Information regarding the center's policy on advanced directives and do-not-
        resuscitate orders, if applicable; and
    (3) Information about the services to be performed.

(G) Documentation indicating that the patient or patient's representative received
    information about:
    (1) Emergency self disconnect; and
(2) Measures to be taken in the event of an at home post-treatment medical emergency.

(H) Discharge data including, condition upon discharge, and post-discharge care and instructions.

(I) When a dialysis patient is transferred to another dialysis center or to a facility for inpatient care, the transferring dialysis center shall send all requested medical records and information to the receiving dialysis center or facility within one day of the transfer.

3701-83-23.4 Infection control and prevention; minimum standards.

(A) In addition to the requirements established in rules 3701-83-09 and 3701-83-23.1 of the Administrative Code, each dialysis center shall develop and follow written policies and procedures for preventing and controlling infections. The policies and procedures shall include, but are not limited to, the following:

(1) The aseptic and isolation techniques to be used;
(2) Use of the isolation room or dedicated station or area, where applicable;
(3) Handling and disposal of biohazardous and potentially infectious waste;
(4) Cleaning and maintenance of equipment;
(5) Cleaning and disinfection of surfaces; and
(6) Use of standard precautions and personal protective equipment.

(B) Each dialysis center shall establish and follow a preventive maintenance program that includes periodic calibration, cleaning and adjustment of all equipment in accordance with manufacturer's instructions.

(C) In addition to the water requirements established in rule 3701-83-23.1 of the Administrative Code, each dialysis center shall:

(1) Culture and conduct water specimen analysis used for dialysis purposes at least every thirty days for bacteria;
(2) Analyze water used for dialysis purposes at least every one hundred and eighty days for chemicals;
(3) Treat water as necessary to maintain a continuous water supply that is biologically and chemically compatible with acceptable dialysis techniques.

(D) Each dialysis center shall conduct routine surveillance of patients and staff for hepatitis B using the most sensitive test methods available.

(1) Each patient must be screened for hepatitis B surface antigen (HBsAG) and hepatitis B surface antibody before admission to the dialysis facility in order to determine their serologic status for surveillance purposes;
(2) New employees must be screened for hepatitis B surface antigen (HBsAG) and hepatitis B surface antibody before or at the time of hire in order to determine their serologic status for surveillance purposes; and
(3) Each dialysis center shall offer the hepatitis B vaccine to all susceptible patients and all staff and document such action in the patient's medical record or the staff member's personnel record.

(E) Each dialysis facility shall investigate and report to the director incidents of infections associated with the provision of dialysis services. Efforts shall be made to determine the origin of any such infection and remedial action shall be taken to protect all non-infected patients and prevent recurrence.

(F) Each dialysis facility shall comply with the reporting requirements established by rule 3701-3-03 and paragraph (A)(10) of rule 3701-83-23.1 of the Administrative Code.

3701-83-24 Quality assessment and improvement system.

(A) Each freestanding dialysis center governing body shall conduct an ongoing,
comprehensive, integrated self-assessment of the quality and appropriateness of care provided by the facility, including:

(1) Adequacy of dialysis;
(2) Vascular access;
(3) Medical injuries and medical error identification;
(4) Infection control;
(5) Nutritional status;
(6) Mineral metabolism and renal bone disease;
(7) Anemia management;
(8) Hemodialysizer reuse program where applicable; and
(9) Patient satisfaction and grievance resolution.

(B) The dialysis center shall designate an individual or individuals to be responsible for the quality assessment and performance improvement program who shall be responsible for the following activities related to the quality of care and services provided by the dialysis center:

(1) Developing and implementing mechanisms for monitoring;
(2) Identifying and resolving issues;
(3) Providing suggestions to the governing body for improvement; and
(4) Reporting program activities and findings to the governing body.

(C) The dialysis center shall use the findings of the quality assessment and performance improvement program to set priorities for performance improvement, correct identified problems, and to revise policies and procedures as necessary.

(D) Identified performance problems that threaten the health or safety of patients shall be immediately corrected.

(E) As part of the quality assessment and performance improvement system required under rule 3701-83-12 of the Administrative Code, each freestanding dialysis center shall provide to the director, upon request, copies of data reports provided to the “renal network” designated by the centers for medicare and medicaid services to include the state of Ohio or any portion of the state of Ohio pursuant to 42 C.F.R. section 405.2112. All patient specific information submitted to the director under this paragraph that identifies a patient shall be maintained in a confidential manner.

Rehabilitation Facilities

3701-83-25 Rehabilitation services; definitions.

For purposes of rules 3701-83-25 to 3701-83-32 of the Administrative Code the following definitions apply:

(A) “Freestanding inpatient rehabilitation facility” or “inpatient rehabilitation facility” means a facility operated for the exclusive purpose of providing specialized rehabilitation services, on an inpatient basis, to persons with functional limitations or chronic disabling conditions who are in a medically stable condition and have the potential to achieve significant improvement in independent functioning. Freestanding inpatient rehabilitation facility does not include the following:

(1) A facility established and operated for the primary purpose of providing rehabilitation treatment services for alcohol or drug abuse;
(2) A general hospital as defined in rule 3701-59-01 of the Administrative Code or other entity that provides rehabilitation services that are reviewed and accredited or certified as part of a general hospital's accreditation or certification as required by section 3727.02 of the Revised Code; or
(3) A nursing home licensed under Chapter 3721 of the Revised Code, a skilled nursing facility that meets the requirements for participation in medicare, or a nursing facility that meets...
Chapter 2. Regulated Healthcare Facilities
Part II. Freestanding Healthcare Facilities

the requirements for participation in medicaid.

(B) “Interdisciplinary team” means a group of individuals representing appropriate licensed disciplines providing an integrated approach to serving the rehabilitation needs specific to a particular patient in an inpatient rehabilitation facility.

(C) “Occupational therapist” means a person licensed to practice occupational therapy pursuant to section 4755.07 of the Revised Code.

(D) “Physical therapist” means a person licensed to practice physical therapy pursuant to section 4755.44 of the Revised Code.

(E) “Psychologist” means a person licensed to practice psychology pursuant to Chapter 4732 of the Revised Code.

(F) “Social worker” means a person licensed to practice social work pursuant to Chapter 4757 of the Revised Code.

(G) “Speech-language pathologist” means a person licensed to practice speech pathology pursuant to Chapter 4753 of the Revised Code.

3701-83-26 Service standard and minimum services – inpatient rehabilitation facilities.

(A) Each inpatient rehabilitation facility shall provide services that meet the needs of its patients in accordance with the patient’s individual plan of care. The facility shall provide the patient or the patient’s representative with:

(1) Information regarding the policies, procedures, and philosophy of the inpatient rehabilitation facility and the services provided at the facility; and

(2) Information concerning the services to be performed.

(B) Each inpatient rehabilitation facility shall:

(1) Develop and follow current care protocols utilizing accepted standards of care;

(2) Provide services in accordance with applicable state and federal laws and regulations; and

(3) Provide services in accordance with the clinical capabilities of the facility.

(C) Each inpatient rehabilitation facility shall utilize a coordinated and integrated, interdisciplinary approach to assess patient needs and to provide treatment and evaluation of physical, psychosocial and cognitive deficits. Each patient shall be provided the services of an interdisciplinary team that:

(1) Is directed by a physician who is board certified in physical medicine and rehabilitation or a specialty appropriate to the services provided or has comparable qualifications and experience, as determined by the medical director; and

(2) Participates in the provision and management of rehabilitation and medical services.

(D) Each inpatient rehabilitation facility shall provide the services identified by the interdisciplinary team for each individual patient, as set forth in the following documents:

(1) The preliminary assessment required by paragraph (C) of rule 3701-83-27 of the Administrative Code;

(2) The comprehensive inpatient rehabilitation evaluation and the treatment plan required by paragraphs (A) and (B) of rule 3701-83-28 of the Administrative Code; and

(3) The discharge plan required by paragraph (E) of rule 3701-83-28 of the Administrative Code.

(E) Each inpatient rehabilitation facility shall respond to medical emergencies that may arise in the provision of services to patients, including emergency cardiac care.

3701-83-27 Admission requirements; preliminary assessments.

(A) Each inpatient rehabilitation facility shall develop written criteria for admission of patients to the facility that includes a description of the programs and services available at the
facility.

(B) Each inpatient rehabilitation facility shall not admit a patient to the facility unless the following conditions are met:

(1) The patient is able to tolerate a minimum of three hours of rehabilitation therapy, five days per week;

(2) The patient is medically stable; and

(3) The patient's prognosis indicates a progressively improved medical condition with the potential for increased independence.

(C) Each inpatient rehabilitation facility shall ensure that a written preliminary assessment of each patient is completed by an interdisciplinary team within forty-eight hours of admission that includes, at a minimum, the following:

(1) An evaluation of the appropriateness of the patient's placement in relation to the services available at the particular facility; and

(2) Identification of the immediate needs of the patient.

3701-83-28 Inpatient rehabilitation evaluation; treatment plan; discharge plan.

(A) Each inpatient rehabilitation facility shall perform a written comprehensive inpatient rehabilitation evaluation for each patient admitted to the facility. The comprehensive inpatient rehabilitation evaluation shall be developed by the interdisciplinary team and include the following:

(1) Purpose and source of the patient's referral;

(2) Summary of the patient's clinical condition;

(3) Functional strengths and limitations of the patient; and

(4) A determination of the patient's need for the following services:
   (a) Medical;
   (b) Nursing;
   (c) Rehabilitation nursing;
   (d) Dietary;
   (e) Occupational therapy;
   (f) Physical therapy;
   (g) Prosthetics and orthotics;
   (h) Psychological assessment and therapy;
   (i) Therapeutic recreation;
   (j) Rehabilitation medicine; and
   (k) Speech-language pathology.

(B) Each inpatient rehabilitation facility shall develop a written treatment plan for each patient admitted to the facility. The treatment plan shall be developed by the interdisciplinary team and shall include findings and services identified in the comprehensive inpatient evaluation completed in accordance with paragraph (A) of this rule, and information regarding the following:

(1) Level of function prior to the disabling condition;

(2) Current functional limitations;

(3) Specific service needs;

(4) A summary of the treatments to be provided;

(5) Supports and adaptations to be provided;

(6) Specific treatment goals and expected outcomes;

(7) Disciplines to be utilized and their respective responsibilities for implementing the treatment plan; and

(8) Anticipated time frames for achieving treatment goals and expected outcomes.

(C) The treatment plan shall be periodically reviewed by the interdisciplinary team as
indicated, but not less than once every seven days. The periodic review of the treatment plan shall be documented in the patient's records and include documentation of, at a minimum, the following:

1. Progress toward achieving defined goals; and
2. Any changes in the treatment plan.

(D) Each inpatient rehabilitation facility shall designate an individual from the patient's interdisciplinary team to be the case manager for each patient who shall be responsible for coordination of the patient's treatment plan.

(E) Each inpatient rehabilitation facility shall develop a written discharge plan for each patient admitted to the facility which is based on the treatment goals and expected outcomes defined in the treatment plan. The discharge plan shall:

1. Identify the expected care setting for the patient after discharge;
2. Be revised periodically based on the patient's progress in achieving the defined goals and any changes in treatment; and
3. Document any referrals provided to the patient.

(F) Each inpatient rehabilitation facility shall complete and initiate implementation of a comprehensive inpatient evaluation, treatment plan, and discharge plan within seventy-two hours of admission.

3701-83-29 Personnel and staffing requirements; staff records; ongoing training.

(A) Each inpatient rehabilitation facility shall provide or arrange for the services of personnel in sufficient number and with appropriate qualifications to meet the rehabilitation and medical needs of the patients being served in the facility. Personnel shall be scheduled in sufficient number:

1. To meet the needs of all patients in a timely manner; and
2. Provide services to each patient as required in rule 3701-83-26 of the Administrative Code.

(B) At a minimum, each inpatient rehabilitation facility shall maintain the following staff:

1. A medical director to be responsible for overseeing and managing medical and rehabilitation services. The medical director shall be a physician who has appropriate experience and training to provide rehabilitation physician services, as demonstrated by at least one of the following:
   a. Certification as a physiatrist by the American board of physical medicine and rehabilitation or the American osteopathic board of rehabilitation medicine;
   b. Formal residency in physical medicine and rehabilitation;
   c. Fellowship in rehabilitation for at least one year; or
   d. At least two years experience in providing inpatient rehabilitation services.
2. A director of nursing to be responsible for managing nursing services. The director of nursing shall be an RN with appropriate experience and training in rehabilitation nursing as demonstrated by the following:
   a. Certification as a rehabilitation nurse by the American rehabilitation nursing certification board; or
   b. At least three years experience in rehabilitation nursing.
3. A sufficient number of nurses, physical therapists, occupational therapists, speech-language pathologists, social workers and psychologists to meet the needs of patients and provide necessary services.

(C) Any licensed professional may be used to meet the needs of patients and provide necessary services consistent with the licensed professional's scope of practice as defined by applicable law.

(D) Each inpatient rehabilitation facility shall maintain the following:
Chapter 2. Regulated Healthcare Facilities  
Part II. Freestanding Healthcare Facilities

Rehabilitation Facilities

(1) An established system of records sufficient for the director to ascertain that all individuals employed by the facility who function in a professional capacity meet the standards applicable to that profession, including but not limited to, possessing a current Ohio license, registration, or certification, if required by law.

(2) Staffing schedules, time-worked schedules, on-call schedules, and payroll records for at least two years.

(E) Each inpatient rehabilitation facility shall provide an ongoing training program for its personnel. The program shall provide both orientation and continuing training to all staff members.

(1) The orientation shall be appropriate to the tasks that each staff member will be expected to perform; and

(2) Continuing training shall be designed to assure appropriate skill levels are maintained and that staff are informed of changes in techniques, philosophies, goals, and similar matters. The continuing training may include attending and participating in professional meetings and seminars.

3701-83-30 Building and site requirements; minimum standards.

(A) Each inpatient rehabilitation facility shall have patient bedrooms that, at a minimum, meet the following requirements:

(1) Sufficient open floor space to allow each patient or personnel to easily maneuver a wheelchair, and to allow for the transfer of each patient from the wheelchair to the bed;

(2) Maximum bedroom capacity shall be no more than four patients;

(3) A call system that is connected electrically, electronically, by radio frequency transmission, or in a like manner that:

(a) Provides for independent operation by each patient from the patient's bed; and

(b) Effectively alerts the staff member or members on duty of emergencies or patient needs;

(4) A bed of adjustable height with appropriate supports, which facilitates patient transfer from a wheelchair to the bed, for each patient; and

(5) Appropriate furnishings and adequate storage space designed to meet the special needs of rehabilitation patients for each patient.

(B) Each inpatient rehabilitation facility shall provide the following structural features:

(1) Flooring shall be designed to minimize slipping;

(2) Patient bathrooms shall:

(a) Have sufficient space to allow private use of hand washing, toilet, and bathing or shower facilities by a patient in a wheelchair, with an assisting attendant;

(b) Be equipped with grab bars and appropriate supports so that physically disabled patients may use toilet, hand washing, and bathing or shower facilities; and

(c) Have a call system that is connected electrically, electronically, by radio frequency transmission, or in a like manner that effectively alerts the staff member or members on duty of emergencies or patient needs.

(3) Hand rails on both sides of corridors, ramps, and stairs in areas used by patients;

(4) Doors to be used by patients shall be wide enough to accommodate wheelchairs;

(5) Adequate space designated for group recreation and dining designed to accommodate patients in wheelchairs; and

(6) Adequate and appropriate space for the rehabilitation treatment services provided in the facility that facilitate the treatment goals of the patients served.
Chapter 2. Regulated Healthcare Facilities
Part II. Freestanding Healthcare Facilities

3701-83-31 Equipment and supplies; minimum standards.

(A) Each inpatient rehabilitation facility shall have equipment and supplies of the type and quantity sufficient to meet the needs of individual patients and to provide services in accordance with rule 3701-83-26 of the Administrative Code.

(B) Each inpatient rehabilitation facility shall maintain all equipment and supplies, including equipment and supplies not used for rehabilitation purposes, in a safe and sanitary manner.

(C) Each inpatient rehabilitation facility shall develop, maintain, and implement a preventive maintenance plan for all equipment, designed to assure that the equipment is maintained in a safe manner. The preventive maintenance plan shall include periodic cleaning, adjustment and inspection in accordance with manufacturer's instructions.

3701-83-32 Quality assessment and improvement system.

As part of the quality assessment and performance improvement program as required under rule 3701-83-12 of the Administrative Code, each inpatient rehabilitation facility shall collect and maintain the following data on an annual basis and shall report such data to the director upon request:

(A) The total number of patients admitted to the facility;
(B) The total number of patients discharged from the facility;
(C) The total number of patients transferred to an acute care setting such as, but not limited to, a hospital;
(D) The total number of patients transferred to a long-term care setting such as, but not limited to, a nursing home;
(E) The total number of patients who achieved discharge goals; and
(F) The total number of patients readmitted to the facility for rehabilitation needs based on the same episode.

Birthing Center

3701-83-33 Freestanding birthing facilities, midwives; definitions.

As used in rules 3701-83-33 to 3701-83-42 of the Administrative Code:

(A) “Certified nurse-midwife” or “CNM” means an individual with a certificate to practice nurse-midwifery issued under Chapter 4723 of the Revised Code.

(B) “Director of patient services” means the individual responsible for managing and directing the provision of patient services at the freestanding birthing center.

(C) “Family” means the individual or individuals designated by the expectant mother to participate in the birthing center’s program.

(D) “Freestanding birthing center” or “center” means a facility, or part of a facility, which provides care during pregnancy, delivery, and the immediate postpartum period to the low-risk expectant mother. “Freestanding birthing center” does not include a hospital registered under section 3701.07 of the Revised Code, or an entity that is reviewed as part of a hospital accreditation or certification program.

(E) “Low-risk expectant mother” means an expectant mother that does not exhibit evidence of:

1) Diabetes mellitus or gestational diabetes that is not controlled by diet;

2) Heart disease in which there is any limitation of physical activity and ordinary physical activity does not cause undue fatigue, palpitation, dyspnea, or anginal pain;

3) Renal disease;
Chapter 2. Regulated Healthcare Facilities
Part II. Freestanding Healthcare Facilities

(4) Endocrine disorder, except treated hypothyroidism;
(5) Hematologic disorder;
(6) Severe anemia (hemoglobin less than ten grams/deciliter);
(7) Chronic or gestational hypertension or pre-eclampsia;
(8) Rh factor sensitization or other isoimmunization;
(9) Respiratory disease with significant chance of fetal hypoxia or maternal respiratory distress;
(10) Active herpes;
(11) Prior uterine incisions other than low transverse uterine incisions;
(12) Prematurity (less than thirty-seven weeks gestation);
(13) Human immunodeficiency virus positive;
(14) Known congenital anomalies except for anomalies that do not require services beyond the extent of services the center is authorized by law to provide;
(15) Previous abruption;
(16) Known or suspected drug or alcohol abuse;
(17) Suspected or documented intrauterine growth retardation or fetal macrosomia;
(18) Placental abnormalities;
(19) Multiple births;
(20) Non-vertex presentation; or
(21) Deep venous thrombophlebitis.

3701-83-34 Freestanding birth centers; general provisions.

(A) Freestanding birthing centers are licensed to provide care during pregnancy, birth, and the immediate postpartum period to the low-risk expectant mother and her newborn. Each center shall admit and retain only low-risk expectant mothers anticipating a normal full-term, spontaneous vaginal birth.

(B) Freestanding birthing centers shall consult with the attending physician or the CNM in consultation with the physician prior to providing services to low-risk expectant mothers exhibiting evidence of the following:

1. Previous low transverse cesarean birth;
2. Previous postpartum hemorrhage requiring treatment by transfusion;
3. Epilepsy or seizures controlled by medication;
4. Postmaturity (greater than forty-two weeks gestation);
5. Grand multiparity;
6. No prenatal care, sporadic prenatal care, or prenatal care beginning after the first trimester;
7. Known or suspected drug or alcohol use;
8. Cephalopelvic disproportion; or
9. Other medical conditions, except those listed in paragraph (E) of rule 3701-83-33 of the Administrative Code.

(C) Unless medical intervention or non-routine technology can be safely performed or administered by an attending physician at the freestanding birthing center, each freestanding birthing center shall transfer a patient requiring medical intervention or non-routine technology to a hospital or other appropriate health care setting that can meet the patient's needs. Medical intervention or non-routine technology includes:

1. Anesthetics other than local anesthetics or pudendal;
2. Pharmacological augmentation of labor; or
3. Forceps or vacuum extraction.

(D) If an attending physician at a freestanding birthing center performs or administers any medical intervention or non-routine technology under paragraph (C) of this rule, the
attending physician must remain with the patient throughout active labor and the immediate postpartum period.

(E) Each freestanding birthing center shall provide a home-like environment with adequate space for furnishings, equipment and supplies to provide comfortable accommodations for the number of patients and families served and the personnel providing services.

(F) In addition to the requirements established under paragraph (F) of rule 3701-83-09 of the Administrative Code, each freestanding birthing center shall establish and enforce written policies and procedures for the following:

1. Infection control for patients and families; and
2. Handwashing for patients and families.

3701-83-35 Governing body of birth center.

(A) The governing body of each freestanding birthing center shall include at least one member who is a consumer who is and is not a health care provider.

(B) The governing body shall:

1. Meet regularly to execute responsibilities for the operation of the center and shall maintain minutes of each meeting;
2. Maintain records of the names and addresses of all owners, controlling parties, directors, and officers and shall establish a policy on conflict of interest disclosure;
3. Formulate the mission, goals and long range plans for the center;
4. Adopt bylaws and establish an organizational structure which clearly delineates lines of authority, responsibility, and accountability;
5. Adopt policies and procedures for the orderly development, management, and operation of the center to ensure its compliance with applicable rules and regulations;
6. Appoint the administrator and the director of patient services;
7. Approve the qualifications for the center staff and ensure that all staff have the qualifications required by Chapter 3701-83 of the Administrative Code;
8. Establish the quality assessment and performance improvement program required under rule 3701-83-12 of the Administrative Code;
9. Establish policies and procedures for the handling of all legal matters relating to the operation of the center;
10. Approve all contracts and agreements with individuals or service agencies, such as hospitals, laboratories, emergency transport, consulting specialists, teaching institutions, and organizations conducting research; and
11. Encourage collaboration and networking with community agencies and special interest groups.

3701-83-36 Service standards – freestanding birth centers.

(A) Each freestanding birthing center shall provide services that meet the needs of the center's patients and are in accordance with the patient's plan of care. The center shall provide the patient or the patient's representative:

1. Information regarding the policies, procedures, and philosophy of the center and the services provided at the center;
2. Information concerning the services to be performed, including the process of pregnancy, process of labor, birth and postpartum care of the mother and the newborn;
3. Information about immunizations, vaccines, and state of Ohio newborn screening requirements;
4. Written information about how to obtain appointments and needed services both
during and after normal hours of operation; and
(5) Verbal and written instructions for post-treatment care and procedures for obtaining emergency care.

(B) Each center shall develop and follow current care protocols utilizing nationally recognized and accepted standards of care while maintaining the holistic environment. Each center shall maintain a current listing of the procedures and protocols and shall provide services in accordance with the clinical capabilities of the center.

(C) Each center shall provide intrapartum care that requires minimal intervention and technology including:
- Observation of maternal vital signs;
- Fetal auscultation;
- Nourishment;
- Activities;
- Comfort measures;
- Assessment and evaluation of labor; and
- Interaction with and support of the family.

(D) Each center shall provide postpartum and newborn care that promotes bonding and includes, at a minimum:
- Postpartum care for the mother, including:
  - Observation and evaluation of maternal condition;
  - Education and initiation of newborn feeding;
  - Self-care assessment and education;
  - Ensuring that the center's discharge criteria for the mother are met; and
  - Evaluation of the need for, the provision of, and the administration of immunizations or vaccines and Rh immune globin as necessary.
- Care for the newborn, including:
  - Observation and evaluation of the newborn's condition;
  - Ensuring that the center's discharge criteria for the newborn are met; and
  - Evaluation of the need for, the provision of, and the administration of immunizations, vaccines, and screening as necessary or required.

(E) Each center shall respond to medical emergencies that may arise in the provision of services to patients, including emergency cardiac care.

3701-83-37 Admission; discharge; transfer - freestanding birth centers.

(A) Each freestanding birthing center shall establish policies and procedures for the assessment of expectant mothers to determine:
- If the expectant mother meets the low-risk requirements for admission to the center; and
- If a normal, full term, spontaneous vaginal birth is anticipated.

(B) Each center shall establish and follow admission policies and procedures. The center shall upon admission of a patient:
- Review the patient's health records;
- Observe and document vital signs;
- Observe and document labor progress; and
- Determine whether diagnostic or screening procedures are required.

(C) Each center shall have a written transfer agreement with a hospital, health care provider, or other appropriate health care setting for the transfer of a mother or a newborn in the event of medical complications, emergency situations, or as the need arises.

(D) Each center shall maintain all necessary and appropriate medical equipment and a sufficient staff to provide for the timely transfer and transport to a hospital, health care provider,
or appropriate health care setting.

(E) Each center shall evaluate each expectant mother to determine whether an intrapartum transfer is necessary. The evaluation shall include an assessment of the following:

1. Abnormal progress of labor;
2. Development of maternal complications;
3. Need for cesarean birth; and

(F) Each center shall evaluate each mother and newborn to determine whether a postpartum transfer is necessary including evaluation of the following:

1. Medical complications of the mother; and
2. Medical complications of the newborn.

(G) Each center shall establish and follow discharge criteria utilizing nationally recognized standards. Prior to discharge each center shall identify a primary care provider for both mother and baby. For postpartum stays less than forty-eight hours, each center shall provide or arrange for the examination of the mother and newborn within seventy-two hours after discharge by a licensed health care provider acting within his or her scope of practice.

3701-83-38 Personnel and staffing requirements; staff records; ongoing training.

(A) Each freestanding birthing center shall have an administrator.

(B) Each center shall have a director of patient services who shall be a physician or a CNM who has contracted with a collaborating physician.

(C) Each center shall establish a personnel file for each staff member that shall be retained for two years after the staff member is no longer associated with the center, is maintained in a manner to ensure confidentiality, as provided by law, and contains, at a minimum, the following:

1. Documentation of the qualifications of the staff to provide services;
2. An established system of records sufficient for the director to ascertain that all individuals employed by the center who function in a professional capacity meet the standards applicable to that profession, including but not limited to, possessing a current Ohio license, registration, or certification, if required by law;
3. Documentation of any malpractice insurance carrier, if applicable;
4. Reports of malpractice claims, if applicable;
5. The regular performance evaluations required under paragraph (G) of rule 3701-83-08 of the Administrative Code;
6. Documentation of current certification from the American heart association in cardiac life support or current certification from the American academy of pediatrics in neonatal resuscitation, if applicable; and
7. Documentation of compliance with paragraph (D) of rule 3701-83-08 of the Administrative Code.

(D) Each center shall provide staff access to reference materials and provide continuing education, orientation, and ongoing training that shall be appropriate to the tasks that each staff member will be expected to perform. Training shall be designed to ensure appropriate skill levels are maintained and that staff are informed of changes in techniques, philosophies, goals, and similar matters. Ongoing training may include attending and participating in professional meetings and seminars and may also include:

1. Universal precautions and infection control procedures;
2. Fire, safety and disaster procedures;
3. Licensure requirements;
4. The philosophy of the center; and
5. Procedures for the stabilization of newborns from birth to transport.
(E) Each center shall provide information concerning the philosophy of the center to applicants for employment.

(F) Each center shall provide for the availability of and access to consulting specialists.

(G) Each center shall maintain a sufficient number of staff and schedule staff for availability within the center in number and type to:

1. Meet the demand for services routinely provided by the center;
2. Meet the needs of each patient;
3. Ensure patient safety; and
4. Ensure that no mother in active labor is left unattended.

(H) Each center shall establish and post a schedule for staff and consulting specialists that includes coverage for periods of high demand or emergency.

(I) A staff member who is current in certification from the American heart association in cardiac life support and a second staff member who is current in certification from the American academy of pediatrics in neonatal resuscitation shall be present at each birth.

(J) A physician or CNM shall attend each birth.

(K) A physician shall be available for stabilization and care of ill newborns and mothers.

3701-83-39 Building and site requirements; minimum standards.

(A) Each freestanding birthing center shall provide sufficient space for the number of patients and patient families and staff members to assure privacy for patients and families including:

1. A waiting room;
2. An examination room;
3. A staff area, conference area, or classroom; and
4. A family room with a designated play area for children.

(B) Each center shall have a minimum of two birth rooms. The birth room shall:

1. Be of adequate size and appropriate configuration to provide for the equipment, staff members, supplies and emergency procedures required for the physical and emotional care of the mother, family, and the newborn during birth, labor, and the postpartum period;
2. Have a minimum floor area of one hundred and sixty square feet. The length or width of the room shall have a minimum dimension of eleven feet. The vestibule, toilet and bathing areas and closets will not be considered in determining the square footage;
3. Have doorways and hallways of adequate width and configuration to accommodate the maneuvering of ambulance stretchers and beds;
4. Be located to provide rapid unimpeded access to an exit of the building which can accommodate emergency transportation vehicles and the type and size of emergency equipment utilized for emergency transport; and
5. Have hot and cold running water.

(C) Each center shall provide:

1. Toilet and bathing facilities that include a toilet, sink, bath or shower facilities with appropriately placed grab bars for patients. The toilet and bathing facilities shall be shared by not more than two birth rooms;
2. Toilet and hand washing facilities for families and personnel;
3. Space for coats, boots, and umbrellas in inclement weather;
4. A system of communication between the birth room and other areas of the center that effectively can alert the staff on duty of emergencies or patient needs;
5. Access to an outside telephone line;
6. Handrails in halls, stairwells, and bathrooms;
7. Childproof electrical outlets in public areas;
8. Access to a drinking fountain or potable drinking water with a disposable cup.
Chapter 2. Regulated Healthcare Facilities
Part II. Freestanding Healthcare Facilities

dispenser;

(9) A system to provide emergency lighting; and
(10) A separate area for storing clean and sterile supplies.

(D) Each center shall establish and maintain safety guidelines, practices, and policies which are reviewed at least once every twelve months to ensure a safe environment for patients, families, visitors and staff members. The center shall conduct and maintain records of the following:

(1) Evaluation of the heat, ventilation, emergency lighting, waste disposal, water supply, laundry, and kitchen equipment; and

(2) Evaluation of the physical environment for hazards that may cause injury from falls, electrical shock, poisoning, and burns. Risk factors of hazards include, but are not limited to, unsafe toys, unprotected stairs, and unlocked storage cabinets. The review of the physical environment shall include the exterior of the facility including walkways, parking lots, and outside recreation areas.

(E) Each center may provide laundry services on-site or off-site. Centers that provide laundry services on-site shall provide an area for laundry equipment with counter and storage space. The center shall provide for the separate collection, storage, and disposal of soiled materials. Soiled laundry shall be held in the soiled holding area until deposited in the washer.

(F) Sterile supplies may be prepackaged disposables or processed off-site. If the center sterilizes instruments and supplies on-site, an area for accommodation of sterilizing equipment in a type and number sufficient and appropriate to the patient volume of the center shall be provided.

(G) Each center shall provide an area for families to store and serve light refreshments. The area shall include a sink, counter space, oven or microwave, refrigerator, cooking utensils, disposable tableware or dishwasher, storage space, and a seating area.

(H) Each center shall provide in each birth room, an area for equipment and supplies for newborn care and a separate area for the equipment and supplies for maternal care.

3701-83-40 Equipment; minimum standards.

(A) Each freestanding birthing center shall have a readily accessible and securely stored emergency cart or tray for the newborn, equipped in accordance with national standards of care or guidelines, to carry out the written emergency procedures established by the center.

(B) Each center shall have a readily accessible and securely stored emergency cart or tray for the resuscitation of the mother, equipped in accordance with national standards of care or guidelines, to carry out the written emergency procedures of the center.

(C) Each center shall designate an area for the maternal and newborn emergency equipment and supplies that shall be immediately accessible to any room in which a birth may occur, but out of the direct line of traffic within the facility.

(D) Each center shall develop and implement an equipment preventive maintenance and repair program in accordance with manufacturer’s specifications. The center shall maintain records of equipment performance, maintenance and malfunctions for the lifetime of the equipment’s use at the center and a minimum of three years following the decommissioning or discontinuation of use of any piece of equipment.

3701-83-41 Supplies and medications.

(A) Each freestanding birthing center shall maintain an inventory of supplies and medications in the type and quantity necessary to meet the needs of and care for the number of patients served by the center.

(B) Each center shall establish and follow protocols in accordance with standards
established by the American college of obstetrics and gynecology for the use of medications during labor or at the time of birth.

(C) Each center shall:
(1) Monitor the shelf life of all medications and supplies and dispose of expired items according to industry standards or practices;
(2) Secure, store or dispose of all disposable supplies such as needles and prescription pads appropriately in accordance with state and federal laws;
(3) Maintain controlled drugs in a double-locked secured cabinet and provide refrigeration for biologicals; and
(4) Establish and follow written policies and procedures for accountability of all medications and supplies.

3701-83-42 Quality assessment and improvement program.

(A) As part of the quality assessment and performance improvement program required under rule 3701-83-12 of the Administrative Code, each freestanding birthing center shall evaluate the provision of services to the mothers and newborns who receive care from the center. The evaluation shall, at a minimum, include:
(1) Development and evaluation of risk criteria for determining eligibility for admission to and the continuation of care for a mother and newborn in the birth center program of care;
(2) Documentation and review of complications and adverse events which arise during the provision of the center’s services including complications of pregnancy, labor and the postpartum period;
(3) Review and evaluation of the management of care;
(4) Evaluation of the appropriateness of diagnostic and screening procedures including laboratory studies, sonography, and non-stress tests;
(5) Evaluation of the appropriateness of medications prescribed, dispensed or administered in the center;
(6) Review of all transfers of mothers and newborn to a hospital, health care provider, or other health care setting to determine the appropriateness and quality of each transfer;
(7) Development of discharge criteria for mother and the newborn patients served by the center;
(8) Regular review of medical records including a review for of legibility and completeness;
(9) Annual review of all protocols, policies and procedures relating to maternal and newborn care provided by the center;
(10) Review of the maternal and newborn assessment procedures as they impact on quality of care and cost to the patient;
(11) Review of the provision of emergency services including services listed in paragraph (C) of rule 3701-83-34 of the Administrative Code; and
(12) Evaluation of the center’s compliance with local, state, and federal requirements and national standards of care related to the provision of care to mothers and newborns.

(B) As part of the quality assessment and performance improvement program required under paragraph (A) of rule 3701-83-12 of the Administrative Code, each freestanding birth center shall report to the director:
(1) The total number of women who delivered;
(2) The total number of live births by weight, in grams;
(3) The total number of fetal deaths;
(4) The total number of neonatal deaths;
(5) The total number of maternal deaths;
(6) The total number of emergency cesarean-sections performed including:
(a) The total number of primary cesarean-sections, and
(b) The total number of repeat cesarean-section;
(7) The total number of attempted vaginal births after a previous cesarean-section and
the total number of successful vaginal births after a cesarean-section;
(8) The total number of newborns whose estimated gestational age is less than thirty-seven weeks, and the total number of newborns whose estimated gestational age is greater than forty-two weeks;
(9) The total number of maternal transfers to an obstetric and newborn care service
including:
(a) The total number of transfers prior to delivery, and
(b) The total number of transfers after delivery;
(10) The total number of patients seeking admission and the total number of patients
admitted.

3701-83-56 Definitions - exempt freestanding birthing centers.

As used in rules 3701-83-56 to 3701-83-59 of the Administrative Code:
(A) “Apprentice midwife” means an individual who is currently serving an apprenticeship
under a practicing midwife.
(B) “Certified professional midwife” means an independent practitioner who has met the
standards for certification set by the North American registry of midwives.
(C) “Certified nurse-midwife” or “CNM” has the same meaning as in paragraph (A) of rule
3701-83-33 of the Administrative Code.
(D) “Director of patient services” means the individual who is responsible for managing
and directing the provision of patient services at the exempt center. The director of patient
services may serve as the administrator of the exempt center.
(E) “Doula” means an assistant who provides various forms of non-medical, non-
midwifery and non-clinical physical or emotional support during the pre-natal, childbirth, and
postpartum periods.
(F) “Exempt freestanding birthing center,” “exempt freestanding birth center,” “exempt
birth center,” or “exempt center” means a health care facility that is not required to obtain a
license under section 3702.30 of the Revised Code and paragraph (B) of rule 3701-83-03 of the
Administrative Code.
(G) “Lay midwife” or “traditional midwife” means an individual who has entered the
profession as an apprentice to a practicing midwife rather than a formal school or certification
program.
(H) “Low-risk pregnancy” means an expectant mother that does not exhibit evidence of:
(1) Diabetes mellitus or gestational diabetes that is not controlled by diet;
(2) Heart disease in which there is any limitation of physical activity and ordinary
physical activity does not cause undue fatigue, palpitation, dyspnea or anginal pain;
(3) Renal disease;
(4) Endocrine disorder, except treated by hypothyroidism;
(5) Hematologic disorder;
(6) Severe anemia (hemoglobin less than ten grams per deciliter);
(7) Chronic or gestational hypertension or pre-eclampsia;
(8) RH factor sensitization or other isoimmunization;
(9) Respiratory disease with significant chance of fetal hypoxia or maternal respiratory
distress;
(10) Active herpes;
(11) Prior uterine incisions other than low transverse uterine incisions;
(12) Prematurity as defined as less than thirty-seven weeks gestation;
(13) Human immunodeficiency virus positive;
(14) Known congenital anomalies except for anomalies that do not require services beyond the extent of services the center is authorized by law to provide;
(15) Previous abruption;
(16) Known or suspected drug or alcohol use;
(17) Suspected or documented intrauterine growth retardation or fetal macrosomia;
(18) Placental abnormalities;
(19) Expectation of multiple births;
(20) Non-vertex presentation; and
(21) Deep venous thrombophlebitis.

(I) “Low-risk delivery” means the delivery by a woman not exhibiting evidence of:
   (1) Previous low transverse cesarean birth;
   (2) Previous postpartum hemorrhage requiring treatment by transfusion;
   (3) Epilepsy or seizures controlled by medication;
   (4) Previous postmaturity delivery as defined as greater than forty-two weeks gestation;
   (5) A lack of prenatal care;
   (6) Cephalopelvic disproportion; or
   (7) Other serious or acute medical conditions.

(J) “Medical director” means the physician the exempt center has appointed to provide medical consultation and direction regarding the operations of the center.

(K) “Midwife” means a certified professional midwife, a lay midwife, or a traditional midwife.

(L) “Patient” means an expectant mother, mother, or newborn.

3701-83-57 Patient safety monitoring and evaluation-exempt freestanding birthing centers.

(A) Each exempt freestanding birthing center shall admit, retain, discharge and transfer patients in accordance with the requirements of this rule to assure the safety of its patients.
   (1) Exempt centers may admit, retain, and provide care exclusively to women members of the religious denomination, sect, or group that owns and operates the center who anticipate a low-risk pregnancy, low-risk delivery and normal full-term spontaneous vaginal birth, and to their newborns.
   (2) Prior to admission, each expectant mother shall be assessed by a physician, CNM, or midwife as defined in paragraph (K) of rule 3701-83-56 of the Administrative Code to determine whether she is a low-risk pregnancy and whether a low-risk and full-term, spontaneous vaginal delivery is anticipated.
      (a) Exempt centers shall consult with a physician before admitting or retaining an expectant mother exhibiting signs of having other than a low-risk pregnancy or low-risk and full-term spontaneous vaginal delivery, or an expectant mother who has had no prenatal care.
      (b) If the consulting physician determines that the expectant mother may not have a low risk pregnancy or low risk and full-term spontaneous vaginal delivery, the exempt center shall not admit or retain the expectant mother.
      (c) If the expectant mother presents at the exempt center in actual labor or showing impending labor, and has had no prenatal care, the expectant mother must be transferred to a hospital or other health care facility or evaluated by a physician prior to admission to the exempt center.
   (3) Each exempt center shall have in place an arrangement with a hospital, other appropriate health care setting, or provider for the transfer of a mother or newborn in the event of medical complications, emergency situations or as need arises.
(4) Except as set forth in paragraph (A)(5) of this rule, each exempt center shall transfer the patient to a hospital, other approved health care setting or provider that can meet the needs of the patient if medical intervention or non-routine technology is necessary. Medical intervention or non-routine technology includes:
   (a) Anesthetics other than local anesthetics or pudendal block;
   (b) Pharmacological augmentation of labor; or
   (c) Forceps or vacuum extraction.
(5) An exempt center is not required to transfer a patient requiring medical intervention or non-routine technology if the medical intervention or non-routine technology can be safely and effectively performed by the physician who attends the birth and the attending physician remains with the patient throughout active labor and the immediate postpartum period.

(B) Each exempt freestanding birthing center shall periodically evaluate each patient's health and safety in accordance with the following standards:
   (1) The exempt center shall, upon admission of a patient:
      (a) Review the patient's health history and prenatal care records;
      (b) Observe and document vital signs;
      (c) Observe and document labor progress;
      (d) Consult with a physician when possible or evident risk for delivery is detected; and
      (e) Determine whether further diagnostic or screening procedures at an appropriate health care facility are advisable.
   (2) Each exempt center shall evaluate the expectant mother to determine whether an intrapartum transfer to a hospital or other appropriate health care setting is necessary. The evaluation shall include an assessment for the following:
      (a) Abnormal progress of labor;
      (b) Development of maternal complications;
      (c) Probable need for cesarean birth; and
      (d) Development of fetal complications.
   (3) Each exempt center shall, in consultation with a physician, evaluate the mother and newborn to determine whether a postpartum transfer to a hospital or other appropriate health care setting is necessary including evaluation for the following:
      (a) Medical complications of the mother; and
      (b) Medical complications of the newborn.

(C) Each exempt center shall monitor the provision of services to ensure they are provided in a safe, considerate and timely manner that meets the needs of the exempt center's patients. Each exempt center shall:
   (1) Arrange for and consult with a physician or certified nurse midwife to perform the following activities:
      (a) Periodically review the exempt center's patient care policies and procedures and recommend revisions as may be indicated;
      (b) Oversee the quality of patient care through periodic review of patient care records;
      (c) Periodically review the exempt center's quality and patient safety data; and
      (d) Provide consultation to the exempt center regarding admissions, retentions, transfers, and discharges of patients.
   (2) Practice infection control including observation of all accepted standard precautions and hand washing for staff, patients, and families.
   (3) Provide for the separate storage, security, and disposal of hazardous waste.
   (4) Ensure that no mother in active labor is left unattended and that a midwife, physician, or CNM attends each birth. A doula of the mother's choosing may attend the mother in active labor, but shall be limited to only non-medical, non-midwifery and non-clinical assistance and support.
(5) Timely respond to medical emergencies that may arise in the provision of services to patients.

(6) Provide intrapartum care that requires minimal intervention and technology including:
   (a) Fetal auscultation;
   (b) Nourishment;
   (c) Activities as may be appropriate;
   (d) Comfort measures;
   (e) Assessment and evaluation of labor; and
   (f) Interaction with family and support of the family.

(7) Provide postpartum and newborn care that promotes bonding and meets patients’ needs.

(8) Provide the patient or the patient’s representative:
   (a) Information about recommended immunizations, vaccines, and metabolic screenings for newborns; and
   (b) Instructions for post-treatment care and procedures for obtaining emergency care.
   (c) If so designated by the mother, the patient’s doula may be the representative for the purpose of receiving the information and instructions indicated in this paragraph.

(9) Maintain sufficient equipment, supplies and medicinals to care for its patients. Each exempt center shall:
   (a) Have a readily accessible and securely stored emergency cart or tray equipped to respond to emergency situations involving either the mother or newborn and consistent with the capabilities of the facility staff;
   (b) Monitor the shelf life of all medicinals and supplies maintained by the exempt center for use in the care of services to patients;
   (c) Maintain equipment in good working order; and
   (d) Operate equipment in a safe manner.

(D) Each exempt freestanding birthing center shall establish and maintain a safe and sanitary environment to ensure patient safety. Each exempt center shall:
   (1) Provide, maintain, and periodically evaluate the functional condition of the heating, ventilation, emergency lighting, waste disposal and water supply systems, laundry and kitchen equipment, and handrails in hallways and stairwells;
   (2) Maintain and evaluate the physical environment for hazards that may cause injury from falls, electrical shock, poisoning and burns. Risk factors of hazards include, but are not limited to, unsafe toys in family areas, unprotected stairs and unlocked storage cabinets. The review of the physical environment shall include the exterior of the facility including walkways, parking areas and outside recreation areas;
   (3) Provide and maintain a home-like environment of adequate size and appropriate configuration with sufficient space for furnishings, equipment, and supplies to provide comfortable and safe accommodations for the number of patients and families served and the personnel providing services;
   (4) Provide birth rooms that:
      (a) Are of adequate size and appropriate configuration to provide for the equipment, staff members, supplies, and emergency procedures required for the physical and emotional care of the mother, family, and the newborn during labor, birth and the postpartum period;
      (b) Have doorways and hallways of adequate width and configuration to accommodate maneuvering of ambulance stretchers and beds in emergencies;
      (c) Are located to provide rapid unimpeded access to an exit of the building that will accommodate emergency transportation vehicles and equipment; and
      (d) Have toilet and bathing facilities including toilet, sink, bath or shower facilities with hot and cold running water, and appropriately placed grab bars for patients.
(5) Establish and, when necessary, follow procedures for handling of patients in the event of fire or natural disaster or any other emergency situation requiring the evacuation of patients.

3701-83-58 Quality assessment and performance improvement-exempt freestanding birthing centers. Amish freestanding birth center; quality assessment.

(A) Each exempt center shall monitor and evaluate the provision of direct care services to its patients and shall implement procedures to improve the quality of care and resolve identified problems. The quality assessment shall, at minimum, include:
   (1) The review of all transfers of patients to a hospital or other health care setting; and
   (2) The review of complications and adverse events during the provision of the exempt center’s services.

(B) As part of the quality assessment and performance improvement activities and to assist the director in determining if the exempt center is in compliance with rules 3701-83-57 and 3701-83-58 of the Administrative Code, each exempt freestanding birth center shall report to the director of health, as may be required, but not less frequently than January twentieth of each year, the following information and data in the format and manner prescribed by the director and appendix A to this rule:
   (1) The identification of the administrator or director of patient services of the birth center;
   (2) The identification of the physician(s) providing obstetrical or pediatric consultation and oversight to the exempt birth center staff, and number of patient care-related contacts initiated by staff;
   (3) Staffing of the exempt birth center, including the number of traditional midwives, apprentice midwives, certified professional midwives, and any state-licensed health care professionals;
   (4) How and by whom potential patients are being assessed for risk prior to admission;
   (5) The total number of patients seeking admission and total number admitted;
   (6) The total number of post delivery admissions, the reason for admission, and the length of stay;
   (7) The number of deliveries at the exempt birth center;
   (8) The number of deliveries by a physician, a certified nurse midwife, a certified professional midwife, an apprentice midwife, or a lay midwife;
   (9) Identification of who attended each delivery within the exempt birth center;
   (10) The total number of live births by weight in grams;
   (11) The total number of newborns where estimated gestational age was less than thirty-seven weeks and the total number of newborns where estimated gestational age was greater than forty-two weeks;
   (12) The total number of fetal, neonatal, and maternal deaths;
   (13) The total number of maternal transfers to a hospital obstetric service or other health care setting; whether before or following delivery; the reason for transfer; the date of the transfer; and the name of the receiving entity; and
   (14) The total number of neonate transfers to a hospital newborn service or other health care setting; the reason for the transfer; the date of the transfer; and the name of the receiving entity;

(C) The data submitted under this rule shall be reviewed by the exempt center’s consulting physician prior to submission.
3701-83-59 Compliance - exempt freestanding birthing center. Amish freestanding birth center; ordered compliance.

(A) If the director of health determines that an exempt freestanding birthing center is no longer in compliance with divisions (4) and (5) of section 3702.301 of the Revised Code or rules 3701-83-57 and 3701-83-58 of the Administrative Code, the director may order the facility to come into compliance.
(B) In the order, the director may do any or all of the following:
   (1) Identify which requirement the exempt center is not in compliance with and what actions the center needs to take to come into compliance;
   (2) Require that the exempt center come into compliance within a period specified in the order;
   (3) Require that the exempt center provide the director with a written notice within a time period specified in the order that contains all of the following:
      (a) An attestation that the center has come into compliance;
      (b) The signature of the exempt freestanding birthing center’s administrator or medical director and an attestation that the administrator or medical director, whomever signs the notice, is the center’s authorized representative;
      (c) An attestation that the information contained in the notice and any accompanying documentation are true and accurate;
      (d) Any other information or documentation that the director may require to verify that the center has come into compliance; and
   (e) If the noncompliance pertains to patient care, an attestation that the information or documentation provided has been reviewed by the medical director or the consulting physician.
(C) If the exempt freestanding birthing center fails to comply with the director’s order within the time period specified in the order, the director may issue a second order that requires the center to cease operations until the center obtains a license as a freestanding birthing center under section 3702.30 of the Revised Code.
(D) In determining whether to issue orders under paragraph (C) of this rule, the director may consider any of the following factors:
   (1) The danger of serious physical or life-threatening harm existing or having existed to the patient or patients of the center;
   (2) The nature, duration, gravity, and extent of the identified condition, situation or practice existing or continuing;
   (3) Whether the violation directly relates or related to patient care;
   (4) The center’s history of quality of care data;
   (5) The extent and appropriateness of the actions taken by the center to correct the deficient practice or contributing condition; and
   (6) Whether the administrator, medical director, or other staff of the center materially misrepresented any information provided to the director.

Radiation Therapy Center

3701-83-43 Freestanding radiation therapy center; definitions.

As used in rules 3701-83-43 to 3701-83-50 of the Administrative Code:
(A) “Authorized user” means a physician who meets the definition in rule 3701:1-58-01 of the Administrative Code and is listed as the authorized user on the radioactive materials license issued by the director to the freestanding radiation therapy center.
(B) “Brachytherapy” means a method of radiation therapy in which sources are used to deliver a radiation dose at a distance of up to a few centimeters by surface, intracavitary,
(C) “Dose” or “radiation dose” is a generic term that means absorbed dose, dose equivalent, committed effective dose equivalent, or total effective dose equivalent as defined in rule 3701:1-38-01 of the Administrative Code.

(D) “Freestanding radiation therapy center” means a facility, part of a facility, or any arrangement in which radiation therapy services are transported to various sites, at which radiation therapy is provided to patients. “Freestanding radiation therapy center” does not include the provision of radiation therapy by a hospital registered under section 3701.07 of the Revised Code, or the provision of radiation therapy by an entity that is reviewed as part of a hospital accreditation or certification program.

(E) “Interstitial application” means the use of sealed radioactive sources within special applicators placed in tissue in a predetermined pattern.

(F) “Intracavitary application” means the use of radioactive sources in closed containers placed in body cavities.

(G) “Intraluminal” means within the lumen of a tube or tubular organ, such as a blood vessel.

(H) “Ionizing radiation” means gamma rays and x-rays, alpha and beta particles, high-speed electrons, neutrons, protons, and other atomic or nuclear particles or rays.

(I) “Nuclear medicine physician” means a physician listed as an authorized user on a radioactive materials license issued by the director for that modality as required in Chapter 3701:1-58 of the Administrative Code.

(J) “Radiation oncologist” means a physician who has satisfactorily completed a radiation oncology residency in an accreditation council for graduate medical education or American osteopathic association approved program; and is certified by one of the following:

(1) The American board of radiology or the American osteopathic board of radiology and who has a practice limited to radiation oncology;

(2) The American board of radiology, the American osteopathic board of radiology, or the royal college of physicians and surgeons of Canada in radiation oncology or therapeutic radiology; or

(3) The American board of certification in radiology in radiation oncology.

(K) “Radiologist” means a physician board certified in radiology by the American board of radiology, the American osteopathic board of radiology, or by the royal college of physicians and surgeons of Canada, or who has completed a formal accreditation council for graduate medical education (ACGME) or American osteopathic association approved residency in radiology.

(M) “Simulation” means the mock-up of a patient treatment with radiographic documentation of the treatment portals.

3701-83-44 General service standards.

(A) Each freestanding radiation therapy center shall evaluate the patient and assess tumors.

(1) The evaluation shall be conducted by the radiation oncologist and shall include a medical history, a physical examination, a review of the patient's diagnostic studies and reports,
and, when appropriate, consultation by the radiation oncologist with the referring physician.

(2) The assessment of tumors shall include a definition of tumor location, and the extent and stage of the tumor.

(B) Each freestanding radiation therapy center shall provide services necessary to meet the needs of the patient including:

(1) Consultation;
(2) Treatment planning, including the selection of dose, selection of treatment modality, and selection of treatment technique;
(3) Determination of optimal treatment program and calculation of dose;
(4) Simulation of treatment; and
(5) Clinical treatment management and patient education.

(C) Each freestanding radiation therapy center shall establish policies and implement procedures for the follow-up of patients who are treated with curative intent and patients who are treated with palliative intent by the radiation oncologist.

(1) The radiation oncologist shall establish a post-treatment follow-up plan for each patient.

(2) The follow-up of patients treated with curative intent shall:
   (a) Be for a five year period whenever feasible or practical; and
   (b) Include documentation of the outcome of therapy including the results of treatment such as tumor control or survival, and significant sequelae.

(3) If the center is unable to conduct the follow-up as planned, the center shall document the reason in the patient's medical record.

(D) Radiation therapy shall be provided only upon written order of a radiation oncologist.

Each freestanding radiation therapy center shall communicate with referring physicians regarding the radiation therapy.

(E) Each freestanding radiation therapy center shall comply with the requirements pertaining to the Ohio cancer incidence surveillance system established under sections 3701.261 to 3701.263 of the Revised Code and Chapter 3701-4 of the Administrative Code.

3701-83-45 Personnel requirements and qualifications; staff records.

(A) Each freestanding radiation therapy center shall have an administrator.

(B) Each freestanding radiation therapy center shall have a radiation oncologist, nuclear medicine physician, radiologist, or other authorized user, who meets the qualifications of paragraph (I), (J), or (K) of rule 3701:83-43 of the Administrative Code or rule 3701:1-58-40, 3701:1-58-51 or 3701:1-58-54 of the Administrative Code, as medical director. The medical director, radiation oncologists, radiologists, nuclear medicine physicians, and authorized users shall be qualified by training, experience, and certification to perform the scope of radiation therapy services provided by the facility. The medical director shall:

   (1) Approve specific duties that may be performed by each member of the physics staff as established by the medical physicist under paragraph (E) of this rule; and
   (2) Ensure appropriate coverage of the radiation therapy center by radiation oncologists or other authorized users and staff.

(C) A radiation oncologist, nuclear medicine physician, radiologist, or other authorized user shall be available for direct care and quality review on a daily basis. If the radiation oncologist, nuclear medicine physician, radiologist, or other authorized user is not on-site, the radiation oncologist, nuclear medicine physician, radiologist, or other authorized user shall be accessible by phone, beeper, or other designated mechanism.

(D) Each radiation therapy center shall have a medical physicist or teletherapy physicist who:

   (1) Is certified by the American board of radiology in radiological physics or therapeutic
radiological physics;
(2) Is certified by the American board of medical physics in medical physics with a specialty in radiation oncology physics;
(3) Has a master’s degree or doctorate from an accredited college or university in physics, biophysics, medical physics, radiological physics, nuclear engineering or health physics, and three years of experience in radiation therapy to include performance evaluations, safety checks, and treatment planning; or
(4) Is currently certified by the Ohio department of health as a certified radiation expert in the category of therapeutic and meets the requirements of paragraph (C)(3) of rule 3701:1-66-03 of the Administrative Code.

(E) The medical physicist or teletherapy physicist shall be available for consultation with the radiation oncologist, nuclear medicine physician, radiologist, or other authorized user to provide advice or direction to staff when patient treatments are being planned or patients are being treated. Radiation therapy centers shall have regular on-site physics support during hours of clinical activity. The on-site support shall, at a minimum, be provided on a weekly basis. When a medical physicist or teletherapy physicist is not available on-site, other physics duties shall be established and documented in writing by the medical physicist or teletherapy physicist. The medical physicist shall specify the specific physics duties that shall be performed by each member of the physics staff in accordance with their qualification and competence.

(F) Each freestanding radiation therapy center shall have available a sufficient number of qualified staff for the radiation therapy services provided including individuals licensed as radiation therapy technologists or nuclear medicine technologists under Chapter 4773 of the Revised Code, who are able to supervise and conduct the radiation therapy services as appropriate for the services being offered. The nuclear medicine physician, radiologist, radiation oncologist, or other authorized user and support staff shall be available to initiate urgent treatment with a medically appropriate response time on a twenty-four hour basis.

(G) In addition to the requirements of paragraph (B) of rule 3701-83-08 of the Administrative Code, each freestanding radiation therapy center shall establish personnel files for all individuals who provide radiation therapy services and shall:
(1) Maintain files for each individual which specify the types of procedures or services the individual is permitted to perform; and
(2) Update all files at least every twelve months.

3701-83-46 Treatment standards and protocols.

(A) The radiation oncologist shall establish the doses desired throughout the tumor and set dose limits to critical structures. Treatment deliveries shall meet the specifications of the radiation oncologist.

(B) All treatment applications shall be described in detail and signed by the radiation oncologist. The radiation oncologist shall be notified of any changes that may be necessary in the planned schedule of treatment.

(C) Each freestanding radiation therapy center shall:
(1) Provide or arrange for appropriate radiation treatment localization, simulation and verification;
(2) Provide or arrange for isodose treatment planning with complex analyses generated in appropriate cases;
(3) Provide accurate calculation of doses and dose distribution;
(4) Provide a system for independent checking of initial dose calculations. The check shall be conducted before the third fraction, or before twenty percent of the total dose when the treatment schedule provides less than ten fractions. The independent check includes utilizing another individual or method approved and documented by the medical physicist to verify dose.
calculation.
(5) Conduct ongoing reviews of accumulating doses;
(6) Conduct a chart and port film review weekly;
(7) Accurately chart treatment doses; and
(8) Maintain records of all data used in planning the specific treatment for a patient in the
patient's medical record.
(D) Each freestanding radiation therapy center shall provide devices to aid in positioning
and immobilizing the patient. Normal tissue shields, compensating filters, wedges and other aids
shall be provided as medically appropriate.
(E) Initial port films shall be reviewed by the radiation oncologist prior to the second
treatment and the port films shall be reviewed at least every ten treatments.
(F) Each freestanding radiation therapy center shall establish and maintain procedures
for handling medical emergencies including cardiac care.

3701-83-47 Radiation safety standards; freestanding radiation therapy centers.

(A) Each freestanding radiation therapy center shall maintain and follow written policies
and procedures for the handling of emergencies which may threaten the health and safety of
patients, staff, or the general public.
(B) Each freestanding radiation therapy center shall comply with the applicable
provisions of Chapter 3748 of the Revised Code and the rules adopted pursuant to that chapter.
(C) Each freestanding radiation therapy center shall identify, document, and report to the
department:
(1) Misadministrations in accordance with rule 3701:1-67-12 of the Administrative Code; or

3701-83-48 Equipment; minimum standards.

(A) Each freestanding radiation therapy center shall have the necessary equipment to
provide services with accuracy, precision, and efficiency. Each freestanding radiation therapy
center shall:
(1) Provide, either on-site or by referral, for diagnostic services including computerized
tomography (CT), magnetic resonance imaging (MRI), fluoroscopy, nuclear medicine, and
clinical and surgical pathology; and
(2) Document arrangements for referrals to one or more other radiation therapy sites so
that the patients will have access to a broad spectrum of radiation therapy equipment and a
variety of treatment modalities including at least brachytherapy and a unit of radiation therapy
equipment providing photons of at least ten megavolts (MV) and electron energies to at least
twelve mega electron volts (MeV).
(B) Each freestanding radiation therapy center shall develop and implement a program
to monitor the calibration and measurement of radiation beam characteristics to assure accurate
and reliable delivery of ionizing radiations. Calibration and operation of radiation therapy
equipment shall be in accordance with the radiation requirements specified in rules 3701:1-67-05
(C) Each freestanding radiation therapy center shall develop and implement a preventive
maintenance and repair program for equipment in accordance with manufacturer's
specifications. The center shall maintain records of equipment performance, maintenance and
malfunctions for the lifetime of the equipment's use at the center.
(D) Each freestanding radiation therapy center that operates a linear accelerator, cobalt
radiation therapy unit, or gamma knife shall comply with the applicable provisions of section
Chapter 2. Regulated Healthcare Facilities
Part II. Freestanding Healthcare Facilities

3702.11 of the Revised Code and the rules adopted pursuant to that section.

(E) Each freestanding radiation therapy center shall maintain emergency equipment and medications appropriate for the services provided.

3701-83-49 Medical records; content.

In addition to the requirements of rule 3701-83-11 of the Administrative Code, each freestanding radiation therapy center shall maintain documentation of the following in each patient's medical record:

(A) Confirmation of the presence of malignancy by histopathology, or a statement of benign condition, or other alternative evidence for diagnosis of all cases accepted for radiation;
(B) Documentation of services and radiographic images, including localization films, appropriate to the therapy provided;
(C) Report of the initial evaluation including a definition of the tumor location, and the extent of each cancer as a basis for staging;
(D) The treatment plan including the selection of dose, selection of treatment modality, and selection of treatment technique;
(E) The dosimetry calculations;
(F) The patient's progress and tolerance throughout treatment; and
(G) The completion of treatment with a statement of a follow-up plan.

3701-83-50 Quality assessment and improvement program.

(A) As part of the quality assessment and performance improvement program required under paragraph (A) of rule 3701-83-12 of the Administrative Code, each freestanding radiation therapy center shall report to the director:
(1) The number and type of radiation therapy equipment utilized; and
(2) The type of radiation therapy services provided.
(B) As part of the quality assessment and performance improvement program requirements under paragraph (C) of rule 3701-83-12 of the Administrative Code, each freestanding radiation therapy center shall evaluate the provision of radiation therapy services. The review shall include:
(1) A review of case management and treatment results; and
(2) A review of complications and adverse events which occurred during the provision of the center's services.

Freestanding Diagnostic Imaging Centers

3701-83-51 Definitions; freestanding diagnostic imaging centers.

As used in rules 3701-83-51 to 3701-83-55 of the Administrative Code:
(A) “Authorized user” means a physician who meets the definition of authorized user in rule 3701:1-58-01 of the Administrative Code for the specified modality.
(B) “Chiropractic radiologist” means a chiropractor with:
(1) Diplomat status by the American chiropractic board of radiology; and
(2) CT and MRI credentialing by the American chiropractic board of radiology.
(C) “Computed tomography” or “CT” means the production of a tomogram by the acquisition and computer processing of X-ray transmission data.
(D) “Diagnostic imaging” means the production of images used for medical diagnosis using:
(1) MRI;
(2) PET;
(3) CT;
(5) Fluoroscopy.

“Diagnostic imaging” does not mean the production of images used for medical diagnosis using diagnostic x-ray, mammography, or ultrasound.

(E) “Diagnostic x-ray” means the irradiation of any part of the human body for the purpose of diagnosis or visualization.

(F) “Freestanding diagnostic imaging center” means a facility, or part of a facility, at which diagnostic imaging services are provided. A freestanding diagnostic imaging center does not include the provision of diagnostic imaging by a hospital registered under section 3701.07 of the Revised Code, or the provision of diagnostic imaging by an entity that is reviewed as part of a hospital accreditation or certification program.

(G) “Fluoroscopy” means the use of a fluorescent screen suitably mounted, either separately or in conjunction with a roentgen tube for visualizing and imaging internal structures which uses the injection or ingestion of contrast media for medical diagnosis.

(H) “Magnetic resonance imaging” or “MRI” means the use of an integrated set of machines utilizing radio frequency and magnetic fields to produce images of organs and tissue or spectroscopic quantitative data.

(I) “Mammography” means radiography of the breast.

(J) “Mobile diagnostic imaging center” means any arrangement in which diagnostic imaging services are transported to various sites. A mobile diagnostic imaging center does not include movement within a hospital or movement to a site where the equipment will be located permanently and does not include the provision of diagnostic imaging by an entity that is reviewed as part of a hospital accreditation program.

(K) “Nuclear medicine” means the use of internal radiopharmaceuticals for the diagnosis and treatment of patients.

(L) “Positron emission tomography” or “PET” means a nuclear medicine imaging technique employing a radiotracer radiopharmaceutical with a positron emitting radionuclide to provide functional information such as on blood flow or metabolism.

(M) “Radiologist” means a physician board certified in radiology by the American board of radiology, the American osteopathic board of radiology, or by the royal college of physicians and surgeons of Canada, or who has completed a formal accreditation council for graduate medical education (ACGME) or American osteopathic association approved residency in radiology.

(N) “Nuclear medicine physician” means a physician listed as an authorized user on a radioactive materials license issued by the director for that modality as required in Chapter 3701:1-58 of the Administrative Code.

(O) “Ultrasound” means a diagnostic imaging technique which employs high frequency low energy sound waves for imaging and doppler examinations.

3701-83-52 Personnel and staffing requirements; freestanding diagnostic imaging centers.

(A) Each freestanding or mobile diagnostic imaging center shall have a radiologist, nuclear medicine physician, authorized user, physician acting within their scope of practice, or chiropractic radiologist, as appropriate to the diagnostic imaging services being offered, that has overall responsibility for the diagnostic imaging services being provided by the freestanding or mobile diagnostic imaging center.
(B) Each freestanding or mobile diagnostic imaging center shall have a physician on site when sedation or contrast agents are being administered.

(C) CT freestanding and mobile diagnostic imaging centers shall have available sufficient and qualified personnel as appropriate for the services being offered as follows:

(1) CT services shall be provided only upon the written order of a physician, chiropractor, dentist or podiatrist;

(2) CT image interpretation shall be conducted by:
   (a) A radiologist; or
   (b) A physician or chiropractic radiologist acting within his or her scope of practice who does not meet the requirements of paragraph (N) of rule 3701-83-51 of the Administrative Code who has at least two years cross-sectional imaging and interpretation experience.

(3) A medical physicist with one of the following:
   (a) Certification by the American board of radiology in radiological physics or diagnostic radiological physics;
   (b) Certification by the American board of medical physics in medical physics with a specialty in diagnostic imaging physics;
   (c) Master's degree or doctorate from an accredited college or university in physics, biophysics, medical physics, radiological physics or health physics, or mechanical, electrical or nuclear engineering, or applied mathematics with a minor in physics and three years of experience in evaluating diagnostic radiation-generating equipment and quality assessment and improvement programs; or
   (d) Current certification by the Ohio department of health as a certified radiation expert in the category of diagnostic other than mammography as specified in paragraph (D) of rule 3701:1-66-03 of the Administrative Code.

(4) An individual licensed under Chapter 4773 of the Revised Code as a radiographer.

(D) MRI freestanding and mobile diagnostic imaging centers shall have available sufficient and qualified personnel as appropriate for the services being offered as follows:

(1) MRI services shall be provided only upon the written order of a physician, chiropractor, dentist or podiatrist;

(2) MRI image interpretation shall be conducted by:
   (a) A radiologist; or
   (b) A physician or chiropractic radiologist acting within his or her scope of practice who does not meet the requirements of paragraph (N) of rule 3701-83-51 of the Administrative Code who has at least six months experience or training in cross-sectional body imaging and image evaluation and interpretation.

(3) The monitoring and maintenance of a service and preventive maintenance program implemented in accordance with the manufacturer’s specifications, the equipment management program as required by rule 3701-83-53 of the Administrative Code, and the quality assessment and performance improvement program as required by rules 3701-83-12 and 3701-83-55 of the Administrative Code.

(4) A technologist for preparing and positioning the patient and for obtaining the MRI data in a manner suitable for interpretation. As used in this paragraph, “technologist” means an individual:

   (a) Registered with the American registry of radiologic technologists in the categories of “radiography,” “nuclear medicine technology,” “radiation therapy technology” or “magnetic resonance imaging”;
   (b) Certified by the American registry of magnetic resonance imaging technologists; or
   (c) Registered as a nuclear medicine technologist with the nuclear medicine technology certification board.

(E) PET and nuclear medicine freestanding and mobile diagnostic imaging centers shall have available sufficient and qualified personnel as appropriate for the services being offered as
follows:
(1) PET and nuclear medicine services shall be provided only upon the written order of an authorized user pursuant to rule 3701:1-58 of the Administrative Code;
(2) PET and nuclear medicine image interpretation shall be conducted by one of the following:
   (a) A nuclear medicine physician;
   (b) A radiologist;
   (c) A physician acting within his or her scope of practice who meets the requirements of rule 3701:1-58-36 of the Administrative Code.
   (d) A physician acting within his or her scope of practice who does not meet the requirements of paragraph (M) or (N) of rule 3701-83-51 of the Administrative Code that is supervised by a physician who is qualified pursuant to paragraph (E)(2)(a), (E)(2)(b), or (E)(2)(c) of this rule while the physician is completing a training program that will result in certification as a physician listed in paragraph (E)(2)(a), (E)(2)(b), or (E)(2)(c) of this rule.
(3) An individual licensed under Chapter 4773 of the Revised Code as a nuclear medicine technologist; and
(4) A radiation safety officer who meets the requirements of rule 3701:1-58-18 of the Administrative Code and is listed on the Ohio radioactive materials license.

(F) Fluoroscopy freestanding and mobile diagnostic imaging centers shall have available sufficient and qualified personnel as appropriate for the services being offered as follows:
(1) Fluoroscopy services shall only be provided upon the written order of a physician, dentist, or chiropractor;
(2) Fluoroscopy image interpretation shall be conducted by one of the following:
   (a) A radiologist;
   (b) A physician or chiropractic radiologist acting within his or her scope of practice who does not meet the requirements of paragraph (N) of rule 3701-83-51 of the Administrative Code who has at least six months experience or training in the performance and interpretation of fluoroscopy;
(3) A medical physicist with one of the following:
   (a) Certification by the American board of radiology in radiological physics or diagnostic radiological physics;
   (b) Certification by the American board of medical physics in medical physics with a specialty in diagnostic imaging physics;
   (c) Master's degree or doctorate from an accredited college or university in physics, biophysics, medical physics, radiological physics or health physics, or mechanical, electrical or nuclear engineering, or applied mathematics with a minor in physics and three years of experience in evaluating diagnostic radiation-generating equipment and quality assessment and improvement programs;
   (d) Current certification by the Ohio department of health as a certified radiation expert in the category of diagnostic other than mammography as specified in paragraph (D) of rule 3701:1-66-03 of the Administrative Code; or
(4) An individual licensed under Chapter 4773 of the Revised Code as a radiographer.

(G) In addition to the requirements of paragraph (B) of rule 3701-83-08 of the Administrative Code each freestanding or mobile diagnostic imaging center shall establish personnel files for all individuals who provide diagnostic imaging services and shall:
(1) Maintain files for each individual which specify the types of procedures the individual is permitted to perform; and
(2) At least every twelve months update all files.
(H) For CT and fluoroscopy services, the individual qualified under the requirements of paragraphs (C)(3) and (F)(3) of this rule shall be available for consultation with the radiologist or authorized user responsible for diagnostic imaging services to provide advice and direction, and
Chapter 2. Regulated Healthcare Facilities
Part II. Freestanding Healthcare Facilities

the availability of the medical physicist shall be documented in writing and shall include:

1. Documentation that the individual conducted an on-site survey at least annually of the imaging equipment in accordance with the manufacturer's specifications to evaluate compliance with:
   a. Applicable rules adopted pursuant to Chapter 3748 of the Revised Code;
   b. The equipment management program as required by rule 3701-83-53 of the Administrative Code; and
   c. The quality assessment and improvement program as required by rules 3701-83-12 and 3701-83-55 of the Administrative Code.

2. Establishing written procedures to specify physics duties that shall be performed by each member of the physics staff in accordance with their qualifications and competence, and with the approval of the radiologist or authorized user responsible for diagnostic imaging services, as applicable to the services provided.

   I. For MRI services, an individual shall be available for consultation with the individual specified in paragraph (A) of this rule to provide advice and direction, and the availability of the individual shall be documented in writing and shall include:

   1. Conducting an on-site survey at least annually to evaluate the equipment management program as required by rule 3701-83-53 of the Administrative Code; and

   2. Establishing written procedures to specify service and preventive maintenance duties that shall be performed by each member of the staff in accordance with their qualifications and competence that are approved by the individual specified in paragraph (A) of this rule.

3701-83-53 Service standards and equipment; safety guidelines.

(A) Each freestanding or mobile diagnostic imaging center shall have equipment necessary to provide services with accuracy, precision, and efficiency as evidenced by:

1. All diagnostic imaging equipment shall be certified for clinical use by the United States food and drug administration;

2. All diagnostic imaging equipment specifications and performance shall meet all applicable state and federal requirements; and

3. The development and maintenance of an equipment management program which shall at a minimum:

   a. Maintain a current inventory of all diagnostic imaging equipment utilized by the freestanding or mobile diagnostic imaging center;

   b. Maintain and identify the clinical applications, maintenance requirements, and equipment malfunction history of all diagnostic imaging equipment utilized by the freestanding or mobile diagnostic imaging center;

   c. Assess the clinical and physical risks of all fixed and mobile equipment utilized in the provision of diagnostic imaging services;

   d. Develop and implement procedures for the regular maintenance and testing of equipment in accordance with manufacturer's guidelines; and

   e. Provide appropriate equipment orientation and training programs for personnel who use or maintain the freestanding or mobile diagnostic imaging center's equipment.

(B) Each freestanding or mobile diagnostic imaging center shall identify, document, and report to the department incidents in which equipment utilized by the diagnostic imaging center contributed or may have contributed to patient injury, illness, or death.

(C) Each freestanding or mobile diagnostic imaging center shall establish and maintain
safety guidelines, and practices and policies in accordance with applicable United States nuclear regulatory commission regulations and the applicable provision of Chapter 3748 of the Revised Code and the rules adopted pursuant to that chapter to assure a safe environment for patients, visitors, and personnel.

(D) Safety factors established and maintained by each freestanding or mobile diagnostic imaging center shall also include:

(1) Precautions against electrical and mechanical hazards;

(2) Precautions against the potential interactions of the magnetic field with ferromagnetic objects.

(E) Each freestanding or mobile diagnostic imaging center shall establish and maintain procedures for handling medical emergencies, including emergency cardiac care. Each site at which diagnostic imaging services are provided shall have the equipment, supplies, and personnel necessary to handle clinical emergencies that might occur, including adverse reactions to contrast agents.

(F) Each freestanding or mobile diagnostic imaging center shall have a staff member current in basic life support on duty at the center when patients are there.

3701-83-54 Medical records; content.

(A) In addition to the requirements of rule 3701-83-11 of the Administrative Code, each freestanding or mobile diagnostic imaging center shall maintain a diagnostic imaging radiology report for each patient, which includes the following:

(1) Patient name or identifier;

(2) Name of referring physician, podiatrist, dentist, or chiropractor;

(3) Name of physician or chiropractic radiologist conducting image interpretation;

(4) Name and type of diagnostic image performed and any contrast media used;

(5) Date of image;

(6) Findings;

(7) Factors limiting interpretability of exam;

(8) Pertinent clinical issues; and

(9) Conclusion or diagnosis.

(B) Each freestanding or mobile diagnostic imaging center shall maintain all medical records for a period of six years from the date of service.

(C) A mobile diagnostic imaging center may, by contract with a facility being served, require the facility to maintain such reports and medical records, provided that such reports and medical records are made available to the department for purposes of section 3702.30 of the Revised Code and Chapter 3701-83 of the Administrative Code.

3701-83-55 Quality assessment and improvement program.

(A) As part of the quality assessment and performance improvement program required under paragraph (C) of rule 3701-83-12 of the Administrative Code, each freestanding or mobile diagnostic imaging center shall:

(1) Establish and maintain a clinical image quality control program to monitor and document images repeated due to poor image quality;

(2) Monitor and evaluate the accuracy of image interpretations by:

(a) Establishing a clinical image review program;

(b) Establishing policies and procedures and the semiannual audit of a random, representative sample of total clinical images performed at the center;

(c) Provide for and implement the semiannual audit conducted by a radiologist or by a physician or chiropractor as identified under paragraphs (C)(2), (D)(2), (E)(2), and (F)(2) of rule

Freestanding Diagnostic Imaging Centers 282
Chapter 2. Regulated Healthcare Facilities
Part III. Health Care Services

3701-83-52 of the Administrative Code:
(i) Diagnostic imaging centers under the operation of more than one physician or chiropractic radiologist may conduct their own internal semiannual audit of a random sample of clinical images.
(ii) Diagnostic imaging centers operated by a single physician or chiropractic radiologist shall provide for the external semiannual audit of a random sample of clinical images. External audits shall not be conducted by an individual who is associated with, or has a financial interest in the center.
(3) Monitor and evaluate any problems associated with sedation, the administration of contrast agents, and problems identified as part of the semiannual audit of a random sample of clinical images.
(B) As part of the quality assessment and performance improvement program required under paragraph (A) of rule 3701-83-12 of the Administrative Code, each freestanding or mobile diagnostic imaging center shall report to the director:
(1) The number, type, and age, of diagnostic imaging equipment, including magnetic strength when applicable, and whether diagnostic imaging equipment is fixed or mobile;
(2) If diagnostic imaging equipment is mobile, a list of the locations where the service is delivered, including contracted sites for which the service is currently not operational;
(3) The number of procedures performed by CPT code;
(4) The number of repeat procedures taken which were conducted in order to obtain a sufficient image relating to the patient's image order;
(5) The number and type of complications associated with sedation and the administration of contrast agents;
(6) The number of patients who required hospitalization, as a result of a complication, within twenty-four hours of a procedure;
(7) The number of diagnostic procedures performed and the number that revealed negative findings; and
(8) The number of clinical images audited by the center or an external individual, and the number of cases in which there was variance between audited findings and original findings.

Part III. Health Care Services
[Editor’s Note: “Health Care Services” is a term used in Ohio statutes. It refers to hospital-based services.]

3702.11 Safety and quality standards of hospital-based services.

The director of health shall adopt rules establishing safety standards and quality-of-care standards for each of the following:
(A) Solid organ and bone marrow transplantation;
(B) Stem cell harvesting and reinfusion;
(C) Cardiac catheterization;
(D) Open-heart surgery;
(E) Pediatric intensive care;
(F) Operation of linear accelerators;
(G) Operation of cobalt radiation therapy units;
(H) Operation of gamma knives.
3702.14 Requirement to comply.

No person or government entity shall fail to comply with any rule adopted under section 3702.11 of the Revised Code.

3702.15 Director of health shall monitor compliance; reports and audits.

The director of health shall monitor health care providers for compliance with the safety and quality-of-care standards established in the rules adopted under section 3702.11 of the Revised Code. The director may inspect any health care provider as the director determines adequate to monitor compliance. The rules may require health care providers regularly to issue reports and undergo independent audits.

3702.20 Penalties for violating hospital service safety rules.

If the director of health determines that a person has violated section 3702.14 of the Revised Code, the director, after affording the person an opportunity for a hearing conducted in accordance with Chapter 119 of the Revised Code, shall impose a civil penalty of not less than one thousand dollars and not more than two hundred fifty thousand dollars on the person. In addition to the civil penalty, for a second or subsequent violation of section 3702.14 of the Revised Code, or for a first violation that the director determines has caused or poses an imminent threat of serious physical or life-threatening danger, the director, after affording the person an opportunity for a hearing conducted in accordance with Chapter 119 of the Revised Code, may issue an order that the person cease operating the health service. If a person issued such an order continues to operate the health service, the attorney general may apply to the court of common pleas of the county in which the person is located for an order enjoining the person from operating the service. The court shall grant the order on a showing that the person is operating the service.

Civil penalties collected under this section shall be deposited in the general operations fund created by section 3701.83 of the Revised Code and shall be used solely to administer and enforce the rules adopted under section 3702.11 of the Revised Code.

3701-84-01 General definitions.

As used in this chapter:

(A) “Accreditation award letter” means the written survey findings concerning the provider of a health care service, prepared by an entity that the director has determined as having standards and a process for assessing compliance for a particular HCS which equals or exceeds the applicable requirements of Chapter 3701-84 of the Administrative Code, that documents compliance with the entity's standards.

(B) “Administrator” means the person responsible for the overall daily management of the health care service.

(C) “Anesthesiologist” means a physician who has completed a residency training program in anesthesiology accredited by the American council of graduate medical education or the American osteopathic association.

(D) “Bone marrow transplantation service” means the replacement or supplementation of a patient's bone marrow with autologous or allogeneic hematopoietic stem cells when the patient's own bone marrow has been ablated or partially ablated by disease or therapy for the purpose of achieving long-term management of certain hematologic, immunologic, oncologic or genetic conditions, or enzymatic deficiency disease. A bone marrow transplantation service includes a service in stem cell harvesting and reinfusion.
(E) “Autologous/syngeneic bone marrow transplantation” means autologous, peripheral blood stem cell or syngeneic transplants.

(F) “Low-risk allogeneic bone marrow transplantation” means fully matched allogeneic sibling donor transplants without any of the high risk features listed under paragraph (G) of this rule.

(G) “High-risk allogeneic bone marrow transplantation” means unrelated or haploidentical transplants, or matched sibling donor transplants with any of the following features:

1. A primary diagnosis of myelodysplasia;
2. Bone marrow transplant in relapse;
3. Chronic myelogenous leukemia in anything other than in chronic phase;
4. Primary refractory patients; or
5. Patients with eastern cooperative oncology group performance status at time of transplant of greater than or equal to two.

(H) “Chiropractor” means a person licensed under Chapter 4734 of the Revised Code to practice chiropractic care.

(I) “Department” or “director” means the director of health or any official or employee of the department designated by the director of health.

(J) “Health care service” or “HCS” means any of the following:

1. A heart, lung, liver, kidney, pancreas, small bowel, or islet cell transplantation service or all combinations of solid organ transplant services, collectively referred to as a solid organ transplant service;
2. A bone marrow transplant service;
3. A cardiac catheterization service;
4. An open heart surgery service;
5. A pediatric intensive care service;
6. A linear accelerator, cobalt radiation, or gamma knife service;
7. A pediatric cardiac catheterization service;

(K) “Hospital” means an institution required to be registered under section 3701.07 of the Revised Code.

(L) “Licensed practical nurse” or “LPN” means a person licensed under Chapter 4723 of the Revised Code to practice nursing as a licensed practical nurse.

(M) “Medical director” means the physician who is responsible for managing and directing the provision of medical services at the health care service.

(N) “Nurse” means either a licensed practical nurse or a registered nurse.

(O) “Occupational therapist” means a person licensed to practice occupational therapy pursuant to section 4755.07 of the Revised Code.

(P) “Patient” means any individual who receives health care services.

(Q) “Patient representative” means either a person acting on behalf of a patient with the consent of the patient or the patient’s legal guardian.

(R) “Pediatric intensive care unit” or “PICU” or “pediatric intensive care service” means a separate and distinct unit in a hospital where pediatric patients, suffering from critical illness, receive care. “PICU” does not include a neonatal intensive care unit.

(S) “Pharmacist” means a person registered under Chapter 4729 of the Revised Code to practice pharmacy.

(T) “Physical therapist” means a person licensed to practice physical therapy pursuant to section 4755.44 of the Revised Code.

(U) “Physician” means a person who is licensed under Chapter 4731 of the Revised Code to practice medicine and surgery, or osteopathic medicine and surgery.

(V) “Psychologist” means a person licensed to practice psychology pursuant to Chapter
Chapter 2. Regulated Healthcare Facilities
Part III. Health Care Services

4732 of the Revised Code.

(W) “Registered dietitian” means a person registered pursuant to Chapter 4759 of the Revised Code to practice dietetics.

(X) “Registered nurse” or “RN” means a person who is licensed under section 4723.09 of the Revised Code to practice as a licensed registered nurse.

(Y) “Certified registered nurse anesthetist” or “CRNA” means an RN who meets the qualifications specified in section 4723.41 of the Revised Code and is credentialed and privileged by the provider of a health care service to administer anesthetics to patients within his or her scope of practice.

(Z) “Social worker” means a person licensed to practice social work pursuant to Chapter 4757 of the Revised Code.

(AA) “Solid organ transplant service” means the transplantation of heart, lung, liver, kidney, pancreas, small bowel, islet cells, excluding autologous islet cell transplantation, and any and all combinations of such transplanted organs.

(BB) “Staff member” or “staff” means the administrator and individuals providing direct care to patients on a full-time, part-time, temporary, contract, or voluntary basis. Staff member or staff does not include volunteers who are family members of a patient.

(CC) “Linear accelerator service” means the structural unit of a health care facility which provides radiation therapy or stereotactic radiosurgery using a linear accelerator.

/DD) “Cobalt service” means the structural unit of a health care facility which provides radiation therapy using a cobalt teletherapy machine.

(EE) “Gamma knife service” means the structural unit of a health care facility which provides stereotactic radiosurgery or stereotactic radiotherapy using a gamma knife.

(FF) “Stereotactic radiosurgery service” means the structural unit of a health care organization which provides stereotactic radiosurgery.

(GG) “Linear accelerator” means a medical linear accelerator which provides a collimated beam of electrons or electronically produced x-rays used for radiation therapy treatment.

(HH) “Cobalt teletherapy machine” means a machine that provides a collimated beam of gamma rays from a sealed cobalt-60 source for the purposes of radiation therapy treatment.

(II) “Gamma knife” means a dedicated device for stereotactic radiosurgery which employs multiple cobalt-60 sealed radiation sources aimed at a single isocenter. The gamma knife may also be used to perform stereotactic radiotherapy.

(JJ) “Stereotactic radiosurgery” means the closed-skull destruction of a precisely defined intracranial target by beam(s) of ionizing radiation in which the total dose is administered during a single treatment session.

(KK) “Stereotactic radiotherapy” means the closed-skull destruction of a precisely defined intracranial target by beam(s) of ionizing radiation in which the total dose of radiation is administered as fractions during multiple treatment sessions.

(LL) “Dose” means energy imparted per unit mass of absorber at a specific site under certain conditions.

(MM) “Radiation therapy service” means the structural unit of a health care organization which provides radiation therapy.

(NN) “Ionizing radiation” means gamma rays and x-rays, alpha and beta particles, high-speed electrons, neutrons, protons, and other atomic or nuclear particles or rays.

(OO) “Radiation oncologist” means a physician who:

(1) Has satisfactorily completed a radiation oncology residency in an accreditation council for graduate medical education or American osteopathic association approved program; or

(2) Is certified in radiology by the American board of radiology or the American osteopathic board of radiology and who has had a practice limited to radiation oncology for the
ten year period prior to May 1, 1996; or

(3) Is certified in radiation oncology or therapeutic radiology by the American board of radiology, the American osteopathic board of radiology, or the royal college of physicians and surgeons of Canada.

(PP) “Radiation therapy” means the use of ionizing radiation, including external beam radiation therapy (teletherapy), or intraoperative radiation therapy and radioactive materials for therapeutic administration as authorized on a radioactive materials license issued by the director pursuant to 3701:1-58 of the Administrative Code in the treatment of human illness.

(QQ) “Simulation” means the mock-up of a patient treatment with radiographic documentation of the treatment portals.

(RR) “Cardiac catheterization” means all anatomic or physiological studies, including electrophysiology procedures, of interventions, both diagnostic and therapeutic, in which the heart or coronary arteries are entered via a systemic vein or artery using a catheter that is manipulated under fluoroscopic visualization. This definition does not include studies of cardiac function performed using flow directed catheters that are positioned without the use of fluoroscopy.

(SS) “Cardiac catheterization service” means the staff, equipment, physical space, and support services required to perform cardiac catheterization and percutaneous coronary interventions.

(TT) “Percutaneous coronary interventions” (PCI”) means the broader group of percutaneous techniques capable of relieving coronary narrowing. Such PCI techniques include rotational atherectomy, directional atherectomy, extraction atherectomy, laser angioplasty, implantation of intracoronary stents and other devices for treating coronary atherosclerosis, including percutaneous transluminal coronary angioplasty.

(UU) “Percutaneous transluminal coronary angioplasty” (“PTCA”) means the inflation of a balloon-tipped catheter at the site of a coronary artery stenosis to attempt to enlarge the diameter of the lumen.

(VV) “Adult open heart surgery service” or “pediatric cardiovascular surgery service” means the combination of staff, equipment, physical space and support services which are used to perform open-heart surgery and other non-invasive cardiovascular surgeries.

(WW) “Pediatric patient” means any patient less than twenty-two years of age, unless otherwise specified in this chapter.

(XX) “Provider of a health care service” means a person or governmental entity who assumes legal liability for purposes of compliance with this chapter.

(YY) For purposes of this chapter, “follow-up inspection” means an inspection, which may include on-site and off-site activities, conducted by the department to determine whether the HCS has corrected a violation or violations cited on a previous inspection and to verify whether the HCS is in compliance with the applicable criteria, standards, and requirements established by section 3702.16 of the Revised Code and Chapter 3701-84 of the Administrative Code.

3701-84-02 Applicability of rules to types of hospital-based services.

(A) All health care services shall comply with rules 3701-84-02 to 3701-84-14 of the Administrative Code. In addition, all:

(1) Solid organ transplant services shall comply with rules 3701-84-16 to 3701-84-21 of the Administrative Code;

(2) Bone marrow transplant services, including stem cell harvesting and reinfusion, shall comply with rules 3701-84-24 to 3701-84-27 of the Administrative Code;

(3) Adult cardiac catheterization services shall comply with rules 3701-84-30 to 3701-84-34.2 of the Administrative Code;
(4) Open heart surgery services shall comply with rules 3701-84-36 to 3701-84-40 of the Administrative Code;
(5) Pediatric intensive care services shall comply with rules 3701-84-61 to 3701-84-65 of the Administrative Code;
(6) Linear accelerator, cobalt, and gamma knife services shall comply with rules 3701-84-67 to 3701-84-73 of the Administrative Code;
(7) Pediatric cardiac catheterization services shall comply with rules 3701-84-75 to 3701-84-79 of the Administrative Code; and
(8) Pediatric cardiovascular surgery services shall comply with rules 3701-84-81 to 3701-84-85 of the Administrative Code.

(B) The director shall review the provisions of Chapter 3701-84 of the Administrative Code periodically, consult with constituent groups and interested parties, and propose changes, as needed, to address technological advances and concerns with current rules.

3701-84-03 General HCS requirements; prohibitions.

(A) No person or agency of state or local government shall operate a HCS that does not comply with the provisions of this chapter of the Administrative Code.
(B) No person or agency of state or local government shall:
(1) Interfere with an inspection or investigation of a HCS by the director or the director’s designee. As used in this paragraph, “interfere” means to obstruct directly or indirectly any individual conducting an authorized inspection or investigation from carrying out their prescribed duties. Interference includes, but is not limited to, harassment, intimidation, and refusal to permit the director or the director's authorized representative upon presentation of official department identification, for the purpose of inspecting or investigating the operation of a HCS, to enter and inspect at any time the building or premises of a HCS, or to enter and inspect records that are kept concerning the operations of the HCS for information pertinent to the legitimate interests of the department.
(2) Materially misrepresent any information provided to the director pursuant to section 3702.16 of the Revised Code and Chapter 3701-84 of the Administrative Code.
(C) Each provider of a HCS shall ensure that the building or structure where it is located is in compliance with all applicable federal, state and local laws and regulations including, but not limited to, building codes.
(D) No provider of a HCS shall permit any person to smoke inside the portion of the structure where the HCS is located. The provider of a HCS shall post a notice in a conspicuous place within the HCS stating that smoking is prohibited inside the HCS.
(E) Nothing in this chapter shall be construed as authorizing individuals to provide services outside their licensed scope of practice.

3701-84-04 Service notification for new or reinitiated HCS.

(A) At least thirty days prior to initiating a new HCS or reactivating a discontinued or temporarily suspended HCS the provider of the HCS shall notify the director in writing, in a manner prescribed by the director, of its intentions to initiate the service. This notice shall contain:
(1) The name, address, and telephone number of the facility where the HCS is located;
(2) The type of HCS which the provider is seeking to initiate including the scope of services to be provided; and
(3) The projected date of initiation.
(B) Prior to initiating a new HCS or reactivating a discontinued or temporarily suspended HCS, the provider of the HCS shall file with the director:
(1) An attestation of compliance, with the applicable provisions of this chapter for the HCS to be initiated or reinstated. The attestation shall be signed by the medical director of the HCS and the authorized representative of the provider of the HCS;

(2) Attestation that to the best of the provider of the HCS's knowledge, the information in the attestation and any accompanying material is true and accurate;

(3) Attestation that the individual, if not the chief executive officer of the entity providing the HCS, is the authorized representative of the provider of the HCS; and

(4) Any other information the director may require regarding the ability to operate the HCS.

