Cleveland Clinic

Objectives

1. Describe the role cognitive bias plays in diagnostic failure.
2. Describe learnings from medical liability closed claims to help mitigate future risks of Diagnostic Error.
3. Describe a diagnostic error index (DEI) that can be used to measure and improve diagnostic errors.
4. Discuss the development of expertise in professional practice.
5. Identify the importance of feedback in improving performance over time.
6. Identify rapidly implementable strategies to improve diagnostic performance.
7. Identify strategies to engage patients to improve accuracy and timeliness of diagnosis across the entire healthcare ecosystem from research to direct care.

Intended Audience

Individuals involved or responsible for nursing, case management, social work, physicians, patient safety, pharmacy, risk and/or quality management.

Registration

Registration for this conference series is free, however registration is required. You can access the online registration form at: www.ohiohospitals.org by clicking on Member Services, then Education & Events. Choose the month in which your event occurs then click on the title of the event. At the bottom of the page, click on "Add to Cart."

Continuing Education

The Ohio Hospital Association (OLN-0017-P) is approved as a provider of continuing education by the Ohio Board of Nursing through the approver unit at the Ohio League for Nursing (OBN-006-92) and provider unit approval is valid through June 30, 2020.