(C) The provider of the HCS shall submit a revised attestation within thirty days of the following:

(1) Change in medical director;

(2) Change in authorized representative who previously signed an attestation; or

(3) Change in the provider of the HCS.

(D) The director may request additional information relative to the continuing operation or initiation of a HCS.

(E) At any time, the director may request additional information that the director reasonably determines to be necessary to assess compliance with the applicable criteria, standards, and requirements established by section 3702.16 of the Revised Code and Chapter 3701-84 of the Administrative Code. The provider of the HCS shall submit any additional information requested by the director within thirty days of the director's request. The director may require any additional information requested to be submitted in less than thirty days if patient health or safety is of concern.

(F) If the director determines that the provider of the HCS has failed to demonstrate compliance with the provisions of this chapter, the director may take action under rule 3701-84-05 of the Administrative Code.

(G) At least thirty days prior to a change in the scope of the HCS, the provider of the HCS shall notify the director in writing of its intentions to change the scope of service and the specific changes to be implemented.

(H) Within thirty days of recognizing that the HCS is not in compliance with applicable criteria, standards or requirements established by section 3702.16 of the Revised Code or this chapter of the Administrative Code, the provider of the HCS shall notify the director in writing of:

(1) The criteria, standard or requirement not met;

(2) The reason for failure to meet the criteria, standard or requirement; and

(3) The corrective action that will be taken; and

(4) The time table for meeting the criteria, standard or requirement.

(I) At least thirty days prior to discontinuing a HCS, the provider of the HCS shall notify the director in writing of its intentions to discontinue the service. If the discontinuation is out of the control of the provider of the HCS and the thirty day requirement in this paragraph cannot be met, the written notice shall be given prior to discontinuing the service. The notice shall include the projected date of discontinuance.

3701-84-05 Violations; compliance actions.

(A) If any provider of a HCS fails to comply with section 3702.14 of the Revised Code or Chapter 3701-84 of the Administrative Code, the director shall provide the HCS a reasonable and appropriate amount of time to correct the violation and, in accordance with Chapter 119 of the Revised Code, may:

(1) Impose a civil penalty based on the severity of the violation as follows:

(a) For violations that present an imminent threat of serious physical or life-threatening danger, or an immediate serious threat to the emotional health, safety or security of patients, a
civil penalty of not less than one hundred thousand dollars and not more than two hundred and fifty thousand dollars;

(b) For violations that directly threaten physical or emotional health, safety, or security of patients, a civil penalty of not less than ten thousand dollars and not more than one hundred thousand dollars;

(c) For violations that indirectly threaten or potentially threaten the physical or emotional health, safety, or security of patients, a civil penalty of not less than one thousand dollars and not more than ten thousand dollars; and

(2) Issue an order that the HCS cease operation:

(a) For a second or subsequent violation of section 3701.14 of the Revised Code or Chapter 3701-84 of the Administrative Code; or

(b) For an initial violation that the director has determined to cause or pose an imminent threat of serious physical harm or life-threatening danger.

(B) In determining which of the actions to take under paragraph (A) of this rule, the director may consider the following factors:

(1) The danger of serious physical or life-threatening harm to one or more patients utilizing the health care service;

(2) The nature, duration, gravity, and extent of the violation;

(3) The number, if any, of patients directly affected by the violation;

(4) Whether the violation directly relates to patient care and the extent of the actual or potential harm to patients;

(5) The number of staff involved in the violation;

(6) The actions taken by the provider of the HCS to correct the violation; and

(7) The provider of the HCS's history of compliance.

3701-84-06 Inspections and audits by director; fees.

(A) The director may make announced or unannounced inspections to determine and monitor compliance with section 3702.14 of the Revised Code and the applicable requirements of Chapter 3701-84 of the Administrative Code.

(B) If patient survival or complications of the HCS are outside the industry norm or outside the range of expected values, the director may conduct a review of the HCS or require the provider of the HCS to contract for an independent review of the HCS, to be performed by at least two experts that the director has approved for the situation, to determine the probable cause of the adverse outcomes and make recommendations for improvement.

(1) In determining whether to approve an expert, the director shall consider the individual's knowledge and expertise in the service area and affiliation with the provider of the HCS;

(2) The contract shall require a written report to be submitted to the director by the reviewers within one hundred and twenty days of the director's notice to the HCS of the requirement for a review;

(3) Based on the findings of the review, the director may require the HCS to implement recommendations of the experts; and

(4) The provider of the HCS shall assume all costs of the review. The costs incurred under this paragraph are not subject to or included in the maximum annual fees specified in paragraph (G) of this rule.

(C) Each provider of a HCS shall ensure the director access to its premises, records, including business and medical records, and staff to demonstrate compliance with the requirements established under section 3702.14 of the Revised Code and the applicable requirements of Chapter 3701-84 of the Administrative Code.
Chapter 2. Regulated Healthcare Facilities
Part III. Health Care Services

(D) Information obtained by the director pertaining to specific patients is confidential. Information may be released in summary, statistical, or other form which does not disclose the identity of an individual patient. Information may be shared with other state or federal agencies if such information is necessary in carrying out their official duties. An agency or person that receives such patient record information shall protect and preserve patient confidentiality.

(E) The director may conduct an inspection to investigate alleged violations of section 3702.14 of the Revised Code and Chapter 3701-84 of the Administrative Code. The director shall inform the complainant and the HCS of the results of the investigation.

(F) The HCS fee for the inspections conducted by the director pursuant to section 3702.15 of the Revised Code and paragraphs (A) and (E) of this rule shall be, subject to paragraph (G) of this rule, as follows:
   (1) Inspection fee one thousand seven hundred fifty dollars;
   (2) Complaint inspection six hundred fifty dollars;
   (3) Follow-up inspection six hundred fifty dollars; and
   (4) Desk audit or compliance review inspection fee of two hundred fifty dollars.

(G) In charging a provider of a health care service a fee under paragraph (F) of this rule the total fees charged to a provider of a health care service, for services described in section 3702.11 of the Revised Code, shall not exceed five thousand dollars annually.

(H) The director shall provide to each provider of a health care service a statement of the fee charged under paragraph (F) of this rule which itemizes and totals the costs incurred by the department.

(I) The provider of a health care service shall forward the total amount of the fee to the director payable to the “Treasurer, State of Ohio” within fifteen days after receiving a statement of the fee issued under paragraph (H) of this rule.

(J) The director shall deposit HCS fees into the quality monitoring and inspection fund created in the state treasury pursuant to division (A) of section 3702.31 of the Revised Code.

3701-84-07 Patient care policies; minimum standards.

(A) Each provider of a HCS shall develop and follow comprehensive and effective patient care policies that include the following requirements:
   (1) Each patient shall be treated with consideration, respect, and full recognition of dignity and individuality, including privacy in treatment and personal care needs;
   (2) Each patient shall give informed consent and be allowed to refuse or withdraw consent for treatment or give conditional consent for treatment. Written documentation of patient consent shall be maintained in the patient’s medical record;
   (3) Each patient shall have access to his or her medical record, unless access is specifically restricted by the attending physician for medical reasons;
   (4) Each patient's medical and financial records shall be kept confidential; and
   (5) Upon request, each patient shall receive a detailed explanation of charges including an itemized bill for services received.

(B) Each provider of a HCS shall ensure that each patient is informed of the following:
   (1) The diagnosis and treatment alternatives and the risks involved with each;
   (2) The HCS’s policy on advanced directives and, if applicable, do-not-resuscitate orders (DNR); and
   (3) The name of the attending physician or individual supervising the patient’s care and the manner in which that individual may be contacted.
Chapter 2. Regulated Healthcare Facilities
Part III. Health Care Services

3701-84-08 Personnel and staffing requirements; records; ongoing training.

(A) Each provider of a HCS shall, based on the services provided and the number of patients served, maintain a sufficient number of qualified staff members and other personnel and an appropriate schedule of staff time to meet the needs of its patients in a timely manner. Each provider of a HCS shall be responsible for the care provided by the staff and personnel of that HCS.

(B) Each provider of a HCS shall utilize personnel to provide services who have appropriate training and qualifications for the services that they provide.

(1) Any staff member who functions in a professional capacity shall meet the standards applicable to that profession, including but not limited to, possessing a current Ohio license, registration, or certification, if required by law, and working within their scope of practice; and

(2) The provider of a HCS shall have an established system of records necessary for the director to ascertain that all individuals employed at the HCF who function in a professional capacity meet the standards applicable to that profession, including, but not limited, possessing a current Ohio license, registration, or other certification, if required by law.

(C) Each provider of a HCS shall have a medical director for the HCS. In lieu of the board certification requirements specified in this chapter, a physician who is board certified by a foreign board and is eligible to take the examination of an American board of medical specialties recognized board or an American osteopathic association board may serve as medical director of an HCS.

(D) The owner, administrator, and the medical director of a HCS shall be competent to perform the applicable job responsibilities and be suitable to own, operate, or direct a HCS.

(E) Each HCS shall develop and follow a tuberculosis control plan that is based on the provider's assessment of the HCS. The control and assessment shall be consistent with the United States centers for disease control and prevention (CDC) “Guidelines for Preventing the Transmission of Mycobacterium tuberculosis in Health Care Settings, 2005,” MMWR 2005, Volume 54, No. RR-17. The HCS shall retain documentation evidencing compliance with this paragraph and shall furnish such documentation to the director upon request.

(F) Each provider of a HCS shall not knowingly permit a staff member to provide services if the staff member:

(1) Has a disease capable of being transmitted during the performance of his or her duties;

(2) Is under the influence of drugs or alcohol; or

(3) After training and orientation by the provider of the HCS, has not demonstrated sufficient knowledge or expertise for the responsibilities of the position.

(G) Each provider of a HCS shall provide each staff member with a written job description delineating his or her responsibilities.

(H) Each provider of a HCS shall provide an ongoing training program for all staff that includes both an orientation and continuing training.

(1) The orientation shall be appropriate to the tasks that each staff member will be expected to perform; and

(2) Continuing training shall be designed to assure appropriate skill levels are maintained and that staff are informed of changes in techniques, philosophies, goals, and similar matters. The continuing training may include attending and participating in professional meetings and seminars and shall include information specific to the appropriate HCS.

(I) All staff shall have appropriate orientation and training regarding the HCS's equipment, safety guidelines, practices, and policies.

(J) Each provider of a HCS shall develop and implement an ongoing process for ensuring the competence of staff members. This process shall include:
Chapter 2. Regulated Healthcare Facilities
Part III. Health Care Services

(1) A periodic assessment and re-determination of necessary skill levels identified for the staff member's position; and
(2) At least every thirty-six months, a performance evaluation stating whether each staff member has achieved the skill levels identified for the staff member's position.

(K) Each provider of a HCS shall retain staffing schedules, time-worked schedules, on-call schedules, and payroll records for at least two years.

3701-84-09 Service standards; minimum standards.

(A) Each provider of a HCS shall ensure that all staff members provide services in accordance with:
(1) The patient's plan of care;
(2) The policies and procedures developed by the HCS;
(3) Applicable current and accepted standards of practice and the clinical capabilities of the HCS;
(4) Applicable state and federal laws and regulations; and
(5) The applicable quality of care and safety standards set forth in this chapter.

(B) Each provider of a HCS shall document all medical services performed in the care of the patient in the patient's medical record.

(C) Each provider of a HCS shall provide for the ancillary and support services necessary for the provision of the HCS's services.

(D) Each provider of a HCS shall establish and follow written infection control policies and procedures for the surveillance, control and prevention of communicable disease organisms by both the contact and airborne routes that are consistent with current infection control guidelines issued by the United States centers for disease control and prevention (CDC) and shall facilitate the activities associated with the prevention and spread of communicable infectious diseases. Each HCS shall retain documentation evidencing compliance with this paragraph and furnish such documentation upon request. The policies and procedures shall, at a minimum, address:
(1) The utilization of protective clothing and equipment;
(2) The storage, maintenance and distribution of sterile supplies and equipment;
(3) The disposal of biological waste; including blood, body tissue, and fluid in accordance with Ohio law;
(4) Standard precautions/body substance isolation or equivalent; and
(5) Tuberculosis and other airborne diseases.

(E) Each provider of a HCS shall maintain and operate equipment in a safe manner, in accordance with the manufacturer's instructions, and shall not jeopardize patient health or safety through operation of the equipment.

(F) Each provider of a HCS shall provide the patient or the patient's representative:
(1) Instruction and education regarding the services to be performed;
(2) Written information about how to obtain appointments and needed services, both during and after the HCS's normal hours of operation; and
(3) Verbal and written instructions for post-treatment care and procedures for obtaining emergency care.

3701-84-10 Building and site requirements; minimum standards.

(A) Each provider of a HCS shall ensure that the building or structure where the HCS is located:
(1) Has a certificate of use from a local, certified building department or by the department of commerce as meeting applicable requirements of Chapters 3781., 3783., and 3791 of the Revised Code and any rules adopted under them;
(2) Complies with the Ohio fire code; and
(3) Complies with the applicable provisions of Chapter 3737 of the Revised Code and the rules adopted under it.

(B) Each provider of a HCS shall adopt and follow a disaster preparedness plan, including evacuation in the event of a fire or other emergency. The HCS shall review evacuation procedures at least annually and conduct practice drills with staff at least once every six months.

(C) Each provider of a HCS shall label, store and dispose all poisons, hazardous wastes, and flammable materials in accordance with state and federal laws and regulations and in a safe manner that does not jeopardize patient health or safety.

(D) The minimum space or square footage requirements specified in this chapter are of clear floor space and exclusive of fixed or wall mounted cabinets, desks, and closets that are floor based.

3701-84-11 Medical records; minimum standards.

(A) Each provider of a HCS shall maintain a medical record for each patient that documents, in a timely manner and in accordance with acceptable standards of practice, the patient's needs and assessments, and services rendered. Each medical record shall be legible and readily accessible to staff for use in the ordinary course of treatment.

(B) Each provider of a HCS shall not disclose individual medical records except as authorized by the patient or allowed by state and federal laws and regulations, and the provisions of this chapter.

(C) Each provider of a HCS shall systematically review records for conformance with acceptable standards of practice and the requirements of Chapter 3701-84 of the Administrative Code.

(D) Each provider of a HCS shall maintain an adequate medical record keeping system and take appropriate measures to protect medical records against theft, loss, destruction, and unauthorized use.

(E) Each HCS shall have policies and procedures to ensure the confidentiality of patient medical records.

(F) Each provider of a HCS shall maintain medical records as necessary to verify the information and reports required by statute or regulation for six years from the date of discharge.

3701-84-12 Quality assessment and improvement program.

(A) Each provider of a HCS shall establish a quality assessment and performance improvement program designed to:

(1) Systematically monitor and evaluate the quality of patient care provided;
(2) Pursue opportunities to improve patient care;
(3) Ensure compliance with the applicable quality standards set forth in this chapter; and
(4) Resolve identified problems.

(B) Each provider of a HCS shall develop a written plan for each HCS that describes the quality assessment and performance improvement program's objectives, organization, scope, and mechanism for overseeing the effectiveness of monitoring, evaluation, improvement, and problem-solving activities.

(C) The quality assessment and performance improvement program shall do all of the following:
(1) Monitor and evaluate all aspects of care including effectiveness, appropriateness, accessibility, continuity, efficiency, patient outcome, and patient satisfaction;
(2) Establish expectations, develop plans, and implement procedures to assess and improve the quality of care and resolve identified problems;
(3) Establish expectations, develop plans, and implement procedures to assess and improve the health care service's governance, management, clinical, and support processes;
(4) Establish information systems and appropriate data management processes to facilitate the collection, management, and analysis of data needed for quality improvement;
(5) Internally document and report findings, conclusions, actions taken, and the results of any actions taken to the health care service's management and medical director;
(6) Document and review all unexpected complications and adverse events, being serious injury or death resulting from medical management, which arise during the provision of the service or during the hospital stay; and
(7) Hold regular meetings, chaired by the medical director of the HCS, or designee, as necessary, but at least within sixty days after a death or complication, to review all deaths and complications and to report findings. Any pattern that might indicate a problem shall be investigated and remedied, if necessary.

3701-84-13 Complaints; content, documentation.

(A) Each provider of a HCS shall develop and follow policies and procedures to effectively receive, investigate, and report findings of complaints regarding the quality or appropriateness of services provided by the HCS. The documentation of complaints shall, at a minimum, include the following:
   (1) The date complaint was received;
   (2) The identity, if provided, of the complainant;
   (3) A description of the complaint;
   (4) The identity, if provided, of persons and/or the provider of the HCS involved;
   (5) The findings of the investigation; and
   (6) The resolution of the complaint.
(B) Each provider of a HCS shall post the toll free complaint hotline of the Ohio department of health’s complaint unit in a conspicuous place in the HCS.

3701-84-14 Variances and waivers from this chapter.

(A) In accordance with paragraph (B) of this rule, the director may grant a variance or waiver from any requirement established by Chapter 3701-84 of the Administrative Code.
(B) Upon written request of the provider of a HCS, the director shall grant or deny a variance or waiver by written response within forty-five days of receipt of the request and all information determined necessary by the director to make a decision. In granting a variance or waiver, the director shall stipulate a time period for which the variance or waiver is to be effective and establish conditions that the HCS must meet for the variance or waiver to be operative. The director may grant:
   (1) A variance if the director determines that the requirement has been met in an alternative manner; or
   (2) A waiver if the director determines that the strict application of the requirement would cause an undue hardship to the HCS and that granting the waiver would not jeopardize the health and safety of any patient.
(C) The granting of a variance or waiver is a discretionary act by the director based upon documentation:
(1) In the case of a variance request, as to how the HCS is meeting the intent of the requirement in an alternative manner; and
(2) In the case of a waiver request, as to how the requirement is an undue hardship to the HCS and why the waiver will not jeopardize the health and safety of any patient.
(D) The granting of a variance or waiver by the director shall not be construed as constituting precedent for the granting of any other variance or waiver. All variance and waiver requests shall be considered on a case-by-case basis.
(E) The provider of a HCS whose request for a waiver or variance under this rule is denied may request a reconsideration of the decision by the director.
(1) A request for reconsideration must be received in writing by the director within thirty days of receipt of the director's denial of a waiver or variance request and include information that:
(a) Presents significant, relevant information that was not previously submitted to the director by the provider of the HCS, because it was not available to the provider of the HCS at the time the waiver or variance request was filed; or
(b) Demonstrates that there have been significant changes in factors or circumstances relied upon by the director in reaching the initial decision.
(2) A decision on an appropriately filed request for reconsideration shall be issued within forty-five days of the director's receipt of the request for reconsideration and all information determined necessary by the director to make a decision.
(3) The reconsideration process is an informal procedure not subject to Chapter 119 of the Revised Code. The director's decision on reconsideration is final.
(F) Each new provider of a HCS shall provide the service in compliance with all provisions of Chapter 3701-84 of the Administrative Code, unless a waiver or variance is granted for all provisions not met.

Solid Organ Transplant

3701-84-16 Solid organ transplant service requirements.

(A) The provisions of rules 3701-84-16 to 3701-84-21 of the Administrative Code are applicable to each provider of solid organ transplant services regardless of the date the service was initiated.
(B) Each provider of a solid organ transplant service shall be a registered hospital classified as a general hospital or a children's hospital that meets the following administrative requirements:
(1) Demonstrated institutional commitment to graduate medical education and research programs;
(2) Executed letters of agreement or contracts with an independent organ procurement organization which can provide sufficient numbers of organs to support the applicable volume level specified by rule 3701-84-21 of the Administrative Code;
(3) All kidney transplant services shall be a member of the appropriate end-stage renal disease coordinating council designated for the medicare program under 42 C.F.R. 405.2110 (August 26, 1986);
(4) Cooperates with all extra-renal solid organ transplant services in Ohio relative to the following:
(a) Coordination of solid organ procurement, to be achieved to the extent practicable in cooperation with all established organ procurement organizations in Ohio;
(b) Participation in an effective method for assuring access to solid organ transplantation for the uninsured or financially indigent patient;
(c) Participation in a statewide registry to follow all transplant service patients from the time they receive approval by an inter-institutional patient selection committee until death; and
(d) Participation in a statewide service review process for solid organ transplant services.
(5) Membership in good standing in a statewide consortium of solid organ transplant services which provides the functions listed in paragraph (B)(4) of this rule shall be sufficient to meet the requirements of that rule;
(6) The hospital shall have written patient management policies and protocols for organ transplantation, including:
(a) Detailed plans for the acute and long-term management of each transplant patient by a multidisciplinary care team, including the waiting period, in-hospital phase, and immediate post-discharge period;
(b) Transplant experienced social services available to the patient and the patient's family at all times;
(c) Appropriate and thorough education of the patient;
(d) Liaison with the patient's primary care physician to provide timely notification of changes in the patient's condition; and
(e) If the solid organ transplant service performs living donor transplants, detailed plans for the donor, that include the evaluation, donation, and discharge phases of living organ donation.

3701-84-17 Required personnel and staffing.

(A) Each provider of a solid organ transplant service shall have a medical director that is certified in the appropriate specialty and that actively performs solid organ transplant procedures at the hospital where the HCS is located.
(B) Each provider of a solid organ transplant service shall have on staff:
(1) At least one primary transplant surgeon and at least one primary transplant physician, for each type of organ transplanted, that:
(a) Meet the personnel criteria for transplant surgeons and physicians, which are in effect on the effective date of this rule, as adopted by the national organ procurement and transplantation network, currently the united network for organ sharing; and
(b) Are not dedicated to more than one solid organ transplant service provider unless the solid organ transplant service have credentialed more than one transplant surgeon or transplant physician to provide transplant services for the appropriate type of organ; and
(2) A qualified surgeon with an appropriate level of expertise for the procedure being performed must be present in the operating room at all solid organ transplant surgeries.
(C) Each provider of a solid organ transplant service shall have a transplant surgeon and transplant physician for each type of organ transplanted available on a twenty-four hour a day, seven day a week basis to provide program coverage as follows:
(1) A transplant surgeon shall be readily available to timely facilitate organ acceptance and implantation;
(2) A transplant surgeon or transplant physician shall be available on site within one hour to address urgent patient issues; and
(3) When this coverage is not available, the program shall be temporarily suspended and the provider of the solid organ transplant service shall provide written notice of the temporary suspension of the service and the expected date of the reinstatement of services to the HCS patients and the director. A dated sample of the form letter provided to patients shall be provided to the director in addition to the director's notice. The written notice shall be provided to patients and the director as follows:
(a) For planned temporary suspensions, the notice required in this rule shall be provided
at least five business days prior to the temporary suspension; and

(b) For unexpected temporary suspensions, the notice required in this rule shall be provided within five business days after the temporary suspension.

(D) Each provider of a solid organ transplant service shall ensure that transplant services are delivered by a multidisciplinary team that, at a minimum, includes representatives from the following:

1. Surgical (transplant surgeon);
2. Medical (transplant physician);
3. Nursing;
4. Clinical transplant coordinator;
5. Social services;
6. Nutritional services;
7. Pharmacology; and

(E) Each provider of a solid organ transplant service shall have staff with the expertise needed to manage organ rejection and the problems of immunosuppressed patients.

(F) The following staff, exclusive of the transplant surgeons and physicians, shall meet the criteria set forth in this rule and shall be available at all times to the hospital where the service is located:

1. For extra-renal transplant services, a designated anesthesiologist who:
   a. For heart transplantation, has training in open heart surgery anesthesia;
   b. For lung transplantation, has training in cardiopulmonary anesthesia; or
   c. For liver transplantation, has had an on-site visit to an established liver transplant service and documented experience participating in liver transplant anesthesia or has formal training in liver transplantation anesthesia;
2. A pathologist with training in detecting rejection in the transplanted organ;
3. A nursing team trained in hemodynamic support and immunosuppression management. The training in immunosuppression management shall include training in isolation techniques and infection control methods;
4. A nephrologist on site;
5. An established division or section of infectious disease with physicians who are available for consultation and direct service;
6. A full-time transplant patient coordinator with appropriate experience as a patient coordinator with a transplant service;
7. A psychiatrist and a licensed independent social worker who are available for evaluation and ongoing support of both the patient and family;
8. Available physicians specializing in radiology, respiratory disease, and physical medicine; and

(G) Each provider of a solid organ transplant service shall provide sufficient staff to adequately monitor patients during the post-transplant period.

(H) Each provider of a solid organ transplant service that performs living donor transplantation must identify either an independent living donor advocate or an independent living donor advocate team to ensure protection of the rights of living donors and prospective living donors.
Each provider of a solid organ transplant service shall have available adequate facilities and resources for the transplant service. The following shall be available on-site at all times:

(A) Sufficient operating and recovery room resources;
(B) Intensive care facilities allowing reverse isolation;
(C) A dialysis unit;
(D) Sufficient bed capacity to accommodate at least the minimum volume level specified by rule 3701-84-21 of the Administrative Code for the applicable type of solid organ transplantation;
(E) Clinical laboratory services that include facilities for coagulation monitoring and blood bank resources capable of providing at least twenty units of blood, platelets, and fresh blood products on demand;
(F) Microbiology laboratory experienced in processing the pathogens of opportunistic infection;
(G) Physical therapy services; and
(H) Electron microscopy.

(I) Accessible by gurney at all times:
(1) Angiography;
(2) Cardiac catheterization;
(3) Diagnostic radioisotope scanning;
(4) Endoscopy;
(5) Nuclear medicine;
(6) Routine diagnostic radiology;
(7) Computed tomography;
(8) Bone marrow biopsy;
(9) Diagnostic ultrasound;
(10) Electroencephalography;
(11) Nerve conduction;
(12) Psychometrics;
(13) Pulmonary function; and
(14) Immunofluorescence.

(J) A provider of a solid organ transplant service shall have access to laboratory facilities for histocompatibility testing that are certified by the American society for histocompatibility and immunogenetics at all times.

The provider of a solid organ transplant service shall meet the following safety requirements:

(A) Heart or heart-lung transplantation services shall have an active open-heart surgery service that should be performing the following procedures annually based on the patient population served:
(1) A general heart-lung transplant service, a minimum of two hundred fifty open heart surgery procedures; or
(2) A heart or heart-lung transplantation services that only serves pediatric patients less than twenty-two years of age with an active pediatric open-heart surgery service, a minimum of two hundred pediatric open heart surgery procedures.

(B) Heart-lung transplantation services shall have an active lung transplant service and an active heart transplant service; and

(C) Bowel transplantation services shall have an active liver transplant service.
3701-84-20 Patient selection criteria.

[Editor’s Note: Appendices to this rule can be found at www.odh.ohio.gov/rules/final/finalrules.aspx.]

(A) Each provider of an extra-renal, solid organ transplant service shall participate in a prospective, statewide review process for each patient prior to listing for transplant. The prospective review process shall include a separate review committee for each type of organ. Each review committee shall include at least one transplant physician or transplant surgeon from each program that actively participates in transplantation services for the appropriate organ. An affirmative vote of a majority of the members of the review committee is required in order to list a patient.

(B) Each provider of a solid organ transplant service shall adhere to identical patient selection criteria, including:

(1) For kidney patient selection, end stage renal disease defined as dialysis dependence or pre-dialysis deterioration of renal function as manifested by the following:
   (a) For adult patients, a creatinine clearance less than thirty milliliters/minute for diabetic patients and less than twenty milliliters/minute for all other patients; or
   (b) For pediatric patients over the age of two, evidence of structural or functional kidney abnormalities (abnormal urinalysis, imaging studies, or histology) that persist for at least three months, with or without a decreased glomerular filtration rate (GFR), as defined by a GFR of less than 60 mL/min per 1.73 m2.

(2) For liver, heart, combined heart/lung, pancreas, pancreas islet cell, lung, or small bowel patient selection, the prospective patient selection criteria listed in appendix A to this rule and screening criteria for patients presenting with histories of alcohol or substance dependency as listed in appendix B to this rule.

(3) For heart and lung patient selection, the screening criteria for patients presenting with histories of tobacco use as listed in appendix C to this rule.

(C) If a transplantation service desires to perform a transplant on a patient who does not meet the selection protocols set forth in appendix A to this rule, the facility will need to establish that a thorough review of the case was undertaken to determine that the transplant was appropriate. This review shall, at a minimum, include:

(1) Preparation of a detailed clinical summary of the patient including: a brief medical history, complete laboratory data, a thorough psychological evaluation including the patient's support system, any psychological issues, attitude toward and understanding of the transplant, informed consent, and a justification of the transplant despite failure to meet the selection criteria;

(2) Circulation of the clinical summary to a committee comprised of, at a minimum, the director of health or the director's designee, one experienced transplant physician or transplant surgeon from each organ transplant program who actively participates in transplant services for the appropriate organ, an ethicist or bioethicist, and a lay representative who may be an attorney;

(3) Convening of the committee established in paragraph (C)(2) of this rule to discuss the clinical summary of the patient; and

(4) After sufficient review time, an affirmative vote of a majority of the members of the committee that the transplant is appropriate.

(D) Patients presenting for extra-renal transplantation that have histories of alcohol or substance dependency and do not meet the standard criteria conditions set forth in paragraph (B)(1)(a) or (B)(1)(b) of appendix B to this rule may be evaluated for listing by the chemical disorder committee. The committee shall:

(1) Be comprised of a minimum of one chemical dependency counselor or addiction specialist;
treatment professional from each organ transplant program in Ohio that actively participates in transplant service. Each member must be appropriately credentialed to diagnose substance use disorders either independently or under the clinical supervision of an individual, who reviews and co-signs the diagnosis, and is appropriately credentialed by:
   (a) The Ohio chemical dependency professionals board;
   (b) The Ohio counselor, social worker, and marriage and family therapist board with chemical dependency scope of practice; or
   (c) Is a physician with certification by the American society of addiction medicine or subspecialty certification in addiction psychiatry from the American board of psychiatry and neurology.

   (2) Make an advisory recommendation to the appropriate, organ specific patient selection committee under the prospective statewide review process.

3701-84-21 Volume goals; failing to meet goals.

   (A) Each solid organ transplant service designated as an adult or combined adult/pediatric transplant service performing surgeries in a single hospital or university multi-hospital transplant service, should achieve the following volume goals per year after they have been in existence for two years or more to ensure efficiency and a minimum floor of competency:
      (1) For kidney, fifteen transplants;
      (2) For heart, ten transplants;
      (3) For liver, ten transplants; and
      (4) For lung, ten transplants.
   (B) Volume goals will be considered by the director in conjunction with other indicators of quality, not as the sole indicator of service performance.
   (C) Failure to meet a volume goal for two consecutive years may trigger an extended review of the solid organ transplant service including possible inspections by the director of health. The director may request a statewide consortium of solid organ transplant services to conduct the inspections for solid organ transplant services.
   (D) Solid organ transplant services that are designated as pediatric transplant services are not subject to the volume goals set forth in paragraph (A) of this rule.

Bone Marrow Transplant

3701-84-24 Bone marrow transplant service standard criteria.

   (A) The provisions of rules 3701-84-24 to 3701-84-27 of the Administrative Code are applicable to each provider of bone marrow transplant services regardless of the date service was initiated.
   (B) Each provider of a bone marrow transplantation service shall be a registered hospital classified as a general hospital, a children's hospital or as a specialty hospital that primarily furnishes oncology services that meets all of the following criteria:
      (1) Participates with other hospitals nationally in cancer treatment research, such as national cancer institute sponsored research. The hospital's research activities shall include all of the following:
         (a) Use of uniform patient treatment protocols;
         (b) On-site audits at least every five years by a cancer research organization or another hospital involved in national cancer treatment research; and
         (c) Reporting of patient eligibility and treatment data to the research organization in which the hospital participates.
      (2) Meets the following administrative requirements:
(a) Appropriate patient management plans and protocols, including patient selection criteria, plans for long-term management, protocols to address the prevention of opportunistic infections among bone marrow transplant recipients, and appropriate liaison with the patient's family and primary care physician. The patient management plans and protocols shall be consistent with nationally accepted standards;

(b) Quality assurance standards for the procurement of hematopoietic stem cells including the procurement of bone marrow via a bone marrow harvest, as well as procurement of hematopoietic progenitor cells (stem cells) by the use of leukapheresis or umbilical cord blood collection; and

(c) A procedure for conducting systematic evaluation of clinical outcomes resulting from hematopoietic stem-cell transplantation.

(3) Has a documented agreement to cooperate with all other bone marrow transplantation services in Ohio relative to patient selection that is non-discriminatory as to race, gender, and ability to pay.

(C) Prior to initiating transplantation services, the provider of the bone marrow transplantation service shall specify to the director:

(1) The type of patient population to be served:
   (a) Pediatric patients less than seventeen years of age;
   (b) Patients greater than or equal to seventeen years of age and less than twenty-two years of age; or
   (c) Adult patients twenty-two years of age or older.
A bone marrow transplantation service may serve patients greater than or equal to seventeen years of age and less than twenty-two years of age as a pediatric or an adult patient, whichever best serves the needs of the patient, as determined by the transplant physician and transplant service's medical director;

(2) The type of transplantation service:
   (a) Autologous;
   (b) Allogeneic; or
   (c) Both.

3701-84-25 Personnel and staffing criteria.

Each provider of a bone marrow transplant service shall meet the following staffing criteria:

(A) A medical director responsible for the oversight of the care provided on the unit who actively performs bone marrow transplant services as part of that transplant service and who is:
   (1) Board-certified in hematology, oncology, immunology, or pediatric hematology/oncology or have documented experience in the field of hematopoietic progenitor cell (HPC) transplantation extending over ten years;
   (2) An active physician on staff at the hospital providing involved in direct patient care; and

(3) Has a minimum of one year clinical bone marrow transplantation training at a major transplant center in the United States formally recognized as a bone marrow transplant center by at least one of the following:
   (a) A national cooperative chemotherapy group;
   (b) The national bone marrow donor program; or
   (c) A national institute of health-supported bone marrow transplant research program.

(B) At a minimum, one other primary transplantation physician actively participating in the service.
(C) A nursing team that, in order to ensure adequate continuity of care, is committed to the transplant service on a full-time basis and has the training and skills commensurate with the required tasks performed.

(D) The care of bone marrow transplant patients shall be coordinated by a multidisciplinary team whose members have training and skills commensurate with the required tasks performed.

3701-84-26 Facilities and safety; minimum standards.

(A) The hospital at which the bone marrow transplant service is located shall provide all of the following on site:
   (1) A designated bone marrow transplant unit with a sufficient number of beds to meet the needs of the bone marrow transplant service;
   (2) Active departments or sections in hematology/oncology, immunology and infectious diseases;
   (3) Laboratories;
   (4) Adequate intensive care facilities;
   (5) Protective reverse isolation rooms with appropriate air handling characteristics (i.e., hepa-filtered positive pressure patient rooms);
   (6) Radiologic services including, but not limited to, tomography, computed tomography (CT) scans and/or magnetic resonance imaging (MRI) scans;
   (7) Radionuclide scans and ultrasonography;
   (8) Immunopathology and hepatopathology;
   (9) Histopathology;
   (10) Microbiology laboratory;
   (11) Blood banking services capable of routinely providing irradiated blood products appropriate for cytomegalovirus (CMV) seronegative patients;
   (12) Clinical pharmacology services with a pharmacist familiar with antineoplastic agents;
   (13) Modern radiotherapy capabilities including the ability to provide total body irradiation either on-site or through agreement or contract with another hospital;
   (14) Operating room facilities; and
   (15) Echocardiography or multigated blood-pool imaging (MUGA) scan capability.

(B) The provider of a bone marrow transplant service shall have the following readily available:
   (1) Tissue-typing laboratory;
   (2) Apheresis capability with adequate blood cell component therapy and routine access to a blood irradiator; and
   (3) Facilities to cryopreserve hematopoietic stem cells for transplantation and which additionally may be used to manipulate hematopoietic stem cells ex-vivo.

3701-84-27 Patient selection for transplantation; volume goals.

[Editor’s Note: Appendix A to this rule can be found at www.odh.ohio.gov/rules/final/finalrules.aspx.]

(A) All candidates for bone marrow transplantation shall be subject to prospective patient selection criteria as specified in appendix A to this rule.

(B) If a transplantation service desires to perform a transplant on a patient who does not meet the selection protocols set forth in appendix A to this rule, the service shall undertake a thorough review of the case to determine that the transplant is appropriate. This review shall be
conducted by a bone marrow transplant team comprised of members of the service’s ethics, legal, and medical staff. This review shall, at a minimum, include:

1. Preparation of a detailed clinical summary of the patient that includes:
   a. A brief medical history;
   b. Complete laboratory data related to the diagnosis;
   c. A thorough psychosocial evaluation that includes:
      i. The identification of the patient’s support system, including potential caregivers;
      ii. Identified psychosocial issues;
      iii. Identification of potential barriers and challenges of the transplant; and
      iv. The patient’s attitude toward the transplant and the patient’s understanding of the transplant.
   d. A justification of the transplant despite failure to meet the selection criteria; and
2. After sufficient review time, an affirmative vote of a majority of the members of the team that the transplant is appropriate.

C. Each bone marrow transplantation service should achieve the following volume goals per year to ensure efficiency and a minimum floor of competency:

1. Except as specified in paragraph (C)(2) of this rule, services providing only autologous bone marrow transplantations should perform at least ten per year. From the date a service notifies the director of activation or reactivation of a service, the service should perform at least six transplants in the first twelve months and at least twenty transplants within the first twenty-four months;
2. Services providing only autologous bone marrow transplantation exclusively to patients less than twenty-two years of age should perform at least ten transplants per twenty-four months. From the date this service notifies the director of activation or reactivation of a service, the service should perform at least four transplants in the first twelve months and at least ten transplants within the first twenty-four months;
3. Except as specified in paragraph (C)(4) of this rule, services providing both autologous and allogeneic bone marrow transplantation should perform at least twelve per year with at least six being allogeneic bone marrow transplantations. From the date a service notifies the director of activation or reactivation of a combined autologous and allogeneic service, the service should perform at least eight transplants in the first twelve months and at least twenty-four transplants within the first twenty-four months, of which at least twelve should be allogeneic; and
4. Services providing both autologous and allogeneic bone marrow transplantation exclusively to patients less than twenty-two years of age should perform at least ten transplants per twenty-four months with at least five being allogeneic. From the date this service notifies the director of activation or reactivation of a service, the service should perform at least four transplants in the first twelve months with at least two being allogeneic and at least ten transplants within the first twenty-four months with at least five being allogeneic.

D. Volume goals will be considered by the director in conjunction with other indicators of quality, not as the sole indicator of service performance.

E. Failure to meet a volume goal for two consecutive years may trigger an extended review of the bone marrow transplantation service by the director, including possible inspections.

Adult Cardiac Catheterization

3701-84-30 General adult cardiac catheterization service standards.

[Editor’s Note: Appendix A to this rule can be found at}
Chapter 2. Regulated Healthcare Facilities  
Part III. Health Care Services

www.odh.ohio.gov/rules/final/finalrules.aspx]

(A) The provisions of rules 3701-84-30 to 3701-84-34.2 of the Administrative Code are applicable to each provider of cardiac catheterization services performing procedures on adult patients greater than or equal to twenty-two years of age, regardless of the date service was initiated. An adult cardiac catheterization service may serve a patient greater than or equal to eighteen years of age and less than twenty-two years of age if the patient's attending physician and the adult service's medical director determine that the adult service best serves the needs of the patient.

(B) Each provider of cardiac catheterization services shall:
   (1) Designate in writing to the director the service level classification, as defined in this chapter, it provides or intends to provide;
   (2) Designate in writing to the director the scope of services, including the number of procedure and control rooms, provided within the service level classification;
   (3) Meet the requirements of this chapter for the service level classification designated; and
   (4) Not hold itself out to any person or government entity by means of signage, advertising, or other promotional efforts as having a service level classification for which it is not designated.

(C) Each provider of cardiac catheterization services shall have an established written protocol for the emergency transfer and care of patients who require emergency medical/surgical management during or immediately after cardiac catheterization.

(D) Each provider of cardiac catheterization services shall have immediate access to services for hematology and coagulation disorders; electrocardiography; and diagnostic radiology. Access to clinical pathology, nuclear medicine and nuclear cardiology, doppler-echocardiography, pulmonary function testing, and microbiology must be available within a reasonable amount of time to meet the needs of the service.

(E) Each provider of cardiac catheterization services shall establish and maintain a quality assessment review process, including methodology, for reviewing the quality of cardiac catheterization procedures performed by each physician credentialed to perform such procedures. The review methodology shall, at a minimum, assess the following:
   (1) Appropriateness of cardiac catheterization studies and interventions;
   (2) Technical quality of cardiac catheterization studies;
   (3) Procedure result;
   (4) Rate of therapeutic success; and
   (5) Rate of procedural complications.

(F) Each provider of cardiac catheterization services shall have explicit criteria specifying the number of times a year an appropriately privileged physician shall perform each catheterization procedure in order to retain privileges to perform that procedure. These criteria shall be consistent with current recommendations of recognized professional societies and accrediting bodies.

(G) Each provider of cardiac catheterization services shall conduct an ongoing review of all cases with mortality or significant morbidity within ninety days of the procedure.

(H) Each provider of cardiac catheterization services shall establish and maintain a database to support the review process detailed in paragraph (E) of this rule. The results of analysis and review shall be documented and used to guide periodic random and selected peer reviews of individual physicians with respect to maintaining their credentials to perform specific cardiac catheterization procedures.

(I) Adult cardiac catheterization service shall only be provided in a fully permanent setting within the permanent frame of the building of a registered hospital that is classified as a general hospital or a special hospital-cardiac that primarily furnishes limited services to patients.
Chapter 2. Regulated Healthcare Facilities
Part III. Health Care Services

with cardiac conditions. The hospital shall:
   (1) Operate inpatient medical and surgical services in the same building and accessible
by gurney from the cardiac catheterization laboratory;
   (2) Operate an intensive/critical care unit with registered special care beds, that is:
   (a) Reviewed and accredited or certified as such as part of the hospital’s accreditation or
certification program in the same building;
   (b) Accessible by gurney from the cardiac catheterization laboratory; and
   (c) The unit shall provide appropriate equipment and staff to care for coronary patients
and have twenty-four hour monitoring capability.
   (3) Provide a setting in the same building as the adult cardiac catheterization laboratory
in which ambulatory cardiac catheterization patients can be observed for at least two to six
hours after the procedure depending on the access site and the nursing assessment of the
patient; and
   (4) Provide adequate physician coverage to manage post-procedure complications.

(J) For the purpose of rules 3701-84-30 to 3701-84-34.2 of the Administrative Code the
following references are defined and all documents are available at www.acc.org:
   (1) “2012 expert consensus document” means 2012 American college of cardiology
foundation/society for cardiovascular angiography and interventions expert consensus
document on cardiac catheterization laboratory standards update (June 12, 2012);
   (2) “2014 expert consensus document” means the 2014 society for cardiovascular
angiography and interventions/American college of cardiology/American heart association
expert consensus document update on percutaneous coronary intervention without on-site
surgical backup (June 17, 2014);
   (3) “Table 2: support services” means 2012 American college of cardiology
foundation/society for cardiovascular angiography and interventions expert consensus
document on cardiac catheterization laboratory standards update, table 2: optimal
(recommended) on-site support services for invasive cardiac procedures (June 12, 2012).
   (4) “Table 3: facility requirements” means 2014 Society for cardiovascular angiography
and interventions/American college of cardiology/American heart association expert consensus
document update on percutaneous coronary intervention without on-site surgical backup, table
3: facility requirements for percutaneous coronary intervention programs without on-site surgery
(June 17, 2014);
   (5) “Table 4: personnel recommendations” means 2014 society for cardiovascular
angiography and interventions/American college of cardiology/American heart association
expert consensus document update on percutaneous coronary intervention without on-site
surgical backup, table 4: personnel recommendations (June 17, 2014);
   (6) “Table 5: general exclusion criteria” means the 2012 American college of cardiology
foundation/society for cardiovascular angiography and interventions expert consensus
document on cardiac catheterization laboratory standards update, table 5: general exclusion
criteria for invasive cardiac procedures in a setting without cardiothoracic surgery (June 12,
2012);
   (7) “Table 5: recommendations for off-site surgical backup and case selection” means
the 2014 Society for cardiovascular angiography and interventions/American college of
cardiology/American heart association expert consensus document update on percutaneous
coronary intervention without on-site surgical backup, table 5: recommendations for off-site
surgical backup and case selection (June 17, 2014); and
   (8) “Table 6: patient and lesion characteristics” means the 2014 Society for
cardiovascular angiography and interventions/American college of cardiology/American heart
association expert consensus document update on percutaneous coronary intervention without
on-site surgical backup, table 6: patient and lesion characteristics that could be unsuitable for
nonemergency procedures at facilities without an on-site cardiac surgery (June 17, 2014);
(K) For the purpose of rules 3701-84-30 to 3701-84-34.2 of the Administrative Code, major bleeding is defined as:

1. Bleeding event within seventy-two hours;
2. Hemorrhagic stroke;
3. Tamponade;
4. Post-PCI transfusion for patients with a pre-procedure hemoglobin >8 g/dL; or
5. Absolute hemoglobin decrease from pre-PCI to post-PCI of >= 3 g/dL and pre-procedure hemoglobin=<16 g/dL.

3701-84-30.1 Level I cardiac catheterization service standards.

(A) Level I cardiac catheterization service or “level I service” means an adult cardiac catheterization service located in a hospital without an on-site open heart surgery service that provides only diagnostic cardiac catheterization procedures on an organized regular basis.

(B) Level I services shall perform only diagnostic cardiac catheterization procedures to diagnose anatomical and/or physiological problems in the heart. Diagnostic cardiac catheterization procedures include:

1. Intracoronary administration of drugs;
2. Left heart catheterization;
3. Right heart catheterization;
4. Coronary angiography;
5. Basic diagnostic electrophysiology studies not involving transseptal puncture;
6. Intra-aortic balloon pump or, if required for patient stabilization for transfer, placement of percutaneous left ventricular assist device; and
7. Device implantation, including, but not limited to defibrillators.

(C) Each level I service shall implement patient exclusion criteria consistent with the 2012 table 5: general exclusion criteria.

(D) Each level I service shall comply with the personnel and staffing requirements set forth in rule 3701-84-31 of the Administrative Code.

(E) Each level I service shall comply with the facilities, equipment, and supplies requirements set forth in rule 3701-84-32 of the Administrative Code.

(F) Each level I service shall comply with the safety standards set forth in rule 3701-84-33 of the Administrative Code.

(G) Each level I service shall maintain a formal written transfer protocol for emergency medical/surgical management with a registered hospital that provides open heart surgery services, which can be reached expeditiously from the level I service by available emergency vehicle within a reasonable amount of time and that provides the greatest assurance for patient safety. The open heart surgery service that is party to a transfer protocol is referred to as the receiving service. Each protocol shall include, but not be limited to:

1. Provisions addressing indications, contraindications, and other criteria for the emergency transfer of patients in a timely manner;
2. Assurance of the initiation of appropriate medical/surgical management in a timely manner;
3. Assurance that surgical back-up is available for urgent cases at all hours;
4. Specification of mechanisms for continued substantive communication between the services party to the agreement and between their medical directors and physicians;
5. Provisions for a collaborative training program among staff of the services party to the agreement, including the cardiologists from the level I service and the cardiologist/cardiothoracic surgeon from the receiving service;
6. Provisions for the recommendation by the medical director of the receiving service, regarding the cardiac catheterization service’s credentialing criteria; and
(7) Provisions for annual drilling activities to review and test the components of the written transfer protocol. An actual emergent patient transfer consistent with the written transfer protocol within the calendar year meets the requirement for an annual drill.

(H) Major complications and emergency transfers should be reviewed at least once every ninety days by the quality assessment review process required in paragraph (E) of rule 3701-84-30 of the Administrative Code.

(I) Beginning January 1, 2017, each provider of level I services shall submit to the department an annual report for the prior year that meets the following criteria:

1. Maintains patient confidentiality;
2. Shall be filed with the department within one hundred twenty days after the close of the calendar year (April thirtieth); and
3. Include, at a minimum, the following information:
   a. All emergent patient transfers that become necessary during or immediately after cardiac catheterization to the receiving service for interventional medical management;
   b. The number and type of procedures performed;
   c. Post-procedure in-hospital mortality rate;
   d. Vascular access injury requiring surgery or other intervention;
   e. Major bleeding; and
   f. Emergency PCI procedures performed when clinically indicated.

(J) Each level I service shall obtain a signed informed consent form from each patient prior to performance of the diagnostic procedure. The informed consent shall include an acknowledgment by the patient that the diagnostic procedure is being performed in a cardiac catheterization service without an on-site open heart surgery service and an acknowledgment that, if necessary as the result of an adverse event, the patient may be transferred to a receiving service for medical/surgical management.

(K) Nothing in this rule shall prohibit the provision of emergency care, including emergent PCI, when clinically indicated. The service shall notify the department within forty-eight hours of any incident requiring action outside the scope of services authorized to be performed at the level I designation. The notification shall:

1. Maintain patient confidentiality;
2. Indicate when the incident occurred;
3. Describe the nature of the emergency and what actions were taken; and
4. Include the outcome.

3701-84-30.2 Level II cardiac catheterization service standards.

(A) Level II cardiac catheterization service or “level II service” means an adult cardiac catheterization service located in a hospital without an on-site open heart surgery service that provides only diagnostic and authorized therapeutic cardiac catheterization procedures on an organized regular basis.

(B) Each level II service shall operate on an organized, regular, twenty-four hour a day, seven days a week basis to perform primary PCI.

(C) Level II services are prohibited from providing the following procedures:

1. Transcatheter aortic valve replacement (TAVR);
2. Revascularization of chronic total occlusion (CTO);
3. Rotational coronary artherectomy;
4. Alcohol septal ablation;
5. Cardiac biopsy;
6. Mitral valve clip;
7. Transcatheter mitral valve (TMV) repair or replacement;
8. Laser lead extraction;
(9) Atrial septal defect (ASD), patent foramen ovale (PFO), and ventricular septal defect (VSD) closure;
(10) Balloon aortic valvuloplasty;
(11) PCI of last remaining coronary artery;
(12) Left atrial appendage closure;
(13) Ventricular tachycardia ablation;
(14) Atrial fibrillation ablation;
(15) Lead extractions; and
(16) Multivessel PCI in the setting of severe left ventricular dysfunction.

(D) Each provider of a level II service shall have provided at least one year of service performing diagnostic cardiac catheterizations prior to providing notice to the director of their intent to provide level II services. Accelerated designation may be granted to a service on a case-by-case basis by the director and shall not be construed as constituting precedent for the granting of an accelerated designation for any other service provider.

(E) Level II services shall:
(1) Implement patient screening criteria consistent with the 2014 expert consensus document:
   (a) Table 5: recommendations for off-site surgical backup and case selection; and
   (b) Table 6: patient and lesion characteristics.
(2) Ensure that the medical director for the level II service monitors and ensures strict adherence to the patient selection criteria and treatment protocols.

(F) In addition to the general personnel and staffing requirements set forth in rule 3701-84-31 of the Administrative Code, each level II service shall:
(1) Provide nursing and laboratory staff consistent with the 2014 expert consensus document, table 4: personnel recommendations; and
(2) Maintain personnel capable of endotracheal intubation and ventilator management within their scope of practice, both on-site and during transfer of the patient if necessary.

(G) In addition to the general facilities, equipment, and supplies requirements set forth in rule 3701-84-32 of the Administrative Code, each level II service shall have, at a minimum, equipment consistent with the 2014 expert consensus document, table 3: facility requirements.

(H) Each level II service shall comply with the safety standards set forth in rule 3701-84-33 of the Administrative Code.

(I) Each level II service shall maintain a formal written transfer protocol for emergency medical/surgical management with a registered hospital that provides open heart surgery services, which can be reached expeditiously from the level II service by available emergency vehicle within a reasonable amount of time and that provides the greatest assurance for patient safety. The open heart surgery service that is party to a transfer protocol is referred to as the receiving service. Each protocol shall include, but not be limited to:
(1) Provisions addressing indications, contraindications, and other criteria for the emergency transfer of patients in a timely manner;
(2) Assurance of the initiation of appropriate medical/surgical management in a timely manner;
(3) Assurance that surgical back-up is available for urgent cases at all hours;
(4) Specification of mechanisms for continued substantive communication between the services party to the agreement and between their medical directors and physicians;
(5) Provisions for a collaborative training program among staff of the services party to the agreement, including the cardiologists from the level II service and the cardiologist/cardiothoracic surgeon from the receiving service;
(6) Provisions for the recommendation by the medical director of the receiving service, regarding the cardiac catheterization service's credentialing criteria; and
(7) Provisions for annual drilling activities to review and test the components of the...
written transfer protocol. An actual emergent patient transfer consistent with the written transfer protocol within the calendar year meets the requirement for an annual drill.

(J) Each level II service shall maintain a formal written agreement with a ground and/or air ambulance service that can commit to on-site availability within thirty minutes of notification and is capable of advanced cardiac life support and intra-aortic balloon pump transfer of a patient to the hospital party to the written transfer protocol required by paragraph (I) of this rule. Ground and/or air ambulance service agreements should be consistent with the recommendations set forth in the 2014 expert consensus document, table 3: facility requirements.

(K) Major complications and emergency transfers should be reviewed at least once every ninety days by the quality assessment review process required in paragraph (E) of rule 3701-84-30 of the Administrative Code.

(L) Each provider of a level II service shall obtain enrollment and maintain participation in the national cardiovascular data registry/CathPCI registry (NCDR).

(M) Beginning January 1, 2017, each provider of level II services shall submit an annual report to the department based upon the data submitted to the NCDR during the preceding year. At a minimum, the report shall:

1. Maintain patient confidentiality;
2. Be filed with the department within one hundred twenty days after the close of the calendar year (April thirtieth); and
3. Include the following information:
   a. All emergent transfers that became necessary during or immediately after cardiac catheterization to the receiving service for interventional medical management;
   b. The number of procedures performed in the following categories:
      i. Diagnostic;
      ii. Elective PCI; and
      iii. Primary PCI.
   c. PCI in-hospital risk adjusted rate of bleeding (all patients);
   d. PCI in-hospital risk adjusted mortality rate (patients with ST segment elevation myocardial infarction);
   e. PCI in-hospital risk adjusted mortality (ST segment elevation myocardial infarction patients excluded);
   f. As appropriate, the proportion of PCI procedures with post procedure myocardial infarction:
      i. Among hospitals routinely collecting post-PCI biomarkers; or
      ii. Among hospitals who do not routinely collect post-PCI biomarkers;
   g. Composite proportion of PCI patients with death, emergency coronary artery bypass graft, stroke, or repeat target vessel revascularization; and
   h. Median time to immediate PCI for ST segment elevation myocardial infarction patients (in minutes).

(N) Each level II service shall provide notice to the department within thirty days of receipt of their service's NCDR report, for any quarter in which the service falls at or below the twenty-fifth percentile for the specific quality metrics designated in this paragraph. The report shall include a statement for each metric not met, an explanation as to why the service did not meet the metric, and how the service intends to meet the metric in the future. The report shall include the following metrics:

1. PCI in-hospital risk adjusted rate of bleeding (all patients);
2. PCI in-hospital risk adjusted mortality rate (patients with ST segment elevation myocardial infarction);
3. PCI in-hospital risk adjusted mortality (ST segment elevation myocardial infarction patients excluded);
(4) As appropriate, the proportion of PCI procedures with post procedure myocardial infarction:
   (a) Among hospitals routinely collecting post-PCI biomarkers; or
   (b) Among hospitals who do not routinely collect post-PCI biomarkers;

(5) Composite proportion of PCI patients with death, emergency coronary artery bypass graft, stroke, or repeat target vessel revascularization; and

(6) Median time to immediate PCI for ST segment elevation myocardial infarction patients (in minutes).

(O) Each level II service shall obtain an signed informed consent form from each patient prior to performance of any procedure. The informed consent shall include an acknowledgment by the patient that the procedure is being performed in a cardiac catheterization service without an on-site open heart surgery service and an acknowledgment that, if necessary as the result of an adverse event, the patient may be transferred to a receiving service for medical/surgical management.

(P) Nothing in this rule shall prohibit the provision of emergency care, including emergent PCI, when clinically indicated. The service shall notify the department within forty-eight hours of any incident requiring action outside the scope of services authorized to be performed at the level II designation. The notification shall:
   (1) Maintain patient confidentiality;
   (2) Indicate when the incident occurred;
   (3) Describe the nature of the emergency and what actions were taken; and
   (4) Include the outcome.

3701-84-30.3 Level III cardiac catheterization service standards.

(A) Level III cardiac catheterization service or “level III service” means an adult cardiac catheterization service located in a hospital with an on-site open heart surgery service that provides all levels of diagnostic and therapeutic cardiac catheterization procedures.

(B) Each level III service shall operate on an organized, regular, twenty-four hour a day, seven days a week basis to perform primary PCI.

(C) Each provider of a level III service shall have provided at least one year of service performing diagnostic cardiac catheterizations prior to providing notice to the director of their intent to provide level III services. Accelerated designation may be granted to a service on a case-by-case basis by the director and shall not be construed as constituting precedent for the granting of an accelerated designation for any other service provider.

(D) Each level III service shall have the following:
   (1) An on-site adult open heart surgery service available within the same hospital as the cardiac catheterization laboratory and is immediately accessible from the cardiac catheterization laboratory by gurney;
   (2) An experienced cardiovascular surgical team that is readily available in less than sixty minutes on a twenty-four hour a day basis in the event that emergency open heart surgery is required; and
   (3) Support services consistent with the 2012 expert consensus document, table 2: support services.

(E) Each level III service shall comply with the personnel and staffing requirements set forth in rule 3701-84-31 of the Administrative Code.

(F) In addition to the general facilities, equipment, and supplies requirements set forth in rule 3701-84-32 of the Administrative Code, each level III service, shall have:
   (1) One or more surgical suites that are equipped to accommodate thoracic and cardiac surgical procedures requiring cardiopulmonary bypass, with appropriate staff available in less than sixty minutes; and
(2) At a minimum, equipment consistent with the 2014 expert consensus document, table: 3 facility requirements.

(G) Each level III service shall comply with the safety standards set forth in rule 3701-84-33 of the Administrative Code.

(H) Major complications and emergency transfers should be reviewed at least once every ninety days by the quality assessment review process required in paragraph (E) of rule 3701-84-30 of the Administrative Code;

(I) Each provider of a level III service shall obtain enrollment and maintain participation in the national cardiovascular data registry/CathPCI registry (NCDR).

(J) Beginning January 1, 2017, each provider of level III services shall submit an annual report to the department based upon the data submitted to the NCDR during the preceding year. At a minimum, the report shall;

(1) Maintain patient confidentiality;

(2) Be filed with the department within one hundred twenty days after the close of the calendar year (April thirtieth); and

(3) Include the following information:

(a) The number of procedures performed in the following categories:

(i) Diagnostic;

(ii) Elective PCI; and

(iii) Primary PCI.

(b) PCI in-hospital risk adjusted rate of bleeding (all patients);

(c) PCI in-hospital risk adjusted mortality rate (patients with ST segment elevation myocardial infarction);

(d) PCI in-hospital risk adjusted mortality (ST segment elevation myocardial infarction patients excluded);

(e) As appropriate, the proportion of PCI procedures with post procedure myocardial infarction:

(i) Among hospitals routinely collecting post-PCI biomarkers; or

(ii) Among hospitals who do not routinely collect post-PCI biomarkers;

(f) Composite proportion of PCI patients with death, emergency coronary artery bypass graft, stroke, or repeat target vessel revascularization; and

(g) Median time to immediate PCI for ST segment elevation myocardial infarction patients (in minutes).

(K) Each level III service shall provide notice to the department within thirty days of receipt of their service's NCDR report, for any quarter in which the service falls at or below the twenty-fifth percentile for the specific quality metrics designated in this paragraph. The report shall include a statement for each metric not met, an explanation as to why the service did not meet the metric, and how the service intends to meet the metric in the future. The report shall include the following metrics:

(1) PCI in-hospital risk adjusted rate of bleeding (all patients);

(2) PCI in-hospital risk adjusted mortality rate (patients with ST segment elevation myocardial infarction);

(3) PCI in-hospital risk adjusted mortality (ST segment elevation myocardial infarction patients excluded);

(4) As appropriate, the proportion of PCI procedures with post procedure myocardial infarction:

(a) Among hospitals routinely collecting post-PCI biomarkers; or

(b) Among hospitals who do not routinely collect post-PCI biomarkers;

(5) Composite proportion of PCI patients with death, emergency coronary artery bypass graft, stroke, or repeat target vessel revascularization; and

(6) Median time to immediate PCI for ST segment elevation myocardial infarction.
patients (in minutes).

(L) Each level III service provider shall obtain a signed informed consent from each patient prior to the performance of any procedure.

3701-84-31 General personnel/staffing - adult cardiac catheterization service.

(A) The provider of an adult cardiac catheterization service, or “service,” shall designate a medical director.

(B) In addition to the requirements of rule 3701-84-08 of the Administrative Code and any requirements of this rule, the medical director of service shall:

1. Have at least five years catheterization experience and recognized skills in the cardiac catheterization laboratory;
2. Have performed at least five hundred catheterizations;
3. Be an active participant in the operation of the cardiac catheterization laboratory by performing at least fifty cardiac catheterization procedures annually in the cardiac catheterization service where he or she is the medical director; and
4. Be responsible for oversight of quality of care provided in the cardiac catheterization laboratory and be an active participant in the cardiac catheterization laboratory’s quality assessment review process required by paragraph (E) of rule 3701-84-30 of the Administrative Code.

(C) In addition to the requirements of paragraph (B) of this rule, the medical director of a level II or level III service shall:

1. Be board certified in interventional cardiology; and
2. Have at least five years experience in interventional cardiology; or
3. Have performed, as the primary operator, at least five hundred percutaneous coronary interventions.

(D) Each provider of a service shall have at least two licensed physicians credentialed to provide cardiac catheterization services on staff who are knowledgeable of the laboratory’s protocols and equipment by providing cardiac catheterization services at the hospital. Only physicians appropriately credentialed to provide cardiac catheterization services may be the primary operator of a cardiac catheterization procedure.

(E) Each provider of a service shall consider the American college of cardiology/American heart association/American college of physicians task force 2013 update of clinical competence statement on coronary artery interventional procedures in assessing clinical competency. At a minimum, all physicians who perform cardiac catheterization procedures shall:

1. Have training that includes at least one year dedicated to cardiac catheterization procedures;
2. Be a fully-accredited member of the service’s staff; and
3. Participate in the cardiac catheterization laboratory’s quality assurance programs, including peer review.

(F) In addition to requirements contained in paragraph (E) of this rule, physicians performing percutaneous coronary interventions (PCI) who have not performed PCI prior to March 20, 1997 shall have completed a fellowship training program in interventional cardiology.

(G) In addition to the requirements of paragraphs (A), (B), and (D) of this rule and the general personnel requirements of paragraph (B) of rule 3701-84-08 of the Administrative Code, the provider of a service shall have available a sufficient number of qualified staff who are able to supervise and conduct the service including the following:

1. Support staff, all of whom are skilled in cardiac life support, comprised of individuals skilled in the following:
   a. Digital imaging;
(b) Systematic quality control testing;
(c) Patient observation;
(d) Critical care;
(e) Monitoring and recording electrocardiographic and hemodynamic data;
(f) Radiographic and angiographic imaging techniques and safety principles; and
(g) For catheterization laboratories where physiological studies are performed:
   (i) Managing blood samples:
   (ii) Performing blood gas measurements and calculations; and
   (iii) Assisting with indicator dilution studies.

(2) Nursing personnel which may include nurse practitioners, registered nurses, licensed practical nurses, and nursing assistants. Nursing personnel involved in the provision of cardiac catheterization services shall have experience in critical care, and have knowledge of operating room techniques. Nurse practitioners, registered nurses, and licensed practical nurses involved in the provision of cardiac catheterization services shall be advanced cardiac life support certified, have experience in cardiovascular medications and shall have the ability to begin administration of intravenous solutions. Nurse practitioners may assume some of the duties of a physician as permitted by law. However, ultimate responsibility for procedures shall always remain with the physician of record.

(H) Respiratory therapists and critical care staff shall be immediately available at all times to care for patients.

(I) Biomedical, electronic, and radiation safety experts shall be involved in maintaining the equipment utilized by the service.

(J) Staffing requirements of this rule may be met by individuals with equivalent or greater qualifications if the replacement's scope of practice encompasses the duties of the required staff.

3701-84-32 General facilities, equipment, and supplies - adult cardiac catheterization service.

(A) Each provider of an adult cardiac catheterization service, or “service” shall provide adequate, properly designed space to perform cardiac catheterization procedures safely and effectively. The amount of space may vary with the types of procedures performed and the nature of the facility (e.g., interventional versus diagnostic, teaching versus non-teaching).

(B) Each service shall utilize the following:
   (1) Procedure rooms that meet or exceed minimum space requirements established by the equipment manufacturer and are at least four hundred square feet or, if constructed or renovated or cardiac catheterization services initiated after March 20, 1997, at least five hundred square feet. Each procedure room shall have a designated control room;
   (2) Control rooms of at least ninety-six square feet for each procedure room served. Control rooms that are constructed or renovated or cardiac catheterization services initiated after March 20, 1997 shall have at least one hundred and fifty square feet for each procedure room served; and
   (3) Clean utility rooms that can sufficiently and efficiently supply the procedure rooms.

(C) A general radiology room cannot be used as a cardiac catheterization procedure room.

(D) Equipment described in this paragraph may be replaced by newer technology that has equivalent or superior capability as determined by the provider of the service. In assessing these new technologies, consideration should be given to recommendations of recognized professional societies and accrediting bodies (e.g. the American college of cardiology). All services shall, at a minimum have the following equipment:
   (1) High quality x-ray imaging with mutiaxial position capability;
(2) A three-phase, twelve pulse generator with an output of eighty to one hundred kilowatts or a constant potential generator with an output of at least one hundred kilowatts at one hundred kilovolts;  
(3) Multimode or cesium iodide image intensifiers;  
(4) High-quality matched optics;  
(5) Appropriate imaging modality for review and storage of images;  
(6) Digital imaging equipment;  
(7) Carbon-fiber table tops;  
(8) A mechanism for continuous monitoring of a patient's blood pressure and electrocardiogram;  
(9) An adequate supply and variety of catheters, guide wires, and sheaths;  
(10) A crash cart with equipment for ventilatory support;  
(11) A defibrillator;  
(12) A temporary pacemaker; and  
(13) An intra-aortic balloon pump or other percutaneous mechanical circulatory assistance device of superior capability.

(E) The provider of a service shall provide and maintain radiation generating equipment in accordance with applicable state and federal requirements as specified in Chapter 3748 of the Revised Code and the rules adopted thereunder.

3701-84-33 Safety guidelines and standards.

(A) The provider of an adult cardiac catheterization service, or “service,” shall establish and maintain safety guidelines, and practices and policies in accordance with applicable United States nuclear regulatory commission regulations, applicable provisions of Chapter 3748 of the Revised Code, and the rules adopted pursuant to that chapter to assure a safe environment for patients, visitors, and personnel.

(B) The provider of a service shall establish, maintain and follow electrical safety policies that, at a minimum, include:  
(1) A safe primary electrical wiring system;  
(2) Electrical isolation of all equipment attached to a patient;  
(3) Use of an equipotential hardwired grounding system for all equipment; and  
(4) Periodic inspection of the electrical system and measurement of interequipment current leakage.

(C) The provider of a service shall periodically survey all of the equipment utilized by the service and perform preventive maintenance on a schedule that, at a minimum, conforms to manufacturers’ recommendations. Results of surveillance and preventive maintenance activities shall be internally documented.

3701-84-34 Adult cardiac catheterization service performance measures.

[Editor’s Note: Appendix A to this rule can be found at www.odh.ohio.gov/rules/final/finalrules.aspx.]

(A) By the second year of operation:  
(1) Each level I service should perform a minimum of three hundred procedures.  
(2) Each level II or level III service should perform a minimum of three hundred total procedures, including two hundred PCI, consistent with the 2013 American college of cardiology/American heart association/society for cardiovascular angiography and intervention update on the clinical competence statement on coronary artery interventional procedures, available at www.acc.org., and the 2012 expert consensus document.
(B) Volume goals shall be considered by the director in conjunction with other indicators of quality and not as the sole indicator of service performance. However, a level II or level III service that provides less than one hundred fifty PCI procedures per year may be subject to an independent third party review, including individual case review, by a third party approved by the director. The service shall be responsible for:
   (1) Providing a copy of the review to the director; and
   (2) Payment of any fees associated with the independent third party review to the provider of the review.

3701-84-34.1 Inspection and review of adult cardiac catheterization services.

(A) In addition to the inspection and audit requirements set forth in rule 3701-84-06 of the Administrative Code, the director shall conduct an inspection of each adult cardiac catheterization service approximately once every three years.

(B) The number of procedures performed by the service shall be considered by the director in conjunction with other indicators of quality and not as the sole indicator of the service's performance.

(C) Failure to perform the number of procedures established in paragraph (A) of rule 3701-84-34 of the Administrative Code may result in any or all of the following:
   (1) An extended review of the service by the director;
   (2) Mandatory peer review of PCI procedures performed by the service;
   (3) Annual inspections until such time as the service performs the established number of procedures for a period of two consecutive years or the director determines that annual inspection is no longer required; or
   (4) At the discretion of the director, the establishment of a probationary period. If a probationary period is imposed, at a minimum, the service shall be notified of the following:
      (a) The time period for which the probationary period is effective;
      (b) The actions that may be taken by the director for a service's failure to successfully complete the probationary period.

3701-84-34.2 Order to cease operations of an adult cardiac catheterization service.

(A) In accordance with the compliance actions set forth in rule 3701-84-05 of the Administrative Code, the director may issue an order to cease operations to an adult cardiac catheterization service, or service, for the following:
   (1) The director determines, based on clinical criteria including, but not limited to, major complications, the frequency of emergency transfers, and death, that the service poses an imminent threat of serious physical or life-threatening danger to the recipients of cardiac catheterization services;
   (2) Failure of the service to meet designated quality outcome benchmarks, as evidenced by annual reports of the service's national cardiovascular registry/CathPCI registry reports, or the service's annual reportable interventions; or
   (3) Failure of the service to comply with the provisions of this chapter.

(B) The director shall provide a written order to cease operations to the service via certified mail.

(C) An order to cease operations may appealed in accordance with Chapter 119 of the Revised Code. A notice of appeal must be filed with the director not later than thirty days after the notice's date of mailing. If requested by the service, the director shall provide a hearing in accordance with Chapter 119 of the Revised Code.
Chapter 2. Regulated Healthcare Facilities
Part III. Health Care Services

Open Heart Surgery

3701-84-36 Open heart surgery standards.

(A) The provisions of rules 3701-84-36 to 3701-84-40 of the Administrative Code are applicable to each provider of open heart surgery services performing procedures on adult patients greater than or equal to twenty-two years of age, regardless of the date service was initiated. An adult open heart surgery service may serve a patient greater than or equal to eighteen years of age and less than twenty-two years of age if the patient's attending physician and the adult service's medical director determine that the adult service best serves the needs of the patient.

(B) Each provider of an open heart surgery service shall have available at all times and accessible by gurney in the same building, adequate facilities for the open heart surgery service, including but not limited to the following:

1. Cardiac operating rooms;
2. A cardiac surgery intensive care unit;
3. A post-intensive care “step-down” unit; and
4. Cardiac catheterization services.

(C) Each provider of an open heart surgery service shall have the capability, equipment, and personnel to perform emergency open heart procedures on a twenty-four hour a day, seven days a week basis. A cardiovascular surgical team shall be available in less than sixty minutes on a twenty-four hour a day basis.

(D) Each provider of an open heart surgery service shall have access to the following services:

1. Cardiology;
2. Hematology;
3. Nephrology;
4. Pulmonary medicine;
5. Infectious disease;
6. Radiology;
7. Neurology;
8. Emergency care;
9. Electrocardiography;
10. Stress testing;
11. Nuclear medicine;
12. Pathology;
13. Echocardiography;
14. Pulmonary function testing;
15. Cardiac rehabilitation;
16. Pre-admission testing; and
17. Follow-up outpatient nursing referral services.

(E) An open heart surgery service shall only be provided in a fully permanent setting within the permanent frame of the building of a registered hospital that is classified as a general hospital or as a special hospital - cardiac that primarily furnishes limited services to patients with cardiac conditions. The hospital shall be fully equipped to perform the service.

(F) Each provider of an adult open heart surgery service shall obtain and maintain enrollment in the society for thoracic surgeons (STS) adult cardiac surgery database. Adult open heart surgery services in operation as of the effective date of this rule shall obtain enrollment no later than January 1, 2018.

(G) Beginning July 1, 2019, each provider of an adult open heart surgery service shall submit an annual report to the department based upon the data submitted to the STS during the
preceding calendar year. At a minimum, the report shall:

(1) Maintain patient confidentiality;
(2) Include the following information:
(a) The number of open heart procedures performed;
(b) The number of coronary artery bypass grafting (CABG) procedures performed;
(c) In-patient risk adjusted mortality rate for CABG; and
(d) Risk adjusted rate of the following for CABG:
   (i) Prolonged intubation (ventilation);
   (ii) Deep sternal wound infection (mediastinitis);
   (iii) Post-operative renal insufficiency;
   (iv) Surgical re-exploration; and
   (v) Permanent stroke.
(H) Each adult open heart surgery service shall provide notice to the department within thirty days of receipt of their service's STS report for any reporting period in which the service falls at or below the tenth percentile for the national quality forum (NQF) measures for CABG. The report shall include an explanation as to why the service did not meet the measure, and how the service intends to meet the measure in the future. The report shall be based upon the risk adjusted rates for the following:
(1) In-patient mortality rate;
(2) Prolonged intubation (ventilation);
(3) Deep sternal wound infection (mediastinitis);
(4) Post-operative renal insufficiency;
(5) Surgical re-exploration; and
(6) Stroke/cerebrovascular accident.
(I) Each provider of an adult open heart surgery service shall have a written policy requiring the documentation of any internal review of surgeons with a combination of high risk adjusted mortality and low individual surgeon volume.
(J) Each provider of an adult open heart surgery service shall utilize a coordinated and integrated multidisciplinary approach to patient care, including meetings between cardiologists and cardiovascular surgeons as necessary, to address the needs of patients with complex cardiovascular disease.
(K) Each provider of an adult open heart surgery service shall have established criteria that cardiologists and surgeons must utilize for the purposes of patient selection and appropriateness.
(L) Each provider of an adult open heart surgery patient selection and appropriateness criteria:
(1) Shall be consistent with the 2011 American college of cardiology/American heart association (ACC/AHA) guideline update for coronary artery bypass graft surgery, available at www.acc.org; and

3701-84-37 Personnel and staffing; minimum requirements.

(A) The medical director of the adult open heart surgery service shall be board-certified in thoracic surgery. The medical director shall:
(1) Be responsible for oversight of care in the service;
(2) Be credentialed to provide adult open heart surgery services at the hospital where the adult open heart surgery service is located; and
(3) Actively perform open heart procedures at the open heart surgery service where they
are the medical director.

(B) Each provider of an open heart surgery service shall have at least two thoracic surgeons on staff, credentialed to perform open heart procedures at the hospital and actively perform open heart procedures at the hospital. The medical director of the open heart surgery service may be counted as one of the two required thoracic surgeons.

(C) Each provider of an open heart surgery service shall have competent and qualified staff available, including but not limited to:

(1) Surgical assistants to assist the surgeon. A surgical assistant may be a resident, another physician, or a specially trained surgical assistant;

(2) Cardiac anesthesiologists with special training in the anesthetic and supportive requirements of open heart surgery;

(3) Nursing staff that shall include appropriate numbers of scrub nurses or technicians and a circulating nurse based on the needs of the surgeons and the patient. A minimum of two staff, including a circulating nurse and one scrub nurse or technician shall be present for each procedure. Nursing staff shall be trained in cardiac surgical operating room procedures;

(4) A cardiac surgical intensive care unit shall be staffed at the appropriate nurse patient ratio commensurate with the acuity of the patients and the amount of time following surgery that such care is necessary. Cardiac surgical intensive care nurses shall be advanced cardiac life support (ACLS) certified and have specialized training to develop the theoretical knowledge and clinical skills required for the care of cardiac surgical patients; and

(5) A minimum of two perfusionists who are graduates of an accredited cardiovascular perfusion or perfusion technology program or have equivalent training and experience.

(D) In addition to the requirements of paragraph (C) of this rule, an open heart surgery service shall have appropriate staff available, including but not limited to:

(1) Pharmacists;

(2) Dietitians;

(3) Respiratory therapists;

(4) Physical therapists;

(5) Cardiac rehabilitation therapists; and

(6) Social workers.

(E) Staffing requirements of this rule may be met by individuals with equivalent or greater qualifications if the replacement's scope of practice encompasses the duties of the required staff.

3701-84-38 Facilities and equipment; minimum standards.

(A) Operating rooms used for open heart surgery shall have at a minimum four hundred and fifty square feet provided sufficient additional support space is available adjacent to each room for perfusion supplies, set up, and other storage. Operating rooms for open heart surgery constructed or renovated or open heart surgery services initiated after March 1, 1997 shall have at a minimum of six hundred square feet.

(B) Each operating room used for open heart surgery shall have appropriate numbers of oxygen and vacuum outlets and proper operating room lighting. Fiber optic headlights shall be provided.

(C) Equipment and technology described in this paragraph may be replaced by newer technology and equipment with equivalent or superior capability. In assessing this new equipment and technology, consideration should be given to the recommendations of recognized professional societies and accrediting bodies. The provider of an open heart surgery service shall have at least the following:

(1) Two fully operational cardiopulmonary bypass machines equipped with;

(a) A time and temperature module;
Chapter 2. Regulated Healthcare Facilities
Part III. Health Care Services

(b) An air bubble and level detector system;
(c) A blender (air and oxygen mixer);
(d) An oxygen analyzer;
(e) A saturation monitor;
(f) Two pressure monitors;
(g) A back up pump head; and
(h) A heater/cooler (one back up).
(2) Appropriate patient monitoring equipment with overhead slave, electrocardiogram, three pressure reading, and cardiac output;
(3) An electrocauter;
(4) A heat exchanger;
(5) Drug infusion equipment;
(6) Transportable monitoring equipment including electrocardiogram, defibrillator, oxygen saturation monitor, and pressure transducer;
(7) An intra-aortic balloon pump or other percutaneous mechanical circulatory assistance device of superior capability;
(8) The availability of a transesophageal echo;
(9) A cardiac pacemaker;
(10) Routine blood gas analysis and chemistry including blood sugar analysis in the operating room;
(11) Defibrillators;
(12) A heating blanket;
(13) An ice bath;
(14) An automated coagulation timer (ACT) machine; and
(15) A cell saver.

(D) Each provider of an open heart surgery service shall ensure that a fully equipped and staffed cardiac surgical intensive care unit that meets the needs of the cardiac surgery patient is available in the building and accessible by gurney from the open heart surgery is performed. The cardiac surgical intensive care unit shall ensure that the number of available intensive care unit beds shall be approximately one-half the number of open heart operations performed per week; however, the beds are not required to be dedicated only to cardiac surgery patients.

(E) The provider of an open heart surgery service shall ensure that a post-intensive care “step-down” unit with telemetry is available in the building and accessible by gurney from where the open heart surgery is performed. The number of “step-down” beds shall be approximately equal to the number of procedures performed per week; however, the beds are not required to be dedicated only to cardiac surgery patients.

3701-84-39 Quality assessment and performance improvement - open heart surgery service.

(A) In addition to the general quality assessment and performance improvement requirements set forth in rule 3701-84-12 of the Administrative Code, each provider of an open heart surgery service shall:
(1) As part of the service’s overall quality assessment and performance improvement process:
   (a) Utilize the quality performance measures outcomes data obtained from the service’s participation in the society for thoracic surgeons national database; and
   (b) Include a periodic review and evaluation of the multidisciplinary meetings required by paragraph (J) of rule 3701-84-36 of the Administrative Code.
(2) Have a regular formal morbidity and mortality conference chaired by the medical
director of the open heart surgery service or the medical director's designee. The morbidity and mortality conferences shall:
   (a) Be held at a minimum once a month or more frequently depending on the need; and
   (b) Review all deaths and complications such as reoperation for bleeding, deep sternal wound infection, stroke, and perioperative myocardial infarction and any patterns that might indicate a problem shall be investigated and remedied if necessary.

(B) Each provider of an open heart surgery service shall maintain a clinical pathway for coronary bypass graft surgery and valve replacements.

3701-84-40 Adult open heart surgery service performance measures.

(A) Each open heart surgery service should meet a volume goal of at least one hundred and fifty open heart procedures per year by the second full year of operation to ensure efficiency and a minimum competency.

(B) Volume goals shall be considered by the director in conjunction with other indicators of quality and not as the sole indicator of service performance.

(C) Failure to meet a volume goal for two consecutive years may trigger an extended review of the open heart surgery service by the director, including possible inspections.

(D) A volume goal of at least twenty five open heart procedures per surgeon per year is recommended and the combination of high risk adjusted mortality and low individual surgeon volume shall trigger a thorough internal review of an individual surgeon by the provider of the open heart surgery service.

(E) Failure to meet the volume goal established in paragraph (A) of this rule may result in any or all of the following:
   (1) An extended review of the service by the director;
   (2) Mandatory peer review of PCI procedures performed by the service;
   (3) Annual inspections until such time as the service performs the established number of procedures for a period of two consecutive years or the director determines that annual inspection is no longer required; or
   (4) At the discretion of the director, the establishment of a probationary period. If a probationary period is imposed, at a minimum, the service shall be notified of the following:
      (a) The time period for which the probationary period is effective;
      (b) The actions that may be taken by the director for a service’s failure to successfully complete the probationary period.

Pediatric Intensive Care Units

3701-84-61 Pediatric intensive care service requirements.

(A) The provisions of rules 3701-84-61 to 3701-84-65 of the Administrative Code are applicable to each provider of a pediatric intensive care service (PICU) services regardless of the date service was initiated.

(B) Each provider of a PICU service shall develop and follow written comprehensive and effective patient care policies and procedures that designate the severity of illnesses that may be treated and the types of care that may be provided in the PICU. The PICU shall operate within the scope of this service plan.

(C) A temporary expansion of PICU services due to seasonal illness or outbreak necessitating an increase in the number of PICU beds does not require notification to the director under the change in the scope of the HCS requirement set forth in paragraph (G) of rule 3701-84-04 of the Administrative Code. Any expansion of PICU services for these purposes shall meet all established requirements for a PICU.
(D) Each provider of a PICU service shall require that the pediatric intensivist or the pediatric intensivist’s designee be available in thirty minutes or less, on a twenty-four hour a day basis.

(E) The following physicians shall be available to the PICU in less than sixty minutes on a twenty-four hour a day, seven days a week basis:

1. An anesthesiologist with demonstrated training and experience in pediatrics;
2. A pediatric surgeon or a general surgeon with demonstrated training and experience in pediatrics;
3. Pediatric subspecialists to include:
   a. A pediatric critical care medicine physician (intensivist);
   b. A cardiologist;
   c. A nephrologist;
   d. A hematologist/oncologist;
   e. A gastroenterologist;
   f. An endocrinologist;
   g. A pulmonologist;
   h. An infectious disease specialist; and
   i. A neurologist;
4. Surgeon subspecialists with demonstrated training and experience in pediatrics, to include:
   a. A neurosurgeon;
   b. An otolaryngologist;
   c. A craniofacial (plastic) surgeon;
   d. An oral surgeon;
   e. An orthopedist; and
   f. A cardiovascular surgeon.
5. A radiologist with demonstrated training and experience in pediatrics;
6. A pathologist with demonstrated training and experience in pediatrics;
7. A psychiatrist or psychologist with demonstrated training and experience in pediatrics.

(F) Each provider of a PICU service shall have access to the following pediatric specialists for consultation and treatment as necessary, either on staff or by arrangement or contract:

1. A neonatologist;
2. An allergist or immunologist; and
3. A geneticist.

(G) Each provider of a PICU service without an on-site pediatric cardiovascular surgery service shall maintain a written transfer agreement for emergency pediatric cardiovascular surgery services with a provider of pediatric cardiovascular surgery services that can be reached expeditiously from the catheterization laboratory or angiography suite, required in paragraph (M)(2) of this rule, by available emergency vehicle in less than sixty minutes on a twenty-four hour a day, seven days a week basis and that provides the greatest assurance for patient safety.

(H) Each provider of a PICU service shall have available at least two operating rooms with the capability, equipment and personnel to perform emergency procedures in less than sixty minutes on a twenty-four hour a day, seven days a week basis.

(I) Each provider of a PICU service shall have access to a blood bank with all blood components available twenty-four hours a day, seven days a week. Unless some unusual antibody is encountered, blood typing and cross matching shall allow for transfusion in less than sixty minutes.

(J) Each provider of the PICU service shall have radiology services available at all times.
Chapter 2. Regulated Healthcare Facilities
Part III. Health Care Services

to the PICU to meet the needs of the patient and shall include:

(1) Portable radiology;
(2) Fluoroscopy;
(3) Computerized tomography scanning;
(4) Ultrasonography;
(5) Angiography;
(6) Nuclear scanning; and
(7) Magnetic resonance imaging;

(K) Radiation therapy services shall be available on-site or through contract with another hospital.

(L) Each provider of a PICU service shall have the following clinical laboratory capabilities:

(1) Microspecimen capability and one hour turnaround time for:
   (a) Clotting studies and measurements of complete blood cell count;
   (b) Differential count;
   (c) Platelet count;
   (d) Urinalysis;
   (e) Electrolytes;
   (f) Blood urea nitrogen;
   (g) Creatinine;
   (h) Glucose;
   (i) Calcium;
   (j) Prothrombin time;
   (k) Partial thromboplastin time; and
   (l) Cerebrospinal fluid cell counts;

(2) Blood gas values available within fifteen minutes;

(3) Within three hours, results of:
   (a) Drug screening and levels of serum ammonia;
   (b) Serum and urine osmolarity;
   (c) Phosphorus; and
   (d) Magnesium.

(4) Preparation of gram stains and bacteriological cultures available twenty-four hours a day, seven days a week.

(M) Each provider of a PICU service shall have access to the hospital's pharmacy service and personnel on-site capable of dispensing all necessary medications for pediatric patients of all types and ages, twenty-four hours a day, seven days a week.

(N) Diagnostic cardiac and neurological services shall be available twenty-four hours per day to the provider of a PICU service as needed and technicians with special training in pediatrics should be available to perform the following studies:

(1) Electrocardiograms, two-dimensional and echocardiograms and electroencephalograms;

(2) A catheterization laboratory or angiography suite; and

(3) Doppler ultrasonograph devices and evoked potential monitoring equipment.

(O) Each provider of a PICU service shall timely provide hemodialysis equipment and competent and qualified staff experienced with pediatric patients available twenty-four hours a day, seven days a week.

(P) Each provider of a PICU service shall have an integrated communication system with a local emergency medical transport system.

(Q) Each provider of a PICU service shall have a secondary emergency communication system available twenty-four hours a day, seven days a week into the PICU.

(R) Each provider of a PICU service shall have an internal transportation system and
competent and qualified staff for effective transport.

(S) Each provider of a PICU service shall maintain a communication link to a federal, state, or local poison control center.

(T) A PICU shall only be operated in a fully permanent setting within the permanent frame of the building of a registered hospital that is classified as a general hospital or a children's hospital. The hospital shall be fully equipped to meet the needs of the PICU.

3701-84-62 Personnel and staffing; minimum standards.

(A) Each provider of a PICU service shall have a medical director whose appointment, acceptance and responsibilities shall be in writing and on file in the PICU.

(B) The PICU medical director shall be:

(1) An active service provider in the PICU where he or she is the medical director; and

(2) Be board-certified in one of the following:

(a) Pediatric critical care;

(b) Anesthesiology with practice limited to infants and children and with special qualifications in critical care medicine; or

(c) Pediatric surgery with added qualifications in surgical critical care medicine.

(C) The PICU medical director shall:

(1) Participate in development, review, and implementation of PICU policies;

(2) Participate in budget preparation;

(3) Coordinate staff education;

(4) Maintain a data base and/or vital statistics that describe unit experience and performance;

(5) Supervise resuscitation techniques, including educational component;

(6) Supervise quality control, assessment and improvement activities, including morbidity and mortality reviews;

(7) Coordinate research;

(8) Have the authority to consult on any PICU patient; and

(9) Name qualified designees to fulfill the medical director's duties during absences.

(D) Other individuals may supervise the activities required in paragraph (C) of this rule, but the PICU director shall participate in each.

(E) In addition to the pediatric intensivist required in paragraph (C) of rule 3701-84-61 of the Administrative Code, each provider of a PICU service shall have a licensed physician assigned to the PICU who:

(1) Is available to provide beside care to the patients in the PICU; and

(2) Is skilled in and has the credentials to provide emergency care to critically ill children.

These responsibilities may be shared or delegated to an advanced practice nurse with specialized training in pediatric critical care and credentials and privileges to provide care in the PICU.

(F) Each provider of a PICU service shall have a nurse manager dedicated to the PICU who shall be supervised by the director of pediatric nursing or equivalent. The PICU nurse manager shall have specific training and experience in pediatric critical care. Pediatric critical care registered nurse (CCRN) certification is recommended for the nurse manager, but not required.

(G) The PICU nurse manager shall participate in the following:

(1) Development, review, and implementation of written policies and procedures for the PICU;

(2) Coordination of multidisciplinary staff education;

(3) Quality assurance;

(4) Nurse research;
(5) Budget preparation with the medical director; and
(6) Name qualified designees to fulfill their duties during absences.
These responsibilities may be shared or delegated to advanced practice nurses, but the PICU nurse manager shall maintain overall responsibility for these requirements.

(H) Nursing to patient ratios in the PICU service shall be sufficient to accommodate the acuity level and volume of patients, usually ranging from two nurses to one patient to one nurse to three patients and adjusted as needed.

(I) Required nursing skills for PICU nurses shall include:
(1) Recognition, interpretation and recording of various physiologic variables;
(2) Drug and fluid administration;
(3) Cardio-pulmonary resuscitation (CPR) certification;
(4) Pediatric advanced life support certification (PALS);
(5) Respiratory care techniques including chest physiotherapy, endotracheal suctioning and management, and tracheostomy care;
(6) Preparation and maintenance of patient monitors; and
(7) Psychosocial skills to meet the needs of both patient and family.

(J) Each provider of a PICU service shall provide to nursing staff:
(1) An orientation the the PICU;
(2) A clinical and didactic orientation in pediatric critical care; and
(3) On-going pediatric critical care in-service education.

(K) Each provider of a PICU service shall have respiratory therapy staff assigned to the unit in-house twenty-four hours a day, seven days a week who:
(1) Have clinical experience managing pediatric patients with respiratory failure; and
(2) It is recommended that all respiratory therapy staff have pediatric advanced life support (PALS) training or an equivalent course.

(L) Other PICU staff shall include:
(1) Biomedical technicians (in-house or available within one hour on a twenty-four hours a day, seven day a week basis);
(2) A social worker;
(3) A pharmacist in-house twenty-four hours per day;
(4) A radiology technician;
(5) A registered dietitian;
(6) A physical therapist;
(7) An occupational therapist;
(8) A child life specialist; and
(9) A unit clerk.

(M) As part of a continuing education program, the provider of a PICU service shall:
(1) Have staff participate in regional pediatric critical care education programs; and
(2) Provide regularly scheduled resuscitation practice sessions.

(N) Staffing requirements of this rule may be met by individuals with equivalent or greater qualifications if the replacement's scope of practice encompasses the duties of the required staff.

3701-84-63 Facilities; design and minimum standards.

(A) Each PICU shall have controlled access with no through traffic.
(B) The location of the PICU:
(1) Is recommended to be in close proximity to the physician on-call office.
(2) Shall be in close proximity to a family waiting area; and
(3) Shall be available by gurney to the emergency department, the surgical area, and the recovery area.
(C) Each PICU shall contain the following distinct areas:
(1) Patient isolation rooms;
(2) A clean linen room;
(3) A soiled linen room;
(4) Equipment storage;
(5) Counseling;
(6) A medication station with drug refrigerator and locked narcotic cabinet;
(7) A nourishment station;
(8) Hand washing facilities;
(9) Staff and patient toilets; and
(10) Patient personal effects storage.
(D) All patient rooms shall have:
(1) The capacity to provide patient privacy, such as through the use of walls or curtains;
(2) Easy, rapid access to the head of the bed; and
(3) Adequate electrical outlets, compressed air, oxygen, and vacuum outlets per bed
sufficient in number to supply all necessary equipment.
(E) Each PICU shall have a rapid and reliable system that timely reports and receives
laboratory results.

3701-84-64 Equipment and supplies; minimum requirements.

(A) Appropriate drugs for resuscitation and pediatric advanced life support shall be
present and immediately available for use in the treatment of any patient in the PICU.
(B) The following life-saving, therapeutic and monitoring equipment shall be present or
immediately available in the PICU:
(1) Portable equipment including:
(a) An emergency (“code” or “crash”) cart;
(b) A procedure lamp;
(c) Pediatric sized blood pressure cuffs for systemic arterial pressure determination;
(d) A doppler ultrasound;
(e) An electrocardiograph;
(f) A defibrillator or cardioverter with pediatric paddles;
(g) Thermometers with a range sufficient to identify extremes of hypothermia and
hyperthermia;
(h) Automated blood pressure apparatus;
(i) Transthoracic pacer with pediatric pads;
(j) Devices for accurately measuring body weight;
(k) Cribs and beds with head pressure apparatus;
(l) Infant warmers;
(m) Heating and cooling blankets;
(n) Bilirubin lights;
(o) Temporary pacemakers;
(p) A blood warming apparatus;
(q) A transport monitor;
(r) Infusion pumps with microinfusion capability;
(s) Oxygen tanks for transport and backup;
(t) Suction machines for transport and backup;
(u) Volumetric infusion pumps;
(v) Air-oxygen blenders;
(w) An air compressor;
(x) Gas humidifiers;
(y) Bag-valve mask resuscitators;
(z) An otoscope and ophthalmoscope;
(aa) Isolation carts; and
(bb) A portable electroencephalogram available in the hospital for recordings.
(2) Respiratory equipment appropriate to meet the needs of all patients, including:
(a) Mechanical ventilators suitable for pediatric patients of all sizes;
(b) Pulse oximeters and transcutaneous oxygen monitors;
(c) Carbon dioxide (CO2) monitors;
(d) Inhalation therapy equipment;
(e) Chest physiotherapy and suctioning;
(f) Spirometers; and
(g) Continuous oxygen analyzers with alarms.
(3) Small equipment including:
(a) Tracheal intubation equipment in adequate numbers and type to intubate patients of all ages;
(b) Endotracheal tubes of all pediatric sizes;
(c) Oral/nasal airways;
(d) Flexible bronchoscope;
(e) Suction catheters;
(f) Vascular access equipment; and
(g) Surgical trays for the following;
(i) Vascular cut-downs;
(ii) Open chest procedures;
(iii) Cricothyroidectomy; and
(iv) Tracheostomy;
(h) Intraosseous (IO) needles.
(4) Bedside monitors that shall be capable of providing continuous, sufficient and appropriate monitoring that have visible and audible alarms and are capable of producing a permanent hard copy of the rhythm strip.
(C) Each provider of a PICU service shall have the capability to continuously monitor a patient's:
(1) Electrocardiogram and heart rate;
(2) Respiration;
(3) Temperature;
(4) Systemic arterial pressure;
(5) Oxygen;
(6) Carbon dioxide;
(7) Central venous pressure;
(8) Pulmonary arterial pressure;
(9) Intracranial pressure; and
(10) Four pressures simultaneously.

3701-84-65 Quality assessment and improvement program.

Each PICU shall have a multidisciplinary collaborative quality assessment and performance improvement program. The written quality assessment and performance improvement program plan required under rule 3701-84-12 of the Administrative Code shall, at a minimum, include a review of:
(A) All morbidity and mortality instances;
(B) Utilization;
(C) Medical records;
(D) Discharge criteria and discharge planning; and
(E) Patient safety.

Radiation Therapy and Radiosurgery

3701-84-67 Radiation therapy and radiosurgery service standards.

(A) Each radiation therapy service shall evaluate the patient and assess tumors.
   (1) The evaluation shall be conducted by a radiation oncologist and shall include a
       medical history, a physical examination, a review of the patient's diagnostic studies and reports,
       and, when appropriate, consultation by the radiation oncologist with the referring physician.
       (2) The assessment of tumors shall include a definition of tumor, location, and the extent
           and stage of the tumor.
   (B) Each radiation therapy service shall provide the following as necessary to meet the
       needs of the patient:
       (1) Consultation;
       (2) Treatment planning, including the selection of dose, selection of treatment modality,
           and selection of treatment technique;
       (3) Determination of optimal treatment program and calculation of dose;
       (4) Simulation of treatment; and
       (5) Clinical treatment management and patient education.
   (C) Each stereotactic radiosurgery service shall establish policies and implement
       procedures for the follow-up of patients who are treated with curative intent and patients who
       are treated with palliative intent by the radiation oncologist and/or the neurosurgeon.
       (1) A radiation oncologist and/or a neurosurgeon shall establish a post-treatment follow-
           up plan for each patient.
       (2) Each stereotactic radiosurgery service shall establish policies and procedures to
           provide for the long term follow-up of patients treated with curative intent. The follow-up of
           patients treated with curative intent shall be for a five-year period whenever feasible or practical.
           The follow-up shall include documentation of the outcome of therapy including the results of
           treatment such as tumor control or survival, and significant sequelae.
       (3) If the stereotactic radiosurgery service is unable to conduct the follow up as planned,
           the service shall document the reason in the patient's medical record.
   (D) Radiation therapy shall be provided only upon written order of a radiation oncologist.
   (E) Stereotactic radiosurgery shall be provided only upon written order of a radiation
       oncologist and/or a neurosurgeon. Each stereotactic radiosurgery service shall communicate
       with referring physicians regarding the stereotactic radiosurgery.
   (F) Each radiation therapy service shall comply with the requirements pertaining to the Ohio cancer incidence surveillance system established under sections 3701.261 and 3701.262 of the Revised Code and Chapter 3701-4 of the
       Administrative Code.

3701-84-68 Personnel and staffing; minimum requirements.

(A) Each radiation therapy service shall have an administrator.
   (B) Each stereotactic radiosurgery service and/or each gamma knife service shall have
       as a medical director either a radiation oncologist as defined in rule 3701-84-01 of the
       Administrative Code or a board-certified neurosurgeon certified by the American board of
       neurological surgery.
(C) All radiation therapy services not covered by paragraph (B) of this rule shall have a radiation oncologist as medical director.

(D) The medical director of each radiation therapy and/or stereotactic radiosurgery service shall:

1. Approve the specific clinical duties that may be performed by each member of the physics staff as established by the medical physicist under paragraph (G) of this rule; and
2. Ensure appropriate coverage of the radiation therapy service and/or stereotactic radiosurgery service by radiation oncologists, neurosurgeons, and staff.

3. Ensure that calculation discrepancies identified in rule 3701-84-70 of the Administrative Code are resolved and documented.

(E) A radiation oncologist shall be available for direct care and quality review on a daily basis. If the radiation oncologist is not on-site, the radiation oncologist shall be accessible by phone, pager, or other designated mechanism.

(F) Each radiation therapy service or dedicated stereotactic radiosurgery service shall have a medical physicist who meets the requirements of:

1. Paragraph (D) of rule 3701:1-67-02 of the Administrative Code for radiation therapy using radiation-generating equipment; or

(G) The medical physicist shall be available for consultation with the radiation oncologist or neurosurgeon and provide advice or direction to staff when a patient's treatments are being planned or patients are being treated. Radiation therapy services and stereotactic radiosurgery services shall have regular on-site physics support during hours of clinical activity. The on-site support shall, at a minimum, be provided on a weekly basis. When a medical physicist is not available on-site, other physics duties shall be established and documented in writing by the medical physicist. The medical physicist shall specify the specific physics duties that shall be performed by each member of the physics staff in accordance with their qualification and competence.

(H) Each radiation therapy service shall have available a sufficient number of qualified staff for the radiation therapy services provided, including individuals licensed as a radiation therapist under Chapter 4773 of the Revised Code, who are able to supervise and conduct the radiation therapy services as appropriate for the services being offered. A radiation oncologist and support staff shall be available to initiate urgent treatment with a medically appropriate response time on a twenty-four hour a day, seven days a week basis.

(I) Each stereotactic radiosurgery service shall have available a sufficient number of qualified staff for the stereotactic radiosurgery services provided, including individuals licensed as a radiation therapist under Chapter 4773 of the Revised Code, who are able to supervise and conduct the radiosurgery services as appropriate for the services being offered. A radiation oncologist and/or a neurosurgeon and support staff shall be available to initiate urgent treatment with a medically appropriate response time on a twenty-four hour a day, seven days a week response basis.

(J) In addition to the requirement of paragraph (B) of rule 3701-84-08 of the Administrative Code, each radiation therapy service and radiosurgery service shall establish personnel files for all individuals who provide radiation therapy services and shall maintain files for each individual that specify the types of procedures or services the individual is permitted to perform. All files shall be updated at least every twelve months.

3701-84-69 Facilities and equipment; minimum standards.

(A) Clinical facilities for radiation therapy services and stereotactic radiosurgery services should be designed to accommodate large numbers of outpatients and limited numbers of
inpatients, if applicable.

(B) Ramps, doors, hallways and lavatories shall accommodate wheelchairs and have a holding area for patients on stretchers or beds.

(C) Each radiation therapy service and stereotactic radiosurgery service shall have on-site or accessible:

1. Reception and waiting areas;
2. An adequate number of exam rooms;
3. A physicians’ work room;
4. A secure area for medications;
5. Procedure rooms;
6. A treatment planning area;
7. A physics lab; and
8. A room for fabrication of treatment aids.

(D) Each radiation therapy service shall have the necessary equipment to provide services with accuracy, precision, and efficiency.

1. Each service shall provide for diagnostic services, either on-site or by referral. At a minimum, these services shall include:
   (a) Computerized tomography (CT);
   (b) Magnetic resonance imaging (MRI);
   (c) Fluoroscopy;
   (d) Nuclear medicine; and
   (e) Clinical and surgical pathology.
2. Each radiation therapy service shall document arrangements for referrals to one or more other radiation therapy sites so that the patients will have access to a broad spectrum of radiation therapy equipment and a variety of treatment modalities including, at least, brachytherapy and a unit of radiation therapy equipment providing photons of at least ten megavolts (MV) and electron energies to at least twelve megaelectron volts (MeV).

(E) Each radiation therapy service and/or radiosurgery service shall develop and implement a program to monitor the calibration and radiation beam characteristics to assure accurate and reliable delivery of ionizing radiations. Calibration and operation of radiation therapy equipment shall be in accordance with the applicable requirements in Chapters 3701:1-67 and 3701:1-58 of the Administrative Code.

(F) Gamma knife and stereotactic radiosurgery services shall assess and assure correlation of alignment between imaging and treatment equipment in accordance with current recommended standards for radiosurgery treatment by the American association of physicists in medicine and the American college of medical physics.

(G) Each radiation therapy service shall develop and implement a preventive maintenance and repair program for equipment in accordance with manufacturer’s specifications. The service shall maintain current records of equipment performance, maintenance and malfunctions.

(H) Each radiation therapy service shall maintain emergency equipment and medications appropriate for the services provided.

3701-84-70 Radiation therapy service standards.

(A) For radiation therapy services, the radiation oncologist shall establish the doses desired throughout the tumor and set dose limits to critical structures. The radiation oncologist shall establish the critical structures associated with the tumor treatment site. Treatment deliveries shall meet the specifications of the radiation oncologist.

(B) For stereotactic radiosurgery services, the radiation oncologist and/or the neurosurgeon shall establish the doses desired throughout the tumor or target volume and set
limits of doses to critical structures. The radiation oncologist and/or neurosurgeon shall establish the critical structures associated with the tumor or target volume treatment site. Treatment deliveries shall meet the specifications of the radiation oncologist and/or the neurosurgeon.

(C) For radiation therapy services, all treatment applications shall be described in detail and signed by the radiation oncologist. The radiation oncologist shall be notified of any changes that may be necessary in the planned schedule of treatment.

(D) For stereotactic radiosurgery services, all treatment applications shall be described in detail and signed by the radiation oncologist and/or neurosurgeon. The radiation oncologist and/or neurosurgeon shall be notified of any changes that may be necessary in the planned schedule of treatment.

(E) Each radiation therapy service shall:

1. Provide or arrange for appropriate radiation treatment localization, simulation and verification;
2. Provide or arrange for isodose treatment planning with complex analyses generated in appropriate cases;
3. Provide accurate calculation of doses and dose distribution;
4. Provide a system for independent checking of initial dose calculations. The check shall be conducted before the third fraction, or before twenty per cent of the total dose when the treatment schedule provides less than ten fractions. The independent check includes utilizing another individual or method approved and documented by the medical physicist to verify dose calculations;
5. Conduct ongoing reviews of accumulating doses;
6. Conduct a chart and port film review weekly;
7. Accurately chart treatment doses; and
8. Maintain records of pertinent data used in planning the specific treatment for a patient in the patient's medical record.

(F) Each radiation therapy service shall provide devices to aid in positioning and immobilizing the patient. Normal tissue shields, compensating filters, wedges and other aids shall be provided as medically appropriate.

(G) Initial port films shall be checked by the radiation oncologist prior to the second treatment and the port films shall be rechecked at least every ten treatments.

(H) Each radiation therapy service shall establish and maintain procedures for handling emergency cardiac care.

3701-84-71 Radiation safety standards.

(A) Each radiation therapy service and stereotactic radiosurgery service shall maintain and follow written policies and procedures for the handling of emergencies that may threaten the health and safety of patients, staff, and public.

(B) Each radiation therapy service and stereotactic radiosurgery service shall comply with the applicable provisions of Chapter 3748 of the Revised Code and the rules adopted pursuant to that chapter.

(C) Each radiation therapy service and stereotactic radiosurgery service shall identify, document, and report to the department:

1. Misadministrations of radiation from x-ray therapy equipment in accordance with rule 3701:1-67-12 of the Administrative Code; and
3701-84-72 Quality assessment program.

(A) As part of the quality assessment and performance improvement program requirements under paragraph (C) of rule 3701-84-12 of the Administrative Code, each radiation therapy service shall evaluate the provision of radiation therapy services including:
   (1) A review of case management and treatment results; and
   (2) A review of complications and adverse events that occurred during the provision of the center's services.

(B) The medical director of radiation oncology shall be responsible for the institution and ongoing supervision of the continuing quality assessment and performance improvement program.

3701-84-73 Medical record; content requirements.

In addition to the requirements of rule 3701-84-11 of the Administrative Code, each radiation therapy service and/or stereotactic radiosurgery service shall maintain documentation of the following in each patient's medical record:
   (A) Confirmation of the presence of malignancy by histopathology, a statement of benign condition, or other alternative evidence for diagnosis of all cases accepted for radiation;
   (B) Documentation of services and radiographic images, including localization films, appropriate to the therapy provided;
   (C) Report of the initial evaluation including a definition of the tumor or target type, location, and the extent of each cancer as a basis for staging;
   (D) The treatment plan including the selection of dose, selection of treatment modality, and selection of treatment technique;
   (E) The dosimetry calculations;
   (F) The patient's progress and tolerance; and
   (G) The completion of treatment with statement of a follow-up plan.

Pediatric Cardiac Catheterization

3701-84-75 Pediatric cardiac catheterization service standards.

(A) The provisions of rules 3701-84-75 to 3701-84-79 of the Administrative Code are applicable on the effective date of this rule to each provider of cardiac catheterization services performing procedures on patients less than twenty-two years of age, regardless of the date the service was initiated.

(B) All pediatric cardiac catheterization services shall:
   (1) Have on-site a pediatric cardiovascular surgery service immediately accessible from the pediatric cardiac catheterization laboratory by gurney; and
   (2) Have an experienced pediatric cardiovascular surgical team available in less than sixty minutes on a twenty-four hour a day, seven days a week basis in the event that emergency open heart surgery is required.

(C) Each provider of a pediatric cardiac catheterization services shall have explicit criteria specifying the number of times a year an appropriately privileged physician shall perform each catheterization procedure in order to retain privileges to perform that procedure. These criteria shall be consistent with current recommendations of recognized professional societies and accrediting bodies.

(D) Each provider of a pediatric cardiac catheterization service shall have immediate access to services for:
   (1) Hematology and coagulation disorders;
(2) Electrocardiography;
(3) Diagnostic radiology,
(4) Clinical pathology;
(5) Doppler-electrocardiography;
(6) Pulmonary function testing; and
(7) Microbiology.

(E) Each provider of a pediatric cardiac catheterization service shall have established criteria for patient selection and appropriateness that are specific to each procedure performed in the service.

(F) Each provider of a pediatric cardiac catheterization service shall have a written policy requiring the documentation of any internal review of surgeons with a combination of high risk adjusted mortality and low individual surgeon volume.

(G) Each provider of a pediatric cardiac catheterization service, no later than January 1, 2018, shall enroll and be actively submitting data to the American college of cardiology national cardiovascular data registry (NCDR) “IMPACT” registry for catheterization.

(H) A cardiac catheterization service for pediatric patients shall only be provided in a fully permanent setting within the permanent frame of the building of a registered hospital that is classified as a general hospital, a children's hospital or a special hospital - cardiac, that primarily furnishes limited services to patients with cardiac conditions. The hospital shall:

(1) Operate inpatient pediatric medical and surgical services in the same building that are accessible by gurney from the pediatric cardiac catheterization laboratory;

(2) Operate a pediatric intensive/critical care unit with registered special care beds, that is reviewed and accredited or certified as such as part of the hospital's accreditation or certification program in the same building and accessible by gurney from the pediatric cardiac catheterization laboratory. The unit shall provide appropriate equipment and staff to care for pediatric cardiac patients and have twenty-four hour monitoring capability

(3) Provide a setting in the same building as the pediatric cardiac catheterization laboratory in which ambulatory pediatric cardiac catheterization patients can be observed for at least four hours after the procedure; and

(4) Provide adequate physician coverage to manage postprocedure complications.

3701-84-76 Personnel/staffing.

(A) Each provider of a pediatric cardiac catheterization service shall designate a medical director for the pediatric cardiac catheterization service. The medical director shall:

(1) Possess the experience and leadership qualities that are necessary to manage the laboratory appropriately and to ensure safe and effective delivery of catheterization services to pediatric patients; and

(2) The medical director shall actively perform pediatric cardiac catheterization procedures at the hospital where he or she is the medical director.

(B) The medical director of the pediatric cardiac catheterization service shall be board-certified in pediatric cardiology by the American board of pediatrics or the American osteopathic board of pediatrics.

(C) Each provider of a pediatric cardiac catheterization service shall have at least two licensed physicians credentialed to provide pediatric cardiac catheterization services on staff who are knowledgeable of the laboratory’s protocols and equipment by providing pediatric cardiac catheterization services at the hospital. Only physicians appropriately credentialed to provide pediatric cardiac catheterization services may be the primary operator of a pediatric cardiac catheterization procedure.

(D) At a minimum, all physicians who perform pediatric cardiac catheterization procedures shall be:
(1) A fully-accredited member of the HCS’s staff; and
(2) Shall participate in laboratory quality assurance programs, including peer review.
(E) In addition to the requirements of paragraphs (A) and (C) of this rule, the provider of a pediatric cardiac catheterization service shall have available a sufficient number of qualified staff, who are able to supervise and conduct the cardiac catheterization service and are skilled in pediatric cardiopulmonary resuscitation, including the following, as applicable:
(1) Support staff comprised of individuals skilled in the following:
   (a) Radiographic techniques;
   (b) Digital imaging;
   (c) Systematic quality control testing;
   (d) Patient observation;
   (e) Critical care;
   (f) Monitoring and recording electrocardiographic and hemodynamic data; and
   (g) For catheterization laboratories where physiological studies are performed:
      (i) Managing blood samples;
      (ii) Performing blood gas measurements and calculations; and
      (iii) Assisting with indicator dilution studies.
(2) Nursing personnel in sufficient number and type based on the caseload and types of procedures performed, which may include nurse practitioners, registered nurses, licensed practical nurses, and nursing assistants.
   (a) Nursing personnel involved in the provision of pediatric cardiac catheterization services shall have experience in pediatric critical care and knowledge of operating room techniques;
   (b) Nurse practitioners, registered nurses, and licensed practical nurses involved in the provision of pediatric cardiac catheterization services shall have:
      (i) Knowledge of cardiovascular medications;
      (ii) The ability to begin administration of intravenous solutions and administer drugs;
      (iii) Experience with sterile techniques; and
      (iv) Skills in monitoring vital signs, neurologic status and pain level.
   (c) Nurse practitioners may assume some of the duties of a physician as permitted by law, however, ultimate responsibility for procedures shall always remain with the physician of record.
(F) Respiratory therapists and pediatric critical care staff shall be immediately available to care for pediatric patients.
(G) Biomedical, electronic, and radiation safety experts shall be involved in maintaining the cardiac catheterization laboratory.
(H) Cardiovascular anesthesiologists and perfusion teams shall be immediately available to care for patients.
(I) Staffing requirements of this rule may be met by individuals with equivalent or greater qualifications if the replacement's scope of practice encompasses the duties of the required staff.

3701-84-77 Facilities and equipment; design and minimum requirements.

(A) Each provider of a pediatric cardiac catheterization service shall provide adequate, properly designed space to perform cardiac catheterization procedures safely and effectively. The amount of space may vary with the types of procedures performed and the nature of the facility such as interventional versus diagnostic and teaching versus non-teaching.
(B) Each pediatric cardiac catheterization service shall utilize the following:
   (1) Procedure rooms that meet or exceed minimum space requirements established by the equipment manufacturer and are at least four hundred square feet or, if constructed or
renovated or pediatric cardiac catheterization services initiated after March 1, 1997 at least five hundred square feet; 

(2) Control rooms of at least ninety-six square feet for each procedure room served. Control rooms that are constructed or renovated or pediatric cardiac catheterization services initiated after March 1, 1997 shall have a minimum of one hundred fifty square feet for each procedure room served. Each procedure room shall have an assigned control room; and

(3) Clean utility rooms that can sufficiently and efficiently supply the procedure rooms.

(C) A general radiology room cannot be used as a cardiac catheterization procedure room.

(D) Each provider of a pediatric cardiac catheterization service shall ensure that each laboratory where a cardiac catheterization procedure is conducted is appropriately equipped to provide high quality pediatric imaging, physiological monitoring, and provision of emergency care.

(E) The equipment described in this paragraph may be replaced by newer technology that has equivalent or superior capability as determined by the provider of the pediatric cardiac catheterization service. In assessing these new technologies, consideration should be given to recommendations of recognized professional societies and accrediting bodies (e.g. the American college of cardiology; the American academy of pediatrics). All pediatric cardiac catheterization services shall, at a minimum, have the following equipment:

(1) Biplane imaging equipment with a movable c-arm;
(2) Immediate replay capabilities;
(3) A blood gas analyzer;
(4) A pulse oximeter;
(5) An infant warming device;
(6) Pacing catheters;
(7) An external pacemaker;
(8) A defibrillator;
(9) An emergency cart; and
(10) A comprehensive inventory of pediatric catheters and devices.

(F) Each provider of a pediatric cardiac catheterization service shall provide and maintain radiation generating equipment in accordance with applicable state and federal requirements as specified in Chapter 3748 of the Revised Code and the rules adopted thereunder.

3701-84-78 Safety guidelines.

(A) To assure a safe environment for patients, visitors, and personnel, each provider of a pediatric cardiac catheterization service shall establish and maintain safety guidelines, practices and policies in accordance with applicable United States nuclear regulatory commission regulations, applicable provisions of Chapter 3748 of the Revised Code, and the rules adopted pursuant to that chapter.

(B) Each provider of a pediatric cardiac catheterization service shall establish, maintain, and follow electrical safety policies which at a minimum include:

(1) A safe primary electrical wiring system;
(2) Electrical isolation of all equipment attached to a patient;
(3) Use of an equipotential hardwired grounding system for all equipment; and
(4) Periodic inspection of the electrical system and measurement of interequipment current leakage.

(C) Each provider of a pediatric cardiac catheterization service shall periodically survey all of the equipment utilized by the service and perform preventive maintenance on a schedule.
that, at a minimum, conforms to manufacturers’ recommendations. Results of surveillance and preventive maintenance activities must be internally documented.

3701-84-79 Patient selection criteria; volume goals; failure to meet goals.

(A) Each provider of a pediatric cardiac catheterization service should meet a volume goal of at least one hundred pediatric cardiac catheterization procedures per year consistent with the 2012 American college of cardiology foundation/society for cardiovascular angiography and interventions expert consensus document on cardiac catheterization laboratory standards update available at www.acc.org.

(B) Volume goals shall be considered by the director in conjunction with other indicators of quality and not as the sole indicator of service performance.

(C) Failure to meet a volume goal for two consecutive years may trigger an extended review of the pediatric cardiac catheterization service by the director including possible inspections.

(D) No minimum per physician volume is recommended, however, the combination of high mortality and low volume shall trigger a thorough internal review of an individual physician by the pediatric cardiac catheterization service.

Pediatric Cardiovascular Surgery

3701-84-81 Pediatric cardiovascular surgery standards.

(A) The provisions of rules 3701-84-81 to 3701-84-85 of the Administrative Code are applicable to each provider of pediatric cardiovascular surgery services performing procedures on patients less than twenty-two years of age, regardless of the date service was initiated. Patients between the ages of eighteen and twenty-two years may be served at an adult open heart surgery service, if the patient's attending physician and the adult service's medical director determine that the adult service best serves the needs of the patient.

(B) Each provider of a pediatric cardiovascular surgery service shall have available at all times in the same building as the pediatric cardiovascular surgery service and accessible by gurney, adequate facilities for the pediatric cardiovascular surgery service, including but not limited to:

1. Cardiac operating rooms;
2. Pediatric intensive care facilities appropriate for the recovery of post operative pediatric cardiovascular surgical patients; and
3. A cardiac catheterization service.

(C) Each provider of a pediatric cardiovascular surgery service shall have the capability, equipment, and personnel to perform emergency pediatric open heart procedures on a twenty-four hour a day, seven days a week basis. A pediatric cardiovascular surgical team shall be available and on-site in less than sixty minutes on a twenty-four hour a day, seven days a week basis.

(D) Each provider of a pediatric cardiovascular surgery service shall utilize a coordinated and integrated multidisciplinary approach to patient care, including meetings to determine the appropriate course of treatment for complex patients. Physicians and staff should function as a team and should include adequate numbers of qualified pediatric cardiologists, pediatric cardiovascular surgeons, pediatric cardiovascular anesthesiologists, pediatric intensive care physicians, and/or neonatologists with special expertise in the care of cardiac patients, and additional pediatric specialists required for the overall care of patients.

(E) Each provider of a pediatric cardiovascular surgery service shall have access to the following pediatric services and subspecialties:
Chapter 2. Regulated Healthcare Facilities
Part III. Health Care Services

(1) Cardiology, including echocardiogram, doppler echocardiogram and cardiac catheterization;
(2) Hematology;
(3) A general surgeon;
(4) Gastroenterology;
(5) Nephrology;
(6) Pulmonary medicine;
(7) Infectious disease;
(8) Radiology;
(9) Interventional radiology;
(10) Neurology;
(11) Emergency care;
(12) Pathology;
(13) Pulmonary function testing;
(14) Preadmission testing; and
(15) Follow-up outpatient nursing referral.

(F) Each provider of a pediatric cardiovascular surgery service shall have access to the following services either on site or by arrangement with another facility:
(1) Extracorporeal membrane oxygenation (ECMO); and
(2) Ventricular assist device (VAD).

(G) Each provider of a pediatric cardiovascular surgery service, no later than January 1, 2018, shall obtain and maintain enrollment in the society for thoracic surgeons congenital heart surgery database (CHSD).

(H) A pediatric cardiovascular surgery service shall only be provided in a fully permanent setting within the permanent frame of the building of a registered hospital that is classified as a general hospital, a children's hospital or as a special hospital - cardiac, that primarily furnishes limited services to patients with cardiac conditions. The hospital shall be fully equipped to perform the service.

(I) Each provider of a pediatric cardiovascular surgery service shall have established criteria that cardiovascular surgeons, cardiologists, and physicians must utilize for patient selection and appropriateness.

(J) Each provider of a pediatric cardiovascular surgery service shall have a written policy requiring the documentation of any internal review of surgeons with a combination of high risk adjusted mortality and low individual surgeon volume.

3701-84-82 Personnel and staffing requirements.

(A) The medical director of the pediatric cardiovascular surgery service shall be board certified in thoracic surgery. The medical director shall be:
(1) Responsible for oversight and care in the service;
(2) Credentialed to provide pediatric cardiovascular surgery services at the hospital where he or she is the medical director; and
(3) Active in performing pediatric cardiovascular surgery procedures at the hospital where he or she is the medical director.

(B) Each provider of a pediatric cardiovascular surgery service shall have on staff at least two thoracic surgeons who are credentialed to perform and actively perform pediatric cardiovascular surgery procedures at the hospital.

(C) In addition to the requirements of paragraphs (A) and (B) of this rule and the general personnel requirements of paragraph (B) of rule 3701-84-08 of the Administrative Code, each provider of a pediatric cardiovascular surgery service shall have competent and qualified staff available, including but not limited to:
(1) Surgical assistants to assist the surgeon. A surgical assistant may consist of a resident, another physician, or a specially trained surgical assistant;

(2) Anesthesiologists with expertise in the anesthetic and support requirements of pediatric cardiovascular surgery;

(3) Nursing staff which shall include appropriate numbers of scrub nurses or technicians and circulating nurses or technicians. A minimum of one scrub nurse and one circulating nurse or technician alternative as noted, is necessary. Nursing staff shall be trained in pediatric cardiovascular surgical operating room procedures and nurses shall be pediatric advanced life support (PALS) certified;

(4) Pediatric intensive care unit staff who are trained in pediatric advanced life support (PALS) at an appropriate nurse/patient ratio commensurate with the acuity of each individual patient and the amount of time following surgery that such care will be necessary. Pediatric intensive care nurses and physicians shall have specialized training to develop the theoretical knowledge and clinical skills required for the care of pediatric cardiovascular surgical patients;

and

(5) A minimum of two perfusionists. Perfusionists shall be graduates of an accredited cardiovascular perfusion or perfusion technology training program or have equivalent training and experience. The perfusionists shall have training, knowledge, and experience with small body perfusion, extracorporeal membrane oxygenation (ECMO), and ventricular assist devices (VAD) if those services are provided onsite.

(D) In addition to the requirements of paragraph (C) of this rule, each provider of a pediatric cardiovascular surgery service shall have appropriate staff available, including but not limited to pharmacists, dietitians, respiratory therapists, physical therapists and social workers.

(E) Staffing requirements of this rule may be met by individuals with equivalent or greater qualifications if the replacement's scope of practice encompasses the duties of the required staff.

3701-84-83 Facilities and equipment; minimum requirements.

(A) Operating rooms used for pediatric cardiovascular surgery shall have at a minimum four hundred and fifty square feet provided sufficient additional support space is available adjacent to each room for perfusion supplies, set up and other storage. Operating rooms for pediatric cardiovascular surgery constructed or renovated or services initiated after March 1, 1997 shall have at a minimum six hundred square feet.

(B) Each operating room used for pediatric cardiovascular surgery shall have appropriate numbers of oxygen, vacuum and electrical outlets sufficient in number to supply all necessary equipment and proper operating room lighting, including fiber optic headlights.

(C) Each provider of a pediatric cardiovascular surgery service shall have equipment appropriate for the safe performance and care of pediatric cardiovascular surgery patients.

(D) Each provider of a pediatric cardiovascular surgery service shall ensure that a fully equipped and staffed pediatric intensive care unit is available in the building and accessible by gurney from where the pediatric cardiovascular surgery is performed. The number of available pediatric intensive care unit beds shall be approximately one-half the number of pediatric open heart operations performed per week. The physical space of this unit shall meet joint commission, american osteopathic association, or any other national accrediting body approved for deeming authority by the centers for medicare and medicaid services recommended standards, which are in effect on the effective date of this rule, for intensive care unit beds.

(E) The equipment described in this paragraph may be replaced by newer technology that has equivalent or superior capability as determined by the provider of the pediatric cardiac catheterization service. In assessing these new technologies, consideration should be given to recommendations of recognized professional societies and accrediting bodies (e.g. the
American college of cardiology; the American academy of pediatrics). All pediatric cardiovascular surgery services shall, at a minimum, have the following equipment:

1. Immediate replay capabilities;
2. A blood gas analyzer;
3. A pulse oximeter;
4. An infant warming device;
5. Pacing equipment;
6. An external pacemaker;
7. A defibrillator;
8. An emergency cart; and
9. A comprehensive inventory of cannulas and conduits.

**3701-84-84 Patient selection criteria; volume goals.**

(A) Each provider of a pediatric cardiovascular surgery service should meet a volume goal of at least one hundred pediatric procedures per year by the second full year of operation, of which seventy-five are pediatric cardiovascular surgeries, to ensure efficiency and a minimum floor of competency.

(B) Volume goals shall be considered by the director in conjunction with other indicators of quality and not as the sole indicator of service performance.

(C) Failure to meet a volume goal for two consecutive years may trigger an extended review of the pediatric cardiovascular surgery service by the director including possible inspections.

(D) No minimum per surgeon volume is recommended, however, the combination of high risk adjusted mortality and low volume shall trigger a thorough internal review of an individual physician by the provider of the pediatric cardiovascular surgery service.

**3701-84-85 Quality assessment by medical director.**

In addition to the general quality assessment and performance improvement requirements set forth in rule 3701-84-12 of the Administrative Code, each provider of an open heart surgery service shall:

(A) As part of the service's overall quality assessment and performance improvement process:

1. Utilize the quality performance measures outcomes data obtained from the service's participation in the society for thoracic surgeons congenital heart surgery database; and
2. Include a periodic review and evaluation of the multidisciplinary meetings required by paragraph (D) of rule 3701-84-81 of the Administrative Code.

(B) Have a regular formal morbidity and mortality conference chaired by the medical director of the open heart surgery service or the medical director's designee. The morbidity and mortality conferences shall:

1. Be held at a minimum, once a month or more frequently depending on the need; and
2. Review all deaths and complications such as reoperation for bleeding, deep sternal wound infection, stroke, and perioperative myocardial infarction and any patterns that might indicate a problem shall be investigated and remedied if necessary.
Chapter 2. Regulated Healthcare Facilities
Part IV. Hospice Care

[Editor’s Note: Regulations governing hospices are available at www.odh.ohio.gov/rules/final/finalRules.aspx.]

3712.01 Hospice; definitions.

As used in this chapter:

(A) “Hospice care program” means a coordinated program of home, outpatient, and inpatient care and services that is operated by a person or public agency and that provides the following care and services to hospice patients, including services as indicated below to hospice patients’ families, through a medically directed interdisciplinary team, under interdisciplinary plans of care established pursuant to section 3712.06 of the Revised Code, in order to meet the physical, psychological, social, spiritual, and other special needs that are experienced during the final stages of illness, dying, and bereavement:

(1) Nursing care by or under the supervision of a registered nurse;
(2) Physical, occupational, or speech or language therapy, unless waived by the department of health pursuant to rules adopted under division (A) of section 3712.03 of the Revised Code;
(3) Medical social services by a social worker under the direction of a physician;
(4) Services of a home health aide;
(5) Medical supplies, including drugs and biologicals, and the use of medical appliances;
(6) Physician's services;
(7) Short-term inpatient care, including both palliative and respite care and procedures;
(8) Counseling for hospice patients and hospice patients’ families;
(9) Services of volunteers under the direction of the provider of the hospice care program;
(10) Bereavement services for hospice patients’ families.

“Hospice care program” does not include a pediatric respite care program.

(B) “Hospice patient” means a patient, other than a pediatric respite care patient, who has been diagnosed as terminally ill, has an anticipated life expectancy of six months or less, and has voluntarily requested and is receiving care from a person or public agency licensed under this chapter to provide a hospice care program.

(C) “Hospice patient's family” means a hospice patient’s immediate family members, including a spouse, brother, sister, child, or parent, and any other relative or individual who has significant personal ties to the patient and who is designated as a member of the patient's family by mutual agreement of the patient, the relative or individual, and the patient's interdisciplinary team.

(D) “Interdisciplinary team” means a working unit composed of professional and lay persons that includes at least a physician, a registered nurse, a social worker, a member of the clergy or a counselor, and a volunteer.

(E) “Palliative care” means treatment for a patient with a serious or life-threatening illness directed at controlling pain, relieving other symptoms, and enhancing the quality of life of the patient and the patient's family rather than treatment for the purpose of cure. Nothing in this section shall be interpreted to mean that palliative care can be provided only as a component of a hospice care program or pediatric respite care program.

(F) “Physician” means a person authorized under Chapter 4731 of the Revised Code to practice medicine and surgery or osteopathic medicine and surgery.

(G) “Attending physician” means the physician identified by the hospice patient, pediatric respite care patient, hospice patient's family, or pediatric respite care patient's family as having
primary responsibility for the medical care of the hospice patient or pediatric respite care patient.

(H) “Registered nurse” means a person registered under Chapter 4723 of the Revised Code to practice professional nursing.

(I) “Social worker” means a person licensed under Chapter 4757 of the Revised Code to practice as a social worker or independent social worker.

(J) “Pediatric respite care program” means a program operated by a person or public agency that provides inpatient respite care and related services, including all of the following services, only to pediatric respite care patients and, as indicated below, pediatric respite care patients’ families, in order to meet the physical, psychological, social, spiritual, and other special needs that are experienced during or leading up to the final stages of illness, dying, and bereavement:

(1) Short-term inpatient care, including both palliative and respite care and procedures;
(2) Nursing care by or under the supervision of a registered nurse;
(3) Physician’s services;
(4) Medical social services by a social worker under the direction of a physician;
(5) Medical supplies, including drugs and biologicals, and the use of medical appliances;
(6) Counseling for pediatric respite care patients and pediatric respite care patients’ families;
(7) Bereavement services for respite care patients’ families.

“Pediatric respite care program” does not include a hospice care program.

(K) “Pediatric respite care patient” means a patient, other than a hospice patient, who is less than twenty-seven years of age and to whom all of the following conditions apply:

(1) The patient has been diagnosed with a disease or condition that is life-threatening and is expected to shorten the life expectancy that would have applied to the patient absent the patient's diagnosis, regardless of whether the patient is terminally ill.
(2) The diagnosis described in division (K)(1) of this section occurred while the patient was less than eighteen years of age.
(3) The patient has voluntarily requested and is receiving care from a person or public agency licensed under this chapter to provide a pediatric respite care program.

(L) “Pediatric respite care patient's family” means a pediatric respite care patient's family members, including a spouse, brother, sister, child, or parent, and any other relative or individual who has significant personal ties to the patient and who is designated as a member of the patient’s family by mutual agreement of the patient, the relative or individual, and the patient's interdisciplinary team.

3712.04 Hospice licensure.

(A) Every person or public agency that proposes to provide a hospice care program shall apply to the department of health for a license. Application shall be made on forms prescribed and provided by the department, shall include such information as the department requires, and shall be accompanied by the license fee established by rules of the director of health adopted under division (A) of section 3712.03 of the Revised Code.

The department shall grant a license to the applicant if the applicant is in compliance with this chapter and rules adopted under it.

(B) A license granted under this section shall be valid for three years. Application for renewal of a license shall be made at least ninety days before the expiration of the license in the same manner as for an initial license, except that, if the program provides hospice care and services in a hospice patient’s home, the application for renewal shall include written evidence demonstrating that the applicant is in compliance with section 3712.062 of the Revised Code. The department shall renew the license if the applicant meets the requirements of this chapter and rules adopted under it.
Chapter 2. Regulated Healthcare Facilities
Part IV. Hospice Care

Hospice Care General Provisions

(C) Subject to Chapter 119 of the Revised Code, the department may suspend or revoke a license if the licensee made any material misrepresentation in the application for the license or no longer meets the requirements of this chapter or rules adopted under it.

(D) A hospital, nursing home, home for the aged, county medical care facility, or other health facility or agency that provides a hospice care program shall be licensed to provide a hospice care program under this section.

(E) A nursing home licensed under Chapter 3721 of the Revised Code that does not hold itself out to be a hospice, does not hold itself out as providing a hospice care program, does not use the term hospice to describe or refer to its activities or facilities, and that does not provide all of the services enumerated in division (A) of section 3712.01 of the Revised Code is not subject to the licensing provisions of this chapter.

3712.05 License required; legal action against unlicensed program.

(A) No person or public agency, other than a person or public agency licensed pursuant to section 3712.04 of the Revised Code, shall hold itself out as providing a hospice care program, or provide a hospice care program, or use the term "hospice" or any term containing "hospice" to describe or refer to a health program, facility, or agency.

A hospital, home providing nursing care, or home health agency that provides services under contract with a person or public agency providing a hospice care program licensed under section 3712.04 of the Revised Code or a terminal care facility for the homeless that has entered into an agreement under section 3712.07 of the Revised Code shall not be considered as providing a hospice care program in violation of this division.

This division does not apply to the activities of regional, state, or national nonprofit organizations of which providers of hospice care programs, individuals interested in hospice care programs, or both, are members and that do not provide or represent that they provide hospice care programs.

As used in this division, "person" does not include a member of an interdisciplinary team, as defined in section 3712.01 of the Revised Code, or any individual who is employed by a person or public agency licensed under section 3712.04 of the Revised Code.

(B) The department of health shall petition the court of common pleas of any county in which a person or public agency, without a license granted under section 3712.04 of the Revised Code, is holding itself out as providing a hospice care program, is providing a hospice care program, or is representing a health program, facility, or agency as a hospice care program, for an order enjoining that person or public agency from conducting those activities without a license. The court has jurisdiction to grant injunctive relief upon a showing that the respondent named in the petition is conducting those activities without a license.

Any person or public agency may request the department to petition the court for injunctive relief under this division, and the department shall do so if it determines that the person or public agency named in the request is violating division (A) of this section.

3712.06 Licensure requirements; contracting-out for service requirements.

Any person or public agency licensed under section 3712.04 of the Revised Code to provide a hospice care program shall:

(A) Provide a planned and continuous hospice care program, the medical components of which shall be under the direction of a physician;

(B) Ensure that care is available twenty-four hours a day and seven days a week;

(C) Establish an interdisciplinary plan of care for each hospice patient and his family
Chapter 2. Regulated Healthcare Facilities  
Part IV. Hospice Care

(1) Is coordinated by one designated individual who shall ensure that all components of the plan of care are addressed and implemented;  
(2) Addresses maintenance of patient-family participation in decision making; and  
(3) Is periodically reviewed by the patient's attending physician and by the patient's interdisciplinary team.  
(D) Have an interdisciplinary team or teams that provide or supervise the provision of care and establish the policies governing the provision of the care;  
(E) Provide bereavement counseling for hospice patients' families;  
(F) Not discontinue care because of a hospice patient's inability to pay for the care;  
(G) Maintain central clinical records on all hospice patients under its care; and  
(H) Provide care in individuals' homes, on an outpatient basis, and on a short-term inpatient basis.

A provider of a hospice care program may arrange for another person or public agency to furnish a component or components of the hospice care program pursuant to a written contract. When a provider of a hospice care program arranges for a hospital, a home providing nursing care, or home health agency to furnish a component or components of the hospice care program to its patient, the care shall be provided by a licensed, certified, or accredited hospital, home providing nursing care, or home health agency pursuant to a written contract under which:  
(1) The provider of a hospice care program furnishes to the contractor a copy of the hospice patient's interdisciplinary plan of care that is established under division (C) of this section and specifies the care that is to be furnished by the contractor;  
(2) The regimen described in the established plan of care is continued while the hospice patient receives care from the contractor, subject to the patient's needs, and with approval of the coordinator of the interdisciplinary team designated pursuant to division (C)(1) of this section;  
(3) All care, treatment, and services furnished by the contractor are entered into the hospice patient's medical record;  
(4) The designated coordinator of the interdisciplinary team ensures conformance with the established plan of care; and  
(5) A copy of the contractor's medical record and discharge summary is retained as part of the hospice patient's medical record.

Any hospital contracting for inpatient care shall be encouraged to offer temporary limited privileges to the hospice patient's attending physician while the hospice patient is receiving inpatient care from the hospital.

3712.07 Terminal care facility for the homeless.

(A) As used in this section, “terminal care facility for the homeless” means a facility that provides accommodations to homeless individuals who are terminally ill.  
(B) A person or public agency licensed under this chapter to provide a hospice care program may enter into an agreement with a terminal care facility for the homeless under which hospice care program services may be provided to individuals residing at the facility, if all of the following apply:  
(1) Each resident of the facility has been diagnosed by a physician as having a terminal condition and an anticipated life expectancy of six months or less;  
(2) No resident of the facility has a relative or other person willing or capable of providing the care necessary to cope with the resident's terminal illness or is financially capable of hiring a person to provide such care;  
(3) Each resident of the facility is under the direct care of a physician;  
(4) No resident of the facility requires the staff of the facility to administer medication by injection;
(5) The facility does not receive any remuneration, directly or indirectly, from the residents;
(6) The facility does not receive any remuneration, directly or indirectly, from the medicaid program or the medicare program;
(7) The facility meets all applicable state and federal health and safety standards, including standards for fire prevention, maintenance of safe and sanitary conditions, and proper preparation and storage of foods.
(C) Hospice care program services may be provided at a terminal care facility for the homeless only by the personnel of the person or public agency that has entered into an agreement with the facility under this section.
(D) A terminal care facility for the homeless that has entered into an agreement under this section may assist its residents with the self-administration of medication if the medication has been prescribed by a physician and is not administered by injection. In the event that a resident has entered the final stages of dying and is no longer mentally alert, the facility may administer medication to that resident if the medication has been prescribed by a physician and is not administered by injection. Determinations of whether an individual has entered the final stages of dying and is no longer mentally alert shall be based on directions from the personnel who provide hospice care program services at the facility.

3712.08 Hospice licensing for nursing home.

The department of health shall not issue a license to conduct a new inpatient hospice care program if the program is to be conducted by a nursing home licensed under Chapter 3721 of the Revised Code.

3701-19-01 Definitions.

As used in this chapter:
(A) “Advanced Practice Nurse” means a registered nurse authorized to practice as a certified nurse specialist, certified registered nurse anesthetist, certified nurse midwife or certified nurse practitioner in accordance with section 4723.41 of the Revised Code;
(B) “Applicant” means a person or public agency that submits an application for a license to provide a hospice care program under rule 3701-19-03 of the Administrative Code.
(C) “Attending physician” means the physician identified by the hospice patient or the hospice patient's family as having primary responsibility for the hospice patient's medical care.
(D) “Dietitian” means an individual licensed under Chapter 4759 of the Revised Code to practice dietetics.
(E) “Director” means the director of health or any official or employee of the department of health designated by the director of health.
(F) “Governing body” means the entity that has ultimate responsibility and authority for the overall operation of a hospice care program, as specified in rule 3701-19-06 of the Administrative Code.
(G) “Home health aide” means an individual who, in accordance with rule 3701-19-16 of the Administrative Code, provides home care services for hospice patients and their families.
(H) “Hospice aide,” for the purpose of this chapter, means a home health aide who has successfully completed a training and competency evaluation program approved by the director under division (A) of section 3721.31 of the Revised Code and Chapter 3701-18 of the Administrative Code, is currently listed in good standing on the state nurse aide registry, and is employed by a hospice care program.
(I) “Hospice care program” or “program” means a coordinated program of home, outpatient, and inpatient care and services that is operated by a person or public agency and
that provides the following care and services to hospice patients, including services as indicated below to hospice patients’ families, through a medically directed interdisciplinary team, under interdisciplinary plans of care established pursuant to section 3712.06 of the Revised Code and rule 3701-19-11 of the Administrative Code, in order to meet the physical, psychological, social, spiritual, and other special needs that are experienced during the final stages of illness, dying, and bereavement:

(1) Nursing care by or under the supervision of a registered nurse;
(2) Physical, occupational, or speech or language therapy, unless waived by the department of health pursuant to paragraph (B) of rule 3701-19-19 of the Administrative Code;
(3) Medical social services by a social worker under the direction of a physician;
(4) Services of a home health aide;
(5) Medical supplies, including drugs and biologicals, and the use of medical appliances;
(6) Physician's services which include medical services provided by a physician or an advanced practice nurse acting within his or her scope of practice, as defined in section 4723.01 of the Revised Code, or a physician assistant acting within his or her scope of practice under the supervision, control, and direction of one or more physicians as defined in section 4730.01 of the Revised Code.
(7) Short-term inpatient care, including both palliative and respite care and procedures;
(8) Counseling for hospice patients and hospice patients’ families;
(9) Services of volunteers under the direction of the provider of the hospice care program;
(10) Bereavement services for hospice patients’ families.

(J) "Hospice patient" or "patient" means a patient who has been diagnosed as terminally ill, has an anticipated life expectancy of six months or less, and has voluntarily requested and is receiving care from a person or public agency licensed under Chapter 3712 of the Revised Code and this chapter to provide a hospice care program.

(K) "Hospice patient's family" or "family" means a hospice patient's immediate family members, including a spouse, brother, sister, child, or parent, and any other relative or individual who has significant personal ties to the patient and who is designated as a member of the patient's family by mutual agreement of the patient, the relative or individual, and the patient's interdisciplinary team.

(L) "Inpatient facility" means a facility that either is operated by or under contract with a hospice care program for the purpose of providing inpatient care to the hospice care program's patients.

(M) “Inpatient hospice facility” means a building or leased unit operated by a hospice care program that is separate and distinct from another licensed or certified facility where the hospice program directly provides accommodations and hospice services for its hospice patients.

(N) “Interdisciplinary plan of care” or “plan of care” means the interdisciplinary plan for care of a hospice patient and his or her family prepared under rule 3701-19-11 of the Administrative Code.

(O) “Interdisciplinary team” means a working unit composed of professional and lay persons that includes at least a physician, a registered nurse, a social worker, a member of the clergy or a counselor, and a volunteer.

(P) “Licensed practical nurse” means a person licensed under Chapter 4723 of the Revised Code to practice nursing as a licensed practical nurse.

(Q) “Nurse” means a registered nurse or licensed practical nurse.
(R) “Palliative care” means treatment for a patient with a serious or life-threatening illness directed at controlling pain, relieving other symptoms, and enhancing the quality of life of the patient and the patient's family rather than treatment for the purpose of cure. Nothing in this section shall be interpreted to mean that palliative care can be provided only as a component of
a hospice care program.

(S) “Person” means an individual, corporation, business trust, estate, trust, partnership, and association.

(T) “Physician” means a person authorized under Chapter 4731 of the Revised Code to practice medicine and surgery or osteopathic medicine and surgery.

(U) “Physician assistant” means a person who holds a certificate of authority to practice as a physician assistant issued under chapter 4730 of the Revised Code.

(V) “Respite care” means hospice care program services provided by the program in a patient's home or in an inpatient facility to give temporary relief to a hospice patient's family or other caregivers when the patient's family or other caregiver needs relief from the daily demands of caring for the patient.

(W) “Registered nurse” means a person registered under Chapter 4723 of the Revised Code to practice professional nursing.

(X) “Social worker” means a person licensed under Chapter 4757 of the Revised Code to practice as a social worker or independent social worker.

(Y) “Staff member” or “staff” means an individual working for a hospice care program including the owner; the administrator; a full-time, part-time or temporary paid employee; or an individual working on contract.

(Z) “Volunteer” means a lay or professional person who offers and provides his or her services to a hospice care program without compensation.

3701-19-06 Governing body; quality assessment and performance improvement.

(A) The overall conduct and operation of the hospice care program, including the quality of care and the provision of services, shall be the full legal responsibility of a clearly defined, organized governing body.

(B) The governing body of a licensed hospice care program may also provide governance for a pediatric respite care program if the programs are dually-licensed and meet all requirements set forth in this rule and Chapter.

(C) The governing body shall:

1. Establish and review policies for the management, operation, and evaluation of the hospice care program, including, but not limited to:
   a. Qualifications of employees and independent contractors; and
   b. Policies and procedures to receive and respond to patient grievances regarding medical treatment, quality of care, the lack of respect for person or property, mistreatment, neglect, verbal, mental, sexual, and physical abuse, including injuries of unknown source, and misappropriation of patient property by any individual furnishing services on behalf of the hospice care program. The policies and procedures developed by the governing body shall, at a minimum, include:
      i. Notification procedures for hospice patients, employees and contracted staff to report alleged violations to the hospice program administration;
      ii. Documentation requirements for reported alleged violations, including time frames for response;
      iii. Reporting procedures for verified violations to the appropriate state licensing authority, local authorities, or both where appropriate; and
      iv. Requirements for timely corrective actions for all verified violations.
2. Arrange for a physician to serve as medical director for the hospice care program who:
   a. Shall be knowledgeable about the psychological, social, and medical aspects of hospice care as the result of training, experience, and interest;
   b. May also serve as the physician representative on an interdisciplinary team or teams.
or as an attending physician; and
(c) Shall designate a physician to act in his or her absence.
(3) Appoint a qualified individual to serve as the director of the hospice care program who shall perform the following duties:
(a) Be responsible for the day-to-day management of the program and for assuring compliance with Chapter 3712 of the Revised Code, Chapter 3701-13, and this chapter of the Administrative Code;
(b) Implement the hospice care program's policies and procedures regarding all activities and services provided by the hospice care program;
(c) Designate an individual to act in his or her absence;
(d) Implement the hospice care program's quality assessment and performance improvement program under paragraph (D) of this rule;
(e) Implement the hospice care program's patient grievance program established under paragraph (C)(1) of this rule.
(f) Implement the drug diversion investigation and reporting program required by section 3712.062 of the Revised Code. The hospice director or the director's designee, must:
(i) Receive reports of suspected drug diversion from hospice staff;
(ii) Within twenty four hours of receipt, investigate reports of suspected drug diversion;
and
(iii) No later than ten days after receipt of a report of suspected drug diversion or upon conclusion of an investigation, report to the law enforcement agency with jurisdiction over the territory in which the hospice patient's home is located the results of the hospice program's investigation when the investigation substantiates that drug diversion has occurred or when the results of the investigation are inconclusive. Nothing in this rule prohibits a hospice care program from reporting the result of any other drug diversion investigation to law enforcement.
(4) Designate a registered nurse that is a member of an interdisciplinary team to coordinate the overall functioning of the team; and
(5) Ensure that all services provided are consistent with accepted standards of practice for hospice care.
(D) Each hospice care program governing body shall ensure that an ongoing, comprehensive, integrated, self-assessment of the quality and appropriateness of care provided by the program, including inpatient care, home care, and care provided under contracts with other persons or public agencies is conducted. The assessment shall include all services that were indicated and provided to the hospice care patients and their families and the patients’ and caregivers' responses or outcomes to those services.
(E) The hospice care program governing body shall ensure the use of the findings of the quality assessment and performance improvement program to correct identified problems and to revise hospice care program policies if necessary.
(F) The hospice care program governing body shall ensure that an evaluation of the hospice care program's quality assessment and performance improvement program is conducted on an annual basis.

3701-19-07 General requirements for hospice care programs after licensure.

(A) Any person or public agency licensed under section 3712.04 of the Revised Code and this chapter to provide a hospice care program shall:
(1) Provide a planned and continuous hospice care program, the medical components of which shall be under the direction of a physician;
(2) Ensure that care is available twenty-four hours a day and seven days a week;
(3) Establish an interdisciplinary plan of care for each hospice patient and the patient's family that:
(a) Is coordinated by one designated individual who shall ensure that all components of the plan of care are addressed and implemented;
(b) Addresses maintenance of patient-family participation in decision making;
(c) Is periodically reviewed by the patient's attending physician and by the patient's interdisciplinary team; and
(d) Provides a list of services that will be provided by or arranged for by the hospice care program.
(4) Have an interdisciplinary team or teams that provide or supervise the provision of care and establish the policies governing the provision of care;
(5) Provide bereavement counseling for hospice patients' families.
(6) Not discontinue care because of a hospice patient's inability to pay for the care;
(7) Maintain central clinical records on all hospice patients under its care.
(8) Provide care in individual's homes, on an outpatient basis, and on a short-term inpatient basis; and
(B) A component or components of the care provided by a hospice care program may be provided under a written contract with another person or public agency, pursuant to rule 3701-19-12 of the Administrative Code
(C) After receiving a license, a hospice care program shall comply with all requirements of Chapter 3712 of the Revised Code and Chapters 3701-13 and 3701-19 of the Administrative Code.
(D) Each licensed hospice care program shall notify the director, in writing, of any of the following:
   (1) Any change in any of the information specified in the license application under paragraphs (C)(1) to (C)(3) of rule 3701-19-03 of the Administrative Code no later than fifteen days after the change;
   (2) Any other change that would render the information submitted in the license application inaccurate at least twenty-one days prior to the effective date of the change; and
   (3) Any intent to cease operation at least sixty days prior to ceasing operation. This notification shall include a plan for assuring continuity of care for the program's patients and their families after the program ceases operation.
(4) Each hospice care program that intends to cease operation shall do the following to assure the continuity of care of hospice program patients and their families by:
   (a) Providing a written notice of the proposed closure of the program, at least sixty days prior to ceasing operation, to each patient or patient's family;
   (b) Developing a written discharge plan to be placed in each patient's record to assist the person or public agency that will be responsible for care of the patient and his or her family after the program ceases operation; and
   (c) Obtaining from each patient or his or her authorized representative a written approval of any transfer to another licensed hospice care program and a written authorization to release pertinent clinical records information to such a program or another person or public agency that will assume responsibility for the patient's and family's care.

3701-19-08 Standards for inpatient hospice facilities.

(A) Each new inpatient hospice facility shall be inspected by the director to determine compliance with provisions of rules 3701-19-01 to 3701-19-24 of the Administrative Code. The new inpatient hospice facility shall not admit patients until the director has determined that the facility is in compliance with the requirements of this chapter of the Administrative Code.
(B) The inpatient hospice facility shall meet all applicable provisions of the Ohio fire code, adopted pursuant to section 3737.82 of the Revised Code.
(C) The building or buildings in which an inpatient hospice facility is located shall comply
Chapter 2. Regulated Healthcare Facilities
Part IV. Hospice Care

with the applicable provisions of the Ohio building code adopted by the board of building standards pursuant to Chapters 3781., 3783., and 3791 of the Revised Code, and have a certificate of use and occupancy issued by the appropriate building authority.

(D) Each new inpatient hospice facility shall be connected to one of the following dependent upon the location and size of the facility:
   (1) A public sewer system permitted under Chapter 6111 of the Revised Code;
   (2) A small flow on site sewage treatment system permitted by a local health district under Chapter 3718 of the Revised Code; or
   (3) A household sewage treatment system permitted by a local health district under Chapter 3718 of the Revised Code.

(E) Each new inpatient hospice facility shall comply with the following requirements by:
   (1) Maintaining appropriate space providing optimal comfort and privacy for patients and family members designed and equipped for the comfort and privacy of each patient and family members by:
      (a) Providing decor which is homelike in design and function;
      (b) Providing accommodations for family members to remain with the patient;
      (c) Ensuring physical space for private patient and family visiting and allowing patients to receive visitors, including small children, at any hour;
   (2) Maintaining appropriate patient rooms designed and equipped for adequate nursing care, comfort, and privacy of patients. Each room must:
      (a) Be equipped with or conveniently located near toilet and bathing facilities;
      (b) Be at or above grade level;
      (c) Contain an appropriate bed and other appropriate furniture;
      (d) Have closet space providing security and privacy for clothing and personal belongings;
      (e) Contain no more than four beds;
      (f) Measure at least one hundred square feet for a single patient room or eighty square feet for each patient for a multipatient room;
      (g) Be equipped for calling the staff member on duty.
   (3) Maintaining appropriate bathroom facilities and plumbing and provide:
      (a) An adequate supply of hot water at all times for patient use; and
      (b) Plumbing fixtures with control valves that automatically regulate the temperature of the hot water used by patients.
   (4) Each facility shall provide appropriate linens at all times in a quantity for the proper care and comfort of patients. Linens must be handled, stored, processed, and transported in a manner that prevents the spread of infection.
   (5) Each facility shall have provisions for isolating patients with infectious diseases.
   (6) Each facility must provide meal service. A hospice facility providing its own meal service must:
      (a) Obtain an appropriate food service license, unless exempt in accordance with section 3717.42 of the Revised Code, or contracting with another licensed food service provider;
      (b) Serve at least three meals or their equivalent each day at regular times, with not more than fourteen hours between a substantial evening meal and breakfast;
      (c) Procure, store, prepare, distribute and serve all food under sanitary conditions;
      (d) Have a staff member trained or experienced in food management or nutrition who is responsible for:
         (i) Planning menus that meet the nutritional needs of each patient, following the orders of the patient's physician and, to the extent medically possible, the dietary allowances recommended by the national academy of sciences;
         (ii) Supervising the meal preparation and service to ensure that the menu plan is followed;
(7) Each facility must provide pharmaceutical services and must:
   (a) Provide appropriate methods and procedures for dispensing, administering and
disposing of drugs and biologicals;
      (i) The facility is responsible for drugs and biologicals for its patients, whether drugs or
biologicals are obtained from community or institutional pharmacists or stocked by the facility;
      (ii) The facility must ensure that pharmaceutical services are provided in accordance
with accepted professional principles and appropriate federal, state and local laws;
   (b) Employ a pharmacist or have a formal agreement with a licensed pharmacist to
advise the facility on ordering, storage, administration, disposal and recordkeeping of drugs and
biologicals;
   (c) Ensure that orders for medications are given by a physician, physician assistant, or
an advanced practice nurse acting within his or her scope of practice;
      (i) If the medication order is verbal, the physician, physician assistant, or advanced
practice nurse must give it only to a licensed nurse, pharmacist, or another physician; and
      (ii) The individual receiving the order must record and sign it immediately and have the
prescribing physician, physician assistant, or advanced practice nurse sign it in a manner
consistent with good medical practice.

3701-19-09 General requirements for hospice care program personnel.

   (A) Each hospice care program shall utilize personnel that have appropriate training and
qualifications for the services that they provide. Any staff member, including a volunteer, who
functions in a professional capacity shall meet the standards applicable to that profession,
including but not limited to possessing current Ohio licensure, registration, or certification, if
required by law, and practicing within the applicable scope of practice.
   (B) The hospice care program shall provide each staff member, including volunteer and
contracted staff members, with a written job description delineating his or her responsibilities.
The program shall assure that the services provided by staff members, including volunteers and
contracted staff, are provided:
      (1) In accordance with the patients’ plans of care;
      (2) In accordance with the policies and procedures developed by the interdisciplinary
team;
      (3) In accordance with current and accepted standards of practice;
      (4) By staff members who comply with the program's employee health policies;
         (a) The hospice care program shall have written employee health policies which include
the following requirements for any staff, including volunteers, temporary agency employees, or
paid consultants used by the hospice program who has direct patient contact;
      (b) The hospice care program shall have a written plan to ensure the health and safety
of hospice patients that includes policies and procedures regarding screening of staff, including
volunteers, for communicable diseases.
      (c) The hospice care program shall have written policies and procedures regarding
measures taken to prevent staff, including volunteers, with direct hospice patient contact who
have been diagnosed with a communicable disease from transmitting this disease to patients,
care givers or other staff. The policies shall indicate when infected or ill staff must not render
direct patient care; and
      (d) The hospice care program shall document, as applicable, compliance with United
States department of labor’s occupational safety and health administration, United States.
centers for disease control and prevention and applicable Ohio department of health standards
concerning health requirements for staff provision of services in health care settings, including
requirements for maintaining tuberculosis control.
      (5) Documented in the patient’s central clinical record.
(C) Each hospice care program shall ensure that all personnel treat each patient and each patient's property with respect, do not abuse or neglect patients, and do not misappropriate a patient's property.

(D) Each hospice care program shall employ personnel without discrimination on the basis of sex, age, race, creed, national origin, or handicap.

(E) Each hospice care program shall provide both orientation and ongoing training program for its personnel, including volunteers.
   (1) The orientation shall be appropriate to the tasks each member will be expected to perform; and
   (2) The continuing training shall be designed to assure maintenance of appropriate skill levels and ensure that all personnel are informed of changes in techniques, philosophies, and goals of the hospice care program.

(F) Each hospice care program shall evaluate the performance of each staff member regularly.

(G) Except as provided in Chapter 3701-13 of the Administrative Code, no hospice care program shall employ a person who applies on or after January 27, 1997, for a position that involves the provision of direct care to an older adult, if the person:
   (1) Has been convicted of or pleaded guilty to an offense listed in division (C)(1) of section 3712.09 of the Revised Code; or
   (2) Fails to complete the form(s) or provide fingerprint impressions as required by division (B)(3) of section 3712.09 of the Revised Code.

3701-19-10 Medical director.

(A) The medical director of a hospice care program shall be a physician and have overall responsibility for the medical components of the program. The medical director shall be either a paid or contractual staff member or a volunteer.

(B) The duties of the medical director shall include:
   (1) Participating as a member of the interdisciplinary team or teams in the development of individual plans of care or assuring that one or more other qualified physicians participate on the team or teams;
   (2) Reviewing patient medical eligibility for hospice care services;
   (3) Consulting with attending physicians, when appropriate, regarding pain and symptom management;
   (4) Assuring overall continuity of the hospice care program's medical services, including availability of physician services for both routine and emergency situations;
   (5) Acting as liaison between patients' attending physicians and the interdisciplinary team or teams;
   (6) Establishing health policies for employees of the hospice care program; and
   (7) Serving as liaison with community physicians, medical schools, healthcare facilities, and hospitals.

3701-19-11 Interdisciplinary team and interdisciplinary plan of care.

(A) Each hospice care program shall have an interdisciplinary team or teams that provides or supervises the provision of hospice care and services. The registered nurse designated to coordinate each interdisciplinary team shall ensure all of the following for that team:
   (1) There is ongoing assessment of the hospice patient's and family's needs;
   (2) That all components of the plan of care are addressed by the interdisciplinary team; and
Chapter 2. Regulated Healthcare Facilities
Part IV. Hospice Care

Hospice Care General Provisions

3701-19-12 Contracted services.

(A) A provider of a hospice care program may arrange for another person or public agency to furnish a component or components of the hospice care program pursuant to a written contract in compliance with 42 C.F.R. 418.64 (2008).

(B) Any contract executed under paragraph (A) of this rule, including a contract to which paragraph (C) of this rule applies, shall be legally binding on both parties and shall do all of the following:

(1) Identify the services that may be provided;

(2) Stipulate that services may be provided only with the express authorization of the
Chapter 2. Regulated Healthcare Facilities
Part IV. Hospice Care

hospice care program;

(3) Describe the manner in which the contracted services are coordinated, supervised, and evaluated by the hospice care program;

(4) Delineate the role or roles of the hospice care program and the contractor in the admission process, patient and family assessment, and the interdisciplinary team reviews;

(5) Stipulate the requirements for documenting that services are furnished in accordance with the contract and the requirements of Chapter 3712 of the Revised Code, Chapter 3701-13 and this chapter of the Administrative Code;

(6) Set forth the qualifications of the personnel providing the services; and

(7) Stipulate that the hospice care program shall provide hospice care orientation and training, in accordance with paragraph (E) of rule 3701-19-09 of the Administrative Code, to the contractor's personnel who provide the care under the contract.

(C) When a provider of a hospice care program arranges for a hospital, a home providing nursing care, or home health agency to furnish a component or components of the hospice care program to its patient, the care shall be provided by a licensed, certified, or accredited hospital, home providing nursing care, or home health agency pursuant to a written contract under which:

(1) The provider of hospice care program furnishes to the contractor a copy of the hospice patient's interdisciplinary plan of care that is established under division (C) of section 3712.06 of the Revised Code and rule 3701-19-11 of the Administrative Code and specifies the care that is to be furnished by the contractor;

(2) The regimen described in the established plan of care is continued while the hospice patient receives care from the contractor, subject to the patient's needs, and with approval of the coordinator of the interdisciplinary team designated pursuant to division (C)(1) of section 3712.06 of the Revised Code and paragraph (A) of rule 3701-19-11 of the Administrative Code;

(3) All care, treatment, and services furnished by the contractor are entered into the hospice patient's medical record;

(4) The designated coordinator of the interdisciplinary team ensures conformance with the established plan of care;

(5) A copy of the contractor's medical record and discharge summary is retained as part of the hospice patient's medical record; and

(6) The contractor complies with the requirements of Chapter 3712 of the Revised Code, and this chapter as applicable to the contracted service.

(D) The hospice care program shall encourage any hospital contracting for inpatient care to offer temporary limited privileges to the hospice patient's attending physician while the hospice patient is receiving inpatient care from the hospital.

(E) The hospice care program shall assure the continuity of patient and family care in the home, outpatient, and inpatient settings.

(F) The hospice care program shall retain professional management responsibility for contracted services and shall ensure that those services are furnished in a safe and effective manner, by persons meeting the qualifications prescribed by Chapter 3701-13 and this chapter of the Administrative Code, and in accordance with the patient's plan of care and the other requirements of this chapter.

(G) The hospice care program shall retain responsibility for payment for services provided by a contractor which are related to the palliation and management of the terminal illness, arranged for by the hospice care program, and included in the patient's plan of care.

(H) The hospice care program may contract with a durable medical equipment supplier, only if that supplier meets the medicare supplier quality and accreditation standards at 42 C.F.R. 424.57 (2011) and, as applicable, the requirements of Chapter 4752 of the Revised Code.
3701-19-13 Volunteer services.

(A) Each hospice care program shall use trained volunteers to assist with the provision of administrative or direct patient care services and shall have trained volunteers available to hospice patients and hospice patients' families as needed. Volunteers shall provide services under the supervision of a designated qualified and experienced hospice staff member.

(B) Each hospice care program shall provide orientation and training to the volunteers it uses that is consistent with acceptable standards of hospice practice. The orientation and training shall include:

1. The hospice care program's goals and services;
2. Confidentiality and the protection of patient and family rights;
3. The volunteer's specific duties and responsibilities and the person or persons to contact if the volunteer needs assistance or instructions regarding the performance of the designated duties and responsibilities;
4. Procedures for responding to medical emergencies or deaths;
5. The physiological and psychological aspects of terminal illness;
6. Family dynamics, coping mechanisms, and psychosocial issues surrounding terminal illness, death, and bereavement;
7. Safety policies and procedures; and
8. General communication skills.

(C) The hospice care program shall document active and ongoing efforts to recruit and retain volunteers.

3701-19-14 Nursing services.

(A) Each hospice care program shall provide nursing care and services by or under the supervision of a registered nurse. The program shall direct and staff nursing services to meet the nursing needs of all of the hospice care program's patients. The program shall specify the patient care responsibilities of nursing personnel.

(B) A registered nurse shall be responsible for the supervision and oversight of all nursing services.

(C) As used in this rule, “supervision” means monitoring and directing the provision of nursing care and services by record review, written or verbal instructions, review of interdisciplinary care plans, or direct observation.

(D) The hospice care program shall ensure that nursing care is available twenty-four hours a day and seven days a week:

1. To provide services to hospice care program patient's; and
2. In each inpatient facility used to provide inpatient care to its patients.

(E) The registered nurse who provides or supervises the provision of nursing services also may serve as the interdisciplinary team coordinator or team member.

3701-19-15 Medical social services.

(A) Each hospice care program shall make medical social services available to each patient and his or her family as needed. Medical social services shall be provided by a social worker under the direction of a physician. For the purposes of this rule, a physician's approval of a patient's interdisciplinary plan of care shall constitute direction.

(B) The medical social service needs of each hospice patient and his or her family shall be considered in conjunction with other services when the interdisciplinary team reviews the patient's and family's status.

(C) Medical social services shall be provided in a timely manner in accordance with
hospice care program's policy.

3701-19-16 Home care services.

(A) Each hospice care program shall provide or make available home care services in the scope and frequency required to meet the needs of the hospice care program's patients and their families. Home care services include assistance with activities of daily living, personal care, ambulation and exercise, household services essential to health care at home, assistance with self-administration of medications, and preparation of meals. The patient and family shall be informed of any limitations on home care services as required by paragraph (E) of rule 3701-19-20 of the Administrative Code.

(B) Home care services shall be provided by home health aides or hospice aides who have been selected on the basis of such factors as a sympathetic attitude toward patients and their families, ability to read, write, and carry out instructions, and maturity and ability to cope with the demands of the job.

(C) The hospice care program shall ensure that home health aides or hospice aides providing home care services have been trained in methods of assisting patients to achieve maximum self-reliance, principles of nutrition and meal preparation, the aging process and emotional problems of illness, procedures for maintaining a clean, healthful, and pleasant environment, changes in a patient's condition that should be reported, the philosophy of hospice care and of the hospice care program, ethics, confidentiality, and recordkeeping.

(D) A registered nurse from the patient's interdisciplinary team shall prepare for each home health aide or hospice aide written instructions for patient care which are consistent with the interdisciplinary plan of care.

(E) The registered nurse responsible for preparing written instructions for home health aides and hospice aides shall make and document a supervisory visit to the patient's residence at least every two weeks when home health aide or hospice aide services are being provided to assess the provision of the home health aide or hospice aide services.

1) The supervisory visit may be made either when the home health aide or hospice aide is present or when the aide is absent; and
2) The purpose of the visit shall be to observe and assist the home health aide or hospice aide, if present; to assess the patient's and family's relationship with the home health aide or hospice aide, and to determine whether the patient's and family's needs and goals are being met; and
3) The supervisory visit may be conducted in conjunction with a visit for other purposes.

3701-19-17 Medical services.

(A) A hospice care patient may identify their own attending physician or may designate the hospice care program medical director to be their attending physician.

(B) Each hospice care program shall provide:

1) Effective palliation and management of terminal illness and related conditions; and
2) Medical services which meet the medical needs of the patient that are not otherwise met by the patient's:

a) Attending physician;
b) A physician assistant, who is acting within his or her scope of practice under the supervision, control, and direction of a physician; or
(c) An advanced practice nurse, who is acting within his or her scope of practice and who is working in collaboration with a physician.

(C) All medical orders for treatment, procedures, tests, and medications shall be signed by: 

Hospice Care General Provisions
(1) A physician;
(2) A physician assistant, who is acting within his or her scope of practice under the supervision, direction, and control of a physician; or
(3) An advanced practice nurse, who is acting within his or her scope of practice and who is working in collaboration with a physician.

3701-19-18 Counseling and bereavement services.

(A) Each hospice care program shall make available counseling services to the hospice patient and the hospice patient's family. Counseling services shall include dietary, spiritual, bereavement and any other necessary counseling services while the patient is enrolled in the hospice care program. Counseling services shall be provided by a qualified interdisciplinary team member or one or more other qualified individuals, as determined by the hospice care program.

(B) Counseling services shall be organized to meet the needs of the hospice patients and their families.

(1) The hospice care program shall assess the needs of patients and families for spiritual counseling, in accordance with their religious preferences.

(2) The hospice care program shall provide dietary counseling. Dietary counseling shall include use of food and mealtime to promote quality of life for hospice patients and to meet their needs for symptom control. Dietary counseling shall be planned and provided by or under the supervision of a dietitian or, if the program is unable to obtain the services of a dietitian, by a nurse.

(C) The hospice care program shall make reasonable efforts to arrange for visits of clergy and other members of religious organizations in the community to patients who request visits and shall apprise patients of this opportunity.

(D) Each hospice care program shall provide bereavement services, as needed, for hospice patients' families. These services shall be provided for up to one year after the patient's death. Bereavement services shall be provided under the supervision of a designated qualified professional.

(1) The professional designated to supervise bereavement services shall have education or experience or both in providing those services.

(2) Bereavement services shall be based on an assessment of the family's needs and its ability to cope with grief.

(3) The plan of care for bereavement services shall reflect family needs and shall specify the frequency services are to be delivered and the persons furnishing the services.

3701-19-19 Physical therapy, occupational therapy, and speech therapy services.

(A) Each hospice care program shall provide or arrange for the provision of physical therapy, occupational therapy, or speech or language therapy unless the provision of those services is waived by the director pursuant to division (A)(4) of section 3712.03 of the Revised Code and paragraph (B) of this rule. The services shall be adequate in frequency to meet the needs of the hospice patients.

(B) Physical therapy services, occupational therapy services and speech or language therapy services must be offered in a manner consistent with accepted standards of practice for the provision of service to hospice patients.

(C) The director may waive the requirement for providing physical therapy, occupational therapy, or speech or language therapy when the requirement would create a hardship because the therapy is not readily available in the geographic area served by the provider of the hospice care program. A request for a waiver under this paragraph shall be submitted to the director in
writing and shall be accompanied by documentation of the number and location of therapists in
the area served by the program and of the efforts that the program has made to engage those
therapists and to encourage other therapists to serve the area.

(D) Physical therapy shall be provided by a person who is licensed as a physical
therapist under Chapter 4755 of the Revised Code and who meets the requirements under
Chapter 3701-13 of the Administrative Code.

(E) Occupational therapy shall be provided by a person who is licensed as an
occupational therapist under Chapter 4755 of the Revised Code and who meets the
requirements under Chapter 3701-13 of the Administrative Code.

(F) Speech or language therapy shall be provided by a person who is licensed as a
speech pathologist or audiologist under Chapter 4753 of the Revised Code and who meets the
requirements under Chapter 3701-13 of the Administrative Code.

3701-19-20 Admission of patients to the hospice care program.

(A) A hospice care program shall not admit any individual who does not meet the
diagnosis and life expectancy requirements of a hospice patient defined in paragraph (J) of rule
3701-19-01 of the Administrative Code.

(B) A hospice care program shall admit patients, provide care and services, and
discharge or transfer patients without discrimination on the basis of sex, age, race, creed,
national origin, or handicap.

(C) A hospice care program shall require that the patient, or the patient's authorized
representative, sign an informed consent form. This form shall include an acknowledgment by
signature of the patient or patient's representative, that they have been given a full explanation
of the palliative rather than curative nature of hospice care as it relates to the patient's terminal
illness and have been informed that the patient may withdraw consent at any time.

(D) A hospice care program shall permit a hospice patient to withdraw consent for
hospice care at any time.

(E) A hospice care program shall provide a patient or the patient's representative with
information regarding the scope of services provided by the hospice care program, including
any limitations of the hospice care program and charges for the services.

(F) A hospice care program shall distribute a copy of the written policy established under
division (A) of this section 3712.062 of the Revised Code and paragraph (C) of rule 3701-19-21
of the Administrative Code, to the patient and patient's family and discuss the procedures
included in the policy with the patient and patient's family before providing hospice care and
services;

(G) Prior to or within forty-eight hours after admission of each patient, a hospice care
program shall obtain an oral statement from the patient's attending physician, if any, and the
medical director of the hospice care program or the physician member of the interdisciplinary
team certifying that the patient is terminally ill. The program shall obtain written confirmation of
the oral statement after admission. The written certification statement shall be signed by the
patient's attending physician, if any, and the medical director of the hospice care program or the
physician member of the interdisciplinary team.

(1) The program should obtain from each patient's attending physician, if any,
designation of an alternate physician to contact for emergency care of the patient or review of
the patient's plan of care when the attending physician is not available; and

(2) The hospice care program should obtain written confirmation of the oral statement
certifying that the patient is terminally ill within a reasonable period of time after admission,
which is recommended to be not more than twenty-one days or within other acceptable written
standards of practice guidelines.
3701-19-21 Medical supplies, drugs, and biologicals.

(A) Each hospice care program shall arrange for provision of medical supplies, appliances, drugs, and biologicals to hospice patients as needed for the palliation and management of the patient's terminal illness and related conditions. The program shall ensure that drugs and biologicals are available at all times.

(B) Each hospice care program shall ensure that drugs and biologicals are administered only by the following individuals:

   (1) A registered nurse, a licensed practical nurse, or a physician;
   (2) A patient or a family member if approved by the attending physician; or
   (3) Any other individual authorized by the Revised Code to perform this task.

(C) The individuals authorized to administer drugs or biologicals under paragraphs (B)(2) and (B)(3) of this rule and the drugs or biologicals they are authorized to administer shall be specified in the patient's plan of care.

(D) Each hospice care program licensed under this chapter that provides hospice care and services in a hospice patient's home shall establish a written policy establishing procedures to be followed in preventing the diversion of controlled substances containing opioids that are prescribed to its hospice patients. The policy shall include procedures for the disposal of any such drugs prescribed to a hospice patient as part of the patient's interdisciplinary plan of care that are relinquished to the program after the patient's death or that otherwise are no longer needed by the patient. The policy shall require that the disposal be documented by a program employee and conducted in any of the following ways:

   (1) Performed by a program employee and witnessed by the patient or patient's family member;
   (2) Performed by the patient or patient's family member and witnessed by a program employee;
   (3) Performed by a program employee and witnessed by another program employee.

(E) Each hospice care program shall ensure that the patient, patient's representative, and the patient's family receive a copy of the hospice care program's written policies and procedures along with education on the management and disposal of controlled drugs when a controlled substance is ordered, and document such actions in the patient's clinical record.

5160-56-03.3 Hospice services; reporting requirements.

This rule sets forth the requirement for recording the hospice provider span for individuals receiving medicaid hospice care in accordance with Chapter 5160-56 of the Administrative Code, including individuals who may be covered by third-party insurance, such as medicare, for which the hospice seeks reimbursement.

(A) The designated hospice shall report the required enrollment information to the Ohio department of medicaid using the medicaid information technology system (MITS) for the following:

   (1) Individuals in fee-for-service (FFS) medicaid hospice under the designated hospice's care on the effective date of this rule; and
   (2) Individuals in which the hospice seeks to file an original or adjusted claim to ODM for medicaid hospice services rendered under codes T2042 and T2046, including:

      (a) All individuals with FFS claims for routine home care, code T2042, for the dates of service on or after January 1, 2016, whether or not the claim has previously been submitted and paid.
      (b) Individuals in the care of hospice prior to the effective date of this rule, if the provider is submitting an original FFS claim for hospice services other than the services specified in paragraph (A)(2)(a) of this rule.
(c) Individuals in the care of hospice prior to the effective date of this rule, if the provider is submitting an adjusted FFS claim or if ODM must adjust a FFS claim for hospice services other than the services specified in paragraph (A)(2)(a) of this rule.

(B) The designated hospice shall ensure the following information is entered into MITS prior to submitting a claim for reimbursement:

(1) The individual's recipient identification number (also referred to as the medicaid billing number) as shown on the individual's medicaid card;

(2) The date the individual elected hospice;

(3) The begin date and end date of every benefit period recognized under paragraph (D) of rule 5160-56-02 of the Administrative Code. For each benefit period, the designated hospice shall identify the benefit period as either the initial one time ninety-day period, the subsequent one time ninety-day period, or one of the subsequent unlimited sixty-day periods as applicable;

(4) The national provider identifier for the medical doctor who serves on the hospice interdisciplinary group (IDG) for each benefit period;

(5) The national provider identifier for the attending physician or the advanced practice registered nurse for each benefit period;

(6) The oral certification date(s), if applicable;

(7) The written physician certification date(s);

(8) The hospice terminal illness diagnosis code(s);

(a) At least one but not more than three terminal diagnosis codes for the individual;

(b) The effective dates (begin and ending date) that apply to the terminal diagnosis code(s) shall be entered in MITS by the designated hospice;

(9) The county (or counties if more than one) where hospice services were or will be provided during the benefit period;

(10) The national provider identifier of the long term care facility (LTFC) and the corresponding effective date and end date, if the individual resides in a LTCF and provider will be billing for hospice room and board services;

(11) Supporting documentation, as required to be attached to the claim, including:

(a) Copy of the current certification of the terminal illness;

(b) Copy of the individual's election statement;

(12) The date of death, when applicable; and

(13) Any updates or changes to be made to the benefit period as a result of a discharge pursuant to rule 5160-56-03 of the Administrative Code.

(C) The information specified in paragraph (B) of this rule shall be submitted to ODM only through the system in accordance with the requirements of the MITS system.

Part V. Nursing Homes

[Editor's Note: Additional provisions governing nursing homes are available at www.odh.ohio.gov/rules/final/finalrules.aspx.]

3721.01 Defining and classifying facility restrictions.

(A) As used in sections 3721.01 to 3721.09 and 3721.99 of the Revised Code:

(1)(a) “Home” means an institution, residence, or facility that provides, for a period of more than twenty-four hours, whether for a consideration or not, accommodations to three or more unrelated individuals who are dependent upon the services of others, including a nursing home, residential care facility, home for the aging, and a veterans' home operated under Chapter 5907 of the Revised Code.

(b) “Home” also means both of the following:
Chapter 2. Regulated Healthcare Facilities
Part V. Nursing Homes

Nursing Homes - General Provisions

(i) Any facility that a person, as defined in section 3702.51 of the Revised Code, proposes for certification as a skilled nursing facility or nursing facility under Title XVIII or XIX of the “Social Security Act,” 49 Stat. 620 (1935), 42 U.S.C.A. 301, as amended, and for which a certificate of need, other than a certificate to recategorize hospital beds as described in section 3702.521 of the Revised Code or division (R)(7)(d) of the version of section 3702.51 of the Revised Code in effect immediately prior to April 20, 1995, has been granted to the person under sections 3702.51 to 3702.62 of the Revised Code after August 5, 1989;

(ii) A county home or district home that is or has been licensed as a residential care facility.

(c) “Home” does not mean any of the following:

(i) Except as provided in division (A)(1)(b) of this section, a public hospital or hospital as defined in section 3701.01 or 5122.01 of the Revised Code;

(ii) A residential facility as defined in section 5119.34 of the Revised Code;

(iii) A residential facility as defined in section 5123.19 of the Revised Code;

(iv) A community addiction services provider as defined in section 5119.01 of the Revised Code;

(v) A facility licensed to provide methadone treatment under section 5119.391 of the Revised Code;

(vi) A facility providing services under contract with the department of developmental disabilities under section 5123.18 of the Revised Code;

(vii) A facility operated by a hospice care program licensed under section 3712.04 of the Revised Code that is used exclusively for care of hospice patients;

(viii) A facility operated by a pediatric respite care program licensed under section 3712.041 of the Revised Code that is used exclusively for care of pediatric respite care patients;

(ix) A facility, infirmary, or other entity that is operated by a religious order, provides care exclusively to members of religious orders who take vows of celibacy and live by virtue of their vows within the orders as if related, and does not participate in the medicare program or the medicaid program if on January 1, 1994, the facility, infirmary, or entity was providing care exclusively to members of the religious order;

(x) A county home or district home that has never been licensed as a residential care facility.

(2) “Unrelated individual” means one who is not related to the owner or operator of a home or to the spouse of the owner or operator as a parent, grandparent, child, grandchild, brother, sister, niece, nephew, aunt, uncle, or as the child of an aunt or uncle.

(3) “Mental impairment” does not mean mental illness, as defined in section 5122.01 of the Revised Code, or developmental disability, as defined in section 5123.01 of the Revised Code.

(4) “Skilled nursing care” means procedures that require technical skills and knowledge beyond those the untrained person possesses and that are commonly employed in providing for the physical, mental, and emotional needs of the ill or otherwise incapacitated. “Skilled nursing care” includes, but is not limited to, the following:

(a) Irrigations, catheterizations, application of dressings, and supervision of special diets;

(b) Objective observation of changes in the patient’s condition as a means of analyzing and determining the nursing care required and the need for further medical diagnosis and treatment;

(c) Special procedures contributing to rehabilitation;

(d) Administration of medication by any method ordered by a physician, such as hypodermically, rectally, or orally, including observation of the patient after receipt of the medication;

(e) Carrying out other treatments prescribed by the physician that involve a similar level of complexity and skill in administration.
Chapter 2. Regulated Healthcare Facilities
Part V. Nursing Homes

(5)(a) “Personal care services” means services including, but not limited to, the following:
   (i) Assisting residents with activities of daily living;
   (ii) Assisting residents with self-administration of medication, in accordance with rules adopted under section 3721.04 of the Revised Code;
   (iii) Preparing special diets, other than complex therapeutic diets, for residents pursuant to the instructions of a physician or a licensed dietitian, in accordance with rules adopted under section 3721.04 of the Revised Code.

(b) “Personal care services” does not include “skilled nursing care” as defined in division (A)(4) of this section. A facility need not provide more than one of the services listed in division (A)(5)(a) of this section to be considered to be providing personal care services.

(6) “Nursing home” means a home used for the reception and care of individuals who by reason of illness or physical or mental impairment require skilled nursing care and of individuals who require personal care services but not skilled nursing care. A nursing home is licensed to provide personal care services and skilled nursing care.

(7) “Residential care facility” means a home that provides either of the following:
   (a) Accommodations for seventeen or more unrelated individuals and supervision and personal care services for three or more of those individuals who are dependent on the services of others by reason of age or physical or mental impairment;
   (b) Accommodations for three or more unrelated individuals, supervision and personal care services for at least three of those individuals who are dependent on the services of others by reason of age or physical or mental impairment, and, to at least one of those individuals, any of the skilled nursing care authorized by section 3721.011 of the Revised Code.

(8) “Home for the aging” means a home that provides services as a residential care facility and a nursing home, except that the home provides its services only to individuals who are dependent on the services of others by reason of both age and physical or mental impairment.

   The part or unit of a home for the aging that provides services only as a residential care facility is licensed as a residential care facility. The part or unit that may provide skilled nursing care beyond the extent authorized by section 3721.011 of the Revised Code is licensed as a nursing home.

(9) “County home” and “district home” mean a county home or district home operated under Chapter 5155 of the Revised Code.

(B) The director of health may further classify homes. For the purposes of this chapter, any residence, institution, hotel, congregate housing project, or similar facility that meets the definition of a home under this section is such a home regardless of how the facility holds itself out to the public.

(C) For purposes of this chapter, personal care services or skilled nursing care shall be considered to be provided by a facility if they are provided by a person employed by or associated with the facility or by another person pursuant to an agreement to which neither the resident who receives the services nor the resident's sponsor is a party.

(D) Nothing in division (A)(4) of this section shall be construed to permit skilled nursing care to be imposed on an individual who does not require skilled nursing care.

   Nothing in division (A)(5) of this section shall be construed to permit personal care services to be imposed on an individual who is capable of performing the activity in question without assistance.

(E) Division (A)(1)(c)(ix) of this section does not prohibit a facility, infirmary, or other entity described in that division from seeking licensure under sections 3721.01 to 3721.09 of the Revised Code or certification under Title XVIII or XIX of the “Social Security Act.” However, such a facility, infirmary, or entity that applies for licensure or certification must meet the requirements of those sections or titles and the rules adopted under them and obtain a certificate of need from the director of health under section 3702.52 of the Revised Code.
(F) Nothing in this chapter, or rules adopted pursuant to it, shall be construed as authorizing the supervision, regulation, or control of the spiritual care or treatment of residents or patients in any home who rely upon treatment by prayer or spiritual means in accordance with the creed or tenets of any recognized church or religious denomination.

3721.041 Nursing home must post flu vaccine information.

(A) As used in this section:
(1) "Advisory committee" means the advisory committee on immunization practices of the United States centers for disease control and prevention or a successor committee or agency.
(2) "Home" has the same meaning as in section 3721.01 of the Revised Code.
(3) "Physician" means an individual authorized under Chapter 4731 of the Revised Code to practice medicine and surgery or osteopathic medicine and surgery.

(B) (1) Each home shall, on an annual basis, offer to each resident, in accordance with guidelines issued by the advisory committee, vaccination against influenza, unless a physician has determined that vaccination of the resident is medically inappropriate. The vaccine shall be of a form approved by the advisory committee for that calendar year. A resident may refuse vaccination.
(2) Each home shall obtain the influenza vaccine information sheet described in section 3701.138 of the Revised Code and post the sheet in a conspicuous location that is accessible to all residents, employees, and visitors. Not later than the first day of August each year, the home shall determine whether the information sheet it has posted is the most recent version available. If it is not, the home shall replace the information sheet with the updated version. Nothing in this division requires an older adult to be vaccinated against influenza.

Failure to comply with the requirement to post the information sheet shall not be taken into account when any survey or inspection of the home is conducted and shall not be used as the basis for imposing any penalty against the home.

(C) Each home shall offer to each resident, in accordance with guidelines issued by the advisory committee, vaccination against pneumococcal pneumonia, unless the resident has already received such vaccination or a physician has determined that vaccination of the resident is medically inappropriate. Each vaccine shall be of a form approved by the advisory committee for that calendar year. A resident may refuse vaccination.

(D) The director of health may adopt rules under Chapter 119 of the Revised Code as the director considers appropriate to implement this section.

3721.05 Annual license requirements; violations.

No person, firm, partnership, association, or corporation shall:
(A) Operate a home as defined in section 3721.01 of the Revised Code without obtaining a license from the director of health;
(B) Violate any of the conditions or requirements necessary for licensing after the license has been issued;
(C) Operate a home after the license for such has been revoked by the director of health;
(D) Interfere with the inspection of a licensed home by any state or local official when he is performing duties required of him by Chapter 3721 of the Revised Code. All licensed homes shall be open for inspection.
(E) Violate any of the provisions of Chapter 3721 of the Revised Code or any rules and regulations adopted pursuant thereto.
Chapter 2. Regulated Healthcare Facilities
Part V. Nursing Homes

3721.28 Nurse and nurse aides competency evaluation program.

(A)(1) Each nurse aide used by a long-term care facility on a full-time, temporary, per diem, or other basis on July 1, 1989, shall be provided by the facility a competency evaluation program approved by the director of health under division (A) of section 3721.31 of the Revised Code or conducted by the director under division (C) of that section. Each long-term care facility using a nurse aide on July 1, 1989, shall provide the nurse aide the preparation necessary to complete the competency evaluation program by January 1, 1990.

(2) Each nurse aide used by a long-term care facility on a full-time, temporary, per diem, or other basis on January 1, 1990, who either was not used by the facility on July 1, 1989, or was used by the facility on July 1, 1989, but had not successfully completed a competency evaluation program by January 1, 1990, shall be provided by the facility a competency evaluation program approved by the director under division (A) of section 3721.31 of the Revised Code or conducted by the director under division (C) of that section. Each long-term care facility using a nurse aide described in division (A)(2) of this section shall provide the nurse aide the preparation necessary to complete the competency evaluation program by October 1, 1990, and shall assist the nurse aide in registering for the program.

(B) Effective June 1, 1990, no long-term care facility shall use an individual as a nurse aide for more than four months unless the individual is competent to provide the services the individual is to provide, the facility has received from the nurse aide registry established under section 3721.32 of the Revised Code the information concerning the individual provided through the registry, and one of the following is the case:

(1) The individual was used by a facility as a nurse aide on a full-time, temporary, per diem, or other basis at any time during the period commencing July 1, 1989, and ending January 1, 1990, and successfully completed, not later than October 1, 1990, a competency evaluation program approved by the director under division (A) of section 3721.31 of the Revised Code or conducted by the director under division (C) of that section.

(2) The individual has successfully completed a training and competency evaluation program approved by the director under division (A) of section 3721.31 of the Revised Code or conducted by the director under division (C) of that section and, in addition, if the training and competency evaluation program or the training, instruction, or education the individual completed in meeting the conditions specified in division (F) of this section was conducted by or in a long-term care facility, or if the director pursuant to division (E) of section 3721.31 of the Revised Code so requires, the individual has successfully completed a competency evaluation program conducted by the director.

(3) Prior to July 1, 1989, if the long-term care facility is certified as a skilled nursing facility or a nursing facility under Title XVIII or XIX of the “Social Security Act,” 49 Stat. 620 (1935), 42 U.S.C.A. 301, as amended, or prior to January 1, 1990, if the facility is not so certified, the individual completed a program that the director determines included a competency evaluation component no less stringent than the competency evaluation programs approved by the director under division (A) of section 3721.31 of the Revised Code or conducted by the director under division (C) of that section, and was otherwise comparable to the training and competency evaluation programs being approved by the director under division (A) of that section.

(4) The individual is listed in a nurse aide registry maintained by another state and that state certifies that its program for training and evaluation of competency of nurse aides complies with Titles XVIII and XIX of the “Social Security Act” and regulations adopted thereunder.

(5) Prior to July 1, 1989, the individual was found competent to serve as a nurse aide after the completion of a course of nurse aide training of at least one hundred hours’ duration.

(6) The individual is enrolled in a prelicensure program of nursing education approved by
the board of nursing or by an agency of another state that regulates nursing education, has
provided the long-term care facility with a certificate from the program indicating that the
individual has successfully completed the courses that teach basic nursing skills including
infection control, safety and emergency procedures, and personal care, and has successfully
completed a competency evaluation program conducted by the director under division (C) of
section 3721.31 of the Revised Code.

(7) The individual has the equivalent of twelve months or more of full-time employment in
the preceding five years as a hospital aide or orderly and has successfully completed a
competency evaluation program conducted by the director under division (C) of section 3721.31
of the Revised Code.

(C) Effective June 1, 1990, no long-term care facility shall continue for longer than four
months to use as a nurse aide an individual who previously met the requirements of division (B)
of this section but since most recently doing so has not performed nursing and nursing-related
services for monetary compensation for twenty-four consecutive months, unless the individual
successfully completes additional training and competency evaluation by complying with
divisions (C)(1) and (2) of this section:

(1) Doing one of the following:
(a) Successfully completing a training and competency evaluation program approved by
the director under division (A) of section 3721.31 of the Revised Code or conducted by the
director under division (C) of that section;
(b) Successfully completing a training and competency evaluation program described in
division (B)(4) of this section;
(c) Meeting the requirements specified in division (B)(6) or (7) of this section.

(2) If the training and competency evaluation program completed under division (C)(1)(a)
of this section was conducted by or in a long-term care facility, or if the director pursuant to
division (E) of section 3721.31 of the Revised Code so requires, successfully completing a
competency evaluation program conducted by the director.

(D)(1) The four-month periods provided for in divisions (B) and (C) of this section include
any time, on or after June 1, 1990, that an individual is used as a nurse aide on a full-time,
temporary, per diem, or any other basis by the facility or any other long-term care facility.

(2) During the four-month period provided for in division (B) of this section, during which
a long-term care facility may, subject to division (E) of this section, use as a nurse aide an
individual who does not have the qualifications specified in divisions (B)(1) to (7) of this section,
a facility shall require the individual to comply with divisions (D)(2)(a) and (b) of this section:

(a) Participate in one of the following:
(i) If the individual has successfully completed a training and competency evaluation
program approved by the director under division (A) of section 3721.31 of the Revised Code,
and the program was conducted by or in a long-term care facility, or the director pursuant to
division (E) of section 3721.31 of the Revised Code so requires, a competency evaluation
program conducted by the director;
(ii) If the individual is enrolled in a prelicensure program of nursing education described
in division (B)(6) of this section and has completed or is working toward completion of the
courses described in that division, or the individual has the experience described in division
(B)(7) of this section, a competency evaluation program conducted by the director;
(iii) A training and competency evaluation program approved by the director under
division (A) of section 3721.31 of the Revised Code or conducted by the director under division
(C) of that section.

(b) If the individual participates in or has successfully completed a training and
competency evaluation program under division (D)(2)(a)(iii) of this section that is conducted by
or in a long-term care facility, or the director pursuant to division (E) of section 3721.31 of the
Revised Code so requires, participate in a competency evaluation program conducted by the
director.

(3) During the four-month period provided for in division (C) of this section, during which a long-term care facility may, subject to division (E) of this section, use as a nurse aide an individual who does not have the qualifications specified in divisions (C)(1) and (2) of this section, a facility shall require the individual to comply with divisions (D)(3)(a) and (b) of this section:

(a) Participate in one of the following:
   (i) If the individual has successfully completed a training and competency evaluation program approved by the director, and the program was conducted by or in a long-term care facility, or the director pursuant to division (E) of section 3721.31 of the Revised Code so requires, a competency evaluation program conducted by the director;
   (ii) If the individual is enrolled in a prelicensure program of nursing education described in division (B)(6) of this section and has completed or is working toward completion of the courses described in that division, or the individual has the experience described in division (B)(7) of this section, a competency evaluation program conducted by the director;
   (iii) A training and competency evaluation program approved or conducted by the director.

(b) If the individual participates in or has successfully completed a training and competency evaluation program under division (D)(3)(a)(iii) of this section that is conducted by or in a long-term care facility, or the director pursuant to division (E) of section 3721.31 of the Revised Code so requires, participate in a competency evaluation program conducted by the director.

(E) A long-term care facility shall not permit an individual used by the facility as a nurse aide while participating in a training and competency evaluation program to provide nursing and nursing-related services unless both of the following are the case:

(1) The individual has completed the number of hours of training that must be completed prior to providing services to residents as prescribed by rules that shall be adopted by the director in accordance with Chapter 119 of the Revised Code;

(2) The individual is under the personal supervision of a registered or licensed practical nurse licensed under Chapter 4723 of the Revised Code.

(F) An individual shall be considered to have satisfied the requirement, under division (B)(2) of this section, of having successfully completed a training and competency evaluation program conducted or approved by the director, if the individual meets both of the following conditions:

(1) The individual, as of July 1, 1989, completed at least sixty hours divided between skills training and classroom instruction in the topic areas described in divisions (B)(1) to (8) of section 3721.30 of the Revised Code;

(2) The individual received, as of that date, at least the difference between seventy-five hours and the number of hours actually spent in training and competency evaluation in supervised practical nurse aide training or regular in-service nurse aide education.

(G) The director shall adopt rules in accordance with Chapter 119 of the Revised Code specifying persons, in addition to the director, who may establish competence of nurse aides under division (B)(5) of this section, and establishing criteria for determining whether an individual meets the conditions specified in division (F) of this section.

(H) The rules adopted pursuant to divisions (E)(1) and (G) of this section shall be no less stringent than the requirements, guidelines, and procedures established by the United States secretary of health and human services under sections 1819 and 1919 of the “Social Security Act.”
Chapter 2. Regulated Healthcare Facilities
Part V. Nursing Homes

3721.32 Nurse aide registry elements; disclosure on request by director.

(A) The director of health shall establish a state nurse aide registry listing all individuals who have done any of the following:
(1) Were used by a long-term care facility as nurse aides on a full-time, temporary, per diem, or other basis at any time during the period commencing July 1, 1989, and ending January 1, 1990, and successfully completed, not later than October 1, 1990, a competency evaluation program approved by the director under division (A) of section 3721.31 of the Revised Code or conducted by the director under division (C) of that section;
(2) Successfully completed a training and competency evaluation program approved by the director under division (A) of section 3721.31 of the Revised Code or met the conditions specified in division (F) of section 3721.28 of the Revised Code, and, if the training and competency evaluation program or the training, instruction, or education the individual completed in meeting the conditions specified in division (F) of section 3721.28 of the Revised Code was conducted in or by a long-term care facility, or if the director so required pursuant to division (E) of section 3721.31 of the Revised Code, has successfully completed a competency evaluation program conducted by the director;
(3) Successfully completed a training and competency evaluation program conducted by the director under division (C) of section 3721.31 of the Revised Code;
(4) Successfully completed, prior to July 1, 1989, a program that the director has determined under division (B)(3) of section 3721.28 of the Revised Code included a competency evaluation component no less stringent than the competency evaluation programs approved or conducted by the director under section 3721.31 of the Revised Code, and was otherwise comparable to the training and competency evaluation program being approved by the director under section 3721.31 of the Revised Code;
(5) Are listed in a nurse aide registry maintained by another state that certifies that its program for training and evaluation of competency of nurse aides complies with Titles XVIII and XIX of the “Social Security Act,” 49 Stat. 620 (1935), 42 U.S.C.A. 301, as amended, or regulations adopted thereunder;
(6) Were found competent, as provided in division (B)(5) of section 3721.28 of the Revised Code, prior to July 1, 1989, after the completion of a course of nurse aide training of at least one hundred hours’ duration;
(7) Are enrolled in a prelicensure program of nursing education approved by the board of nursing or by an agency of another state that regulates nursing education, have provided the long-term care facility with a certificate from the program indicating that the individual has successfully completed the courses that teach basic nursing skills including infection control, safety and emergency procedures, and personal care, and have successfully completed a competency evaluation program conducted by the director under division (A) of section 3721.31 of the Revised Code;
(8) Have the equivalent of twelve months or more of full-time employment in the five years preceding listing in the registry as a hospital aide or orderly and have successfully completed a competency evaluation program conducted by the director under division (C) of section 3721.31 of the Revised Code.

(B) In addition to the list of individuals required by division (A) of this section, the registry shall include both of the following:
(1) The statement required by section 3721.23 of the Revised Code detailing findings by the director under that section regarding alleged abuse, neglect, or exploitation of a resident or misappropriation of resident property;
(2) Any statement provided by an individual under section 3721.23 of the Revised Code disputing the director's findings.

Whenever an inquiry is received as to the information contained in the registry
concerning an individual about whom a statement required by section 3721.23 of the Revised Code is included in the registry, the director shall disclose the statement or a summary of the statement together with any statement provided by the individual under section 3721.23 or a clear and accurate summary of that statement.

(C) The director may by rule specify additional information that must be provided to the registry by long-term care facilities and persons or government agencies conducting approved competency evaluation programs and training and competency evaluation programs.

(D) Information contained in the registry is a public record for the purposes of section 149.43 of the Revised Code, and is subject to inspection and copying under section 1347.08 of the Revised Code.
3727.081 Level II pediatric trauma centers; rules.

(A) Not later than two years after the effective date of this section, the director shall adopt rules that establish standards and procedures for designating hospitals under this section as level II pediatric trauma centers. The rules shall include standards to be followed by a hospital operating as a level II pediatric trauma center under the director's designation and procedures to be used by the director in enforcing those standards. All rules adopted under this division shall be adopted in accordance with Chapter 119 of the Revised Code.

(B) If a hospital has been denied verification as a pediatric trauma center by the American college of surgeons solely because the hospital does not meet that organization's anesthesia and surgical staffing standards, the hospital may submit an application to the director of health to receive the director's designation of the hospital as a level II pediatric trauma center. In a timely manner, the director shall review all applications received, except that the director shall cease reviewing applications on December 31, 2003. Any application pending on that date is void.

(C) Before designating a hospital as a level II pediatric trauma center, the director may conduct an inspection of the hospital. The inspection may be conducted by using a contractor of the department of health with appropriate competence and independence.

(D) The director shall designate a hospital as a level II pediatric trauma center if the hospital has submitted a complete application and the director finds that all of the following apply:

(1) The hospital has established trauma care protocols that ensure a surgeon and anesthesiologist are available from outside the hospital in a timely manner and on short notice.

(2) The hospital's protocols ensure that the surgeon will participate in the early care of a trauma patient.

(3) The hospital has adhered to its protocols and the hospital's performance has met the expected outcomes, as evidenced by data obtained from a review of at least two years of the hospital's trauma care activities.

(4) The care of patients will not be compromised by designating the hospital as a level II pediatric trauma center.

(E) A hospital's designation under this section expires December 31, 2004, unless earlier suspended or revoked by the director or surrendered by the hospital. Any action by the director to suspend or revoke a hospital's designation shall be taken in accordance with Chapter 119 of the Revised Code.

(F) The director of health and any employee or contractor of the department of health shall not make public any information reported to or collected by the department of health under this section or rules adopted under it that identifies or would tend to identify specific patients.

3727.09 Trauma care procedures; trauma patient transfer requirements.

(A) As used in this section and sections 3727.10 and 3727.101 of the Revised Code:

(1) "Trauma," "trauma care," "trauma center," "trauma patient," "pediatric," and "adult"
have the same meanings as in section 4765.01 of the Revised Code.
(2) "Stabilize" and "transfer" have the same meanings as in section 1753.28 of the Revised Code.

(B) On and after November 3, 2002, each hospital in this state that is not a trauma center shall adopt protocols for adult and pediatric trauma care provided in or by that hospital; each hospital in this state that is an adult trauma center and not a level I or level II pediatric trauma center shall adopt protocols for pediatric trauma care provided in or by that hospital; each hospital in this state that is a pediatric trauma center and not a level I and II adult trauma center shall adopt protocols for adult trauma care provided in or by that hospital. In developing its trauma care protocols, each hospital shall consider the guidelines for trauma care established by the American college of surgeons, the American college of emergency physicians, and the American academy of pediatrics. Trauma care protocols shall be written, comply with applicable federal and state laws, and include policies and procedures with respect to all of the following:
   (1) Evaluation of trauma patients, including criteria for prompt identification of trauma patients who require a level of adult or pediatric trauma care that exceeds the hospital's capabilities;
   (2) Emergency treatment and stabilization of trauma patients prior to transfer to an appropriate adult or pediatric trauma center;
   (3) Timely transfer of trauma patients to appropriate adult or pediatric trauma centers based on a patient's medical needs. Trauma patient transfer protocols shall specify all of the following:
      (a) Confirmation of the ability of the receiving trauma center to provide prompt adult or pediatric trauma care appropriate to a patient's medical needs;
      (b) Procedures for selecting an appropriate alternative adult or pediatric trauma center to receive a patient when it is not feasible or safe to transport the patient to a particular trauma center;
      (c) Advance notification and appropriate medical consultation with the trauma center to which a trauma patient is being, or will be, transferred;
      (d) Procedures for selecting an appropriate method of transportation and the hospital responsible for arranging or providing the transportation;
      (e) Confirmation of the ability of the persons and vehicle that will transport a trauma patient to provide appropriate adult or pediatric trauma care;
      (f) Assured communication with, and appropriate medical direction of, the persons transporting a trauma patient to a trauma center;
      (g) Identification and timely transfer of appropriate medical records of the trauma patient being transferred;
      (h) The hospital responsible for care of a patient in transit;
      (i) The responsibilities of the physician attending a patient and, if different, the physician who authorizes a transfer of the patient;
      (j) Procedures for determining, in consultation with an appropriate adult or pediatric trauma center and the persons who will transport a trauma patient, when transportation of the patient to a trauma center may be delayed for either of the following reasons:
         (i) Immediate transfer of the patient is unsafe due to adverse weather or ground conditions.
         (ii) No trauma center is able to provide appropriate adult or pediatric trauma care to the patient without undue delay.
   (4) Peer review and quality assurance procedures for adult and pediatric trauma care provided in or by the hospital.

(C)(1) On and after November 3, 2002, each hospital shall enter into all of the following written agreements unless otherwise provided in division (C)(2) of this section:
Chapter 3. Trauma
Part I. Hospital Trauma Services

(a) An agreement with one or more adult trauma centers in each level of categorization as a trauma center higher than the hospital that governs the transfer of adult trauma patients from the hospital to those trauma centers;
(b) An agreement with one or more pediatric trauma centers in each level of categorization as a trauma center higher than the hospital that governs the transfer of pediatric trauma patients from the hospital to those trauma centers.

(2) A level I or level II adult trauma center is not required to enter into an adult trauma patient transfer agreement with another hospital. A level I or level II pediatric trauma center is not required to enter into a pediatric trauma patient transfer agreement with another hospital. A hospital is not required to enter into an adult trauma patient transfer agreement with a level III or level IV adult trauma center, or enter into a pediatric trauma patient transfer agreement with a level III or level IV pediatric trauma center, if no trauma center of that type is reasonably available to receive trauma patients transferred from the hospital.

(3) A trauma patient transfer agreement entered into by a hospital under division (C)(1) of this section shall comply with applicable federal and state laws and contain provisions conforming to the requirements for trauma care protocols set forth in division (B) of this section.

(D) A hospital shall make trauma care protocols it adopts under division (B) of this section and trauma patient transfer agreements it adopts under division (C) of this section available for public inspection during normal working hours. A hospital shall furnish a copy of such documents upon request and may charge a reasonable and necessary fee for doing so, provided that upon request it shall furnish a copy of such documents to the director of health free of charge.

(E) A hospital that ceases to operate as an adult or pediatric trauma center under provisional status is not in violation of divisions (B) and (C) of this section during the time it develops different trauma care protocols and enters into different patient transfer agreements pursuant to division (D)(2)(c) of section 3727.101 of the Revised Code.

3727.10 Hospital trauma care prohibitions.

On and after November 3, 2002, no hospital in this state shall knowingly do any of the following:

(A) Represent that it is able to provide adult or pediatric trauma care to a severely injured patient that is inconsistent with its level of categorization as an adult or pediatric trauma center, provided that a hospital that operates an emergency facility may represent that it provides emergency care;

(B) Provide adult or pediatric trauma care to a severely injured patient that is inconsistent with applicable federal laws, state laws, and trauma care protocols and patient transfer agreements the hospital has adopted under section 3727.09 of the Revised Code;

(C) Transfer a severely injured adult or pediatric trauma patient to a hospital that is not a trauma center with an appropriate level of adult or pediatric categorization or otherwise transfer a severely injured adult or pediatric trauma patient in a manner inconsistent with any applicable trauma patient transfer agreement adopted by the hospital under section 3727.09 of the Revised Code.

3727.101 Initial verification, verification at different level and reverification application; operation with provisional status.

(A) If a hospital is seeking initial verification as an adult or pediatric trauma center, verification at a different level, or reverification after having ceased to be verified for one year or longer, the hospital shall submit an application to the American college of surgeons for a consultation visit. If a hospital is seeking reverification after having ceased to be verified for less
than one year, the hospital shall submit an application for either a consultation visit or a reverification visit, except when operating pursuant to division (C)(1)(b) of this section. The hospital shall undergo the visit and obtain a written report of the results of the visit. If the report is not obtained by the date that occurs one year after the application for the visit is submitted, the hospital shall submit a new application.

(B) Not later than one year after obtaining a report under division (A) of this section, a hospital may apply to the American college of surgeons for verification or reverification as an adult or pediatric trauma center if, based on the report, all of the following occur:

(1) The hospital’s chief medical officer and chief executive officer certify in writing to the hospital’s governing board that the hospital is committed and able to provide adult or pediatric trauma care consistent with the level of verification or reverification being sought.

(2) The hospital’s governing board adopts a resolution stating that the hospital is committed and able to provide adult or pediatric trauma care consistent with the level of verification or reverification being sought.

(3) The hospital’s governing board approves a written plan and timetable for obtaining the level of verification or reverification being sought, including provisions for correcting at the earliest practicable date any deficiencies identified in the report obtained pursuant to division (A) of this section.

(C)(1) A hospital may operate as an adult or pediatric trauma center under provisional status, as follows:

(a) On submission of an application under division (B) of this section;

(b) Until it receives the final result of its reverification if the application was submitted within one year before it ceased to be verified.

(2) A hospital operating as an adult or pediatric trauma care center under provisional status is subject to both of the following:

(a) The hospital shall limit its provisional status activities to those activities authorized by the level of verification or reverification being sought.

(b) The hospital shall make a reasonable, good faith effort to comply with all requirements established by the American college of surgeons that must be met for the level of verification or reverification being sought.

(D)(1) A hospital shall cease to operate as an adult or pediatric trauma center under provisional status if any of the following applies:

(a) The application for verification or reverification is denied, suspended, terminated, or withdrawn.

(b) In the case of a hospital seeking initial verification, verification at a different level, or reverification after having ceased to be verified for one year or longer, the hospital has not obtained verification or reverification by the date that occurs eighteen months after commencing to operate under provisional status.

(c) In the case of a hospital seeking reverification after having ceased to be verified for less than one year, the hospital has not obtained reverification by the date that occurs one year after commencing to operate under provisional status.

(2) A hospital that ceases to operate as an adult or pediatric trauma center under provisional status pursuant to division (D)(1) of this section shall do all of the following:

(a) Except as otherwise provided by federal law, at the earliest practicable date transfer to one or more appropriate trauma centers all trauma patients in the hospital to whom the hospital is not permitted to provide trauma care.

(b) Promptly comply with section 3727.10 of the Revised Code according to its current status.

(c) Not later than one hundred eighty days after ceasing to operate under provisional status, comply with section 3727.09 of the Revised Code according to its current status.

(3) A hospital that ceases to operate as an adult or pediatric trauma center under
provisional status may not operate as an adult or pediatric trauma center under provisional status until two years have elapsed since it ceased to operate under that status.

(E) With respect to the availability of documents and other information prepared pursuant to this section, an adult or pediatric trauma center operating under provisional status is subject to both of the following:

1. The trauma center shall make available for public inspection during normal working hours a copy of the certification, resolution, and application prepared pursuant to division (B) of this section. On request, the trauma center shall provide a copy of the documents. A reasonable fee may be charged to cover the necessary expenses incurred in furnishing the copies, except that no fee shall be charged if the copies are being furnished to the director of health.

2. On request, the trauma center shall furnish to the director of health a copy of the report of the consultative or reverification visit obtained from the American college of surgeons pursuant to division (A) of this section and a copy of the plan and timetable approved pursuant to division (B)(3) of this section for obtaining verification or reverification. The documents provided may omit patient-identifying information. Submission of the documents to the director does not waive any privilege or right of confidentiality that otherwise applies to the documents and the information in them.

The documents and the information in them are not public records and shall not be disclosed to any person except employees of the department of health who are expressly authorized by the director of health to examine the copies and information in them. The documents and information in them are not subject to discovery or introduction into evidence in a civil action, except an action brought by the director against the trauma center or a person that authorized, approved, or created the original documents and the information in them.

(F) Notwithstanding any provision of this section regarding the receipt of a report of the results of a consultation visit or reverification visit from the American college of surgeons, if a hospital submitted an application for a consultation visit or reverification visit as an adult or pediatric trauma center on or before May 20, 2002, the hospital may operate as an adult or pediatric trauma center under provisional status. The hospital shall do all of the following:

1. Comply with divisions (B)(1) and (2) of this section as though the report has been received;

2. Approve through its governing board a written plan and timetable for obtaining the level of verification or reverification being sought, including provisions for correcting at the earliest practicable date any deficiencies identified in the exit interview following the consultation or reverification visit and any subsequent report received;

3. Comply with all other provisions of this section applicable to the operation of a trauma center under provisional status, including the requirements of division (D) of this section regarding the ceasing of operation under provisional status.

3727.102 Changes in trauma care status; notice required.

A hospital shall promptly notify in writing the director of health, the emergency medical services division of the department of public safety, and the appropriate regional directors and regional advisory boards appointed under section 4765.05 of the Revised Code if any of the following occurs:

(A) The hospital ceases to be an adult or pediatric trauma center verified by the American college of surgeons.

(B) The hospital changes its level of verification as an adult or pediatric trauma center verified by the American college of surgeons.

(C) The hospital commences to operate as an adult or pediatric trauma center under provisional status pursuant to section 3727.101 of the Revised Code.

(D) The hospital changes the level of verification or reverification it is seeking under its
provisional status.
(E) The hospital ceases to operate under its provisional status.
(F) The hospital receives verification or reverification in place of its provisional status.

Part II. EMS, EMT, Medical Transport

4765.01 Emergency medical services; definitions.

As used in this chapter:
(A) “First responder” means an individual who holds a current, valid certificate issued under section 4765.30 of the Revised Code to practice as a first responder.
(B) “Emergency medical technician-basic” or “EMT-basic” means an individual who holds a current, valid certificate issued under section 4765.30 of the Revised Code to practice as an emergency medical technician-basic.
(C) “Emergency medical technician-intermediate” or “EMT-I” means an individual who holds a current, valid certificate issued under section 4765.30 of the Revised Code to practice as an emergency medical technician-intermediate.
(D) “Emergency medical technician-paramedic” or “paramedic” means an individual who holds a current, valid certificate issued under section 4765.30 of the Revised Code to practice as an emergency medical technician-paramedic.
(E) “Ambulance” means any motor vehicle that is used, or is intended to be used, for the purpose of responding to emergency medical situations, transporting emergency patients, and administering emergency medical service to patients before, during, or after transportation.
(F) “Cardiac monitoring” means a procedure used for the purpose of observing and documenting the rate and rhythm of a patient’s heart by attaching electrical leads from an electrocardiograph monitor to certain points on the patient’s body surface.
(G) “Emergency medical service” means any of the services described in sections 4765.35, 4765.37, 4765.38, and 4765.39 of the Revised Code that are performed by first responders, emergency medical technicians-basic, emergency medical technicians-intermediate, and paramedics. “Emergency medical service” includes such services performed before or during any transport of a patient, including transports between hospitals and transports to and from helicopters.
(H) “Emergency medical service organization” means a public or private organization using first responders, EMTs-basic, EMTs-I, or paramedics, or a combination of first responders, EMTs-basic, EMTs-I, and paramedics, to provide emergency medical services.
(I) “Physician” means an individual who holds a current, valid license issued under Chapter 4731 of the Revised Code authorizing the practice of medicine and surgery or osteopathic medicine and surgery.
(J) “Registered nurse” means an individual who holds a current, valid license issued under Chapter 4723 of the Revised Code authorizing the practice of nursing as a registered nurse.
(K) “Volunteer” means a person who provides services either for no compensation or for compensation that does not exceed the actual expenses incurred in providing the services or in training to provide the services.
(L) “Emergency medical service personnel” means first responders, emergency medical technicians-basic, emergency medical technicians-intermediate, emergency medical technicians-paramedic, and persons who provide medical direction to such persons.
(M) “Hospital” has the same meaning as in section 3727.01 of the Revised Code.
(N) “Trauma” or “traumatic injury” means severe damage to or destruction of tissue that satisfies both of the following conditions:
(1) It creates a significant risk of any of the following:
(a) Loss of life;
(b) Loss of a limb;
(c) Significant, permanent disfigurement;
(d) Significant, permanent disability.
(2) It is caused by any of the following:
(a) Blunt or penetrating injury;
(b) Exposure to electromagnetic, chemical, or radioactive energy;
(c) Drowning, suffocation, or strangulation;
(d) A deficit or excess of heat.
(O) “Trauma victim” or “trauma patient” means a person who has sustained a traumatic injury.
(P) “Trauma care” means the assessment, diagnosis, transportation, treatment, or rehabilitation of a trauma victim by emergency medical service personnel or by a physician, nurse, physician assistant, respiratory therapist, physical therapist, chiropractor, occupational therapist, speech-language pathologist, audiologist, or psychologist licensed to practice as such in this state or another jurisdiction.
(Q) “Trauma center” means all of the following:
(1) Any hospital that is verified by the American college of surgeons as an adult or pediatric trauma center;
(2) Any hospital that is operating as an adult or pediatric trauma center under provisional status pursuant to section 3727.101 of the Revised Code;
(3) Until December 31, 2004, any hospital in this state that is designated by the director of health as a level II pediatric trauma center under section 3727.081 of the Revised Code;
(4) Any hospital in another state that is licensed or designated under the laws of that state as capable of providing specialized trauma care appropriate to the medical needs of the trauma patient.
(R) “Pediatric” means involving a patient who is less than sixteen years of age.
(S) “Adult” means involving a patient who is not a pediatric patient.
(T) “Geriatric” means involving a patient who is at least seventy years old or exhibits significant anatomical or physiological characteristics associated with advanced aging.
(U) “Air medical organization” means an organization that provides emergency medical services, or transports emergency victims, by means of fixed or rotary wing aircraft.
(V) “Emergency care” and “emergency facility” have the same meanings as in section 3727.01 of the Revised Code.
(W) “Stabilize,” except as it is used in division (B) of section 4765.35 of the Revised Code with respect to the manual stabilization of fractures, has the same meaning as in section 1753.28 of the Revised Code.
(X) “Transfer” has the same meaning as in section 1753.28 of the Revised Code.
(Y) “Firefighter” means any member of a fire department as defined in section 742.01 of the Revised Code.
(Z) “Volunteer firefighter” has the same meaning as in section 146.01 of the Revised Code.
(AA) “Part-time paid firefighter” means a person who provides firefighting services on less than a full-time basis, is routinely scheduled to be present on site at a fire station or other designated location for purposes of responding to a fire or other emergency, and receives more than nominal compensation for the provision of firefighting services.
(BB) “Physician assistant” means an individual who holds a valid license to practice as a physician assistant issued under Chapter 4730 of the Revised Code.
4765.04 Emergency medical services; firefighter and fire safety inspector training committee; trauma committee; other committees.

(A) The firefighter and fire safety inspector training committee of the state board of emergency medical, fire, and transportation services is hereby created and shall consist of the members of the board who are chiefs of fire departments, and the members of the board who are emergency medical technicians-basic, emergency medical technicians-intermediate, and emergency medical technicians-paramedic appointed from among persons nominated by the Ohio association of professional fire fighters or the northern Ohio fire fighters and from among persons nominated by the Ohio state firefighter's association. Each member of the committee, except the chairperson, may designate a person with fire experience to serve in that member's place. The members of the committee or their designees shall select a chairperson from among the members or their designees.

The committee may conduct investigations in the course of discharging its duties under this chapter. In the course of an investigation, the committee may issue subpoenas. If a person subpoenaed fails to comply with the subpoena, the committee may authorize its chairperson to apply to the court of common pleas in the county where the person to be subpoenaed resides for an order compelling compliance in the same manner as compliance with a subpoena issued by the court is compelled.

(B) The trauma committee of the state board of emergency medical, fire, and transportation services is hereby created and shall consist of the following members appointed by the director of public safety:

(1) A physician who is certified by the American board of surgery or American osteopathic board of surgery and actively practices general trauma surgery, appointed from among three persons nominated by the Ohio chapter of the American college of surgeons, three persons nominated by the Ohio state medical association, and three persons nominated by the Ohio osteopathic association;

(2) A physician who is certified by the American board of surgery or the American osteopathic board of surgery and actively practices orthopedic trauma surgery, appointed from among three persons nominated by the Ohio orthopedic society and three persons nominated by the Ohio osteopathic association;

(3) A physician who is certified by the American board of neurological surgeons or the American osteopathic board of surgery and actively practices neurosurgery on trauma victims, appointed from among three persons nominated by the Ohio state neurological society and three persons nominated by the Ohio osteopathic association;

(4) A physician who is certified by the American board of surgeons or American osteopathic board of surgeons and actively specializes in treating burn victims, appointed from among three persons nominated by the Ohio chapter of the American college of surgeons and three persons nominated by the Ohio osteopathic association;

(5) A dentist who is certified by the American board of oral and maxillofacial surgery and actively practices oral and maxillofacial surgery, appointed from among three persons nominated by the Ohio dental association;

(6) A physician who is certified by the American board of physical medicine and rehabilitation or American osteopathic board of rehabilitation medicine and actively provides rehabilitative care to trauma victims, appointed from among three persons nominated by the Ohio society of physical medicine and rehabilitation and three persons nominated by the Ohio osteopathic association;

(7) A physician who is certified by the American board of surgery or American osteopathic board of surgery with special qualifications in pediatric surgery and actively practices pediatric trauma surgery, appointed from among three persons nominated by the Ohio
chapter of the American academy of pediatrics and three persons nominated by the Ohio osteopathic association;

(8) A physician who is certified by the American board of emergency medicine or American osteopathic board of emergency medicine, actively practices emergency medicine, and is actively involved in emergency medical services, appointed from among three persons nominated by the Ohio chapter of the American college of emergency physicians and three persons nominated by the Ohio osteopathic association;

(9) A physician who is certified by the American board of pediatrics, American osteopathic board of pediatrics, or American board of emergency medicine, is sub-boarded in pediatric emergency medicine, actively practices pediatric emergency medicine, and is actively involved in emergency medical services, appointed from among three persons nominated by the Ohio chapter of the American college of emergency physicians, three persons nominated by the Ohio chapter of the American academy of pediatrics, and three persons nominated by the Ohio osteopathic association;

(10) A physician who is certified by the American board of surgery, American osteopathic board of surgery, or American board of emergency medicine and is the chief medical officer of an air medical organization, appointed from among three persons nominated by the Ohio association of air medical services;

(11) A coroner or medical examiner appointed from among three people nominated by the Ohio state coroners' association;

(12) A registered nurse who actively practices trauma nursing at an adult or pediatric trauma center, appointed from among three persons nominated by the Ohio association of trauma nurse coordinators;

(13) A registered nurse who actively practices emergency nursing and is actively involved in emergency medical services, appointed from among three persons nominated by the Ohio chapter of the emergency nurses' association;

(14) The chief trauma registrar of an adult or pediatric trauma center, appointed from among three persons nominated by the alliance of Ohio trauma registrars;

(15) The administrator of an adult or pediatric trauma center, appointed from among three persons nominated by OHA: the association for hospitals and health systems, three persons nominated by the Ohio osteopathic association, three persons nominated by the association of Ohio children's hospitals, and three persons nominated by the health forum of Ohio;

(16) The administrator of a hospital that is not a trauma center and actively provides emergency care to adult or pediatric trauma patients, appointed from among three persons nominated by OHA: the association for hospitals and health systems, three persons nominated by the Ohio osteopathic association, three persons nominated by the association of Ohio children's hospitals, and three persons nominated by the health forum of Ohio;

(17) The operator of an ambulance company that actively provides trauma care to emergency patients, appointed from among three persons nominated by the Ohio ambulance association;

(18) The chief of a fire department that actively provides trauma care to emergency patients, appointed from among three persons nominated by the Ohio fire chiefs' association;

(19) An EMT or paramedic who is certified under this chapter and actively provides trauma care to emergency patients, appointed from among three persons nominated by the Ohio association of professional firefighters, three persons nominated by the northern Ohio fire fighters, three persons nominated by the Ohio state firefighters' association, and three persons nominated by the Ohio association of emergency medical services;

(20) A person who actively advocates for trauma victims, appointed from three persons nominated by the Ohio brain injury association and three persons nominated by the governor's council on people with disabilities;
Chapter 3. Trauma
Part II. EMS, EMT, Medical Transport

(21) A physician or nurse who has substantial administrative responsibility for trauma care provided in or by an adult or pediatric trauma center, appointed from among three persons nominated by OHA: the association for hospitals and health systems, three persons nominated by the Ohio osteopathic association, three persons nominated by the association of Ohio children's hospitals, and three persons nominated by the health forum of Ohio;

(22) Three representatives of hospitals that are not trauma centers and actively provide emergency care to trauma patients, appointed from among three persons nominated by OHA: the association for hospitals and health systems, three persons nominated by the Ohio osteopathic association, three persons nominated by the association of Ohio children's hospitals, and three persons nominated by the health forum of Ohio. The representatives may be hospital administrators, physicians, nurses, or other clinical professionals.

Members of the committee shall have substantial experience in the categories they represent, shall be residents of this state, and may be members of the state board of emergency medical, fire, and transportation services. In appointing members of the committee, the director shall attempt to include members representing urban and rural areas, various geographical areas of the state, and various schools of training. The director shall not appoint to the committee more than one member who is employed by or practices at the same hospital, health system, or emergency medical service organization.

The director may refuse to appoint any of the persons nominated by an organization or organizations under this division. In that event, the organization or organizations shall continue to nominate the required number of persons until the director appoints to the committee one or more of the persons nominated by the organization or organizations.

Initial appointments to the committee shall be made by the director not later than ninety days after November 3, 2000. Members of the committee shall serve at the pleasure of the director, except that any member of the committee who ceases to be qualified for the position to which the member was appointed shall cease to be a member of the committee. Vacancies on the committee shall be filled in the same manner as original appointments.

The members of the committee shall serve without compensation but shall be reimbursed for actual and necessary expenses incurred in carrying out duties as members of the committee.

The committee shall select a chairperson and vice-chairperson from among its members. A majority of all members of the committee shall constitute a quorum. No action shall be taken without the concurrence of a majority of all members of the committee. The committee shall meet at the call of the chair, upon written request of five members of the committee, and at the direction of the state board of emergency medical, fire, and transportation services. The committee shall not meet at times or locations that conflict with meetings of the board. The executive director and medical director of the state board of emergency medical, fire, and transportation services may participate in any meeting of the committee and shall do so at the request of the committee.

The committee shall advise and assist the state board of emergency medical, fire, and transportation services in matters related to adult and pediatric trauma care and the establishment and operation of the state trauma registry. In matters relating to the state trauma registry, the board and the committee shall consult with trauma registrars from adult and pediatric trauma centers in the state. The committee may appoint a subcommittee to advise and assist with the trauma registry. The subcommittee may include persons with expertise relevant to the trauma registry who are not members of the board or committee.

(C)(1) The medical transportation committee of the state board of emergency medical, fire, and transportation services is hereby created. The committee shall consist of members appointed by the board in accordance with rules adopted by the board. In appointing members of the committee, the board shall attempt to include members representing urban and rural areas and various geographical areas of the state, and shall ensure the members have
Chapter 3. Trauma
Part II. EMS, EMT, Medical Transport

substantial experience in the transportation of patients, including addressing the unique issues of mobile intensive care and air medical services. The members of the committee shall be residents of this state and may be members of the board. The members of the committee shall serve without compensation but shall be reimbursed for actual and necessary expenses incurred in carrying out duties as members of the committee. The committee shall select a chairperson and vice-chairperson from among its members. A majority of all members of the committee shall constitute a quorum. No action shall be taken without the concurrence of a majority of all members of the committee. The committee shall meet at the call of the chair and at the direction of the board. The committee shall not meet at times or locations that conflict with meetings of the board. The committee shall advise and assist the board in matters related to the licensing of nonemergency medical service, emergency medical service, and air medical service organizations in this state.

(2) There is hereby created the critical care subcommittee of the medical transportation committee. The membership of the subcommittee and the conduct of the subcommittee’s business shall conform to rules adopted by the board. The subcommittee shall advise and assist the committee and board in matters relating to mobile intensive care and air medical service organizations in this state.

(D) The state board of emergency medical, fire, and transportation services may appoint other committees and subcommittees as it considers necessary.

(E) The state board of emergency medical, fire, and transportation services, and any of its committees or subcommittees, may request assistance from any state agency. The board and its committees and subcommittees may permit persons who are not members of those bodies to participate in deliberations of those bodies, but no person who is not a member of the board shall vote on the board and no person who is not a member of a committee created under division (A), (B), or (C) of this section shall vote on that committee.

(F) Sections 101.82 to 101.87 of the Revised Code do not apply to the committees established under divisions (A), (B), and (C) of this section.

4765.06 Emergency incidence reporting system; delivery and frequency of services; trauma registries; confidentiality of information.

(A) The state board of emergency medical, fire, and transportation services shall establish an emergency medical services incidence reporting system for the collection of information regarding the delivery of emergency medical services in this state and the frequency at which the services are provided. All emergency medical service organizations shall submit to the board any information that the board determines is necessary for maintaining the incidence reporting system.

(B) The board shall establish a state trauma registry to be used for the collection of information regarding the care of adult and pediatric trauma victims in this state. The registry shall provide for the reporting of adult and pediatric trauma-related deaths, identification of adult and pediatric trauma patients, monitoring of adult and pediatric trauma patient care data, determination of the total amount of uncompensated adult and pediatric trauma care provided annually by each facility that provides care to trauma victims, and collection of any other information specified by the board. All persons designated by the board shall submit to the board any information it determines is necessary for maintaining the state trauma registry. At the request of the board any state agency possessing information regarding adult or pediatric trauma care shall provide the information to the board. The board shall maintain the state trauma registry in accordance with rules adopted under section 4765.11 of the Revised Code.

Rules relating to the state trauma registry adopted under this section and section 4765.11 of the Revised Code shall not prohibit the operation of other trauma registries and may provide for the reporting of information to the state trauma registry by or through other trauma
registries in a manner consistent with information otherwise reported to the state trauma registry. Other trauma registries may report aggregate information to the state trauma registry, provided the information can be matched to the person that reported it. Information maintained by another trauma registry and reported to the state trauma registry in lieu of being reported directly to the state trauma registry is a public record and shall be maintained, made available to the public, held in confidence, risk adjusted, and not subject to discovery or introduction into evidence in a civil action as provided in section 149.43 of the Revised Code and this section. Any person who provides, maintains, or risk adjusts such information shall comply with this section and rules adopted under it in performing that function and has the same immunities with respect to that function as a person who performs that function with respect to the state trauma registry.

(C) The board and any employee or contractor of the board or the department of public safety shall not make public information it receives under Chapter 4765 of the Revised Code that identifies or would tend to identify a specific recipient of emergency medical services or adult or pediatric trauma care.

(D) Not later than two years after November 3, 2000, the board shall adopt and implement rules under section 4765.11 of the Revised Code that provide written standards and procedures for risk adjustment of information received by the board under Chapter 4765 of the Revised Code. The rules shall be developed in consultation with appropriate medical, hospital, and emergency medical service organizations and may provide for risk adjustment by a contractor of the board. Except as provided in division (G) of this section, before risk adjustment standards and procedures are implemented, no member of the board and no employee or contractor of the board or the department of public safety shall make public information received by the board under Chapter 4765 of the Revised Code that identifies or would tend to identify a specific provider of emergency medical services or adult or pediatric trauma care. Except as provided in division (G) of this section, after risk adjustment standards and procedures are implemented, the board shall make public such information only on a risk adjusted basis.

(E) The board shall adopt rules under section 4765.11 of the Revised Code that specify procedures for ensuring the confidentiality of information that is not to be made public under this section. The rules shall specify the circumstances in which deliberations of the persons performing risk adjustment functions under this section are not open to the public and records of those deliberations are maintained in confidence. Nothing in this section prohibits the board from making public statistical information that does not identify or tend to identify a specific recipient or provider of emergency medical services or adult or pediatric trauma care.

(F) No provider that furnishes information to the board with respect to any patient the provider examined or treated shall, because of this furnishing, be deemed liable in damages to any person or be held to answer for betrayal of a professional confidence in the absence of willful or wanton misconduct. No such information shall be subject to introduction in evidence in any civil action against the provider. No provider that furnishes information to the board shall be liable for the misuse or improper release of the information by the board or any other person. No person who performs risk adjustment functions under this section shall, because of performing such functions, be held liable in a civil action for betrayal of professional confidence or otherwise in the absence of willful or wanton misconduct.

(G) The board may transmit data that identifies or tends to identify a specific provider of emergency medical services care and has not been risk-adjusted from the emergency medical services incident reporting system directly to the national emergency medical services information system, pursuant to a written contract between the board and the federal agency that administers the national emergency medical services information system, which shall ensure to the maximum extent permitted by federal law that such agency shall use such data solely for inclusion in the national emergency medical services information system and shall not disclose such data to the public, through legal discovery, a freedom of information request, or
otherwise, in a manner that identifies or tends to identify a specific provider of emergency medical services care.

4765.12 Trauma victims; guidelines for care; peer review and quality assurance programs required.

(A) Not later than two years after November 3, 2000, the state board of emergency medical, fire, and transportation services shall develop and distribute guidelines for the care of trauma victims by emergency medical service personnel and for the conduct of peer review and quality assurance programs by emergency medical service organizations. The guidelines shall be consistent with the state trauma triage protocols adopted in rules under sections 4765.11 and 4765.40 of the Revised Code and shall place emphasis on the special needs of pediatric and geriatric trauma victims. In developing the guidelines, the board shall consult with entities with interests in trauma and emergency medical services and shall consider any relevant guidelines adopted by national organizations, including the American college of surgeons, American college of emergency physicians, and American academy of pediatrics. The board shall distribute the guidelines, and amendments to the guidelines, to each emergency medical service organization, regional director, regional physician advisory board, certified emergency medical service instructor, and person who regularly provides medical direction to emergency medical service personnel in this state.

(B) Not later than three years after November 3, 2000, each emergency medical service organization in this state shall implement ongoing peer review and quality assurance programs designed to improve the availability and quality of the emergency medical services it provides. The form and content of the programs shall be determined by each emergency medical service organization. In implementing the programs, each emergency medical service organization shall consider how to improve its ability to provide effective trauma care, particularly for pediatric and geriatric trauma victims, and shall take into account the trauma care guidelines developed by the state board of emergency medical, fire, and transportation services under this section.

Information generated solely for use in a peer review or quality assurance program conducted on behalf of an emergency medical service organization is not a public record under section 149.43 of the Revised Code. Such information, and any discussion conducted in the course of a peer review or quality assurance program conducted on behalf of an emergency medical service organization, is not subject to discovery in a civil action and shall not be introduced into evidence in a civil action against the emergency medical service organization on whose behalf the information was generated or the discussion occurred.

No emergency medical service organization on whose behalf a peer review or quality assurance program is conducted, and no person who conducts such a program, because of performing such functions, shall be liable in a civil action for betrayal of professional confidence or otherwise in the absence of willful or wanton misconduct.

4765.35 First responders; services permissible; rules.

(A) A first responder shall perform the emergency medical services described in this section in accordance with this chapter and any rules adopted under it.

(B) A first responder may provide limited emergency medical services to patients until the arrival of an emergency medical technician-basic, emergency medical technician-intermediate, or emergency medical technician-paramedic. In an emergency, a first responder may render emergency medical services such as opening and maintaining an airway, giving mouth to barrier ventilation, chest compressions, electrical interventions with automated defibrillators to support or correct the cardiac function and other methods determined by the board, controlling of hemorrhage, manual stabilization of fractures, bandaging, assisting in
childbirth, and determining triage of trauma victims.

(C) A first responder may perform any other emergency medical services approved pursuant to rules adopted under section 4765.11 of the Revised Code. The board shall determine whether the nature of any such service requires that a first responder receive authorization prior to performing the service.

(D)(1) Except as provided in division (D)(2) of this section, if the board determines under division (C) of this section that a service requires prior authorization, the service shall be performed only pursuant to the written or verbal authorization of a physician or of the cooperating physician advisory board, or pursuant to an authorization transmitted through a direct communication device by a physician, physician assistant designated by a physician, or registered nurse designated by a physician.

(2) If communications fail during an emergency situation or the required response time prohibits communication, a first responder may perform services subject to this division, if, in the judgment of the first responder, the life of the patient is in immediate danger. Services performed under these circumstances shall be performed in accordance with the written protocols for triage of adult and pediatric trauma victims established in rules adopted under sections 4765.11 and 4765.40 of the Revised Code and any applicable protocols adopted by the emergency medical service organization with which the first responder is affiliated.

4765.36 Emergency medical technician services while in hospital.

In a hospital, an emergency medical technician-basic, emergency medical technician-intermediate, or emergency medical technician-paramedic may perform emergency medical services if the services are performed in accordance with both of the following conditions:

(A) Only in the hospital’s emergency department or while moving a patient between the emergency department and another part of the hospital;

(B) Only under the direction and supervision of one of the following:

(1) A physician;

(2) A physician assistant designated by a physician;

(3) A registered nurse designated by a physician.

4765.37 EMT-basic; performance of services.

(A) An emergency medical technician-basic shall perform the emergency medical services described in this section in accordance with this chapter and any rules adopted under it by the state board of emergency medical, fire, and transportation services.

(B) An emergency medical technician-basic may operate, or be responsible for operation of, an ambulance and may provide emergency medical services to patients. In an emergency, an EMT-basic may determine the nature and extent of illness or injury and establish priority for required emergency medical services. An EMT-basic may render emergency medical services such as opening and maintaining an airway, giving positive pressure ventilation, cardiac resuscitation, electrical interventions with automated defibrillators to support or correct the cardiac function and other methods determined by the board, controlling of hemorrhage, treatment of shock, immobilization of fractures, bandaging, assisting in childbirth, management of mentally disturbed patients, initial care of poison and burn patients, and determining triage of adult and pediatric trauma victims. Where patients must in an emergency be extricated from entrapment, an EMT-basic may assess the extent of injury and render all possible emergency medical services and protection to the entrapped patient; provide light rescue services if an ambulance has not been accompanied by a specialized unit; and after extrication, provide additional care in sorting of the injured in accordance with standard emergency procedures.

(C) An EMT-basic may perform any other emergency medical services approved
Chapter 3. Trauma
Part II. EMS, EMT, Medical Transport

pursuant to rules adopted under section 4765.11 of the Revised Code. The board shall determine whether the nature of any such service requires that an EMT-basic receive authorization prior to performing the service.

(D)(1) Except as provided in division (D)(2) of this section, if the board determines under division (C) of this section that a service requires prior authorization, the service shall be performed only pursuant to the written or verbal authorization of a physician or of the cooperating physician advisory board, or pursuant to an authorization transmitted through a direct communication device by a physician, physician assistant designated by a physician, or registered nurse designated by a physician.

(2) If communications fail during an emergency situation or the required response time prohibits communication, an EMT-basic may perform services subject to this division, if, in the judgment of the EMT-basic, the life of the patient is in immediate danger. Services performed under these circumstances shall be performed in accordance with the protocols for triage of adult and pediatric trauma victims established in rules adopted under sections 4765.11 and 4765.40 of the Revised Code and any applicable protocols adopted by the emergency medical service organization with which the EMT-basic is affiliated.

4765.38 EMT-intermediate; performance of services.

(A) An emergency medical technician-intermediate shall perform the emergency medical services described in this section in accordance with this chapter and any rules adopted under it.

(B) An EMT-I may do any of the following:

(1) Establish and maintain an intravenous lifeline that has been approved by a cooperating physician or physician advisory board;
(2) Perform cardiac monitoring;
(3) Perform electrical interventions to support or correct the cardiac function;
(4) Administer epinephrine;
(5) Determine triage of adult and pediatric trauma victims;
(6) Perform any other emergency medical services approved pursuant to rules adopted under section 4765.11 of the Revised Code.

(C)(1) Except as provided in division (C)(2) of this section, the services described in division (B) of this section shall be performed by an EMT-I only pursuant to the written or verbal authorization of a physician or of the cooperating physician advisory board, or pursuant to an authorization transmitted through a direct communication device by a physician, physician assistant designated by a physician, or registered nurse designated by a physician.

(2) If communications fail during an emergency situation or the required response time prohibits communication, an EMT-I may perform any of the services described in division (B) of this section, if, in the judgment of the EMT-I, the life of the patient is in immediate danger. Services performed under these circumstances shall be performed in accordance with the protocols for triage of adult and pediatric trauma victims established in rules adopted under sections 4765.11 and 4765.40 of the Revised Code and any applicable protocols adopted by the emergency medical service organization with which the EMT-I is affiliated.

(D) In addition to, and in the course of, providing emergency medical treatment, an emergency medical technician-intermediate may withdraw blood as provided under sections 1547.11, 4506.17, and 4511.19 of the Revised Code. An emergency medical technician-intermediate shall withdraw blood in accordance with this chapter and any rules adopted under it by the state board of emergency medical, fire, and transportation services.
4765.39 EMT-paramedic; performance of services; emergency situations.

(A) An emergency medical technician-paramedic shall perform the emergency medical services described in this section in accordance with this chapter and any rules adopted under it.

(B) A paramedic may do any of the following:

1. Perform cardiac monitoring;
2. Perform electrical interventions to support or correct the cardiac function;
3. Perform airway procedures;
4. Perform relief of pneumothorax;
5. Administer appropriate drugs and intravenous fluids;
6. Determine triage of adult and pediatric trauma victims;
7. Perform any other emergency medical services, including life support or intensive care techniques, approved pursuant to rules adopted under section 4765.11 of the Revised Code.

(C)(1) Except as provided in division (C)(2) of this section, the services described in division (B) of this section shall be performed by a paramedic only pursuant to the written or verbal authorization of a physician or of the cooperating physician advisory board, or pursuant to an authorization transmitted through a direct communication device by a physician, physician assistant designated by a physician, or registered nurse designated by a physician.

(C)(2) If communications fail during an emergency situation or the required response time prohibits communication, a paramedic may perform any of the services described in division (B) of this section, if, in the paramedic's judgment, the life of the patient is in immediate danger. Services performed under these circumstances shall be performed in accordance with the protocols for triage of adult and pediatric trauma victims established in rules adopted under sections 4765.11 and 4765.40 of the Revised Code and any applicable protocols adopted by the emergency medical service organization with which the paramedic is affiliated.

(D) In addition to, and in the course of, providing emergency medical treatment, an emergency medical technician-paramedic may withdraw blood as provided under sections 1547.11, 4506.17, and 4511.19 of the Revised Code. An emergency medical technician-paramedic shall withdraw blood in accordance with this chapter and any rules adopted under it by the state board of emergency medical, fire, and transportation services.

4765.391 EMS flu vaccine.

(A) The medical director or cooperating physician advisory board of each emergency medical service organization may authorize one or more emergency medical technicians-paramedic within the organization to administer immunizations for influenza to either of the following:

1. A full-time paid firefighter, part-time paid firefighter, or volunteer firefighter;
2. An emergency medical technician-basic, emergency medical technician-intermediate, or paramedic.

(B) The medical director or cooperating physician advisory board of each emergency medical service organization shall establish written protocols and training necessary for a paramedic to administer an immunization for influenza under this section. A paramedic administering an immunization under this section shall do so in accordance with the protocols and training.

(C) For each immunization administered under this section, the paramedic administering the immunization shall, not later than thirty days after the immunization is administered, do either of the following:

1. Provide notice of the immunization administration to the board of health of the city or
Chapter 3. Trauma
Part II. EMS, EMT, Medical Transport

general health district in which the individual receiving the immunization resides or, if there is no
board of health for that district, the authority having the duties of a board of health under section
3709.05 of the Revised Code;
(2) Submit the immunization administration information to the state immunization registry
maintained by the department of health.

4765.40 Trauma victims; state and regional triage protocols.

(A)(1) Not later than two years after November 3, 2000, the state board of emergency
medical, fire, and transportation services shall adopt rules under section 4765.11 of the Revised
Code establishing written protocols for the triage of adult and pediatric trauma victims. The rules
shall define adult and pediatric trauma in a manner that is consistent with section 4765.01 of the
Revised Code, minimizes overtriage and undertriage, and emphasizes the special needs of
pediatric and geriatric trauma patients.
(2) The state triage protocols adopted under division (A) of this section shall require a
trauma victim to be transported directly to an adult or pediatric trauma center that is qualified to
provide appropriate adult or pediatric trauma care, unless one or more of the following
exceptions applies:
(a) It is medically necessary to transport the victim to another hospital for initial
assessment and stabilization before transfer to an adult or pediatric trauma center;
(b) It is unsafe or medically inappropriate to transport the victim directly to an adult or
pediatric trauma center due to adverse weather or ground conditions or excessive transport
time;
(c) Transporting the victim to an adult or pediatric trauma center would cause a shortage
of local emergency medical service resources;
(d) No appropriate adult or pediatric trauma center is able to receive and provide adult or
pediatric trauma care to the trauma victim without undue delay;
(e) Before transport of a patient begins, the patient requests to be taken to a particular
hospital that is not a trauma center or, if the patient is less than eighteen years of age or is not
able to communicate, such a request is made by an adult member of the patient's family or a
legal representative of the patient.

(3)(a) The state triage protocols adopted under division (A) of this section shall require
trauma patients to be transported to an adult or pediatric trauma center that is able to provide
appropriate adult or pediatric trauma care, but shall not require a trauma patient to be
transported to a particular trauma center. The state triage protocols shall establish one or more
procedures for evaluating whether an injury victim requires or would benefit from adult or
pediatric trauma care, which procedures shall be applied by emergency medical service
personnel based on the patient's medical needs. In developing state trauma triage protocols,
the board shall consider relevant model triage rules and shall consult with the commission on
minority health, regional directors, regional physician advisory boards, and appropriate medical,
hospital, and emergency medical service organizations.
(b) Before the joint committee on agency rule review considers state triage protocols for
trauma victims proposed by the state board of emergency medical, fire, and transportation
services, or amendments thereto, the board shall send a copy of the proposal to the Ohio
chapter of the American college of emergency physicians, the Ohio chapter of the American
college of surgeons, the Ohio chapter of the American academy of pediatrics, OHA: the
association for hospitals and health systems, the Ohio osteopathic association, and the
association of Ohio children's hospitals and shall hold a public hearing at which it must consider
the appropriateness of the protocols to minimize overtriage and undertriage of trauma victims.
(c) The board shall provide copies of the state triage protocols, and amendments to the
protocols, to each emergency medical service organization, regional director, regional physician
advisory board, certified emergency medical service instructor, and person who regularly provides medical direction to emergency medical service personnel in the state; to each medical service organization in other jurisdictions that regularly provide emergency medical services in this state; and to others upon request.

(B)(1) The state board of emergency medical, fire, and transportation services shall approve regional protocols for the triage of adult and pediatric trauma victims, and amendments to such protocols, that are submitted to the board as provided in division (B)(2) of this section and provide a level of adult and pediatric trauma care comparable to the state triage protocols adopted under division (A) of this section. The board shall not otherwise approve regional triage protocols for trauma victims. The board shall not approve regional triage protocols for regions that overlap and shall resolve any such disputes by apportioning the overlapping territory among appropriate regions in a manner that best serves the medical needs of the residents of that territory. The trauma committee of the board shall have reasonable opportunity to review and comment on regional triage protocols and amendments to such protocols before the board approves or disapproves them.

(2) Regional protocols for the triage of adult and pediatric trauma victims, and amendments to such protocols, shall be submitted in writing to the state board of emergency medical, fire, and transportation services by the regional physician advisory board or regional director, as appropriate, that serves a majority of the population in the region in which the protocols apply. Prior to submitting regional triage protocols, or an amendment to such protocols, to the state board of emergency medical, fire, and transportation services, a regional physician advisory board or regional director shall consult with each of the following that regularly serves the region in which the protocols apply:

(a) Other regional physician advisory boards and regional directors;
(b) Hospitals that operate an emergency facility;
(c) Adult and pediatric trauma centers;
(d) Professional societies of physicians who specialize in adult or pediatric emergency medicine or adult or pediatric trauma surgery;
(e) Professional societies of nurses who specialize in adult or pediatric emergency nursing or adult or pediatric trauma surgery;
(f) Professional associations or labor organizations of emergency medical service personnel;
(g) Emergency medical service organizations and medical directors of such organizations;
(h) Certified emergency medical service instructors.

(3) Regional protocols for the triage of adult and pediatric trauma victims approved under division (B)(2) of this section shall require patients to be transported to a trauma center that is able to provide an appropriate level of adult or pediatric trauma care; shall not discriminate among trauma centers for reasons not related to a patient's medical needs; shall seek to minimize undertriage and overtriage; may include any of the exceptions in division (A)(2) of this section; and supersede the state triage protocols adopted under division (A) of this section in the region in which the regional protocols apply.

(4) Upon approval of regional protocols for the triage of adult and pediatric trauma victims under division (B)(2) of this section, or an amendment to such protocols, the state board of emergency medical, fire, and transportation services shall provide written notice of the approval and a copy of the protocols or amendment to each entity in the region in which the protocols apply to which the board is required to send a copy of the state triage protocols adopted under division (A) of this section.

(C)(1) The state board of emergency medical, fire, and transportation services shall review the state triage protocols adopted under division (A) of this section at least every three years to determine if they are causing overtriage or undertriage of trauma patients, and shall
modify them as necessary to minimize overtriage and undertriage.

(2) Each regional physician advisory board or regional director that has had regional triage protocols approved under division (B)(2) of this section shall review the protocols at least every three years to determine if they are causing overtriage or undertriage of trauma patients and shall submit an appropriate amendment to the state board, as provided in division (B) of this section, as necessary to minimize overtriage and undertriage. The state board shall approve the amendment if it will reduce overtriage or undertriage while complying with division (B) of this section, and shall not otherwise approve the amendment.

(D) No provider of emergency medical services or person who provides medical direction to emergency medical service personnel in this state shall fail to comply with the state triage protocols adopted under division (A) of this section or applicable regional triage protocols approved under division (B)(2) of this section.

(E) The state board of emergency medical, fire, and transportation services shall adopt rules under section 4765.11 of the Revised Code that provide for enforcement of the state triage protocols adopted under division (A) of this section and regional triage protocols approved under division (B)(2) of this section, and for education regarding those protocols for emergency medical service organizations and personnel, regional directors and regional physician advisory boards, emergency medical service instructors, and persons who regularly provide medical direction to emergency medical service personnel in this state.

4765.43 Ambulance staffing requirement if equipped for emergency medical services.

(A) During each emergency run made by an ambulance that is equipped for emergency medical services, the emergency medical service organization operating the ambulance shall staff the ambulance in accordance with this section.

For purposes of determining the applicable staffing requirements, both of the following apply:

(1) An emergency run consists of components that are distinguished between the period during which the ambulance is traveling to the scene of an emergency and, if applicable, the period during which the ambulance is transporting a patient from the scene of the emergency.

(2) In the case of an emergency medical service organization that utilizes a combination of volunteer and paid first responders, emergency medical service technicians-basic, emergency medical service technicians-intermediate, or emergency medical service technicians-paramedic, the organization is considered to be substantially utilizing volunteers in a particular week when the paid individuals, taken as a whole, are scheduled for a total of not more than one hundred ninety-two hours in that week.

(B) With respect to the driver of an ambulance during an emergency run, both of the following apply:

(1) The driver must be at least eighteen years of age and hold a valid driver's license.

(2) The driver must meet at least one of the following criteria:

(a) Hold a valid certificate issued under section 4765.30 of the Revised Code to practice as a medical first responder, EMT, advanced EMT, or paramedic;

(b) Hold a valid fire training certificate issued pursuant to section 4765.55 of the Revised Code to provide services as a firefighter;

(c) Be employed and in good standing as a sworn sheriff, deputy sheriff, constable, police officer, marshal, deputy marshal, or highway patrol trooper in this state;

(d) Have successfully completed either the emergency vehicle operations course approved by the national highway traffic safety administration or an equivalent course approved by the state board of emergency medical services.

(C) With respect to the component of an emergency run during which the ambulance is traveling to the scene of the emergency, the ambulance shall be staffed by at least one EMT,
advanced EMT, or paramedic. This individual may serve as the driver.

(D) With respect to the component of an emergency run during which a patient is being transported, the ambulance shall be staffed as follows:

(1) If the emergency medical service organization utilizes only paid individuals or utilizes volunteers on a basis that is not considered to be substantially utilizing volunteers, the ambulance shall be staffed by at least two EMTs, advanced EMTs, or paramedics. One of these individuals may serve as the driver.

(2) If the emergency medical service organization is substantially utilizing volunteers or utilizes only volunteers, the ambulance shall be staffed by at least two EMTs, advanced EMTs, or paramedics or by at least one first responder and one EMT, advanced EMT, or paramedic. One of these individuals may serve as the driver, but if the staffing requirement is being met by utilizing a medical first responder, the medical first responder shall serve as the driver.

4765.49 EMTs, related personnel, and agencies; civil immunity.

(A) A first responder, emergency medical technician-basic, emergency medical technician-intermediate, or emergency medical technician-paramedic is not liable in damages in a civil action for injury, death, or loss to person or property resulting from the individual's administration of emergency medical services, unless the services are administered in a manner that constitutes willful or wanton misconduct. A physician, physician assistant designated by a physician, or registered nurse designated by a physician, any of whom is advising or assisting in the emergency medical services by means of any communication device or telemetering system, is not liable in damages in a civil action for injury, death, or loss to person or property resulting from the individual's advisory communication or assistance, unless the advisory communication or assistance is provided in a manner that constitutes willful or wanton misconduct. Medical directors and members of cooperating physician advisory boards of emergency medical service organizations are not liable in damages in a civil action for injury, death, or loss to person or property resulting from their acts or omissions in the performance of their duties, unless the act or omission constitutes willful or wanton misconduct.

(B) A political subdivision, joint ambulance district, joint emergency medical services district, or other public agency, and any officer or employee of a public agency or of a private organization operating under contract or in joint agreement with one or more political subdivisions, that provides emergency medical services, or that enters into a joint agreement or a contract with the state, any political subdivision, joint ambulance district, or joint emergency medical services district for the provision of emergency medical services, is not liable in damages in a civil action for injury, death, or loss to person or property arising out of any actions taken by a first responder, EMT-basic, EMT-I, or paramedic working under the officer's or employee's jurisdiction, or for injury, death, or loss to person or property arising out of any actions of licensed medical personnel advising or assisting the first responder, EMT-basic, EMT-I, or paramedic, unless the services are provided in a manner that constitutes willful or wanton misconduct.

(C) A student who is enrolled in an emergency medical services training program accredited under section 4765.17 of the Revised Code or an emergency medical services continuing education program approved under that section is not liable in damages in a civil action for injury, death, or loss to person or property resulting from either of the following:

(1) The student's administration of emergency medical services or patient care or treatment, if the services, care, or treatment is administered while the student is under the direct supervision and in the immediate presence of an EMT-basic, EMT-I, paramedic, registered nurse, physician assistant, or physician and while the student is receiving clinical training that is required by the program, unless the services, care, or treatment is provided in a manner that constitutes willful or wanton misconduct;
Chapter 3. Trauma
Part II. EMS, EMT, Medical Transport

388

EMS, EMT, Medical Transport General Provisions

(2) The student's training as an ambulance driver, unless the driving is done in a manner that constitutes willful or wanton misconduct.

(D) An EMT-basic, EMT-I, paramedic, or other operator, who holds a valid commercial driver's license issued pursuant to Chapter 4506 of the Revised Code or driver's license issued pursuant to Chapter 4507 of the Revised Code and who is employed by an emergency medical service organization that is not owned or operated by a political subdivision as defined in section 2744.01 of the Revised Code, is not liable in damages in a civil action for injury, death, or loss to person or property that is caused by the operation of an ambulance by the EMT-basic, EMT-I, paramedic, or other operator while responding to or completing a call for emergency medical services, unless the operation constitutes willful or wanton misconduct or does not comply with the precautions of section 4511.03 of the Revised Code. An emergency medical service organization is not liable in damages in a civil action for any injury, death, or loss to person or property that is caused by the operation of an ambulance by its employee or agent, if this division grants the employee or agent immunity from civil liability for the injury, death, or loss.

(E) An employee or agent of an emergency medical service organization who receives requests for emergency medical services that are directed to the organization, dispatches first responders, EMTs-basic, EMTs-I, or paramedics in response to those requests, communicates those requests to those employees or agents of the organization who are authorized to dispatch first responders, EMTs-basic, EMTs-I, or paramedics, or performs any combination of these functions for the organization, is not liable in damages in a civil action for injury, death, or loss to person or property resulting from the individual's acts or omissions in the performance of those duties for the organization, unless an act or omission constitutes willful or wanton misconduct.

(F) A person who is performing the functions of a first responder, EMT-basic, EMT-I, or paramedic under the authority of the laws of a state that borders this state and who provides emergency medical services to or transportation of a patient in this state is not liable in damages in a civil action for injury, death, or loss to person or property resulting from the person's administration of emergency medical services, unless the services are administered in a manner that constitutes willful or wanton misconduct. A physician, physician assistant designated by a physician, or registered nurse designated by a physician, any of whom is licensed to practice in the adjoining state and who is advising or assisting in the emergency medical services by means of any communication device or telemetering system, is not liable in damages in a civil action for injury, death, or loss to person or property resulting from the person's advisory communication or assistance, unless the advisory communication or assistance is provided in a manner that constitutes willful or wanton misconduct.

(G) A person certified under section 4765.23 of the Revised Code to teach in an emergency medical services training program or emergency medical services continuing education program, and a person who teaches at the Ohio fire academy established under section 3737.33 of the Revised Code or in a fire service training program described in division (A) of section 4765.55 of the Revised Code, is not liable in damages in a civil action for injury, death, or loss to person or property resulting from the person's acts or omissions in the performance of the person's duties, unless an act or omission constitutes willful or wanton misconduct.

(H) In the accreditation of emergency medical services training programs or approval of emergency medical services continuing education programs, the state board of emergency medical, fire, and transportation services and any person or entity authorized by the board to evaluate applications for accreditation or approval are not liable in damages in a civil action for injury, death, or loss to person or property resulting from their acts or omissions in the performance of their duties, unless an act or omission constitutes willful or wanton misconduct.

(I) A person authorized by an emergency medical service organization to review the performance of first responders, EMTs-basic, EMTs-I, and paramedics or to administer quality assurance programs is not liable in damages in a civil action for injury, death, or loss to person
or property resulting from the person's acts or omissions in the performance of the person's duties, unless an act or omission constitutes willful or wanton misconduct.

4765-15-04 EMT-basic scope of practice.

(A) In addition to the emergency medical services listed in rule 4765-12-04 of the Administrative Code and in accordance with division (B) of section 4765.37 of the Revised Code, an emergency medical technician may perform the following emergency medical services:

1. Endotracheal suctioning through a previously established airway;
2. Endotracheal suctioning through a stoma;
3. Oxygen administration, including the following:
   a. Partial rebreather masks;
   b. Venturi masks.
4. Ventilation management, to include the use of a positive pressure ventilation device, including the following:
   a. Manually triggered ventilators;
   b. Automatic transportation ventilators.
5. Traction splint;
6. Rapid extrication procedures;

(B) In accordance with division (C) of section 4765.37 of the Revised Code, an emergency medical technician may perform the following additional emergency medical services only pursuant to the written or verbal authorization of a physician or of the cooperating physician advisory board, or authorization transmitted through a direct communication device by a physician, physician assistant designated by a physician, or registered nurse designated by a physician, or in accordance with written protocols as specified in division (D) of section 4765.37 of the Revised Code:

1. Pulse oximeter and capnography equipment application and reading;
2. Until January 1, 2013, orotracheal intubation of pulseless and apneic patients only;
3. Dual lumen airway of pulseless and apneic patients only;
4. Oxygen humidifier equipment application and monitoring;
5. Extraglottic airway of pulseless and apneic patients only;
6. Continuous positive airway pressure (CPAP);
7. End tidal carbon dioxide monitoring and detecting;
8. Chest compression assist devices;
9. Administration of aspirin;
10. Pneumatic anti-shock garment;
11. Helmet removal;
12. Glucose monitoring system;
13. Administration of oral glucose;
14. Administration of activated charcoal;
15. Administration of epinephrine auto-injector to a patient suffering from anaphylaxis;
16. Assisted administration of sublingual nitroglycerin, which shall consist of either of the following:
   a. Assisting with patient's prescribed nitroglycerin upon the patient's request and with written protocol;
   b. Assisting with EMS-provided nitroglycerin with verbal medical direction.
17. Assisted administration of aerosolized or nebulized medications, which shall consist of either of the following:
   a. Assisting with a patient's prescribed aerosolized or nebulized medications upon the patient's request and with written protocol;
(b) Assisting with EMS-provided aerosolized or nebulized medications with verbal medical direction.

(18) Pre-hospital advanced life support assistance, to include the setting up of an intravenous administration kit in the presence of an advanced emergency medical technician or paramedic;

(19) Set up and application of a cardiac monitor in the presence of an advanced emergency medical technician or paramedic;

(20) Set up and application of a twelve-lead electrocardiogram, in accordance with written protocols, in either of the following instances:

(a) When the emergency medical technician is assisting an paramedic; or

(b) For the purpose of electronic transmission by the emergency medical technician, provided the following conditions are met:

(i) The emergency medical technician does not interpret the electrocardiogram;

(ii) The emergency medical technician minimizes any delay of patient transport to obtain a twelve-lead electrocardiogram;

(iii) The EMT utilizes the twelve-lead electrocardiogram in conjunction with destination protocols approved by the local medical director.

(21) Any other services approved by the board pursuant to rule 4765-6-01 of the Administrative Code;

(22) Any other services pursuant to a research study approved by the board under rule 4765-6-04 of the Administrative Code and within the parameters established by the board for such study.

(C) A physician or cooperating physician advisory board that serves as the medical director for any EMS organization may limit, but not exceed, the scope of practice for those emergency medical technicians who provide emergency medical services under the auspices of the physician's certificate to practice medicine and surgery, or osteopathic medicine and surgery, issued under Chapter 4731 of the Revised Code.

(D) An emergency medical technician shall not perform emergency medical services within this rule unless the emergency medical technician has received training as part of an initial certification course or through subsequent training approved by the board. If certain emergency medical services, within the emergency medical technician scope of practice, were not included in the training specified in this paragraph, the emergency medical technician must have received training regarding such services approved by the local medical director before performing those services.

4765-16-04 EMT–intermediate scope of practice.

(A) In addition to the emergency medical services listed in rules 4765-12-04 and 4765-15-04 of the Administrative Code, and in accordance with section 4765.38 of the Revised Code, an advanced emergency medical technician may perform the following emergency medical services only pursuant to the written or verbal authorization of a physician or of the cooperating physician advisory board, or authorization transmitted through a direct communication device by a physician, physician assistant designated by physician, or registered nurse designated by a physician, or in accordance with written protocols as specified in division (C) of section 4765.38 of the Revised Code:

(1) Cardiac monitor strip interpretation;

(2) Manual defibrillation;

(3) Obtaining blood specimens;

(4) Subcutaneous or intramuscular administration of epinephrine;

(5) Intravenous access and peripheral initiation;

(6) Intravenous maintenance and fluid administration;
(7) Intraosseous insertion;
(8) Saline lock.

(B) In addition to the emergency medical services described in paragraph (A) of this rule, and in accordance with section 4765.38 of the Revised Code, an advanced emergency medical technician who has completed a training program pursuant to this chapter of the Administrative Code may perform the following emergency medical services only pursuant to the written or verbal authorization of a physician or of the cooperating physician advisory board, or authorization transmitted through a direct communication device by a physician, physician assistant designated by physician, or registered nurse designated by a physician, or in accordance with written protocols as specified in division (C) of section 4765.38 of the Revised Code:

(1) Administration of the following medications:
   (a) Sublingual nitroglycerin;
   (b) Dextrose in water;
   (c) Epinephrine at the concentration of one to one thousand;
   (d) Diphenhydramine;
   (e) Benzodiazepines;
   (f) Bronchodilators;
   (g) Naloxone;
   (h) Glucagon;
   (i) Nitrous oxide;
   (j) Nalbuphine;
   (k) Narcotics or other analgesics for pain relief;
   (l) Lidocaine, for pain relief after intraosseous insertions;
   (m) Any additional drug approved by the board.

(2) Administration of aerosolized or nebulized medications;

(3) Administration of intranasal medications;

(4) Orotracheal intubation of the apneic patient;

(5) Dual lumen airway of the apneic patient;

(6) Extraglottic airway of the apneic patient;

(7) Needle decompression of the chest;

(8) Tracheostomy tube replacement;

(9) Laryngoscopy for removal of airway obstruction;

(10) Set up and application of a twelve-lead electrocardiogram, in accordance with written protocols, in either of the following instances:
   (a) When the advanced emergency medical technician is assisting a paramedic; or
   (b) For the purpose of electronic transmission by the advanced emergency medical technician, provided the following conditions are met:
      (i) The advanced emergency medical technician does not interpret the electrocardiogram;
      (ii) The advanced emergency medical technician minimizes any delay of patient transport while obtaining a twelve-lead electrocardiogram;
      (iii) The advanced emergency medical technician utilizes the twelve-lead electrocardiogram in conjunction with destination protocols approved by the local medical director.

(11) Withdraw blood for the purpose of determining the alcohol, drug, controlled substance, metabolite of a controlled substance, or combination content of the whole blood, blood serum, or blood plasma as provided in division (D) of section 4765.38 of the Revised Code when performed in accordance with the criteria established in rule 4765-6-06 of the Administrative Code and the protocols established by the medical director of the emergency
medical service organization with which the advanced emergency medical technician is affiliated.

(12) Any other services approved by the board pursuant to rule 4765-6-01 of the Administrative Code.

(13) Any other services pursuant to a research study approved by the board under rule 4765-6-04 of the Administrative Code and within the parameters established by the board for such study.

(C) A physician or cooperating physician advisory board that serves as the medical director for any EMS organization may limit, but not exceed, the scope of practice for those advanced emergency medical technicians who provide emergency medical services under the auspices of the physician's certificate to practice medicine and surgery, or osteopathic medicine and surgery, issued under Chapter 4731 of the Revised Code to include the withdrawing of blood for evidence collection.

(D) An advanced emergency medical technician shall not perform emergency medical services within this rule unless the advanced emergency medical technician has received training as part of an initial certification course or through subsequent training approved by the board. If certain emergency medical services, within the advanced emergency medical technician scope of practice, were not included in the training specified in this paragraph, the advanced emergency medical technician must have received training regarding such services approved by the local medical director before performing those services.

### 4765-17-03 EMT–paramedic scope of practice.

(A) In addition to the skills listed in rules 4765-12-04, 4765-15-04 and 4765-16-04 of the Administrative Code, and in accordance with section 4765.39 of the Revised Code, a paramedic may perform the following emergency medical services only pursuant to the written or verbal authorization of a physician or of the cooperating physician advisory board, or authorization transmitted through a direct communication device by a physician, physician assistant designated by a physician, or registered nurse designated by a physician, or in accordance with written protocols as specified in division (C) of section 4765.39 of the Revised Code:

1. Orotracheal intubation;
2. Nasotracheal intubation;
3. Cricothyrotomy (surgical);
4. Cricothyrotomy (needle);
5. Positive end-expiratory pressure;
6. Bilevel positive air pressure;
7. Ventilator management of patients sixteen years of age or older;
8. Chest tube monitoring and management;
9. Central line monitoring;
10. Transcutaneous cardiac pacing;
11. Administration of cardiac medication;
12. Cardioversion;
13. Carotid massage;
14. Twelve-lead electrocardiogram performance and interpretation;
15. Administration of nitroglycerin;
16. Administration of aerosolized or nebulized medication;
17. Placement of nasogastric or orogastric tubes;
18. Administration of cardiac medication;
19. Administration of other medications pursuant to written protocols;
20. Intravenous infusion pump;
21. Blood chemistry analysis;
(22) Thrombolytic therapy initiation and monitoring;
(23) Maintenance of medicated intravenous fluids;
(24) Maintenance of blood administration;
(25) Eye irrigation morgan lens;
(26) Withdraw blood for the purpose of determining the alcohol, drug, controlled substance, metabolite of a controlled substance, or combination content of the whole blood, blood serum, or blood plasma as provided in division (D) of section 4765.39 of the Revised Code when performed in accordance with the criteria established in rule 4765-6-06 of the Administrative Code and the protocols established by the medical director of the emergency medical service organization with which the paramedic is affiliated;
(27) Any other services pursuant to a research study approved by the board under rule 4765-6-04 of the Administrative Code and within the parameters established by the board for such study;
(28) Any other services approved by the board pursuant to rule 4765-6-01 of the Administrative Code.

(B) A physician or cooperating physician advisory board that serves as the medical director for any EMS organization may limit, but not exceed, the scope of practice for those paramedics who provide emergency medical services under the auspices of the physician's certificate to practice medicine and surgery, or osteopathic medicine and surgery, issued under Chapter 4731 of the Revised Code to include the withdrawing of blood for evidence collection.

(C) A paramedic shall not perform emergency medical services within this rule unless the paramedic has received training as part of an initial certification course or through subsequent training approved by the board. If certain emergency medical services, within the paramedic scope of practice, were not included in the training specified in this paragraph, the paramedic must have received training regarding such services approved by the local medical director before performing those services.

4766.01 Medical Transportation Board; definitions.

As used in this chapter:
(A) “Advanced life support” means treatment described in section 4765.39 of the Revised Code that a paramedic is certified to perform.
(B) “Air medical service organization” means an organization that furnishes, conducts, maintains, advertises, promotes, or otherwise engages in providing medical services with a rotorcraft air ambulance or fixed wing air ambulance.
(C) “Air medical transportation” means the transporting of a patient by rotorcraft air ambulance or fixed wing air ambulance with appropriately licensed and certified medical personnel.
(D) “Ambulance” means any motor vehicle that is specifically designed, constructed, or modified and equipped and is intended to be used to provide basic life support, intermediate life support, advanced life support, or mobile intensive care unit services and transportation upon the streets or highways of this state of persons who are seriously ill, injured, wounded, or otherwise incapacitated or helpless. “Ambulance” does not include air medical transportation or a vehicle designed and used solely for the transportation of nonstretcher-bound persons, whether hospitalized or handicapped or whether ambulatory or confined to a wheelchair.
(E) “Ambulette” means a motor vehicle that is specifically designed, constructed, or modified and equipped and is intended to be used for transportation upon the streets or highways of this state of persons who require use of a wheelchair.
(F) “Basic life support” means treatment described in section 4765.37 of the Revised Code that an EMT is certified to perform.
Chapter 3. Trauma
Part II. EMS, EMT, Medical Transport

(G) “Disaster situation” means any condition or situation described by rule of the state board of emergency medical, fire, and transportation services as a mass casualty, major emergency, natural disaster, or national emergency.

(H) “Emergency medical service organization” means an organization that uses EMTs, AEMTs, or paramedics, or a combination of EMTs, AEMTs, and paramedics, to provide medical care to victims of illness or injury. An emergency medical service organization includes, but is not limited to, a commercial ambulance service organization, a hospital, and a funeral home.

(I) “EMT,” “AEMT,” and “paramedic” have the same meanings as in sections 4765.01 and 4765.011 of the Revised Code.

(J) “Fixed wing air ambulance” means a fixed wing aircraft that is specifically designed, constructed, or modified and equipped and is intended to be used as a means of air medical transportation.

(K) “Intermediate life support” means treatment described in section 4765.38 of the Revised Code that an AEMT is certified to perform.

(L) “Major emergency” means any emergency event that cannot be resolved through the use of locally available emergency resources.

(M) “Mass casualty” means an emergency event that results in ten or more persons being injured, incapacitated, made ill, or killed.

(N) “Medical emergency” means an unforeseen event affecting an individual in such a manner that a need for immediate care is created.

(O) “Mobile intensive care unit” means an ambulance used only for maintaining specialized or intensive care treatment and used primarily for interhospital transports of patients whose conditions require care beyond the scope of a paramedic as provided in section 4765.39 of the Revised Code.

(P)(1) “Nonemergency medical service organization” means a person that does both of the following:

(a) Provides services to the public on a regular basis for the purpose of transporting individuals who require the use of a wheelchair or are confined to a wheelchair to receive health care services at health care facilities or health care practitioners’ offices in nonemergency circumstances;

(b) Provides the services for a fee, regardless of whether the fee is paid by the person being transported, a third party payer, as defined in section 3702.51 of the Revised Code, or any other person or government entity.

(2) “Nonemergency medical service organization” does not include a health care facility, as defined in section 1751.01 of the Revised Code, that provides ambulette services only to patients of that facility.

(Q) “Nontransport vehicle” means a motor vehicle operated by a licensed emergency medical service organization not as an ambulance, but as a vehicle for providing services in conjunction with the ambulances operated by the organization or other emergency medical service organizations.

(R) “Patient” means any individual who as a result of illness or injury needs medical attention, whose physical or mental condition is such that there is imminent danger of loss of life or significant health impairment, who may be otherwise incapacitated or helpless as a result of a physical or mental condition, or whose physical condition requires the use of a wheelchair.

(S) “Rotorcraft air ambulance” means a helicopter or other aircraft capable of vertical takeoffs, vertical landings, and hovering that is specifically designed, constructed, or modified and equipped and is intended to be used as a means of air medical transportation.
Chapter 3. Trauma
Part II. EMS, EMT, Medical Transport

4766.03 Ohio medical transportation board to adopt rules.

(A) The state board of emergency medical, fire, and transportation services shall adopt rules, in accordance with Chapter 119 of the Revised Code, implementing the requirements of this chapter. The rules shall include provisions relating to the following:

1. Requirements for an emergency medical service organization to receive a permit for an ambulance or nontransport vehicle;
2. Requirements for an emergency medical service organization to receive a license as a basic life-support, intermediate life-support, advanced life-support, or mobile intensive care unit organization;
3. Requirements for a nonemergency medical service organization to receive a permit for an ambulette vehicle;
4. Requirements for a nonemergency medical service organization to receive a license for an ambulette service;
5. Requirements for an air medical service organization to receive a permit for a rotorcraft air ambulance or fixed wing air ambulance;
6. Requirements for licensure of air medical service organizations;
7. Forms for applications and renewals of licenses and permits;
8. Requirements for record keeping of service responses made by licensed emergency medical service organizations;
9. Fee amounts for licenses and permits, and their renewals;
10. Inspection requirements for licensees' vehicles or aircraft, records, and physical facilities;
11. Fee amounts for inspections of ambulances, ambulettes, rotorcraft air ambulances, fixed wing air ambulances, and nontransport vehicles;
12. Requirements for ambulances and nontransport vehicles used by licensed emergency medical service organizations, for ambulette vehicles used by licensed nonemergency medical service organizations, and for rotorcraft air ambulances or fixed wing air ambulances used by licensed air medical service organizations that specify for each type of vehicle or aircraft the types of equipment that must be carried, the communication systems that must be maintained, and the personnel who must staff the vehicle or aircraft;
13. The level of care each type of emergency medical service organization, nonemergency medical service organization, and air medical service organization is authorized to provide;
14. Eligibility requirements for employment as an ambulette driver, including grounds for disqualification due to the results of a motor vehicle law violation check, chemical test, or criminal records check. The rule may require that an applicant for employment as an ambulette driver provide a set of fingerprints to law enforcement authorities if the applicant comes under final consideration for employment.
15. Any other rules that the board determines necessary for the implementation and enforcement of this chapter.

(B) In the rules for ambulances and nontransport vehicles adopted under division (A)(12) of this section, the board may establish requirements that vary according to whether the emergency medical service organization using the vehicles is licensed as a basic life-support, intermediate life-support, advanced life-support, or mobile intensive care unit organization.

(C) A mobile intensive care unit that is not dually certified to provide advanced life-support and meets the requirements of the rules adopted under this section is not required to carry immobilization equipment, including board splint kits, traction splints, backboards, backboard straps, cervical immobilization devices, cervical collars, stair chairs, folding cots, or other types of immobilization equipment determined by the board to be unnecessary for mobile intensive care units.
A mobile intensive care unit is exempt from the emergency medical technician staffing requirements of section 4765.43 of the Revised Code when it is staffed by at least one physician or registered nurse and another person, designated by a physician, who holds a valid license or certificate to practice in a health care profession, and when at least one of the persons staffing the mobile intensive care unit is a registered nurse whose training meets or exceeds the training required for a paramedic.

4766.17 Air medical service organizations; staffing requirements; medical director’s responsibility.

An air medical service organization licensed under this chapter that uses a rotorcraft or fixed wing air ambulance shall do both of the following:
(A) Use at a minimum a physician who holds a current valid license issued under Chapter 4731 of the Revised Code or registered nurse who holds a current valid license issued under Chapter 4723 of the Revised Code, and a paramedic or one other person, designated by the medical director of the air medical service organization, who holds a current, valid certificate or license to practice a health care profession in this state;
(B) Employ as a medical director an individual who holds a current valid certificate issued under Chapter 4731 of the Revised Code authorizing the practice of medicine and surgery or osteopathic medicine and surgery.

4765-1-02 EMS titles.

(A) In accordance with sections 4765.01 and 4765.011 of the Revised Code, with respect to individuals who receive certificates to practice issued under section 4765.30 of the Revised Code, all of the following shall apply:
(1) A first responder shall be also known as an emergency medical responder or EMR;
(2) An emergency medical technician-basic or EMT-basic shall be also known as an emergency medical technician or EMT, respectively;
(3) An emergency medical technician-intermediate or EMT-intermediate shall be also known as an advanced emergency medical technician or AEMT, respectively;
(4) An emergency medical technician-paramedic or EMT-paramedic shall be also known as a paramedic.
(B) With respect to the provisions set forth in Chapters 4765-1 to 4765-19 of the Administrative Code that refer to the individuals specified in paragraph (A) of this rule, all of the following shall apply:
(1) A reference to a first responder is deemed to be a reference to an emergency medical responder or EMR;
(2) A reference to an emergency medical technician-basic or EMT-basic is deemed to be a reference to an emergency medical technician or EMT, respectively;
(3) A reference to an emergency medical technician intermediate or EMT-intermediate is deemed to be a reference to an advanced emergency medical technician or AEMT.

4765-4-01 Definitions.

(A) “Data systems” means any system established by the state board of emergency medical services for the collection of information regarding the delivery of emergency medical services or trauma care including those established pursuant to section 4765.06 of the Revised Code.
(B) “EMS casualty” means any injury, death, significant exposure to hazardous materials, or significant exposure to biological hazards experienced by EMS personnel, EMS
students, other medical personnel or observers associated with an EMS unit that occur in conjunction with any of the following:

(1) An EMS incident;
(2) Responding to or returning from an EMS incident;
(3) During prehospital internship.

(C) “EMS incident” means any ground or air response to a call for emergency medical services by a public or private emergency medical service organization.

(D) “Emergency care facility” means a hospital emergency department, hospital operating room, hospital labor and delivery department, urgent care facility, or psychiatric urgent care facility.

(E) “EMS care” means the emergency medical care provided by an individual certified to provide emergency medical services under Chapter 4765 of the Revised Code.

(F) “Emergency medical services incident reporting system” or “EMS incident reporting system” means the system established by the state board of emergency medical services pursuant to section 4765.06 of the Revised Code for the collection of information regarding the delivery of emergency medical services in Ohio and the frequency at which the services are provided.

(G) “Glasgow coma scale” or “GCS” is a numeric rating used to assess the severity of neurologic injury.

(H) As used in this chapter, “health care facilities” means any of the following

(1) Hospitals registered under Chapter 3701 of the Revised Code;
(2) Nursing facilities licensed or certified under Chapter 3721 of the Revised Code;
(3) County homes or county nursing homes as defined in section 5155.31 of the Revised Code;
(4) Inpatient rehabilitation facilities as defined in Chapter 3701-83 of the Administrative Code;
(5) Ambulatory surgical facilities as defined in section 3702.30 of the Revised Code;
(l) “Information that identifies or would tend to identify a specific recipient of EMS care or trauma care” shall have the same meaning as “individually identifiable health information”, as defined in Title 45 of the Code of Federal Regulations, subtitle A, section 160.103 (2006) of the health insurance portability and accountability act (HIPAA) of 1996.

(J) As used in HIPAA and in this chapter, “individually identifiable health information” is information that is a subset of health information, including demographic information collected from an individual, and

(1) Is created or received by a health care provider, health plan, employer, or health care clearinghouse; and
(2) Relates to the past, present, or future physical or mental health or condition of an individual; the provision of health care to an individual; or the past, present, or future payment for the provision of health care to an individual; and

(a) That identifies the individual; or
(b) With respect to which there is a reasonable basis to believe the information can be used to identify the individual.

(K) “Injury severity score” or “ISS” is a mathematical measure assessing the cumulative effect of injury severity.

(L) “Major Trauma Outcome Study” or “MTOS” is a nationally based research project conducted between 1982 and 1987, which created and validated the TRISS methodology.

(M) “Response to a call for emergency medical service” or “response” means any of the following:

(1) Assessment of or treatment provided to a patient by a person who holds an EMS
Chapter 3. Trauma
Part II. EMS, EMT, Medical Transport

certificate to practice regardless of whether such patient was transported, transport of a patient from a call for EMS to an emergency care facility, or a canceled call;
(2) Transport between emergency care facilities provided by an emergency medical service organization.
(N) “Risk Adjustment” means methodologies applied to a data set in order to identify and control patient variables that are present which may influence patient outcome.
(O) “State trauma registry” means the system established by the state board of emergency medical services pursuant to section 4765.06 of the Revised Code for the collection of information regarding the delivery of trauma care in Ohio and the frequency at which the services are provided.
(P) “Trauma care” has the same meaning as division (P) of section 4765.01 of the Revised Code.
(Q) “Trauma injury severity score” or “TRISS” is a methodology which combines the following variables in order to determine a probability of survival:
(1) Physiologic (systolic blood pressure, respiratory rate, Glasgow coma scale score);
(2) Anatomic injury severity score;
(3) Age (fifty five years or older, or younger than fifty five years);
(4) Trauma type (blunt or penetrating injury).

4765-4-02 Purpose.

(A) The purpose of this chapter is to establish comprehensive reporting standards for data systems by the board. These procedures are adopted to ensure the confidentiality of information as provided in section 4765.06 of the Revised Code.
(B) The board shall use the EMS incident reporting system to collect and analyze data that is necessary to evaluate the delivery of emergency medical services within Ohio. The data collected by the EMS incident reporting system shall be of such a nature as to allow the board to identify and evaluate the following:
(1) Frequency, nature, and duration of responses;
(2) Geographic patterns of responses, including but not limited to areas or regions of the state where improvements are needed in the delivery of emergency medical service;
(3) Needs assessment for the equitable disbursement of funds provided by the EMS grant program established under section 4765.07 of the Revised Code;
(4) Methods by which the delivery of emergency medical services can be maintained and improved, including but not limited to public education on illness and injury prevention, and access to emergency medical services;
(5) Methods by which EMS casualties can be reduced or prevented.
(C) The board shall use the state trauma registry to collect and analyze data that is necessary to evaluate the delivery of trauma care within the state. The data collected by the trauma registry shall be of such a nature as to allow the board to identify and evaluate the following:
(1) Frequency, type, severity, and outcome of trauma injuries;
(2) Criteria used to establish triage protocols;
(3) Geographic patterns of injury, including but not limited to areas or regions of the state where improvements are needed in the delivery of trauma care;
(4) Other factors to consider in recommending, designing, or implementing integrated statewide trauma care delivery system, including but not limited to public education on trauma and injury prevention, access to trauma care, prehospital availability, and cost of trauma care.
4765-4-03 Required reporting.

(A) Pursuant to section 4765.06 of the Revised Code, each emergency medical service organization shall report all EMS incidents to the emergency medical services incident reporting system.

(1) Each EMS organization shall submit data and information as specified by the EMS board. Such data and information shall include, at a minimum, the following:

(a) Identification of the EMS organization;
(b) Time and date of incident;
(c) Location of incident;
(d) Certification level of EMS personnel involved;
(e) Patient demographics;
(f) Information regarding provider assessment;
(g) Information regarding treatment provided;
(h) Transport information.

(2) The board shall grant an exemption from reporting to the EMS incident reporting system in cases of mass casualty incidents and/or natural disasters.

(3) The board may require the reporting of any EMS casualty data to determine methods of reducing or preventing such casualties.

(B) Pursuant to section 4765.06 of the Revised Code health care facilities, state and other public agencies designated by the board that possess information regarding trauma care, and county coroners shall submit data and information to the state trauma registry.

(1) The board shall specify the data and information to be submitted to the state trauma registry by those entities required to do so. Such information shall include, at a minimum, the following:

(a) Type and cause of injury;
(b) Severity of injury;
(c) Patient outcomes;
(d) Patient demographics;
(e) Information regarding treatments provided;
(f) Financial data pertinent to trauma care.

(2) All trauma related deaths shall be reported by the coroner of the county in which the death occurred to the state trauma registry in a manner specified by the board within one hundred-eighty days after the death occurs.

(C) In identifying the information to be provided to the state trauma registry and the EMS incident reporting system under section 4765.06 of the Revised Code and this chapter, the board shall take into consideration the financial and other burdens that these requirements will place on the entities that are required to report.

4765-4-04 Risk adjustment.

(A) The purpose of risk adjustment is to identify and control patient variables that are present which may influence patient outcome.

(B) Methodologies:

(1) TRISS shall be the primary methodology used to risk adjust data in the state trauma registry.

(2) Other methodologies may be used by the board to risk adjust data in the data systems.

(3) The coefficients used to calculate TRISS shall be those derived from the MTOS.

(4) The board may evaluate the possibility of creating Ohio specific coefficients, based upon the Ohio trauma registry data set, to utilize with the TRISS methodology, and when
appropriate, these equations may be utilized. Additionally, the board may evaluate other appropriate data sets for use in developing specific coefficients.

(C) Analysis:
(1) The board shall utilize a variety of acceptable techniques for providing statistical analysis of risk-adjusted data.
(2) The board shall utilize a variety of methodologies to risk adjust by sex, age, or other factors, in order to analyze data in the data systems for specific age groupings, including pediatric and geriatric age groupings.

(D) Risk adjusted outcomes:
(1) Mortality shall be an outcome in the state trauma registry that is risk adjusted. In addition, the board may evaluate the feasibility of risk adjusting other outcomes.

(E) Risk adjustment deliberations:
(1) The department of public safety, division of EMS, may contract with individuals or organizations with specific expertise in risk adjustment and statistical analysis of medical data in order to perform risk adjustment of information received by the board under Chapter 4765 of the Revised Code.

(2) Each person performing risk adjustment of data has a fiduciary duty to maintain the confidentiality of such information. In the event a person performing risk adjustment under this chapter violates this duty, the department of public safety, division of EMS, may terminate such person and employ any other remedies, legal or equitable, available to it.

(3) Each person performing risk adjustment of data shall sign and adhere to a contract with the department of public safety, division of EMS, regarding the confidentiality of such information. In the event a person performing risk adjustment under this chapter violates any terms of this contract, the department of public safety, division of EMS, may terminate such person and employ any other remedies, legal or equitable, available to it.

(4) All meetings in which persons are engaged in performing risk adjustment functions, including deliberations therein, shall not be open to the public.

(5) All records of deliberations of persons performing risk adjustment functions shall be maintained in confidence.

4765-4-05 Protected information.

(A) The information required to be provided to the data systems under section 4765.06 of the Revised Code and this chapter shall be provided and maintained in such a way as to protect against revealing the identity of the recipient of EMS care or trauma care. Any person handling information received for the data systems has a fiduciary duty to maintain the confidentiality of such information and shall sign and adhere to a contract with the department of public safety, division of EMS, regarding the confidentiality of such information. If such person violates this fiduciary duty or violates any terms of the contract, the department of public safety, division of EMS, may terminate such person and employ any other remedies, legal or equitable, available to it. Emergency medical service organizations, health care facilities and other providers shall be identified in the data systems by a code or similar designation other than name.

(B) Information that identifies or would tend to identify a specific EMS casualty or a specific recipient of EMS care or trauma care shall include, but not be limited to, the recipient's social security number, medical record number, EMS incident number and name.

(1) No records provided in response to a public records request shall contain any information that identifies or would tend to identify a specific EMS casualty or a specific recipient of EMS care or trauma care.

(2) No records shall be provided in response to a public records request if the request asks for information sorted by, or if the request contains, information that identifies or would
tend to identify a specific EMS casualty or a specific recipient of EMS care or trauma care.

(3) Prior to the implementation of risk adjustment standards and procedures, no records shall be provided in response to a public records request if the request asks for information sorted by, or if the request contains, information that identifies or would tend to identify a specific provider of EMS care or trauma care. After risk adjustment standards and procedures are implemented, such records may be made public, but only on a risk adjusted basis.

4765-4-06 Submission of data.

(A) Data and information submitted to the data systems shall be transmitted in a format directed by the board.

(B) Data and information submitted to the data systems shall be transmitted using a method directed by the board.

(1) The board shall ensure that the methods used to transmit data protect the security of the data during transmission.

(C) Data and information submitted to and maintained by the data systems shall be in such a format that:

(1) Protects the identity of specific EMS casualties or of specific patients to whom EMS care or trauma care has been rendered;

(2) Identifies specific health care facilities and EMS organizations by a code or similar designation other than name;

(3) Avoids or minimizes duplication of entry.

4765-4-07 Reporting deadlines.

(A) The information required under section 4765.06 of the Revised Code and this chapter shall be reported on a schedule determined by the board and which is available at http://www.ems.ohio.gov.

(B) The board may develop policies for granting extensions to the submission deadlines and which shall be made available at http://www.ems.ohio.gov.

4765-4-08 Failure to report

(A) Any entity that fails to submit data and information to the data systems, as required under section 4765.06 of the Revised Code or this chapter, may be ineligible to participate in the emergency medical services grants program established under section 4765.07 of the Revised Code and as provided in Chapter 4765-5 of the Administrative Code.

(B) Any entity that fails to submit data and information as required in this chapter shall be notified of this failure in writing. The notification shall advise the organization of:

(1) The requirement to report to the appropriate data system pursuant to section 4765.06 of the Revised Code and this chapter.

(2) The consequences of failing to report as provided in paragraph (A) of this rule.

(C) A copy of the notification created pursuant to paragraph (B) of this rule may be delivered to the following individuals as appropriate:

(1) The chief executive officer of the political subdivision for which the EMS organization provides emergency medical services;

(2) The chief executive officer of the private organization under which the EMS organization is established;

(3) The chief executive officer of the health care facility that provides trauma care;

(4) The chairperson of the appropriate regional physician advisory board.
Chapter 3. Trauma
Part II. EMS, EMT, Medical Transport

4765-4-09 Regional reporting.

Any entity, otherwise required to report to the state trauma registry under section 4765.06 of the Revised Code or this chapter, that reports required information to a regional trauma registry need not report individually to the state trauma registry, provided the regional registry reports such information to the state trauma registry in compliance with section 4765.06 of the Revised Code and this chapter. Those entities intending to report through a regional registry shall so notify the board in a manner indicated by the board.

4765-6-06 Withdrawing of blood for evidence collection.

(A) An advanced emergency medical technician or a paramedic may withdraw blood for the purpose of determining the alcohol, drug, controlled substance, metabolite of a controlled substance, or combination content of the whole blood, blood serum, or blood plasma as provided in division (D) of sections 4765.38 and 4765.39 of the Revised Code and in accordance with this rule.

(B) A physician or cooperating physician advisory board that serves as the medical director for any EMS organization may limit the ability of an advanced emergency medical technician and paramedic, who provide emergency medical services under the auspices of the physician's certificate to practice medicine and surgery, or osteopathic medicine and surgery, to withdraw blood for evidence. The withdrawal of blood for evidence collection shall be performed in accordance with protocols and training requirements established by the medical director of the emergency medical service organization with which the advanced emergency medical technician or paramedic is affiliated.

(C) The advanced emergency medical technician or paramedic must have received training approved by the local medical director regarding the withdrawal of blood for evidence collection before performing the withdrawal of blood for evidence.

(D) In the course of providing emergency medical treatment and at the request of a law enforcement officer, an advanced emergency medical technician or paramedic may withdraw blood as provided under sections 1547.11, 4506.17, and 4511.19 of the Revised Code. The advanced emergency medical technician or paramedic shall not respond to the request to withdraw blood for the purpose of evidence collection unless the advanced emergency medical technician or paramedic is also responding to a request for emergency medical treatment and transport of the patient to a health care facility. A clinically competent patient may refuse transport.

(E) The advanced emergency medical technician or paramedic shall not attempt to withdraw blood, if any of the following apply:

(1) In the opinion of the advanced emergency medical technician or paramedic, the physical welfare of the patient, any EMS provider, or any other person would be endangered by the withdrawing of blood;

(2) In the opinion of the advanced emergency medical technician or paramedic, the withdrawing of blood would cause an unreasonable delay in the treatment or transport of the patient or any other person;

(3) Consent of the patient is not obtained by the advanced emergency medical technician or paramedic. Any person who is unconscious, or who otherwise is in a condition rendering the person incapable of refusal, shall be deemed to have consented;

(4) Blood would be withdrawn from a pre-existing central venous access device;

(5) The withdrawing of blood would result in a violation of any rule in this chapter; or

(6) The person is deceased.

(F) The withdrawing of blood shall only be done at the request of a law enforcement officer having reasonable grounds to believe the person was violating section 1547.11, 4506.17
or 4511.19 of the Revised Code. As set forth in section 4511.191 of the Revised Code, the law enforcement officer shall request the person to submit to the withdrawing of blood and shall be responsible for advising the person of the consequences of submitting to, or refusing to submit to, the test.

(G) Blood shall only be collected utilizing the appropriate blood collection kit furnished by the law enforcement officer making the request and in compliance with rule 3701-53-05 of the Administrative Code. The withdrawing of blood must take place under the observation of the law enforcement officer. The blood sample must be immediately provided to the law enforcement officer.

4765-14-01 Trauma triage definitions.

(A) As used in this chapter and section 4765.01 of the Revised Code, “trauma” or “traumatic injury” means severe damage to or destruction of tissue that satisfies both of the following conditions:

1. It creates a significant risk of any of the following:
   a. Loss of life;
   b. Loss of a limb;
   c. Significant, permanent disfigurement;
   d. Significant, permanent disability; and

2. It is caused by any of the following:
   a. Blunt or penetrating injury;
   b. Exposure to electromagnetic, chemical, or radioactive energy;
   c. Drowning, suffocation, or strangulation;
   d. A deficit or excess of heat.

(B) “Evidence of poor perfusion” means physiologic indicators of hemorrhage or decreased cardiovascular function, which may include any of the following symptoms:

1. Weak, distal pulse;
2. Pallor;
3. Cyanosis;
4. Delayed capillary refill;
5. Tachycardia.

(C) “Evidence of respiratory distress or failure” means physiologic indicators of decreased ventilatory function, which may include any of the following symptoms:

1. Stridor;
2. Grunting;
3. Retractions;
4. Cyanosis;
5. Hoarseness;
6. Difficulty speaking.

(D) “Evidence of hemorrhagic shock” means physiologic indicators of blood loss that may include any of the following symptoms:

1. Delayed capillary refill;
2. Cool, pale, diaphoretic skin;
3. Decreased systolic blood pressure with narrowing pulse pressure;
4. Altered level of consciousness.

(E) “Seatbelt sign” means abdominal or thoracic contusions and abrasions resulting from the use of a seatbelt during a motor vehicle collision.

(F) “Signs or symptoms of spinal cord injury” means physiologic indicators that the spinal cord is damaged, including, but not limited to, paralysis, weakness, numbness, or tingling of one or more extremities.
Chapter 3. Trauma
Part II. EMS, EMT, Medical Transport

(G) “Evidence of neurovascular compromise” means physiologic indicators of injury to blood vessels or nerves including, but not limited to, pallor, loss of palpable pulses, paralysis, paraesthesia, or severe pain.

(H) “Body region” means a portion of the trauma victim's body divided into the following areas:

1. Brain;
2. Head, face, and neck;
3. Chest;
4. Abdomen and pelvis;
5. Extremities;

(I) Evidence of traumatic brain injury” means signs of external trauma and physiologic indicators that the brain has suffered an injury caused by external force including, but not limited to:

1. Decrease in level of consciousness from the victim's baseline;
2. Unequal pupils;
3. Blurred vision;
4. Severe or persistent headache;
5. Nausea or vomiting;
6. Change in neurological status.

4765-14-02 Determination of a trauma victim.

Emergency medical service personnel shall use the criteria in this rule, consistent with their certification, to evaluate whether an injured person qualifies as an adult trauma victim, geriatric trauma victim, or pediatric trauma victim, in conjunction with the definition of trauma in section 4765.01 of the Revised Code and this chapter.

(A) An adult trauma victim is a person between the ages of sixteen and sixty-nine years of age inclusive exhibiting one or more of the following physiologic or anatomic conditions:

1. Physiologic conditions
   a. Glasgow coma scale less than or equal to thirteen;
   b. Loss of consciousness greater than five minutes;
   c. Deterioration in level of consciousness at the scene or during transport;
   d. Failure to localize to pain;
   e. Respiratory rate less than ten or greater than twenty-nine;
   f. Need for ventilatory support;
   g. Requires relief of tension pneumothorax;
   h. Pulse greater than one hundred twenty in combination with evidence of hemorrhagic shock;
   i. Systolic blood pressure less than ninety, or absent radial pulse with carotid pulse present;

2. Anatomic conditions
   a. Penetrating trauma to the head, neck, or torso;
   b. Significant, penetrating trauma to extremities proximal to the knee or elbow with evidence of neurovascular compromise;
   c. Injuries to the head, neck, or torso where the following physical findings are present:
      i. Visible crush injury;
      ii. Abdominal tenderness, distention, or seatbelt sign;
      iii. Pelvic fracture;
      iv. Flail chest;
   d. Injuries to the extremities where the following physical findings are present:
(i) Amputations proximal to the wrist or ankle;
(ii) Visible crush injury;
(iii) Fractures of two or more proximal long bones;
(iv) Evidence of neurovascular compromise.
(e) Signs or symptoms of spinal cord injury;
(f) Second degree or third degree burns greater than ten per cent total body surface area, or other significant burns involving the face, feet, hands, genitalia, or airway.
(g) Open skull fracture
(3) Cause of injury
Vehicle telemetry data consistent with a high risk for injury.
(B) A pediatric trauma victim is a person under sixteen years of age exhibiting one or more of the following physiologic or anatomic conditions:
(1) Physiologic conditions
(a) Glasgow coma scale less than or equal to thirteen;
(b) Loss of consciousness greater than five minutes;
(c) Deterioration in level of consciousness at the scene or during transport;
(d) Failure to localize to pain;
(e) Evidence of poor perfusion, or evidence of respiratory distress or failure.
(f) Respiratory rate less than twenty for infants less than one year old.
(2) Anatomic conditions
(a) Penetrating trauma to the head, neck, or torso;
(b) Significant, penetrating trauma to extremities proximal to the knee or elbow with evidence of neurovascular compromise;
(c) Injuries to the head, neck, or torso where the following physical findings are present:
(i) Visible crush injury;
(ii) Abdominal tenderness, distention, or seatbelt sign;
(iii) Pelvic fracture;
(iv) Flail chest;
(d) Injuries to the extremities where the following physical findings are present:
(i) Amputations proximal to the wrist or ankle;
(ii) Visible crush injury:
(iii) Fractures of two or more proximal long bones;
(iv) Evidence of neurovascular compromise.
(e) Signs or symptoms of spinal cord injury;
(f) Second or third degree burns greater than ten per cent total body surface area, or other significant burns involving the face, feet, hands, genitalia, or airway.
(g) Open skull fracture
(3) Cause of injury
Vehicle telemetry data consistent with a high risk for injury.
(C) A geriatric trauma victim is a person seventy years of age or older exhibiting one or more of the following causes of injury or physiologic or anatomic conditions:
(1) Physiologic conditions:
(a) Glasgow coma scale less than or equal to fourteen in a trauma patient with a known or suspected traumatic brain injury;
(b) Glasgow coma score less than or equal to thirteen;
(c) Loss of consciousness greater than five minutes;
(d) Deterioration in level of consciousness at the scene or during transport;
(e) Failure to localize to pain;
(f) Respiratory rate less than ten or greater than twenty-nine;
(g) Need for ventilatory support;
(h) Requires relief of tension pneumothorax;
Chapter 3. Trauma
Part II. EMS, EMT, Medical Transport

(i) Pulse greater than one hundred twenty in combination with evidence of hemorrhagic shock;
(j) Systolic blood pressure less than one-hundred, or absent radial pulse with carotid pulse present.

(2) Anatomic conditions:
(a) Penetrating trauma to the head, neck, or torso;
(b) Significant, penetrating trauma to extremities proximal to the knee or elbow with evidence of neurovascular compromise;
(c) Injuries to the head, neck, or torso where the following physical findings are present:
   (i) Visible crush injury;
   (ii) Abdominal tenderness, distention, or seatbelt sign;
   (iii) Pelvic fracture;
   (iv) Flail chest.
(d) Injuries to the extremities where the following physical findings are present:
   (i) Amputations proximal to the wrist or ankle;
   (ii) Visible crush injury;
   (iii) Fracture of one proximal long bone sustained as a result of a motor vehicle crash;
   (iv) Fractures of two or more proximal long bones;
   (v) Evidence of neurovascular compromise.
(e) Signs or symptoms of spinal cord injury;
(f) Second degree or third degree burns greater than ten per cent total body surface area, or other significant burns involving the face, feet, hands, genitalia, or airway;
(g) Injury sustained in two or more body regions.
(h) Open skull fracture

(3) Cause of injury:
(a) Pedestrian struck by a motor vehicle;
(b) Fall from any height, including standing falls, with evidence of a traumatic brain injury.
(c) Vehicle telemetry data consistent with a high risk for injury.
(D) Emergency medical service personnel shall also consider mechanism of injury and special considerations, as taught in the EMT, advanced EMT or paramedic curriculum, when evaluating whether an injured person qualifies as a trauma victim.

4765-14-03 Enforcement of state or regional trauma triage protocols.

(A) EMS medical directors shall be responsible for enforcing state or regional trauma triage protocols for EMS personnel under their medical direction through a performance improvement or peer review process.
(B) EMS medical directors may request assistance from the RPABs to address issues related to quality improvement and peer review of state or regional trauma triage protocols.
(C) The board shall investigate all complaints regarding violations of state or regional trauma triage protocols consistent with its current procedures for investigations.

4765-14-05 Exceptions to mandatory transport.

(A) Emergency medical service personnel shall transport a trauma victim, as defined in section 4765.01 of the Revised Code and this chapter, directly to an adult or pediatric trauma center that is qualified to provide appropriate adult or pediatric care, unless one or more of the following exceptions apply:
   (1) It is medically necessary to transport the victim to another hospital for initial assessment and stabilization before transfer to an adult or pediatric trauma center;
(2) It is unsafe or medically inappropriate to transport the victim directly to an adult or pediatric trauma center due to adverse weather or ground conditions or excessive transport time;
(3) Transporting the victim to an adult or pediatric trauma center would cause a shortage of local emergency medical service resources;
(4) No appropriate adult or pediatric trauma center is able to receive and provide adult or pediatric trauma care to the trauma victim without undue delay;
(5) Before transport of a patient begins, the patient requests to be taken to a particular hospital that is not a trauma center or, if the patient is less than eighteen years of age or is not able to communicate, such a request is made by an adult member of the patient's family or a legal representative of the patient.

4766-4-01 Mobile intensive care unit; definitions.

[Editor’s Note: The “Comment” portion of the following regulation is part of the official provision.]

[Comment: For dates and availability of material incorporated by reference in this chapter of the Administrative Code, see rule 4766-4-18 of the Administrative Code.]

(A) “Advanced emergency medical technician” or “AEMT” is a person holding a current and valid certificate to practice issued under Chapter 4765 of the Revised Code authorizing the holder to provide medical care as set forth in rule 4765-16-04 of the Administrative Code.

(B) “Board” means the state board of emergency medical, fire, and transportation services within the division of emergency medical services of the department of public safety set forth in section 4765.02 of the Revised Code.

(C) “Division” means the division of emergency medical services within the department of public safety.

(D) “Emergency medical technician” or “EMT” is a person holding a current and valid certificate to practice issued under Chapter 4765 of the Revised Code authorizing the holder to provide medical care as set forth in rule 4765-15-04 of the Administrative Code.

(E) “Headquarters” means the location which a licensee operates, designated by the licensee as the location where the records set forth in this chapter are maintained or readily available.

(F) “Inspection fee” means a fee required to be paid for the inspection of a permitted vehicle.

(G) “License” means a certificate of licensure issued by the board to the service, also known as the licensed mobile intensive care unit.

(H) “Medical director” means an Ohio-licensed physician who meets the requirements as set forth in Chapter 4765 of the Revised Code and rule 4765-3-05 of the Administrative Code.

(I) “Medical transportation organization” or “MTO” has the same meaning as emergency medical service organization as defined in division (H) of section 4766.01 of the Revised Code.

(J) “Mobile intensive care unit” or “MoICU” has the same meaning as mobile intensive care unit as defined in division (O) of section 4766.01 of the Revised Code.

(K) “Neonate” means a newborn beginning at birth and lasting through the twenty-eighth day of life.

(L) “Operate” means to engage in conduct or activity in furtherance of the licensed activity at or from a physical location owned, leased or maintained by the licensee where employees report to work and vehicles or aircraft are stored. Operate also includes the act of receiving a person within Ohio for transportation to a location within Ohio.

(M) “Paramedic” is a person holding a current and valid certificate to practice issued under Chapter 4765 of the Revised Code authorizing the holder to provide medical care as set
forth in rule 4765-17-03 of the Administrative Code.

(N) “Permit” is the authorization to operate issued by the board as set forth in section 4766.07 of the Revised Code for a specific vehicle, known as the “permitted vehicle” and requires the issuance of a decal for the permitted vehicle by the board or its designee.

(O) “Readily available” means produced upon demand by the board or its designee.

(P) “Reinspection fee” means a fee required to conduct an inspection as a result of the issuance of a violation notification by the board, or its designee, to a licensed MoICU or license applicant, regarding a permitted MoICU or a MoICU for which a permit application is pending with the board.

(Q) “Satellite base” means a physical location other than headquarters from which a licensee operates.

(R) “Service number” or “service code” means the number assigned to the MoICU by the board for the purpose of identifying and validating the service or permitted MoICU.

(S) “Temporary vehicle” means a MoICU issued a temporary permit used to replace a permitted MoICU in accordance with rule 4766-4-12 of the Administrative Code that is out of service until the permitted MoICU is returned to service or is replaced. A temporary vehicle may be used for a time period not to exceed sixty days.

(T) “Violation notification” means a written form issued by the board or its designee during an inspection or investigation identifying deficiencies in record keeping requirements, vehicle roadworthiness requirements, or equipment requirements by a service or its vehicle(s).

4766-4-02 Application for initial or renewal licensure.

[Editor’s Note: The “Comment” portion of the following regulation is part of the official provision.]

[Comment: For dates and availability of material incorporated by reference in this chapter of the Administrative Code, see rule 4766-4-18 of the Administrative Code.]

(A) A MTO applying for initial licensure shall file with the board an “Application for Ambulance or Mobile Intensive Care License” form in the English language, and shall submit the completed application to the board:

(1) Accompanied by the appropriate fees as set forth in rule 4766-4-03 of the Administrative Code and;

(2) With all required supporting documentation as set forth in this rule that must be received by the board.

(B) A MTO applying for renewal of a license shall file with the board a “Renewal Application for Ambulance or Mobile Intensive Care License” form in the English language, and shall submit the completed application to the board:

(1) Accompanied by the appropriate fees as set forth in rule 4766-4-03 of the Administrative Code and;

(2) With all required supporting documentation as set forth in this rule that must be received by the board prior to the expiration date of the license.

(C) In addition to the requirements set forth in section 4766.04 of the Revised Code, for each application the MTO applicant shall provide and maintain documentation of:

(1) The name of service, organizational structure and address of applicant to include as follows:

(a) Name;

(b) Identification of organizational structure as a corporation (whether for profit or not-for-profit); limited liability company; partnership; limited liability partnership; government unit; or sole proprietor (individual human);

(c) Tax identification (tax ID) number or employer identification number (EIN);

(d) All other names under which applicant plans to operate while using the same tax ID.
or EIN number. Business organizations with different tax ID or EIN numbers cannot operate under the same license;

(e) Copies of all trade name registrations and fictitious name registrations for all other names under which applicant plans to operate on file with the Ohio secretary of state;

(f) Address of physical location of applicant’s headquarters (no post office box);

(g) Mailing address of applicant;

(2) All medicare provider numbers;

(3) All medicaid provider numbers;

(4) Highest level of service to be provided;

(5) Service areas including county and state;

(6) A list of the names of all officers, directors, and/or owners of the MTO;

(7) The name, contact information, and state of Ohio medical license number of the service’s medical director;

(8) For each satellite base, the MTO shall provide the physical address, city, county, state, and zip code;

(9) The name of the primary contact person(s), business or administrative office telephone number, e-mail address, and if applicable, office fax number;

(10) Year of manufacture, make, model, vehicle identification number, odometer reading, and license plate number (renewal only) of each MoICU or non-transport vehicle to be permitted;

(11) A color photograph of the side of applicant’s vehicle displaying color scheme, insignia, monogram, or other distinguishing characteristic. If multiple color schemes, insignias, monograms, or other distinguishing characteristics are used, a color photograph of each shall accompany application.

(a) Color photographs shall be submitted to the division:

(i) With all initial “Application for Ambulance or Mobile Intensive Care License” forms; and

(ii) Within thirty days of the date a change is made to the vehicle’s color scheme, insignia, monogram, or other distinguishing characteristics.

(b) Digital photographs are preferred.

(12) A current and valid certificate of liability insurance in the name of the applicant, listing the board as a certificate holder with a thirty day cancellation notice as specified in section 4766.06 of the Revised Code:

(a) The actual name on the license application shall appear on the certificate of liability insurance;

(b) Each permitted vehicle with vehicle identification number (VIN) shall be listed on the certificate of liability insurance.

(D) An application that is not completed in the manner as specified on the application or does not include all required documentation shall be deemed incomplete.

(E) An application deemed incomplete shall not be considered and may be returned with the notation to the applicant indicating the reason the application is incomplete.

(F) Failure to provide the required documents within thirty days of the date the initial “Application for Ambulance or Mobile Intensive Care License” form is received by the division may result in the application being deemed incomplete.

(G) A MTO shall submit a completed “Renewal Application for Ambulance or Mobile Intensive Care License” form, appropriate fees, and supporting documentation to the board prior to the expiration of the MTO’s license in order to be considered timely.

(H) The certificate of licensure issued by the board shall indicate the highest level of service that the MTO is authorized to provide.

(I) No applicant or licensed MTO shall submit false, misleading, or deceptive information in order to obtain a license or permit.
Ch. 3. Trauma
Part II. EMS, EMT, Medical Transport

(J) A license is not transferable.

4766-4-03 Fees.

(A) Each MTO shall pay an initial or renewal license fee of one hundred dollars annually.
(B) Each MTO shall pay a permit fee for each MoICU(s) or non-transport vehicle of one hundred dollars annually;
(C) Each MTO shall pay an inspection fee of one hundred dollars per MoICU or non-transport vehicle.
(D) Each MTO shall pay a one hundred dollar reinspection fee for every MoICU or non-transport vehicle that requires reinspection as a result of a violation notification issued by the board or its designee.
(E) Each MTO shall pay a temporary permit fee of one hundred dollars for each temporary permit to be obtained.
(F) Fees shall be submitted with the application.
(G) All fees are nonrefundable.
(H) Each MTO shall pay a re-print fee of five dollars for each vehicle decal that shall be re-printed as a result of the decal being lost, damaged, incorrectly applied, or incorrect vehicle information provided to the division by the service.

4766-4-04 Physical facilities.

[Editor's Note: The “Comment” portion of the following regulation is part of the official provision.]

[Comment: For dates and availability of material incorporated by reference in this chapter of the Administrative Code, see rule 4766-4-18 of the Administrative Code.]

(A) The board or its designee shall conduct initial and renewal inspections of all MTOs pursuant to Chapter 4766 of the Revised Code and rules 4766-4-04 to 4766-4-07 of the Administrative Code to include the following:
   (1) MTO service headquarters;
   (2) MTO service satellite location(s).

(B) A MTO shall not commence operations from its headquarters or satellite base(s) until the MTO has met all requirements set forth in section 4766.04 of the Revised Code and agency 4766 of the Administrative Code including satisfactory inspections of all physical locations.

(C) A MTO shall ensure compliance with the inspection requirements for physical facilities. The inspection requirements for physical facilities of a MTO are as follows:
   (1) The board issued license shall be prominently displayed in a conspicuous location at every licensed facility (renewal inspection only);
   (2) Ohio state board of pharmacy license(s) shall be displayed at each location;
   (3) A written sanitation plan as set forth in Chapter 4766-4 of the Administrative Code shall be on site for each location;
   (4) The physical facilities shall maintain all single use supplies and equipment as set forth in the "MoICU Inspection" form.
   (5) The physical facilities shall be clean and free of debris;
   (6) Crew quarters shall be clean;
   (7) All physical facilities shall be in compliance with state and local building codes;
   (8) Each facility shall be in compliance with state and local fire codes.

(D) The board or its designee may conduct routine unannounced inspections at any location(s) of licensed MTO at any time, including night or weekend inspections to determine compliance with Chapter 4766 of the Revised Code and agency 4766 of the Administrative Code to include, but not limited to, the following:
(1) MTO service headquarters;
(2) MTO service satellite location(s);
(3) MoICU(s) and non-transport vehicle(s).

4766-4-05 Transportation records.

[Editor's Note: The “Comment” portion of the following regulation is part of the official provision.]

[Comment: For dates and availability of material incorporated by reference in this chapter of the Administrative Code, see rule 4766-4-18 of the Administrative Code.]

(A) Each licensed MTO shall maintain or have readily available the following at its headquarters:
(1) Current copy of the organization's operating medical protocol(s) as filed with the Ohio state board of pharmacy;
(2) Verification of the following:
   (a) Completion of emergency vehicle operator course for non-EMS certified personnel as set forth in rule 4766-4-13 of the Administrative Code;
   (b) Certification or license of all personnel;
(3) A current and valid certificate of liability insurance issued by an insurer licensed to do business in Ohio that includes a thirty day notice of cancellation to the board in compliance with the terms set forth in section 4766.06 of the Revised Code listing the board as a certificate holder;
   Each scheduled vehicle must be listed on the certificate or attached on an additional page to the certificate to include the vehicle’s year, make, model and vehicle identification number (VIN). If the certificate indicates “any auto” or “all owned autos,” a list of vehicles does not have to be included or attached.
   (4) Current copy of the MTO’s written policy covering the use of lights and audible warning devices;
   (5) Records or other documents related to patient care or to emergency medical service personnel maintained by the licensed MTO which shall be made available for review by the board or its designee;
   Such records or documents shall be made available in accordance with 45 C.F.R. 164.512;
   (6) Current maintenance records for vehicles as specified in rule 4766-4-09 of the Administrative Code;
   (7) Documentation of compliance with the periodic mechanical safety inspection set forth in rule 4766-4-09 of the Administrative Code;
   (8) Current maintenance records for all equipment used for patient care as specified in rule 4766-4-09 of the Administrative Code;
   (9) Dispatch log;
   (10) Written plan for restocking of supplies or compliance with paragraph (C)(4) of rule 4766-4-04 of the Administrative Code;
   (11) Ohio state board of pharmacy license and addendum;
   (12) DEA registration certificate (as applicable);
   (13) Clinical laboratory improvement amendments (CLIA) waiver (as applicable);

(B) A licensed MTO shall maintain or have readily available the following at each satellite base:
(1) Current copy of the organization's operating medical protocol(s) as filed with the Ohio state board of pharmacy;
Chapter 3. Trauma
Part II. EMS, EMT, Medical Transport

(2) Documentation that meets the requirements as set forth in rule 4766-4-07 of the Administrative Code;

(3) Current copy of the MTO’s written policy covering the use of lights and other warning devices;

(4) Written plan for restocking of supplies or compliance with paragraph (C)(4) of rule 4766-4-04 of the Administrative Code;

(5) Ohio state board of pharmacy license(s) and addendum(s);

(C) Upon licensure, each licensed MTO shall prominently display the original certification of licensure at its headquarters and each satellite base.

(D) Patient records shall be maintained in accordance with this rule.

(1) Each licensed MTO shall maintain accurate records concerning the transportation of each patient for a minimum of seven years;

(2) Each record shall include, at minimum, the following:

(a) Patient’s name;

(b) Patient’s sex;

(c) Patient’s age;

(d) Patient’s date of birth;

(e) Patient’s address;

(f) Location address of incident or pickup;

(g) Patient’s chief complaint;

(h) Patient’s history including:

(i) Current medical condition;

(ii) List of current medications;

(iii) Allergies;

(iv) Vital signs and time assessed:

(a) Blood pressure;

(b) Pulse;

(c) Respiration;

(i) Any responsible guardian;

(j) Advanced directives, if applicable;

(k) Final destination;

(l) Treatment rendered;

(m) The following times:

(i) Time call received;

(ii) Dispatch time;

(iii) Enroute time;

(iv) On-scene time;

(v) Departure from scene time;

(vi) Arrival at destination time;

(n) The names and level of certification or licensure for all EMS providers and other medical personnel;

(o) The names of any non-EMS certified personnel, if applicable.

(3) A copy of the record for each patient shall be provided to the receiving facility, which includes all the information required no later than twenty-four hours from time of dispatch.

4766-4-06 Communication requirements.

(A) All licensed MTO dispatch centers shall be equipped with a base station capable of two-way communications with associated MoICU(s) and non-transport vehicle(s). The base
station shall demonstrate and maintain voice communications with the devices used in the permitted MoICU(s) and non-transport vehicle(s) within the declared service area:
  
  (B) All MoICU(s) and non-transport vehicle(s), permitted as set forth in Chapter 4766 of the Revised Code, shall be equipped, while in use, with a dedicated two-way communications device, which shall have the capability to communicate with the licensed MTO's dispatch center, the receiving medical facility, and with medical control in the licensed MTO's service area.
  
  (C) All MTOs shall maintain a detailed radio/communications log that documents, at a minimum, the following:
      
      (1) Location of call;
      (2) Nature of call;
      (3) Initial dispatch time;
      (4) Enroute time;
      (5) On-scene time;
      (6) Departure from scene time;
      (7) Arrival at destination time;
      
  (D) If a MTO contractually uses another communication center for dispatch purposes, the communication center shall provide written certification of compliance with Chapter 4766 of the Revised Code and agency 4766 of the Administrative Code as applicable.

4766-4-07 Health and safety requirements.

[Editor's Note: The “Comment” portion of the following regulation is part of the official provision.]

  [Comment: For dates and availability of material incorporated by reference in this chapter of the Administrative Code, see rule 4766-4-18 of the Administrative Code.]

  (A) Each licensed MTO shall comply with all occupational safety and health administration-bloodborne pathogens regulations as set forth by 29 C.F.R. 1910.1030.
  
  (B) A licensed MTO shall ensure that sanitation procedures are provided to all personnel in a written document that conforms with current standards as set forth in occupational safety and health administration-bloodborne pathogens protocol.
  
  (C) A licensed MTO shall maintain and follow a written sanitation plan that conforms with the latest bloodborne pathogen standards as written by the occupational safety and health administration. The following documentation shall be maintained for each vehicle:
      
      (1) Sanitation schedule;
      (2) Date the sanitation was completed;
      (3) Documentation of who performed sanitation.
      
  (D) All licensed MTOs shall establish a written policy governing the use of lights and other warning devices pursuant to section 4511.24 of the Revised Code which shall be made available for inspection by the board or its designee.

4766-4-08 Vehicle inspections.

[Editor's Note: The “Comment” portion of the following regulation is part of the official provision.]

  [Comment: For dates and availability of material incorporated by reference in this chapter of the Administrative Code, see rule 4766-4-18 of the Administrative Code.]

  (A) The board or its designee shall inspect all MoICU(s) and non-transport vehicle(s) for roadworthiness and for appropriate equipment using the “MoICU Inspection” form or “Non-transport Vehicle Inspection” form.
(B) A permitted MoICU that is being used as a MoICU shall comply with the requirements of roadworthiness and the requirements set forth in the “MoICU Inspection” form, which shall include carrying the following types of equipment:

1. Isolation equipment;
2. Airway equipment;
3. Onboard definitive care equipment;
4. Bleeding control/burn equipment;
5. Suction equipment;
6. Medical gas and equipment;
7. Adjunct equipment;
8. Intravenous equipment;
9. Neonatal specific equipment; and
10. Immobilization equipment for MoICUs dually certified to provide advanced life support.

(C) A permitted non-transport vehicle that is being used as a non-transport vehicle shall comply with the requirements of roadworthiness and the requirements set forth in the “Non-Transport Vehicle Inspection” form, which shall include carrying specified definitive equipment.

(D) All equipment and supplies shall have current expiration dates where applicable.

(E) Disposable equipment is acceptable where applicable.

(F) All equipment shall be securely stored in each vehicle.

(G) A MTO shall demonstrate proof that each MoICU complies with all specifications set forth in division (C)(2) of section 4766.07 of the Revised Code, by one of the following:

1. Placard/sticker;
2. Certificate issued by the manufacturer;
3. Signed affidavit by the manufacturer certifying compliance with national standards in effect at the time the vehicle was manufactured.

(H) The name of the MTO shall be permanently affixed to each MoICU and non-transport vehicle with letters being a minimum height of three inches on both sides and a minimum height of one and one half inches on the back.

If a MTO is under contract which requires other signage or if the MTO is operating under another name, each vehicle shall have permanently affixed lettering with a minimum height of one and one half inches on the rear and both sides of the vehicle that states:

1. Owned and operated by [MTO's name]; or
2. Operated by [MTO's name]; or
3. Owned by [MTO's name].

(I) All violation notifications issued by the board or its designee shall be corrected.

(J) Each vehicle that receives a violation notification shall be placed out-of-service until:

1. It passes reinspection by the board or its designee; or
2. For seventy-two hour violation notifications, the violation has been corrected and the “Violation Notification” form is signed and returned to the division along with supporting documentation showing the violation has been corrected.

(K) Upon issuance of a vehicle permit, each licensed MTO shall apply the decal on the outside of the right rear window in accordance with division (B)(2) of section 4766.07 of the Revised Code on each MoICU and non-transport vehicle.

The permit shall be unobstructed at all times.

(L) A permit is not transferable.

(M) The board or its designee may conduct routine unannounced inspections at any location of licensed MTO at any time, including night or weekend inspections to determine compliance with Chapter 4766 of the Revised Code and agency 4766 of the Administrative Code to include, but not limited to, MoICU(s) and non-transport vehicle(s).
(N) A permitted MoICU or non-transport vehicle shall maintain compliance with roadworthiness requirements set forth in this rule at any time it is used as an MoICU or non-transport vehicle.

(O) Each permitted vehicle shall be free from dirt, stains, impurities and/or foreign matter in driver's compartment and MoICU patient care compartments.

(P) Permitted MoICUs and non-transport vehicles shall:
(1) Bear license plates issued under section 4503.49 of the Revised Code; or
(2) Comply with residency registration requirements set forth in section 4503.111 of the Revised Code.

4766-4-09 Maintenance documentation.

[Editor's Note: The “Comment” portion of the following regulation is part of the official provision.]

[Comment: For dates and availability of material incorporated by reference in this chapter of the Administrative Code, see rule 4766-4-18 of the Administrative Code.]

(A) MoICU and non-transport vehicles
(1) All licensed MTOs shall ensure performance and maintain documentation of all periodic maintenance and repairs on each permitted vehicle to include:
   (a) Date of service or repair;
   (b) Description of service/repair performed;
   (c) Name of person who performed service/repair and the business name, if applicable.
(2) Licensed MTOs shall subject all permitted MoICU(s) and non-transport vehicle(s) to periodic mechanical safety inspection(s), which shall be documented by the service.
   (a) A periodic mechanical safety inspection shall mean an inspection conducted:
      (i) Prior to a vehicle's initial permit being issued for vehicles with an odometer reading of five thousand miles or more, and;
      (ii) Annually and completed within the six month period prior to the MTO's license expiration date, or;
      (iii) Every twenty thousand miles for a vehicle that has an odometer reading of one hundred fifty thousand miles or more.
   (b) Each mechanical safety inspection shall be conducted by a mechanic with factory training and certification from an original (motor vehicle) equipment manufacturer or equivalent certification for “Emergency Vehicle Technicians” (EVT) or from the “National Institute for Automotive Service Excellence” (ASE).
   (c) Each mechanical safety inspection shall be conducted in addition to the vehicle and equipment inspection by the board or its designee following the procedures adopted in rule 4766-4-08 of the Administrative Code.
(3) Vehicles with failed items found during the mechanical safety inspection shall be removed from service and not placed back into service until items are corrected. Proof of correction(s) shall be maintained by the service with the “Periodic Mechanical Safety Report” form in the vehicle’s maintenance records.
(3) Out of service permitted MoICU(s) or non-transport vehicle(s):
   If a licensed MTO removes a permitted MoICU or non-transport vehicle from service it shall place an “out of service” sign in the permitted MoICU or non-transport vehicle to be visible through the windshield with the following information included on the front of the sign:
   (a) Date permitted MoICU or non-transport vehicle was taken out of service;
   (b) Odometer reading at time permitted MoICU or non-transport vehicle was taken out of service;
   (c) Reason permitted MoICU or non-transport vehicle was taken out of service;
Chapter 3. Trauma
Part II. EMS, EMT, Medical Transport

(d) Printed name and signature of person responsible for taking permitted vehicle out of service;
(e) The words “out of service” utilizing not less than three inch lettering.
(4) If permitted MoICU or non-transport vehicle is at a repair/maintenance shop that is not owned or operated by the licensed MTO for maintenance purposes, no “out of service” sign is required.

(B) Bio-medical equipment/patient care equipment:
(1) A licensed MTO shall ensure performance and maintain documentation of all periodic maintenance and repairs of bio-medical equipment as required by manufacturer and/or food and drug administration including but not limited to the following:
(a) Date of last inspection;
(b) Date of service or repair;
(c) Description of service/repair performed;
(d) Name of person who performed inspection, service, or repair;
(e) Documentation, if any, of inspection, service, or repair performed.
(2) A licensed MTO shall maintain documentation of all periodic maintenance of patient care equipment as required by the original equipment manufacturer, including but not limited to the following:
(a) Date of last inspection;
(b) Date of service or repair;
(c) Description of service/repair performed;
(d) Name of who performed inspection, service, or repair;
(e) Documentation of inspection, service, or repair performed.
(C) MoICU and non-transport vehicle maintenance/repair records and bio-medical maintenance/repair records shall be kept for a period of twelve months after the vehicle/equipment is removed from inventory.

4766-4-11 Use of lights and other warning devices.

(A) Permitted MoICU(s) and non-transport vehicle(s) are considered public safety vehicles pursuant to division (E)(1) of section 4511.01 of the Revised Code.
(B) Permitted MoICU(s) and non-transport vehicle(s), when responding to emergency calls, may use emergency lights and audible warning devices pursuant to section 4511.24 of the Revised Code.
(C) Permitted MoICU(s) and non-transport vehicle(s) shall:
(1) Bear license plates issued under section 4503.49 of the Revised Code; or
(2) Comply with residency registration requirements set forth in section 4503.111 of the Revised Code.
(3) Permitted MoICU(s) and non-transport vehicle(s) owned and operated by a federal, state, county, city, or township or a service that qualifies for gratis license plates from the bureau of motor vehicles are not required to bear ambulance license plates or non-transport vehicle license plates.

4766-4-12 Temporary and disaster operations.

[Editor's Note: The “Comment” portion of the following regulation is part of the official provision.]

[Comment: For dates and availability of material incorporated by reference in this chapter of the Administrative Code, see rule 4766-4-18 of the Administrative Code.]
(A) In the event of a disaster situation when permitted MoICU(s) based in the locality of the disaster situation are incapacitated or insufficient in number to render services needed, a licensed MTO may utilize whatever means necessary to transport and treat patients.

(B) A MoICU or non-transport vehicle that has not been issued a permit by the board may be issued a temporary permit, for a period not to exceed sixty days, if the MoICU or non-transport vehicle is used to replace a permitted MoICU or non-transport vehicle that has been temporarily taken out of service for repair or maintenance or is being permanently replaced. In order to obtain a temporary permit, a MTO shall submit a “Temporary Ambulance / MOICU / Non-transport Vehicle” form to the board containing:

1. Vehicle identification number of the permitted MoICU or non-transport vehicle;
2. Date permitted MoICU or non-transport vehicle was placed out of service;
3. Vehicle identification number of the non-permitted MoICU or non-transport vehicle;
4. Date temporarily permitted MoICU or non-transport vehicle is to be placed in service;
5. Brief description of reason the permitted MoICU or non-transport vehicle was taken out of service.

(C) The licensed MTO shall ensure that the one hundred dollar fee prescribed in paragraph (E) of rule 4766-4-03 of the Administrative Code shall be received by the board within seven days of issuance of a temporary permit.

(D) The MTO shall note the date of return to service of the permitted MoICU or non-transport vehicle on the temporary permit.

(E) The licensed MTO shall return the temporary permit to the board within two days after the permitted MoICU or non-transport vehicle is returned to service.

4766-4-13 Staffing compliance.

[Editor’s Note: The “Comment” portion of the following regulation is part of the official provision.]

[Comment: For dates and availability of material incorporated by reference in this chapter of the Administrative Code, see rule 4766-4-18 of the Administrative Code.]

MoICU transport team shall consist of three personnel: a driver operator and two other healthcare personnel as described herein:

(A) Driver operator means:
1. A person who has successfully completed and passed an emergency vehicle operator course that meets requirements of national highway and traffic safety administration’s “1995 Emergency Vehicle Operators Course (Ambulance): National Standard Curriculum”; or
2. A person who is certified as an Ohio emergency medical technician.

(B) Healthcare personnel means one each of the following:
1. A registered nurse whose training meets or exceeds the training required for a paramedic; and
2. A physician or another person designated by a physician, who holds a valid license or certificate to practice in a health care profession in one of the following areas: paramedic, registered nurse, respiratory therapist, advanced practice nurse, or physician’s assistant.

4766-4-14 Regulations for out of state providers.

The exemption from licensure in division (B) of section 4766.09 of the Revised Code exempts out of state providers receiving a patient in Ohio for transport to a location not within Ohio or when transporting a patient received in another state. An out of state provider that receives a patient in Ohio for transportation to a location in Ohio shall be licensed and is subject to Chapter 4766 of the Revised Code and rules under this chapter and to all applicable fines and sanctions for any violation thereof.
Chapter 3. Trauma
Part II. EMS, EMT, Medical Transport

4766-4-15 Changes to be reported to the board.

[Editor’s Note: The “Comment” portion of the following regulation is part of the official provision.]

[Comment: For dates and availability of material incorporated by reference in this chapter of the Administrative Code, see rule 4766-4-18 of the Administrative Code.]

(A) Each licensed MTO shall give written notification to the board within ten business days of any additions, deletions or changes in:

1. Executive officers or board members;
2. Medical director, including:
   a. Contact information; and
   b. Medical license number;
3. Ownership of a licensed MTO;
4. Tax ID or EIN number;
5. The name of the primary contact person(s), business or administrative office telephone number, email address, and if applicable, office fax number.

(B) Within ten days of the date a permitted MoICU or non-transport vehicle is permanently withdrawn from service, the licensed MTO shall return to the board a “Deletion of Vehicle” form and the decal from the right rear window.

(C) Within ten business days of the date a licensed MTO ceases to operate, it shall return to the board all vehicle decals and the certificate of licensure.

(D) Within ten business days of the date a licensed MTO ceases to operate a satellite base, it shall return to the board the certificate of licensure.

(E) A MTO licensed at the MoICU level may apply at any time to be licensed at a lower level. The application shall be made on a “Change in Level of Service Medical Transportation Organization” form and include the one hundred dollar license fee. The MTO shall also ensure compliance with rules 4766-4-04 and 4766-4-08 of the Administrative Code. A change in level of service does not change the expiration date of the license.

(F) A licensed MTO may apply at any time for change of address of headquarters location. The application shall be made on the “Headquarters Change of Address” form and include the one hundred dollar license fee. The MTO shall also ensure compliance with rules 4766-4-04 of the Administrative Code. A change in headquarters address does not change the expiration date of the license.

4766-4-16 Investigations of alleged offenses.

(A) The division shall investigate all complaints on behalf of the board and in accordance with section 4766.11 of the Revised Code.

(B) After an investigation is completed and based on the findings of such investigation, the board may initiate disciplinary proceedings in accordance with Chapter 119 of the Revised Code and this chapter.

(C) If, based on the findings of an investigation, the board determines that no further action on a complaint is warranted, then the case shall be closed accordingly.

(D) The division shall conduct all investigations and any related proceedings, in such a manner as to protect patient confidentiality and in accordance with section 4765.102 of the Revised Code.

(E) Notwithstanding paragraph (D) of this rule, a patient may consent to have the board release the patient’s name or other identifying information that was collected as part of the division’s investigation. Such consent shall be in writing and signed by the patient in order to be considered proper.
If a patient is less than eighteen years of age, such consent shall be in writing and
signed by the patient's parent, guardian, or legal custodian in order to be considered proper.
(F) No member of the board who participates in an investigation shall participate in any
further adjudication of the case.
(G) No member of the board who participates in an investigation at the local level or is
involved in a case locally, shall participate in any investigation or adjudication of the same case
by the board.

Chapter 4. Minors, Birth and Abortion

Part I. Minors

[Editor’s Note: Additional statutes involving minors and consent are listed elsewhere in this handbook under the applicable topic area.]

2108.31 Blood donation; minors.

Any person seventeen years of age or older may, without consent of the person's parent or guardian, donate blood in a voluntary blood program that is not operated for profit. Any person sixteen years of age but less than seventeen years of age may, with consent of the person's parent or guardian, donate blood in a voluntary blood program that is not operated for profit.

Before obtaining blood donations from students at high schools, joint vocational schools, or technical schools, a blood program shall arrange for the dissemination of written donation information to students to be shared with their parents or guardians. This information shall include a statement that the students will be requested to donate blood.

2151.33 Consent and reimbursement for emergency treatment of minor.

(A) Pending hearing of a complaint filed under section 2151.27 of the Revised Code or a motion filed or made under division (B) of this section and the service of citations, the juvenile court may make any temporary disposition of any child that it considers necessary to protect the best interest of the child and that can be made pursuant to division (B) of this section. Upon the certificate of one or more reputable practicing physicians, the court may summarily provide for emergency medical and surgical treatment that appears to be immediately necessary to preserve the health and well-being of any child concerning whom a complaint or an application for care has been filed, pending the service of a citation upon the child's parents, guardian, or custodian. The court may order the parents, guardian, or custodian, if the court finds the parents, guardian, or custodian able to do so, to reimburse the court for the expense involved in providing the emergency medical or surgical treatment. Any person who disobeys the order for reimbursement may be adjudged in contempt of court and punished accordingly.

If the emergency medical or surgical treatment is furnished to a child who is found at the hearing to be a nonresident of the county in which the court is located and if the expense of the medical or surgical treatment cannot be recovered from the parents, legal guardian, or custodian of the child, the board of county commissioners of the county in which the child has a legal settlement shall reimburse the court for the reasonable cost of the emergency medical or surgical treatment out of its general fund.

(B)(1) After a complaint, petition, writ, or other document initiating a case dealing with an alleged or adjudicated abused, neglected, or dependent child is filed and upon the filing or making of a motion pursuant to division (C) of this section, the court, prior to the final disposition of the case, may issue any of the following temporary orders to protect the best interest of the child:

(a) An order granting temporary custody of the child to a particular party;
(b) An order for the taking of the child into custody pursuant to section 2151.31 of the Revised Code pending the outcome of the adjudicatory and dispositional hearings;
(c) An order granting, limiting, or eliminating parenting time or visitation rights with respect to the child;
(d) An order requiring a party to vacate a residence that will be lawfully occupied by the child;

(e) An order requiring a party to attend an appropriate counseling program that is reasonably available to that party;

(f) Any other order that restrains or otherwise controls the conduct of any party which conduct would not be in the best interest of the child.

(2) Prior to the final disposition of a case subject to division (B)(1) of this section, the court shall do both of the following:

(a) Issue an order pursuant to Chapters 3119. to 3125 of the Revised Code requiring the parents, guardian, or person charged with the child’s support to pay support for the child.

(b) Issue an order requiring the parents, guardian, or person charged with the child’s support to continue to maintain any health insurance coverage for the child that existed at the time of the filing of the complaint, petition, writ, or other document, or to obtain health insurance coverage in accordance with sections 3119.29 to 3119.56 of the Revised Code.

(C)(1) A court may issue an order pursuant to division (B) of this section upon its own motion or if a party files a written motion or makes an oral motion requesting the issuance of the order and stating the reasons for it. Any notice sent by the court as a result of a motion pursuant to this section shall contain a notice that any party to a juvenile proceeding has the right to be represented by counsel and to have appointed counsel if the person is indigent.

(2) If a child is taken into custody pursuant to section 2151.31 of the Revised Code and placed in shelter care, the public children services agency or private child placing agency with which the child is placed in shelter care shall file or make a motion as described in division (C)(1) of this section before the end of the next day immediately after the date on which the child was taken into custody and, at a minimum, shall request an order for temporary custody under division (B)(1)(a) of this section.

(3) A court that issues an order pursuant to division (B)(1)(b) of this section shall comply with section 2151.419 of the Revised Code.

(D) The court may grant an ex parte order upon its own motion or a motion filed or made pursuant to division (C) of this section requesting such an order if it appears to the court that the best interest and the welfare of the child require that the court issue the order immediately. The court, if acting on its own motion, or the person requesting the granting of an ex parte order, to the extent possible, shall give notice of its intent or of the request to the parents, guardian, or custodian of the child who is the subject of the request. If the court issues an ex parte order, the court shall hold a hearing to review the order within seventy-two hours after it is issued or before the end of the next day after the day on which it is issued, whichever occurs first. The court shall give written notice of the hearing to all parties to the action and shall appoint a guardian ad litem for the child prior to the hearing.

The written notice shall be given by all means that are reasonably likely to result in the party receiving actual notice and shall include all of the following:

(1) The date, time, and location of the hearing;

(2) The issues to be addressed at the hearing;

(3) A statement that every party to the hearing has a right to counsel and to court-appointed counsel, if the party is indigent;

(4) The name, telephone number, and address of the person requesting the order;

(5) A copy of the order, except when it is not possible to obtain it because of the exigent circumstances in the case.

If the court does not grant an ex parte order pursuant to a motion filed or made pursuant to division (C) of this section or its own motion, the court shall hold a shelter care hearing on the motion within ten days after the motion is filed. The court shall give notice of the hearing to all affected parties in the same manner as set forth in the Juvenile Rules.

(E) The court, pending the outcome of the adjudicatory and dispositional hearings, shall
Chapter 4. Minors, Birth and Abortion
Part I. Minors

Minor's Consent

not issue an order granting temporary custody of a child to a public children services agency or private child placing agency pursuant to this section, unless the court determines and specifically states in the order that the continued residence of the child in the child's current home will be contrary to the child's best interest and welfare and the court complies with section 2151.419 of the Revised Code.

(F) Each public children services agency and private child placing agency that receives temporary custody of a child pursuant to this section shall exercise due diligence to identify and provide notice to all adult grandparents and other adult relatives of the child, including any adult relatives suggested by the parents, within thirty days of the child's removal from the custody of the child's parents, in accordance with 42 U.S.C. 671(a)(29). The agency shall also maintain in the child's case record written documentation that it has placed the child, to the extent that it is consistent with the best interest, welfare, and special needs of the child, in the most family-like setting available and in close proximity to the home of the parents, custodian, or guardian of the child.

(G) For good cause shown, any court order that is issued pursuant to this section may be reviewed by the court at any time upon motion of any party to the action or upon the motion of the court.

(H)(1) Pending the hearing of a complaint filed under section 2151.27 of the Revised Code or a motion filed or made under division (B) of this section and the service of citations, a public children services agency may request that the superintendent of the bureau of criminal identification and investigation conduct a criminal records check with respect to each parent, guardian, custodian, prospective custodian, or prospective placement whose actions resulted in a temporary disposition under division (A) of this section. The public children services agency may request that the superintendent obtain information from the federal bureau of investigation as part of the criminal records check of each parent, guardian, custodian, prospective custodian, or prospective placement.

(2) Each public children services agency authorized by division (H) of this section to request a criminal records check shall do both of the following:

(a) Provide to each parent, guardian, custodian, prospective custodian, or prospective placement for whom a criminal records check is requested a copy of the form prescribed pursuant to division (C)(1) of section 109.572 of the Revised Code and a standard fingerprint impression sheet prescribed pursuant to division (C)(2) of that section and obtain the completed form and impression sheet from the parent, guardian, custodian, prospective custodian, or prospective placement;

(b) Forward the completed form and impression sheet to the superintendent of the bureau of criminal identification and investigation.

(3) A parent, guardian, custodian, prospective custodian, or prospective placement who is given a form and fingerprint impression sheet under division (H)(2)(a) of this section and who fails to complete the form or provide fingerprint impressions may be held in contempt of court.

3109.01 Minors; age of majority.

All persons of the age of eighteen years or more, who are under no legal disability, are capable of contracting and are of full age for all purposes.

3709.241 Minor's consent to diagnosis and treatment of venereal disease.

Notwithstanding any other provision of law, a minor may give consent for the diagnosis or treatment of any venereal disease by a licensed physician. Such consent is not subject to disaffirmance because of minority. The consent of the parent, parents, or guardian of a minor is not required for such diagnosis or treatment. The parent, parents, or guardian of a minor giving
Part II. Abortions

Abortions

General Provisions

Chapter 4. Minors, Birth and Abortion

Part II. Abortions

consent under this section are not liable for payment for any diagnostic or treatment services provided under this section without their consent.

3719.012 Minor’s consent to drug-related treatment.

(A) Notwithstanding any other provision of law, a minor may give consent for the diagnosis or treatment by a physician licensed to practice in this state of any condition which it is reasonable to believe is caused by a drug of abuse, beer, or intoxicating liquor. Such consent shall not be subject to disaffirmance because of minority.

(B) A physician licensed to practice in this state, or any person acting at his direction, who in good faith renders medical or surgical services to a minor giving consent under division (A) of this section, shall not be subject to any civil or criminal liability for assault, battery, or assault and battery.

(C) The parent or legal guardian of a minor giving consent under division (A) of this section is not liable for the payment of any charges made for medical or surgical services rendered such minor, unless the parent or legal guardian has also given consent for the diagnosis or treatment.

Part II. Abortions

2317.56 Abortion protocols and definitions.

(A) As used in this section:

(1) “Medical emergency” has the same meaning as in section 2919.16 of the Revised Code.

(2) “Medical necessity” means a medical condition of a pregnant woman that, in the reasonable judgment of the physician who is attending the woman, so complicates the pregnancy that it necessitates the immediate performance or induction of an abortion.

(3) “Probable gestational age of the embryo or fetus” means the gestational age that, in the judgment of a physician, is, with reasonable probability, the gestational age of the embryo or fetus at the time that the physician informs a pregnant woman pursuant to division (B)(1)(b) of this section.

(B) Except when there is a medical emergency or medical necessity, an abortion shall be performed or induced only if all of the following conditions are satisfied:

(1) At least twenty-four hours prior to the performance or inducement of the abortion, a physician meets with the pregnant woman in person in an individual, private setting and gives her an adequate opportunity to ask questions about the abortion that will be performed or induced. At this meeting, the physician shall inform the pregnant woman, verbally or, if she is hearing impaired, by other means of communication, of all of the following:

(a) The nature and purpose of the particular abortion procedure to be used and the medical risks associated with that procedure;

(b) The probable gestational age of the embryo or fetus;

(c) The medical risks associated with the pregnant woman carrying the pregnancy to term.

The meeting need not occur at the facility where the abortion is to be performed or induced, and the physician involved in the meeting need not be affiliated with that facility or with the physician who is scheduled to perform or induce the abortion.

(2) At least twenty-four hours prior to the performance or inducement of the abortion, the physician who is to perform or induce the abortion or the physician's agent does each of the following in person, by telephone, by certified mail, return receipt requested, or by regular mail
Abortions - General Provisions

Chapter 4. Minors, Birth and Abortion
Part II. Abortions

evidenced by a certificate of mailing:
   (a) Inform the pregnant woman of the name of the physician who is scheduled to
       perform or induce the abortion;
   (b) Give the pregnant woman copies of the published materials described in division (C)
       of this section;
   (c) Inform the pregnant woman that the materials given pursuant to division (B)(2)(b) of
       this section are published by the state and that they describe the embryo or fetus and list
       agencies that offer alternatives to abortion. The pregnant woman may choose to examine or not
to examine the materials. A physician or an agent of a physician may choose to be
       disassociated from the materials and may choose to comment or not comment on the materials.
   (3) If it has been determined that the unborn human individual the pregnant woman is
       carrying has a detectable heartbeat, the physician who is to perform or induce the abortion shall
       comply with the informed consent requirements in section 2919.192 of the Revised Code in
       addition to complying with the informed consent requirements in divisions (B)(1), (2), (4), and (5)
       of this section.
   (4) Prior to the performance or inducement of the abortion, the pregnant woman signs a
       form consenting to the abortion and certifies both of the following on that form:
       (a) She has received the information and materials described in divisions (B)(1) and (2)
           of this section, and her questions about the abortion that will be performed or induced have
           been answered in a satisfactory manner.
       (b) She consents to the particular abortion voluntarily, knowingly, intelligently, and
           without coercion by any person, and she is not under the influence of any drug of abuse or
           alcohol.
       The form shall contain the name and contact information of the physician who provided
       to the pregnant woman the information described in division (B)(1) of this section.
   (5) Prior to the performance or inducement of the abortion, the physician who is
       scheduled to perform or induce the abortion or the physician's agent receives a copy of the
       pregnant woman's signed form on which she consents to the abortion and that includes the
       certification required by division (B)(4) of this section.
   (C) The department of health shall publish in English and in Spanish, in a typeface large
       enough to be clearly legible, and in an easily comprehensible format, the following materials on
       the department's web site:
       (1) Materials that inform the pregnant woman about family planning information, of
           publicly funded agencies that are available to assist in family planning, and of public and private
           agencies and services that are available to assist her through the pregnancy, upon childbirth,
           and while the child is dependent, including, but not limited to, adoption agencies. The materials
           shall be geographically indexed; include a comprehensive list of the available agencies, a
           description of the services offered by the agencies, and the telephone numbers and addresses
           of the agencies; and inform the pregnant woman about available medical assistance benefits for
           prenatal care, childbirth, and neonatal care and about the support obligations of the father of a
           child who is born alive. The department shall ensure that the materials described in division
           (C)(1) of this section are comprehensive and do not directly or indirectly promote, exclude, or
           discourage the use of any agency or service described in this division.
       (2) Materials that inform the pregnant woman of the probable anatomical and
           physiological characteristics of the zygote, blastocyte, embryo, or fetus at two-week gestational
           increments for the first sixteen weeks of pregnancy and at four-week gestational increments
           from the seventeenth week of pregnancy to full term, including any relevant information
           regarding the time at which the fetus possibly would be viable. The department shall cause
           these materials to be published only after it consults with the Ohio state medical association and
           the Ohio section of the American college of obstetricians and gynecologists relative to the
           probable anatomical and physiological characteristics of a zygote, blastocyte, embryo, or fetus
at the various gestational increments. The materials shall use language that is understandable by the average person who is not medically trained, shall be objective and nonjudgmental, and shall include only accurate scientific information about the zygote, blastocyte, embryo, or fetus at the various gestational increments. If the materials use a pictorial, photographic, or other depiction to provide information regarding the zygote, blastocyte, embryo, or fetus, the materials shall include, in a conspicuous manner, a scale or other explanation that is understandable by the average person and that can be used to determine the actual size of the zygote, blastocyte, embryo, or fetus at a particular gestational increment as contrasted with the depicted size of the zygote, blastocyte, embryo, or fetus at that gestational increment.

(D) Upon the submission of a request to the department of health by any person, hospital, physician, or medical facility for one copy of the materials published in accordance with division (C) of this section, the department shall make the requested copy of the materials available to the person, hospital, physician, or medical facility that requested the copy.

(E) If a medical emergency or medical necessity compels the performance or inducement of an abortion, the physician who will perform or induce the abortion, prior to its performance or inducement if possible, shall inform the pregnant woman of the medical indications supporting the physician's judgment that an immediate abortion is necessary. Any physician who performs or induces an abortion without the prior satisfaction of the conditions specified in division (B) of this section because of a medical emergency or medical necessity shall enter the reasons for the conclusion that a medical emergency or medical necessity exists in the medical record of the pregnant woman.

(F) If the conditions specified in division (B) of this section are satisfied, consent to an abortion shall be presumed to be valid and effective.

(G) The performance or inducement of an abortion without the prior satisfaction of the conditions specified in division (B) of this section does not constitute, and shall not be construed as constituting, a violation of division (A) of section 2919.12 of the Revised Code. The failure of a physician to satisfy the conditions of division (B) of this section prior to performing or inducing an abortion upon a pregnant woman may be the basis of both of the following:

(1) A civil action for compensatory and exemplary damages as described in division (H) of this section;

(2) Disciplinary action under section 4731.22 of the Revised Code.

(H)(1) Subject to divisions (H)(2) and (3) of this section, any physician who performs or induces an abortion with actual knowledge that the conditions specified in division (B) of this section have not been satisfied or with a heedless indifference as to whether those conditions have been satisfied is liable in compensatory and exemplary damages in a civil action to any person, or the representative of the estate of any person, who sustains injury, death, or loss to person or property as a result of the failure to satisfy those conditions. In the civil action, the court additionally may enter any injunctive or other equitable relief that it considers appropriate.

(2) The following shall be affirmative defenses in a civil action authorized by division (H)(1) of this section:

(a) The physician performed or induced the abortion under the circumstances described in division (E) of this section.

(b) The physician made a good faith effort to satisfy the conditions specified in division (B) of this section.

(3) An employer or other principal is not liable in damages in a civil action authorized by division (H)(1) of this section on the basis of the doctrine of respondeat superior unless either of the following applies:

(a) The employer or other principal had actual knowledge or, by the exercise of reasonable diligence, should have known that an employee or agent performed or induced an abortion with actual knowledge that the conditions specified in division (B) of this section had not been satisfied or with a heedless indifference as to whether those conditions had been
satisfied.

(b) The employer or other principal negligently failed to secure the compliance of an employee or agent with division (B) of this section.

(4) Notwithstanding division (E) of section 2919.12 of the Revised Code, the civil action authorized by division (H)(1) of this section shall be the exclusive civil remedy for persons, or the representatives of estates of persons, who allegedly sustain injury, death, or loss to person or property as a result of a failure to satisfy the conditions specified in division (B) of this section.

(I) The department of job and family services shall prepare and conduct a public information program to inform women of all available governmental programs and agencies that provide services or assistance for family planning, prenatal care, child care, or alternatives to abortion.

2317.561 Ultrasound before abortion.

In addition to the requirements in section 2317.56 of the Revised Code, if an obstetric ultrasound examination is performed at any time prior to the performance or inducement of an abortion or the physician performing or inducing the abortion determines that an ultrasound examination will be performed as part of the abortion procedure, the physician shall do both of the following prior to the performance or inducement of the abortion:

(A) Provide the pregnant woman receiving the abortion the opportunity to view the active ultrasound image of the embryo or fetus;
(B) Offer to provide the pregnant woman with a physical picture of the ultrasound image of the embryo or fetus.

The requirements of division (A) of this section shall be performed at no additional charge to the pregnant woman.

2919.11 Abortion; definitions.

As used in the Revised Code, "abortion" means the purposeful termination of a human pregnancy by any person, including the pregnant woman herself, with an intention other than to produce a live birth or to remove a dead fetus or embryo. Abortion is the practice of medicine or surgery for the purposes of section 4731.41 of the Revised Code.

2919.12 Informed consent required; unmarried minors.

(A) No person shall perform or induce an abortion without the informed consent of the pregnant woman.

(B)(1)(a) No person shall knowingly perform or induce an abortion upon a woman who is pregnant, unmarried, under eighteen years of age, and unemancipated unless at least one of the following applies:

(i) Subject to division (B)(2) of this section, the person has given at least twenty-four hours actual notice, in person or by telephone, to one of the woman's parents, her guardian, or her custodian as to the intention to perform or induce the abortion, provided that if the woman has requested, in accordance with division (B)(1)(b) of this section, that notice be given to a specified brother or sister of the woman who is twenty-one years of age or older or to a specified stepparent or grandparent of the woman instead of to one of her parents, her guardian, or her custodian, and if the person is notified by a juvenile court that affidavits of the type described in that division have been filed with that court, the twenty-four hours actual notice described in this division as to the intention to perform or induce the abortion shall be given, in person or by telephone, to the specified brother, sister, stepparent, or grandparent instead of to the parent, guardian, or custodian;
(ii) One of the woman's parents, her guardian, or her custodian has consented in writing to the performance or inducement of the abortion;

(iii) A juvenile court pursuant to section 2151.85 of the Revised Code issues an order authorizing the woman to consent to the abortion without notification of one of her parents, her guardian, or her custodian;

(iv) A juvenile court or a court of appeals, by its inaction, constructively has authorized the woman to consent to the abortion without notification of one of her parents, her guardian, or her custodian under division (B)(1) of section 2151.85 or division (A) of section 2505.073 of the Revised Code.

(b) If a woman who is pregnant, unmarried, under eighteen years of age, and unemancipated desires notification as to a person's intention to perform or induce an abortion on the woman to be given to a specified brother or sister of the woman who is twenty-one years of age or older or to a specified stepparent or grandparent of the woman instead of to one of her parents, her guardian, or her custodian, the person who intends to perform or induce the abortion shall notify the specified brother, sister, stepparent, or grandparent instead of the parent, guardian, or custodian for purposes of division (B)(1)(a)(i) of this section if all of the following apply:

(i) The woman has requested the person to provide the notification to the specified brother, sister, stepparent, or grandparent, clearly has identified the specified brother, sister, stepparent, or grandparent and her relation to that person, and, if the specified relative is a brother or sister, has indicated the age of the brother or sister;

(ii) The woman has executed an affidavit stating that she is in fear of physical, sexual, or severe emotional abuse from the parent, guardian, or custodian who otherwise would be notified under division (B)(1)(a)(i) of this section, and that the fear is based on a pattern of physical, sexual, or severe emotional abuse of her exhibited by that parent, guardian, or custodian, has filed the affidavit with the juvenile court of the county in which the woman has a residence or legal settlement, the juvenile court of any county that borders to any extent the county in which she has a residence or legal settlement, or the juvenile court of the county in which the hospital, clinic, or other facility in which the abortion would be performed or induced is located, and has given the court written notice of the name and address of the person who intends to perform or induce the abortion;

(iii) The specified brother, sister, stepparent, or grandparent has executed an affidavit stating that the woman has reason to fear physical, sexual, or severe emotional abuse from the parent, guardian, or custodian who otherwise would be notified under division (B)(1)(a)(i) of this section, based on a pattern of physical, sexual, or severe emotional abuse of her by that parent, guardian, or custodian, and the woman or the specified brother, sister, stepparent, or grandparent has filed the affidavit with the juvenile court in which the affidavit described in division (B)(1)(b)(ii) of this section was filed;

(iv) The juvenile court in which the affidavits described in divisions (B)(1)(b)(ii) and (iii) of this section were filed has notified the person that both of those affidavits have been filed with the court.

(c) If an affidavit of the type described in division (B)(1)(b)(ii) of this section and an affidavit of the type described in division (B)(1)(b)(iii) of this section are filed with a juvenile court and the court has been provided with written notice of the name and address of the person who intends to perform or induce an abortion upon the woman to whom the affidavits pertain, the court promptly shall notify the person who intends to perform or induce the abortion that the affidavits have been filed. If possible, the notice to the person shall be given in person or by telephone.

(2) If division (B)(1)(a)(ii), (iii), or (iv) of this section does not apply, and if no parent, guardian, or custodian can be reached for purposes of division (B)(1)(a)(i) of this section after a reasonable effort, or if notification is to be given to a specified brother, sister, stepparent, or
Abortions- General Provisions 428

grandparent under that division and the specified brother, sister, stepparent, or grandparent cannot be reached for purposes of that division after a reasonable effort, no person shall perform or induce such an abortion without giving at least forty-eight hours constructive notice to one of the woman's parents, her guardian, or her custodian, by both certified and ordinary mail sent to the last known address of the parent, guardian, or custodian, or if notification for purposes of division (B)(1)(a)(i) of this section is to be given to a specified brother, sister, stepparent, or grandparent, without giving at least forty-eight hours constructive notice to that specified brother, sister, stepparent, or grandparent by both certified and ordinary mail sent to the last known address of that specified brother, sister, stepparent, or grandparent. The forty-eight-hour period under this division begins when the certified mail notice is mailed. If a parent, guardian, or custodian of the woman, or if notification under division (B)(1)(a)(i) of this section is to be given to a specified brother, sister, stepparent, or grandparent, the specified brother, sister, stepparent, or grandparent, is not reached within the forty-eight-hour period, the abortion may proceed even if the certified mail notice is not received.

(3) If a parent, guardian, custodian, or specified brother, sister, stepparent, or grandparent who has been notified in accordance with division (B)(1) or (2) of this section clearly and unequivocally expresses that he or she does not wish to consult with a pregnant woman prior to her abortion, then the abortion may proceed without any further waiting period.

(4) For purposes of prosecutions for a violation of division (B)(1) or (2) of this section, it shall be a rebuttable presumption that a woman who is unmarried and under eighteen years of age is unemancipated.

(C)(1) It is an affirmative defense to a charge under division (B)(1) or (2) of this section that the pregnant woman provided the person who performed or induced the abortion with false, misleading, or incorrect information about her age, marital status, or emancipation, about the age of a brother or sister to whom she requested notice be given as a specified relative instead of to one of her parents, her guardian, or her custodian, or about the last known address of either of her parents, her guardian, her custodian, or a specified brother, sister, stepparent, or grandparent to whom she requested notice be given and the person who performed or induced the abortion did not otherwise have reasonable cause to believe the pregnant woman was under eighteen years of age, unmarried, or unemancipated, to believe that the age of a brother or sister to whom she requested notice be given as a specified relative instead of to one of her parents, her guardian, or her custodian was not twenty-one years of age, or to believe that the last known address of either of her parents, her guardian, her custodian, or a specified brother, sister, stepparent, or grandparent to whom she requested notice be given was incorrect.

(2) It is an affirmative defense to a charge under this section that compliance with the requirements of this section was not possible because an immediate threat of serious risk to the life or physical health of the pregnant woman from the continuation of her pregnancy created an emergency necessitating the immediate performance or induction of an abortion.

(D) Whoever violates this section is guilty of unlawful abortion. A violation of division (A) of this section is a misdemeanor of the first degree on the first offense and a felony of the fourth degree on each subsequent offense. A violation of division (B) of this section is a misdemeanor of the first degree on a first offense and a felony of the fifth degree on each subsequent offense.

(E) Whoever violates this section is liable to the pregnant woman and her parents, guardian, or custodian for civil compensatory and exemplary damages.

(F) As used in this section "unemancipated" means that a woman who is unmarried and under eighteen years of age has not entered the armed services of the United States, has not become employed and self-subsisting, or has not otherwise become independent from the care and control of her parent, guardian, or custodian.
Chapter 4. Minors, Birth and Abortion
Part II. Abortions

2919.121 Emancipated minor; performing an unlawful abortion.

(A) For the purpose of this section, a minor shall be considered “emancipated” if the minor has married, entered the armed services of the United States, become employed and self-subsisting, or has otherwise become independent from the care and control of her parent, guardian, or custodian.

(B) No person shall knowingly perform or induce an abortion upon a pregnant minor unless one of the following is the case:

1. The attending physician has secured the informed written consent of the minor and one parent, guardian, or custodian;

2. The minor is emancipated and the attending physician has received her written informed consent;

3. The minor has been authorized to consent to the abortion by a court order issued pursuant to division (C) of this section, and the attending physician has received her informed consent;

4. The court has given its consent in accordance with division (C) of this section and the minor is having the abortion willingly.

(C) The right of a minor to consent to an abortion under division (B)(3) of this section or judicial consent to obtain an abortion under division (B)(4) of this section may be granted by a court order pursuant to the following procedures:

1. The minor or next friend shall make an application to the juvenile court of the county in which the minor has a residence or legal settlement or the juvenile court of any county that borders the county in which she has a residence or legal settlement. The juvenile court shall assist the minor or next friend in preparing the petition and notices required by this section. The minor or next friend shall thereafter file a petition setting forth all of the following: the initials of the minor; her age; the names and addresses of each parent, guardian, custodian, or, if the minor’s parents are deceased and no guardian has been appointed, any other person standing in loco parentis of the minor; that the minor has been fully informed of the risks and consequences of the abortion; that the minor is of sound mind and has sufficient intellectual capacity to consent to the abortion; that the minor has not previously filed a petition under this section concerning the same pregnancy that was denied on the merits; that, if the court does not authorize the minor to consent to the abortion, the court should find that the abortion is in the best interests of the minor and give judicial consent to the abortion; that the court should appoint a guardian ad litem; and if the minor does not have private counsel, that the court should appoint counsel. The petition shall be signed by the minor or the next friend.

2. (a) A hearing on the merits shall be held on the record as soon as possible within five days of filing the petition. If the minor has not retained counsel, the court shall appoint counsel at least twenty-four hours prior to the hearing. The court shall appoint a guardian ad litem to protect the interests of the minor at the hearing. If the guardian ad litem is an attorney admitted to the practice of law in this state, the court may appoint the guardian ad litem to serve as the minor’s counsel. At the hearing, the court shall do all of the following:

(i) Hear evidence relating to the emotional development, maturity, intellect, and understanding of the minor; the nature, possible consequences, and alternatives to the abortion; and any other evidence that the court may find useful in determining whether the minor should be granted the right to consent to the abortion or whether the abortion is in the best interests of the minor;

(ii) Specifically inquire about the minor’s understanding of the possible physical and emotional complications of abortion and how the minor would respond if the minor experienced those complications after the abortion;

(iii) Specifically inquire about the extent to which anyone has instructed the minor on how to answer questions and on what testimony to give at the hearing.
(b) If the minor or her counsel fail to appear for a scheduled hearing, jurisdiction shall remain with the judge who would have presided at the hearing.

(3) If the court finds by clear and convincing evidence that the minor is sufficiently mature and well enough informed to decide intelligently whether to have an abortion, the court shall grant the petition and permit the minor to consent to the abortion.

If the court finds by clear and convincing evidence that the abortion is in the best interests of the minor, the court shall give judicial consent to the abortion, setting forth the grounds for its finding.

If the court does not make either of the findings specified in division (C)(3) of this section, the court shall deny the petition, setting forth the grounds on which the petition is denied.

The court shall issue its order not later than twenty-four hours after the end of the hearing.

(4) No juvenile court shall have jurisdiction to rehear a petition concerning the same pregnancy once a juvenile court has granted or denied the petition.

(5) If the petition is granted, the informed consent of the minor, pursuant to a court order authorizing the minor to consent to the abortion, or judicial consent to the abortion, shall bar an action by the parents, guardian, or custodian of the minor for battery of the minor against any person performing or inducing the abortion. The immunity granted shall only extend to the performance or inducement of the abortion in accordance with this section and to any accompanying services that are performed in a competent manner.

(6) An appeal from an order issued under this section may be taken to the court of appeals by the minor. The record on appeal shall be completed and the appeal perfected within four days from the filing of the notice of appeal. Because the abortion may need to be performed in a timely manner, the supreme court shall, by rule, provide for expedited appellate review of cases appealed under this section.

(7) All proceedings under this section shall be conducted in a confidential manner and shall be given such precedence over other pending matters as will ensure that the court will reach a decision promptly and without delay.

The petition and all other papers and records that pertain to an action commenced under this section shall be kept confidential and are not public records under section 149.43 of the Revised Code.

(8) No filing fee shall be required of or court costs assessed against a person filing a petition under this section or appealing an order issued under this section.

(9) Nothing in division (C) of this section shall constitute a waiver of any testimonial privilege provided under the Revised Code or at common law.

(D) It is an affirmative defense to any civil, criminal, or professional disciplinary claim brought under this section that compliance with the requirements of this section was not possible because an immediate threat of serious risk to the life or physical health of the minor from the continuation of her pregnancy created an emergency necessitating the immediate performance or inducement of an abortion.

(E) Whoever violates division (B) of this section is guilty of unlawful abortion, a misdemeanor of the first degree. If the offender previously has been convicted of or pleaded guilty to a violation of this section, unlawful abortion is a felony of the fourth degree.

(F) Whoever violates division (B) of this section is liable to the pregnant minor and her parents, guardian, or custodian for civil, compensatory, and exemplary damages.

2919.151 Partial birth feticide definitions and protocols.

(A) As used in this section:

(1) "Dilation and evacuation procedure of abortion" does not include the dilation and
extraction procedure of abortion.

(2) "From the body of the mother" means that the portion of the fetus' body in question is beyond the mother's vaginal introitus in a vaginal delivery.

(3) "Partial birth procedure" means the medical procedure that includes all of the following elements in sequence:

(a) Intentional dilation of the cervix of a pregnant woman, usually over a sequence of days;

(b) In a breech presentation, intentional extraction of at least the lower torso to the navel, but not the entire body, of an intact fetus from the body of the mother, or in a cephalic presentation, intentional extraction of at least the complete head, but not the entire body, of an intact fetus from the body of the mother;

(c) Intentional partial evacuation of the intracranial contents of the fetus, which procedure the person performing the procedure knows will cause the death of the fetus, intentional compression of the head of the fetus, which procedure the person performing the procedure knows will cause the death of the fetus, or performance of another intentional act that the person performing the procedure knows will cause the death of the fetus;

(d) Completion of the vaginal delivery of the fetus.

(4) "Partially born" means that the portion of the body of an intact fetus described in division (A)(3)(b) of this section has been intentionally extracted from the body of the mother.

(5) "Serious risk of the substantial and irreversible impairment of a major bodily function" means any medically diagnosed condition that so complicates the pregnancy of the woman as to directly or indirectly cause the substantial and irreversible impairment of a major bodily function.

(6) "Viable" has the same meaning as in section 2901.01 of the Revised Code.

(B) When the fetus that is the subject of the procedure is viable, no person shall knowingly perform a partial birth procedure on a pregnant woman when the procedure is not necessary, in reasonable medical judgment, to preserve the life or health of the mother as a result of the mother's life or health being endangered by a serious risk of the substantial and irreversible impairment of a major bodily function.

(C) When the fetus that is the subject of the procedure is not viable, no person shall knowingly perform a partial birth procedure on a pregnant woman when the procedure is not necessary, in reasonable medical judgment, to preserve the life or health of the mother as a result of the mother's life or health being endangered by a serious risk of the substantial and irreversible impairment of a major bodily function.

(D) Whoever violates division (B) or (C) of this section is guilty of partial birth feticide, a felony of the second degree.

(E) A pregnant woman upon whom a partial birth procedure is performed in violation of division (B) or (C) of this section is not guilty of committing, attempting to commit, complicity in the commission of, or conspiracy in the commission of a violation of those divisions.

(F) This section does not prohibit the suction curettage procedure of abortion, the suction aspiration procedure of abortion, or the dilation and evacuation procedure of abortion.

(G) This section does not apply to any person who performs or attempts to perform a legal abortion if the act that causes the death of the fetus is performed prior to the fetus being partially born even though the death of the fetus occurs after it is partially born.

2919.16 Post-viability abortions; definitions.

As used in sections 2919.16 to 2919.18 of the Revised Code:

(A) “Fertilization” means the fusion of a human spermatozoon with a human ovum.

(B) “Gestational age” or “gestation” means the age of an unborn child as calculated from the first day of the last menstrual period of a pregnant woman.
(C) “Health care facility” means a hospital, clinic, ambulatory surgical treatment center, other center, medical school, office of a physician, infirmary, dispensary, medical training institution, or other institution or location in or at which medical care, treatment, or diagnosis is provided to a person.

(D) “Hospital” has the same meanings as in sections 3701.01, 3727.01, and 5122.01 of the Revised Code.

(E) “Live birth” has the same meaning as in division (A) of section 3705.01 of the Revised Code.

(F) “Medical emergency” means a condition that in the physician's good faith medical judgment, based upon the facts known to the physician at that time, so complicates the woman's pregnancy as to necessitate the immediate performance or induction of an abortion in order to prevent the death of the pregnant woman or to avoid a serious risk of the substantial and irreversible impairment of a major bodily function of the pregnant woman that delay in the performance or induction of the abortion would create.

(G) “Physician” has the same meaning as in section 2305.113 of the Revised Code.

(H) “Pregnant” means the human female reproductive condition, that commences with fertilization, of having a developing fetus.

(I) “Pregnancy” means the condition of being pregnant.

(J) “Premature infant” means a human whose live birth occurs prior to thirty-eight weeks of gestational age.

(K) “Serious risk of the substantial and irreversible impairment of a major bodily function” means any medically diagnosed condition that so complicates the pregnancy of the woman as to directly or indirectly cause the substantial and irreversible impairment of a major bodily function. A medically diagnosed condition that constitutes a “serious risk of the substantial and irreversible impairment of a major bodily function” includes pre-eclampsia, inevitable abortion, and premature rupture of the membranes, may include, but is not limited to, diabetes and multiple sclerosis, and does not include a condition related to the woman's mental health.

(L) “Unborn child” means an individual organism of the species homo sapiens from fertilization until live birth.

(M) “Viable” means the stage of development of a human fetus at which in the determination of a physician, based on the particular facts of a woman's pregnancy that are known to the physician and in light of medical technology and information reasonably available to the physician, there is a realistic possibility of the maintaining and nourishing of a life outside of the womb with or without temporary artificial life-sustaining support.

2919.17 Performing or attempting to perform an abortion after viability.

(A) No person shall purposely perform or induce or attempt to perform or induce an abortion on a pregnant woman when the unborn child is viable.

(B)(1) It is an affirmative defense to a charge under division (A) of this section that the abortion was performed or induced or attempted to be performed or induced by a physician and that the physician determined, in the physician's good faith medical judgment, based on the facts known to the physician at that time, that either of the following applied:

(a) The unborn child was not viable.

(b) The abortion was necessary to prevent the death of the pregnant woman or a serious risk of the substantial and irreversible impairment of a major bodily function of the pregnant woman.

(2) No abortion shall be considered necessary under division (B)(1)(b) of this section on the basis of a claim or diagnosis that the pregnant woman will engage in conduct that would result in the pregnant woman's death or a substantial and irreversible impairment of a major
bodily function of the pregnant woman or based on any reason related to the woman's mental health.

(C) Except when a medical emergency exists that prevents compliance with section 2919.18 of the Revised Code, the affirmative defense set forth in division (B)(1)(a) of this section does not apply unless the physician who performs or induces or attempts to perform or induce the abortion performs the viability testing required by division (A) of section 2919.18 of the Revised Code and certifies in writing, based on the results of the tests performed, that in the physician's good faith medical judgment the unborn child is not viable.

(D) Except when a medical emergency exists that prevents compliance with one or more of the following conditions, the affirmative defense set forth in division (B)(1)(b) of this section does not apply unless the physician who performs or induces or attempts to perform or induce the abortion complies with all of the following conditions:

1. The physician who performs or induces or attempts to perform or induce the abortion certifies in writing that, in the physician's good faith medical judgment, based on the facts known to the physician at that time, the abortion is necessary to prevent the death of the pregnant woman or a serious risk of the substantial and irreversible impairment of a major bodily function of the pregnant woman.

2. Another physician who is not professionally related to the physician who intends to perform or induce the abortion certifies in writing that, in that physician's good faith medical judgment, based on the facts known to that physician at that time, the abortion is necessary to prevent the death of the pregnant woman or a serious risk of the substantial and irreversible impairment of a major bodily function of the pregnant woman.

3. The physician performs or induces or attempts to perform or induce the abortion in a hospital or other health care facility that has appropriate neonatal services for premature infants.

4. The physician who performs or induces or attempts to perform or induce the abortion terminates or attempts to terminate the pregnancy in the manner that provides the best opportunity for the unborn child to survive, unless that physician determines, in the physician's good faith medical judgment, based on the facts known to the physician at that time, that the termination of the pregnancy in that manner poses a greater risk of the death of the pregnant woman or a greater risk of the substantial and irreversible impairment of a major bodily function of the pregnant woman than would other available methods of abortion.

5. The physician certifies in writing the available method or techniques considered and the reasons for choosing the method or technique employed.

6. The physician who performs or induces or attempts to perform or induce the abortion has arranged for the attendance in the same room in which the abortion is to be performed or induced or attempted to be performed or induced at least one other physician who is to take control of, provide immediate medical care for, and take all reasonable steps necessary to preserve the life and health of the unborn child immediately upon the child's complete expulsion or extraction from the pregnant woman.

(E) For purposes of this section, there is a rebuttable presumption that an unborn child of at least twenty-four weeks gestational age is viable.

(F) Whoever violates this section is guilty of terminating or attempting to terminate a human pregnancy after viability, a felony of the fourth degree.

(G) The state medical board shall revoke a physician's license to practice medicine in this state if the physician violates this section.

(H) Any physician who performs or induces an abortion or attempts to perform or induce an abortion with actual knowledge that neither of the affirmative defenses set forth in division (B)(1) of this section applies, or with a heedless indifference as to whether either affirmative defense applies, is liable in a civil action for compensatory and exemplary damages and reasonable attorney's fees to any person, or the representative of the estate of any person, who sustains injury, death, or loss to person or property as the result of the performance or
inducement or the attempted performance or inducement of the abortion. In any action under this division, the court also may award any injunctive or other equitable relief that the court considers appropriate.

(I) A pregnant woman on whom an abortion is performed or induced or attempted to be performed or induced in violation of division (A) of this section is not guilty of violating division (A) of this section or of attempting to commit, conspiring to commit, or complicity in committing a violation of division (A) of this section.

2919.171 Physician to submit report.

(A) A physician who performs or induces or attempts to perform or induce an abortion on a pregnant woman shall submit a report to the department of health in accordance with the forms, rules, and regulations adopted by the department that includes all of the information the physician is required to certify in writing or determine under sections 2919.17 and 2919.18 of the Revised Code:

(B) By September 30 of each year, the department of health shall issue a public report that provides statistics for the previous calendar year compiled from all of the reports covering that calendar year submitted to the department in accordance with this section for each of the items listed in division (A) of this section. The report shall also provide the statistics for each previous calendar year in which a report was filed with the department pursuant to this section, adjusted to reflect any additional information that a physician provides to the department in a late or corrected report. The department shall ensure that none of the information included in the report could reasonably lead to the identification of any pregnant woman upon whom an abortion is performed.

(C)(1) The physician shall submit the report described in division (A) of this section to the department of health within fifteen days after the woman is discharged. If the physician fails to submit the report more than thirty days after that fifteen-day deadline, the physician shall be subject to a late fee of five hundred dollars for each additional thirty-day period or portion of a thirty-day period the report is overdue. A physician who is required to submit to the department of health a report under division (A) of this section and who has not submitted a report or has submitted an incomplete report more than one year following the fifteen-day deadline may, in an action brought by the department of health, be directed by a court of competent jurisdiction to submit a complete report to the department of health within a period of time stated in a court order or be subject to contempt of court.

(2) If a physician fails to comply with the requirements of this section, other than filing a late report with the department of health, or fails to submit a complete report to the department of health in accordance with a court order, the physician is subject to division (B)(44) of section 4731.22 of the Revised Code.

(3) No person shall falsify any report required under this section. Whoever violates this division is guilty of abortion report falsification, a misdemeanor of the first degree.

(D) Within ninety days of October 20, 2011, the department of health shall adopt rules pursuant to section 111.15 of the Revised Code to assist in compliance with this section.

2919.18 Viability tests required; violations.

(A) Except in a medical emergency that prevents compliance with this division, no physician shall perform or induce or attempt to perform or induce an abortion on a pregnant woman after the beginning of the twentieth week of gestation unless, prior to the performance or inducement of the abortion or the attempt to perform or induce the abortion, the physician determines, in the physician's good faith medical judgment, that the unborn child is not viable, and the physician makes that determination after performing a medical examination of the
Chapter 4. Minors, Birth and Abortion
Part II. Abortions

pregnant woman and after performing or causing to be performed those tests for assessing gestational age, weight, lung maturity, or other tests that the physician, in that physician's good faith medical judgment, believes are necessary to determine whether an unborn child is viable.

(B) Except in a medical emergency that prevents compliance with this division, no physician shall perform or induce or attempt to perform or induce an abortion on a pregnant woman after the beginning of the twentieth week of gestation without first entering the determination made in division (A) of this section and the associated findings of the medical examination and tests in the medical record of the pregnant woman.

(C) Whoever violates this section is guilty of failure to perform viability testing, a misdemeanor of the fourth degree.

(D) The state medical board shall suspend a physician's license to practice medicine in this state for a period of not less than six months if the physician violates this section.

2919.20 Abortion definitions.

As used in sections 2919.20 to 2919.204 of the Revised Code:

(A) “Fertilization” means the fusion of a human spermatozoon with a human ovum.

(B) “Medical emergency” means a condition that in the physician's reasonable medical judgment, based upon the facts known to the physician at that time, so complicates the woman's pregnancy as to necessitate the immediate performance or inducement of an abortion in order to prevent the death of the pregnant woman or to avoid a serious risk of the substantial and irreversible impairment of a major bodily function of the pregnant woman that delay in the performance or inducement of the abortion would create.

(C) “Pain-capable unborn child” means an unborn child of a probable post-fertilization age of twenty weeks or more.

(D) "Physician" has the same meaning as in section 2305.113 of the Revised Code.

(E) “Post-fertilization age” means the age of the unborn child as calculated from the fusion of a human spermatozoon with a human ovum.

(F) “Probable post-fertilization age” means, in reasonable medical judgment and with reasonable probability, the age of the unborn child, as calculated from fertilization, at the time the abortion is performed or induced or attempted to be performed or induced.

(G) “Reasonable medical judgment” means a medical judgment that would be made by a reasonably prudent physician, knowledgeable about the case and the treatment possibilities with respect to the medical conditions involved.

(H) “Serious risk of the substantial and irreversible impairment of a major bodily function” means any medically diagnosed condition that so complicates the pregnancy of the woman as to directly or indirectly cause the substantial and irreversible impairment of a major bodily function. A medically diagnosed condition that constitutes a “serious risk of the substantial and irreversible impairment of a major bodily function” includes pre-eclampsia, inevitable abortion, and premature rupture of the membranes, but does not include a condition related to the woman's mental health.

(I) “Unborn child” means an individual organism of the species homo sapiens from fertilization until live birth.

2919.201 Twenty week abortion prohibition.

(A) No person shall purposely perform or induce or purposely attempt to perform or induce an abortion on a pregnant woman when the probable post-fertilization age of the unborn child is twenty weeks or greater.

(B)(1) It is an affirmative defense to a charge under division (A) of this section that the abortion was purposely performed or induced or purposely attempted to be performed or
induced by a physician and that the physician determined, in the physician's reasonable medical judgment, based on the facts known to the physician at that time, that either of the following applied:

(a) The probable post-fertilization age of the unborn child was less than twenty weeks.
(b) The abortion was necessary to prevent the death of the pregnant woman or a serious risk of the substantial and irreversible impairment of a major bodily function of the pregnant woman.

(2) No abortion shall be considered necessary under division (B)(1)(b) of this section on the basis of a claim or diagnosis that the pregnant woman will engage in conduct that would result in the pregnant woman's death or a substantial and irreversible impairment of a major bodily function of the pregnant woman or based on any reason related to the woman's mental health.

(C) Except when a medical emergency exists that prevents compliance with section 2919.203 of the Revised Code, the affirmative defense set forth in division (B)(1)(a) of this section does not apply unless the physician who purposely performs or induces or purposely attempts to perform or induce the abortion makes a determination of the probable post-fertilization age of the unborn child as required by division (A) of section 2919.203 of the Revised Code or relied upon such a determination made by another physician and certifies in writing, based on the results of the tests performed, that in the physician's reasonable medical judgment the unborn child's probable post-fertilization age is less than twenty weeks.

(D) Except when a medical emergency exists that prevents compliance with one or more of the following conditions, the affirmative defense set forth in division (B)(1)(b) of this section does not apply unless the physician who purposely performs or induces or purposely attempts to perform or induce the abortion complies with all of the following conditions:

(1) The physician who purposely performs or induces or purposely attempts to perform or induce the abortion certifies in writing that, in the physician's reasonable medical judgment, based on the facts known to the physician at that time, the abortion is necessary to prevent the death of the pregnant woman or a serious risk of the substantial and irreversible impairment of a major bodily function of the pregnant woman.

(2) A different physician not professionally related to the physician described in division (D)(1) of this section certifies in writing that, in that different physician's reasonable medical judgment, based on the facts known to that different physician at that time, the abortion is necessary to prevent the death of the pregnant woman or a serious risk of the substantial and irreversible impairment of a major bodily function of the pregnant woman.

(3) The physician purposely performs or induces or purposely attempts to perform or induce the abortion in a hospital or other health care facility that has appropriate neonatal services for premature infants.

(4) The physician who purposely performs or induces or purposely attempts to perform or induce the abortion terminates or attempts to terminate the pregnancy in the manner that provides the best opportunity for the unborn child to survive, unless that physician determines, in the physician's reasonable medical judgment, based on the facts known to the physician at that time, that the termination of the pregnancy in that manner poses a greater risk of the death of the pregnant woman or a greater risk of the substantial and irreversible impairment of a major bodily function of the pregnant woman than would other available methods of abortion.

(5) The physician certifies in writing the available method or techniques considered and the reasons for choosing the method or technique employed.

(6) The physician who purposely performs or induces or purposely attempts to perform or induce the abortion has arranged for the attendance in the same room in which the abortion is to be performed or induced or attempted to be performed or induced at least one other physician who is to take control of, provide immediate medical care for, and take all reasonable steps necessary to preserve the life and health of the unborn child immediately upon the child's
complete expulsion or extraction from the pregnant woman.

(E) Whoever purposely performs or induces or purposely attempts to perform or induce an abortion in violation of, or without complying with, the requirements of this section is guilty of terminating or attempting to terminate a human pregnancy of a pain-capable unborn child, a felony of the fourth degree.

(F) The state medical board shall revoke a physician's license to practice medicine in this state if the physician violates or fails to comply with this section.

(G) Any physician who purposely performs or induces an abortion or purposely attempts to perform or induce an abortion with actual knowledge that neither of the affirmative defenses set forth in division (B)(1) of this section applies, or with a heedless indifference as to whether either an affirmative defense applies, is liable in a civil action for compensatory and exemplary damages and reasonable attorney's fees to any person, or the representative of the estate of any person, who sustains injury, death, or loss to person or property as the result of the performance or inducement or the attempted performance or inducement of the abortion. In any action under this division, the court also may award any injunctive or other equitable relief that the court considers appropriate.

(H) A pregnant woman on whom an abortion is purposely performed or induced or purposely attempted to be performed or induced in violation of division (A) of this section is not guilty of violating division (A) of this section or of attempting to commit, conspiring to commit, or complicity in committing a violation of division (A) of this section.

2919.202 Abortion reporting by physician.

(A) A physician who performs or induces or attempts to perform or induce an abortion on a pregnant woman shall submit a report to the department of health in accordance with the forms, rules, and regulations adopted by the department that includes all of the information the physician is required to certify in writing or determine under sections 2919.201 and 2919.203 of the Revised Code.

(B) By the thirtieth day of September of each year, the department of health shall issue a public report that provides statistics for the previous calendar year compiled from all of the reports covering that calendar year submitted to the department in accordance with this section for each of the items listed in division (A) of this section. The report shall also provide the statistics for each previous calendar year in which a report was filed with the department pursuant to this section, adjusted to reflect any additional information that a physician provides to the department in a late or corrected report. The department shall ensure that none of the information included in the report could reasonably lead to the identification of any pregnant woman upon whom an abortion is performed.

(C)(1) The physician shall submit the report described in division (A) of this section to the department of health within fifteen days after the woman is discharged. If the physician fails to submit the report more than thirty days after that fifteen-day deadline, the physician shall be subject to a late fee of five hundred dollars for each additional thirty-day period or portion of a thirty-day period the report is overdue. A physician who is required to submit to the department of health a report under division (A) of this section and who has not submitted a report or has submitted an incomplete report more than one year following the last day of the fifteen-day deadline may, in an action brought by the department of health, be directed by a court of competent jurisdiction to submit a complete report to the department of health within a period of time stated in a court order or be subject to contempt of court.

(2) If a physician fails to comply with the requirements of this section, other than filing a late report with the department of health, or fails to submit a complete report to the department of health in accordance with a court order, the physician is subject to division (B)(44) of section 4731.22 of the Revised Code.
(3) No person shall purposely falsify any report required under this section. Whoever purposely violates this division is guilty of pain-capable unborn child abortion report falsification, a misdemeanor of the first degree.

(D) Within ninety days of the effective date of this section, the department of health shall adopt rules pursuant to section 111.15 of the Revised Code to assist in compliance with this section.

2919.203 Twenty week abortion prohibition; medical emergency; misdemeanor.

(A) Except in a medical emergency that prevents compliance with this division, no physician shall purposely perform or induce or purposely attempt to perform or induce an abortion on a pregnant woman after the unborn child reaches the probable post-fertilization age of twenty weeks unless, prior to the performance or inducement of the abortion or the attempt to perform or induce the abortion, the physician determines, in the physician's reasonable medical judgment, the unborn child's probable post-fertilization age. The physician shall make that determination after making inquiries of the pregnant woman and performing any medical examinations or tests of the pregnant woman the physician considers necessary as a reasonably prudent physician, knowledgeable about the case and medical conditions involved, would consider necessary to determine the unborn child's probable post-fertilization age.

(B) Except in a medical emergency that prevents compliance with this division, no physician shall purposely perform or induce or purposely attempt to perform or induce an abortion on a pregnant woman after the unborn child reaches the probable post-fertilization age of twenty weeks without first entering the determination made in division (A) of this section and the associated findings of the medical examination and tests in the medical record of the pregnant woman.

(C) Whoever violates division (A) of this section is guilty of failure to perform probable post-fertilization age testing, a misdemeanor of the fourth degree.

(D) The state medical board shall suspend a physician's license to practice medicine in this state for a period of not less than six months if the physician violates this section.

3701.341 Rules to be implemented by director.

(A) The director of health, pursuant to Chapter 119 and consistent with section 2317.56 of the Revised Code, shall adopt rules relating to abortions and the following subjects:

(1) Post-abortion procedures to protect the health of the pregnant woman;
(2) Pathological reports;
(3) Humane disposition of the product of human conception;
(4) Counseling.

(B) The director of health shall implement the rules and shall apply to the court of common pleas for temporary or permanent injunctions restraining a violation or threatened violation of the rules. This action is an additional remedy not dependent on the adequacy of the remedy at law.

3701.79 Abortion data collecting; reporting; postabortion complications.

(A) As used in this section:

(1) "Abortion" has the same meaning as in section 2919.11 of the Revised Code.
(2) "Abortion report" means a form completed pursuant to division (C) of this section.
(3) "Ambulatory surgical facility" has the same meaning as in section 3702.30 of the Revised Code.
(4) "Department" means the department of health.
Chapter 4. Minors, Birth and Abortion
Part II. Abortions

439
Abortions

(5) "Hospital" means any building, structure, institution, or place devoted primarily to the maintenance and operation of facilities for the diagnosis, treatment, and medical or surgical care for three or more unrelated individuals suffering from illness, disease, injury, or deformity, and regularly making available at least clinical laboratory services, diagnostic x-ray services, treatment facilities for surgery or obstetrical care, or other definitive medical treatment. "Hospital" does not include a "home" as defined in section 3721.01 of the Revised Code.

(6) "Physician's office" means an office or portion of an office that is used to provide medical or surgical services to the physician's patients. "Physician's office" does not mean an ambulatory surgical facility, a hospital, or a hospital emergency department.

(7) "Postabortion care" means care given after the uterus has been evacuated by abortion.

B) The department shall be responsible for collecting and collating abortion data reported to the department as required by this section.

C) The attending physician shall complete an individual abortion report for each abortion the physician performs upon a woman. The report shall be confidential and shall not contain the woman's name. The report shall include, but is not limited to, all of the following, insofar as the patient makes the data available that is not within the physician's knowledge:

1) Patient number;
2) The name and address of the facility in which the abortion was performed, and whether the facility is a hospital, ambulatory surgical facility, physician's office, or other facility;
3) The date of the abortion;
4) All of the following regarding the woman on whom the abortion was performed:
   a) Zip code of residence;
   b) Age;
   c) Race;
   d) Marital status;
   e) Number of previous pregnancies;
   f) Years of education;
   g) Number of living children;
   h) Number of previously induced abortions;
   i) Date of last induced abortion;
   j) Date of last live birth;
   k) Method of contraception at the time of conception;
   l) Date of the first day of the last menstrual period;
   m) Medical condition at the time of the abortion;
   n) Rh-type;
   o) The number of weeks of gestation at the time of the abortion.
   5) The type of abortion procedure performed;
   6) Complications by type;
   7) Type of procedure performed after the abortion;
   8) Type of family planning recommended;
   9) Type of additional counseling given;
   10) Signature of attending physician.

D) The physician who completed the abortion report under division (C) of this section shall submit the abortion report to the department within fifteen days after the woman is discharged.

E) The appropriate vital records report or certificate shall be made out after the twentieth week of gestation.

F) A copy of the abortion report shall be made part of the medical record of the patient of the facility in which the abortion was performed.

G) Each hospital shall file monthly and annual reports listing the total number of women
 Abortions - General Provisions

who have undergone a post-twelve-week-gestation abortion and received postabortion care. The annual report shall be filed following the conclusion of the state’s fiscal year. Each report shall be filed within thirty days after the end of the applicable reporting period.

(H) Each case in which a physician treats a post abortion complication shall be reported on a postabortion complication form. The report shall be made upon a form prescribed by the department, shall be signed by the attending physician, and shall be confidential.

(I)(1) Not later than the first day of October of each year, the department shall issue an annual report of the abortion data reported to the department for the previous calendar year as required by this section. The annual report shall include at least the following information:

(a) The total number of induced abortions;
(b) The number of abortions performed on Ohio and out-of-state residents;
(c) The number of abortions performed, sorted by each of the following:
   (i) The age of the woman on whom the abortion was performed, using the following categories: under fifteen years of age, fifteen to nineteen years of age, twenty to twenty-four years of age, twenty-five to twenty-nine years of age, thirty to thirty-four years of age, thirty-five to thirty-nine years of age, forty to forty-four years of age, forty-five years of age or older;
   (ii) The race and Hispanic ethnicity of the woman on whom the abortion was performed;
   (iii) The education level of the woman on whom the abortion was performed, using the following categories or their equivalents: less than ninth grade, ninth through twelfth grade, one or more years of college;
   (iv) The marital status of the woman on whom the abortion was performed;
   (v) The number of living children of the woman on whom the abortion was performed, using the following categories: none, one, or two or more;
   (vi) The number of weeks of gestation of the woman at the time the abortion was performed, using the following categories: less than nine weeks, nine to twelve weeks, thirteen to nineteen weeks, or twenty weeks or more;
   (vii) The county in which the abortion was performed;
   (viii) The type of abortion procedure performed;
   (ix) The number of abortions previously performed on the woman on whom the abortion was performed;
   (x) The type of facility in which the abortion was performed;
   (xi) For Ohio residents, the county of residence of the woman on whom the abortion was performed.

(2) The report also shall indicate the number and type of the abortion complications reported to the department either on the abortion report required under division (C) of this section or the postabortion complication report required under division (H) of this section.

(3) In addition to the annual report required under division (I)(1) of this section, the department shall make available, on request, the number of abortions performed by zip code of residence.

(J) The director of health shall implement this section and shall apply to the court of common pleas for temporary or permanent injunctions restraining a violation or threatened violation of its requirements. This action is an additional remedy not dependent on the adequacy of the remedy at law.

3701.791 Facilities performing abortions must post signage.

(A) As used in this section, “medical emergency” means a condition of a pregnant woman that, in the reasonable judgment of the physician who is attending the woman, creates an immediate threat of serious risk to the life or physical health of the woman from the continuation of the pregnancy necessitating the immediate performance or inducement of an abortion.
Chapter 4. Minors, Birth and Abortion
Part II. Abortions

(B) Except as provided in division (D) of this section, an office or facility at which abortions are performed or induced shall post the notice described in division (C) of this section in a conspicuous location in an area of the office or facility that is accessible to all patients, employees, and visitors.

The notice shall be displayed on a poster with dimensions of at least seventeen inches by eleven inches. The first two sentences of the notice shall be printed in at least a forty-four-point typeface and the remaining lines shall be in at least a thirty-point typeface.

(C) The department of health shall publish the following notice on its internet web site in a manner that can be copied and produced in poster form:

“NO ONE CAN FORCE YOU TO HAVE AN ABORTION.

NO ONE--NOT A PARENT, NOT A HUSBAND, NOT A BOYFRIEND--NO ONE.

Under Ohio law, an abortion cannot be legally performed on anyone, regardless of her age, unless she VOLUNTARILY CONSENTS to having the abortion.

Ohio law requires that, before an abortion can legally be performed, the pregnant female must sign a form indicating that she consents to having the abortion “voluntarily” and “WITHOUT COERCION BY ANY PERSON.”

IF SOMEONE IS TRYING TO FORCE YOU TO HAVE AN ABORTION AGAINST YOUR WILL:

DO NOT SIGN THE CONSENT FORM

IF YOU ARE AT AN ABORTION FACILITY, TELL AN EMPLOYEE OF THE FACILITY THAT SOMEONE IS TRYING TO FORCE YOU TO HAVE AN ABORTION.”

(D) Division (B) of this section does not apply to an office or facility at which abortions are performed or induced due only to a medical emergency.

4731.91 Abortion; liability.

(A) No private hospital, private hospital director, or governing board of a private hospital is required to permit an abortion.

(B) No public hospital, public hospital director, or governing board of a public hospital is required to permit an abortion.

(C) Refusal to permit an abortion is not grounds for civil liability nor a basis for disciplinary or other recriminatory action.

(D) No person is required to perform or participate in medical procedures which result in abortion, and refusal to perform or participate in the medical procedures is not grounds for civil liability nor a basis for disciplinary or other recriminatory action.

(E) Whoever violates division (D) of this section is liable in civil damages.

4731.941 Physician protocol for others to furnish naloxone; immunity.

(A)(1) A physician who has established a protocol that meets the requirements of division (C) of this section may authorize one or more other individuals to personally furnish a supply of naloxone pursuant to the protocol to either of the following:

(a) An individual who there is reason to believe is experiencing or at risk of experiencing an opioid-related overdose;
(b) A family member, friend, or other person in a position to assist an individual who there is reason to believe is at risk of experiencing an opioid-related overdose.

(2) An individual authorized under this section to personally furnish naloxone may do so without having examined the individual to whom it may be administered.

(B) An individual authorized by a physician under this section may personally furnish naloxone to an individual described in division (A)(1)(a) or (b) of this section if both of the following conditions are met:

(1) The authorized individual complies with the protocol established by the authorizing physician, including having completed the training required by the protocol.

(2) The authorized individual instructs the individual to whom naloxone is furnished to summon emergency services as soon as practicable either before or after administering naloxone.

(C) A protocol established by a physician for purposes of this section shall be established in writing and include all of the following:

(1) A description of the clinical pharmacology of naloxone;

(2) Precautions and contraindications concerning furnishing naloxone;

(3) Any limitations the physician specifies concerning the individuals to whom naloxone may be furnished;

(4) The naloxone dosage that may be furnished and any variation in the dosage based on circumstances specified in the protocol;

(5) Labeling, storage, record-keeping, and administrative requirements;

(6) Training requirements that must be met before an individual will be authorized to furnish naloxone;

(7) Any instructions or training that the authorized individual must provide to an individual to whom naloxone is furnished.

(D) A physician who in good faith authorizes another individual to personally furnish naloxone in accordance with a protocol established by the physician under this section is not liable for or subject to any of the following for any action or omission of the individual to whom the naloxone is furnished: damages in any civil action, prosecution in any criminal proceeding, or professional disciplinary action.

An individual authorized under this section to personally furnish naloxone who does so in good faith is not liable for or subject to any of the following for any action or omission of the individual to whom the naloxone is furnished: damages in any civil action, prosecution in any criminal proceeding, or professional disciplinary action.

4731.942 Physician naloxone protocol authorization.

A physician may authorize one or more pharmacists and any of the pharmacy interns supervised by the pharmacist or pharmacists to use the protocol developed pursuant to rules adopted under section 4729.44 of the Revised Code for the purpose of dispensing naloxone under section 4729.44 of the Revised Code.

4731.943 Administration of naloxone.

(A) As used in this section, “service entity” has the same meaning as in section 4729.514 of the Revised Code.

(B) A physician who has established a protocol under division (D) of this section may authorize an individual who is an employee, volunteer, or contractor of a service entity to administer naloxone to an individual who is apparently experiencing an opioid-related overdose.

(C) An individual authorized by a physician under this section may administer naloxone to an individual who is apparently experiencing an opioid-related overdose if all of the following
Chapter 4. Minors, Birth and Abortion
Part II. Abortions

conditions are met:
(1) The naloxone is obtained from a service entity of which the authorized individual is an employee, volunteer, or contractor.
(2) The authorized individual complies with the protocol established by the authorizing physician.
(3) The authorized individual summons emergency services as soon as practicable either before or after administering the naloxone.
(D) A protocol established by a physician for purposes of this section must be in writing and include all of the following:
   (1) A description of the clinical pharmacology of naloxone;
   (2) Precautions and contraindications concerning the administration of naloxone;
   (3) Any limitations the physician specifies concerning the individuals to whom naloxone may be administered;
   (4) The naloxone dosage that may be administered and any variation in the dosage based on circumstances specified in the protocol;
   (5) Labeling, storage, record-keeping, and administrative requirements;
   (6) Training requirements that must be met before an individual can be authorized to administer naloxone.
(E) A physician who in good faith authorizes an individual to administer naloxone under this section is not liable for or subject to any of the following for any act or omission of the authorized individual: damages in any civil action, prosecution in any criminal proceeding, or professional disciplinary action.
A service entity or an employee, volunteer, or contractor of a service entity is not liable for or subject to any of the following for injury, death, or loss to person or property that allegedly arises from an act or omission associated with procuring, maintaining, accessing, or administering naloxone under this section, unless the act or omission constitutes willful or wanton misconduct: damages in any civil action, prosecution in any criminal proceeding, or professional disciplinary action.
This section does not eliminate, limit, or reduce any other immunity or defense that a service entity or an employee, volunteer, or contractor of a service entity may be entitled to under Chapter 2305 or any other provision of the Revised Code or under the common law of this state.

4731.96 Physician may prescribe epinephrine.

(A) As used in this section, “physician” means an individual authorized under this chapter to practice medicine and surgery, osteopathic medicine and surgery, or podiatric medicine and surgery.
(B)(1) Subject to division (B)(2) of this section, and notwithstanding any provision of this chapter or rule adopted by the state medical board, a physician may do either of the following without having examined an individual to whom epinephrine may be administered:
   (a) Personally furnish a supply of epinephrine autoinjectors for use in accordance with sections 3313.7110, 3313.7111, 3314.143, 3326.28, 3328.29, 3728.03 to 3728.05, and 5101.76 of the Revised Code;
   (b) Issue a prescription for epinephrine autoinjectors for use in accordance with sections 3313.7110, 3313.7111, 3314.143, 3326.28, 3328.29, 3728.03 to 3728.05, and 5101.76 of the Revised Code.
(2) An epinephrine autoinjector personally furnished or prescribed under division (B)(1) of this section must be furnished or prescribed in such a manner that it may be administered only in a manufactured dosage form.
(C) A physician who acts in good faith in accordance with this section is not liable for or
subject to any of the following for any action or omission of an entity to which an epinephrine autoinjector is furnished or a prescription is issued: damages in any civil action, prosecution in any criminal proceeding, or professional disciplinary action.

5101.57 Prohibition against nontherapeutic abortion at any public hospital.

(A) As used in this section:
   (1) "Nontherapeutic abortion" has the same meaning as in section 124.85 of the Revised Code.
   (2) "Political subdivision" means any body corporate and politic that is responsible for governmental activities in a geographic area smaller than the state, except that "political subdivision" does not include either of the following:
      (a) A municipal corporation;
      (b) A county that has adopted a charter under Section 3 of Article X, Ohio Constitution, to the extent that it is exercising the powers of local self-government as provided in that charter and is subject to Section 3 of Article XVIII, Ohio Constitution.
   (3) "Public facility" means any institution, structure, equipment, or physical asset that is owned, leased, or controlled by this state or any agency, institution, instrumentality, or political subdivision thereof. "Public facility" includes any state university, state medical college, health district, joint hospital, or public hospital agency.

(B) No public facility shall be used for the purpose of performing or inducing a nontherapeutic abortion.

3701-47-01 Abortion; definitions.

As used in rules 3701-47-01 to 3701-47-07 of the Ohio Sanitary Code;

(A) "Abortion" means, as defined by section 2919.11 of the Revised Code, the purposeful termination of a human pregnancy by any person, including the pregnant woman herself, with an intention other than to produce a live birth or to remove a dead fetus or embryo. Abortion is the practice of medicine or surgery for the purpose of section 4731.41 of the Revised Code.

(B) "Conceptus" means the product of human conception.

(C) "Department" means the department of health of the state of Ohio.

(D) "Director" means the director of health of the state of Ohio.

(E) "Fetus" means the developing conceptus from fourteen (14) weeks after the first day of the woman's last menstrual period until birth.

(F) "Gestation" means pregnancy.

(G) "Hospital" means any building, structure, institution, or place devoted primarily to the maintenance and operation of facilities for the diagnosis, treatment, and medical or surgical care for three or more non-related individuals, suffering from illness, disease, injury or deformity, and regularly making available at least clinical laboratory services, and diagnostic X-ray services and treatment facilities for surgery or obstetrical care, or other definitive medical treatment. It does not include a "home" as defined in sec. 3721.01 of the Revised Code.

(H) "Pathologist" means a physician licensed to practice in Ohio with special training in the pathology of tissues.

(I) "Post-abortion care" means care given after the uterus has been evacuated by abortion.

3701-47-02 Post-abortion procedures.

In all abortions upon a woman whose conceptus, in the best judgment of the attending
Chapter 4. Minors, Birth and Abortion
Part II. Abortions

Abortion - General Provisions

A fetus as defined in rule 3701-47-01, the physician shall effect compliance with the following:

(A) Immediate post-abortion care shall be provided in a hospital.
(B) Written and oral discharge instructions shall be issued to each woman which shall include, but not be limited to, the following:
   (1) Symptoms of complications to be looked for and recommended response to any such symptoms;
   (2) Activities to be avoided;
   (3) Notification of a 24-hour emergency service;
   (4) Comprehensive birth control information;
   (5) The date for follow-up or return visit after the performance of the abortion, which shall be scheduled as indicated by the condition of the patient and instructions on the importance of a follow-up visit;
   (6) Use of appropriate medications, when indicated;
   (7) Instructions about the care of her body.
(C) Information regarding Rh typing of the patient's blood shall be a part of the patient's medical record. Anti-Rh immune globulin therapy shall be given to all Rh negative patients upon completion of the abortion procedure when medically indicated, except when refused by the patient. If for any reason a patient refuses this therapy, the refusal shall be documented in the clinical record.

3701-47-03 Physician abortion reports.

(A) In addition to the data reported pursuant to division (C) of 3701.79 of the Revised Code, a physician who performs or induces or attempts to perform or induce an abortion on a woman after the beginning of the twentieth week of gestation shall submit a report on a form prescribed by the department of health with the following information:
   (1) Whether the attending physician performed a medical examination of the pregnant woman to determine the gestational age of the unborn child and the viability of the unborn child within forty eight hours before the performance or inducement of the abortion or the attempt to perform or induce the abortion;
   (2) Whether or not, in the attending physician's good faith judgment, the unborn child was viable;
   (3) The type of testing performed to determine gestational age and viability;
   (4) Whether or not a medical emergency existed; and
   (5) For abortions performed for which the physician has indicated under paragraph (A)(2) of this rule that the unborn child is viable;
      (a) Whether, in the attending physician's good faith judgment and based on the facts known to the physician at the time, the abortion was necessary to prevent the death of the pregnant woman or a serious risk of the substantial and irreversible impairment of a major bodily function of the pregnant woman and if a serious risk of the substantial and irreversible impairment of a major bodily function of the pregnant woman exists, the physician must document the specific nature of such risk;
      (b) If the attending physician determined that the abortion was necessary to prevent the death of the pregnant woman or a serious risk of the substantial and irreversible impairment of a major bodily function of the pregnant woman, the name of the physician not professionally related to the attending physician who certified in writing that the abortion was necessary to prevent the death of the pregnant woman or a serious risk of the substantial and irreversible impairment of a major bodily function of the pregnant woman;
      (c) If the attending physician determined that the abortion was necessary to prevent the death of the pregnant woman or a serious risk of the substantial and irreversible impairment of a
major bodily function of the pregnant woman, the method or techniques considered and the reasons for choosing the method or technique employed when performing, inducing or attempting to induce an abortion; and

(d) Whether the abortion was based on a claim or diagnosis that the pregnant woman will engage in conduct that would result in the pregnant woman's death or a substantial and irreversible impairment of a major bodily function of the pregnant woman or on any reason related to the women's mental health.

(B) A physician shall submit the report described in paragraph (A) of this rule to the department of health within fifteen days after the woman is discharged.

(C) A physician who fails to submit the report described in paragraph (A) of this rule more than thirty days after the fifteen-day deadline, shall be subject to a late fee of five hundred dollars for each additional thirty-day period or portion of a thirty-day period the report is overdue.

(D) A physician who is required to submit to the department of health a report under paragraph (A) of this rule and who has not submitted a report or has submitted an incomplete report more than one year following the fifteen-day deadline may, in an action brought by the department of health, be directed by a court of competent jurisdiction to submit a complete report to the department of health within a period of time stated in a court order or be subject to contempt of court.

(E) A physician who fails to comply with the requirements of this rule, other than filing a late report with the department of health, or fails to submit a complete report to the department of health in accordance with a court order is subject to division (B)(41) of section 4731.22 of the Revised Code.

(F) For purposes of this rule, “viable” means the stage of development of a human fetus at which in the determination of a physician, based on the particular facts of a woman's pregnancy that are known to the physician and in light of medical technology and information reasonably available to the physician, there is a realistic possibility of the maintaining and nourishing of a life outside of the womb with or without temporary artificial life-sustaining support.

(G) A physician who, between October 20, 2011 and the effective date of this rule, has performed or induced or attempted to perform or induce an abortion on a woman after the beginning of the twentieth week of gestation shall submit a report to the department of health that includes all of the information the physician is required to certify in writing or determine under sections 2919.17 and 2919.18 of the Revised Code not later than March 1, 2012. A physician may use the forms prescribed by the department of health to submit such reports.

(H) The department of health may require all reports required by section 2919.171 of the Revised Code and this rule to be filed electronically. Until such time as the department of health approves an electronic reporting form, reports shall be submitted on paper forms approved by the department of health.

3701-47-04 Pathological examination.

In the event a physician finds cause to have a pathological examination performed, then he shall order and obtain the same.

3701-47-05 Humane disposition of the product of conception.

(A) The fetus shall be disposed of in a humane manner.

(B) No person shall experiment upon or sell the product of human conception which is aborted. Experiment does not include autopsies pursuant to sections 313.13 and 2108.50 of the Revised Code.
Chapter 4. Minors, Birth and Abortion
Part III. Birth

3701-47-06 Counseling must be provided.

(A) The fact of the availability of both pre-abortion and post-abortion counseling for herself and other persons of her choosing shall be made known by the physician, to each woman who is seeking the abortion of a fetus.

(B) Counseling shall be non-judgmental, regardless of the circumstances of the pregnancy, but shall not be forced upon the woman.

(C) The woman shall be treated in a safe, humane and dignified manner during the counseling period and throughout her stay at the place where the abortion is performed.

Part III. Birth

Umbilical Cord Blood, Paternity and Tests for Pregnant Women

2108.62 Umbilical cords blood donations.

(A) The department of health, on its internet web site, shall make available to health care professionals printable publications that can be downloaded containing standardized, objective information about umbilical cord blood banking that is sufficient to allow a pregnant woman to make an informed decision about whether to participate in an umbilical cord blood banking program. The publications shall include all of the following information:

(1) The medical processes involved in the collection of umbilical cord blood;

(2) The medical risks of umbilical cord blood collection to the mother and the newborn child;

(3) The options available to a mother regarding stem cells contained in the umbilical cord blood after delivery of the mother's newborn child, including:

(a) Having the stem cells discarded;

(b) Donating the stem cells to a public umbilical cord blood bank;

(c) Having the stem cells stored in a private umbilical cord blood bank for use by immediate and extended family members;

(d) Storing the stem cells for use by the family through a family or sibling donor banking program that provides free collection, processing, and storage of the stem cells where there is a medical need.

(4) The current and potential future medical uses, risks, and benefits of umbilical cord blood collection to the mother, newborn child, and biological family;

(5) The current and potential future medical uses, risks, and benefits of umbilical cord blood collection to individuals who are not biologically related to the mother or newborn child;

(6) Any costs that may be incurred by a pregnant woman who chooses to make an umbilical cord blood donation;

(7) The average cost of public and private umbilical cord blood banking.

(B) The department may update the publications prepared pursuant to this section as it considers necessary.

2108.63 Qualified immunity related to umbilical cord blood donations.

A health care professional or health care institution is not liable for damages in a civil action, subject to prosecution in a criminal proceeding, or subject to disciplinary action by the state medical board or board of nursing for acting in good faith pursuant to section 2108.61 of the Revised Code.
3111.30 Acknowledgment of paternity update.

Once an acknowledgment of paternity becomes final, the office of child support shall notify the department of health of the acknowledgment. If the original birth record is inconsistent with the acknowledgment, on receipt of the notice, the department of health shall, in accordance with section 3705.09 of the Revised Code, prepare a new birth record consistent with the acknowledgment and substitute the new record for the original birth record.

3111.31 Paternity affidavit acknowledgegment.

The department of job and family services shall prepare an acknowledgment of paternity affidavit that includes in boldface type at the top of the affidavit the rights and responsibilities of and the due process safeguards afforded to a person who acknowledges that he is the natural father of a child, including that if an alleged father acknowledges a parent and child relationship he assumes the parental duty of support, that both signators waive any right to bring an action pursuant to sections 3111.01 to 3111.18 of the Revised Code or make a request pursuant to section 3111.38 of the Revised Code, other than for purposes of rescinding the acknowledgment pursuant to section 3111.27 of the Revised Code in order to ensure expediency in resolving the question of the existence of a parent and child relationship, that either parent may rescind the acknowledgment pursuant to section 3111.27 of the Revised Code, that an action may be brought pursuant to section 3111.28 of the Revised Code, or a motion may be filed pursuant to section 3119.961 of the Revised Code, to rescind the acknowledgment, and that the natural father has the right to petition a court pursuant to section 2151.23 of the Revised Code. The affidavit shall include all of the following:

(A) Basic instructions for completing the form, including instructions that both the natural father and the mother of the child are required to sign the statement, that they may sign the statement without being in each other's presence, and that the signatures must be notarized;

(B) Blank spaces to enter the full name, social security number, date of birth and address of each parent;

(C) Blank spaces to enter the full name, date of birth, and the residence of the child;

(D) A blank space to enter the name of the hospital or department of health code number assigned to the hospital, for use in situations in which the hospital fills out the form pursuant to section 3727.17 of the Revised Code;

(E) An affirmation by the mother that the information she supplied is true to the best of her knowledge and belief and that she is the natural mother of the child named on the form and assumes the parental duty of support of the child;

(F) An affirmation by the father that the information he supplied is true to the best of his knowledge and belief, that he has received information regarding his legal rights and responsibilities, that he consents to the jurisdiction of the courts of this state, and that he is the natural father of the child named on the form and assumes the parental duty of support of the child;

(G) Signature lines for the mother of the child and the natural father;

(H) Signature lines for the notary public;

(I) An instruction to include or attach any other evidence necessary to complete the new birth record that is required by the department by rule.

3111.32 Pamphlets and toll-free number.

The department of job and family services shall prepare pamphlets that discuss the
benefit of establishing a parent and child relationship, the proper procedure for establishing a parent and child relationship between a father and his child, and a toll-free telephone number that interested persons may call for more information regarding the procedures for establishing a parent and child relationship.

3111.33 Pamphlets and acknowledgment of paternity affidavits.

The department of job and family services shall make available the pamphlets and the acknowledgment of paternity affidavits and statements to the department of health, to each hospital it has a contract with pursuant to section 3727.17 of the Revised Code, and to any individual who requests a pamphlet. The department of job and family services shall make available the affidavit acknowledging paternity to each county child support enforcement agency, the department of health, and any other person or agency that requests copies.

3111.34 Rules for new birth record to be adopted.

The director of job and family services, in consultation with the department of health, shall adopt rules specifying additional evidence necessary to complete a new birth record that is required to be included with an acknowledgment of paternity affidavit.

3111.35 Provision implementation; rules shall be adopted.

The director of job and family services shall adopt rules pursuant to Chapter 119 of the Revised Code to implement sections 3111.20 to 3111.34 of the Revised Code that are consistent with Title IV-D of the “Social Security Act,” 88 Stat. 2351, 42 U.S.C. 651 et seq., as amended.

3701.46 Tests for pregnant women.

In reporting every birth and fetal death, physicians, certified nurse-midwives, and others required to make the reports shall state on the birth or fetal death certificate, as the case may be, whether approved tests for syphilis and gonorrhea have been made in an approved laboratory upon specimens taken from the woman who bore the child for which the certificate is filed, and the approximate date when the specimens were taken. If the tests were not made, the physician, certified nurse-midwife, or other person shall state the reasons why the tests were not made. In no event shall the results of the tests be stated on the birth or fetal death certificate.

3701.48 Syphilis and gonorrhea tests in cases of birth or fetal deaths.

The approved laboratory making the standard tests for syphilis and gonorrhea shall make a report to the physician or health commissioner submitting the specimens. Such laboratory shall forthwith report any reactive syphilis test or positive gonorrhea test to the department of health on forms prescribed and furnished by the director of health.

3701.49 When health commissioner shall test for syphilis and gonorrhea.

If any pregnant woman is attended during the period of gestation by any person authorized to attend pregnant women, other than a licensed physician, but who is not permitted to take test specimens, then such authorized person shall notify immediately the health commissioner of the city or general health district of the residence of such pregnant woman.
Chapter 4. Minors, Birth and Abortion
Part III. Birth

3701.50 Tests for pregnant women; duty of physician; waiver.

Every physician who attends any pregnant woman for conditions relating to pregnancy during the period of gestation shall take specimens of such woman at the time of first examination or within ten days thereof, and shall submit such specimens to an approved laboratory for standard syphilis and gonorrhea tests. If, in the opinion of the physician attending such woman, her condition does not permit the taking of specimens for submission to an approved laboratory, then no specimens shall be taken prior to delivery. If no specimens are taken prior to delivery because of the woman's condition, then such specimens shall be taken as soon after delivery as the physician deems it advisable.

The health commissioner of the city or general health district, wherein any person required to be tested for syphilis and gonorrhea under this section or section 3701.49 of the Revised Code resides, may waive the requirements of such sections if the commissioner is satisfied by written affidavit or other written proof that the tests required are contrary to the tenets or practices of the religious creed of which the person is an adherent, and that the public health and welfare would not be injuriously affected by such waiver.

3727.17 Birth; unmarried mothers; requirement to meet with parents.

Each hospital shall provide a staff person to do all of the following:
(A) Meet with each unmarried mother who gave birth in or en route to the hospital within twenty-four hours after the birth or before the mother is released from the hospital;
(B) Attempt to meet with the father of the unmarried mother's child if possible;
(C) Explain to the unmarried mother and the father, if the father is present, the benefit to the child of establishing a parent and child relationship between the father and the child and the various proper procedures for establishing a parent and child relationship;
(D) Present to the unmarried mother and, if possible, the father, the pamphlet or statement regarding the rights and responsibilities of a natural parent prepared by the department of job and family services pursuant to section 3111.32 of the Revised Code;
(E) Provide the unmarried mother, and if possible the father, all forms and statements necessary to voluntarily establish a parent and child relationship, including the acknowledgment of paternity form prepared by the department of job and family services pursuant to section 3111.31 of the Revised Code;
(F) Upon both the mother's and father's request, help the mother and father complete any specific form or statement necessary to establish a parent and child relationship;
(G) Present to an unmarried mother who is not a recipient of medicaid or a participant in Ohio works first an application for Title IV-D services;
(H) Mail the voluntary acknowledgment of paternity, no later than ten days after it is completed, to the office of child support in the department of job and family services.

Each hospital shall provide a notary public to notarize an acknowledgment of paternity signed by the mother and father. If a hospital knows or determines that a man is presumed under section 3111.03 of the Revised Code to be the father of the child described in this section and that the presumed father is not the man who signed or is attempting to sign an acknowledgment with respect to the child, the hospital shall take no further action with regard to the acknowledgment and shall not mail the acknowledgment pursuant to this section.

A hospital may contract with a person or government entity to fulfill its responsibilities under this section and sections 3111.71 to 3111.74 of the Revised Code. Services provided by
Chapter 4. Minors, Birth and Abortion
Part III. Birth

a hospital under this section or pursuant to a contract under sections 3111.71 and 3111.77 of the Revised Code do not constitute the practice of law. A hospital shall not be subject to criminal or civil liability for any damage or injury alleged to result from services provided pursuant to this section or sections 3111.71 to 3111.74 of the Revised Code unless the hospital acted with malicious purpose, in bad faith, or in a wanton or reckless manner.

5101:12-40-05 Determination of existence/non-existence of father-child relationship.

(A) The following terms and definitions apply throughout division 5101:12 of the Administrative Code:

(1) “Alleged father” means a man who is believed to be or believes himself to be the natural father of a child but a final and enforceable determination of paternity regarding that man and child does not exist.

(2) “Birth record” has the same meaning as in section 3705.01 of the Revised Code.

(3) “Central paternity registry” (CPR) is the birth registry maintained by the office of child support (OCS) in the Ohio department of job and family services (ODJFS) in accordance with section 3111.64 of the Revised Code.

(4) “Determine the existence or non-existence of a father and child relationship” refers to the administrative or judicial process that will determine whether or not a man is the natural father of a child when there is not a final and enforceable determination of paternity.

(5) “Disestablish paternity” means to attempt to overturn or reverse a final and enforceable determination of paternity.

(6) A “final and enforceable determination of paternity” exists when:

(a) In accordance with section 3111.25 of the Revised Code, the mother and father signed a JFS 07038, “Acknowledgment of Paternity Affidavit” (effective or revised effective date as identified in rule 5101:12-1-99 of the Administrative Code) which has been entered into the birth registry, and neither the mother nor the father brought an action under section 3111.27 of the Revised Code within sixty days of the signing to request the JFS 07038 be rescinded;

(b) In accordance with section 3111.49 of the Revised Code, a child support enforcement agency (CSEA) issued a JFS 07774, “CSEA Administrative Order Establishment of Paternity” (effective or revised effective date as identified in rule 5101:12-40-99 of the Administrative Code), or JFS 07771, “CSEA Administrative Order Non-existence of Father and Child Relationship” (effective or revised effective date as identified in rule 5101:12-40-99 of the Administrative Code), and neither the mother, alleged father, nor guardian or legal custodian of the child brought an action under sections 3111.01 to 3111.18 of the Revised Code within thirty days of the issuance of the administrative order to object to the administrative order;

(c) A court issued an order determining that the man is the father of the child, or that the child was born as a product of the marriage, and neither party to the order objected to the order;

(d) In accordance with section 3111.821 of the Revised Code, an administrative child support order was issued or, in accordance with section 2151.232 of the Revised Code, a court support order was issued and neither party to the order raised the issue of the existence or non-existence of a father and child relationship although paternity was presumed pursuant to division (A)(3) of section 3111.03 of the Revised Code and as described in rule 5101:12-40-10 of the Administrative Code;

(e) In accordance with section 3111.95 of the Revised Code, the husband of a married woman consented to artificial insemination; or

(f) Another state or country has established a final and enforceable determination of paternity under the laws of that state or country, regardless of whether the determination of paternity was made pursuant to a voluntary acknowledgment of paternity, an administrative proceeding, or a court proceeding. The CSEA shall give full faith and credit to a final and enforceable determination of paternity made by another state or country.
(7) “Genetic testing” and “genetic tests” mean: tissue or blood tests, including tests that identify the presence or absence of common blood group antigens, the red blood cell antigens, human lymphocyte antigens, serum enzymes, serum proteins, or genetic markers; or deoxyribonucleic acid typing of blood or buccal cell samples. “Genetic test” and “genetic testing” may include the typing and comparison of deoxyribonucleic acid derived from the blood of one individual and buccal cells of another.

(8) “Integrated perinatal health information system” (IPHIS): IPHIS is an electronic system maintained by the Ohio department of health (ODH) that provides the functionality to process and store data for vital statistics purposes.

(a) Individuals with access to IPHIS have the responsibility to maintain the confidentiality of and to safeguard all information contained in a person's case record, whether the information is contained on paper, film, computer, or any other electronic medium in accordance with rule 5101:12-1-20 of the Administrative Code.

(b) In accordance with section 3125.99 of the Revised Code, anyone who discloses information to any person or for any purpose not specifically permitted by rule 5101:12-1-20 of the Administrative Code or its supplemental rules is subject to a fine of up to five hundred dollars or a prison term of up to six months or both.

(B) The following forms are referenced throughout division 5101:12 of the Administrative Code:

(1) JFS 07038, “Acknowledgment of Paternity Affidavit” (effective or revised effective date as identified in rule 5101:12-1-99 of the Administrative Code)- A voluntary affidavit that may be signed by the mother of a child and a man alleging himself to be the natural father of the child.

(2) JFS 04070, “Addendum to the Administrative Order to Modify the Birth Record - Child Surname” (effective or revised effective date as identified in rule 5101:12-40-99 of the Administrative Code) - An addendum that may be signed by the mother of a child and a man alleging himself to be the father indicating an agreement by the parties to change the child's surname, if and only if the alleged father is found to be the natural father. If this agreement is signed by both parties and genetic testing indicates paternity is established it will be incorporated by reference into and become part of the administrative order establishing paternity.

(3) JFS 07774, “CSEA Administrative Order Establishment of Paternity” (effective or revised effective date as identified in rule 5101:12-40-99 of the Administrative Code) - Order indicating through genetic testing that a father and child relationship exists.

(4) JFS 07771, “CSEA Administrative Order Non-Existence of Father and Child Relationship” (effective or revised effective date as identified in rule 5101:12-40-99 of the Administrative Code) - Order indicating through genetic testing that a father and child relationship does not exist.

(5) JFS 07773, “CSEA Administrative Order Paternity Finding Inconclusive” (effective or revised effective date as identified in rule 5101:12-40-99 of the Administrative Code) - Order indicating that a party failed to submit to genetic testing and the results are inconclusive.

(6) JFS 04070-I, “Instructions for Completing the JFS 04070, Addendum to the Administrative Order to Modify the Birth Record - Child Surname” (effective or revised effective date as identified in rule 5101:12-40-99 of the Administrative Code) - Instructions for parents wishing to complete the JFS 04070 to change their child's surname during the administrative paternity process.

(7) JFS 07754, “Notice of Request for Paternity Determination and Order to Appear for Genetic Tests” (effective or revised effective date as identified in rule 5101:12-40-99 of the Administrative Code) - Notice issued to the natural mother, each man presumed to be the father of the child, and each man alleged to be the father of the child ordering that the parties submit to genetic testing.
(8) JFS 07029, “Request for Paternity Determination and Notification to Central Paternity Registry” (effective or revised effective date as identified in rule 5101:12-40-99 of the Administrative Code) - A request that shall be completed by a party that signed a JFS 07038 requesting the CSEA to make an administrative determination of the existence or non-existence of a father and child relationship. The request must be completed no later than sixty days after the date of the last signature on the JFS 07038.

(9) JFS 01716, “Waiver of Service of Notice and Order to Appear for Genetic Testing” (effective or revised effective date as identified in rule 5101:12-40-99 of the Administrative Code) - Waiver to be signed by a presumed father, alleged father or natural mother when the party appears for genetic testing but service of process was not obtained.

(C) In accordance with Chapter 3111 of the Revised Code, the CSEA shall determine the existence or non-existence of a father and child relationship when:

1. The child was born out-of-wedlock and:
   a. The CSEA receives a referral for a child who receives Ohio works first (OWF), Title IV-E foster care maintenance, or medicaid benefits in the same county as the CSEA; or
   b. The CSEA receives a request to determine the existence or non-existence of a father and child relationship, as described in rule 5101:12-40-20 of the Administrative Code, by:
      i. The child’s mother or her personal representative;
      ii. A man alleged or alleging himself to be the father of the child or his personal representative;
      iii. The child or the child’s personal representative; or
      iv. The court pursuant to division (D) of section 3111.381 of the Revised Code.
2. There is a presumption of paternity and:
   a. The CSEA receives a request to determine the existence or non-existence of a father and child relationship, as described in rule 5101:12-40-20 of the Administrative Code, by:
      i. The child’s mother or her personal representative;
      ii. A man alleged or alleging himself to be the father of the child or his personal representative;
   b. Either the mother or the presumed father who are party to a request to establish an administrative support order dispute paternity. The CSEA shall proceed as if a request had been made to determine the existence or non-existence of a father child relationship in accordance with this rule.

(D) In accordance with section 3111.38 of the Revised Code, the CSEA in the county in which the child or the guardian or legal custodian of the child resides shall determine the existence or non-existence of a father and child relationship.

In accordance with section 3111.39 of the Revised Code, when more than one CSEA receives a request to determine the existence or non-existence of a father and child relationship concerning the same child that meets the requirements described in this paragraph, the CSEA that receives the request first shall act on the request. When a CSEA that receives a request is not the appropriate CSEA for the filing of the request, the CSEA shall forward the request to the CSEA in which the child or the guardian or legal custodian of the child resides.

(E) Pursuant to section 3111.381 of the Revised Code, the CSEA shall attempt to determine the existence or non-existence of a father and child relationship through an administrative action and, when the administrative action is unsuccessful, by bringing a court action.

Pursuant to division (E) of section 3111.381 of the Revised Code, if the alleged father of a child is deceased and proceedings for the probate of the estate of the alleged father have been or can be commenced, the court with jurisdiction over the probate proceedings shall retain jurisdiction to determine the existence or non-existence of a father and child relationship between the alleged father and any child without an administrative determination being
Umbilical Cord Blood, Paternity and Tests for Pregnant Women
(E) When the CSEA determines the child is subject to an existing final and enforceable determination of paternity as described in paragraph (A)(6) of rule 5101:12-40-05 of the Administrative Code, the CSEA shall inform the parties seeking to notarize the affidavit that the CSEA cannot assist the parties in establishing paternity as a final and enforceable determination of paternity already exists.

(F) The CSEA shall not initiate action to overturn or withdraw a JFS 07038 that has been filed with the CPR when a man presumed to be the father of a child was not the man who signed the JFS 07038. When one of the parties brings an action to rescind the JFS 07038, the CSEA shall proceed as described in rule 5101:12-40-17 of the Administrative Code.

(G) In accordance with section 3111.25 of the Revised Code, a JFS 07038 is final and enforceable without ratification by a court when the JFS 07038 has been filed with the CPR, the information on the JFS 07038 has been entered in the birth registry, and the JFS 07038 has not been rescinded and is not subject to rescission as described in paragraph (C) of rule 5101:12-40-17 of the Administrative Code.

In accordance with section 3111.821 of the Revised Code, a JFS 07038 that has not become final shall be considered final as of the date of the issuance of an administrative support order and neither party to the administrative order raised the issue of the existence or non-existence of a father and child relationship.

(H) When the JFS 07038 becomes final and enforceable, the man who signed the JFS 07038 assumes the parental duty of support.

(I) In accordance with section 3111.30 of the Revised Code, when a JFS 07038 becomes final as described in paragraph (G) of this rule, the CPR shall notify ODH that the JFS 07038 is final and enforceable.

Medically Handicapped Children

[Editor’s Note: Regulations pertaining to medically handicapped children are available at www.odh.ohio.gov/rules/final/finalRules.aspx.]

3701.021 Service protocols.

(A) The director of health shall adopt, in accordance with Chapter 119 of the Revised Code, such rules as are necessary to carry out sections 3701.021 to 3701.0210 of the Revised Code, including, but not limited to, rules to establish the following:

1. Medical and financial eligibility requirements for the program for medically handicapped children;

2. Subject to division (C) of this section, eligibility requirements for providers who provide goods and services for the program for medically handicapped children;

3. Procedures to be followed by the department of health in disqualifying providers for violating requirements adopted under division (A)(2) of this section;

4. Procedures to be used by the department regarding application for diagnostic services under division (B) of section 3701.023 of the Revised Code and payment for those services under division (E) of that section;

5. Standards for the provision of service coordination by the department of health and city and general health districts;

6. Procedures for the department to use to determine the amount to be paid annually by each county for services for medically handicapped children and to allow counties to retain funds under divisions (A)(2) and (3) of section 3701.024 of the Revised Code;

7. Financial eligibility requirements for services for Ohio residents twenty-one years of age or older who have cystic fibrosis;

8. Criteria for payment of approved providers who provide goods and services for medically handicapped children;
(9) Criteria for the department to use in determining whether the payment of health insurance premiums of participants in the program for medically handicapped children is cost-effective;

(10) Procedures for appeal of denials of applications under divisions (A) and (D) of section 3701.023 of the Revised Code, disqualification of providers, and amounts paid for services;

(11) Terms of appointment for members of the medically handicapped children's medical advisory council created in section 3701.025 of the Revised Code;

(12) Eligibility requirements for the hemophilia program, including income and hardship requirements;

(13) If a manufacturer discount program is established under division (J)(1) of section 3701.023 of the Revised Code, procedures for administering the program, including criteria and other requirements for participation in the program by manufacturers of drugs and nutritional formulas.

(B) The department of health shall develop a manual of operational procedures and guidelines for the program for medically handicapped children to implement sections 3701.021 to 3701.0210 of the Revised Code.

(C) A medicaid provider, as defined in section 5164.01 of the Revised Code, is eligible to be a provider of the same goods and services for the program for medically handicapped children that the provider is approved to provide for the medicaid program and the director shall approve such a provider for participation in the program for medically handicapped children.

3701.022 General definitions.

As used in sections 3701.021 to 3701.0210 of the Revised Code:

(A) "Medically handicapped child" means an Ohio resident under twenty-one years of age who suffers primarily from an organic disease, defect, or a congenital or acquired physically handicapping and associated condition that may hinder the achievement of normal growth and development.

(B) "Provider" means a health professional, hospital, medical equipment supplier, and any individual, group, or agency that is approved by the department of health pursuant to division (C) of section 3701.023 of the Revised Code and that provides or intends to provide goods or services to a child who is eligible for the program for medically handicapped children.

(C) "Service coordination" means case management services provided to medically handicapped children that promote effective and efficient organization and utilization of public and private resources and ensure that care rendered is family-centered, community-based, and coordinated.

(D)(1) "Third party" means any person or government entity other than the following:

(a) A medically handicapped child participating in the program for medically handicapped children or the child's parent or guardian;

(b) The department or any program administered by the department, including the "Maternal and Child Health Block Grant," Title V of the "Social Security Act," 95 Stat. 818 (1981), 42 U.S.C.A. 701, as amended;

(c) The "caring program for children" operated by the nonprofit community mutual insurance corporation.

(2) "Third party" includes all of the following:

(a) Any trust established to benefit a medically handicapped child participating in the program or the child's family or guardians, if the trust was established after the date the medically handicapped child applied to participate in the program;

(b) That portion of a trust designated to pay for the medical and ancillary care of a medically handicapped child, if the trust was established on or before the date the medically
Chapter 4. Minors, Birth and Abortion
Part III. Birth

handicapped child applied to participate in the program;
(c) The program awarding reparations to victims of crime established under sections 2743.51 to 2743.72 of the Revised Code.
(E) "Third-party benefits" means any and all benefits paid by a third party to or on behalf of a medically handicapped child participating in the program or the child's parent or guardian for goods or services that are authorized by the department pursuant to division (B) or (D) of section 3701.023 of the Revised Code.
(F) "Hemophilia program" means the hemophilia program the department of health is required to establish and administer under section 3701.029 of the Revised Code.

3701.023 Department of health powers and duties.

(A) The department of health shall review applications for eligibility for the program for medically handicapped children that are submitted to the department by city and general health districts and physician providers approved in accordance with division (C) of this section. The department shall determine whether the applicants meet the medical and financial eligibility requirements established by the director of health pursuant to division (A)(1) of section 3701.021 of the Revised Code, and by the department in the manual of operational procedures and guidelines for the program for medically handicapped children developed pursuant to division (B) of that section. Referrals of potentially eligible children for the program may be submitted to the department on behalf of the child by parents, guardians, public health nurses, or any other interested person. The department of health may designate other agencies to refer applicants to the department of health.

(B) In accordance with the procedures established in rules adopted under division (A)(4) of section 3701.021 of the Revised Code, the department of health shall authorize a provider or providers to provide to any Ohio resident under twenty-one years of age, without charge to the resident or the resident's family and without restriction as to the economic status of the resident or the resident's family, diagnostic services necessary to determine whether the resident has a medically handicapping or potentially medically handicapping condition.

(C) The department of health shall review the applications of health professionals, hospitals, medical equipment suppliers, and other individuals, groups, or agencies that apply to become providers. The department shall enter into a written agreement with each applicant who is determined, pursuant to the requirements set forth in rules adopted under division (A)(2) of section 3701.021 of the Revised Code, to be eligible to be a provider in accordance with the provider agreement required by the medicaid program. No provider shall charge a medically handicapped child or the child's parent or guardian for services authorized by the department under division (B) or (D) of this section.

The department, in accordance with rules adopted under division (A)(3) of section 3701.021 of the Revised Code, may disqualify any provider from further participation in the program for violating any requirement set forth in rules adopted under division (A)(2) of that section. The disqualification shall not take effect until a written notice, specifying the requirement violated and describing the nature of the violation, has been delivered to the provider and the department has afforded the provider an opportunity to appeal the disqualification under division (H) of this section.

(D) The department of health shall evaluate applications from city and general health districts and approved physician providers for authorization to provide treatment services, service coordination, and related goods to children determined to be eligible for the program for medically handicapped children pursuant to division (A) of this section. The department shall authorize necessary treatment services, service coordination, and related goods for each eligible child in accordance with an individual plan of treatment for the child. As an alternative, the department may authorize payment of health insurance premiums on behalf of eligible
children when the department determines, in accordance with criteria set forth in rules adopted under division (A)(9) of section 3701.021 of the Revised Code, that payment of the premiums is cost-effective.

(E) The department of health shall pay, from appropriations to the department, any necessary expenses, including but not limited to, expenses for diagnosis, treatment, service coordination, supportive services, transportation, and accessories and their upkeep, provided to medically handicapped children, provided that the provision of the goods or services is authorized by the department under division (B) or (D) of this section. Money appropriated to the department of health may also be expended for reasonable administrative costs incurred by the program. The department of health also may purchase liability insurance covering the provision of services under the program for medically handicapped children by physicians and other health care professionals.

Payments made to providers by the department of health pursuant to this division for inpatient hospital care, outpatient care, and all other medical assistance furnished to eligible recipients shall be made in accordance with rules adopted by the director of health pursuant to division (A) of section 3701.021 of the Revised Code.

The departments of health and medicaid shall jointly implement procedures to ensure that duplicate payments are not made under the program for medically handicapped children and the medicaid program and to identify and recover duplicate payments.

(F) At the time of applying for participation in the program for medically handicapped children, a medically handicapped child or the child's parent or guardian shall disclose the identity of any third party against whom the child or the child's parent or guardian has or may have a right of recovery for goods and services provided under division (B) or (D) of this section. The department of health shall require a medically handicapped child who receives services from the program or the child's parent or guardian to apply for all third-party benefits for which the child may be eligible and require the child, parent, or guardian to apply all third-party benefits received to the amount determined under division (E) of this section as the amount payable for goods and services authorized under division (B) or (D) of this section. The department is the payer of last resort and shall pay for authorized goods or services, up to the amount determined under division (E) of this section for the authorized goods or services, only to the extent that payment for the authorized goods or services is not made through third-party benefits. When a third party fails to act on an application or claim for benefits by a medically handicapped child or the child's parent or guardian, the department shall pay for the goods or services only after ninety days have elapsed since the date the child, parents, or guardians made an application or claim for all third-party benefits. Third-party benefits received shall be applied to the amount determined under division (E) of this section. Third-party payments for goods and services not authorized under division (B) or (D) of this section shall not be applied to payment amounts determined under division (E) of this section. Payment made by the department shall be considered payment in full of the amount determined under division (E) of this section. Medicaid payments for persons eligible for the medicaid program shall be considered payment in full of the amount determined under division (E) of this section.

(G) The department of health shall administer a program to provide services to Ohio residents who are twenty-one or more years of age who have cystic fibrosis and who meet the eligibility requirements established in rules adopted by the director of health pursuant to division (A)(7) of section 3701.021 of the Revised Code, subject to all provisions of this section, but not subject to section 3701.024 of the Revised Code.

(H) The department of health shall provide for appeals, in accordance with rules adopted under section 3701.021 of the Revised Code, of denials of applications for the program for medically handicapped children under division (A) or (D) of this section, disqualification of providers, or amounts paid under division (E) of this section. Appeals under this division are not subject to Chapter 119 of the Revised Code.
Chapter 4. Minors, Birth and Abortion
Part III. Birth

The department may designate ombudspersons to assist medically handicapped children or their parents or guardians, upon the request of the children, parents, or guardians, in filing appeals under this division and to serve as children's, parents', or guardians' advocates in matters pertaining to the administration of the program for medically handicapped children and eligibility for program services. The ombudspersons shall receive no compensation but shall be reimbursed by the department, in accordance with rules of the office of budget and management, for their actual and necessary travel expenses incurred in the performance of their duties.

(I) The department of health, and city and general health districts providing service coordination pursuant to division (A)(2) of section 3701.024 of the Revised Code, shall provide service coordination in accordance with the standards set forth in the rules adopted under section 3701.021 of the Revised Code, without charge, and without restriction as to economic status.

(J)(1) The department of health may establish a manufacturer discount program under which a manufacturer of a drug or nutritional formula is permitted to enter into an agreement with the department to provide a discount on the price of the drug or nutritional formula distributed to medically handicapped children participating in the program for medically handicapped children. The program shall be administered in accordance with rules adopted under section 3701.021 of the Revised Code.

(2) If a manufacturer enters into an agreement with the department as described in division (J)(1) of this section, the manufacturer and the department may negotiate the amount and terms of the discount.

(3) In lieu of establishing a discount program as described in division (J)(1) of this section, the department and a manufacturer of a drug or nutritional formula may discuss a donation of drugs, nutritional formulas, or money by the manufacturer to the department.

(K) As used in this division “209(b) option” has the same meaning as in section 5166.01 of the Revised Code.

The program for medically handicapped children and the program the department of health administers pursuant to division (G) of this section shall continue to assist individuals who have cystic fibrosis and are enrolled in those programs in qualifying for medicaid under the spenddown process in the same manner it assists such individuals on the effective date of this amendment, regardless of whether the department of medicaid continues to implement the 209(b) option.

Newborn Screening, Hearing and Hearing Impairment

3701.501 Screening newborn infants; advisory council.

(A)(1) Except as provided in division (A)(2) of this section, all newborn children shall be screened for the presence of the genetic, endocrine, and metabolic disorders specified in rules, adopted pursuant to this section.

(2) Division (A)(1) of this section does not apply in either of the following circumstances:

(a) If the parents of the child object to the screening on the grounds that it conflicts with their religious tenets and practices;

(b) With respect to the screening for Krabbe disease described in division (C)(1)(b) of this section, if the parents of the child communicate their decision to forgo the screening.

(B) There is hereby created the newborn screening advisory council to advise the director of health regarding the screening of newborn children for genetic, endocrine, and metabolic disorders. The council shall engage in an ongoing review of the newborn screening requirements established under this section and shall provide recommendations and reports to the director as the director requests and as the council considers necessary. The director may
assign other duties to the council, as the director considers appropriate.

The council shall consist of fourteen members appointed by the director. In making appointments, the director shall select individuals and representatives of entities with interest and expertise in newborn screening, including such individuals and entities as health care professionals, hospitals, children’s hospitals, regional genetic centers, regional sickle cell centers, newborn screening coordinators, and members of the public.

The department of health shall provide meeting space, staff services, and other technical assistance required by the council in carrying out its duties. Members of the council shall serve without compensation, but shall be reimbursed for their actual and necessary expenses incurred in attending meetings of the council or performing assignments for the council.

The council is not subject to sections 101.82 to 101.87 of the Revised Code.

(C)(1)(a) Subject to division (C)(1)(b) of this section, the director of health shall adopt rules in accordance with Chapter 119 of the Revised Code specifying the disorders for which each newborn child must be screened.

(b) In adopting the rules, the director shall specify Krabbe disease as a disorder for which a newborn child who is born on or after July 1, 2016, must be screened. The rules shall limit the screening requirement for Krabbe disease to the process known as “first tier testing,” which is a screening for Krabbe disease that is accomplished by measuring galactocerebrosidase activity using mass spectrometry.

(2) The newborn screening advisory council shall evaluate genetic, metabolic, and endocrine disorders to assist the director in determining which disorders should be included in the screenings required under this section. In determining whether a disorder should be included, the council shall consider all of the following:

(a) The disorder’s incidence, mortality, and morbidity;
(b) Whether the disorder causes disability if diagnosis, treatment, and early intervention are delayed;
(c) The potential for successful treatment of the disorder;
(d) The expected benefits to children and society in relation to the risks and costs associated with screening for the disorder;
(e) Whether a screening for the disorder can be conducted without taking an additional blood sample or specimen.

(3) Based on the considerations specified in division (C)(2) of this section, the council shall make recommendations to the director of health for the adoption of rules under division (C)(1) of this section. The director shall promptly and thoroughly review each recommendation the council submits.

(D) The director shall adopt rules in accordance with Chapter 119 of the Revised Code establishing standards and procedures for the screenings required by this section. The rules shall include standards and procedures for all of the following:

(1) Causing rescreenings to be performed when initial screenings have abnormal results;
(2) Designating the person or persons who will be responsible for causing screenings and rescreenings to be performed;
(3) Giving to the parents of a child notice of the required initial screening and the possibility that rescreenings may be necessary;
(4) Communicating to the parents of a child the results of the child’s screening and any rescreenings that are performed;
(5) Giving notice of the results of an initial screening and any rescreenings to the person who caused the child to be screened or rescreened, or to another person or government entity when the person who caused the child to be screened or rescreened cannot be contacted;
(6) Referring children who receive abnormal screening or rescreening results to providers of follow-up services, including the services made available through funds disbursed under division (F) of this section.
Chapter 4. Minors, Birth and Abortion
Part III. Birth

(E)(1) Except as provided in divisions (E)(2) and (3) of this section, all newborn screenings required by this section shall be performed by the public health laboratory authorized under section 3701.22 of the Revised Code.

(2) If the director determines that the public health laboratory is unable to perform screenings for all of the disorders specified in the rules adopted under division (C) of this section, the director shall select another laboratory to perform the screenings. The director shall select the laboratory by issuing a request for proposals. The director may accept proposals submitted by laboratories located outside this state. At the conclusion of the selection process, the director shall enter into a written contract with the selected laboratory. If the director determines that the laboratory is not complying with the terms of the contract, the director shall immediately terminate the contract and another laboratory shall be selected and contracted with in the same manner.

(3) Any rescreening caused to be performed pursuant to this section may be performed by the public health laboratory or one or more other laboratories designated by the director. Any laboratory the director considers qualified to perform rescreenings may be designated, including a laboratory located outside this state. If more than one laboratory is designated, the person responsible for causing a rescreening to be performed is also responsible for selecting the laboratory to be used.

(F)(1) The director shall adopt rules in accordance with Chapter 119 of the Revised Code establishing a fee that shall be charged and collected in addition to or in conjunction with any laboratory fee that is charged and collected for performing the screenings required by this section. The fee, which shall be not less than fourteen dollars, shall be disbursed as follows:

(a) Not less than ten dollars and twenty-five cents shall be deposited in the state treasury to the credit of the genetics services fund, which is hereby created. Not less than seven dollars and twenty-five cents of each fee credited to the genetics services fund shall be used to defray the costs of the programs authorized by section 3701.502 of the Revised Code. Not less than three dollars from each fee credited to the genetics services fund shall be used to defray costs of phenylketonuria programs.

(b) Not less than three dollars and seventy-five cents shall be deposited into the state treasury to the credit of the sickle cell fund, which is hereby created. Money credited to the sickle cell fund shall be used to defray costs of programs authorized by section 3701.131 of the Revised Code.

(2) In adopting rules under division (F)(1) of this section, the director shall not establish a fee that differs according to whether a screening is performed by the public health laboratory or by another laboratory selected by the director pursuant to division (E)(2) of this section.

3701.504 Statewide hearing screening program.

(A) The department of health shall establish and maintain a statewide hearing screening, tracking, and early intervention program to identify newborn and infant hearing impairment. The department shall also establish appropriate protocols for the treatment and follow-up care of newborns and infants with hearing impairment.

(B) In the case of a child born in a hospital or freestanding birthing center, both of the following apply:

(1) The program shall provide for a hearing screening of the newborn or infant before discharge, unless the newborn or infant is being transferred to another hospital.

(2) If the newborn or infant is transferred to another hospital, the program shall provide for a hearing screening of the newborn or infant when determined to be medically appropriate.

(C) The department of health shall ensure that the program established under this section is incorporated into early intervention activities of the department in compliance with the "Individuals with Disabilities Education Act," 20 U.S.C.A. 1400 et seq.
(D) The department of health may assist hospitals and freestanding birthing centers in acquiring hearing screening equipment by providing information on grant opportunities or loans, and, if funds are available, by mass purchasing equipment or establishing a grant system with department funds.

(E) The department of health shall administer the program established under this section pursuant to rules adopted under section 3701.508 of the Revised Code.

3701.505 Screening required.

(A)(1) Each hospital and each freestanding birthing center shall do all of the following:
   (a) Conduct a hearing screening on each newborn or infant born in the hospital or center unless the newborn or infant is transferred to another hospital;
   (b) Promptly notify the newborn’s or infant’s attending physician of the screening results;
   (c) Notify the department of health of the screening results for each newborn or infant screened.

   (2) A hearing screening conducted under this section shall be conducted under the direction of an audiologist or physician or in collaboration with a physician. Notwithstanding the licensure requirements of Chapter 4753 of the Revised Code, a screening may be conducted by a person who is not licensed under that chapter.

   (3) Each hospital and freestanding birthing center shall take the actions required by divisions (A)(1) and (2) of this section in accordance with the rules adopted under section 3701.508 of the Revised Code. A hospital or freestanding birthing center may commence taking these actions at any time after the effective date of the rules but not later than June 30, 2004, unless an extension is granted. The director may grant an extension to delay for up to one year after June 30, 2004, the requirement of compliance with the rules if the hospital or freestanding birthing center requesting the extension demonstrates justifiable cause for the extension. Justifiable cause may include having ordered but not yet received hearing screening equipment, ongoing efforts to obtain financing for the equipment, or any other cause accepted by the director.

   (B) Any hospital or freestanding birthing center providing a hearing screening in accordance with division (A) of this section shall be reimbursed by the department of health at a rate determined by the director of health if both of the following are the case:
      (1) The screening is performed before the newborn or infant is discharged from the hospital or freestanding birthing center.
      (2) The parent, guardian, or custodian is financially unable to pay for the hearing screening and the hospital or freestanding birthing center is not reimbursed by a third-party payer as determined pursuant to rules adopted under section 3701.508 of the Revised Code.

   (C) A hospital, clinic, or other health care facility at which a hearing evaluation is performed on a newborn or infant shall report the results of the evaluation to the attending physician of the newborn or infant.

3701.506 Department of health; hearing screen information.

The department of health shall prepare and distribute to all hospitals and freestanding birthing centers required to provide hearing screenings under the program established under section 3701.504 of the Revised Code and each board of health, information describing factors or conditions of hearing loss and the effect of such a loss on an infant or child’s language development, and information on the importance of hearing screening, hearing evaluation, early intervention, and follow-up care for newborns and infants. This information shall be updated as the department determines necessary.

Each hospital or freestanding birthing center shall provide the parent, guardian, or
custodian of each newborn or infant born in the hospital or freestanding birthing center with the information prepared by the department pursuant to this section.

Each board of health shall provide the parent, guardian, or custodian of each newborn or infant born in the area served by the board who is not born in a hospital or freestanding birthing center with the information prepared by the department pursuant to this section.

3701.508 Director of Health to adopt hearing screening rules.

(A) The director of health shall adopt rules governing the statewide hearing screening, tracking, and early intervention program established under section 3701.504 of the Revised Code, including rules that do all of the following:

(1) Specify how hospitals and freestanding birthing centers are to comply with the requirements of section 3701.505 of the Revised Code, including methods to be used for hearing screening, except that with regard to the physiologic equipment to be used for hearing screening, the rules may require only that the equipment be capable of giving reliable results and may not specify particular equipment or a particular type of equipment;

(2) Provide that no newborn or infant shall be required to undergo a hearing screening if the parent, guardian, or custodian of the newborn or infant objects on the grounds that the screening conflicts with the parent's, guardian's, or custodian's religious tenets and practices;

(3) Provide for situations in which the parent, guardian, or custodian of a newborn or infant objects to a hearing screening for reasons other than religious tenets and practices;

(4) Specify how the department of health will determine whether a person is financially unable to pay for a hearing screening and define “third-party payer” for the purpose of reimbursement of hearing screening by the department under section 3701.505 of the Revised Code;

(5) Specify an inexpensive and efficient format and procedures for the submission of hearing screening information from hospitals and freestanding birthing centers to the department of health;

(6) Specify a procedure whereby the department may conduct timely reviews of hearing screening information submissions for purposes of quality assurance, training, and disease prevention and control;

(7) Specify any additional information that hospitals and freestanding birthing centers are to provide to the medically handicapped children's medical advisory council's infant hearing screening subcommittee under section 3701.509 of the Revised Code.

(B) In addition to the rules adopted under division (A) of this section, the director shall adopt rules that specify the training that must be completed by persons who will conduct hearing screenings. In adopting these rules, the director shall consider incorporating cost-saving training methods, including computer-assisted learning and on-site training. Neither the rules nor the director of health may establish a minimum educational level for persons conducting hearing screenings.

(C) All rules adopted under this section shall be adopted in accordance with Chapter 119 of the Revised Code and shall be adopted so as to take effect not later than six months after August 1, 2002.

3701.509 Analyzing results; required report.

(A) The department of health shall develop a mechanism to analyze and interpret the hearing screening information to be reported under division (B) of this section. The department shall notify all hospitals and freestanding birthing centers subject to the reporting requirements of the date the department anticipates that the mechanism will be complete. After the mechanism is complete, the department shall notify each hospital and freestanding birthing center...
center subject to the reporting requirement of the date by which the hospital or center must submit its first report.

(B) Subject to division (A) of this section and in accordance with rules adopted by the director of health under section 3701.508 of the Revised Code, each hospital and freestanding birthing center that has conducted a hearing screening required by section 3701.505 of the Revised Code shall provide to the department of health for use by the medically handicapped children's medical advisory council's infant hearing screening subcommittee information specifying all of the following:

1. The number of newborns born in the hospital or freestanding birthing center and the number of newborns and infants not screened because they were transferred to another hospital;
2. The number of newborns and infants referred to the hospital or freestanding birthing center for a hearing screening and the number of those newborns and infants who received a hearing screening;
3. The number of newborns and infants who did not pass the hearing screenings conducted by the hospital or freestanding birthing center;
4. Any other information concerning the program established under section 3701.504 of the Revised Code.

(C) The department of health shall conduct a timely review of the information submitted by hospitals and freestanding birthing centers in accordance with rules adopted by the director under section 3701.508 of the Revised Code.

(D) The infant hearing screening subcommittee, with the support of the department of health, shall compile and summarize the information submitted to the department by hospitals and freestanding birthing centers under division (B) of this section. Beginning with the first year after the mechanism developed under division (A) of this section is complete, the subcommittee shall annually prepare and transmit a report to the director of health, the speaker of the house of representatives, and the president of the senate. The council shall make the report available to the public.

(E) The department and all members of the subcommittee shall maintain the confidentiality of patient-identifying information submitted under division (B) of this section and section 3701.505 of the Revised Code. The information is not a public record under section 149.43 of the Revised Code, except to the extent that the information is used in preparing reports under this section.

Nothing in this division prohibits the department from providing patient-identifying information to other entities as it considers necessary to implement the statewide tracking and early intervention components of the program established under section 3701.504 of the Revised Code. Any entity that receives patient-identifying information from the department shall maintain the confidentiality of the information.

3701.5010 Critical congenital heart defects newborn screening.

(A) As used in this section:
1. “Critical congenital heart defects screening” means the identification of a newborn that may have a critical congenital heart defect, through the use of a physiologic test.
2. “Freestanding birthing center” has the same meaning as in section 3702.141 of the Revised Code.
3. “Hospital,” “maternity unit,” “newborn,” and “physician” have the same meanings as in section 3701.503 of the Revised Code.
4. “Pulse oximetry” means a noninvasive test that estimates the percentage of hemoglobin in blood that is saturated with oxygen.

(B) Except as provided in division (C) of this section, each hospital and each
Chapter 4. Minors, Birth and Abortion
Part III. Birth

freestanding birthing center shall conduct a critical congenital heart defects screening on each newborn born in the hospital or center, unless the newborn is being transferred to another hospital. The screening shall be performed before discharge. If the newborn is transferred to another hospital, that hospital shall conduct the screening when determined to be medically appropriate. The hospital or center shall promptly notify the newborn’s parent, guardian, or custodian and attending physician of the screening results.

(C) A hospital or freestanding birthing center shall not conduct a critical congenital heart defects screening if the newborn's parent objects on the grounds that the screening conflicts with the parent's religious tenets and practices.

(D)(1) The director of health shall adopt rules in accordance with Chapter 119 of the Revised Code establishing standards and procedures for the screening required by this section, including all of the following:

(a) Designating the person or persons responsible for causing the screening to be performed;
(b) Specifying screening equipment and methods;
(c) Identifying when the screening should be performed;
(d) Providing notice of the required screening to the newborn’s parent, guardian, or custodian;
(e) Communicating screening results to the newborn's parent, guardian, or custodian and attending physician;
(f) Reporting screening results to the department of health;
(g) Referring newborns that receive abnormal screening results to providers of follow-up services.

(2) In adopting rules under division (D)(1)(b) of this section, the director shall specify screening equipment and methods that include the use of pulse oximetry or other screening equipment and methods that detect critical congenital heart defects at least as accurately as pulse oximetry. The screening equipment and methods specified shall be consistent with recommendations issued by nationally recognized organizations that advocate on behalf of medical professionals or individuals with cardiovascular conditions.

3701-40-01 Hearing screening for infants and newborns; definitions.

As used in this chapter of the Administrative Code:

(A) “Address,” in the case of an individual, means the individual's residence and, in the case of a government agency, means the office at which the records pertaining to a particular child are maintained.

(B) “Attending physician” means the newborn's or infant's primary care physician who will provide care for the newborn or infant after discharge. If there is no known primary care physician, the physician treating the infant or newborn while the newborn or infant is in the hospital will be deemed the attending physician.

(C) “Audiologist” means an individual authorized under the section 4753.07 of the Revised Code to practice audiology.

(D) “Birth clerk” means an integrated perinatal health information system (IPHIS) user with the ability to enter data to create birth records.

(E) “Board of health” means the board of health of a city or general health district or the authority having the duties of a board of health under section 3709.05 of the Revised Code.

(F) “Certified nurse-midwife” means a registered nurse who holds a valid certificate of authority issued under Chapter 4723 of the Revised Code that authorizes the practice of nursing as a certified nurse-midwife in accordance with section 4723.43 of the Revised Code and rules adopted by the board of nursing.

(G) “Certified nurse practitioner” means a registered nurse who holds a valid certificate
of authority issued under Chapter 4723 of the Revised Code that authorizes the practice of
nursing as a certified nurse practitioner in accordance with section 4723.43 of the Revised Code
and rules adopted by the board of nursing.

(H) “Custodian” means a government agency, or an individual, other than a parent or
guardian, with legal or permanent custody of a child as defined in section 2151.011 of the
Revised Code.

(I) “Department” means the Ohio department of health.

(J) “Diagnostic hearing evaluation” means evaluation through the use of a battery of
pediatric audiology test procedures by an audiologist.

(K) “Director” means the director of health in the state of Ohio or person designated by
the director of health.

(L) “Discharge” means the release of a patient from a hospital or freestanding birthing
center to a non-institutional setting.

(M) “Freestanding birthing center” has the same meaning as the term is defined in
section 3702.51 of the Revised Code.

(N) “Filed” means received by the director.

(O) “Guardian” has the same meaning as the term is defined in section 2111.01 of the
Revised Code.

(P) “Healthcare facility” means any of the following:

(1) A hospital that is registered under section 3701.07 of the Revised Code;

(2) A free standing birthing center as defined in section 3702.51 of the Revised Code; or

(3) A building, office, clinic, or other location in which a physician or an audiologist is
licensed to practice in Ohio and provides hearing evaluations.

(Q) “Hearing clerk” means an integrated perinatal health information systems (IPHIS)
user with the ability to enter data on the hearing screening tab.

(R) “Hearing loss” refers to a permanent loss of hearing in one or both ears in the
frequency region important for speech recognition and comprehension.

(S) “Hearing screening” means the use of a physiologic test in each ear to identify
newborns and infants who may have hearing loss.

(T) “Hospital” means an institution classified and registered as a hospital under section
3701.07 of the Revised Code that has a maternity unit or newborn nursery.

(U) “In collaboration with a physician or audiologist” means a formal arrangement
between the individual conducting the screening and the physician or audiologist responsible for
the oversight of the facility’s hearing screening program. The formal arrangement must provide
that the physician or audiologist is continuously available to communicate with the individual
conducting the screening.

(V) “Infant” means a child who is at least thirty days but less than twenty-four months
old.

(W) “Maternity unit” means any unit or place in a hospital where women are regularly
received and provided care during all or part of the maternity cycle, except that “maternity unit”
does not include an emergency department or similar place dedicated to providing emergency
health care.

(X) “Medical home” means the primary care team led by a physician managing health
care delivery for patients with the goal of maximizing health outcomes.

(Y) “Newborn” means a child who is less than thirty days old.

(Z) “NICU” means neonatal intensive care unit” and is a facility in which a neonatologist
provides primary care for the infant.

(AA) “Non pass result (Refer)” means the newborn did not pass the hearing screening in
the test ear at the time of screening and requires follow up.

(BB) “Nursery” means any area, including an individual patient room, in a hospital or
freestanding birthing center where a newborn or infant is housed prior to being discharged into

Newborn Screening, Hearing and Hearing Impairment 466
the custody of his or her parent, guardian, or custodian other than for transport to another hospital. Nurseries are divided into three categories:

(1) Level I nursery: a unit that provides basic, well-infant care.
(2) Level II nursery: a unit that provides specialty care by a neonatologist.
(3) Level III nursery: a unit that provides both specialty and subspecialty care including the provision of life support.

(CC) “Parent” means either parent, unless the parents are separated or divorced or their marriage has been dissolved or annulled, in which case “parent” means the parent who is the residential parent and legal custodian.

(DD) “Pass result” means the newborn did pass the hearing screening in the test ear at the time of screening and does not requires follow up; but is likely to demonstrate a low risk for hearing loss.

(EE) “Patient-identifying information” means individually identifiable information relating to the past, present or future physical or mental health or condition of an individual, provision of health care to an individual, or the past, present or future payment for health care provided to an individual.

(FF) “Physician” means an individual authorized under Chapter 4731 of the Revised Code to practice medicine and surgery or osteopathic medicine and surgery.

(GG) “Physiological screening” means a screening method that can detect a response to acoustic stimulation from the cochlea or the brainstem.

(HH) “Provider” means the hospital or freestanding birthing facility that provided a hearing screening under rule 3701-40-02 of the Administrative Code.

(JJ) “Regional infant hearing program” means a regional program that is funded by the Ohio department of health, to provide statewide coverage for follow along and tracking of newborns or infants who do not pass a newborn or infant hearing screening, and provide services for families with newborns, infants and toddlers who are deaf and hard of hearing.

(KK) “Screening methods” means automated otoacoustic emissions screening and automated auditory brainstem evoked response.

(LL) “Third party payer” means any person or agency, government or otherwise, other than the department of health, that provides reimbursement for hearing screenings for newborns and infants.

(MM) “Transfer” means the release of a patient from a hospital or freestanding birthing center to another healthcare facility, which undertakes responsibility for the patient.

3701-40-02 Hearing screening requirements.

(A) Each hospital and each freestanding birthing center shall:
Designate a hearing screening coordinator who is responsible for the coordination of the facility’s hearing screening program. The coordinator shall be an individual with staff privileges at the facility and either:

(1) A physician or audiologist; or
(2) An individual working under the supervision of or in collaboration with a physician or audiologist.

(B) Each hospital and each freestanding birthing center shall develop a written protocol following the recommendations of the joint committee on infant hearing for these criteria:

(1) Conduct hearing screenings on all newborns born, admitted, or transferred into a hospital or free-standing birthing center prior to discharge, or when determined to be medically
appropriate.

(2) Conduct a second hearing screening when the newborn or infant does not pass the first hearing screening in:
   (a) Well baby (level I) nurseries; and
   (b) Special care (level II and III) and NICU nurseries.

(3) Communicate the results of the hearing screening for every newborn or infant to the attending physician, certified nurse-midwife, certified nurse practitioner, primary care physician, or designated medical home to include:
   (a) Results of the hearing screening for each ear;
   (b) Type of hearing screening; and
   (c) Risk factors for hearing loss, if any.

(4) Report the following categories of infants to the attending physician, certified nurse midwife, certified nurse practitioner, primary care physician, or designated medical home within forty-eight hours of discharge for:
   (a) Infants who did not pass a hearing screening; and
   (b) Infants who were discharged from the facility without a hearing screening.

(5) Communicate written results of the newborn or infant's hearing screening to the parent, guardian, or custodian prior to discharge to include:
   (a) Results of the hearing screening for each ear; and
   (b) Type of hearing screening; and
   (c) Risk factors for hearing loss, if any.

(6) Provide the parent, guardian or custodian of a newborn or infant that did not pass the hearing screening or did not receive a hearing screening with the following prior to discharge:
   (a) A referral to audiologist for hearing evaluation; and
   (b) Assistance in scheduling an appointment for hearing evaluation before discharge; and
   (c) Information on the importance of making and keeping an appointment for a hearing evaluation; and
   (d) A list of audiology facilities where newborn hearing screenings and evaluations are conducted within a sixty mile radius of the family's home.

(7) Provide the parent, guardian, or custodian of every newborn with printed information provided by the department as outlined in paragraph (D) of rule 3701-40-10 of the Administrative Code, prior to discharge including obtaining the signature of the parent, guardian, or custodian indicating receipt of the information.

(8) Notify the director of the name and contact information of the individual designated as the hearing screening coordinator, the supervising physician or audiologist, the birth clerk, and the hearing clerk on an annual basis and whenever changes occur.

(9) Report the following categories of infants to the director of ODH, in the manner and format prescribed, within ten days of initial screening, discharge, or transfer:
   (a) Infants who received a hearing screening and the results of the hearing screening;
   (b) Infants who did not receive a hearing screening and the reason(s) not screened;
   (c) Infants whose parents, guardian, or custodian objected to a hearing screening; and
   (d) Infants who were transferred to or from another hospital.

Hospitals and free standing birthing facilities reporting transferred infants shall also report the name of the hospital facility the infant was transferred to or from.

(10) Report to the director, for each infant, the name and address of the primary care physician, the certified nurse-midwife, certified nurse practitioner, or medical home where the parent will take the newborn or infant for follow-up care after discharge.
3701-40-03 Duty of board of health upon notification.

(A) Each board of health registrar, upon notification of the birth of a newborn or infant born in the area served by the board, who is not born in a hospital or freestanding birthing center, shall, within ten business days of the receipt of notification:

(1) Distribute the printed information prepared by the director in accordance with paragraph (D) of rule 3701-40-10 of the Administrative Code, to the parent, guardian, or custodian of every newborn or infant whose birth is registered by the board of health, including
   (a) Information about hearing loss; and
   (b) A list of audiology facilities where newborn hearing screenings and/or evaluations are conducted within a sixty mile radius of the family’s home.
(2) Obtain a signature from the parent, guardian, or custodian of every newborn or infant whose birth is registered at the board of health, using the form prepared by the director, indicating that they have received the printed information and list of audiologists.
(3) If the parent, guardian, or custodian refuses to sign the form, the board of health shall document the refusal to sign the form in the signature space.

(B) Each board of health shall annually report to the director in a format prescribed by the director:

(1) The number of newborns registered;
(2) The number of parents, guardians, or custodians receiving the printed materials and list of audiologists; and
(3) The number of parents, guardians, or custodians who signed that the information was received.

3701-40-04 Objections to screening.

(A) The parent, guardian or custodian of a newborn or infant may object to a hearing screening on the grounds that the hearing screening conflicts with the parent's, guardian's or custodian's religious tenets and practices or for reasons other than religious tenets and practices.

(B) A parent's, guardian's or custodian's refusal to consent to a hearing screening must be documented on a form provided by the director or in a written statement signed by the parent, guardian or custodian. A refusal set forth in a written statement must include all of the following:

(1) The parent, guardian or custodian is fully informed and understands the possible consequences to their child's health resulting from undetected and untreated hearing loss;
(2) The parent, guardian or custodian has received hearing screening information;
(3) The parent, guardian or custodian is objecting on the grounds that the screening conflicts with their religious tenets and practices, or for reasons other than religious tenets and practices; and
(4) The parent, guardian or custodian releases and holds harmless the director, the hospital or freestanding birthing center, the person responsible for conducting the hearing screening, for any injury, illness, and/or consequences which may result from such refusal.

(C) If the parent, guardian, or custodian of a newborn or infant objects to a hearing screening and refuses to sign the form or written statement, the hospital or freestanding birthing center shall document the parent's, guardian's, or custodian's refusal to sign the objection form or statement.

(D) A signed copy of the objection form or written statement shall be sent to the director within ten days of completion.
3701-40-05 Hearing screening personnel; minimum requirements.

(A) A hearing screening conducted under rule 3701-40-02 of the Administrative Code shall be conducted under the direction of an audiologist or physician or in collaboration with an audiologist or physician.

(B) Any individual conducting hearing screenings must complete annual training addressing at a minimum the following topics:

(1) The significance of and rationale for universal newborn hearing screening;
(2) Reasons for a “non-passing” result and the need for further screening and evaluation;
(3) Conveying information to parents, guardians or custodians in a culturally competent manner and in accordance with written materials prepared by the director; and
(4) Usage of hearing screening equipment to include hands-on-training with newborns, competency evaluation, skills demonstration and written testing.

(C) All training of individuals conducted pursuant to this paragraph shall be completed prior to the administration of a hearing screening and on an annual basis thereafter and made available to the director upon request.

3701-40-06 Screening requirements.

(A) Each hospital and freestanding birthing center required to conduct a hearing screening on a newborn or infant shall, before discharge, conduct a hearing screening on each ear of every newborn or infant born in, admitted to or transferred into a hospital or freestanding birthing center through the use of a physiologic test.

(B) The hospital and freestanding birthing center shall conduct a second screening on newborn or infant, if the first screening in either ear was a non-pass.

(C) The second screening shall

(1) Be a physiological test,
(2) Test both ears, and
(3) Be completed prior to discharge.

(D) The hospital or facility shall conduct only two hearing screenings prior to discharge unless there is clearly an equipment error or an error in administering the screening. Only two complete hearing screenings shall be reported to the director.

(E) The equipment used for screening shall be capable of giving reliable results, maintained in good working order, and calibrated annually per manufacturer's guidelines.

(F) The hospital or free standing birthing facility shall have a contingency plan for continued provision of hearing screening when equipment is malfunctioning or awaiting repair or replacement.

3701-40-07 Reimbursement.

(A) The director shall reimburse providers for a maximum of one hearing screening per newborn or infant in accordance with this rule at a rate determined by the director if all the following criteria are met:

(1) The screening is performed before the newborn or infant is discharged by the provider;
(2) The parent, guardian, or custodian certifies with a signed statement that the family
(a) Is financially unable to pay for the screening;
(b) Is not eligible for medicaid; and
(c) Does not have insurance coverage for the screening.
(3) The provider is not reimbursed by a third-party payer.
(B) The provider seeking reimbursement from the director for a hearing screening shall
submit an invoice for reimbursement to the director no later than twelve months after the completion of the screening. The invoice shall contain at least the following information:

1. The name and address of the provider of the screening;
2. The name and Ohio license number of the audiologist performing or supervising the performance of the hearing screening or the name and license number of the physician performing or supervising the hearing screening;
3. The date and nature of service provided and the amount of the charge for this service;
4. The name and date of birth of the newborn or infant screened;
5. The name and address of the newborn's or infant's parent, guardian, or custodian;
6. A written statement signed by the newborn's or infant's parent, guardian, or custodian attesting to an inability to pay for the screening and explaining the circumstances and reasons why the individual is unable to pay;
7. Documentation of compliance with paragraph (D) of this rule; and
8. Signature of the billing agent.

The provider shall:

1. Submit claims for all third-party benefits, including medicaid, for which the newborn or infant may be eligible, which may provide payment for the screening;
2. Make all reasonable efforts to assist the parent, guardian, or custodian of the newborn or infant who was screened to submit claims and appeal denials for third-party benefits; and
3. Provide any information necessary for processing the claims.

Claims for third-party benefits shall have been submitted no less than sixty days before a request for payment is submitted to the director under this rule.

The director shall not make payment for the screening under this rule:

1. If any payment is made by the medicaid program established by Chapter 5111 of the Revised Code; and
2. If the newborn's or infant's parent, guardian, or custodian has applied for medicaid reimbursement; and
   a. The medicaid program has not denied payment for the screening; and
   b. The medicaid administrative appeals process has not been exhausted by the parent, guardian, or custodian.

The director shall review the request for reimbursement and may request any additional information necessary for making a determination regarding reimbursement.

1. The provider shall file any requested information with the director no later than forty-five calendar days after the date on the director's request for additional information.
2. The director shall deny payment if the provider has failed to comply with the requirements established by this rule or if the criteria for payment prescribed by paragraph (B) of this rule have not been met.

Providers reimbursed by the director, medicaid or any third party payers for a hearing screening shall accept the amount paid by the director, medicaid or any third-party payers as payment in full and shall not seek payment from the parent, guardian, or custodian. This paragraph is not intended to prohibit the provider from collecting from the parent, guardian or custodian any applicable copayment or deductible when payment is made by a third party payer.

The director shall send written notification to the provider of

1. A decision to deny reimbursement under this rule; and
2. Procedures for reconsideration.

The provider may submit a written request for reconsideration no later than thirty calendar days after the date on the notice of the proposed action and shall provide:

1. A statement of the reasons why the provider believes that the proposed decision is
incorrect or inappropriate; and
(2) Any written documentation, arguments, or other materials that the provider wishes to submit in defense of the claim.

(J) For the purposes of reconsideration, the director may request from the provider additional relevant records of documentation within forty-five calendar days of receipt of the request for reconsideration or of additional information previously submitted under this paragraph. The provider shall file any requested information with the director no later than forty-five calendar days after the date on the request for additional information.

(K) Within forty-five calendar days after receipt of a request for reconsideration from the provider that complies with paragraph (G) of this rule and of all necessary additional information requested and timely filed under paragraph (H) of this rule, the director shall notify the provider who requested the reconsideration, in writing, of his decision on reconsideration. The director's decision rendered upon reconsideration shall be final.

3701-40-08 Submission results.

(A) Infants that do not pass a hearing screening shall be immediately referred to an audiologist with expertise in evaluating newborns and infants for further examination.

(B) Protocols for hearing evaluation should be consistent with protocols in the recommendations from the joint committee on infant hearing.

(C) Any audiologist that conducts a hearing evaluation of a newborn or infant referred to such provider shall report the diagnostic hearing evaluation results to the director, in the manner and format prescribed by the director, upon confirmation of the infant's hearing status. All diagnostic results shall be reported to the director within seven business days.

3701-40-09 Tracking program.

(A) Patient identifying information, submitted to the department of health under rule 3701-40-02 of the Administrative Code by hospitals, freestanding birthing centers, or boards of health, shall be used by the director to maintain the statewide tracking and early intervention components of the program.

(B) The department of health shall provide patient-identifying information to other entities such as the regional infant hearing programs, help me grow programs, and other programs, bureaus, service providers, state agencies, individuals, or departments as it considers necessary to maintain the statewide tracking and early intervention components of the program established under section 3701.504 of the Revised Code.

(C) The department of health and any entity that receives patient-identifying information from the department shall maintain the confidentiality of the information.

3701-40-10 Information provided by director.

(A) The director shall provide educational programs for personnel conducting and documenting newborn hearing screenings including hearing screening coordinators, screeners, supervising audiologists, supervising physicians, data entry personnel, local boards of health, and any other persons identified as responsible for conducting, documenting, and reporting newborn hearing screening information and diagnostic evaluations.

(B) Educational programs may be provided as computer based learning, self study modules, teleconferences on selected topics, or classroom experiential training at the discretion of the director.

(C) The director shall provide training for personnel including the following:

(1) The significance of universal newborn hearing screening, risk factors for hearing loss,
and the importance of diagnostic follow-up and early intervention for infants with a permanent hearing loss,

(2) Conveying culturally appropriate messages to families about the importance of screening, follow-up for non-pass screening results, early intervention for hearing loss, and developmental milestones for speech and language acquisition,

(3) Documenting and completing paper and electronic records, including quality assurance activities, and

(4) Requirements for reporting hearing screenings, diagnostic evaluation results, and board of health registrations.

(D) The director shall make written materials available to hospitals, birth facilities, and local boards of health as follows:

(1) Culturally appropriate information for parents and caregivers of infants on the importance of hearing screening, hearing evaluation, early intervention, and speech and language acquisition milestones, and

(2) A listing of pediatric audiology facilities and healthcare facilities where hearing screenings and diagnostic hearing evaluations are conducted.

3701-49-01.1 Fees for laboratory services (variable fees).

(A) Unless exempted under paragraph (B) or (C) of rule 3701-49-01 of the Administrative Code, the director of health shall charge and collect a fee for each parameter or group of parameters in the bacteriological, chemical, or radiological analyses of environmental samples or the toxicological analysis of body fluid as set forth in this rule.

(1) Non-potable water samples

(B) In cases when it is necessary or desirable for the department of health laboratory to perform a test that falls within one of the general categories specified in paragraph (A)(1), (A)(2), or (A)(3) of this rule, but for which no fee has been established by this rule, the director of health may establish and charge a reasonable fee for the test. A fee established under this paragraph shall remain in effect for no longer than one hundred eighty days or until a fee is established by rule of the director, whichever occurs first.

3701-54-01 Definitions.

(A) Critical congenital heart disease (also known as CCHD) means structural heart defects usually associated with hypoxia in the newborn period that could have significant morbidity or mortality early in life with the closing of the ductus arteriosus or other physiologic changes early in life. Seven specific lesions targeted for critical congenital heart disease screening are: hypoplastic left heart syndrome; pulmonary atresia; tetralogy of Fallot; total anomalous pulmonary venous return; transposition of the great arteries; tricuspid atresia and truncus arteriosus.

(B) Critical congenital heart disease screening means the identification of a newborn or infant that may have a critical congenital heart defect, through the use of a physiologic test.

(C) Director means the director of the Ohio department of health or his or her designee.

(D) Freestanding birthing center means a facility other than a hospital perinatal unit providing obstetrical delivery services registered under section 3702.30 of the Revised Code.

(E) Infant means a child who is at least thirty days but less than one year of age.

(F) Hospital has the same meaning as in section 3701.503 of the Revised Code.

(G) Newborn means a child who is less than thirty days old.

(H) For purposes of these rules, “Newborn care nursery” means a distinct portion of a hospital in which inpatient care is provided to infants. It also includes a distinct portion of a children's hospital in which intensive care is provided to infants.

(I) Pulse oximetry means a non-invasive procedure used to measure the oxygen level (or oxygen saturation) in the blood.

3701-54-02 Required screening; facility requirements.

(A) Each newborn or infant shall be screened before discharge, in accordance with procedures set forth in this chapter for the presence of critical congenital heart disease, unless the newborn or infant has had a pediatric echocardiogram or is being discharged home on oxygen.

(B) All hospitals, freestanding birthing centers, and newborn care nurseries that are required by this chapter to conduct critical congenital heart disease screening shall:

1. Designate a CCHD newborn screening coordinator responsible for the coordination, implementation and follow-up procedures for the facility’s CCHD screening;

2. Notify the Ohio department of health genetics section of the name of the individual designated as the CCHD newborn screening coordinator whenever the designated individual changes;

3. Prior to conducting the critical congenital heart disease screening, the person designated in the applicable provision of this rule shall oversee or ensure that each newborn or infant’s parent, legal guardian, or legal custodian, is given notice of the screening to be conducted.

   a. When a birth occurs in a hospital, the hospital shall provide the information;

   b. When a birth occurs in a freestanding birth center, the freestanding birthing center shall provide the information;
Chapter 4. Minors, Birth and Abortion
Part III. Birth

(4) Conduct the critical congenital heart disease screening in accordance with specifications in rule 3701-54-03 of the Administrative Code.

(5) Communicate the results of the critical congenital heart disease screening to the newborn’s or infant’s parent, guardian, or custodian, and attending physician.

(6) Report the results of the newborn’s or infant’s critical congenital heart disease screening to the Ohio department of health through the vital statistics electronic birth certificate system.

(7) Refer newborns or infants that receive abnormal screening results to providers for appropriate pediatric follow-up services. If a newborn is transferred to another hospital before screening can take place, the receiving hospital shall conduct the screening when it is determined to be medically appropriate. Hospitals without access to the Ohio department of health vital statistics electronic birth certificate system shall report screening results to the Ohio department of health on a form provided by the department.

3701-54-03 Critical congenital heart disease screening procedures, equipment.

(A) Each hospital and freestanding birthing center shall conduct a critical congenital heart disease screening using pulse oximetry, prior to discharge, and when the newborn or infant is at least twenty-four hours of age.

(1) If the first pulse oximetry saturation percentage is ninety-five per cent or greater and the difference between the right hand and either foot is three per cent or less, the infant has passed.

(2) If any pulse oximetry saturation percentage is less than ninety per cent in the right hand or either foot, the newborn or infant should receive immediate pediatrician evaluation and/or referral to pediatric cardiology for a pediatric echocardiogram.

(3) If the first pulse oximetry saturation is less than ninety-five per cent in both right hand and either foot or has a difference of greater than three per cent between the right hand and either foot, the pulse oximetry screening should be repeated in approximately one hour.

(4) If the second pulse oximetry reading is less than ninety-five per cent in both right hand and either foot or has a difference of greater than three per cent between the right hand and either foot, the pulse oximetry screening should be repeated again in approximately one hour.

(5) If the third pulse oximetry reading is less than ninety-five per cent in both right hand and either foot or has a difference of greater than three per cent between the right hand and either foot, the newborn or infant should receive immediate pediatrician evaluation and/or referral to pediatric cardiology for a pediatric echocardiogram.

(B) The pulse oximetry screening should be performed with a motion-tolerant pulse oximeter that reports functional oxygen saturation, has been validated in low-perfusion conditions, has been cleared by the food and drug administration for use in newborns, and has a two per cent root-mean-square accuracy.

3701-54-04 Religious exception.

The provisions of this chapter requiring critical congenital heart disease screening of newborns and infants do not apply if the parents, guardian or custodian of the child object thereto on the grounds that such screening conflicts with their religious tenets and practices. Refusal to consent to the critical congenital heart disease screening must be documented in the newborn or infant’s medical record and reported to the director.
Chapter 4. Minors, Birth and Abortion
Part III. Birth

3701-55-01 Newborn screening; definitions.

(A) “Bureau of public health laboratory” means the bureau which is responsible for operating the Ohio department of health laboratory established by section 3701.22 of the Revised Code.

(B) “Certified nurse midwife” means a registered nurse who holds a valid certificate of authority issued under Chapter 4723 of the Revised Code that authorizes the practice of nursing as a certified nurse midwife in accordance with section 4723.43 of the Revised Code and rules adopted by the board of nursing.

(C) “Certified nurse practitioner” means a registered nurse who holds a valid certificate of authority issued under Chapter 4723 of the Revised Code that authorizes the practice of nursing as a certified nurse practitioner in accordance with section 4723.43 of the Revised Code and rules adopted by the board of nursing.

(D) “Clinical nurse specialist” means a registered nurse who holds a valid certificate of authority issued under Chapter 4723 of the Revised Code that authorizes the practice of nursing as a clinical nurse specialist in accordance with section 4723.43 of the Revised Code and rules adopted by the board of nursing.

(E) “Director” means the director of health or his or her designee.

(F) “Freestanding birthing center” means a facility other than a hospital perinatal unit providing obstetrical delivery services registered under section 3702.30 of the Revised Code.

(G) “Health commissioner” means the health commissioner of a general, city or county health district or the individual with the responsibilities of a health commissioner in a city or county health district.

(H) “Hospital” means an institution classified and registered as a hospital under section 3701.07 of the Revised Code that has a maternity unit or newborn nursery.

(I) “Physician” means an individual authorized under Chapter 4731 of the Revised Code to practice medicine and surgery or osteopathic medicine and surgery.

(J) “Bureau for children with medical handicaps” means a health care program in the Ohio department of health established by section 3701.023 of the Revised Code.

(K) “Initial specimen” means the first satisfactory newborn screening blood sample collected on an infant.

(L) “Repeat specimen” means a newborn screening blood sample collected subsequent to a satisfactory initial specimen.

(M) “Unsatisfactory specimen” means a newborn screening blood sample for which testing cannot be performed or interpreted due to errors occurring during the collection, shipping, or testing phase.

3701-55-02 Required screening; facility requirements.

(A) All newborn children shall be screened in accordance with procedures set forth in this chapter for the presence of the following genetic, endocrine, or metabolic disorders:

1. 2-methylbutyryl-CoA dehydrogenase deficiency;
2. 3-hydroxy-3-methylglutaryl-CoA lyase deficiency;
3. 3-ketothiolase deficiency;
4. 3-methylcrotonyl-CoA carboxylase deficiency;
5. Argininemia;
6. Argininosuccinic acidemia;
7. Biotinidase deficiency;
8. Carnitine/acylcarnitine translocase deficiency;
9. Carnitine palmitoyl transferase deficiency type II;
10. Carnitine uptake defect;
Chapter 4. Minors, Birth and Abortion
Part III. Birth

(11) Citrullinemia;
(12) Congenital adrenal hyperplasia;
(13) Congenital hypothyroidism;
(14) Cystic fibrosis;
(15) Galactosemia;
(16) Glutaric acidemia type I;
(17) Glutaric acidemia type II;
(18) Glycogen storage disease type II (Pompe);
(19) Homocystinuria (cystathionine-beta-synthase deficiency);
(20) Hypermethioninemia;
(21) Isobutyryl-CoA dehydrogenase deficiency;
(22) Isovaleric acidemia;
(23) Krabbe disease;
(24) Long chain hydroxyacyl-CoA dehydrogenase deficiency;
(25) Maple syrup urine disease;
(26) Medium chain acyl-CoA dehydrogenase deficiency;
(27) Methylmalonic acidemia;
(28) Mucopolysaccharidosis type 1;
(29) Multiple CoA carboxylase deficiency;
(30) Phenylketonuria;
(31) Propionic acidemia;
(32) Severe combined immune deficiency;
(33) Sickle cell and other hemoglobinopathies;
(34) Trifunctional protein deficiency;
(35) Tyrosinemia type I;
(36) Tyrosinemia type II;
(37) Tyrosinemia type III; and
(38) Very long chain acyl-CoA dehydrogenase deficiency.

(B) All hospitals and freestanding birthing centers that are required by this chapter to cause specimens to be collected for newborn screening for genetic, endocrine, or metabolic disorders shall:

(1) Designate a newborn screening coordinator and physician responsible for the coordination of the facility's newborn screening;
(2) Notify the chief of the Ohio department of health bureau of public laboratories of the name of the individual designated as the newborn screening coordinator on a yearly basis and whenever the designated individual changes; and
(3) Develop a written protocol for tracking newborn screening. The protocol must include a requirement that the name of the physician attending the child after birth or a designee be placed on the specimen slip sent with the initial specimen to the Ohio department of health public health laboratory.

3701-55-03 Public health laboratory responsibilities.

The bureau of public health laboratory shall provide screening for the presence of genetic, endocrine, or metabolic disorders in newborn children. In providing this screening, the bureau shall do all of the following:

(A) Provide instructions for collecting, handling and transporting specimens with specimen collection kits;
(B) Complete each screening within seven business days after receiving the properly collected and submitted specimen;
(C) Transmit the results of the screening performed to the appropriate person, as
specified in rule 3701-55-07 of the Administrative Code, in the manner prescribed by the director;

(D) Keep all newborn screening specimens and the demographic forms associated with each specimen for not less than two years from the date of the bureau's initial receipt of each specimen;

(E) Keep electronic raw test data and any electronic images of reports and/or letters created for each specimen for not less than two years from the date of the bureau's initial receipt of each specimen;

(F) Maintain electronically the screening results, demographic information, and case management information for each properly collected and submitted specimen received by the bureau for not less than twenty one years; and

(G) Provide reports regarding unsatisfactory specimens, disease specific reports and other reports to programs within the department of health, or to entities under grant or contract with the department of health, as prescribed and deemed necessary by the director to carry out the functions and responsibilities of the director and the department of health.

3701-55-04 Notification required.

(A) Prior to collecting the blood specimen for screening, the person designated in the applicable provision of this rule shall give each newborn child’s parent, legal guardian, or legal custodian, notice of the screening to be conducted by providing printed information describing the newborn genetic, endocrine and metabolic screening program.

(1) When a birth occurs in a hospital, the hospital shall provide the information;

(2) When a birth occurs in a freestanding birthing center, the freestanding birthing center shall provide the information;

(3) When a birth occurs outside a hospital or freestanding birthing center, the attending physician, the certified nurse midwife, the certified nurse practitioner or the clinical nurse specialist shall provide the information;

(4) If there is no physician, certified nurse midwife, certified nurse practitioner or clinical nurse specialist in attendance at the time of birth, upon notification of the birth, the health commissioner of the health district in which the birth occurred shall provide the information.

(B) For purposes of screening for krabbe disease, the designated person as listed in paragraph (A) of this rule shall provide information to the parent, legal guardian, or legal custodian of their right to forgo the screening. If the parent, legal guardian, or legal custodian communicates the decision to forgo this screening, the designated person must document and submit this response to the bureau of public health laboratory in a manner prescribed by the director.

(C) The director shall provide the printed information required by this rule to hospitals, freestanding birthing centers, health commissioners, physicians, certified nurse midwives, certified nurse practitioners and clinical nurse specialists.

(D) The director shall conduct educational programs for hospital and freestanding birthing center newborn screening coordinators, physicians, certified nurse midwives, certified nurse practitioners and clinical nurse specialists, nurses, laboratory staff and others involved in the collection and follow-up of newborn screening specimens.

3701-55-05 Initial collection.

(A) The person responsible for causing the initial blood specimen to be collected for screening under this rule shall be as follows:

(1) For births which occur in a hospital or freestanding birthing center, the child’s attending physician, the certified nurse midwife, the certified nurse practitioner or the clinical
Chapter 4. Minors, Birth and Abortion
Part III. Birth

nurse specialist shall cause the initial blood specimen to be collected from each newborn child prior to discharge from the newborn nursery.

(a) For a newborn child who remains in a hospital or a freestanding birthing center for at least twenty-four hours following birth, the blood specimen shall be collected as soon as possible after twenty-four hours of age, but no later than when the child reaches five days of age;

(b) For a newborn child who is discharged to go home from a hospital or freestanding birthing center prior to twenty-four hours of age, the blood specimen shall be collected prior to discharge;

(c) For a newborn child who is transferred to another hospital prior to the collection of the blood specimen, the blood specimen shall be collected at the receiving hospital as soon as possible after twenty-four hours of age, but no later than when the child reaches five days of age.

(2) For births which occur outside a hospital or freestanding birthing center, the attending physician, the certified nurse midwife, the certified nurse practitioner or the clinical nurse specialist shall cause the blood specimen to be collected. The physician, certified nurse midwife, certified nurse practitioner, or clinical nurse specialist shall cause the the blood specimen to be collected as soon as possible after twenty-four hours of age, but no later than when the child reaches five days of age.

(3) For births which occur outside a hospital or freestanding birthing center when no physician, certified nurse midwife, certified nurse practitioner or clinical nurse specialist is in attendance, the health commissioner, shall cause a blood specimen to be collected within five business days after being notified by the local registrar of the birth of a child under this paragraph, but no sooner than when the child reaches twenty-four hours of age.

(B) An initial blood specimen shall be collected prior to a red blood cell transfusion when possible even if the newborn is less than twenty-four hours of age. A specimen collected from a child who has received a transfusion of red blood cells shall be so labeled.

(C) A specimen collected under this rule shall be sent to the bureau of public health laboratory for screening no later than two business days after it is collected.

(D) The person designated by this rule to collect the initial specimen shall cause a repeat specimen to be obtained within five business days after receiving notice from the bureau of public health laboratory that the first specimen is unsatisfactory. Unsatisfactory specimens include, but are not limited to, specimens that are received by the bureau more than fourteen days after they are collected.

(E) If the person responsible for collecting the repeat specimen is unable to locate the newborn child, he or she shall notify the health commissioner of the health district in which the mother, legal guardian, or legal custodian resides. The health commissioner shall make a reasonable effort to locate the child and cause a repeat specimen to be obtained. If the health commissioner is not able to locate the child within the thirty days, he or she may close the file.

3701-55-06 Twenty-four hour required second collection.

(A) If the initial specimen is collected from a child at less than twenty-four hours of age, the child's attending physician, certified nurse midwife, certified nurse practitioner or clinical nurse specialist and the hospital or freestanding birthing center shall make a reasonable effort to cause a repeat blood specimen to be collected from the child in accordance with the provisions of paragraph (B) of this rule.

(B) The repeat blood specimen shall be collected after the child reaches twenty-four hours of age but no later than when the child reaches ten days of age.

(C) A specimen collected under this rule shall be sent to the bureau of public health laboratory for screening no later than two business days after it is collected.
3701-55-07 Initial specimen abnormal.

This rule prescribes the procedures that apply if, upon screening of a specimen, the bureau of public health laboratory determines that the result indicates potential risk for one or more of the screened disorders.

(A) The director shall communicate the results to the following person, as applicable:
(1) If a child was born in a hospital or freestanding birthing center, the director shall communicate the results to the child's attending physician, child's primary medical provider, pediatrician, certified nurse midwife, certified nurse practitioner or clinical nurse specialist. If the director is unable to contact the attending physician, child's primary medical provider, pediatrician, certified nurse midwife, certified nurse practitioner or clinical nurse specialist, the director shall communicate the results to the newborn screening coordinator at the facility where the child was born.
(2) If the child was not born in a hospital or freestanding birthing center, the director shall communicate the results to the person designated in paragraph (A)(2) or (A)(3) of rule 3701-55-05 of the Administrative Code, as applicable.

(B) The person notified of the results by the director under paragraph (A) of this rule shall communicate the results to the child's parent, legal guardian, or legal custodian and shall obtain and submit a repeat blood specimen for screening or diagnostic testing in accordance with the following procedures:
(1) When the result indicates potential risk for a disorder listed in paragraphs (A)(1) to (A)(36) of rule 3701-55-02 of the Administrative Code, a screening or diagnostic test shall be obtained in accordance with paragraph (B)(3) of this rule as soon as possible, but no later than ten days after notification by the director.
(2) When the results are abnormal for a hemoglobin disease or hemoglobin trait, a diagnostic test shall be obtained in accordance with paragraph (B)(3) of this rule before the child reaches two months of age.
(3) Diagnostic specimens obtained under paragraphs (B)(1) and (B)(2) of this rule shall be submitted for testing to a laboratory certified under the Clinical Laboratory Improvement Act, 42 USC 263a as amended January 24, 2004, that reports results with normal pediatric reference ranges. That laboratory shall promptly transmit the results of the diagnostic test to the person who submitted the specimen.

(C) If after ten business days, the person responsible for obtaining and submitting the repeat specimen and/or diagnostic tests under paragraph (B) of this rule is unable to obtain a specimen from a newborn child with an initial screen result of a potential risk despite making a reasonable effort, he or she shall notify the health commissioner of the health district in which the mother, legal guardian, or legal custodian resides.

The health commissioner shall make a reasonable effort to locate the child and cause a second specimen to be obtained. If the health commissioner is not able to locate that child within thirty days, he or she may close the file.

(D) The health commissioner shall submit a report to the director, upon case closure, listing the names and other identifiers of newborns the health commissioner was unable to locate.

3701-55-08 Repeat abnormal screening.

(A) When a repeat screen or diagnostic test is conducted under paragraph (B) of rule 3701-55-07 of the Administrative Code, the person who submitted the specimen shall do the following:
(1) Communicate the results to the child's parent, legal, guardian or legal custodian;
(2) Communicate the results to the director; and
(3) Refer the child for further diagnostic testing, follow-up and management in accordance with the following, as applicable:

(a) A child with abnormal results on the diagnostic test for one or more of the disorders listed in paragraphs (A)(1) to (A)(34) of rule 3701-55-02 of the Administrative Code shall be referred to an appropriate specialist physician who is approved under rule 3701-43-03 of the Administrative Code as a provider for the program for medically handicapped children and is board certified in pediatric endocrinology, medical genetics, or immunology/infectious diseases, or to a cystic fibrosis center approved for the program for medically handicapped children.

(b) A child with abnormal results on the screen for sickle cell disease, Sickle C disease, Sickle Beta Thalassemia, Alpha Thalassemia (major or intermedia), or Beta Thalassemia (major or H disease) shall be referred to a physician who is approved under rule 3701-43-03 of the Administrative Code as a provider for the program for medically handicapped children and is board certified in pediatric hematology.

(c) A child with abnormal results on diagnostic tests for sickle cell and other hemoglobinopathies shall be referred to a state funded Ohio regional sickle cell project for hemoglobin counseling and follow-up.

(B) The physician to whom a child is referred pursuant to paragraph (A) of this rule shall notify the director of results and disposition of the child within thirty days of the referral.

(C) The director may share newborn screening information obtained pursuant to this chapter and from other sources with programs within the department of health and with individuals or entities under grant or contract with the department of health to assist in locating a newborn child, the child's parent, legal guardian, or legal custodian and to otherwise carry out the functions and responsibilities of the director and the department of health.

3701-55-09 Religious exception.

(A) The provisions of this chapter requiring screening of newborn children do not apply if the parents of the child object thereto on the grounds that such screening conflicts with their religious tenets and practices.

(B) Refusal to consent to the newborn screening must be documented on forms provided by the Ohio department of health or must meet the minimum warning requirements set forth on the Ohio department of health forms. A copy of the refusal form or other documentation of parental refusal shall be sent to the Ohio department of health.

3701-55-10 Supplemental studies.

The director may conduct supplemental studies of the initial blood specimen collected pursuant to rule 3701-55-05 of the Administrative Code for the purpose of determining whether additional genetic, endocrine, or metabolic screening is necessary. The results of such supplemental studies will assist in determining whether additional screening can help detect other genetic, endocrine or metabolic disorders that cause disability if undiagnosed and untreated for which a medically accepted treatment is available. No additional blood samples or specimens shall be required to conduct a supplemental study or screening.

(A) Each supplemental screening shall be completed by the bureau of public health laboratory within seven business days after receiving the properly collected and submitted specimen.

(B) If upon supplemental screening of a specimen, the bureau of public health laboratory determines that a result indicates a potential risk for one or more of the supplemental screenings disorders, the director shall communicate the results to the following person, as applicable:

1) If the child was born in a hospital or freestanding birthing center, to the child's
attending physician, certified nurse midwife, certified nurse practitioner, or clinical nurse specialist. If the director is unable to contact the attending physician, certified nurse midwife, certified nurse practitioner, or clinical nurse specialist, the director shall communicate the results to the newborn screening coordinator at the facility where the child was born.

(2) If the child was not born in a hospital or freestanding birthing center, the director shall communicate the results to:
   (a) The attending physician, certified nurse midwife, certified nurse practitioner or the clinical nurse specialist in attendance; or
   (b) The health commissioner of the health district in which the mother, legal guardian, or legal custodian resides, if there was no attending physician, certified nurse midwife, certified nurse practitioner or clinical nurse specialist in attendance. The health commissioner shall make a reasonable effort to locate the child's mother, legal guardian or legal custodian of the child, and to notify the mother, legal guardian or legal custodian of the child of the results of the supplemental screening.

3701-55-20 Fees for genetic services fund; sickle cell fund.

In addition to the laboratory fee authorized by rule 3701-49-01.1 of the Administrative Code, the director of health shall charge and collect a fee of twenty-six dollars and thirty-one cents for performing genetic, endocrine, and metabolic disorder screenings required by section 3701.501 of the Revised Code and this chapter. The fee shall be disbursed as follows:
   (A) Twenty dollars and twenty-six cents shall be deposited in the state treasury to the credit of the genetics services fund. Twelve dollars and twenty-four cents of each fee credited to the genetic services fund shall be used to defray the costs of programs authorized by section 3701.502 of the Revised Code. Four dollars and eighty-seven cents from each fee credited to the genetics services fund shall be used to defray the cost of programs that provide genetic counseling and education to families of newborns with abnormal newborn screening results for cystic fibrosis.
   (B) Six dollars and five cents shall be deposited into the state treasury to the credit of the sickle cell fund. Money credited to the sickle cell fund shall be used to defray costs of programs authorized under section 3701.131 of the Revised Code.

Inflammation of the Eyes of Newborns

3701.51 Inflammation of a newborn’s eyes.

Any inflammation, swelling, or redness in either one or both eyes of any infant, either apart from or together with any unnatural discharge from the eyes of such infant, independent of the nature of the infection, if any, occurring any time within two weeks after the birth of such infant, shall be known as “inflammation of the eyes of the newborn.” Any inflammation of the conjunctiva or cornea, either apart from or together with any unnatural discharge from the eyes, occurring at any time after two weeks after birth, if caused by the gonococcus, shall be known as “gonorrheal ophthalmia.”

3701.52 Newborn eye inflammation; duty to report.

Every physician, surgeon, obstetrician, certified nurse-midwife, nurse, maternity home or hospital of any nature, parent, relative, or any others attendant on any person with inflammation of the eyes, knowing either condition, defined in section 3701.51 of the Revised Code, to exist, within six hours thereafter, shall report such facts, as the department of health shall direct, to the
Chapter 4. Minors, Birth and Abortion
Part III. Birth

health commissioner of the city or general health district within which such person may reside.

3701.55 Use of prophylactic against newborn eye inflammation.

Every physician, certified nurse-midwife, or other person in attendance at childbirth shall, immediately after the birth, use in the eyes of the newborn child some prophylactic against inflammation of the eyes of such child, and shall make a record on the birth certificate of the prophylactic used.

Birth Defects Information System

3705.30 Director of Health to establish birth defects information system.

(A) As used in this section:
(1) “Freestanding birthing center” has the same meaning as in section 3702.141 of the Revised Code.
(2) “Hospital” means a hospital classified under section 3701.07 of the Revised Code as a general hospital or children's hospital.
(3) “Physician” means an individual authorized under Chapter 4731 of the Revised Code to practice medicine and surgery or osteopathic medicine and surgery.

(B) The director of health shall establish and, if funds for this purpose are available, implement a statewide birth defects information system for the collection of information concerning congenital anomalies, stillbirths, and abnormal conditions of newborns.

(C) If the system is implemented under division (B) of this section, all of the following apply:
(1) The director may require each physician, hospital, and freestanding birthing center to report to the system information concerning all patients under five years of age with a primary diagnosis of a congenital anomaly or abnormal condition. The director shall not require a hospital, freestanding birthing center, or physician to report to the system any information that is reported to the director or department of health under another provision of the Revised Code or Administrative Code.
(2) On request, each physician, hospital, and freestanding birthing center shall give the director or authorized employees of the department of health access to the medical records of any patient described in division (C)(1) of this section. The department shall pay the costs of copying any medical records pursuant to this division.
(3) The director may review vital statistics records and shall consider expanding the list of congenital anomalies and abnormal conditions of newborns reported on birth certificates pursuant to section 3705.08 of the Revised Code.

(D) A physician, hospital, or freestanding birthing center that provides information to the system under division (C) of this section shall not be subject to criminal or civil liability for providing the information.

3705.31 System purpose and uses.

If implemented under section 3705.30 of the Revised Code, the birth defects information system may be used for all of the following purposes:
(A) To identify and describe congenital anomalies, stillbirths, and abnormal conditions of newborns;
(B) To detect trends and epidemics in congenital anomalies, stillbirths, and abnormal conditions of newborns;
(C) To quantify morbidity and mortality of congenital anomalies and abnormal conditions.
of newborns;

(D) To stimulate epidemiological research regarding congenital anomalies, stillbirths, and abnormal conditions of newborns;

(E) To identify risk factors for congenital anomalies, stillbirths, and abnormal conditions of newborns;

(F) To facilitate intervention in and prevention of congenital anomalies, stillbirths, and abnormal conditions of newborns;

(G) To facilitate access to treatment for congenital anomalies and abnormal conditions of newborns;

(H) To inform and educate the public about congenital anomalies, stillbirths, and abnormal conditions of newborns.

3705.32 Confidentiality.

(A) Except as provided in this section, records received and information assembled by the birth defects information system pursuant to section 3705.30 of the Revised Code are confidential medical records.

(B)(1) The director of health may use information assembled by the system to notify parents, guardians, and custodians of children with congenital anomalies or abnormal conditions of medical care and other services available for the child and family.

(2) The director may disclose information assembled by the system with the written consent of the parent or legal guardian of the child who is the subject of the information.

(C)(1) Access to information assembled by the system shall be limited to the following persons and government entities:

(a) The director of health;

(b) Authorized employees of the department of health;

(c) Qualified persons or government entities that are engaged in demographic, epidemiological, or similar studies related to health and health care provision.

(2) The director shall give a person or government entity described in division (C)(1)(c) of this section access to the system only if the person or a representative of the person or government entity signs an agreement to maintain the system's confidentiality.

(3) The director shall maintain a record of all persons and government entities given access to the system. The record shall include all of the following information:

(a) The name of the person who authorized access to the system;

(b) The name, title, and organizational affiliation of the person or government entity given access to the system;

(c) The dates the person or government entity was given access to the system;

(d) The specific purpose for which the person or government entity intends to use the information.

(4) The record maintained pursuant to division (C)(3) of this section is a public record, as defined in section 149.43 of the Revised Code.

(5) A person who violates an agreement described in division (C)(2) of this section may be denied further access to confidential information maintained by the director.

(D) The director may disclose information assembled by the system in summary, statistical, or other form that does not identify particular individuals or individual sources of information.

3705.33 Requesting removal of information from system.

As used in this section, “local health department” means a health department operated by the board of health of a city or general health district or the authority having the duties of a
board of health under section 3709.05 of the Revised Code.

A child's parent or legal guardian who wants information concerning the child removed from the birth defects information system shall request from the local health department or the child's physician a form prepared by the director of health. On request, a local health department or physician shall provide the form to the child's parent or legal guardian. The individual providing the form shall discuss with the child's parent or legal guardian the information contained in the system. If the child's parent or legal guardian signs the form, the department or physician shall forward it to the director. On receipt of the signed form, the director shall remove from the system any information that identifies the child.

3701-57-01 Birth defects reporting system; definitions.

As used in this chapter
(A) “Abnormal condition” means any condition established at conception or acquired in utero which results in a morphologic (structural), metabolic (biochemical), functional or behavioral derangement necessitating medical or other intervention.
(B) “Birth defect” means an abnormal condition resulting from an error of metabolism (biochemical), morphogenesis (structural) or both, which is either established at conception or in utero including congenital tumors and birth marks (hamartoneoplasia).
(C) “Birth Defects Information System” or “system” means the collection and maintenance of information regarding abnormal conditions, birth defects and congenital anomalies of fetal deaths and of children from birth to five years of age, and the provision of referral services to families with a child from birth to five years of age with a birth defect. In Ohio, the system is named the “Ohio Connections for Children with Special Needs” or “OCCSN”.
(D) “Congenital anomaly” means an error of morphogenesis (structural) which is either established at conception or acquired during intrauterine life.
(E) “Director” means the director of the Ohio department of health or his or her designee.
(F) “Freestanding birthing center” means any facility in which deliveries routinely occur, regardless of whether the facility is located on the campus of another health care facility, and which is licensed under Chapter 3711 of the Revised Code as level one, two, or three maternity unit or a limited maternity unit.
(G) “Hospital” means a hospital classified under section 3701.07 of the Revised Code as a general hospital or children's hospital.
(H) “Local health department” means a health department operated by the board of health of a city or general health district or the authority having the duties of a board of health under section 3709.05 of the Revised Code.
(I) “Physician” means an individual authorized under Chapter 4731 of the Revised Code to practice medicine and surgery or osteopathic medicine and surgery.
(J) “Referral services” means a formal process to assure that parents or guardians of children with birth defects are informed of medical and support services for which they may be eligible in order to improve health outcomes and/or enhance the quality of their children's lives.
(K) “Stillbirth” or “fetal death” means death of a product of conception of at least twenty weeks of gestation prior to the complete expulsion or extraction from its mother which, after such expulsion or extraction, does not breathe or show any other evidence of life such as beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles.
(L) “Surveillance” means the ongoing systematic collection, analysis, interpretation and dissemination of outcome-specific data for use in the planning, implementation and evaluation of public health practice.
3701-57-02 Reporting requirements.

(A) Each physician, hospital and freestanding birthing center shall report to the birth defects information system information concerning all children from birth to five years of age with any of the following abnormal conditions, birth defects and congenital abnormalities:

(1) Anencephalus;
(2) Spina bifida;
(3) Congenital cataract;
(4) Aniridia;
(5) Truncus arteriosus;
(6) Transposition of great arteries;
(7) Tricuspid atresia;
(8) Tetralogy of Fallot;
(9) Pulmonary atresia;
(10) Congenital stenosis of the aortic valve;
(11) Hypoplastic left heart syndrome;
(12) Coarctation of aorta;
(13) Total anomalous pulmonary venous return;
(14) Choanal atresia;
(15) Cleft palate;
(16) Cleft lip;
(17) Cleft palate with cleft lip;
(18) Esophageal atresia;
(19) Atresia and stenosis of large intestine, rectum and anal canal;
(20) Hirschsprung disease;
(21) Biliary atresia;
(22) Intestinal malrotation and volvulus;
(23) Renal agenesis;
(24) Gastroschisis;
(25) Omphalocele;
(26) Diaphragmatic hernia;
(27) Trisomy 13;
(28) Trisomy 18;
(29) Trisomy 21;
(30) Turner syndrome;
(31) Klinefelter syndrome;
(32) Disorders of sexual development (ambiguous genitalia);
(33) Fetal alcohol syndrome;
(34) Long QT syndrome;
(35) Velo-cardio-facial syndrome (22q11 deletion);
(36) Neurofibromatosis type 1;
(37) Spinal muscular atrophy;
(38) Tuberous sclerosis;
(39) Stickler syndrome, Treacher Collins' syndrome, Pierre Robin syndrome, Goldenhar syndrome; and
(40) Osteogenesis imperfecta.

(B) Each physician, hospital and freestanding birthing center shall report cases as described in paragraph (A) of this rule in an electronic format as prescribed by the director. The report shall contain information regarding the child which includes:

(1) Medical record number;
(2) Child's name;
Chapter 4. Minors, Birth and Abortion
Part III. Birth

(3) Child's county of residence;
(4) Child's address;
(5) Phone number of child's parent or guardian;
(6) Parent/guardian name;
(7) Child's date of birth;
(8) Child's gender;
(9) Child's race;
(10) Child's hispanic ethnicity;
(11) Date of encounter or discharge;
(12) Diagnostic code for the birth defect being reported;
(13) Child's date of death, if applicable;
(14) Mother's maiden name;
(15) Mother's date of birth;
(16) Mother's race;
(17) Mother's hispanic ethnicity;
(18) Reporting hospital Ohio department of health hospital number; and
(19) Date of report.

(C) Each physician, hospital and freestanding birthing center shall report to the Ohio department of health at least quarterly, all new cases from the previous quarter unless the physician, hospital, or freestanding birthing center has evidence that the case has already been reported.

(D) All physicians, hospitals and freestanding birthing centers providing diagnostic or treatment services to individuals with birth defects as specified in paragraph (A) of this rule shall grant to the director, or those representatives authorized in accordance with division (C) of section 3705.32 of the Revised Code, access to records that identify cases of birth defects.

(E) A physician, hospital, or freestanding birthing center is not subject to liability in an action for damages, or other relief for furnishing the information including records, reports, statements, notes, memoranda or other information to the director as required by this rule, or to a qualified person or governmental entity authorized by division (C) of section 3705.32 of the Revised Code.

(F) The director shall establish a form for use by parents and legal guardians who seek to have identifying information regarding their children removed from the birth defects information system. The director shall make the form available to hospitals, local health departments and physicians.

(G) The director shall make available to the state's birth defects information system, the same information listed in paragraph (B) of this rule for newborns diagnosed with disorders on the state's mandated newborn screening panel listed in rule 3701-55-02 of the Administrative Code.

3701-57-03 Referral services.

Ohio department of health birth defects information system staff or appropriate staff from community programs may contact parents and legal guardians of children reported to the birth defects information system to offer referral information for specialty physicians and other agencies and programs such as help me grow early intervention, regional comprehensive genetics centers, public health nurses at local health departments, and the “Children with Medical Handicaps Program” (CMH).

3701-57-04 Confidentiality, research.

(A) Any information, data or reports with respect to a birth defects case that is furnished
to, or obtained by, the birth defects information system or by the director shall be confidential and shall be used for one or more of the following purposes:

(1) For medical research studies including demographic, epidemiologic, teratologic, or similar studies related to health and health care provision;

(2) To inform parents, guardians and custodians of children with birth defects of medical care and other services available for the child and family;

(3) To provide data regarding birth defects in Ohio to the “National Birth Defects Prevention Network”; and

(4) To distribute reports of information as required by section 3705.36 of the Revised Code.

(B) Qualified persons or government entities engaged in demographic, teratologic, epidemiologic or similar studies related to health and health care provision may be given access to confidential information if all the following conditions are met and if the project is approved by the Ohio department of health's institutional review board:

(1) The person requesting to access the data initially meets with the birth defects program administrator or other pertinent Ohio department of health staff to discuss the proposed study concept and programmatic data elements requested.

(2) Following the outcome of paragraph (B)(1) of this rule, the person conducting the study submits a complete application to the Ohio department of health's institutional review board and provides written information about:

(a) The purpose of the study;

(b) The nature of the data to be collected;

(c) How the researcher intends to analyze it;

(d) The records the researcher seeks to review, and;

(e) The safeguards the researcher will take to protect the identity of the patients whose records the researcher will be reviewing.

(C) Based on the results from the meeting and written information submitted to the Ohio department of health's institutional review board under paragraph (B) of this rule, the director shall determine that access to confidential information concerning individuals with birth defects shall be made available to persons engaged in demographic, epidemiologic, teratologic, or similar studies related to health and health care provision if the person or government entity signs an agreement to maintain the confidentiality of the information and the study meets the following standards:

(1) The study had clearly defined goals that pertain to birth defects diagnosis, prevention, treatment or service coordination;

(2) For case control studies, the research design used in the study will involve a sufficiently large sample size that any meaningful difference between cases and controls will be statistically significant. For other projects, the study will provide enough cases for meaningful analysis of the data for identification of potential risk factors and intervention strategies for birth defects treatment and prevention; and

(3) The study will be conducted by researchers who have the ability to analyze and interpret data.

(D) The director may disclose information assembled by the birth defects information system with the written consent of the parent or legal guardian of the child who is the subject of the information.

(E) The director may obtain and merge into the birth defects information system information reported to the Ohio department of health under another provision of the Revised Code or Administrative Code.

(F) Notwithstanding paragraphs (A) and (C) of this rule, the Ohio department of health may release confidential information concerning individuals with birth defects or congenital anomalies to the birth defects information system of another state, if the other state has entered
into a written reciprocal agreement with the Ohio department of health and the agreement provides that the state will comply with the confidentiality provision of this rule and that information identifying a child will not be released to any person without the written consent of the individual's parent or legal guardian.

(G) This rule does not prevent the release of information assembled by the birth defects information system in summary, statistical or other form that does not identify particular individuals or individual sources of information.

Part IV. Abandoned or Shaken Baby

2151.3515 Definitions.

As used in sections 2151.3515 to 2151.3535 of the Revised Code:
(A) “Emergency medical service organization,” “emergency medical technician-basic,” “emergency medical technician-intermediate,” “first responder,” and “paramedic” have the same meanings as in section 4765.01 of the Revised Code.
(B) “Emergency medical service worker” means a first responder, emergency medical technician-basic, emergency medical technician-intermediate, or paramedic.
(C) “Hospital” has the same meaning as in section 3727.01 of the Revised Code.
(D) “Hospital employee” means any of the following persons:
   (1) A physician who has been granted privileges to practice at the hospital;
   (2) A nurse, physician assistant, or nursing assistant employed by the hospital;
   (3) An authorized person employed by the hospital who is acting under the direction of a physician described in division (E)(1) of this section.
   (E) “Law enforcement agency” means an organization or entity made up of peace officers.
   (F) “Nurse” means a person who is licensed under Chapter 4723 of the Revised Code to practice as a registered nurse or licensed practical nurse.
   (G) “Nursing assistant” means a person designated by a hospital as a nurse aide or nursing assistant whose job is to aid nurses, physicians, and physician assistants in the performance of their duties.
   (H) “Peace officer” means a sheriff, deputy sheriff, constable, police officer of a township or joint police district, marshal, deputy marshal, municipal police officer, or a state highway patrol trooper.
   (I) “Physician” means an individual authorized under Chapter 4731 of the Revised Code to practice medicine and surgery, osteopathic medicine and surgery, or podiatric medicine and surgery.
   (J) “Physician assistant” means an individual who holds a current, valid license to practice as a physician assistant issued under Chapter 4730 of the Revised Code.

2151.3516 Delivery of abandoned child by parent or authorized person.

A parent may voluntarily deliver his or her child who is not older than thirty days, without intent to return for the child, to a person specified in section 2151.3517 of the Revised Code or a newborn safety incubator provided by an entity described in that section that meets the requirements of section 2151.3532 of the Revised Code.
2151.3517 Who can accept an abandoned baby.

The following entities or persons, while acting in an official capacity on behalf of any of the entities, shall take possession of a child delivered in accordance with section 2151.3516 of the Revised Code:

(A) A law enforcement agency or a peace officer employed by the agency;
(B) A hospital or a person granted the privilege to practice at, or employed by, the hospital;
(C) An emergency medical service organization or an emergency medical service worker employed by or providing services to the organization.

2151.3518 Duties upon taking possession of abandoned baby.

(A) On taking possession of a child pursuant to section 2151.3517 of the Revised Code, a law enforcement agency, hospital, or emergency medical service organization shall do all the following:

1. Perform any act necessary to protect the child's health or safety;
2. Notify the public children services agency of the county in which the agency, hospital, or organization is located that the child has been taken into possession;
3. If possible, make available to the parent who delivered the child forms developed under section 2151.3534 of the Revised Code that are designed to gather medical information concerning the child and the child's parents;
4. If possible, make available to the parent who delivered the child written materials developed under section 2151.3534 of the Revised Code that describe services available to assist parents and newborns;
5. If the child has suffered a physical or mental wound, injury, disability, or condition of a nature that reasonably indicates abuse or neglect of the child, attempt to identify and pursue the person who delivered the child.

(B) An emergency medical service worker who takes possession of a child shall, in addition to any act performed under division (A)(1) of this section, perform any medical service the worker is authorized to perform that is necessary to protect the physical health or safety of the child.

2151.3519 Action required by children services regarding abandoned baby.

On receipt of a notice given pursuant to section 2151.3518 of the Revised Code that an emergency medical service organization, a law enforcement agency, or hospital has taken possession of a child and in accordance with rules of the department of job and family services, a public children services agency shall do all of the following:

(A) Consider the child to be in need of public care and protective services;
(B) Accept and take emergency temporary custody of the child;
(C) Provide temporary emergency care for the child, without agreement or commitment;
(D) Make an investigation concerning the child;
(E) File a motion with the juvenile court of the county in which the agency is located requesting that the court grant temporary custody of the child to the agency or to a private child placing agency;
(F) Provide any care for the child that the public children services agency considers to be in the best interest of the child, including placing the child in shelter care;
(G) Provide any care and perform any duties that are required of public children services agencies under section 5153.16 of the Revised Code;
(H) Prepare and keep written records of the investigation of the child, of the care and treatment afforded the child, and any other records required by the department of job and family services.

2151.3525 Immunity and abandoned baby.

(A) A parent does not commit a criminal offense under the laws of this state and shall not be subject to criminal prosecution in this state for the act of voluntarily delivering a child under section 2151.3516 of the Revised Code.

(B) A person who delivers or attempts to deliver a child who has suffered any physical or mental wound, injury, disability, or condition of a nature that reasonably indicates abuse or neglect of the child is not immune from civil or criminal liability for abuse or neglect.

(C) A person or entity that takes possession of a child pursuant to section 2151.3517 of the Revised Code or takes emergency temporary custody of and provides temporary emergency care for a child pursuant to section 2151.3519 of the Revised Code is immune from any civil liability that might otherwise be incurred or imposed as a result of these actions, unless the person or entity has acted in bad faith or with malicious purpose. The immunity provided by this division does not apply if the person or entity has immunity from civil liability under section 9.86, 2744.02, or 2744.03 of the Revised Code for the action in question.

(D) A person or entity that takes possession of a child pursuant to section 2151.3517 of the Revised Code or takes emergency temporary custody of and provides temporary emergency care for a child pursuant to section 2151.3519 of the Revised Code is immune from any criminal liability that might otherwise be incurred or imposed as a result of these actions, unless the person or entity has acted in bad faith or with malicious purpose.

(E) Divisions (C) and (D) of this section do not create a new cause of action or substantive legal right against a person or entity, and do not affect any immunities from civil liability or defenses established by another section of the Revised Code or available at common law, to which a person or governmental entity may be entitled under circumstances not covered by this section.

2151.3526 Abandoned baby and parental anonymity.

(A) A parent who voluntarily delivers a child under section 2151.3516 of the Revised Code has the absolute right to remain anonymous. The anonymity of a parent who voluntarily delivers a child does not affect any duty imposed under section 2151.3517 or 2151.3518 of the Revised Code. A parent who voluntarily delivers a child may leave the place at which the parent delivers the child at any time after the delivery of the child.

(B) Notwithstanding division (A) of this section, a parent who delivers or attempts to deliver a child who has suffered any physical or mental wound, injury, disability, or condition of a nature that reasonably indicates abuse or neglect of the child does not have the right to remain anonymous and may be subject to arrest pursuant to Chapter 2935 of the Revised Code.

2151.3528 Abandoned baby and medical forms.

A parent who voluntarily delivers a child under section 2151.3516 of the Revised Code may complete all or any part of the medical information forms made available under division (A)(3) of section 2151.3518 of the Revised Code. The parent may deliver the fully or partially completed forms at the same time as delivering the child or at a later time. The parent is not required to complete all or any part of the forms.
2151.3529 Abandoned baby and refusing medical forms.

A parent who voluntarily delivers a child under section 2151.3516 of the Revised Code may refuse to accept the materials made available under division (A)(4) of section 2151.3518 of the Revised Code.

2151.3530 Abandoned baby and prohibited actions.

(A) No person described in section 2151.3517 of the Revised Code and no other person employed by an entity described in that section shall do the following with respect to a parent who voluntarily delivers a child under that section:

1. Coerce or otherwise try to force the parent into revealing the identity of the child's parents;
2. Pursue or follow the parent after the parent leaves the place at which the child was delivered;
3. Coerce or otherwise try to force the parent not to desert the child;
4. Coerce or otherwise try to force the parent to complete all or any part of the medical information forms made available under division (A)(3) of section 2151.3518 of the Revised Code;
5. Coerce or otherwise try to force the parent to accept the materials made available under division (A)(4) of section 2151.3518 of the Revised Code.

(B) Divisions (A)(1) and (2) of this section do not apply with respect to a person who delivers or attempts to deliver a child who has suffered any physical or mental wound, injury, disability, or condition of a nature that reasonably indicates abuse or neglect of the child.

2151.3532 Newborn safety incubators.

Not later than one hundred eighty days after the effective date of this section, the director of the department of health shall adopt rules in accordance with Chapter 119 of the Revised Code governing newborn safety incubators provided by entities described in section 2151.3517 of the Revised Code. The rules shall provide for all of the following:

(A) Sanitation standards;
(B) Procedures to provide emergency care for a child delivered to an incubator;
(C) Manufacturing and manufacturer standards;
(D) Design and function requirements that include the following:
1. Take into account installation at a law enforcement agency, a hospital, or an emergency medical service organization;
2. Allow a child to be placed anonymously from outside the facility;
3. Lock the incubator after a child is placed in it so that a person outside the facility is unable to access the child;
4. Provide a controlled environment for the care and protection of the child;
5. Provide notification to a centralized location in the facility within thirty seconds of a child being placed in the incubator;
6. Trigger a 9-1-1 call if a facility does not respond within a reasonable amount of time after a child is placed in the facility's incubator.

(E) Operating policies, supervision, and maintenance requirements for an incubator, including requirements that only a peace officer, emergency medical service worker, or hospital employee supervise the incubator and take custody of a child placed in it;

(F) Qualifications for persons to install incubators;
(G) Procedures and forms for the registration of qualified incubator installers;
(H) Costs for registering and regulating incubators and fees to cover those costs;
Chapter 4. Minors, Birth and Abortion
Part IV. Abandoned or Shaken Baby

495

(I) Creating and posting signs to be placed near or on incubators to provide information about using them;
(J) Enforcement of and remedies for violations for failure to comply with the requirements governing incubators;
(K) Any other requirement the department considers necessary to ensure the safety and welfare of a child placed in an incubator.

2151.3535 Jobs and family services to distribute forms.

(A) The director of job and family services shall distribute the medical information forms and written materials promulgated under section 2151.3534 of the Revised Code to entities permitted to receive a deserted child, to public children services agencies, and to other public or private agencies that, in the discretion of the director, are best able to disseminate the forms and materials to the persons who are most in need of the forms and materials.

The department of job and family services shall develop an educational plan, in collaboration with the Ohio family and children first cabinet council, for informing at-risk populations who are most likely to voluntarily deliver a child under section 2151.3516 of the Revised Code concerning the provisions of sections 2151.3516 to 2151.3535 of the Revised Code.

(B) If the department of job and family services determines that money in the putative father registry fund created under section 2101.16 of the Revised Code is more than is needed to perform its duties related to the putative father registry, the department may use surplus moneys in the fund for costs related to the distribution of forms and materials pursuant to this section.

3701-86-01 Registration, renewal of registration, annual report of compliance, and voluntary termination of a registration for newborn safety incubator locations.

(A) Prior to utilizing an installed newborn safety incubator, each law enforcement agency, hospital, or emergency medical service organization that has a newborn safety incubator installed at a location shall register with the Ohio department of health. This registration shall include:

(1) A completed “Newborn Safety Incubator - Location” registration form obtained from the Ohio department of health;
(2) An attestation of compliance, signed by the chief operating officer, chief executive officer, or administrator for the location where the newborn safety incubator is installed, affirming compliance with the applicable provisions of this chapter; and
(3) A nonrefundable registration fee of five hundred dollars made payable to the “Treasurer, State of Ohio.”

(B) The registration of a newborn safety incubator shall be valid for a period of three years from the initial date of registration.

(C) Each law enforcement agency, hospital, or emergency medical service organization that has a newborn safety incubator installed at a location shall submit an annual attestation of compliance affirming the location's continuing compliance with the rules set forth in Chapter 3701-86 of the Administrative Code. The form shall be submitted to the Ohio department of health within thirty days of the anniversary of the initial or previous renewal registration date.

(D) Every three years, each law enforcement agency, hospital, or emergency medical service organization that has a registered newborn safety incubator installed shall submit a renewal registration to the Ohio department of health within thirty days of the initial date of registration or the date of previous the previous registration renewal. This renewal registration shall include:
Chapter 4. Minors, Birth and Abortion
Part IV. Abandoned or Shaken Baby

Abandoned or Shaken Baby

(1) A completed “Newborn Safety Incubator - Location” registration form obtained from the Ohio department of health;

(2) An attestation of compliance signed by the chief operating officer, chief executive officer, or administrator for the location where the newborn safety incubator is installed, affirming compliance with the applicable provisions of this chapter; and

(3) A nonrefundable registration fee of five hundred dollars made payable to the “Treasurer, State of Ohio.”

(E) The director of the Ohio department of health may, at any time, request additional information that the director determines to be necessary to assess compliance with the applicable criteria, standards, and requirements established by section 2151.3532 of the Revised Code and Chapter 3701-86 of the Administrative Code. The law enforcement agency, hospital, or emergency medical service organization shall submit any additional information requested by the director within thirty days of the director’s request. The director may require any additional information requested to be submitted in less than thirty days if health or safety is of concern.

(F) A law enforcement agency, hospital, or emergency medical service organization that has a newborn safety incubator installed may choose to voluntarily terminate their registration by doing the following:

(1) Removing the newborn safety incubator from use by locking the access portal door and removing all signage for the newborn safety incubator; and

(2) Notifying the Ohio department of health within seven days of removing the newborn safety incubator from use.

3701-86-02 Registration of installers.

(A) Only the following individual’s may register with the Ohio department of health to perform the installation of the access portal door and alarm system components of a newborn safety incubator:

(1) Access portal door installers shall be a county or city licensed general contractor. The licensed general contractor maintains ultimate responsibility for all work performed in the process of the construction of the access portal door by employees and subcontractors.

(2) Access portal door alarm system installers shall be:

(a) A licensed electrical contractor; or

(b) A telecommunications installation professional.

(B) Prior to engaging in the installation of newborn safety incubator access portal door or alarm system, the individual’s authorized in paragraph (A) of this rule, shall register with the department of health. This registration shall include:

(1) A completed “Newborn Safety Incubator - Installer” registration form obtained from the Ohio department of health;

(2) Documentation of occupational license as a general contractor, electrical contractor, or of employment as a telecommunications installation professional; and

(3) A nonrefundable registration fee of two hundred fifty dollars made payable to the “Treasurer, State of Ohio.”

(C) A list of registered installers will be published to the Ohio department of health website.

(D) Registered installers may voluntarily terminate their registration and have their information removed from the list of registered installers by providing written notice to the Ohio department of health.

(E) Any individual who has voluntarily terminated their registration as an installer will be required to complete another registration with the Ohio department of health in accordance with
paragraph (B) of this rule prior to recommencing any action associated with the installation of a newborn safety incubator access portal or alarm system.

**3701-86-03 Location, environment and supervision of a newborn safety incubator.**

(A) In accordance with section 2151.3517 of the Revised Code, newborn safety incubators shall only be installed at locations of the following entities:

(1) Law enforcement agency;
(2) Hospital registered pursuant to section 3701.07 of the Revised Code; or
(3) Emergency medical service organization.

(B) Each location where a newborn safety incubator is installed shall have at least one individual authorized by section 2151.3517 of the Revised Code and outlined in paragraph (F) of this rule present and on duty in the facility at all times, twenty four hours a day, seven days a week to take possession of a surrendered child.

(C) Each location where a newborn safety incubator is installed shall post signage that clearly identifies the newborn safety incubator access portal door and provides both written and pictorial instruction to the surrendering parent to:

(1) Open the access portal door;
(2) Place the infant inside the medical bassinet; and
(3) Close the access portal door to engage the lock.

(D) The newborn safety incubator access portal door shall only be installed:

(1) On an exterior wall of an authorized facility listed in paragraph (A) of this rule that:
   (a) Ensures anonymity of the surrendering parent; and
   (b) Provides access to an area within the interior of the building that provides:
      (i) A climate controlled environment, including temperature control within the range of seventy-one to eighty-one degrees; and
      (ii) Air circulation that is free from pollutants, exhaust, chemical fumes, and smoke.
(2) In a manner that provides unencumbered access from the exterior of the building through the access portal door for the surrender of the child into the medical bassinet:

(E) The placement of the newborn safety incubator access portal door and medical bassinet within the interior of the building shall provide unencumbered access to the medical bassinet for an authorized individual, as outlined in paragraph (F) of this rule, responding to the alarm notification that a child has been surrendered into the newborn safety incubator.

(F) In accordance with section 2151.3517 of the Revised Code, only the following persons, while acting in an official capacity, shall take possession of a child who is thirty days old or younger, from a newborn safety incubator:

(1) A peace officer on behalf of the law enforcement agency that employs the officer;
(2) A hospital employee on behalf of the hospital that has granted the person privilege to practice at the hospital or that employs the person; or
(3) An emergency medical service worker on behalf of the emergency medical service organization that employs the worker or for which the worker provides services.

(G) Upon taking possession of a surrendered child from a newborn safety incubator, the law enforcement agency, hospital, or emergency medical service organization shall act in accordance with the requirements of section 2151.3517 of the Revised Code.

**3701-86-04 Installation of a newborn safety incubator access portal and newborn safety incubator.**

(A) The access portal door to the newborn safety incubator shall be installed by a licensed general contractor registered with the Ohio department of health in accordance with rule 3701-86-02 of the Administrative Code.
Chapter 4. Minors, Birth and Abortion
Part IV. Abandoned or Shaken Baby

(1) The access portal door shall:
(a) Lock automatically upon closure;
(b) May only be unlocked from the interior of the building;
(c) Trigger a series of alarms that, at a minimum, include:
   (i) An audible alarm triggered to a central location within the facility one minute after the
       opening of the access portal door; and
   (ii) An automatic call to 911 triggered from the alarm system if the alarm is not turned off
       from within the facility one minute of the commencement of the initial alarm.
(2) The access portal door alarm shall only be capable of being turned off from within the
    facility once a response is made to the newborn safety incubator.

(B) The access portal door alarm shall be:
(1) Wired into the existing structure's electrical or telecommunications system.
   (a) If wired into the structure's existing electrical system:
      (i) Be in compliance with the “National Electric Code” and “National Fire Code/National
          Fire Protection Agency” standards, if applicable;
      (ii) Be installed by a licensed electrical contractor registered with the Ohio department of
          health in accordance with rule 3701-86-02 of the Administrative Code; and
      (iii) If the facility has a secondary or back-up power supply, be wired into the secondary
          or back-up power supply to ensure continued operation of the alarm system during outages
          of the structure's primary power supply.
   (b) If wired into the structure's existing telecommunications network, installed by a
      telecommunications installation professional registered with the Ohio department of health in
      accordance with rule 3701-86-02 of the Administrative Code.
(2) Tested following installation to ensure the activation of the audible, 911, and
    disarming components of the system; and
(3) Tested at a minimum of once each quarter to ensure continued functionality.
   (a) Documentation of the required testing shall be maintained onsite by the location as
       long as the newborn safety incubator remains registered at the location; and
   (b) Documentation of the required testing shall be made available to the director upon
       request.

(C) Each newborn safety incubator shall:
(1) Be a medical bassinet in compliance with 21 CFR 880.5145 with the exception of
    bassinet wheels, which must be removed for installation in compliance with paragraph (C)(2) of
    this rule;
(2) Have the supporting frame of the medical bassinet physically anchored to a position
    that aligns the plastic basket or bed portion of the bassinet with the wall directly beneath the
    access portal door and prevents movement of the unit as a whole; and
(3) Provide a safe sleep environment. For the purpose of this rule, a safe sleep
    environment means the medical bassinet includes:
       (a) A firm flat bassinet mattress;
       (b) A bassinet mattress sheet that fits snugly on a mattress and overlaps the mattress so
           it cannot be dislodged by pulling on the corner of the sheet; and
       (c) Is free from any bedding, including pillows, bumpers, and blankets.

3701-86-05 Sanitation of a newborn safety incubator.

(A) The newborn safety incubator shall be checked at a minimum of twice daily for
    debris.
(B) The newborn safety incubator shall be cleaned at least:
   (1) Weekly; and
   (2) After any child surrender.
Chapter 4. Minors, Birth and Abortion
Part IV. Abandoned or Shaken Baby

(C) The cleaning of the bassinet shall include:
(1) An inspection for breaks in integrity that would impair either cleaning or disinfection/sterilization; and
(2) Sanitization of the basket or bed portion of the bassinet with an EPA-registered hospital disinfectant (e.g., phenolics) using the label's safety precautions and use directions. The surfaces of the bassinet shall be rinsed with water after sanitizing and then dried before being returned to use.
(D) Documentation of the required cleaning and sanitization shall be maintained onsite by the location as long as the newborn safety incubator remains registered at the location. Documentation shall be made available to the director upon request.

3701-86-06 Compliance actions, revocation of registration, and unregistered installation of a newborn safety incubator.

(A) When the director of the Ohio department of health determines that a failure to comply with the rules set forth in Chapter 3701-86 the Administrative Code exists, the entity or individual may be subject to enforcement in accordance with Chapter 119 of the Revised Code as follows:
(1) A fine of five hundred dollars may be imposed for:
(a) Failure of an authorized location to register or renew a registration for a newborn safety incubator as required by paragraph (A) of rule 3701-86-01 of the Administrative Code;
(b) Failure of an authorized location to submit the required annual attestation of compliance as required by paragraph (B) of rule 3701-86-01 of the Administrative Code;
(c) Use of an unregistered installer by an authorized location;
(d) Failure of an installer, as authorized in paragraph (A) of rule 3701-86-02 of the Administrative Code, to register in accordance with paragraph (B) of rule 3701-86-02 of the Administrative Code; or
(e) Failure of an authorized entity or installer to comply with any of the additional requirements set forth in Chapter 3701-86 of the Administrative Code.
(2) Following the imposition of an initial five hundred dollar penalty, a fine of one thousand dollars may be imposed for any continued non-compliance with any of the requirements set forth in Chapter 3701-86 of the Administrative Code.
(3) A fine of five thousand dollars shall be imposed upon any entity or individual for the installation of a newborn safety incubator at an unauthorized location.
(4) The director may revoke the registration of an authorized location or an installer for continued non-compliance with any of the requirements set forth in Chapter 3701-86 of the Administrative Code.
(5) Notwithstanding section 119.06 of the Revised Code, if the director determines that immediate action is necessary to protect the health and safety of infants surrendered to a newborn safety incubator, the director may issue a cease and desist order pursuant to this chapter prior to affording the location or installer the opportunity for a hearing. If the director does so, the director shall issue the order in writing and cause it to be delivered in accordance with section 119.07 of the Revised Code.
(B) The imposition of penalties imposed under this rule may be appealed in accordance with Chapter 119 of the Revised Code.
(C) If the department issues more than one order, any administrative hearing resulting from such orders may be consolidated into one hearing. Consolidation of the hearings does not affect any effective dates prescribed in the orders.
(D) All amounts collected from the imposition of fines under pursuant to this rule, shall be deposited into the state treasury to the credit of the general operations fund created under
section 3701.83 of the Revised Code for use in the administration and enforcement of this chapter.

3701.63 ODH to develop shaken baby syndrome education materials.

(A) As used in this section and sections 3701.64, 3701.66, and 3701.67 of the Revised Code:
(1) “Child day-care center,” “type A family day-care home,” and “licensed type B family day-care home” have the same meanings as in section 5104.01 of the Revised Code.
(2) “Child care facility” means a child day-care center, a type A family day-care home, or a licensed type B family day-care home.
(3) “Foster caregiver” has the same meaning as in section 5103.02 of the Revised Code.
(4) “Freestanding birthing center” has the same meaning as in section 3702.141 of the Revised Code.
(5) “Hospital” means a hospital classified pursuant to rules adopted under section 3701.07 of the Revised Code as a general hospital or children’s hospital and to which either of the following applies:
(a) The hospital has a maternity unit.
(b) The hospital receives care infants who have been transferred to it from other facilities and who have never been discharged to their residences following birth.
(6) “Infant” means a child who is less than one year of age.
(7) “Maternity unit” means the distinct portion of a hospital licensed as a maternity unit under Chapter 3711 of the Revised Code.
(8) “Other person responsible for the infant” includes a foster caregiver.
(9) “Parent” means either parent, unless the parents are separated or divorced or their marriage has been dissolved or annulled, in which case “parent” means the parent who is the residential parent and legal custodian of the child. “Parent” also means a prospective adoptive parent with whom a child is placed.
(10) “Shaken baby syndrome” means signs and symptoms, including, but not limited to, retinal hemorrhages in one or both eyes, subdural hematoma, or brain swelling, resulting from the violent shaking or the shaking and impacting of the head of an infant or small child.

(B) The director of health shall establish the shaken baby syndrome education program by doing all of the following:
(1) Developing educational materials that present readily comprehensible information on shaken baby syndrome;
(2) Making available on the department of health web site in an easily accessible format the educational materials developed under division (B)(1) of this section;
(3) Annually assessing the effectiveness of the shaken baby syndrome education program by doing all of the following:
(a) Evaluating the reports received pursuant to section 5101.135 of the Revised Code;
(b) Reviewing the content of the educational materials to determine if updates or improvements should be made;
(c) Reviewing the manner in which the educational materials are distributed, as described in section 3701.64 of the Revised Code, to determine if modifications to that manner should be made.

(C) In meeting the requirements under division (B) of this section, the director shall develop educational materials that, to the extent possible, minimize administrative or financial burdens on any of the entities or persons listed in section 3701.64 of the Revised Code.
Chapter 4. Minors, Birth and Abortion
Part IV. Abandoned or Shaken Baby

3701.64 Shaken baby syndrome materials; immunity.

(A) A copy of the shaken baby syndrome educational materials developed under section 3701.63 of the Revised Code shall be distributed in the following manner:

1. By child birth educators and the staff of obstetricians' offices, to an expectant parent who uses their services;
2. By the staff of pediatric physicians' offices, to any of the following who use their services: an infant's parent, guardian, or other person responsible for the infant;
3. By the staff of a hospital or freestanding birthing center, to an infant's parent, guardian, or other person responsible for the infant, before the child is discharged from the facility to the infant's residence following birth;
4. By the staff of the help me grow program established pursuant to section 3701.61 of the Revised Code, to an infant's parent, guardian, or other person responsible for the infant, during home-visiting services conducted in accordance with that section;
5. By each child care facility operating in this state, to each of its employees;
6. By a public children services agency, when the agency has initial contact with an infant's parent, guardian, or other person responsible for the infant.

(B) An entity or person required to distribute educational materials pursuant to division (A) of this section is not liable for damages in a civil action for injury, death, or loss to person or property that allegedly arises from an act or omission associated with the dissemination of those educational materials unless the act or omission constitutes willful or wanton misconduct.

An entity or person required to distribute educational materials in accordance with division (A) of this section is not subject to criminal prosecution or, to the extent that a person is regulated under Title XLVII of the Revised Code, professional disciplinary action under that title, for an act or omission associated with the dissemination of those educational materials.

This division does not eliminate, limit, or reduce any other immunity or defense that an entity or person may be entitled to under Chapter 2744 of the Revised Code, or any other provision of the Revised Code, or the common law of this state.

3701.66 Infant sleep education.

(A) As used in this section, “sudden unexpected infant death” means the death of an infant that occurs suddenly and unexpectedly, the cause of which is not immediately obvious prior to investigation.

(B) The department of health shall establish the safe sleep education program by doing all of the following:

1. By not later than sixty days after March 19, 2015, developing educational materials that present readily comprehensible information on safe sleeping practices for infants and possible causes of sudden unexpected infant death;
2. Making available on the department's internet web site in an easily accessible format the educational materials developed under division (B)(1) of this section;
3. Providing annual training classes at no cost to individuals who provide safe sleep education to parents and infant caregivers who reside in the urban and rural communities specified under section 3701.142 of the Revised Code, including child care providers as defined in section 2151.011 of the Revised Code, hospital staff and volunteers, local health department staff, social workers, individuals who provide home visiting services, and community health workers;
4. Beginning in 2015, annually assessing the effectiveness of the safe sleep education program by evaluating the reports submitted by child fatality review boards to the department pursuant to section 307.626 of the Revised Code.
(C) In meeting the requirements under division (B) of this section, the department shall
develop educational materials that, to the extent possible, minimize administrative or financial
burdens on any of the entities or persons required by division (D) of this section to distribute the
materials.

(D) A copy of the safe sleep educational materials developed under this section shall be
distributed by entities and persons with and in the same manner as the shaken baby syndrome
educational materials are distributed pursuant to section 3701.64 of the Revised Code.

An entity or person required to distribute the educational materials is not liable for
damages in a civil action for injury, death, or loss to person or property that allegedly arises from
an act or omission associated with the dissemination of those educational materials unless the
act or omission constitutes willful or wanton misconduct.

An entity or person required to distribute the educational materials is not subject to
criminal prosecution or, to the extent that a person is regulated under Title XLVII of the Revised
Code, professional disciplinary action under that title, for an act or omission associated with the
dissemination of those educational materials.

This division does not eliminate, limit, or reduce any other immunity or defense that an
entity or person may be entitled to under Chapter 2744 of the Revised Code, or any other
provision of the Revised Code, or the common law of this state.

(E) Each entity or person that is required to distribute the educational materials and has
infants regularly sleeping at a facility or location under the entity's or person's control shall adopt
an internal infant safe sleep policy. The policy shall specify when and to whom educational
materials on infant safe sleep practices are to be delivered to individuals working or volunteering
at the facility or location and be consistent with the model internal infant safe sleep policy
adopted under division (F) of this section.

(F) The director of health shall adopt a model internal infant safe sleep policy for use by
entities and persons that must comply with division (E) of this section. The policy shall specify
safe infant sleep practices, include images depicting safe infant sleep practices, and specify
sample content for an infant safe sleep education program that entities and persons may use
when conducting new staff orientation programs.

3701.67 Infant safe sleep crib.

(A) As used in this section:
(1) “Contractor” means a person who provides personal services pursuant to a contract.
(2) “Critical access hospital” means a facility designated as a critical access hospital by
the director of health under section 3701.073 of the Revised Code.
(3) “Crib” includes a portable play yard or other suitable sleeping place.
(B) Each hospital and freestanding birthing center shall implement an infant safe sleep
screening procedure. The purpose of the procedure is to determine whether there will be a safe
crib for an infant to sleep in once the infant is discharged from the facility to the infant's
residence following birth. The procedure shall consist of questions that facility staff or volunteers
must ask the infant's parent, guardian, or other person responsible for the infant regarding the
infant's intended sleeping place and environment.

The director of health shall develop questions that facilities may use when implementing
the infant safe sleep screening procedure required by this division. The director may consult
with persons and government entities that have expertise in infant safe sleep practices when
developing the questions.

(C) If, prior to an infant's discharge from a facility to the infant's residence following birth,
a facility other than a critical access hospital or a facility identified under division (D) of this
section determines through the procedure implemented under division (B) of this section that
the infant is unlikely to have a safe crib at the infant's residence, the facility shall make a good
faith effort to arrange for the parent, guardian, or other person responsible for the infant to obtain a safe crib at no charge to that individual. In meeting this requirement, the facility may do any of the following:

(1) Obtain a safe crib with its own resources;
(2) Collaborate with or obtain assistance from persons or government entities that are able to procure a safe crib or provide money to purchase a safe crib;
(3) Refer the parent, guardian, or other person responsible for the infant to a person or government entity described in division (C)(2) of this section to obtain a safe crib free of charge from that source;
(4) If funds are available for the cribs for kids program or a successor program administered by the department of health, refer the parent, guardian, or other person responsible for the infant to a site, designated by the department for purposes of the program, at which a safe crib may be obtained at no charge.

If a safe crib is procured as described in division (C)(1), (2), or (3) of this section, the facility shall ensure that the crib recipient receives safe sleep education and crib assembly instructions from the facility or another source. If a safe crib is procured as described in division (C)(4) of this section, the department of health shall ensure that the cribs for kids program or a successor program administered by the department provides safe sleep education and crib assembly instructions to the recipient.

(D) The director of health shall identify the facilities in this state that are not critical access hospitals and are not served by a site described in division (C)(4) of this section. The director shall identify not less than annually the facilities that meet both criteria and notify those that do so.

(E) When a facility that is a hospital registers with the department of health under section 3701.07 of the Revised Code or a facility that is a freestanding birthing center renews its license in accordance with rules adopted under section 3702.30 of the Revised Code, the facility shall report the following information to the department in a manner the department prescribes:

(1) The number of safe cribs that the facility obtained and distributed by using its own resources as described in division (C)(1) of this section since the last time the facility reported this information to the department;
(2) The number of safe cribs that the facility obtained and distributed by collaborating with or obtaining assistance from another person or government entity as described in division (C)(2) of this section since the last time the facility reported this information to the department;
(3) The number of referrals that the facility made to a person or government entity as described in division (C)(3) of this section since the last time the facility reported this information to the department;
(4) The number of referrals that the facility made to a site designated by the department as described in division (C)(4) of this section since the last time the facility reported this information to the department;
(5) Demographic information specified by the director of health regarding the individuals to whom safe cribs were distributed as described in division (E)(1) or (2) of this section or for whom a referral described in division (E)(3) or (4) of this section was made;
(6) In the case of a critical access hospital or a facility identified under division (D) of this section, demographic information specified by the director of health regarding each parent, guardian, or other person responsible for the infant determined to be unlikely to have a safe crib at the infant's residence pursuant to the procedure implemented under division (B) of this section;
(7) Any other information collected by the facility regarding infant sleep environments and intended infant sleep environments that the director determines to be appropriate.

(F) The director of health shall prepare a written report that summarizes the information collected under division (E) of this section for the preceding twelve months, assesses whether
at-risk families are sufficiently being served by the crib distribution and referral system established by this section, makes suggestions for system improvements, and provides any other information the director considers appropriate for inclusion in the report. On completion, the report shall be submitted to the general assembly with, and in the same manner as, the report that the department of medicaid submits to the general assembly and joint medicaid oversight committee pursuant to section 5162.13 of the Revised Code. A copy of the report also shall be submitted to the governor.

(G) A facility, and any employee, contractor, or volunteer of a facility, that implements an infant safe sleep procedure in accordance with division (B) of this section is not liable for damages in a civil action for injury, death, or loss to person or property that allegedly arises from an act or omission associated with implementation of the procedure, unless the act or omission constitutes willful or wanton misconduct.

A facility, and any employee, contractor, or volunteer of a facility, that implements an infant safe sleep screening procedure in accordance with division (B) of this section is not subject to criminal prosecution or, to the extent that a person is regulated under Title XLVII of the Revised Code, professional disciplinary action under that title, for an act or omission associated with implementation of the procedure.

This division does not eliminate, limit, or reduce any other immunity or defense that a facility, or an employee, contractor, or volunteer of a facility, may be entitled to under Chapter 2744 of the Revised Code, or any other provision of the Revised Code, or the common law of this state.

(H) A facility, and any employee, contractor, or volunteer of a facility, is neither liable for damages in a civil action, nor subject to criminal prosecution, for injury, death, or loss to person or property that allegedly arises from a crib obtained by a parent, guardian, or other person responsible for the infant as a result of any action the facility, employee, contractor, or volunteer takes to comply with division (C) of this section.

The immunity provided by this division does not require compliance with division (D) of section 2305.37 of the Revised Code.

3701.671 ODH crib grant report.

The director of health shall require each recipient of a grant the department of health administers that pertains to safe crib procurement to report annually to the department both of the following:

(A) Demographic information specified by the director of health regarding the individuals to whom safe cribs were distributed;

(B) If known, the extent to which distributed cribs are being used.

3701.69 Down Syndrome information.

(A)(1) The department of health shall create a Down syndrome information sheet that includes all of the following:

(a) A description of Down syndrome, including its causes, effects on development, and potential complications;

(b) Diagnostic tests;

(c) Options for treatment and therapy;

(d) Contact information for local, state, and national organizations that provide Down syndrome educational and support services and programs.

(2) With respect to the medical information included in the information sheet, the department shall include only information that is current and based on medical evidence.
(3) The department shall periodically review and update the information sheet and shall make it available on the department's internet web site.

(B) If a patient under the care of any of the following health care professionals or facilities receives either a test result indicating Down syndrome or a prenatal or postnatal diagnosis of Down syndrome, the health care professional or facility shall provide to the patient or the patient's representative a copy of the information sheet created under division (A) of this section:

(1) A physician authorized under Chapter 4731 of the Revised Code to practice medicine and surgery or osteopathic medicine and surgery;
(2) A certified nurse-midwife who holds a certificate of authority issued under Chapter 4723 of the Revised Code;
(3) A genetic counselor licensed under Chapter 4778 of the Revised Code;
(4) A hospital registered under section 3701.07 of the Revised Code;
(5) A maternity unit, newborn care nursery, or maternity home licensed under Chapter 3711 of the Revised Code;
(6) A freestanding birthing center licensed under section 3702.30 of the Revised Code.
Chapter 5. Death, Dying, and Lay Caregivers

Autopsy, Coroner, Disposition of Body

9.15 Burial expenses of unclaimed indigent patient.

As used in this section, “legal residence” means a permanent place of abode used or occupied as living quarters at the time of a person's death, including a nursing home, hospital, or other care facility.

When the body of a dead person is found in a township or municipal corporation, and such person was not an inmate of a correctional, benevolent, or charitable institution of this state, and the body is not claimed by any person for private interment or cremation at the person's own expense, or delivered for the purpose of medical or surgical study or dissection in accordance with section 1713.34 of the Revised Code, it shall be disposed of as follows:

(A) If the person was a legal resident of the county, the proper officers of the township or municipal corporation in which the person's body was found shall cause it to be buried or cremated at the expense of the township or municipal corporation in which the person had a legal residence at the time of death.

(B) If the person had a legal residence in any other county of the state at the time of death, the superintendent of the county home of the county in which such body was found shall cause it to be buried or cremated at the expense of the township or municipal corporation in which the person had a legal residence at the time of death.

(C) If the person was an inmate of a correctional institution of the county or a patient or resident of a benevolent institution of the county, the person had no legal residence in the state, or the person's legal residence is unknown, the superintendent shall cause the person to be buried or cremated at the expense of the county.

Such officials shall provide, at the grave of the person or, if the person's cremated remains are buried, at the grave of the person's cremated remains, a metal, stone, or concrete marker on which the person's name and age, if known, and date of death shall be inscribed.

A political subdivision is not relieved of its duty to bury or cremate a person at its expense under this section when the body is claimed by an indigent person. As used in this section, “indigent person” means a person whose income does not exceed one hundred fifty per cent of the federal poverty line, as revised annually by the United States department of health and human services in accordance with section 673(2) of the “Omnibus Budget Reconciliation Act of 1981,” 95 Stat. 511, 42 U.S.C. 9902, as amended, for a family size equal to the size of the person's family.

313.12 Death by criminal or violent means, casualty, suicide, suspicious or unusual manner; report to coroner.

(A) When any person dies as a result of criminal or other violent means, by casualty, by suicide, or in any suspicious or unusual manner, when any person, including a child under two years of age, dies suddenly when in apparent good health, or when any person with a developmental disability dies regardless of the circumstances, the physician called in attendance, or any member of an ambulance service, emergency squad, or law enforcement agency who obtains knowledge thereof arising from the person's duties, shall immediately notify the office of the coroner of the known facts concerning the time, place, manner, and
circumstances of the death, and any other information that is required pursuant to sections 313.01 to 313.22 of the Revised Code. In such cases, if a request is made for cremation, the funeral director called in attendance shall immediately notify the coroner.

(B) As used in this section, “developmental disability” has the same meaning as in section 5123.01 of the Revised Code.

5123.01 Developmental disabilities definition.

[Editor’s Note: This version of the statute is effective until 12/31/2017. The version effective subsequently is included next.]

As used in this chapter:

(A) “Chief medical officer” means the licensed physician appointed by the managing officer of an institution for persons with intellectual disabilities with the approval of the director of developmental disabilities to provide medical treatment for residents of the institution.

(B) “Chief program director” means a person with special training and experience in the diagnosis and management of persons with developmental disabilities, certified according to division (C) of this section in at least one of the designated fields, and appointed by the managing officer of an institution for persons with intellectual disabilities with the approval of the director to provide habilitation and care for residents of the institution.

(C) “Comprehensive evaluation” means a study, including a sequence of observations and examinations, of a person leading to conclusions and recommendations formulated jointly, with dissenting opinions if any, by a group of persons with special training and experience in the diagnosis and management of persons with developmental disabilities, which group shall include individuals who are professionally qualified in the fields of medicine, psychology, and social work, together with such other specialists as the individual case may require.

(D) “Education” means the process of formal training and instruction to facilitate the intellectual and emotional development of residents.

(E) “Habilitation” means the process by which the staff of the institution assists the resident in acquiring and maintaining those life skills that enable the resident to cope more effectively with the demands of the resident's own person and of the resident's environment and in raising the level of the resident's physical, mental, social, and vocational efficiency. Habilitation includes but is not limited to programs of formal, structured education and training.

(F) “Health officer” means any public health physician, public health nurse, or other person authorized or designated by a city or general health district.

(G) “Home and community-based services” means medicaid-funded home and community-based services specified in division (A)(1) of section 5166.20 of the Revised Code provided under the medicaid waiver components the department of developmental disabilities administers pursuant to section 5166.21 of the Revised Code. Except as provided in section 5123.0412 of the Revised Code, home and community-based services provided under the medicaid waiver component known as the transitions developmental disabilities waiver are to be considered to be home and community-based services for the purposes of this chapter, and Chapters 5124 and 5126 of the Revised Code, only to the extent, if any, provided by the contract required by section 5166.21 of the Revised Code regarding the waiver.

(H) “ICF/IID” has the same meaning as in section 5124.01 of the Revised Code.

(I) “Indigent person” means a person who is unable, without substantial financial hardship, to provide for the payment of an attorney and for other necessary expenses of legal representation, including expert testimony.

(J) “Institution” means a public or private facility, or a part of a public or private facility, that is licensed by the appropriate state department and is equipped to provide residential habilitation, care, and treatment for persons with intellectual disabilities.
(K) “Licensed physician” means a person who holds a valid certificate issued under Chapter 4731 of the Revised Code authorizing the person to practice medicine and surgery or osteopathic medicine and surgery, or a medical officer of the government of the United States while in the performance of the officer's official duties.

(L) “Managing officer” means a person who is appointed by the director of developmental disabilities to be in executive control of an institution under the jurisdiction of the department of developmental disabilities.

(M) “Medicaid case management services” means case management services provided to an individual with a developmental disability that the state medicaid plan requires.

(N) “Intellectual disability” means a disability characterized by having significantly subaverage general intellectual functioning existing concurrently with deficiencies in adaptive behavior, manifested during the developmental period.

(O) “Person with an intellectual disability subject to institutionalization by court order” means a person eighteen years of age or older with at least a moderate level of intellectual disability and in relation to whom, because of the person's disability, either of the following conditions exists:

1. The person represents a very substantial risk of physical impairment or injury to self as manifested by evidence that the person is unable to provide for and is not providing for the person’s most basic physical needs and that provision for those needs is not available in the community;

2. The person needs and is susceptible to significant habilitation in an institution.

(P) “Moderate level of intellectual disability” means the condition in which a person, following a comprehensive evaluation, is found to have at least moderate deficits in overall intellectual functioning, as indicated by a full-scale intelligence quotient test score of fifty-five or below, and at least moderate deficits in adaptive behavior, as determined in accordance with the criteria established in the fifth edition of the diagnostic and statistical manual of mental disorders published by the American psychiatric association.

(Q) “Developmental disability” means a severe, chronic disability that is characterized by all of the following:

1. It is attributable to a mental or physical impairment or a combination of mental and physical impairments, other than a mental or physical impairment solely caused by mental illness, as defined in division (A) of section 5122.01 of the Revised Code.

2. It is manifested before age twenty-two.

3. It is likely to continue indefinitely.

4. It results in one of the following:

   a. In the case of a person under three years of age, at least one developmental delay, as defined in rules adopted under section 5123.011 of the Revised Code, or a diagnosed physical or mental condition that has a high probability of resulting in a developmental delay, as defined in those rules;

   b. In the case of a person at least three years of age but under six years of age, at least two developmental delays, as defined in rules adopted under section 5123.011 of the Revised Code;

   c. In the case of a person six years of age or older, a substantial functional limitation in at least three of the following areas of major life activity, as appropriate for the person’s age: self-care, receptive and expressive language, learning, mobility, self-direction, capacity for independent living, and, if the person is at least sixteen years of age, capacity for economic self-sufficiency.

5. It causes the person to need a combination and sequence of special, interdisciplinary, or other type of care, treatment, or provision of services for an extended period of time that is individually planned and coordinated for the person.

“Developmental disability” includes intellectual disability.
(R) “State institution” means an institution that is tax-supported and under the jurisdiction of the department of developmental disabilities.

(S) “Residence” and “legal residence” have the same meaning as “legal settlement,” which is acquired by residing in Ohio for a period of one year without receiving general assistance prior to July 17, 1995, under former Chapter 5113 of the Revised Code, financial assistance under Chapter 5115 of the Revised Code, or assistance from a private agency that maintains records of assistance given. A person having a legal settlement in the state shall be considered as having legal settlement in the assistance area in which the person resides. No adult person coming into this state and having a spouse or minor children residing in another state shall obtain a legal settlement in this state as long as the spouse or minor children are receiving public assistance, care, or support at the expense of the other state or its subdivisions. For the purpose of determining the legal settlement of a person who is living in a public or private institution or in a home subject to licensing by the department of job and family services, the department of mental health and addiction services, or the department of developmental disabilities, the residence of the person shall be considered as though the person were residing in the county in which the person was living prior to the person’s entrance into the institution or home. Settlement once acquired shall continue until a person has been continuously absent from Ohio for a period of one year or has acquired a legal residence in another state. A woman who marries a man with legal settlement in any county immediately acquires the settlement of her husband. The legal settlement of a minor is that of the parents, surviving parent, sole parent, parent who is designated the residential parent and legal custodian by a court, other adult having permanent custody awarded by a court, or guardian of the person of the minor, provided that:

(1) A minor female who marries shall be considered to have the legal settlement of her husband and, in the case of death of her husband or divorce, she shall not thereby lose her legal settlement obtained by the marriage.

(2) A minor male who marries, establishes a home, and who has resided in this state for one year without receiving general assistance prior to July 17, 1995, under former Chapter 5113 of the Revised Code, financial assistance under Chapter 5115 of the Revised Code, or assistance from a private agency that maintains records of assistance given shall be considered to have obtained a legal settlement in this state.

(3) The legal settlement of a child under eighteen years of age who is in the care or custody of a public or private child caring agency shall not change if the legal settlement of the parent changes until after the child has been in the home of the parent for a period of one year.

No person, adult or minor, may establish a legal settlement in this state for the purpose of gaining admission to any state institution.

(T)(1) “Resident” means, subject to division (T)(2) of this section, a person who is admitted either voluntarily or involuntarily to an institution or other facility pursuant to section 2945.39, 2945.40, 2945.401, or 2945.402 of the Revised Code subsequent to a finding of not guilty by reason of insanity or incompetence to stand trial or under this chapter who is under observation or receiving habilitation and care in an institution.

(2) “Resident” does not include a person admitted to an institution or other facility under section 2945.39, 2945.40, 2945.401, or 2945.402 of the Revised Code to the extent that the reference in this chapter to resident, or the context in which the reference occurs, is in conflict with any provision of sections 2945.37 to 2945.402 of the Revised Code.

(U) “Respondent” means the person whose detention, commitment, or continued commitment is being sought in any proceeding under this chapter.

(V) “Working day” and “court day” mean Monday, Tuesday, Wednesday, Thursday, and Friday, except when such day is a legal holiday.

(W) “Prosecutor” means the prosecuting attorney, village solicitor, city director of law, or similar chief legal officer who prosecuted a criminal case in which a person was found not guilty.
Chapter 5. Death, Dying, and Lay Caregivers

by reason of insanity, who would have had the authority to prosecute a criminal case against a person if the person had not been found incompetent to stand trial, or who prosecuted a case in which a person was found guilty.

(X) “Court” means the probate division of the court of common pleas.

(Y) “Supported living” and “residential services” have the same meanings as in section 5126.01 of the Revised Code.

5123.01 Developmental disabilities definition.

[Editor’s Note: This version of the statute is effective 12/31/2017. The version effective prior to that date is included on the prior pages.]

As used in this chapter:

(A) “Chief medical officer” means the licensed physician appointed by the managing officer of an institution for persons with intellectual disabilities with the approval of the director of developmental disabilities to provide medical treatment for residents of the institution.

(B) “Chief program director” means a person with special training and experience in the diagnosis and management of persons with developmental disabilities, certified according to division (C) of this section in at least one of the designated fields, and appointed by the managing officer of an institution for persons with intellectual disabilities with the approval of the director to provide habilitation and care for residents of the institution.

(C) “Comprehensive evaluation” means a study, including a sequence of observations and examinations, of a person leading to conclusions and recommendations formulated jointly, with dissenting opinions if any, by a group of persons with special training and experience in the diagnosis and management of persons with developmental disabilities, which group shall include individuals who are professionally qualified in the fields of medicine, psychology, and social work, together with such other specialists as the individual case may require.

(D) “Education” means the process of formal training and instruction to facilitate the intellectual and emotional development of residents.

(E) “Habilitation” means the process by which the staff of the institution assists the resident in acquiring and maintaining those life skills that enable the resident to cope more effectively with the demands of the resident's own person and of the resident's environment and in raising the level of the resident's physical, mental, social, and vocational efficiency. Habilitation includes but is not limited to programs of formal, structured education and training.

(F) “Health officer” means any public health physician, public health nurse, or other person authorized or designated by a city or general health district.

(G) “Home and community-based services” means medicaid-funded home and community-based services specified in division (A)(1) of section 5166.20 of the Revised Code provided under the medicaid waiver components the department of developmental disabilities administers pursuant to section 5166.21 of the Revised Code. Except as provided in section 5123.0412 of the Revised Code, home and community-based services provided under the medicaid waiver component known as the transitions developmental disabilities waiver are to be considered to be home and community-based services for the purposes of this chapter, and Chapters 5124 and 5126 of the Revised Code, only to the extent, if any, provided by the contract required by section 5166.21 of the Revised Code regarding the waiver.

(H) “ICF/IID” has the same meaning as in section 5124.01 of the Revised Code.

(I) “Indigent person” means a person who is unable, without substantial financial hardship, to provide for the payment of an attorney and for other necessary expenses of legal representation, including expert testimony.

(J) “Institution” means a public or private facility, or a part of a public or private facility, that is licensed by the appropriate state department and is equipped to provide residential
habilitation, care, and treatment for persons with intellectual disabilities.

(K) “Licensed physician” means a person who holds a valid certificate issued under Chapter 4731 of the Revised Code authorizing the person to practice medicine and surgery or osteopathic medicine and surgery, or a medical officer of the government of the United States while in the performance of the officer’s official duties.

(L) “Managing officer” means a person who is appointed by the director of developmental disabilities to be in executive control of an institution under the jurisdiction of the department of developmental disabilities.

(M) “Medicaid case management services” means case management services provided to an individual with a developmental disability that the state medicaid plan requires.

(N) “Intellectual disability” means a disability characterized by having significantly subaverage general intellectual functioning existing concurrently with deficiencies in adaptive behavior, manifested during the developmental period.

(O) “Person with an intellectual disability subject to institutionalization by court order” means a person eighteen years of age or older with at least a moderate level of intellectual disability and in relation to whom, because of the person’s disability, either of the following conditions exists:

1. The person represents a very substantial risk of physical impairment or injury to self as manifested by evidence that the person is unable to provide for and is not providing for the person’s most basic physical needs and that provision for those needs is not available in the community;

2. The person needs and is susceptible to significant habilitation in an institution.

(P) “Moderate level of intellectual disability” means the condition in which a person, following a comprehensive evaluation, is found to have at least moderate deficits in overall intellectual functioning, as indicated by a full-scale intelligence quotient test score of fifty-five or below, and at least moderate deficits in adaptive behavior, as determined in accordance with the criteria established in the fifth edition of the diagnostic and statistical manual of mental disorders published by the American psychiatric association.

(Q) “Developmental disability” means a severe, chronic disability that is characterized by all of the following:

1. It is attributable to a mental or physical impairment or a combination of mental and physical impairments, other than a mental or physical impairment solely caused by mental illness, as defined in division (A) of section 5122.01 of the Revised Code.

2. It is manifested before age twenty-two.

3. It is likely to continue indefinitely.

4. It results in one of the following:

   a. In the case of a person under three years of age, at least one developmental delay, as defined in rules adopted under section 5123.011 of the Revised Code, or a diagnosed physical or mental condition that has a high probability of resulting in a developmental delay, as defined in those rules;

   b. In the case of a person at least three years of age but under six years of age, at least two developmental delays, as defined in rules adopted under section 5123.011 of the Revised Code;

   c. In the case of a person six years of age or older, a substantial functional limitation in at least three of the following areas of major life activity, as appropriate for the person’s age: self-care, receptive and expressive language, learning, mobility, self-direction, capacity for independent living, and, if the person is at least sixteen years of age, capacity for economic self-sufficiency.

5. It causes the person to need a combination and sequence of special, interdisciplinary, or other type of care, treatment, or provision of services for an extended period of time that is individually planned and coordinated for the person.
“Developmental disability” includes intellectual disability.

(R) “State institution” means an institution that is tax-supported and under the jurisdiction of the department of developmental disabilities.

(S) “Residence” and “legal residence” have the same meaning as “legal settlement,” which is acquired by residing in Ohio for a period of one year without receiving general assistance prior to July 17, 1995, under former Chapter 5113 of the Revised Code, without receiving financial assistance prior to December 31, 2017, under former Chapter 5115 of the Revised Code, or assistance from a private agency that maintains records of assistance given.

A person having a legal settlement in the state shall be considered as having legal settlement in the assistance area in which the person resides. No adult person coming into this state and having a spouse or minor children residing in another state shall obtain a legal settlement in this state as long as the spouse or minor children are receiving public assistance, care, or support at the expense of the other state or its subdivisions. For the purpose of determining the legal settlement of a person who is living in a public or private institution or in a home subject to licensing by the department of job and family services, the department of mental health and addiction services, or the department of developmental disabilities, the residence of the person shall be considered as though the person were residing in the county in which the person was living prior to the person’s entrance into the institution or home. Settlement once acquired shall continue until a person has been continuously absent from Ohio for a period of one year or has acquired a legal residence in another state. A woman who marries a man with legal settlement in any county immediately acquires the settlement of her husband. The legal settlement of a minor is that of the parents, surviving parent, sole parent, parent who is designated the residential parent and legal custodian by a court, other adult having permanent custody awarded by a court, or guardian of the person of the minor, provided that:

(1) A minor female who marries shall be considered to have the legal settlement of her husband and, in the case of death of her husband or divorce, she shall not thereby lose her legal settlement obtained by the marriage.

(2) A minor male who marries, establishes a home, and who has resided in this state for one year without receiving general assistance prior to July 17, 1995, under former Chapter 5113 of the Revised Code or assistance from a private agency that maintains records of assistance given shall be considered to have obtained a legal settlement in this state.

(3) The legal settlement of a child under eighteen years of age who is in the care or custody of a public or private child caring agency shall not change if the legal settlement of the parent changes until after the child has been in the home of the parent for a period of one year.

No person, adult or minor, may establish a legal settlement in this state for the purpose of gaining admission to any state institution.

(T)(1) “Resident” means, subject to division (T)(2) of this section, a person who is admitted either voluntarily or involuntarily to an institution or other facility pursuant to section 2945.39, 2945.40, 2945.401, or 2945.402 of the Revised Code subsequent to a finding of not guilty by reason of insanity or incompetence to stand trial or under this chapter who is under observation or receiving habilitation and care in an institution.

(2) “Resident” does not include a person admitted to an institution or other facility under section 2945.39, 2945.40, 2945.401, or 2945.402 of the Revised Code to the extent that the reference in this chapter to resident, or the context in which the reference occurs, is in conflict with any provision of sections 2945.37 to 2945.402 of the Revised Code.

(U) “Respondent” means the person whose detention, commitment, or continued commitment is being sought in any proceeding under this chapter.

(V) “Working day” and “court day” mean Monday, Tuesday, Wednesday, Thursday, and Friday, except when such day is a legal holiday.

(W) “Prosecutor” means the prosecuting attorney, village solicitor, city director of law, or similar chief legal officer who prosecuted a criminal case in which a person was found not guilty.
by reason of insanity, who would have had the authority to prosecute a criminal case against a
person if the person had not been found incompetent to stand trial, or who prosecuted a case in
which a person was found guilty.

(X) “Court” means the probate division of the court of common pleas.
(Y) “Supported living” and “residential services” have the same meanings as in section
5126.01 of the Revised Code.

1713.34 Possession of an unclaimed or unidentified body.

Superintendents of city hospitals, directors or superintendents of city infirmaries, county
homes, or other charitable institutions, directors or superintendents of workhouses, founded and
supported in whole or in part at public expense, superintendents or managing officers of state
benevolent institutions, boards of township trustees, sheriffs, or coroners, in possession of
bodies not claimed or identified, or which must be buried at the expense of the state, county, or
township, before burial, shall notify the professor of anatomy in a college which by its charter is
empowered to teach anatomy, or the secretary of the board of embalmers and funeral directors
of this state, of the fact that such bodies are being so held. If after a period of thirty-six hours the
body has not been accepted by friends or relatives for burial at their expense, such
superintendent, director, or other officer, on the written application of such professor, or the
secretary of the board of embalmers and funeral directors, shall deliver to such professor or
secretary, for the purpose of medical or surgical study or dissection or for the study of
embalming, the body of any such person who died in any of such institutions from any disease
which is not infectious. The expense of the delivery of the body shall be borne by the parties in
whose keeping the body was placed.

2108.50 Post-mortem examination consent.

(A) Subject to section 2108.521 of the Revised Code, an autopsy or post-mortem
examination may be performed upon the body of a deceased person by a licensed physician or
surgeon if consent has been given by the person who has the right of disposition under section
2108.70 or 2108.81 of the Revised Code.

(B) Consent to an autopsy or post-mortem examination given under this section may be
revoked only by the person executing the consent and in the same manner as required for
execution of consent under this section.

2108.51 Autopsy civil immunity.

Any licensed physician or surgeon who, in good faith and acting in reliance upon an
instrument of consent for an autopsy or post-mortem examination executed under section
2108.50 of the Revised Code and without actual knowledge of revocation of that consent,
performs an autopsy or post-mortem examination is not liable in a civil or criminal action brought
against the licensed physician or surgeon for that act.

2108.70 Disposition of remains.

(A) As used in this section and sections 2108.71 to 2108.90 of the Revised Code:
(1) “Adult” means an individual who is eighteen years of age or older.
(2) “Declarant” means an adult who has executed a written declaration described in
division (B) of this section.
(3) “Representative” means an adult or a group of adults, collectively, to whom a
declarant has assigned the right of disposition.
(4) “Right of disposition” means one or more of the rights described in division (B) of this section that a declarant chooses to assign to a representative in a written declaration executed under that division or all of the rights described in division (B) of this section that are assigned to a person pursuant to section 2108.81 of the Revised Code.

(5) “Successor representative” means an adult or group of adults, collectively, to whom the right of disposition for a declarant has been reassigned because the declarant's representative is disqualified from exercising the right under section 2108.75 of the Revised Code. Each successor representative shall be considered in the order the representative is designated by the declarant.

(B) An adult who is of sound mind may execute at any time a written declaration assigning to a representative one or more of the following rights:

(1) The right to direct the disposition, after death, of the declarant's body or any part of the declarant's body that becomes separated from the body before death. This right includes the right to determine the location, manner, and conditions of the disposition of the declarant's bodily remains.

(2) The right to make arrangements and purchase goods and services for the declarant's funeral. This right includes the right to determine the location, manner, and condition of the declarant's funeral.

(3) The right to make arrangements and purchase goods and services for the declarant's burial, cremation, or other manner of final disposition. This right includes the right to determine the location, manner, and condition of the declarant's burial, cremation, or other manner of final disposition.

(C)(1) Subject to division (C)(2) of this section, a declarant may designate a successor representative.

(2) If a representative is a group of persons and not all of the persons in the group meet at least one criterion to be disqualified from serving as the representative, as described in section 2108.75 of the Revised Code, the persons in the group who are not disqualified shall remain the representative who has the right of disposition.

(D) The assignment or reassignment of a right of disposition to a representative and a successor representative supersedes an assignment of a right of disposition under section 2108.81 of the Revised Code.

2108.81 Disposition and decision-maker priority.

(A) If either of the following is true, division (B) of this section shall apply:

(1) An adult has not executed a written declaration pursuant to sections 2108.70 to 2108.73 of the Revised Code that remains in force at the time of the adult's death.

(2) Each person to whom the right of disposition has been assigned or reassigned pursuant to a written declaration is disqualified from exercising the right as described in section 2108.75 of the Revised Code.

(B) Subject to division (A) of this section and sections 2108.75 and 2108.79 of the Revised Code, the right of disposition is assigned to the following persons, if mentally competent adults who can be located with reasonable effort, in the order of priority stated:

(1) The deceased person's surviving spouse;

(2) The sole surviving child of the deceased person or, if there is more than one surviving child, all of the surviving children, collectively;

(3) The deceased person’s surviving parent or parents;

(4) The deceased person's surviving sibling, whether of the whole or of the half blood or, if there is more than one sibling of the whole or of the half blood, all of the surviving siblings, collectively;

(5) The deceased person's surviving grandparent or grandparents;
(6) The deceased person's surviving grandchild, or if there is more than one surviving grandchild, all of the surviving grandchildren collectively;

(7) The lineal descendants of the deceased person's grandparents, as described in division (l) of section 2105.06 of the Revised Code;

(8) The person who was the deceased person's guardian at the time of the deceased person's death, if a guardian had been appointed;

(9) Any other person willing to assume the right of disposition, including the personal representative of the deceased person's estate or the licensed funeral director with custody of the deceased person's body, after attesting in writing that a good faith effort has been made to locate the persons in divisions (B)(1) to (8) of this section.

(10) If the deceased person was an indigent person or other person the final disposition of whose body is the financial and statutory responsibility of the state or a political subdivision of this state, the public officer or employee responsible for arranging the final disposition of the remains of the deceased person.

5121.53 Burial expenses of unclaimed indigent mental health patient.

The state shall bear the expense of the burial or cremation of an indigent patient who dies in a hospital if the body is not claimed for interment or cremation at the expense of friends or relatives, or is not delivered for anatomical purposes or for the study of embalming in accordance with section 1713.34 of the Revised Code. The managing officer of the hospital shall provide at the grave of the patient or, if the patient's cremated remains are buried, at the grave of the patient's cremated remains, a metal, stone, or concrete marker on which shall be inscribed the name and age of the patient and the date of death.

3701-5-14 Coroner protocols.

(A) The coroner shall investigate the death of and perform an autopsy on any child under two years of age that dies suddenly when in apparent good health unless a court with jurisdiction determines under section 313.131 of the Revised Code that an autopsy is contrary to the religious beliefs of the child. The coroner shall investigate the death and perform the autopsy by conducting the following:

(1) An investigation of the site where the child was found dead and indicating, if the information is available, whether the child was observed to die, when the child was last seen alive, the place of death, the circumstances under which the child was found dead and by whom, the position of the child when found, and the identity of all individuals who attempted to resuscitate the child;

(2) A complete medical history of the child, including, if the information is available, the child's date of birth, birth weight, type of delivery, number of well-baby visits, history of major illness including recent illness and any medical treatment, feeding history, birth mother's prenatal history and history of any drug use, whether any siblings have suddenly died under the age of two while in apparent good health or have died from any other cause;

(3) An external examination of the child including noting the child's state of nutrition and development, examining the nares and choanae, determining the age, race, sex, body length, and body weight of the child, and evaluating the child for evidence of rash, dehydration, anomalies, and injury;

(4) An internal examination including evaluating the epiglottis, larynx, and trachea, and noting the presence or absence of thymic petechiae, pleural petechiae, epicardial petechiae and fluid blood;

(5) A microscopic examination of any of the following that are indicated after conducting paragraphs (A)(1) through (A)(4) of this rule, provided that a specimen is possible to obtain:
(a) One vertical section of the heart including the left atrium and left ventricle;
(b) One section of each lobe of both lungs;
(c) Both kidneys and adrenals;
(d) The ileum including a Peyer’s patch;
(e) The liver and pancreas;
(f) The larynx including the epiglottis;
(g) The brain, including the cortex, basal ganglia, mid-pons, and medulla, each to
include meninges; and
(h) The thymus; and
(6) Any other examination or investigation that is indicated by the facts and
circumstances of the case.

(B) The coroner shall perform the following procedures where indicated by the facts and
circumstances of the case:
(1) A total body x-ray for evidence of repetitive battering;
(2) Biochemical determinations of sodium, potassium, and glucose, using vitreous
humor;
(3) Bacterial cultures of heart blood, spleen, both lungs, stool, cerebrospinal fluid and
larynx;
(4) Viral cultures of the heart, both lungs, one kidney, gastrointestinal tract and brain;
and
(5) A collection for testing of spinal fluid, urine, and gastric contents, five to ten milliliters
of whole blood, and approximately ten grams of the liver. These specimens shall be examined
and the presence and levels of the following shall be determined:
(a) Common agents acting upon the central nervous system;
(b) Salicylates;
(c) Alcohols;
(d) Carbon monoxide; and
(e) Any other agents as appropriate to the case.
(6) Retention of frozen liver, brain, kidney, and lung specimens for a period of at least six
months

(C) The coroner shall report to the Ohio department of health a preliminary diagnosis of
the cause of death of any child under two years of age who died suddenly when in apparent
good health. The preliminary diagnosis shall be reported to the Ohio department of health as
soon as possible, but no later than seventy-two hours after the death of the child and shall be
made either orally, or on a form prescribed by the director of the Ohio department of health
containing the following information:
(1) The child’s name, sex, age, race, date of birth and date of death;
(2) The child’s county of residence and county of death; and
(3) The mother’s and father’s name, age, and address.
If the preliminary diagnosis is orally made to the Ohio department of health, the coroner
shall also report the preliminary diagnosis on the form prescribed by the director and shall
submit the form to the Ohio department of health within fourteen days.

(D) If the child’s parent makes a request for the preliminary results of the autopsy, the
coroner or person designated by him shall give the parent an oral statement of the preliminary
results after they are available.
(E) The coroner shall send written notice of the final results of the investigation and
autopsy, including the final results of examinations, investigations and procedures required in
paragraphs (A) and (B) of this rule, to the Ohio department of health, the health district or
department with jurisdiction in the area in which the child’s parent resides, and, upon a request
of the parent of the child, to the child’s attending physician, within a reasonable time after the
final results are available. The coroner shall send written notice of the final results to a parent
upon written request.

Organ Donation

2108.01 Human Bodies and Parts thereof; definitions.

As used in sections 2108.02 to 2108.35 of the Revised Code:
(A) “Adult” means an individual who is at least eighteen years of age.
(B) “Agent” means an individual who is either of the following:
(1) The principal's attorney in fact under a durable power of attorney for health care;
(2) Expressly authorized to make an anatomical gift on the principal's behalf by any other record signed by the principal.
(C) “Anatomical gift” means a donation of all or part of a human body to take effect after the donor’s death for the purpose of transplantation, therapy, research, or education.
(D) “Decedent” means a deceased individual whose body or part is or may be the source of an anatomical gift. The term includes a stillborn infant and, subject to restrictions imposed by law other than sections 2108.01 to 2108.29 of the Revised Code, a fetus.
(E) “Disinterested witness” means a witness other than a spouse, child, parent, sibling, grandchild, grandparent, or guardian of the individual who makes an anatomical gift, or another adult who exhibited special care and concern for the individual. “Disinterested witness” does not include a person to which an anatomical gift could pass under section 2108.11 of the Revised Code.
(F) “Document of gift” means a donor card or other record used to make an anatomical gift. “Document of gift” includes a statement or symbol on a driver's license or identification card or in the donor registry.
(G) “Donor” means an individual whose body or part is the subject of an anatomical gift.
(H) “Donor registry” means a database that contains records of anatomical gifts and amendments to or revocations of anatomical gifts.
(I) “Driver's license” means a license or permit issued by the registrar of motor vehicles, or a deputy registrar, to operate a vehicle, whether or not conditions are attached to the license or permit and includes a driver's license, commercial driver's license, and a motorcycle operator's license or endorsement.
(J) “Durable power of attorney for health care” means a document created pursuant to sections 1337.11 to 1337.17 of the Revised Code.
(K) “Eye bank” means a person conducting operations in this state that is licensed, accredited, or regulated under federal or state law to engage in the recovery, screening, testing, processing, storage, or distribution of human eyes or portions of human eyes.
(L) “Guardian” means a person appointed by a court to make decisions regarding the support, care, education, health, or welfare of an individual. “Guardian” does not include a guardian ad litem.
(M) “Hospital” means a facility operated as a hospital under the laws of this or any other state or a facility operated as a hospital by the United States, this or any other state, or a subdivision of this or any other state.
(N) “Identification card” means an identification card issued by the registrar of motor vehicles or a deputy registrar.
(O) “Know” means to have actual knowledge.
(P) “Minor” means an individual who is under eighteen years of age.
(Q) “Organ procurement organization” means a person conducting operations in this state that is designated by the secretary of the United States department of health and human services as an organ procurement organization.
(R) “Parent” means a parent whose parental rights have not been terminated.
Chapter 5. Death, Dying, and Lay Caregivers

(S) “Part” means an organ, an eye, or tissue of a human being. “Part” does not include the whole body.
(T) “Person” means an individual, corporation, business trust, estate, trust, partnership, limited liability company, association, joint venture, public corporation, government or governmental subdivision, agency, or instrumentality, or any other legal or commercial entity.
(U) “Physician” means an individual authorized under Chapter 4731 of the Revised Code to practice medicine and surgery, osteopathic medicine and surgery, or podiatric medicine and surgery, or an individual authorized under the laws of any other state to practice medicine and surgery, osteopathic medicine and surgery, or podiatric medicine and surgery.
(V) “Procurement organization” means an eye bank, organ procurement organization, or tissue bank.
(W) “Prospective donor” means an individual who is dead or near death and has been determined by a procurement organization to have a part that could be medically suitable for transplantation, therapy, research, or education. “Prospective donor” does not include an individual who has made a refusal.
(X) “Reasonably available” means able to be contacted by a procurement organization without undue effort and willing and able to act in a timely manner consistent with existing medical criteria necessary for the making of an anatomical gift.
(Y) “Recipient” means an individual into whose body a decedent's part has been or is intended to be transplanted.
(Z) “Record” means information that is inscribed on a tangible medium or that is stored in an electronic or other medium and is retrievable in perceivable form.
(AA) “Refusal” means a record created under section 2108.07 of the Revised Code that expressly states an intent to bar other persons from making an anatomical gift of an individual's body or part.
(BB) “Sign” means to do either of the following with the present intent to authenticate or adopt a record:
   (1) Execute or adopt a tangible symbol;
   (2) Attach to or logically associate with the record an electronic symbol, sound, or process.
(CC) “Technician” means an individual determined to be qualified to remove or process parts by an appropriate organization that is licensed, accredited, or regulated under federal or state law. “Technician” includes an enucleator and an embalmer licensed pursuant to Chapter 4717 of the Revised Code who has completed a course in eye enucleation and has received a certificate of competency to that effect from a school of medicine recognized by the state medical board or from an eye bank that is a member of the eye bank association of America.
(DD) “Tissue” means a portion of the human body other than an organ or an eye. “Tissue” does not include blood unless the blood is donated for the purpose of research or education.
(EE) “Tissue bank” means a person conducting operations in this state that is licensed, accredited, or regulated under federal or state law to engage in the recovery, screening, testing, processing, storage, or distribution of tissue.
(FF) “Transplant hospital” means a hospital that furnishes organ transplants and other medical and surgical specialty services required for the care of transplant patients.

2108.02 Anatomical gift donees; rights of next of kin.

Sections 2108.01 to 2108.29 of the Revised Code are enacted to adopt the Revised Uniform Anatomical Gift Act (2006), national conference of commissioners on uniform state laws.
2108.03 Who may donate.

Sections 2108.01 to 2108.29 of the Revised Code apply to an anatomical gift or amendment to, revocation of, or refusal to make an anatomical gift, whenever made.

2108.04 Who may donate.

Subject to section 2108.08 of the Revised Code, an anatomical gift of a donor's body or part may be made during the life of the donor for the purpose of transplantation, therapy, research, or education in the manner provided in section 2108.05 of the Revised Code by any of the following:

(A) The donor, if the donor is an adult or if the donor is a minor and either of the following applies:
   (1) The donor is emancipated.
   (2) The donor is authorized to apply for a temporary instruction permit issued under section 4507.05 of the Revised Code because the donor is at least fifteen years and six months of age.

(B) An agent of the donor, unless the durable power of attorney for health care or other record prohibits the agent from making an anatomical gift;

(C) A parent of the donor, if the donor is an unemancipated minor;

(D) The donor's guardian.

2108.05 Manner in which donor may make gift.

(A) A donor may make an anatomical gift by doing any of the following:
   (1) Authorizing a statement or symbol to be imprinted on the donor's driver's license or identification card indicating that the donor has certified a willingness to make an anatomical gift;
   (2) Specifying in the donor's will an intent to make an anatomical gift;
   (3) Specifying an intent to make an anatomical gift in the donor's declaration as described in section 2133.16 of the Revised Code;
   (4) During a terminal illness or injury of the donor, communicating in any manner to a minimum of two adults, at least one of whom is a disinterested witness, that the donor intends to make an anatomical gift;
   (5) Following the procedure in division (B) of this section.

(B) A donor or other person authorized to make an anatomical gift under section 2108.04 of the Revised Code may make a gift by a donor card or other record signed by the donor or other person making the gift or by authorizing that a statement or symbol indicating that the donor has certified a willingness to make an anatomical gift be included in a donor registry. If the donor or other person is physically unable to sign a record, the record may be signed by another individual at the direction of the donor or the other person and shall do both of the following:
   (1) Be witnessed by at least two adults, at least one of whom is a disinterested witness, who have signed at the request of the donor or the other person;
   (2) State that it has been signed and witnessed as provided in division (B)(1) of this section.

(C) Once a donor has authorized a statement or symbol to be imprinted on the donor's driver's license or identification card indicating that the donor has certified a willingness to make an anatomical gift, the donor does not need to recertify the donor's willingness to make an anatomical gift upon renewal of the driver's license or identification card. The authorization shall remain in effect until the donor withdraws that authorization.

(D) Revocation, suspension, expiration, or cancellation of a driver's license or
identification card upon which an anatomical gift is indicated does not invalidate the gift.

(E) An anatomical gift made by will takes effect on the donor's death whether or not the will is probated. Invalidation of the will after the donor's death does not invalidate the gift.

2108.06 Amendment or revocation of organ donation.

(A) Subject to section 2108.08 of the Revised Code, an anatomical gift made under section 2108.04 of the Revised Code may be amended by any of the following means:

(1) By a record signed by the donor or other person authorized to make an anatomical gift under section 2108.04 of the Revised Code;

(2) Subject to division (C) of this section, by a record signed by another individual acting at the direction of the donor or other person authorized to make an anatomical gift under section 2108.04 of the Revised Code if the donor or other person is physically unable to sign;

(3) By a later-executed document of gift that amends a previous anatomical gift or portion of an anatomical gift, either expressly or by inconsistency;

(4) By any form of communication during a terminal illness or injury addressed to at least two adults;

(5) By a parent who is reasonably available, if the donor is an unemancipated minor who has died;

(6) If made in a will, by the manner provided for amendment of wills or by any of the applicable means described in divisions (B)(1) to (5) of this section.

(B) Subject to section 2108.08 of the Revised Code, an anatomical gift made under section 2108.04 of the Revised Code may be revoked by any of the following means:

(1) By a record signed by the donor or other person authorized to make an anatomical gift under section 2108.04 of the Revised Code;

(2) Subject to division (C) of this section, by a record signed by another individual acting at the direction of the donor or other person authorized to make an anatomical gift under section 2108.04 of the Revised Code if the donor or other person is physically unable to sign;

(3) By a later-executed document of gift that revokes a previous anatomical gift or portion of an anatomical gift, either expressly or by inconsistency;

(4) By any form of communication during a terminal illness or injury addressed to at least two adults;

(5) By a parent who is reasonably available, if the donor is an unemancipated minor who has died;

(6) By the destruction or cancellation of the document of gift, or the portion of the document of gift, used to make the gift, with the intent to revoke the gift;

(7) If made in a will, by the manner provided for revocation of wills or by any of the applicable means described in divisions (B)(1) to (6) of this section.

(C) A record signed pursuant to division (A)(2) or (B)(2) of this section shall do both of the following:

(1) Be witnessed by a minimum of two adults who have signed at the request of the donor or other person;

(2) State that it has been signed and witnessed as provided in division (C)(1) of this section.

2108.07 Person may refuse to make organ donation.

(A) An individual may refuse to make an anatomical gift of the individual's body or part by doing any of the following:

(1) Indicating a refusal in a record signed by either of the following:

(a) The individual;
(b) Subject to division (B) of this section, another individual acting at the direction of the individual, if the individual is physically unable to sign.

(2) Indicating a refusal in the individual's will, whether or not the will is admitted to probate or invalidated after the individual's death;

(3) Indicating a refusal by any form of communication made by the individual during the individual's terminal illness or injury addressed to a minimum of two adults.

(B) A record signed pursuant to division (A)(1)(b) of this section shall do both of the following:

(1) Be witnessed by at least two adults who have signed at the request of the individual;

(2) State that it has been signed and witnessed as provided in division (B)(1) of this section.

(C) An individual who has made a refusal may amend or revoke the refusal by doing any of the following:

(1) Amending or revoking the refusal in the manner provided in division (A) of this section for making a refusal;

(2) Subsequently making an anatomical gift pursuant to section 2108.05 of the Revised Code that is inconsistent with the refusal;

(3) Destroying or canceling the record evidencing the refusal, or the portion of the record used to make the refusal, with the intent to revoke the refusal.

(D) Except as provided in division (E) of this section, in the absence of an express, contrary indication by the individual set forth in the refusal, an individual's unrevoked refusal to make an anatomical gift of the individual's body or part bars all other persons from making an anatomical gift of the individual's body or part.

(E) The parent of a deceased unemancipated minor who is reasonably available may revoke a refusal made by the minor.

2108.08 Organ donation cannot be revoked by other party.

(A) Subject to division (F) of this section, in the absence of an express, contrary indication by the donor, a person other than the donor shall be barred from making, amending, or revoking an anatomical gift of a donor's body or part if the donor made an anatomical gift of the donor's body or part under section 2108.05 of the Revised Code or an amendment to an anatomical gift of the donor's body or part under section 2108.06 of the Revised Code.

(B) A donor's revocation of an anatomical gift of the donor's body or part under section 2108.06 of the Revised Code is not a refusal and shall not bar another person specified in section 2108.04 or 2108.09 of the Revised Code from making an anatomical gift of the donor's body or part under section 2108.05 or 2108.10 of the Revised Code.

(C) If a person other than the donor makes an unrevoked anatomical gift of the donor's body or part under section 2108.05 of the Revised Code or an amendment to an anatomical gift of the donor's body or part under section 2108.06 of the Revised Code, another person shall not make, amend, or revoke the gift of the donor's body or part under section 2108.05 or 2108.10 of the Revised Code.

(D) A revocation by a person other than the donor of an anatomical gift of a donor's body or part under section 2108.06 of the Revised Code shall not bar another person from making an anatomical gift of the body or part under section 2108.05 or 2108.10 of the Revised Code.

(E) In the absence of an express, contrary indication by the donor or other person authorized to make an anatomical gift under section 2108.04 of the Revised Code, an anatomical gift of a part is neither a refusal to give another part nor a limitation on the making of an anatomical gift of another part at a later time by the donor or another person.

(F) In the absence of an express, contrary indication by the donor or other person authorized to make an anatomical gift under section 2108.04 of the Revised Code, an
anatomical gift of a part for one or more of the purposes set forth in section 2108.04 of the Revised Code shall not be a limitation on the making of an anatomical gift of the part for any of the other purposes by the donor or other person under section 2108.05 or 2108.10 of the Revised Code.

2108.09 Organ donation of decedent can be made by survivor.

(A) Subject to divisions (B) and (C) of this section, and unless barred by section 2108.07 or 2108.08 of the Revised Code, an anatomical gift of a decedent's body or part for purpose of transplantation, therapy, research, or education may be made in the manner provided for under section 2108.10 of the Revised Code by any member of the following classes of persons who is reasonably available, in the following order of priority:

1. An agent of the decedent at the time of death who could have made an anatomical gift under division (B) of section 2108.04 of the Revised Code immediately before the decedent's death;
2. The decedent's surviving spouse;
3. The decedent's surviving adult children;
4. The decedent's surviving parent or parents;
5. The decedent's surviving adult siblings;
6. The decedent's surviving adult grandchildren;
7. The decedent's surviving grandparent or grandparents;
8. A surviving adult who exhibited special care and concern for the decedent;
9. The persons who were acting as the guardians of the person of the decedent at the time of death;
10. The persons, other than those in divisions (A)(1) to (9) of this section, to whom the right of disposition for the decedent's body has been assigned pursuant to section 2108.70 of the Revised Code or who have the right of disposition for the decedent's body as described in section 2108.81 of the Revised Code.

(B) If there is more than one member of a class listed in division (A)(1), (3), (4), (5), (6), (7), or (9) of this section entitled to make an anatomical gift, an anatomical gift may be made by a single member of the class unless that member or a person to which the gift may pass under section 2108.11 of the Revised Code knows of an objection by another member of the class. If an objection is known, the gift may be made only by a majority of the members of the class who are reasonably available.

(C) A person shall not make an anatomical gift if, at the time of the decedent's death, a person in a prior class under division (A) of this section is reasonably available to make or object to the making of an anatomical gift.

2108.10 Manner in which survivor may make decedent organ donation.

(A) A person authorized to make an anatomical gift under section 2108.09 of the Revised Code may make an anatomical gift by a document of gift signed by the person making the gift or by that person's oral communication that is electronically recorded or is contemporaneously reduced to a record and signed by the individual receiving the oral communication.

(B) Subject to division (C) of this section, an anatomical gift made by a person authorized to make a gift under section 2108.09 of the Revised Code may be amended or revoked orally or in a record by any member of a prior class who is reasonably available. If more than one member of the prior class is reasonably available, the gift made by a person authorized to make a gift under section 2108.09 of the Revised Code may be amended if a majority of the reasonably available members agree to the amendment or revoked if at least half...
of the reasonably available members agree to the revocation.

(C) A revocation under division (B) of this section shall be effective only if the procurement organization, transplant hospital, physician, or technician knows of the revocation, before an incision has been made to remove a part from the donor's body or before invasive procedures have begun to prepare the recipient.

2108.11 Persons to whom a donation may be made.

(A) An anatomical gift may be made to any of the following persons named in the document of gift:

(1) A hospital; an accredited medical school, dental school, college, or university; an organ procurement organization; or another appropriate person, for research or education;

(2) Subject to division (B) of this section, an individual designated by the person making the anatomical gift if the individual is the recipient of the part;

(3) An eye bank or tissue bank.

(B) If an anatomical gift to an individual under division (A)(2) of this section cannot be transplanted into the individual, the part shall pass in accordance with division (G) of this section in the absence of an express, contrary indication by the person making the anatomical gift.

(C) If an anatomical gift of one or more specific parts or of all parts is made in a document of gift that does not name a person described in division (A) of this section but identifies the purpose for which an anatomical gift may be used, the following rules apply:

(1) If the part is an eye and the gift is for the purpose of transplantation or therapy, the gift shall pass to the appropriate eye bank.

(2) If the part is tissue and the gift is for the purpose of transplantation or therapy, the gift shall pass to the appropriate tissue bank.

(3) If the part is an organ and the gift is for the purpose of transplantation or therapy, the gift shall pass to the appropriate organ procurement organization as custodian of the organ.

(4) If the part is an organ, an eye, or tissue and the gift is for the purpose of research or education, the gift shall pass to the appropriate procurement organization.

(D) For the purpose of division (C) of this section, if there is more than one purpose of an anatomical gift set forth in the document of gift but the purposes are not set forth in any priority, the gift shall be used for transplantation or therapy, if suitable. If the gift cannot be used for transplantation or therapy, the gift may be used for research or education.

(E) If an anatomical gift of one or more specific parts is made in a document of gift that does not name a person described in division (A) of this section and does not identify the purpose of the gift, the gift shall be used only for transplantation or therapy, and the gift shall pass in accordance with division (G) of this section.

(F) If a document of gift specifies only a general intent to make an anatomical gift by words such as "donor," "organ donor," or "body donor," or by a symbol or statement of similar import, the gift shall be used only for transplantation or therapy, and the gift shall pass in accordance with division (G) of this section.

(G) For purposes of divisions (B), (E), and (F) of this section, the following rules apply:

(1) If the part is an eye, the gift shall pass to the appropriate eye bank.

(2) If the part is tissue, the gift shall pass to the appropriate tissue bank.

(3) If the part is an organ, the gift shall pass to the appropriate organ procurement organization as custodian of the organ.

(H) An anatomical gift of an organ for transplantation or therapy, other than an anatomical gift under division (A)(2) of this section, shall pass to the organ procurement organization as custodian of the organ.

(I) If an anatomical gift does not pass pursuant to divisions (A) to (H) of this section, or the decedent's body or part is not used for transplantation, therapy, research, or education,
custody of the body or part shall pass to the person to whom the right of disposition for the decedent's body has been assigned pursuant to section 2108.70 of the Revised Code or who has the right of disposition for the decedent's body as described in section 2108.81 of the Revised Code.

(J) A person shall not accept an anatomical gift if the person knows that the gift was not effectively made under section 2108.05 or 2108.10 of the Revised Code, or if the person knows that the decedent made a refusal under section 2108.07 of the Revised Code that was not revoked. For purposes of this division, if a person knows that an anatomical gift was made on a document of gift, the person is deemed to know of any amendment or revocation of the gift or any refusal to make an anatomical gift on the same document of gift.

(K) Except as otherwise provided in division (A)(2) of this section, nothing in sections 2108.01 to 2108.29 of the Revised Code affects the allocation of organs for transplantation or therapy.

2108.12 Search of body for evidence of organ donation.

(A) If any of the following persons, while acting in the course of the person's official duties, finds an individual and reasonably believes that the individual is dead or near death, the person shall make a reasonable search of the body of the individual for a document of gift or other information identifying the individual as a donor or as an individual who made a refusal:

(1) A law enforcement officer as defined in section 2901.01 of the Revised Code;
(2) A member of a fire department as defined in section 4117.01 of the Revised Code;
(3) A first responder, emergency medical technician-basic, emergency medical technician-intermediate, or emergency medical technician-paramedic, as those terms are defined in section 4765.01 of the Revised Code.

(B) If a document of gift or refusal to make an anatomical gift is located by the search required by division (A) of this section, and the individual or deceased individual to whom it relates is taken to a hospital, the person responsible for conducting the search shall send the document of gift or refusal to the hospital.

(C) A person is not subject to criminal or civil liability for failing to discharge the duties imposed by this section but may be subject to any of the following:

(1) Disciplinary action under a collective bargaining agreement, if the person is covered by a collective bargaining agreement entered into under Chapter 4117 of the Revised Code;
(2) Disciplinary action under section 124.34 of the Revised Code, if the person is an officer or employee in the classified service of this state or the counties, civil service townships, cities, city health districts, general health districts, or city school districts of this state;
(3) Disciplinary action by the person's employer.

2108.13 Copy of donation gift or refusal document.

(A) A document of gift need not be delivered during the donor's lifetime to be effective.

(B) On or after an individual's death, a person in possession of a document of gift or a refusal to make an anatomical gift with respect to the individual shall allow examination and copying of the document of gift or refusal by a person authorized to make or object to the making of an anatomical gift with respect to the individual or by a person to which the gift could pass under section 2108.11 of the Revised Code.

2108.14 Hospital shall search for organ donation records.

(A) When a hospital employee or agent refers an individual at or near death to a procurement organization, the organization shall make a reasonable search of the records of
the bureau of motor vehicles and any donor registry that it knows exists for the geographical area in which the individual resides to ascertain whether the individual has made an anatomical gift. The bureau of motor vehicles shall allow the procurement organization reasonable access to its records for purposes of ascertaining whether the individual is a donor.

(B) When a hospital employee or agent refers an individual at or near death to a procurement organization, the organization may conduct any reasonable examination necessary to ensure the medical suitability of a part that is or could be the subject of an anatomical gift for transplantation, therapy, research, or education from a donor or prospective donor. During the examination period, measures necessary to ensure the medical suitability of the part shall not be withdrawn unless the hospital or procurement organization knows that the individual expressed a contrary intent.

(C) Unless prohibited by law other than sections 2108.01 to 2108.29 of the Revised Code, at any time after a donor's death, the person to which a part passes under section 2108.11 of the Revised Code may conduct any reasonable examination necessary to ensure the medical suitability of the body or part for its intended purpose.

(D) Unless prohibited by law other than sections 2108.01 to 2108.29 of the Revised Code, an examination under division (B) or (C) of this section may include an examination of all medical and dental records of the donor or prospective donor.

(E) Upon the death of a minor who was a donor or had signed a refusal, unless a procurement organization knows the minor was emancipated, the procurement organization shall conduct a reasonable search for the parents of the minor and provide the parents with an opportunity to revoke or amend the anatomical gift or revoke the refusal.

(F) Upon referral by a hospital under division (A) of this section, a procurement organization shall make a reasonable search for any person listed in section 2108.09 of the Revised Code having an opportunity to make an anatomical gift on behalf of the prospective donor. If a procurement organization receives information that an anatomical gift to any other person was made, amended, or revoked, it shall promptly advise the other person of all relevant information.

2108.16 Donated parts removal authority.

(A) Except as provided in division (B) of this section, a physician or technician may remove a donated part from the body of a donor that the physician or technician is qualified to remove.

(B) Neither the physician who attends the decedent at death nor the physician who determines the time of the decedent's death shall participate in the procedures for removing or transplanting a part from the decedent.

2108.17 Hospital shall enter into agreement with organ procurement organization.

Each hospital in this state shall enter into agreements or affiliations with procurement organizations for coordination of procurement and use of anatomical gifts.

2108.20 Immunity for good faith action.

(A) A person who acts in accordance with sections 2108.01 to 2108.29 of the Revised Code or with the applicable anatomical gift laws of another state, or attempts in good faith to do so, is not liable for the act in a civil action, criminal prosecution, or administrative proceeding.

(B) Neither the person making the anatomical gift nor the donor's estate is liable for any injury or damage that results from the making or use of the gift.
Chapter 5. Death, Dying, and Lay Caregivers

2108.21 Relationship to organ donor; descriptions by others.

In determining whether an anatomical gift has been made, amended, or revoked under sections 2108.01 to 2108.29 of the Revised Code, a person may rely upon representations of an individual listed in division (A)(2), (3), (4), (5), (6), (7), or (8) of section 2108.09 of the Revised Code relating to the individual’s relationship to the donor or prospective donor unless the person knows that the representation is untrue.

2108.22 Requirements for valid organ donation.

(A) A document of gift is valid if executed in accordance with any of the following:
   (1) Sections 2108.01 to 2108.29 of the Revised Code;
   (2) The laws of the state or country where it was executed;
   (3) The laws of the state or country where the person making the anatomical gift was domiciled, has a place of residence, or was a resident or national at the time the document of gift was executed.

   (B) If a document of gift is valid under this section, the law of this state shall govern the interpretation of the document of gift.

   (C) A person may presume that a document of gift or amendment of an anatomical gift is valid unless that person knows that it was not validly executed or was revoked.

2108.24 Conflict between organ donation and advance directive.

(A) As used in this section:
   (1) “Advance health-care directive” means a durable power of attorney for health care or a record signed by a prospective donor containing the prospective donor’s direction concerning a health-care decision.
   (2) “Declaration” means a written document executed in accordance with section 2133.02 of the Revised Code.
   (3) “Health care decision” means any decision regarding the health care of the prospective donor.

   (B) If a prospective donor has a declaration or advance health-care directive the terms of which are in conflict with the express or implied terms of a potential anatomical gift with regard to administration of measures necessary to ensure the medical suitability of a part for transplantation or therapy and the prospective donor is capable of resolving the conflict, subject to division (G) of this section, the prospective donor’s attending physician shall confer with the prospective donor to resolve the conflict.

   (C) If a prospective donor has a declaration or advance health-care directive the terms of which are in conflict with the express or implied terms of a potential anatomical gift with regard to administration of measures necessary to ensure the medical suitability of a part for transplantation or therapy and the prospective donor is incapable of resolving the conflict, one of the following shall apply depending on the circumstances:
      (1) If the prospective donor has an agent, the agent shall, subject to division (G) of this section, act for the prospective donor to resolve the conflict.
      (2) If the prospective donor does not have an agent, the individual or class of individuals determined in the following descending order of priority and subject to divisions (D), (E), (F), and (G) of this section shall act for the prospective donor to resolve the conflict:
         (a) The prospective donor’s surviving spouse;
         (b) The prospective donor’s surviving adult children;
         (c) The prospective donor’s surviving parent or parents;
         (d) The prospective donor’s surviving adult siblings;
(e) The prospective donor's surviving adult grandchildren;
(f) The prospective donor's surviving grandparent or grandparents;
(g) A surviving adult who exhibited special care and concern for the prospective donor;
(h) The prospective donor's guardians of the person;
(i) The persons, other than those in divisions (C)(2)(a) to (h) of this section, to whom the prospective donor has assigned the right of disposition for the prospective donor's body pursuant to section 2108.70 of the Revised Code or who have the right of disposition for the prospective donor's body at the time of death as described in section 2108.81 of the Revised Code.

(D) If an appropriate individual entitled to resolve a conflict between the terms of a prospective donor's declaration or advance health-care directive and the express or implied terms of a potential anatomical gift as described in division (C) of this section is not reasonably available to resolve the conflict, is incapacitated, or declines to resolve the conflict, the next priority individual or class of individuals specified in that division is authorized to resolve the conflict.

(E) If at least one individual in a class of individuals entitled to resolve a conflict between the terms of a prospective donor's declaration or advance health-care directive and the express or implied terms of a potential anatomical gift is not reasonably available, is incapacitated, or declines to resolve the conflict, the conflict shall be resolved by the individual or individuals in the class who are reasonably available, not incapacitated, and willing to resolve the conflict.

(F) If individuals in a class of individuals determined in accordance with division (C)(2) of this section disagree on how a conflict between the terms of a prospective donor's declaration or advance health-care directive and the express or implied terms of a potential anatomical gift should be resolved, the opinion of the majority of the individuals who are reasonably available, not incapacitated, and willing to resolve the conflict shall prevail.

(G) A conflict between the terms of a prospective donor's declaration or directive and the express or implied terms of a potential anatomical gift with regard to the administration of measures necessary to ensure the medical suitability of a part for transplantation or therapy shall be resolved as expeditiously as possible. Information relevant to the resolution of the conflict may be obtained from the appropriate procurement organization and any other person authorized to make an anatomical gift for the prospective donor under section 2108.09 of the Revised Code. Before resolution of the conflict, measures necessary to ensure the medical suitability of the part shall not be withheld or withdrawn from the prospective donor unless withholding or withdrawing the measures is necessary for appropriate end-of-life care.

Death

2108.40 Definitions of death and physician immunity.

An individual is dead if the individual has sustained either irreversible cessation of circulatory and respiratory functions or irreversible cessation of all functions of the brain, including the brain stem, as determined in accordance with accepted medical standards. If the respiratory and circulatory functions of a person are being artificially sustained, under accepted medical standards a determination that death has occurred is made by a physician by observing and conducting a test to determine that the irreversible cessation of all functions of the brain has occurred.

A physician who makes a determination of death in accordance with this section and accepted medical standards is not liable for damages in any civil action or subject to prosecution in any criminal proceeding for the physician's acts or the acts of others based on that determination.

Any person who acts in good faith in reliance on a determination of death made by a
Chapter 5. Death, Dying, and Lay Caregivers

physician in accordance with this section and accepted medical standards is not liable for damages in any civil action or subject to prosecution in any criminal proceeding for the person's actions.

4731-14-01 Pronouncement of death requirements.

(A) Only an individual holding one of the following current certificates or licenses may pronounce a person dead:
(1) A certificate to practice medicine and surgery or osteopathic medicine and surgery issued under section 4731.14 or 4731.29 of the Revised Code;
(2) A training certificate issued under section 4731.291 of the Revised Code;
(3) A clinical research faculty certificate issued under section 4731.293 of the Revised Code;
(4) A special activities certificate issued under section 4731.294 of the Revised Code;
(5) A certificate of authority to practice as a certified nurse practitioner or clinical nurse specialist issued under section 4723.42 of the Revised Code, when the holder acts in compliance with section 4723.36 of the Revised Code;
(6) A license to practice as a registered nurse issued under section 4723.09 of the Revised Code, when the holder acts in compliance with section 4723.36 of the Revised Code.
(7) A license to practice as a physician assistant issued under section 4730.12 of the Revised Code, when the holder acts in compliance with section 4730.12 of the Revised Code;
(8) A certificate of conceded eminence issued under section 4731.297 of the Revised Code;
(9) A certificate to practice podiatric medicine and surgery issued under section 4731.56, 4731.57, or 4731.571 of the Revised Code.

(B) A physician holding a current certificate to practice medicine or surgery or osteopathic medicine and surgery issued under section 4731.14 or 4731.29 of the Revised Code may pronounce a person dead without personally examining the body of the deceased only if a competent observer has recited the facts of the deceased's present medical condition to the physician and the physician is satisfied that death has occurred.

(C) For purposes of this rule a competent observer shall mean one of the following:
(1) A licensed practical nurse holding a current license issued under Chapter 4723 of the Revised Code;
(2) An EMT-Basic holding a current certificate issued under section 4765.30 of the Revised Code;
(3) An EMT-intermediate holding a current certificate issued under section 4765.30 of the Revised Code;
(4) An EMT-paramedic holding a current certificate issued under section 4765.30 of the Revised Code;
(5) A chiropractor holding a current certificate issued under Chapter 4734 of the Revised Code;
(6) An individual authorized to pronounce a person dead under paragraph (A) of this rule;
(7) A coroner's investigator as referenced in section 313.05 of the Revised Code.

Assisted Suicide

3795.01 Assisted suicide; definitions.

As used in sections 3795.01, 3795.02, and 3795.03 of the Revised Code:
(A) “Assist suicide” or “assisting suicide” means knowingly doing either of the following,
with the purpose of helping another person to commit or attempt suicide:

(1) Providing the physical means by which the person commits or attempts to commit suicide;

(2) Participating in a physical act by which the person commits or attempts to commit suicide.

(B) “Certified nurse practitioner,” “certified nurse-midwife,” and “clinical nurse specialist” have the same meanings as in section 4723.01 of the Revised Code.

(C) “CPR” has the same meaning as in section 2133.21 of the Revised Code.

(D) “Health care” means any care, treatment, service, or procedure to maintain, diagnose, or treat a person's physical or mental condition.

(E) “Health care decision” means informed consent, refusal to give informed consent, or withdrawal of informed consent to health care.

(F) “Health care facility” means any of the following:

(1) A hospital;

(2) A hospice care program or pediatric respite care program as defined in section 3712.01 of the Revised Code;

(3) A nursing home;

(4) A home health agency;

(5) An intermediate care facility for individuals with intellectual disabilities.

(G) “Health care personnel” means physicians, nurses, physician assistants, emergency medical technicians-basic, emergency medical technicians-intermediate, emergency medical technicians-paramedic, medical technicians, dietitians, other authorized persons acting under the direction of an attending physician, and administrators of health care facilities.

(H) “Physician” means a person who is authorized under Chapter 4731 of the Revised Code to practice medicine and surgery or osteopathic medicine and surgery.

3795.02 Assisting suicide; injunctions.

(A) Assisting suicide is hereby declared to be against the public policy of the state.

(B) A court of common pleas shall grant an injunction enjoining any action related to assisting suicide if it finds there is reason to believe that the person enjoined is preparing to assist a suicide, is in the course of assisting a suicide, or has assisted a suicide. The injunction shall prohibit the person from assisting any suicide in this state regardless of who is being assisted. The injunction may be granted at the request of any of the following:

(1) A person who has prepared or attempted to commit suicide with the assistance of the person sought to be enjoined;

(2) The guardian, spouse, parent, child, or sibling of a person who is preparing or has prepared to commit, who is attempting or has attempted to commit, or who committed suicide with the assistance of the person sought to be enjoined;

(3) A person entitled to inherit from a person who is preparing or has prepared to commit, who is attempting or has attempted to commit, or who committed suicide with the assistance of the person sought to be enjoined;

(4) A person who has inherited from a person who has prepared or attempted to commit or who committed suicide with the assistance of the person sought to be enjoined;

(5) An individual who is providing or has provided health care to a person who is preparing or has prepared to commit or who is attempting or has attempted to commit suicide with the assistance of the person sought to be enjoined;

(6) An individual who has provided health care to a person who committed suicide with the assistance of the person sought to be enjoined;

(7) A prosecuting attorney;

(8) The attorney general.
Chapter 5. Death, Dying, and Lay Caregivers

If an injunction is granted, the court may award the party requesting the injunction all reasonable attorney’s fees, which shall be considered damages.

3795.03 Assisted suicide; exceptions.

Nothing in section 3795.01, 3795.02, or 3795.04 of the Revised Code shall do any of the following:
(A) Prohibit or preclude a physician, certified nurse practitioner, certified nurse-midwife, or clinical nurse specialist who carries out the responsibility to provide comfort care to a patient in good faith and while acting within the scope of the physician’s or nurse’s authority from prescribing, dispensing, administering, or causing to be administered any particular medical procedure, treatment, intervention, or other measure to the patient, including, but not limited to, prescribing, personally furnishing, administering, or causing to be administered by judicious titration or in another manner any form of medication, for the purpose of diminishing the patient’s pain or discomfort and not for the purpose of postponing or causing the patient’s death, even though the medical procedure, treatment, intervention, or other measure may appear to hasten or increase the risk of the patient’s death;
(B) Prohibit or preclude health care personnel acting under the direction of a person authorized to prescribe a patient’s treatment and who carry out the responsibility to provide comfort care to the patient in good faith and while acting within the scope of their authority from dispensing, administering, or causing to be administered any particular medical procedure, treatment, intervention, or other measure to the patient, including, but not limited to, personally furnishing, administering, or causing to be administered by judicious titration or in another manner any form of medication, for the purpose of diminishing the patient’s pain or discomfort and not for the purpose of postponing or causing the patient’s death, even though the medical procedure, treatment, intervention, or other measure may appear to hasten or increase the risk of the patient’s death;
(C) Prohibit or affect the use or continuation, or the withholding or withdrawal, of life-sustaining treatment, CPR, or comfort care under Chapter 2133 of the Revised Code;
(D) Prohibit or affect the provision or withholding of health care, life-sustaining treatment, or comfort care to a principal under a durable power of attorney for health care or any other health care decision made by an attorney in fact under sections 1337.11 to 1337.17 of the Revised Code;
(E) Affect or limit the authority of a physician, a health care facility, a person employed by or under contract with a health care facility, or emergency service personnel to provide or withhold health care to a person in accordance with reasonable medical standards applicable in an emergency situation;
(F) Affect or limit the authority of a person to refuse to give informed consent to health care, including through the execution of a durable power of attorney for health care under sections 1337.11 to 1337.17 of the Revised Code, the execution of a declaration under sections 2133.01 to 2133.15 of the Revised Code, or authorizing the withholding or withdrawal of CPR under sections 2133.21 to 2133.26 of the Revised Code.

3795.04 Assisted suicide; prohibitions and penalty.

(A) Except as provided in section 3795.03 of the Revised Code, no person shall knowingly cause another person to commit or attempt to commit suicide by doing either of the following:
(1) Providing the physical means by which the other person commits or attempts to commit suicide;
(2) Participating in a physical act by which the other person commits or attempts to
commit suicide.
  (B) Whoever violates division (A) of this section is guilty of assisting suicide, a felony of the third degree.

Part II. Advance Directives

Durable Power of Attorney

1337.11 Durable power of attorney; definitions.

As used in sections 1337.11 to 1337.17 of the Revised Code:
(A) “Adult” means a person who is eighteen years of age or older.
(B) “Attending physician” means the physician to whom a principal or the family of a principal has assigned primary responsibility for the treatment or care of the principal or, if the responsibility has not been assigned, the physician who has accepted that responsibility.
(C) “Comfort care” means any of the following:
  (1) Nutrition when administered to diminish the pain or discomfort of a principal, but not to postpone death;
  (2) Hydration when administered to diminish the pain or discomfort of a principal, but not to postpone death;
  (3) Any other medical or nursing procedure, treatment, intervention, or other measure that is taken to diminish the pain or discomfort of a principal, but not to postpone death.
(D) “Consulting physician” means a physician who, in conjunction with the attending physician of a principal, makes one or more determinations that are required to be made by the attending physician, or to be made by the attending physician and one other physician, by an applicable provision of sections 1337.11 to 1337.17 of the Revised Code, to a reasonable degree of medical certainty and in accordance with reasonable medical standards.
(E) “Declaration for mental health treatment” has the same meaning as in section 2135.01 of the Revised Code.
(F) “Guardian” means a person appointed by a probate court pursuant to Chapter 2111 of the Revised Code to have the care and management of the person of an incompetent.
(G) “Health care” means any care, treatment, service, or procedure to maintain, diagnose, or treat an individual’s physical or mental condition or physical or mental health.
(H) “Health care decision” means informed consent, refusal to give informed consent, or withdrawal of informed consent to health care.
  (I) “Health care facility” means any of the following:
    (1) A hospital;
    (2) A hospice care program, pediatric respite care program, or other institution that specializes in comfort care of patients in a terminal condition or in a permanently unconscious state;
    (3) A nursing home;
    (4) A home health agency;
    (5) An intermediate care facility for individuals with intellectual disabilities;
    (6) A regulated community mental health organization.
(J) “Health care personnel” means physicians, nurses, physician assistants, emergency medical technicians-basic, emergency medical technicians-intermediate, emergency medical technicians-paramedic, medical technicians, dietitians, other authorized persons acting under the direction of an attending physician, and administrators of health care facilities.
(K) “Home health agency” has the same meaning as in section 3701.881 of the Revised Code.
(L) “Hospice care program” and “pediatric respite care program” have the same
Chapter 5. Death, Dying, and Lay Caregivers
Part II. Advance Directives

meanings as in section 3712.01 of the Revised Code.

(M) “Hospital” has the same meanings as in sections 3701.01, 3727.01, and 5122.01 of the Revised Code.

(N) “Hydration” means fluids that are artificially or technologically administered.

(O) “Incompetent” has the same meaning as in section 2111.01 of the Revised Code.

(P) “Intermediate care facility for individuals with intellectual disabilities” has the same meaning as in section 5124.01 of the Revised Code.

(Q) “Life-sustaining treatment” means any medical procedure, treatment, intervention, or other measure that, when administered to a principal, will serve principally to prolong the process of dying.

(R) “Medical claim” has the same meaning as in section 2305.113 of the Revised Code.

(S) “Mental health treatment” has the same meaning as in section 2135.01 of the Revised Code.

(T) “Nursing home” has the same meaning as in section 3721.01 of the Revised Code.

(U) “Nutrition” means sustenance that is artificially or technologically administered.

(V) “Permanently unconscious state” means a state of permanent unconsciousness in a principal that, to a reasonable degree of medical certainty as determined in accordance with reasonable medical standards by the principal’s attending physician and one other physician who has examined the principal, is characterized by both of the following:

(1) Irreversible unawareness of one’s being and environment.

(2) Total loss of cerebral cortical functioning, resulting in the principal having no capacity to experience pain or suffering.

(W) “Person” has the same meaning as in section 1.59 of the Revised Code and additionally includes political subdivisions and governmental agencies, boards, commissions, departments, institutions, offices, and other instrumentalities.

(X) “Physician” means a person who is authorized under Chapter 4731 of the Revised Code to practice medicine and surgery or osteopathic medicine and surgery.

(Y) “Political subdivision” and “state” have the same meanings as in section 2744.01 of the Revised Code.

(Z) “Professional disciplinary action” means action taken by the board or other entity that regulates the professional conduct of health care personnel, including the state medical board and the board of nursing.

(AA) “Regulated community mental health organization” means a residential facility as defined and licensed under section 5119.34 of the Revised Code or a community mental health services provider as defined in section 5122.01 of the Revised Code.

(BB) “Terminal condition” means an irreversible, incurable, and untreatable condition caused by disease, illness, or injury from which, to a reasonable degree of medical certainty as determined in accordance with reasonable medical standards by a principal’s attending physician and one other physician who has examined the principal, both of the following apply:

(1) There can be no recovery.

(2) Death is likely to occur within a relatively short time if life-sustaining treatment is not administered.

(CC) “Tort action” means a civil action for damages for injury, death, or loss to person or property, other than a civil action for damages for a breach of contract or another agreement between persons.

1337.12 Durable power of attorney.

(A)(1) An adult who is of sound mind voluntarily may create a valid durable power of attorney for health care by executing a durable power of attorney, in accordance with section 1337.24 of the Revised Code, that authorizes an attorney in fact as described in division (A)(2)
of this section to make health care decisions for the principal at any time that the attending physician of the principal determines that the principal has lost the capacity to make informed health care decisions for the principal. The durable power of attorney for health care may authorize the attorney in fact, commencing immediately upon the execution of the instrument or at any subsequent time and regardless of whether the principal has lost the capacity to make informed health care decisions, to obtain information concerning the principal's health, including protected health information as defined in 45 C.F.R. 160.103. Except as otherwise provided in divisions (B) to (F) of section 1337.13 of the Revised Code, the authorization may include the right to give informed consent, to refuse to give informed consent, or to withdraw informed consent to any health care that is being or could be provided to the principal. Additionally, to be valid, a durable power of attorney for health care shall satisfy both of the following:

(a) It shall be signed at the end of the instrument by the principal and shall state the date of its execution.
(b) It shall be witnessed in accordance with division (B) of this section or be acknowledged by the principal in accordance with division (C) of this section.

(2) Except as otherwise provided in this division, a durable power of attorney for health care may designate any competent adult as the attorney in fact. The attending physician of the principal and an administrator of any nursing home in which the principal is receiving care shall not be designated as an attorney in fact in, or act as an attorney in fact pursuant to, a durable power of attorney for health care. An employee or agent of the attending physician of the principal and an employee or agent of any health care facility in which the principal is being treated shall not be designated as an attorney in fact in, or act as an attorney in fact pursuant to, a durable power of attorney for health care, except that these limitations do not preclude a principal from designating either type of employee or agent as the principal's attorney in fact if the individual is a competent adult and related to the principal by blood, marriage, or adoption, or if the individual is a competent adult and the principal and the individual are members of the same religious order.

(3) A durable power of attorney for health care shall not expire, unless the principal specifies an expiration date in the instrument. However, when a durable power of attorney contains an expiration date, if the principal lacks the capacity to make informed health care decisions for the principal on the expiration date, the instrument shall continue in effect until the principal regains the capacity to make informed health care decisions for the principal.

(B) If witnessed for purposes of division (A)(1)(b) of this section, a durable power of attorney for health care shall be witnessed by at least two individuals who are adults and who are not ineligible to be witnesses under this division. Any person who is related to the principal by blood, marriage, or adoption, any person who is designated as the attorney in fact or alternate attorney in fact in the instrument, the attending physician of the principal, and the administrator of any nursing home in which the principal is receiving care are ineligible to be witnesses.

The witnessing of a durable power of attorney for health care shall involve the principal signing, or acknowledging the principal's signature, at the end of the instrument in the presence of each witness. Then, each witness shall subscribe the witness's signature after the signature of the principal and, by doing so, attest to the witness's belief that the principal appears to be of sound mind and not under or subject to duress, fraud, or undue influence. The signatures of the principal and the witnesses under this division are not required to appear on the same page of the instrument.

(C) If acknowledged for purposes of division (A)(1)(b) of this section, a durable power of attorney for health care shall be acknowledged before a notary public, who shall make the certification described in section 147.53 of the Revised Code and also shall attest that the principal appears to be of sound mind and not under or subject to duress, fraud, or undue influence.
(D)(1) If a principal has both a valid durable power of attorney for health care and a valid declaration, division (B) of section 2133.03 of the Revised Code applies. If a principal has both a valid durable power of attorney for health care and a DNR identification that is based upon a valid declaration and if the declaration supersedes the durable power of attorney for health care under division (B) of section 2133.03 of the Revised Code, the DNR identification supersedes the durable power of attorney for health care to the extent of any conflict between the two. A valid durable power of attorney for health care supersedes any DNR identification that is based upon a do-not-resuscitate order that a physician issued for the principal which is inconsistent with the durable power of attorney for health care or a valid decision by the attorney in fact under a durable power of attorney.

(2) As used in division (D) of this section:
(a) “Declaration” has the same meaning as in section 2133.01 of the Revised Code.
(b) “Do-not-resuscitate order” and “DNR identification” have the same meanings as in section 2133.21 of the Revised Code.

(E)(1) In a durable power of attorney for health care, a principal may nominate a guardian of the principal's person, estate, or both for consideration by a court if proceedings for the appointment of a guardian for the principal's person, estate, or both are commenced at a later time. The principal may authorize the person nominated as the guardian or the attorney in fact to nominate a successor guardian for consideration by the court. The principal's nomination of a guardian of the principal's person, estate, or both is revoked by the principal's subsequent nomination of a guardian of the principal's person, estate, or both, and, except for good cause shown or disqualification, the court shall make its appointment in accordance with the principal's most recent nomination.

(2) The principal may direct that bond be waived for a person nominated as guardian or successor guardian under division (E)(1) of this section.

(3) A durable power of attorney for health care that contains the nomination of a person to be the guardian of the person, estate, or both of the principal may be filed with the probate court for safekeeping, and the probate court shall designate the nomination as the nomination of a standby guardian.

(4) If a guardian is appointed for the principal, a durable power of attorney for health care is not terminated, and the authority of the attorney in fact continues unless the court, pursuant to its authority under section 2111.50 of the Revised Code, limits, suspends, or terminates the power of attorney after notice to the attorney in fact and upon a finding that the limitation, suspension, or termination is in the best interest of the principal.

1337.13 Attorney in fact health care decision authority.

(A)(1) An attorney in fact under a durable power of attorney for health care shall make health care decisions for the principal only if the instrument substantially complies with section 1337.12 of the Revised Code and specifically authorizes the attorney in fact to make health care decisions for the principal, and only if the attending physician of the principal determines that the principal has lost the capacity to make informed health care decisions for the principal. If authorized in the instrument, the attorney in fact, commencing immediately upon the execution of the instrument or at any subsequent time specified in the instrument and regardless of whether the principal has lost the capacity to make informed health care decisions, may obtain information concerning the principal's health, including protected health information as defined in 45 C.F.R. 160.103. Except as otherwise provided in divisions (B) to (F) of this section and subject to any specific limitations in the instrument, the attorney in fact may make health care decisions for the principal to the same extent as the principal could make those decisions for the principal if the principal had the capacity to do so. Except as otherwise provided in divisions (B) to (F) of this section, in exercising that authority, the attorney in fact shall act consistently with
the desires of the principal or, if the desires of the principal are unknown, shall act in the best interest of the principal.

(2) This section does not affect, and shall not be construed as affecting, any right that the person designated as attorney in fact in a durable power of attorney for health care may have, apart from the instrument, to make or participate in the making of health care decisions on behalf of the principal.

(3) Unless the right is limited in a durable power of attorney for health care, when acting pursuant to the instrument, the attorney in fact has the same right as the principal to receive information about proposed health care, to review health care records, and to consent to the disclosure of health care records.

(B)(1) An attorney in fact under a durable power of attorney for health care does not have authority, on behalf of the principal, to refuse or withdraw informed consent to life-sustaining treatment, unless the principal is in a terminal condition or in a permanently unconscious state and unless the applicable requirements of divisions (B)(2) and (3) of this section are satisfied.

(2) In order for an attorney in fact to refuse or withdraw informed consent to life-sustaining treatment for a principal who is in a permanently unconscious state, the consulting physician associated with the determination that the principal is in the permanently unconscious state shall be a physician who, by virtue of advanced education or training, of a practice limited to particular diseases, illnesses, injuries, therapies, or branches of medicine and surgery or osteopathic medicine and surgery, of certification as a specialist in a particular branch of medicine or surgery or osteopathic medicine and surgery, or of experience acquired in the practice of medicine and surgery or osteopathic medicine and surgery, is qualified to determine whether the principal is in a permanently unconscious state.

(3) In order for an attorney in fact to refuse or withdraw informed consent to life-sustaining treatment for a principal who is in a terminal condition or in a permanently unconscious state, the attending physician of the principal shall determine, in good faith, both of the following:

(a) To a reasonable degree of medical certainty, and in accordance with reasonable medical standards, that there is no reasonable possibility that the principal will regain the capacity to make informed health care decisions for the principal;

(b) That the attorney in fact is competent to make such a decision under division (H) of this section.

(C) Except as otherwise provided in this division, an attorney in fact under a durable power of attorney for health care does not have authority, on behalf of the principal, to refuse or withdraw informed consent to health care necessary to provide comfort care. This division does not preclude, and shall not be construed as precluding, an attorney in fact under a durable power of attorney for health care from refusing or withdrawing informed consent to the provision of nutrition or hydration to the principal if, under the circumstances described in division (E) of this section, the attorney in fact would not be prohibited from refusing or withdrawing informed consent to the provision of nutrition or hydration to the principal.

(D) An attorney in fact under a durable power of attorney for health care does not have authority to refuse or withdraw informed consent to health care for a principal who is pregnant if the refusal or withdrawal of the health care would terminate the pregnancy, unless the pregnancy or the health care would pose a substantial risk to the life of the principal, or unless the principal's attending physician and at least one other physician who has examined the principal determine, to a reasonable degree of medical certainty and in accordance with reasonable medical standards, that the fetus would not be born alive.

(E) An attorney in fact under a durable power of attorney for health care does not have authority to refuse or withdraw informed consent to the provision of nutrition or hydration to the principal, unless the principal is in a terminal condition or in a permanently unconscious state
and unless the following apply:

(1) The principal's attending physician and at least one other physician who has examined the principal determine, to a reasonable degree of medical certainty and in accordance with reasonable medical standards, that nutrition or hydration will not or no longer will serve to provide comfort to, or alleviate pain of, the principal.

(2) If the principal is in a permanently unconscious state, the principal has authorized the attorney in fact to refuse or withdraw informed consent to the provision of nutrition or hydration to the principal if the principal is in a permanently unconscious state by doing both of the following in the durable power of attorney for health care:

(a) Including a statement in capital letters or other conspicuous type, including, but not limited to, a different font, bigger type, or boldface type, that the attorney in fact may refuse or withdraw informed consent to the provision of nutrition or hydration to the principal if the principal is in a permanently unconscious state and if the determination described in division (E)(1) of this section is made, or checking or otherwise marking a box or line that is adjacent to a similar statement on a printed form of a durable power of attorney for health care;

(b) Placing the principal's initials or signature underneath or adjacent to the statement, check, or other mark described in division (E)(2)(a) of this section.

(3) If the principal is in a permanently unconscious state, the principal's attending physician determines, in good faith, that the principal authorized the attorney in fact to refuse or withdraw informed consent to the provision of nutrition or hydration to the principal when the principal is in a permanently unconscious state by complying with the requirements of divisions (E)(2)(a) and (b) of this section.

(4) The principal's attending physician determines, in good faith, that the attorney in fact is competent to make such a decision under division (H) of this section.

(F) An attorney in fact under a durable power of attorney for health care does not have authority to withdraw informed consent to any health care to which the principal previously consented, unless at least one of the following applies:

(1) A change in the physical condition of the principal has significantly decreased the benefit of that health care to the principal.

(2) The health care is not, or is no longer, significantly effective in achieving the purposes for which the principal consented to its use.

(G) An attorney in fact under a durable power of attorney for health care does not have authority to make decisions pertaining to the use or continuation of life-sustaining treatment or the provision of nutrition or hydration to the principal unless the attorney in fact is competent to make those decisions under division (H) of this section.

(H) An attorney in fact is competent to make decisions under division (B), (E), or (G) of this section unless the attorney in fact is subject to a temporary protection order, civil protection order, or any other protection order issued by a court in this state or another state in which the principal is the alleged victim.

1337.14 Durable power of attorney principal revocation.

(A) A principal who creates a valid durable power of attorney for health care may revoke that instrument or the designation of the attorney in fact under it.

The principal may so revoke at any time and in any manner. The revocation shall be effective when the principal expresses an intention to so revoke, except that, if the principal made the principal's attending physician aware of the durable power of attorney for health care, the revocation shall be effective upon its communication to the attending physician by the principal, a witness to the revocation, or other health care personnel to whom the revocation is communicated by such a witness. Absent actual knowledge to the contrary, the attending physician of the principal and other health care personnel who are informed of the revocation of
a durable power of attorney for health care by an alleged witness may rely on the information and act in accordance with the revocation.

(B) Upon the communication as described in division (A) of this section to the attending physician of a principal of the fact that the principal's durable power of attorney for health care has been revoked, the attending physician or other health care personnel acting under the direction of the attending physician shall make the fact a part of the principal's medical record.

(C) Unless the instrument provides otherwise, a valid durable power of attorney for health care revokes a prior, valid durable power of attorney for health care.

(D) Regardless of when the declaration is drafted, the execution of a declaration for mental health treatment does not revoke a valid durable power of attorney for health care. A declaration for mental health treatment executed in accordance with Chapter 2135 of the Revised Code supersedes a valid durable power of attorney for health care with regard to mental health treatment and the designation of a proxy to make decisions regarding mental health treatment.

**1337.15 Immunity of physicians and others.**

(A) Subject to division (H) of this section, an attending physician of a principal is not subject to criminal prosecution or professional disciplinary action and is not liable in damages in a tort or other civil action for actions taken in good faith and in reliance on a health care decision when all of the following are satisfied:

1. The decision is made by an attorney in fact under a durable power of attorney for health care after the attorney in fact receives information sufficient to satisfy the requirements of informed consent or refusal or withdrawal of informed consent, and the attending physician, in good faith, believes that the attorney in fact is authorized to make the decision.

2. The attending physician, in good faith, believes that the decision is consistent with the desires of the principal, or the attorney in fact informs the attending physician that the desires of the principal are unknown and the attending physician, in good faith, believes that the desires of the principal are unknown and that the decision is in the best interest of the principal.

3. The attending physician determines, in good faith, to a reasonable degree of medical certainty, and in accordance with reasonable medical standards, that the principal has lost the capacity to make informed health care decisions for the principal.

4. If the decision is to withhold or withdraw life-sustaining treatment, the attending physician attempts, in good faith, to determine the desires of the principal to the extent that the principal is able to convey them and places a report of the attempt in the health care records of the principal.

5. If the decision is to withhold or withdraw life-sustaining treatment, the attending physician determines, in good faith, to a reasonable degree of medical certainty, and in accordance with reasonable medical standards, that both of the following apply:

   a. The principal is in a terminal condition or in a permanently unconscious state.

   b. There is no reasonable possibility that the principal will regain the capacity to make informed health care decisions for the principal.

6. If the decision pertains to a principal who is pregnant and if the withholding or withdrawal of health care would terminate the pregnancy, the attending physician makes, in good faith, to a reasonable degree of medical certainty, and in accordance with reasonable medical standards, a determination whether or not the pregnancy or health care involved would pose a substantial risk to the life of the principal or a determination whether or not the fetus would be born alive.

7. If the decision pertains to the provision of nutrition or hydration to a principal who is in a terminal condition or in a permanently unconscious state, the attending physician determines,
in good faith, to a reasonable degree of medical certainty, and in accordance with reasonable medical standards, that nutrition or hydration will not or no longer will serve to provide comfort to, or alleviate pain of, the principal.

(8) If the decision pertains to the provision of nutrition or hydration to a principal who is in a permanently unconscious state, the attending physician determines, in good faith, that the principal authorized the attorney in fact to refuse or withdraw informed consent to the provision of nutrition or hydration to the principal when the principal is in a permanently unconscious state by complying with the requirements of divisions (E)(2)(a) and (b) of section 1337.13 of the Revised Code.

(B)(1) Notwithstanding the health care decision of the attorney in fact, subject to division (H) of this section, an attending physician of a principal is not subject to criminal prosecution or professional disciplinary action and is not liable in damages in a tort or other civil action for providing or for failing to withdraw life-sustaining treatment.

(2) Subject to division (H) of this section, an attending physician who is carrying out in good faith and in a manner consistent with divisions (C) and (E) of section 1337.13 of the Revised Code the responsibility to provide comfort care to a principal in a terminal condition or in a permanently unconscious state is not subject to criminal prosecution or professional disciplinary action and is not liable in damages in a tort or other civil action for prescribing, dispensing, administering, or causing to be administered any particular medical procedure, treatment, intervention, or other measure to the principal, including, but not limited to, prescribing, personally furnishing, administering, or causing to be administered by judicious titration or in another manner any form of medication, for the purpose of diminishing the principal's pain or discomfort and not for the purpose of postponing or causing the principal's death, even though the medical procedure, treatment, intervention, or other measure may appear to hasten or increase the risk of the principal's death.

(C) Subject to division (H) of this section, a consulting physician is not subject to criminal prosecution or professional disciplinary action and is not liable in damages in a tort or other civil action as follows:

(1) If the health care decision involved is one other than the health care decision described in division (C)(2), (3), or (4) of this section, the consulting physician made a determination, in good faith, to a reasonable degree of medical certainty, and in accordance with reasonable medical standards, in conjunction with the attending physician of a principal.

(2) If the decision is to withhold or withdraw life-sustaining treatment, the consulting physician determines, in good faith, to a reasonable degree of medical certainty, and in accordance with reasonable medical standards, after examining the principal, that the principal is in a terminal condition or in a permanently unconscious state.

(3) If the health care decision involved pertains to a principal who is pregnant and if the withholding or withdrawal of health care would terminate the pregnancy, the consulting physician makes, in good faith, to a reasonable degree of medical certainty, and in accordance with reasonable medical standards, a determination whether or not the pregnancy or health care involved would pose a substantial risk to the life of the principal or a determination whether or not the fetus would be born alive.

(4) If the decision pertains to the provision of nutrition or hydration to a principal who is in a terminal condition or in a permanently unconscious state, the consulting physician determines, in good faith, to a reasonable degree of medical certainty, and in accordance with reasonable medical standards, that nutrition or hydration will not or no longer will serve to provide comfort to, or alleviate pain of, the principal.

(D) Subject to division (H) of this section, a person is not subject to criminal prosecution or professional disciplinary action and is not liable in damages in a tort or other civil action for actions taken, in good faith, while relying on a durable power of attorney for health care if the person does not have actual knowledge of either of the following facts:
(1) The durable power of attorney has been revoked pursuant to section 1337.14 of the Revised Code.

(2) The durable power of attorney does not substantially comply with sections 1337.11 to 1337.17 of the Revised Code.

(E)(1) Subject to division (H) of this section, a consulting physician, an employee or agent of any health care facility or the attending physician of a principal, and health care personnel acting under the direction of the attending physician of a principal are not subject to criminal prosecution or professional disciplinary action and are not liable in damages in a tort or other civil action for any action described in division (A), (B), (C), or (D) of this section that was undertaken, in good faith, pursuant to the direction of the attending physician of the principal.

(2) Subject to division (H) of this section, health care personnel who are acting under the direction of the principal's attending physician and who carry out the responsibility to provide comfort care to a principal in a terminal condition or in a permanently unconscious state in good faith and in a manner consistent with divisions (C) and (E) of section 1337.13 of the Revised Code are not subject to criminal prosecution or professional disciplinary action and are not liable in damages in a tort or other civil action for dispensing, administering, or causing to be administered any particular medical procedure, treatment, intervention, or other measure to the principal, including, but not limited to, personally furnishing, administering, or causing to be administered by judicious titration or in another manner any form of medication, for the purpose of diminishing the principal's pain or discomfort and not for the purpose of postponing or causing the principal's death, even though the medical procedure, treatment, intervention, or other measure may appear to hasten or increase the risk of the principal's death.

(F) Subject to division (H) of this section, a health care facility is not subject to criminal prosecution or professional disciplinary action and is not liable in damages in a tort or other civil action for any action that properly was undertaken pursuant to division (A), (B), (C), (D), or (E) of this section.

(G) Subject to division (H) of this section, an attorney in fact is not subject to criminal prosecution or professional disciplinary action and is not liable in damages in a tort or other civil action for health care decisions made in good faith while acting pursuant to the attorney in fact's authority under a durable power of attorney for health care.

(H)(1) Sections 1337.11 to 1337.17 of the Revised Code and a durable power of attorney for health care do not affect or limit any potential tort or other civil liability of an attending or consulting physician, an employee or agent of a health care facility or an attending physician, health care personnel acting under the direction of an attending physician, a health care facility, an attorney in fact, or any other person, including, but not limited to, liability associated with a medical claim, that satisfies both of the following:

(a) The liability arises out of a negligent action or omission in connection with the medical diagnosis, care, or treatment of a principal under a durable power of attorney for health care or arises out of any deviation from reasonable medical standards.

(b) The liability is based on the fact that the negligent action or omission, or the deviation, as described in division (H)(1)(a) of this section caused or contributed to the principal under the durable power of attorney for health care having a terminal condition or being in a permanently unconscious state, or otherwise caused or contributed to any injury to or the wrongful death of the principal.

(2) Sections 1337.11 to 1337.17 of the Revised Code and a durable power of attorney for health care do not grant an immunity from criminal or civil liability or from professional disciplinary action to health care personnel for actions that are outside the scope of their authority.
1337.16 Durable power of attorney for healthcare operational provisions.

(A) No physician, health care facility, other health care provider, person authorized to engage in the business of insurance in this state under Title XXXIX of the Revised Code, health insuring corporation, other health care plan, or legal entity that is self-insured and provides benefits to its employees or members shall require an individual to create or refrain from creating a durable power of attorney for health care, or shall require an individual to revoke or refrain from revoking a durable power of attorney for health care, as a condition of being admitted to a health care facility, being provided health care, being insured, or being the recipient of benefits.

(B)(1) Subject to division (B)(2) of this section, an attending physician of a principal or a health care facility in which a principal is confined may refuse to comply or allow compliance with the instructions of an attorney in fact under a durable power of attorney for health care on the basis of a matter of conscience or on another basis. An employee or agent of an attending physician of a principal or of a health care facility in which a principal is confined may refuse to comply with the instructions of an attorney in fact under a durable power of attorney for health care on the basis of a matter of conscience.

(2)(a) An attending physician of a principal who, or health care facility in which a principal is confined that, is not willing or not able to comply or allow compliance with the instructions of an attorney in fact under a durable power of attorney for health care to use or continue, or to withhold or withdraw, health care that were given under division (A) of section 1337.13 of the Revised Code, or with any probate court reevaluation order issued pursuant to division (D)(6) of this section, shall not prevent or attempt to prevent, or unreasonably delay or attempt to unreasonably delay, the transfer of the principal to the care of a physician who, or a health care facility that, is willing and able to so comply or allow compliance.

(b) If the instruction of an attorney in fact under a durable power of attorney for health care that is given under division (A) of section 1337.13 of the Revised Code is to use or continue life-sustaining treatment in connection with a principal who is in a terminal condition or in a permanently unconscious state, the attending physician of the principal who, or the health care facility in which the principal is confined that, is not willing or not able to comply or allow compliance with that instruction shall use or continue the life-sustaining treatment or cause it to be used or continued until a transfer as described in division (B)(2)(a) of this section is made.

(C) Sections 1337.11 to 1337.17 of the Revised Code and a durable power of attorney for health care created under section 1337.12 of the Revised Code do not affect or limit the authority of a physician or a health care facility to provide or not to provide health care to a person in accordance with reasonable medical standards applicable in an emergency situation.

(D)(1) If the attending physician of a principal and one other physician who examines the principal determine that the principal is in a terminal condition or in a permanently unconscious state, if the attending physician additionally determines that the principal has lost the capacity to make informed health care decisions for the principal and that there is no reasonable possibility that the principal will regain the capacity to make informed health care decisions for the principal, and if the attorney in fact under the principal's durable power of attorney for health care makes a health care decision pertaining to the use or continuation, or the withholding or withdrawal, of life-sustaining treatment, the attending physician shall do all of the following:

(a) Record the determinations and health care decision in the principal's medical record;

(b) Make a good faith effort, and use reasonable diligence, to notify the appropriate individual or individuals, in accordance with the following descending order of priority, of the determinations and health care decision:

(i) If any, the guardian of the principal. This division does not permit or require the appointment of a guardian for the principal.
(ii) The principal's spouse;
(iii) The principal's adult children who are available within a reasonable period of time for consultation with the principal's attending physician;
(iv) The principal's parents;
(v) An adult sibling of the principal or, if there is more than one adult sibling, a majority of the principal's adult siblings who are available within a reasonable period of time for such consultation.

(c) Record in the principal's medical record the names of the individual or individuals notified pursuant to division (D)(1)(b) of this section and the manner of notification;
(d) Afford time for the individual or individuals notified pursuant to division (D)(1)(b) of this section to object in the manner described in division (D)(3)(a) of this section.

(2)(a) If, despite making a good faith effort, and despite using reasonable diligence, to notify the appropriate individual or individuals described in division (D)(1)(b) of this section, the attending physician cannot notify the individual or individuals of the determinations and health care decision because the individual or individuals are deceased, cannot be located, or cannot be notified for some other reason, the requirements of divisions (D)(1)(b), (c), and (d) of this section and, except as provided in division (D)(3)(b) of this section, the provisions of divisions (D)(3) to (6) of this section shall not apply in connection with the principal. However, the attending physician shall record in the principal's medical record information pertaining to the reason for the failure to provide the requisite notices and information pertaining to the nature of the good faith effort and reasonable diligence used.

(b) The requirements of divisions (D)(1)(b), (c), and (d) of this section and, except as provided in division (D)(3)(b) of this section, the provisions of divisions (D)(3) to (6) of this section shall not apply in connection with the principal if only one individual would have to be notified pursuant to division (D)(1)(b) of this section and that individual is the attorney in fact under the durable power of attorney for health care. However, the attending physician of the principal shall record in the principal's medical record information indicating that no notice was given pursuant to division (D)(1)(b) of this section because of the provisions of division (D)(2)(b) of this section.

(3)(a) Within forty-eight hours after receipt of a notice pursuant to division (D)(1) of this section, any individual so notified shall advise the attending physician of the principal whether the individual objects on a basis specified in division (D)(4)(c) of this section. If an objection as described in that division is communicated to the attending physician, then, within two business days after the communication, the individual shall file a complaint as described in division (D)(4) of this section in the probate court of the county in which the principal is located. If the individual fails to so file a complaint, the individual's objections as described in division (D)(4)(c) of this section shall be considered to be void.

(b) Within forty-eight hours after the priority individual or any member of a priority class of individuals receives a notice pursuant to division (D)(1) of this section or within forty-eight hours after information pertaining to an unnotified priority individual or unnotified priority class of individuals is recorded in a principal's medical record pursuant to division (D)(2)(a) or (b) of this section, the individual or a majority of the individuals in the next class of individuals that pertains to the principal in the descending order of priority set forth in divisions (D)(1)(b)(i) to (v) of this section shall advise the attending physician of the principal whether the individual or majority object on a basis specified in division (D)(4)(c) of this section. If an objection as described in that division is communicated to the attending physician, then, within two business days after the communication, the objecting individual or majority shall file a complaint as described in division (D)(4) of this section in the probate court of the county in which the principal is located. If the objecting individual or majority fails to file a complaint, the objections as described in division (D)(4)(c) of this section shall be considered to be void.

(4) A complaint of an individual that is filed in accordance with division (D)(3)(a) of this
section or of an individual or majority of individuals that is filed in accordance with division 
(D)(3)(b) of this section shall satisfy all of the following:

(a) Name any health care facility in which the principal is confined;

(b) Name the principal, the principal's attending physician, and the consulting physician 
associated with the determination that the principal is in a terminal condition or in a permanently 
unconscious state;
